2 Kings

Introduction to 2 Kings

Part 1: General Introduction

Outline of 2 Kings

The prophets Elijah and Elisha (1:1-8:15)

Elijah brings Yahweh's judgment onto King Ahaziah (1:1-18)

Elijah goes to heaven and Elisha replaces him (2:1-25)

Elisha defends the northern kingdom against Moab (3:1-27)

Elisha performs various miracles (4:1-44)

Elisha heals Naaman the Syrian (5:1-27)

Elisha acts in time of war against Syria (6:1-7:20)

Elisha's reputation and prophecy about Hazael (8:1-15)

The history of Judah and Israel from Kings Jehoram and Joram to the fall of Israel (8:16-17:41)

The history of Judah from King Hezekiah to the fall of Judah (18:1-25:30)

What are the Books of 1 and 2 Kings about?

These books are about what happened to the people of Israel, from the time of King Solomon to the time both the northern and southern kingdoms were destroyed. These books describe how Israel split into two kingdoms after Solomon died. It also tells about all the kings that ruled over each kingdom after Solomon died.

In the southern kingdom, some kings did what Yahweh judged to be right. For example, King Josiah repaired the temple and reformed the worship of Yahweh. He responded to the high priest finding a copy of the Law of Yahweh in Jerusalem (2 Kings 22-23). However, all of the kings of the northern kingdom were wicked.

The Assyrians destroyed the northern kingdom in 722 B.C. The Babylonians destroyed the southern kingdom in 586 B.C.

How should the title of this book be translated?

The Books of 1 and 2 Kings were originally one book in Hebrew. They were separated into two books when translated into Greek. Translators might choose more meaningful titles such as "The First Book about the Kings" and "The Second Book about the Kings."

Part 2: Important Religious and Cultural Concepts

What is the purpose of 1 and 2 Kings?

These books were probably finished during the exile, after the Babylonians had destroyed the temple. They show how being faithful to Yahweh results in his blessing and prospering his people. Worshipping idols and not being faithful result in their being punished and destroyed.

Part 3: Important Translation Issues

Why do the Books of 1 and 2 Kings refer to someone being addressed indirectly?

In the Bible, people often referred to themselves as “your servant” when speaking to anyone in a superior position to themselves. Indirectly addressing people in this way was intended to honor the one addressed. English sometimes uses the address “sir” in this way. But a translator should use whatever expressions that are natural in the project language in order to honor someone in a superior position.

What does the king “did what was right (or) evil in the eyes of Yahweh” mean?

The writer repeats this kind of expression throughout the Books of 1 and 2 Kings. Here “in the eyes of Yahweh” represents what Yahweh thinks about someone. If a king was faithful and obeyed the covenant, he did what was right according to Yahweh. If he was not faithful and disobeyed the covenant, he did what was evil according to Yahweh.

What is the meaning of the term “Israel”?

The name “Israel” is used in many different ways in the Bible. Jacob was the son of Isaac. God changed Jacob’s name to Israel. The descendants of Jacob became a nation also called Israel. Eventually, the nation of Israel split into two kingdoms. The northern kingdom was named Israel. The southern kingdom was named Judah. (See: [Israel, Israelites](#))

What does the phrase “to this day” mean?

This phrase was used by the narrator to refer to the time when he was writing. The translator should be aware that “to this day” refers to a time already passed. The translator might decide to say, “to this day, at the time when this is being written,” or, “to this day, at the time of writing.” This Hebrew phrase occurs in 2 Kings 2:22; 8:22; 10:27; 14:7; 16:6; 17:23, 34, 41.

Can I translate 2 Kings before 1 Kings?

The Book of 1 Kings should be translated before 2 Kings, since 2 Kings continues from where 1 Kings ends.

2 Kings 1

2 Kings 1 General Notes

Structure and formatting

2 Kings is a continuation of 1 Kings.

The story of Elijah continues in this chapter.

Special concepts in this chapter

God's sovereignty

God is in control of the future. King Ahaziah sent messengers to ask the Philistine god if he would recover from his fall, but this god does not know the future. Because he asked another god instead of Yahweh, Elijah sent the messengers to tell Ahaziah that he would not recover. (See: [god](#), [false god](#), [goddess](#), [idol](#), [idolater](#), [idolatrous](#), [idolatry](#))

Important figures of speech in this chapter

Rhetorical question

Elijah rebuked the king with a rhetorical question: "Is it because there is no God in Israel that you are going to consult with Baal Zebub, the god of Ekron?" (See: [Rhetorical Question](#))

2 Kings 1:1

Moab rebelled

“The people who lived in Moab rebelled”

ULT

¹ Moab rebelled against Israel after the death of Ahab.

2 Kings 1:2

the lattice in his upper chamber

The upper room was built on the roof of the palace. The lattice was made of thin boards decoratively crossed over one another to form a balcony or window covering. Alternate translation: "the wooden boards around the flat roof of his palace" (See: [Assumed Knowledge and Implicit Information](#))

Baal-Zebub

(See: [How to Translate Names](#))

ULT

² Then Ahaziah fell down through the lattice in his upper chamber in Samaria, and was injured. So he sent for messengers and said to them, "Go, ask Baal-Zebub, the god of Ekron, whether I will recover from this injury."

2 Kings 1:3

Yahweh

This is the name of God that he revealed to his people in the Old Testament. See the translationWord page about Yahweh concerning how to translate this.

the Tishbite

This refers to someone from the city of Tishbe. (See: [How to Translate Names](#))

ULT

³ But the angel of Yahweh said to Elijah the Tishbite, "Arise, go up to meet the messengers of the king of Samaria, and ask them, 'Is it because there is no God in Israel that you are going to consult with Baal-Zebub, the god of Ekron?'"

Is it because there is no God in Israel that you are going to consult with Baal-Zebub, the god of Ekron?

This rhetorical question is asked as a rebuke for consulting Baal-Zebub. This may be written as a statement. This is irony because they are definitely aware of the God of Israel. Alternate translation: "You fools! You know there is a God in Israel, but you were acting as though you did not know when you sent men to consult Baal-Zebub, the god of Ekron!" (See: [Rhetorical Question](#) and [Irony](#))

consult with Baal-Zebub

The word "consult" means to get the opinion of someone about a question.

2 Kings 1:4

Therefore Yahweh says

This is Yahweh's message to King Ahaziah. Alternate translation: "Therefore Yahweh says to King Ahaziah" (See: [Assumed Knowledge and Implicit Information](#))

You will not come down from the bed to where you have gone up

When King Ahaziah was injured, he was placed in a bed. Yahweh said that he will never become well and be able to get out of the bed. Alternate translation: "You will not recover and you will not get up from the bed on which you are lying" (See: [Assumed Knowledge and Implicit Information](#))

ULT

⁴ Therefore Yahweh says, "You will not come down from the bed to where you have gone up; instead, you will certainly die." Then Elijah left.

2 Kings 1:5

When the messengers returned to Ahaziah

After meeting with Elijah, the messengers returned to the king instead of going to Ekron. (See: [Assumed Knowledge and Implicit Information](#))

ULT

⁵ When the messengers returned to Ahaziah, he said to them, “Why have you returned?”

2 Kings 1:6

Is it because there is no God in Israel that you sent men to consult with Baal-Zebub, the god of Ekron?

This rhetorical question is asked as a rebuke for consulting Baal-Zebub. This may be written as a statement. This is irony because they are definitely aware of the God of Israel. See how you translated a similar question in [2 Kings 3:3](#). Alternate translation: "You fools! You know there is a God in Israel, but you were acting as though you did not know when you sent men to consult Baal-Zebub, the god of Ekron!" (See: [Rhetorical Question](#))

you will not come down from the bed to which you have gone up

When King Ahaziah was injured, he was placed in a bed. Yahweh said that he will never become well and be able to get out of the bed. See how you translated this statement in [2 Kings 3:4](#). Alternate translation: "you will not recover and you will not get up from the bed on which you are lying" (See: [Assumed Knowledge and Implicit Information](#))

ULT

⁶ They said to him, "A man came to meet us who said to us, 'Go back to the king who sent you, and say to him, "Yahweh says this: 'Is it because there is no God in Israel that you sent men to consult with Baal-Zebub, the god of Ekron? Therefore you will not come down from the bed to which you have gone up; instead, you will certainly die.'""

2 Kings 1:7

(There are no notes for this verse.)

ULT

⁷ Ahaziah said to his messengers, “What sort of man was he, the one who came up to meet you and said these words to you?”

2 Kings 1:8

He wore a garment made of hair

This could mean: (1) this is a metaphor that speaks of him being very hairy as if his hair were a garment. Alternate translation: "He was very hairy" or (2) "His clothes were made from animal hair" (See: [Assumed Knowledge and Implicit Information](#))

ULT

⁸ They answered him, "He wore a garment made of hair and had a leather belt wrapped around his waist." So the king replied, "That is Elijah the Tishbite."

2 Kings 1:9

Then the king sent a captain with fifty soldiers to Elijah

The king sent the leader of the army with fifty men to bring Elijah back to him. Alternate translation: "Then the king sent a captain with fifty soldiers to seize Elijah" (See: [Assumed Knowledge and Implicit Information](#))

fifty soldiers

"50 soldiers" (See: [Numbers](#))

ULT

⁹ Then the king sent a captain with fifty soldiers to Elijah. The captain went up to Elijah where he was sitting on the top of a hill. The captain spoke to him, "You, man of God, the king has said, 'Come down.'"

2 Kings 1:10

If I am a man of God, let fire come down from heaven

The captain had called Elijah a man of God, but the captain and the king did not show Elijah proper respect. Elijah said this so that fire would come down from heaven, and this would prove that Elijah really was a man of God and he deserved their respect. Alternate translation: "Since I am a man of God, let fire come down from heaven" or "If I am a man of God as you have said, let fire come down from heaven"

from heaven

"from the sky"

ULT

¹⁰ Elijah answered and said to the captain, "If I am a man of God, let fire come down from heaven and consume you and your fifty men." Then fire came down from heaven and consumed him and his fifty men.

2 Kings 1:11

fifty soldiers

“50 soldiers” (See: [Numbers](#))

ULT

11 Again King Ahaziah sent to Elijah another captain with fifty soldiers. This captain also said to Elijah, “You, man of God, the king says, ‘Come down quickly.’”

2 Kings 1:12

If I am a man of God, let fire come down from heaven

The captain had called Elijah a man of God, but the captain and the king did not show Elijah proper respect. Elijah said this so that fire would come down from heaven, and this would prove that Elijah really was a man of God and he deserved their respect. See how you translated this phrase in [2 Kings 1:10](#). Alternate translation: "Since I am a man of God, let fire come down from heaven" or "If I am a man of God as you have said, let fire come down from heaven"

fire of God

This means that the fire came from God. Alternate translation: "fire from God" (See: [Possession](#))

ULT

¹² Elijah answered and said to them, "If I am a man of God, let fire come down from heaven and consume you and your fifty men." Again the fire of God came down from heaven and consumed him and his fifty men.

2 Kings 1:13

fifty warriors

“50 warriors” or “50 soldiers” (See: [Numbers](#))

implored him

“begged him”

these fifty servants of yours

The captain says that his servants are Elijah’s servants to show him honor. AT “my fifty soldiers” (See: [Assumed Knowledge and Implicit Information](#))

let my life and the life of ... be precious in your sight

Here Elijah’s “sight” represents him judgement or evaluation. The captain is pleading with Elijah to let them live. Alternate translation: “please consider my life and the life of ... as precious to you” or “consider my life and the life of ... to be of worth to you and do not kill us” (See: [Metaphor](#) and [Assumed Knowledge and Implicit Information](#))

ULT

13 Yet again the king sent a third group of fifty warriors. This captain went up, fell on his knees before Elijah, and implored him and said to him, “You, man of God, I ask you, let my life and the life of these fifty servants of yours be precious in your sight.”

2 Kings 1:14

let my life be precious in your sight

Here Elijah's "sight" represents him judgement or evaluation. The captain is repeating his request for Elijah to show kindness to him and let him live. Alternate translation: "please be kind to me" or "please allow me to live" (See: [Metaphor](#) and [Assumed Knowledge and Implicit Information](#))

ULT

14 Indeed, fire came down from heaven and consumed the first two captains with their men, but now let my life be precious in your sight."

2 Kings 1:15

(There are no notes for this verse.)

ULT

15 The angel of Yahweh said to Elijah,
“Go down with him. Do not be afraid of
him.” So Elijah arose and went down
with him to the king.

2 Kings 1:16

Is it because there is no God in Israel from whom you can ask for information?

This rhetorical question is asked as a rebuke for consulting Baal-Zebub. This may be written as a statement. This is irony because the king is definitely aware of the God of Israel. Alternate translation: "You must think there is no God in Israel whom you may ask for information!" or "You fool! You know there is a God in Israel to consult, but you acted as if you did not know." (See: [Rhetorical Question](#) and [Irony](#))

ULT

¹⁶ Later Elijah said to Ahaziah, "This is what Yahweh says, 'You have sent messengers to consult with Baal-Zebub, the god of Ekron. Is it because there is no God in Israel from whom you can ask for information? So now, you will not come down from the bed where you have gone up; you will certainly die.'"

you will not come down from the bed where you have gone up

When King Ahaziah was injured, he was placed in a bed. Yahweh said that he will never become well and be able to get out of the bed. See how you translated this statement in [2 Kings 3:4](#). Alternate translation: "you will not recover and you will not get up from the bed where you are lying" (See: [Assumed Knowledge and Implicit Information](#))

2 Kings 1:17

the word of Yahweh that Elijah had spoken

“what Yahweh had told Elijah that Elijah had spoken”

in the second year of Jehoram son of Jehoshaphat king of Judah

This describes the time that Joram began to reign over Israel by stating how long Jehoram had been reigning over Jerusalem.

Alternate translation: “in the second year that Jehoram son of Jehoshaphat was king of Judah” (See: [Assumed Knowledge and Implicit Information](#) and [Ordinal Numbers](#))

ULT

17 So King Ahaziah died according to the word of Yahweh that Elijah had spoken. Joram began to reign in his place, in the second year of Jehoram son of Jehoshaphat king of Judah, because Ahaziah had no son.

2 Kings 1:18

are they not written ... Israel?

This rhetorical question can be written as a statement. It can also be stated in active form. Alternate translation: “they are written ... Israel.” or “someone has written about them in ... Israel.” (See: [Rhetorical Question](#) and [Active or Passive](#))

ULT

18 As for the other matters concerning Ahaziah, are they not written in the book of the events of the kings of Israel?

2 Kings 2

2 Kings 2 General Notes

Structure and formatting

This chapter ends the story of Elijah and begins the story of Elisha.

Special concepts in this chapter

Elisha replaces Elijah as the chief prophet of God. (See: [prophet](#), [prophecy](#), [prophecy](#), [seer](#), [prophetess](#))

2 Kings 2:1

So it came about

“So it happened.” This phrase is used to introduce the next event in the story line. (See: [Introduction of a New Event](#))

a whirlwind

a strong wind that spins around and around

ULT

¹ So it came about, when Yahweh was going to take up Elijah by a whirlwind into heaven, that Elijah left with Elisha from Gilgal.

2 Kings 2:2

As Yahweh lives, and as you live

“As surely as Yahweh lives and as you live.” Here Elisha compares the certainty that Yahweh and Elijah are alive to the certainty of what he is saying. This is a way of making a solemn promise. Alternate translation: “I solemnly promise you that” (See: [Simile](#))

ULT

² Elijah said to Elisha, “Stay here, please, because Yahweh has sent me to Bethel.” Elisha replied, “As Yahweh lives, and as you live, I will not leave you.” So they went down to Bethel.

2 Kings 2:3

The sons of the prophets

This does not mean that they were the sons of prophets, but rather, that they were a group of prophets. Alternate translation: "A group of men who were prophets" (See: [Idiom](#))

ULT

³ The sons of the prophets who were at Bethel came to Elisha and said to him, "Do you know that Yahweh will take away your master from you today?" Elisha replied, "Yes, I know it, but do not talk about it."

2 Kings 2:4

As Yahweh lives, and as you live, I will not leave you

“As surely as Yahweh lives and as you live, I will not leave you.” Here Elisha compares the certainty that Yahweh and Elijah are alive to the certainty of what he is saying. This is a way of making a solemn promise. See how you translated this phrase in [2 Kings 2:2](#). Alternate translation: “I solemnly promise you that I will not leave you” (See: [Simile](#))

ULT

⁴ Elijah said to him, “Elisha, wait here, please, for Yahweh has sent me to Jericho.” Then Elisha replied, “As Yahweh lives, and as you live, I will not leave you.” So they went to Jericho.

2 Kings 2:5

Then the sons of the prophets who were at Jericho came to Elisha and said to him

“When Elijah and Elisha came near Jericho, the sons of the prophets who were from there said to Elisha”

the sons of the prophets

This does not mean that they were the sons of prophets, but rather, that they were a group of prophets. See how you translated this phrase in [2 Kings 2:3](#). Alternate translation: “the group of men who were prophets” (See: [Idiom](#))

ULT

⁵ Then the sons of the prophets who were at Jericho came to Elisha and said to him, “Do you know that Yahweh will take away your master from you today?” Elisha answered, “Yes, I know it, but do not talk about it.”

2 Kings 2:6

As Yahweh lives, and as you live, I will not leave you

“As surely as Yahweh lives and as you live, I will not leave you.” Here Elisha compares the certainty that Yahweh and Elijah are alive to the certainty of what he is saying. This is a way of making a solemn promise. See how you translated this phrase in [2 Kings 2:2](#). Alternate translation: “I solemnly promise you that I will not leave you” (See: [Simile](#))

ULT

⁶ Then Elijah said to him, “Stay here, please, for Yahweh has sent me to the Jordan.” Elisha replied, “As Yahweh lives, and as you live, I will not leave you.” So the two went on.

2 Kings 2:7

fifty of the sons

“50 of the sons” (See: [Numbers](#))

the sons of the prophets

This does not mean that they were the sons of prophets, but rather, that they were a group of prophets. See how you translated this phrase in [2 Kings 2:3](#). Alternate translation: “the group of men who were prophets” (See: [Idiom](#))

stood opposite them

This means that they were standing, facing them. Alternate translation: “stood facing them” or “stood watching them” (See: [Idiom](#))

ULT

⁷ Later, fifty of the sons of the prophets stood opposite them at a distance while the two stood by the Jordan.

2 Kings 2:8

cloak

outer piece of clothing used as a covering

The river divided on both sides so that the two of them walked over on dry ground

“The water of the Jordan River opened up so there was a dry path for Elijah and Elisha to cross over to the other side”

on both sides

“to the right and the left.” This refers to the right and the left of where Elijah struck the water.

ULT

⁸ Elijah took his cloak, rolled it up, and struck the water with it. The river divided on both sides so that the two of them walked over on dry ground.

2 Kings 2:9

It came about

“it happened”

crossed over

This refers to crossing the Jordan River. Alternate translation: “crossed over the Jordan River” (See: [Assumed Knowledge and Implicit Information](#))

before I am taken from you

This can be stated in active form. Alternate translation: “before Yahweh takes me from you” (See: [Active or Passive](#))

a double portion of your spirit

Here Elijah’s spirit refers to his spiritual power. Alternate translation: “twice as much of your spiritual power” (See: [Metonymy](#))

ULT

⁹ It came about, after they had crossed over, that Elijah said to Elisha, “Ask me what I should do for you before I am taken from you.” Elisha replied, “Please let a double portion of your spirit come on me.”

2 Kings 2:10

(There are no notes for this verse.)

ULT

¹⁰ Elijah answered, "You have asked for a difficult thing. Nevertheless, if you see me when I am taken from you, this will happen for you, but if not, it will not happen."

2 Kings 2:11

behold

The word “behold” here alerts us to pay attention to the surprising information that follows.

a chariot of fire and horses of fire

Here the phrase “of fire” means that these were surround by fire.

Alternate translation: “a chariot surrounded by fire pulled by horses surrounded by fire” (See: [Possession](#))

went up by a whirlwind into heaven

“was carried into the sky by a whirlwind.” Translate the word “whirlwind” the same as you did in [2 Kings 2:1](#).

ULT

11 As they still went on and talked, behold, a chariot of fire and horses of fire appeared, which separated the two men from each other, and Elijah went up by a whirlwind into heaven.

2 Kings 2:12

My father, my father

Elisha is calling Elijah his respected leader.

tore them into two pieces

People would often tear their clothes as a sign of great sadness or grief. Alternate translation: “ripped them in two pieces to show his great sadness” (See: [Symbolic Action](#))

ULT

¹² Elisha saw it and cried out, “My father, my father, the chariots of Israel and their horsemen!” He saw Elijah no more, and he took hold of his own clothes and tore them into two pieces.

2 Kings 2:13

cloak

The cloak was the outer clothing of a prophet. It was the sign of his job. When Elisha took Elijah's cloak he was saying he was taking Elijah's place as prophet.

ULT

13 He picked up Elijah's cloak that had fallen off him, and went back to stand by the bank of the Jordan.

2 Kings 2:14

Where is Yahweh, the God of Elijah?

Elisha is asking if Yahweh is with him as he was with Elijah. Alternate translation: "Yahweh, the God of Elijah, are you here with me?" (See: [Assumed Knowledge and Implicit Information](#))

they divided on both sides and Elisha crossed over

The river separated and Elisha walked to the other side on dry ground, the same way he did previously when he was with Elijah.

on both sides

"to the right and the left." This refers to the right and the left of where Elijah struck the water.

ULT

14 He struck the water with Elijah's cloak that had fallen and said, "Where is Yahweh, the God of Elijah?" When he had struck the waters, they divided on both sides and Elisha crossed over.

2 Kings 2:15

the sons of the prophets

This does not mean that they were the sons of prophets, but rather, that they were a group of prophets. See how you translated this phrase in [2 Kings 2:3](#). Alternate translation: “the group of prophets” (See: [Idiom](#))

bowed themselves to the ground before him

They are showing him deep respect and acknowledging him as their new leader.

The spirit of Elijah does rest on Elisha

Here Elijah’s “spirit” refers to his spiritual power. This speaks of Elisha having this spiritual power as if it were something that physically rested upon him. Alternate translation: “Elisha does have the same spiritual power that Elijah did” or “The spiritual power Elijah had is now with Elisha” (See: [Metonymy](#) and [Metaphor](#))

ULT

15 When the sons of the prophets who were from Jericho saw him across from them, they said, “The spirit of Elijah does rest on Elisha!” So they came to meet him, and bowed themselves to the ground before him.

2 Kings 2:16

See now, among your servants there are fifty strong men. Let them go

These men are referring to themselves when they say “fifty strong men.” Alternate translation: “See now, we are fifty strong men and we are now your servants. Let us go” (See: [Assumed Knowledge and Implicit Information](#))

fifty strong men

“50 strong men” (See: [Numbers](#))

ULT

ULT

21 Elisha went out to the spring of water and threw salt in it; then he said, "Yahweh says this, 'I have healed these waters. From this time on, there will be no more death or unfruitful land.'"

2 Kings 2:22

the waters were healed

Structure and formatting

The story of Elisha continues in this chapter.

Special concepts in this chapter

Victory and defeat

God is in control of victory and defeat. The armies of Israel, Judah and Edom united to attack Moab from the desert for failure to pay tribute. When they ran out of water, they were in desperate condition. Therefore, they asked Elisha (the prophet of God) what to do and he said God would give them water and victory over Moab. (See: [prophet](#), [prophecy](#), [prophesy](#), [seer](#), [prophetess](#))

Important figures of speech in this chapter

Idiom

They described Elisha with the idiom, “who poured water on the hands of Elijah,” meaning “who served Elijah.” (See: [Idiom](#))

Other possible translation difficulties in this chapter

Anger

It is said that, “Anger came on Israel.” It is not clear who was angry or why they were angry.

2 Kings 3:1

in the eighteenth year of Jehoshaphat king of Judah

This describes the time that Joram began to reign by stating how long the current king of Judah had reigned. The meaning of this statement can be made clear. Alternate translation: “in the eighteenth year that Jehoshaphat was king of Judah” (See: [Assumed Knowledge and Implicit Information](#))

ULT

¹ Now in the eighteenth year of Jehoshaphat king of Judah, Joram son of Ahab began to reign over Israel in Samaria; he reigned twelve years.

the eighteenth year

“year 18” (See: [Ordinal Numbers](#))

Joram son of Ahab

Sometimes this man is referred to as “Jehoram.” This is not the same person as the man mentioned in [2 Kings 1:17](#) named “Jehoram.”

2 Kings 3:2

what was evil in the sight of Yahweh

Here “sight” refers to Yahweh’s thoughts or opinion. Alternate translation: “what Yahweh considers to be evil” or “what is evil in Yahweh’s judgement” (See: [Metaphor](#))

He had to give to the king of Israel 100,000 lambs and the wool of 100,000 rams

Mesha had to give these things to the king of Israel because his kingdom was controlled by the king of Israel. The full meaning of this statement can be made explicit. Alternate translation: “Every year he was forced to give 100,000 lambs and the wool from 100,000 rams to the king of Israel, because his kingdom was controlled by the king of Israel” (See: [Assumed Knowledge and Implicit Information](#))

ULT

⁴ Now Mesha king of Moab bred sheep. He had to give to the king of Israel 100,000 lambs and the wool of 100,000 rams.

100,000 lambs...100,000 rams

“one hundred thousand lambs ... one hundred thousand rams” (See: [Numbers](#))

ULT

⁶ So King Joram left Samaria at that time to mobilize all Israel for war.

2 Kings 3:7

General Information:

King Joram continues speaking to King Jehoshaphat.

Will you go with me against Moab to battle?

The word “you” refers to Jehoshaphat, but refers to both him and his army. Here “Moab” stands for “the army of Moab.” Alternate translation: “Will you and your army go with me to fight against the army of Moab?” (See: [Synecdoche](#))

ULT

⁷ He sent a message to Jehoshaphat king of Judah, saying, “The king of Moab has rebelled against me. Will you go with me against Moab to battle?”

Alternate translation: “We are ready to do whatever you want us to. My soldiers and my horses are ready to help you” (See: [Assumed Knowledge and Implicit Information](#))

2 Kings 3:8

ULT

⁹ So the king of Israel went with the king of Judah and the king of Edom. They wandered around for seven days, and then there was no water for the army or for the animals that followed them.

2 Kings 3:10

What is this? Has Yahweh called three kings to give them into the hand of Moab?

Alternate translation: "It looks like Yahweh will allow all three of us to be captured by Moab!" (See: [Rhetorical Question](#))

ULT

¹⁰ So the king of Israel said, "What is this? Has Yahweh called three kings to give them into the hand of Moab?"

2 Kings 3:14

As Yahweh of hosts lives, before whom I stand, surely

“As I know that Yahweh of hosts lives, before whom I stand, surely.” Here Elisha compares the certainty that Yahweh is alive to the certainty that, if it were not for Jehoshaphat being there, he would not pay attention to Joram. This is a way of making a solemn promise. Alternate translation: “As surely as Yahweh of hosts lives, before whom I stand, I promise you, if it” (See: [Simile](#))

ULT

¹⁴ Elisha replied, “As Yahweh of hosts lives, before whom I stand, surely were it not for the fact that I honor the presence of Jehoshaphat king of Judah, I would not pay any attention to you, or even look at you.”

This was the bed in the room she had prepared for Elisha when he traveled through Shunem. (See: [Assumed Knowledge and Implicit Information](#))

the man of God

“Elisha, the man of God”

ULT

21 So the woman got up and laid the boy on the bed of the man of God, shut the door, and went out.

2 Kings 4:22

that I may hurry to the man of God and then come back

The woman told her husband she was going to see Elisha but she did not say that she was going because their son had died. This implicit information may be stated clearly. Alternate translation: "that I may hurry to the man of God and then come back." But she did not tell her husband that their son had died" (See: [Assumed Knowledge and Implicit Information](#))

ULT

²² She called to her husband, and said, "Please send me one of the servants and one of the donkeys so that I may hurry to the man of God and then come back."

2 Kings 4:23

It will be all right

The woman states this, knowing this will be the case if her husband does as she requests. The full meaning of this statement can be made explicit. Alternate translation: "Everything will be all right if you do as I ask" (See: [Assumed Knowledge and Implicit Information](#))

ULT

²³ Her husband said, "Why do you want to go to him today? It is not a new moon nor a Sabbath." She replied, "It will be all right."

2 Kings 4:24

she saddled a donkey

The woman did not saddle the donkey, rather the servant would have saddled it for her. Alternate translation: “she had her servant saddle a donkey” (See: [Metonymy](#))

ULT

²⁴ Then she saddled a donkey and said to her servant, “Drive on quickly; do not slow down for me unless I say so.”

2 Kings 4:25

So she went and came to the man of God at Mount Carmel

"So she traveled toward Mount Carmel where Elisha, the man of God, was"

So when the man of God saw her in the distance

"While she was still far off, and Elisha saw her coming"

ULT

²⁵ So she went and came to the man of God at Mount Carmel. So when the man of God saw her in the distance, he said to Gehazi his servant, "Look, here comes the Shunammite woman."

2 Kings 4:26

It is alright

"It is well" or "Yes, everything is fine"

ULT

²⁶ Please run to meet her and say to her, 'Is everything alright with you and with your husband and child?'" She answered, "It is alright."

2 Kings 4:27

the mountain

she caught hold of his feet

This implies that she knelt or laid on the ground in front of him and grabbed his feet. Alternate translation: “she dropped down on the ground in front of him and put her hands around his feet” (See: [Assumed Knowledge and Implicit Information](#))

ULT

²⁷ When she came to the man of God at the mountain, she caught hold of his feet. Gehazi came near to thrust her away but the man of God said, “Leave her alone, for she is very upset, and Yahweh has hidden the problem from me, and has told me nothing.”

Yahweh has hidden the problem from me, and has told me nothing

Elisha can see that the woman is upset but Yahweh has not revealed to him the cause of her problem.

2 Kings 4:28

Did I ask you for a son, my master? Did I not say, 'Do not deceive me'?

The woman uses these rhetorical questions to show that she is upset about what has happened. She is speaking about her conversation with Elisha when he told her that she was going to have a son. These questions may be written as a statement. Alternate translation: "I did not ask you to give me a son, but I did ask you not to lie to me!" (See: [Rhetorical Question](#))

ULT

²⁸ Then she said, "Did I ask you for a son, my master? Did I not say, 'Do not deceive me'?"

2 Kings 4:29

Dress for travel

“Get ready to travel”

If you meet any man, do not greet him, and if anyone greets you, do not answer him

Elisha wanted Gehazi to travel as quickly as possible, without even stopping to talk to anyone.

ULT

²⁹ Then Elisha said to Gehazi, “Dress for travel and take my staff in your hand. Go to her home. If you meet any man, do not greet him, and if anyone greets you, do not answer him. Lay my staff on the child’s face.”

2 Kings 4:30

As Yahweh lives, and as you live

“As surely as Yahweh lives and as you live.” This shows that the mother is taking an oath. The mother compares the certainty that Yahweh and Elisha are alive to the certainty of what she is saying. This is a way of making a solemn promise. Alternate translation: “I solemnly promise that”

ULT

³⁰ But the mother of the child said, “As Yahweh lives, and as you live, I will not leave you.” So Elisha arose and followed her.

2 Kings 4:31

but the child did not speak or hear

This means that the child was not alive. The full meaning of this statement can be made explicit. Alternate translation: “but the child did not show any signs of being alive” (See: [Assumed Knowledge and Implicit Information](#))

has not awakened

Here being dead is spoken of as being asleep. Alternate translation: “is still dead” (See: [Euphemism](#))

ULT

³¹ Gehazi hurried on ahead of them and laid the staff on the child's face, but the child did not speak or hear. So then Gehazi returned to meet Elisha and told him saying, “The child has not awakened.”

2 Kings 4:32

ULT

³² When Elisha arrived at the house, the child was dead and was still on the bed.

2 Kings 4:33

So Elisha went in and shut the door on the child and himself

“So Elisha went by himself into the room where the child lay, closed the door”

ULT

³³ So Elisha went in and shut the door on the child and himself and prayed to Yahweh.

2 Kings 4:34

(There are no notes for this verse.)

ULT

³⁴ He went up and lay on the child; he put his mouth on his mouth, his eyes on his eyes, and his hands on his hands. He stretched himself out on the boy, and the boy's body grew warm.

2 Kings 4:35

stretched himself out on the boy

“laid on top of the boy again”

ULT

³⁵ Then Elisha got up and walked around the room and again went up and stretched himself out on the boy. The child sneezed seven times and then opened his eyes!

2 Kings 4:36

the Shunammite

“the Shunammite woman”

ULT

³⁶ So Elisha called Gehazi and said, “Call the Shunammite!” So he called her, and when she came into the room, Elisha said, “Pick up your son.”

2 Kings 4:37

Then she lay facedown on the ground at his feet and bowed to the ground

The woman bowed down before Elisha as a sign of great respect and appreciation. Alternate translation: "Then she bowed in front of Elisha with her face to the ground to show him her gratitude" (See: [Symbolic Action](#))

ULT

³⁷ Then she lay facedown on the ground at his feet and bowed to the ground, and then picked up her son and went out.

2 Kings 4:39

These vegetables were growing wild, meaning someone had not planted them.

fill the fold of his robe

He lifted the bottom edge of his robe up to his waist to make a place to carry more gourds than he could carry with his hands only.

but did not know what kind they were

Since they did not know what kind of gourds they were they did not know whether or not they were safe to eat. The full meaning of this statement can be made clear. Alternate translation: “but did not know if they were good or bad to eat” (See: [Assumed Knowledge and Implicit Information](#))

ULT

³⁹ One of them went out into a field to gather vegetables. He found a wild vine and gathered enough wild gourds to fill the fold of his robe. They cut them up and put them into the stew, but did not know what kind they were.

2 Kings 4:40

they poured out the stew

“they poured the stew into bowls”

there is death in the pot

This means that there was something in the pot that could kill them, not that there is something dead in the pot. Alternate translation: “there is something in the pot that will kill us” (See: [Metonymy](#))

ULT

⁴⁰ So they poured out the stew for the men to eat. Later, as they were eating, they cried out and said, “Man of God, there is death in the pot!” So they could not eat it anymore.

2 Kings 4:41

He threw it into the pot

"He added it to the stew in the pot"

Pour it out for the people

"Serve it to the people"

ULT

⁴¹ But Elisha said, "Bring some flour." He threw it into the pot and said, "Pour it out for the people, so that they may eat." Then there was no longer anything hurtful in the pot.

2 Kings 4:42

ULT

⁴² A man came from Baal Shalishah to the man of God and brought twenty loaves of barley bread in his sack from the new harvest, and fresh ears of grain. He said, “Give this to the people so they can eat.”

2 Kings 4:43

What, should I set this before a hundred men?

The man uses this rhetorical question to imply that this is not enough bread to feed 100 men. This can be written as a statement. Alternate translation: "That is not enough to feed a hundred men!" (See: [Rhetorical Question](#))

a hundred men

"100 men" (See: [Numbers](#))

ULT

⁴³ His servant said, "What, should I set this before a hundred men?" But Elisha said, "Give this to the people, so they can eat, because Yahweh says, 'They will eat and will have some left.'"

2 Kings 4:44

the word of Yahweh

Here Yahweh is referred to by what he said. This phrase is a metonym for Yahweh himself. Alternate translation: “Yahweh” (See: [Metonymy](#))

ULT

44 So his servant set it before them; they ate, and left some remaining, just as the word of Yahweh promised.

2 Kings 5

because by him Yahweh had given victory to Aram

Here "Aram" refers to the Aramean army. Alternate translation: "because through Naaman, Yahweh had given victory to the Aramean army"

ULT

2 Kings 5:2

The Arameans had gone out

Here the “Arameans” refer to the Aramean soldiers. (See: [Synecdoche](#))

raiding in bands

The girl said to her mistress

The girl from Israel, who had been captured by the Aramean soldiers, spoke to Naaman's wife.

my master

ULT

³ The girl said to her mistress, "I wish that my master were with the prophet who is in Samaria! Then he would heal my master of his leprosy."

2 Kings 5:7

he tore his clothes

Often people would rip their clothes if they were in great distress. Alternate translation: "he ripped his clothes to show his distress" (See: [Symbolic Action](#))

Am I God, to kill and to make alive, that this man wants me to cure a man of his leprosy?

The king uses this rhetorical question to emphasize that the request of the king of Aram is outrageous and something he cannot do. This can be written as a statement. Alternate translation: "The king of Aram must think I am some sort of God, with the power over death and life! He wants me to cure this man of his leprosy, but I cannot do that." (See: [Rhetorical Question](#))

It seems he is seeking to start an argument with me

The king of Israel did not believe the request to heal Naamam was the real reason for the letter. He thought the real reason was to start a fight. Alternate translation: "It seems he is looking for an excuse to start a fight with me" (See: [Assumed Knowledge and Implicit Information](#))

ULT

⁷ When the king of Israel had read the letter, he tore his clothes and said, "Am I God, to kill and to make alive, that this man wants me to cure a man of his leprosy? It seems he is seeking to start an argument with me."

2 Kings 5:12

2 Kings 11 General Notes

Structure and formatting

This chapter is the beginning of the story of the spiritual revival in Judah under Joash. The people returned to properly worshiping Yahweh. (See: [spirit](#), [wind](#), [breath](#))

Special concepts in this chapter

Athaliah's evil actions

The mother of the king of Judah, Athaliah, killed all the royal children so that she could rule. She was not able to kill the baby Joash because his aunt hid him in the temple. When Joash was seven years old, the chief priest conspired with the army and made Joash king. They killed Athaliah and destroyed the temple of Baal. (See: [temple](#), [house](#), [house of God](#))

2 Kings 11:1

Athaliah

This is the name of a woman. (See: [How to Translate Names](#))

saw that her son was dead

“became aware that her son was dead”

she arose and killed all the royal children

Athaliah did not personally kill the children. Alternate translation: “she commanded her servants to kill all the members of Ahaziah’s family who might become king” (See: [Assumed Knowledge and Implicit Information](#))

ULT

¹ Now when Athaliah, the mother of Ahaziah, saw that her son was dead, she arose and killed all the royal children.

2 Kings 11:2

took Joash son of Ahaziah, and hid him away from among the king's sons who were killed, along with his nurse; she put them into a bedroom. They hid him from Athaliah so that he was not killed.

“took Ahaziah’s very young son Joash and hid him and his nursemaid in a bedroom in the temple. So he was not killed”

ULT

² But Jehosheba, a daughter of King Jehoram and sister of Ahaziah, took Joash son of Ahaziah, and hid him away from among the king’s sons who were killed, along with his nurse; she put them into a bedroom. They hid him from Athaliah so that he was not killed.

Jehosheba

This is the name of a woman. (See: [How to Translate Names](#))

Joash

This is the name of a man.

2 Kings 11:3

He remained with her six years, hidden in the house of Yahweh, while Athaliah reigned over the land

ULT

³ He remained with her six years, hidden in the house of Yahweh, while Athaliah reigned over the land.

land

This is a metonym for the people who live in the land. Alternate translation: "people of Judah" (See: [Metonymy](#))

2 Kings 11:4

Connecting Statement:

This continues the story of what happens after Joash, the son of King Azariah, was hidden in the temple after all King Azariah's other descendants were killed.

In the seventh year

"In the seventh year of Athaliah's reign" or "In year 7 of Athaliah's reign" (See: [Numbers](#))

The phrases "commander of hundreds" is probably an official title for a military officer. This could mean: (1) the word "hundreds" represents the exact amount of soldiers that each of these commanders led. Alternate translation: "the commanders of 100 soldiers" or (2) the word translated as "hundreds" does not represent an exact number, but is the name of a military division. Alternate translation: "the commanders of military divisions" (See: [Numbers](#))

brought them to himself

"had them come to meet with him." Jehoiada, the high priest, had these military men report to him at the temple.

Then he showed them the king's son

Jehoiada revealed to them that Joash, King Azariah's son, was still alive.

ULT

⁴ In the seventh year, Jehoiada sent messages and brought the commanders of hundreds of the Carites and of the guard, and brought them to himself, into the temple of Yahweh. He made a covenant with them, and he made them swear an oath in the house of Yahweh. Then he showed them the king's son.

2 Kings 11:5

2 Kings 11:7

General Information:

Jehoiada continues giving directions to the soldiers who will protect King Joash.

They were to keep watch for the purpose of protecting the king from harm. Alternate translation: “in order to protect King Joash” (See: [Assumed Knowledge and Implicit Information](#))

ULT

let him be killed

This can be stated in active form. Alternate translation: “you must kill him” (See: [Active or Passive](#))

You must stay with the king when he goes out, and when he comes in

These two opposite things are a merism that refers to everything the king does. Alternate translation: “You must stay near the king at all times” (See: [Merism](#))

2 Kings 11:9

the commanders of hundreds

The phrase “commander of hundreds” is probably an official title for a military officer. This could mean: (1) the word “hundreds” represents the exact amount of soldiers that each of these commanders led. Alternate translation: “the commanders of 100 soldiers” or (2) the word translated as “hundreds” does not represent an exact number, but is the name of a military division. Alternate translation: “the commanders of military divisions” See how you translated this in [2 Kings 11:4](#). (See: [Numbers](#))

Each one

“Each commander”

ULT

⁹ So the commanders of hundreds obeyed everything Jehoiada the priest commanded. Each one took his men, those who were to come in to serve on the Sabbath, and those who were to stop serving on that Sabbath; and they came to Jehoiada the priest.

2 Kings 11:10

were in the house of Yahweh

“were stored in the temple”

ULT

10 Then Jehoiada the priest gave the commanders of hundreds the spears and shields that belonged to King David and that were in the house of Yahweh.

2 Kings 11:11

from the right side of the temple to the left side, near the altar and the temple

Some versions translate the first two occurrences of “temple” as “palace.” These versions say, “from the right side of the palace to the left side of the palace, near the altar and the temple.”

ULT

¹¹ So the guards stood, each man with his weapon in his hand, from the right side of the temple to the left side, near the altar and the temple, surrounding the king.

2 Kings 11:12

brought out the king's son Joash

Jehoiada, the high priest, brought king Ahaziah's son, Joash, out from the temple apartment where he had been raised in hiding.

gave him the covenant decrees

"presented him with the book of the law"

anointed him

The priest poured olive oil on the head of Joash as a symbol that he was now the king. Alternate translation: "poured some olive oil on Joash's head" (See: [Symbolic Action](#))

clapped their hands

Clapping their hands was a sign of the happiness of the people at the anointing of the new king.

ULT

12 Then Jehoiada brought out the king's son Joash, put the crown on him, and gave him the covenant decrees. Then they made him king and anointed him. They clapped their hands and said, "Long live the king!"

2 Kings 11:13

the noise of the guard

This refers to the noise made by all the soldiers.

she came to the people in the house of Yahweh

“she came to where the people had gathered at the temple”

ULT

13 When Athaliah heard the noise of the guard and of the people, she came to the people in the house of Yahweh.

Athaliah tore her clothes

She tore her clothes to express that she was very upset and angry. (See: [Symbolic Action](#))

Treason! Treason!

“You are traitors! You have betrayed me!”

ULT

¹⁴ She looked, and, behold, the king was standing by the pillar, as the custom was, and the captains and the trumpeters were by the king. All the people of the land were rejoicing and blowing trumpets. Then Athaliah tore her clothes and shouted, “Treason! Treason!”

2 Kings 11:15

the commanders of hundreds

The phrase “commander of hundreds” is probably an official title for a military officer. This could mean: (1) the word “hundreds” represents the exact amount of soldiers that each of these commanders led. Alternate translation: “the commanders of 100 soldiers” or (2) the word translated as “hundreds” does not represent an exact number, but is the name of a military division. Alternate translation: “the commanders of military divisions” See how you translated this in [2 Kings 11:4](#). (See: [Numbers](#))

ULT

15 Then Jehoiada the priest ordered the commanders of hundreds who were over the army, saying, “Bring her out between the ranks. Anyone who follows her, kill him with the sword.” For the priest had said, “Do not let her be killed in the house of Yahweh.”

Bring her out between the ranks

“Take her away between two rows of guards” or “Lead her away with a row of soldiers on each side of her.” Ranks are lines or rows of soldiers.

Anyone who follows her

It is implied that a person who followed her would be trying to help her. Alternate translation: “Anyone who follows to try to rescue her” (See: [Assumed Knowledge and Implicit Information](#))

2 Kings 11:16

**they seized her as she reached the place
where the horses enter the palace grounds**

Some versions translate this as “the guards seized her and took her to the palace, to the place where horses enter the courtyard.”

ULT

¹⁶ So they seized her as she reached the place where the horses enter the palace grounds, and there she was killed.

2 Kings 11:17

also between the king and the people

“also made a covenant between the king and the people”

ULT

17 Then Jehoiada made a covenant between Yahweh and the king and people, that they should be Yahweh's people, and also between the king and the people.

Mattan

This is the name of a male priest. (See: [How to Translate Names](#))

ULT

18 So all the people of the land went to the house of Baal and tore it down. They smashed Baal’s altars and his idol figures to pieces, and they killed Mattan, the priest of Baal, in front of those altars. Then Jehoida the priest appointed guards over the temple of Yahweh.

2 Kings 11:19

General Information:

They take the new king, Joash, from the temple to the palace.

the commanders of hundreds

Alternate translation: “the commanders of military divisions” See how you translated this in [2 Kings 11:4](#). (See: [Numbers](#))

ULT

19 Jehoida took with him the commanders of hundreds, the Carites, the guard, and all the people of the land, and together they brought down the king from the house of Yahweh and they went into the king’s house, entering by way of the gate of the guards. Joash took his place on the royal throne.

Carites

This is a generalization. It is possible that some did not rejoice.
Alternate translation: “many people in the land rejoiced” (See: [Hyperbole](#))

“teaching him”

ULT

² Joash did what was right in the eyes of Yahweh all the time, because Jehoiada the priest was instructing him.

2 Kings 12:3

But the high places were not taken away

This can be stated in active form. Alternate translation: “But the people did not destroy the high places” (See: [Active or Passive](#))

³ But the high places were not taken away. The people still sacrificed and burned incense on the high places.

2 Kings 12:4

the money that is brought in as sacred offerings into the house of Yahweh

This refers to money that people gave to support the temple. This money came in three forms that are described in the rest of the sentence.

ULT

⁴ Joash said to the priests, “All the money that is brought in as sacred offerings into the house of Yahweh, that money for which each person is assessed—whether it is the money collected in the census, or the money received from personal vows, or the money brought in by people motivated by Yahweh in their hearts to give—

2 Kings 12:7

Why have you not repaired anything in the temple?

Joash asks this question to rebuke the priests. Alternate translation: "You should have been repairing the temple!" (See: [Rhetorical Question](#))

ULT

⁷ Then King Joash called for Jehoiada the priest and for the other priests; he said to them, "Why have you not repaired anything in the temple? Now take no more money from your taxpayers, but take what has been collected for repairs of the temple and give it to those who can make the repairs."

2 Kings 12:8

(There are no notes for this verse.)

ULT

⁸ So the priests consented to take no more money from the people and not repair the temple themselves.

2 Kings 12:9

Instead, Jehoiada

“Instead of the priests collecting the money, Jehoiada”

on the right side as one comes into the house of Yahweh

“on the right side of the entrance to the temple”

put into it

“put into the chest” or “put in the box”

the money that was brought

This can be stated in active form. Alternate translation: “the money that people brought” (See: [Active or Passive](#))

ULT

⁹ Instead, Jehoiada the priest took a chest, bored a hole in its lid, and set it beside the altar, on the right side as one comes into the house of Yahweh. The priests who were guarding the temple entrance put into it all the money that was brought to the house of Yahweh.

2 Kings 12:10

put the money in bags and then count it

Many versions put this in a more logical order such as “count the money and put it in bags.”

put the money in bags

This could mean: (1) “put the money in bags” or (2) “tied up the money in bags” .

2 Kings 12:14

(There are no notes for this verse.)

ULT

14 They gave this money to those who did the work of repairing the house of Yahweh.

to keep a record of how much money was received and spent

ULT

¹⁵ In addition, they did not require the money paid for repairs to be accounted for by the men who received it and paid it to the workmen, because these men were honest.

2 Kings 12:16

the money for the guilt offerings and the money for the sin offerings was not brought into the temple of Yahweh

It is implied that this money was not used for the repairs. This can be stated in active form. Alternate translation: “they did not use the money from the guilt offerings and the sin offerings to pay for the repairs to the temple of Yahweh” (See: [Assumed Knowledge and Implicit Information](#) and [Active or Passive](#))

“When Jehoash son of Jehoahaz had been king of Israel for almost two years”

Alternate translation: "But he did not tell his servants to execute those officials' children" (See: [Synecdoche](#))

ULT

⁶ Yet he did not put the sons of the murderers to death; instead, he acted according to what was written in the book of the law Moses, as Yahweh had commanded, saying, "The fathers must not be put to death for their children, neither must the children be put to death for their parents. removed them out of his sight

"The people you have moved from other lands and sent to live in the cities of Samaria"

do not know the practices required by the god of the land

"do not know how to worship the God that the Israelites worshiped in this land"

ULT

²⁶ So they spoke to the king of Assyria, saying, "The nations that you have carried away and placed in the cities of Samaria do not know the practices required by the god of the land. So he has sent lions among them, and, see, the lions are killing people there because they do not know the practices required by the god of the land."

2 Kings 17:27

Take one of the priests there whom you brought from there

“Take a priest who came from Samaria back there”

This refers to the pagan people that the king of Assyria moved into the cities of Samaria.

ULT

³² They also honored Yahweh, and appointed from among themselves priests of the high places, who sacrificed for them in the temples at the high places.

2 Kings 17:33

(There are no notes for this verse.)

ULT

³³ They honored Yahweh and also worshiped their own gods, in the customs of the nations from among whom they had been taken away.

2 Kings 17:34

they persist in their old customs

“they continue in the same habits as before”

They neither honor Yahweh

The people were only interested in appeasing Yahweh. They were either not interested or not aware Yahweh was interested in a relationship with them.

ULT

³⁴ To this day they persist in their old customs. They neither honor Yahweh, nor do they follow the statutes, decrees, the law, or the commandments that Yahweh gave to the people of Jacob—whom he named Israel—

with great power and a raised arm

The phrase “raised arm” is metonymy for displaying power and means basically the same thing as “great power.” Alternate translation: “with very great power” (See: [Metonymy](#) and [Doublet](#))

These nations feared Yahweh only to the point of appeasing him the same way they treated their own gods.

up to this day

“and have continued ever since.” The phrase “this day” refers to the time period in which the writer lived.

ULT

41 So these nations feared Yahweh and they also worshiped their carved figures, and their children did the same—as did their children’s children. They continue to do what their ancestors did, up to this day.

2 Kings 20 General Notes

Structure and formatting

This chapter finishes the story of Hezekiah.

Special concepts in this chapter

Hezekiah's additional time

God hears the distressed call of his faithful believers. Hezekiah was dying but when he prayed, God gave him 15 more years of life. (See: [faithful](#), [faithfulness](#), [trustworthy](#) and [believe](#), [believer](#), [belief](#), [unbeliever](#), [unbelief](#))

2 Kings 20:1

Set your house in order

“House” is metonymy for what was under Hezekiah’s control.
Alternate translation: “Give final instructions to your household and government” (See: [Metonymy](#))

ULT

¹ In those days Hezekiah was sick to the point of dying. So Isaiah son of Amoz, the prophet came to him, and said to him, “Yahweh says, ‘Set your house in order; for you will die, and not live.’”

2 Kings 20:2

(There are no notes for this verse.)

ULT

² Then Hezekiah turned his face to the wall and prayed to Yahweh, saying,

2 Kings 20:3

call to mind

This is a common way of speaking, an idiom, urging Yahweh to remember. Alternate translation: “remember” (See: [Idiom](#))

walked

This is an idiom. Alternate translation: “lived my life” (See: [Idiom](#))

good in your sight

Here sight represents judgment or evaluation. Alternate translation: “in your judgment” (See: [Metaphor](#))

ULT

³ “Please, Yahweh, call to mind how I have faithfully walked before you with my whole heart, and how I have done what was good in your sight.” Then Hezekiah wept loudly.

2 Kings 20:4

the word of Yahweh came

“Word” represents the message Yahweh revealed to Isaiah. This is a common way of speaking, an idiom. Alternate translation: “Yahweh spoke his word” (See: [Metonymy](#) and [Idiom](#))

ULT

⁴ Before Isaiah had gone out into the middle courtyard, the word of Yahweh came to him, saying,

2 Kings 20:5

I have heard your prayer, and I have seen your tears

The second part reinforces the first part to make one message by using parallelism. Alternate translation: "I have heard your prayers and seen your tears" (See: [Parallelism](#))

on the third day

"two days from now" The day Isaiah said this was the first day, so "the third day" would be the same as "two days from now."

ULT

⁵ "Turn back, and say to Hezekiah, the leader of my people, 'This is what Yahweh, the God of David your ancestor, says: "I have heard your prayer, and I have seen your tears. I am about to heal you on the third day, and you will go up to the house of Yahweh."

2 Kings 20:6

General Information:

The message from Yahweh to King Hezekiah through the prophet Isaiah continues.

fifteen years

15 years (See: [Numbers](#))

from the hand of the king of Assyria

“Hand” is metonymy for power, authority and control. Alternate translation: “from the control of the king of Assyria” (See: [Metonymy](#))

ULT

⁶ I will add fifteen years to your life, and I will rescue you and this city from the hand of the king of Assyria, and I will defend this city for my own sake and for my servant David's sake.”””

2 Kings 20:7

lump of figs

“paste made of boiled figs”

They did so and put it on his boil

“Hezekiah’s servants did this and put the paste on Hezekiah’s sore”

ULT

⁷ So Isaiah said, “Take a lump of figs.”
They did so and put it on his boil, and
he recovered.

2 Kings 20:8

(There are no notes for this verse.)

ULT

⁸ Hezekiah said to Isaiah, “What will be the sign that Yahweh will heal me, and that I should go up to the temple of Yahweh on the third day?”

2 Kings 20:9

Shall the shadow go forward ten steps, or go back ten steps?

The source of “the shadow” can be stated clearly. Alternate translation: “Do you want Yahweh to make the shadow caused by the sunlight on the stairway to go forward ten steps or to go back ten steps?” (See: [Assumed Knowledge and Implicit Information](#))

ten steps

This expression refers to the “stairway of Ahaz” in [2 Kings 20:11](#). This was probably a special stairway built for King Ahaz in such a way that its steps marked the hours of daylight as the sun’s rays advanced along them. In this way, the staircase served to tell the time during the day.

ULT

⁹ Isaiah replied, “This will be the sign for you from Yahweh, that Yahweh will do the thing that he has spoken. Shall the shadow go forward ten steps, or go back ten steps?”

2 Kings 20:10

It is an easy thing for the shadow to go forward ten steps

Why “it is an easy thing” can be stated clearly. “It is easy to cause the shadow to move forward ten steps, because that is the normal thing for it to do” (See: [Assumed Knowledge and Implicit Information](#))

ULT

¹⁰ Hezekiah answered, “It is an easy thing for the shadow to go forward ten steps. No, let the shadow go backward ten steps.”

2 Kings 20:11

the stairway of Ahaz

This was probably a special stairway built for King Ahaz in such a way that its steps marked the hours of daylight as the sun's rays advanced along them. In this way, the staircase served to tell the time during the day. Alternate translation: "the steps that had been built for King Ahaz" (See: [Assumed Knowledge and Implicit Information](#))

ULT

11 So Isaiah the prophet cried out to Yahweh, and he brought the shadow ten steps backward, from where it had moved on the stairway of Ahaz.

2 Kings 20:12

Marduk-Baladan ... Baladan

These are the names of the king of Babylon and his son. (See: [How to Translate Names](#))

ULT

12 At that time Marduk-Baladan son of Baladan king of Babylon sent letters and a gift to Hezekiah, for he had heard that Hezekiah had been sick.

2 Kings 20:13

listened to those letters

“carefully considered those letters” or “heard the message from the king of Babylon”

There was nothing in his house, nor in all his kingdom, that Hezekiah did not show them

Here “There was nothing ... did not show them” is an exaggeration used for emphasis. It means Hezekiah showed them all of his most valuable things. This can be stated in positive form. Alternate translation: “Hezekiah showed him absolutely everything valuable in his house and in all his kingdom” (See: [Double Negatives](#) and [Hyperbole](#))

ULT

13 Hezekiah listened to those letters, and then showed the messengers all the palace and his valuable things, the silver, the gold, the spices and precious oil, and the storehouse of his weapons, and all that was found in his storehouses. There was nothing in his house, nor in all his kingdom, that Hezekiah did not show them.

2 Kings 20:14

these men

This refers to the men sent to King Hezekiah with a message and gifts from Marduk-Baladan.

ULT

14 Then Isaiah the prophet came to King Hezekiah and asked him, "What did these men say to you? Where did they come from?" Hezekiah said, "They came from the distant country of Babylon."

2 Kings 20:15

They have seen everything in my house. There is nothing among my valuable things that I have not shown them

Hezekiah repeats the same idea in two ways to emphasize his point.
(See: [Hyperbole](#) and [Parallelism](#))

There is nothing among my valuable things that I have not shown them

“Nothing” and “not” cancel each other out to make the idea positive. This exaggeration is used for emphasis.
Alternate translation: “I showed them absolutely every one of my valuable things” (See: [Double Negatives](#))

ULT

¹⁵ Isaiah asked, “What have they seen in your house?” Hezekiah answered, “They have seen everything in my house. There is nothing among my valuable things that I have not shown them.”

2 Kings 20:16

So Isaiah said to Hezekiah

Why Isaiah spoke can be stated clearly. Alternate translation: “So, because Isaiah knew Hezekiah had been foolish to show the men all his valuable things, Isaiah said to him” (See: [Assumed Knowledge and Implicit Information](#))

the word of Yahweh

“the message of Yahweh”

ULT

16 So Isaiah said to Hezekiah, “Listen to the word of Yahweh:

2 Kings 20:17

Look, the days are about to come when

“Listen to me, someday there will come a time when”; “Look” is used to draw attention to what Isaiah is about to tell Hezekiah.

the days

“Days” is synecdoche to refer to an undefined span of time. (See: [Synecdoche](#))

ULT

17 ‘Look, the days are about to come when everything in your palace, the things that your ancestors stored away until this present day, will be carried to Babylon. Nothing will be left, says Yahweh.

2 Kings 20:18

(There are no notes for this verse.)

ULT

18 The sons born from you, whom you yourself have fathered—they will take them away, and they will become eunuchs in the palace of the king of Babylon.’”

2 Kings 20:19

For he thought

"Because Hezekiah thought"

Will there not be peace and stability in my days?

Hezekiah asks this question for emphasis knowing the answer already. Alternate translation: "I can be sure that there will be peace and stability in my days." (See: [Rhetorical Question](#))

ULT

¹⁹ Then Hezekiah said to Isaiah, "The word of Yahweh that you have spoken is good." For he thought, "Will there not be peace and stability in my days?"

2 Kings 20:20

conduit

A tunnel for carrying the water

are they not written in the book of the events of the kings of Judah?

This question is used to remind the reader that these things are recorded. See how this phrase is translated in [2 Kings 8:23](#). Alternate translation: “they are written in the book of the history of the kings of Judah.” (See: [Rhetorical Question](#))

ULT

²⁰ As for the other matters concerning Hezekiah, and all his power, and how he constructed the pool and the conduit, and how he brought water into the city—are they not written in the book of the events of the kings of Judah?

2 Kings 20:21

2 Kings 21 General Notes

Alternate translation: “he had the high places rebuilt ... he had altars built for Baal, had an Asherah pole made” or “he had his workers rebuild the high places ... he had them build altars for Baal, make an Asherah pole” (See: [Metonymy](#))

ULT

³ For he rebuilt the high places that Hezekiah his father had destroyed, and he built altars for Baal, made an Asherah pole, as Ahab king of Israel had done, and he bowed down to all the stars of heaven and worshiped them.

⁴ Manasseh built altars in the house of Yahweh, although Yahweh had commanded, "It is in Jerusalem that my name will be forever."

2 Kings 21:5

He built altars for all the stars of heaven in the two courtyards of the house of Yahweh

It is implied that he built these altars so people could make sacrifices and worship the stars. Also, he would not have built these altars himself, rather he would have commanded his workers to do it.

Alternate translation: "He had his workers build altars in the two courtyards of the house of Yahweh so that the people could worship the stars and offer them sacrifices" (See: [Assumed Knowledge and Implicit Information](#) and [Metonymy](#))

Manasseh probably did not do the work. His servants would have done the work. Alternate translation: "that Manasseh had ordered his servants to make" (See: [Metonymy](#))

Here Yahweh putting his "name" on the temple represents him designating it as the place to worship him. Alternate translation: "where I want people to worship me forever" (See: [Metonymy](#))

ULT

⁷ The carved figure of Asherah that he had made, he placed it in the house of Yahweh. It was about this house that Yahweh had spoken to David and Solomon his son; he had said: "It is in this house and in Jerusalem, which I have chosen from all the tribes of Israel, that I will put my name forever."

2 Kings 21:8

the feet of Israel

The feet are a synecdoche for the person. Alternate translation: “the people of Israel” or “the Israelites” (See: [Synecdoche](#))

ULT

2 Kings 21:16

Moreover, Manasseh

“Also, Manasseh” or “In addition, Manasseh”

Manasseh shed much innocent blood

The words “shed much innocent blood” are a metonym for killing people violently. It might be best to translate this so the reader understands that other people helped Manasseh do this. Alternate translation: “Manasseh ordered his soldiers to kill many innocent people” (See: [Metonymy](#))

ULT

16 Moreover, Manasseh shed much innocent blood, until he had filled Jerusalem from one end to another with death. This was in addition to the sin by which he made Judah to sin, when they did what was evil in the sight of Yahweh.

The law

The priests found a copy of the law in the temple and took it to the king. He was upset because the people had disobeyed the law so badly. Josiah asked God about it. Abstract Nouns

Description

Abstract nouns are nouns that refer to attitudes, qualities, events, or situations. These are things that cannot be seen or touched in a physical sense, such as happiness, weight, unity, friendship, health, and reason. This is a translation issue because some languages may express a certain idea with an abstract noun, while others would need a different way to express it.

This page answers the question: *What are abstract nouns and how do I deal with them in my translation?*

In order to understand this topic, it would be good to read:

[[rc://en/ta/man/translate/figs-partsofspeech]]
[[rc://en/ta/man/translate/figs-sentences]]

Remember that nouns are words that refer to a person, place, thing, or idea. Abstract nouns are the nouns that refer to ideas. These can be attitudes, qualities, events, situations, or even relationships between those ideas. These are things that cannot be seen or touched in a physical sense, such as joy, peace, creation, goodness, contentment, justice, truth, freedom, vengeance, slowness, length, weight, and many, many more.

Some languages, such as Biblical Greek and English, use abstract nouns a lot. They provide a way of giving names to actions or qualities. With names, people who speak these languages can talk about the concepts as though they were things. For example, in languages that use abstract nouns, people can say, "I believe in the forgiveness of sin."

But some languages do not use abstract nouns very much. In these languages, speakers may not have the two abstract nouns "forgiveness" and "sin," but they would express the same meaning in other ways. For example, they would express, "I believe that God is willing to forgive people after they have sinned," by using verb phrases instead of nouns for those ideas.

Reason This Is a Translation Issue

The Bible that you translate from may use abstract nouns to express certain ideas. Your language might not use abstract nouns for some of those ideas. Instead, it might use phrases to express those ideas. Those phrases will use other kinds of words such as adjectives, verbs, or adverbs to express the meaning of the abstract noun. For example, "What is its **weight**?" could be expressed as "How much does it **weigh**?" or "How **heavy** is it?"

Examples From the Bible

From **childhood** you have known the sacred writings ... (2 Timothy 3:15a ULT)

The abstract noun "childhood" refers to when someone was a child.

But **godliness** with **contentment** is great **gain**. (1 Timothy 6:6 ULT)

The abstract nouns "godliness" and "contentment" refer to being godly and content. The abstract noun "gain" refers to something that benefits or helps someone.

Today **salvation** has come to this house, because he too is a son of Abraham. (Luke 19:9 ULT)

The abstract noun "salvation" here refers to being saved.

The Lord does not move slowly concerning his promises, as some consider **slowness** to be (2 Peter 3:9a ULT)

The abstract noun "slowness" refers to the lack of speed with which something is done.

He will both bring to light the hidden things of darkness and reveal the **purposes** of the heart. (1 Corinthians 4:5b ULT)

The abstract noun “purposes” refers to the things that people want to do and the reasons they want to do them.

Translation Strategies

If an abstract noun would be natural and give the right meaning in your language, consider using it. If not, here is another option:

(1) Reword the sentence with a phrase that expresses the meaning of the abstract noun. Instead of a noun, the new phrase will use a verb, an adverb, or an adjective to express the idea of the abstract noun.

Examples of Translation Strategies Applied

(1) Reword the sentence with a phrase that expresses the meaning of the abstract noun. Instead of a noun, the new phrase will use a verb, an adverb, or an adjective to express the idea of the abstract noun. Alternative translations are indented below the Scripture example.

... from **childhood** you have known the sacred writings ... (2 Timothy 3:15a ULT)

Ever since **you were a child** you have known the sacred writings.

But **godliness** with **contentment** is great **gain**. (1 Timothy 6:6 ULT)

But **being godly** and **content** is very **beneficial**. But we **benefit** greatly when we **are godly** and **content**. But we **benefit** greatly when we **honor and obey God** and when we are **happy with what we have**.

Today **salvation** has come to this house, because he too is a son of Abraham. (Luke 19:9 ULT)

Today the people in this house **have been saved** ... Today God **has saved** the people in this house ...

The Lord does not move slowly concerning his promises, as some consider **slowness** to be. (2 Peter 3:9a ULT)

The Lord does not move slowly concerning his promises, as some consider **moving slowly** to be.

He will bring to light the hidden things of darkness and reveal the **purposes** of the heart. (1 Corinthians 4:5b ULT)

He will bring to light the hidden things of darkness and reveal **the things that people want to do and the reasons that they want to do them**.

(Go back to: [2 Kings 3:27](#); [10:16](#); [13:4](#); [15:5](#); [15:18](#); [15:19](#); [21:16](#); [22:19](#); [23:26](#))

Active or Passive

Some languages use both active and passive sentences. In active sentences, the subject does the action. In passive sentences, the subject is the one that receives the action. Here are some examples with their subjects bolded:

- Active: **My father** built the house in 2010.
- Passive: **The house** was built in 2010.

Translators whose languages do not use passive sentences will need to know how they can translate passive sentences that they find in the Bible. Other translators will need to decide when to use a passive sentence and when to use the active form.

This page answers the question: *What do active and passive mean, and how do I translate passive sentences?*

In order to understand this topic, it would be good to read:

[\[\[rc://en/ta/man/translate/figs-sentences\]\]](#)

[\[\[rc://en/ta/man/translate/figs-verbs\]\]](#)

Description

Some languages have both active and passive forms of sentences.

- In the active form, the subject does the action and is always mentioned.
- In the passive form, the action is done to the subject, and the one who does the action is not always mentioned.

In the examples of active and passive sentences below, we have bolded the subject.

- active: **My father** built the house in 2010.
- passive: **The house** was built by my father in 2010.
- passive: **The house** was built in 2010. (This does not tell who did the action.)

Reasons This Is a Translation Issue

All languages use active forms. Some languages use passive forms, and some do not. Some languages use passive forms only for certain purposes, and the passive form is not used for the same purposes in all of the languages that use it.

Purposes for the Passive

- The speaker is talking about the person or thing the action was done to, not about the person who did the action.
- The speaker does not want to tell who did the action.
- The speaker does not know who did the action.

Translation Principles Regarding the Passive

- Translators whose language does not use passive forms will need to find another way to express the idea.
- Translators whose language has passive forms will need to understand why the passive is used in a particular sentence in the Bible and decide whether or not to use a passive form for that purpose in his translation of the sentence.

Examples From the Bible

Then their shooters shot at your soldiers from off the wall, and some of the king's servants **were killed**, and your servant Uriah the Hittite **was killed** too. (2 Samuel 11:24 ULT)

This means that the enemy's shooters shot and killed some of the king's servants, including Uriah. The point is what happened to the king's servants and Uriah, not who shot them. The purpose of the passive form here is to keep the focus on the king's servants and Uriah.

When the men of the city arose early in the morning, and see, the altar of Baal **was torn down**. (Judges 6:28a ULT)

The men of the town saw what had happened to the altar of Baal, but they did not know who broke it down. The purpose of the passive form here is to communicate this event from the perspective of the men of the town.

It would be better for him if a millstone **were put** around his neck and he **were thrown** into the sea. (Luke 17:2a ULT)

This describes a situation in which a person ends up in the sea with a millstone around his neck. The purpose of the passive form here is to keep the focus on what happens to this person. Who does these things to the person is not important.

Translation Strategies

If your language would use a passive form for the same purpose as in the passage that you are translating, then use a passive form. If you decide that it is better to translate without a passive form, here are some strategies that you might consider.

- (1) Use the same verb in an active sentence and tell who or what did the action. If you do this, try to keep the focus on the person receiving the action.
- (2) Use the same verb in an active sentence, and do not tell who or what did the action. Instead, use a generic expression like "they" or "people" or "someone."
- (3) Use a different verb.

Examples of Translation Strategies Applied

- (1) Use the same verb in an active sentence and tell who did the action. If you do this, try to keep the focus on the person receiving the action.

A loaf of bread **was given** him every day from the street of the bakers. (Jeremiah 37:21b ULT)

The king's servants gave Jeremiah a loaf of bread every day from the street of the bakers.

- (2) Use the same verb in an active sentence, and do not tell who did the action. Instead, use a generic expression like "they" or "people" or "someone."

It would be better for him if a millstone **were put** around his neck and he **were thrown** into the sea. (Luke 17:2a ULT)

It would be better for him if **they were to put** a millstone around his neck and **throw** him into the sea.

It would be better for him if **someone were to put** a heavy stone around his neck and **throw** him into the sea.

- (3) Use a different verb in an active sentence.

A loaf of bread **was given** him every day from the street of the bakers. (Jeremiah 37:21 ULT)

He **received** a loaf of bread every day from the street of the bakers.

Assumed Knowledge and Implicit Information

Assumed knowledge is whatever a speaker assumes his audience knows before he speaks and gives them some kind of information. The speaker does not give the audience this information because he believes that they already know it.

This page answers the question: *How can I be sure that my translation communicates the assumed knowledge and implicit information along with the explicit information of the original message?*

When the speaker does give the audience information, he can do so in two ways. The speaker gives explicit information in what he states directly. Implicit Information is what the speaker does not state directly because he expects his audience to be able to learn it from other things he says.

Description

When someone speaks or writes, he has something specific that he wants people to know or do or think about. He normally states this directly. This is explicit information.

The speaker assumes that his audience already knows certain things that they will need to think about in order to understand this information. Normally he does not tell people these things, because they already know them. This is called assumed knowledge.

The speaker does not always directly state everything that he expects his audience to learn from what he says. Implicit information is information that he expects people to learn from what he says even though he does not state it directly.

Often, the audience understands this implicit information by combining what they already know (assumed knowledge) with the explicit information that the speaker tells them directly.

Reasons This Is a Translation Issue

All three kinds of information are part of the speaker's message. If one of these kinds of information is missing, then the audience will not understand the message. Because the target translation is in a language that is very different from the biblical languages and is made for an audience that lives in a very different time and place than the people in the Bible, many times the assumed knowledge or the implicit information is missing from the message. In other words, modern readers do not know everything that the original speakers and hearers in the Bible knew. When these things are important for understanding the message, it is helpful if you include this information in the text or in a footnote.

Examples From the Bible

Then a scribe came to him and said, "Teacher, I will follow you wherever you go." Jesus said to him, "Foxes **have holes**, and the birds of the sky **have nests**, but the Son of Man has nowhere to lay his head." (Matthew 8:19-20 ULT)

Jesus did not say what foxes and birds use holes and nests for, because he assumed that the scribe would have known that foxes sleep in holes in the ground and birds sleep in their nests. This is **assumed knowledge**.

Jesus did not directly say here "I am the Son of Man" but, if the scribe did not already know it, then that fact would be **implicit information** that he could learn because Jesus referred to himself that way. Also, Jesus did not state explicitly that he travelled a lot and did not have a house that he slept in every night. That is **implicit information** that the scribe could learn when Jesus said that he had nowhere to lay his head.

Woe to you, Chorazin! Woe to you, Bethsaida! If the mighty deeds had been done in **Tyre and Sidon** which were done in you, they would have repented long ago in sackcloth and ashes. But

I say to you, it will be more tolerable for Tyre and Sidon at the **day of judgment** than for you.
(Matthew 11:21-22 ULT)

Jesus assumed that the people he was speaking to knew that Tyre and Sidon were very wicked, and that the day of judgment is a time when God will judge every person. Jesus also knew that the people he was talking to believed that they were good and did not need to repent. Jesus did not need to tell them these things. This is all **assumed knowledge**.

An important piece of **implicit information** here is that the people he was speaking to would be judged more severely than the people of Tyre and Sidon would be judged **because** they did not repent.

Why do your disciples violate the traditions of the elders? For **they do not wash their hands when they eat bread**. (Matthew 15:2 ULT)

One of the traditions of the elders was a ceremony in which people would wash their hands in order to be ritually clean before eating. People thought that in order to be righteous, they had to follow all the traditions of the elders. This was **assumed knowledge** that the Pharisees who were speaking to Jesus expected him to know. By saying this, they were accusing his disciples of not following the traditions, and thus not being righteous. This is **implicit information** that they wanted him to understand from what they said.

Translation Strategies

If readers have enough assumed knowledge to be able to understand the message, along with any important implicit information that goes with the explicit information, then it is good to leave that knowledge unstated and leave the implicit information implicit. If the readers do not understand the message because one of these is missing for them, then follow these strategies:

- (1) If readers cannot understand the message because they do not have certain assumed knowledge, then provide that knowledge as explicit information.
- (2) If readers cannot understand the message because they do not know certain implicit information, then state that information clearly, but try to do it in a way that does not imply that the information was new to the original audience.

Examples of Translation Strategies Applied

- (1) If readers cannot understand the message because they do not have certain assumed knowledge, then provide that knowledge as explicit information.

Jesus said to him, "Foxes **have holes**, and the birds of the sky **have nests**, but the Son of Man has nowhere to lay his head." (Matthew 8:20 ULT)

The assumed knowledge was that the foxes slept in their holes and birds slept in their nests.

Jesus said to him, "Foxes **have holes to live in**, and the birds of the sky **have nests to live in**, but the Son of Man has nowhere to lay his head and sleep."

It will be more tolerable for **Tyre and Sidon** at the day of judgment than for you (Matthew 11:22 ULT)

The assumed knowledge was that the people of Tyre and Sidon were very, very wicked. This can be stated explicitly.

>

At the day of judgment, it will be more tolerable for **those cities of Tyre and Sidon, whose people were very wicked**, than it will be for you. or At

the day of judgment, It will be more tolerable for those **wicked cities, Tyre and Sidon**, than for you.

Why do your disciples violate the traditions of the elders? For **they do not wash their hands** when they eat bread. (Matthew 15:2 ULT)

The assumed knowledge was that one of the traditions of the elders was a ceremony in which people would wash their hands in order to be ritually clean before eating, which they must do to be righteous. It was not to remove germs from their hands to avoid sickness, as a modern reader might think.

Why do your disciples violate the traditions of the elders? For **they do not go through the ceremonial handwashing ritual of righteousness** when they eat bread.

(2) If readers cannot understand the message because they do not know certain implicit information, then state that information clearly, but try to do it in a way that does not imply that the information was new to the original audience.

Then a scribe came to him and said, "Teacher, I will follow you wherever you go." Jesus said to him, "Foxes have holes, and the birds of the sky have nests, but the Son of Man has nowhere to lay his head." (Matthew 8:19-20 ULT)

The implicit information is that Jesus himself is the Son of Man. Other implicit information is that if the scribe wanted to follow Jesus, then, like Jesus, he would have to live without a house.

Jesus said to him, "Foxes have holes, and the birds of the sky have nests, but **I, the Son of Man**, have **no home to rest in. If you want to follow me, you will live as I live.**"

It will be more tolerable for Tyre and Sidon at the day of judgment than for you (Matthew 11:22 ULT)

The implicit information is that God would not only judge the people; he would punish them. This can be made explicit.

At the day of judgment, God will **punish Tyre and Sidon**, cities whose people were very wicked, **less severely than he will punish you.**
or:

At the day of judgment, God will **punish you more severely** than Tyre and Sidon, cities whose people were very wicked.

Modern readers may not know some of the things that the people in the Bible and the people who first read it knew. This can make it hard for them to understand what a speaker or writer says, and to learn things that the speaker left implicit. Translators may need to state some things explicitly in the translation that the original speaker or writer left unstated or implicit.

Background Information

Description

When people tell a story, they normally tell the events in the order that they happened. This sequence of events makes up the storyline. The storyline is full of action verbs that move the story along in time. But sometimes a writer may take a break from the storyline and give some information to help his listeners understand the story better. This type of information is called background information. The background information might be about things that happened before the events he has already told about, or it might explain something in the story, or it might be about something that would happen much later in the story.

This page answers the question: *What is background information, and how can I show that some information is background information?*

In order to understand this topic, it would be good to read:

[\[\[rc://en/ta/man/translate/figs-events\]\]](#)

[\[\[rc://en/ta/man/translate/writing-intro\]\]](#)

Example — The bolded phrases in the story below are all background information.

Peter and John went on a hunting trip because **their village was going to have a feast the next day. Peter was the best hunter in the village. He once killed three wild pigs in one day!** They walked for hours through low bushes until they heard a wild pig. The pig ran, but they managed to shoot the pig and kill it. Then they tied up its legs with some rope **they had brought with them** and carried it home on a pole. When they brought it to the village, Peter's cousin saw the pig and realized that it was his own pig. Peter had mistakenly killed his cousin's pig.

Background information often tells about something that had happened earlier or something that would happen much later. Examples of these are: "their village was going to have a feast the next day," "He once killed three wild pigs in one day," and "that they had brought with them."

Often background information uses "be" verbs like "was" and "were," rather than action verbs. Examples of these are "their village was going to have a feast the next day," and "Peter **was** the best hunter in the village."

Background information can also be marked with words that tell the reader that this information is not part of the event line of the story. In this story, some of these words are "because," "once," and "had."

A writer may use background information:

- to help their listeners be interested in the story
- to help their listeners understand something in the story
- to help the listeners understand why something is important in the story
- to tell the setting of a story
 - > * Setting includes:
 - > * where the story takes place
 - > * when the story takes place
 - > * who is present when the story begins
 - > * what is happening when the story begins

Reasons This Is a Translation Issue

- Languages have different ways of marking background information and storyline information.
- You (the translator) need to know the order of the events in the Bible, which information is background information, and which is storyline information.
- You will need to translate the story in a way that marks the background information in a way that your own readers will understand the order of events, which information is background information, and which is storyline information.

Examples From the Bible

Hagar gave birth to Abram's son, and Abram named his son, whom Hagar bore, Ishmael. Abram **was 86 years old** when Hagar bore Ishmael to Abram. (Genesis 16:15-16 ULT)

The first sentence tells about two events. Hagar gave birth and Abraham named his son. The second sentence is background information about how old Abram was when those things happened.

And Jesus himself **was beginning about 30 years old**. He **was the son** (as it was assumed) of Joseph, of Heli, (Luke 3:23 ULT)

The verses before this tell about when Jesus was baptized. This sentence introduces background information about Jesus' age and ancestors. The story resumes in chapter 4 where it tells about Jesus going to the wilderness.

Then **it happened on a Sabbath** that he **was going through the grain fields**, and his disciples **were picking and eating the heads of grain, rubbing them in their hands**. But some of the Pharisees said ... (Luke 6:1-2a ULT)

These verses give the setting of the story. The events took place in a grain field on the Sabbath day. Jesus, his disciples, and some Pharisees were there, and Jesus' disciples were picking heads of grain and eating them. The main action in the story starts with the phrase, "But some of the Pharisees said"

Translation Strategies

To keep translations clear and natural you will need to study how people tell stories in your language. Observe how your language marks background information. You may need to write down some stories in order to study this. Observe what kinds of verbs your language uses for background information and what kinds of words or other markers signal that something is background information. Do these same things when you translate, so that your translation is clear and natural and people can understand it easily.

- (1) Use your language's way of showing that certain information is background information.
- (2) Reorder the information so that earlier events are mentioned first. (This is not always possible when the background information is very long.)

Examples of Translation Strategies Applied

(1) Use your language's way of showing that certain information is background information. The examples below explain how this was done in the ULT English translations.

And Jesus himself **was** beginning about 30 years old. He **was** the son (as it was assumed) of Joseph, of Heli. (Luke 3:23 ULT)

As here, English sometimes uses the word "and" to show that there is some kind of change in the story. The verb "was" shows that it is background information.

Therefore, also exhorting many other things, he preached the good news to the people. But Herod the tetrarch, having been rebuked by him concerning Herodias, the wife of his brother, and **concerning all the evil things that Herod had done**, added even this to them all: He locked John up in prison. (Luke 3:18-20 ULT)

The bolded phrase happened before John rebuked Herod. In English, the helping verb "had" in "had done" shows that Herod did those things before John rebuked him.

- (2) Reorder the information so that earlier events are mentioned first.

Hagar gave birth to Abram's son, and Abram named his son, whom Hagar bore, Ishmael.
Abram was 86 years old when Hagar bore Ishmael to Abram. (Genesis 16:16 ULT)

"When Abram was 86 years old, Hagar gave birth to his son, and Abram named his son Ishmael."

Therefore, also exhorting many other things, he preached the good news to the people. But Herod the tetrarch, having been rebuked by him concerning Herodias, the wife of his brother, and **concerning all the evil things that Herod had done,** added even this to them all: He locked John up in prison. (Luke 3:18-20 ULT)

The translation below reorders John's rebuke and Herod's actions.

"Now Herod the tetrarch married his brother's wife, Herodias, and **he did many other evil things,** so John rebuked him. But then Herod did another very evil thing. He had John locked up in prison."

Biblical Distance

Description

The following terms are the most common measures for distance or length that were originally used in the Bible. Most of these are based on the sizes of the hand and forearm.

- The **handbreadth** was the width of the palm of a man’s hand.
- The **span** or handspan was the width of a man’s hand with the fingers spread out.
- The **cubit** was the length of a man’s forearm, from the elbow to the tip of the longest finger.
- The **“long” cubit** is used only in Ezekiel 40-48. It is the length of a normal cubit plus a span.
- The **stadium** (plural, **stadia**) referred to a certain footrace that was about 185 meters in length. Some older English versions translated this word as “furlong,” which referred to the average length of a plowed field.

The metric values in the table below are close but not exactly equal to the biblical measures. The biblical measures probably differed in exact length from time to time and place to place. The equivalents below are an attempt to give an average measurement.

Original Measure	Metric Measure
handbreadth	8 centimeters
span	23 centimeters
cubit	46 centimeters
“long” cubit	54 centimeters
stadia	185 meters

Translation Principles

The people in the Bible did not use modern measures such as meters, liters, and kilograms. Using the original measures can help readers know that the Bible really was written long ago in a time when people used those measures.

Using modern measures can help readers understand the text more easily.

Whatever measure you use, it would be good, if possible, to tell about the other kind of measure in the text or a footnote.

If you do not use the Biblical measures, try not to give the readers the idea that the measurements are exact. For example, if you translate one cubit as “.46 meters” or even as “46 centimeters,” readers might think that the measurement is exact. It would be better to say “half a meter,” “45 centimeters,” or “50 centimeters.”

Sometimes it can be helpful to use the word “about” to show that a measurement is not exact. For example, Luke 24:13 says that Emmaus was 60 stadia from Jerusalem. This can be translated as “about ten kilometers” from Jerusalem.

When God tells people how long something should be, and when people make things according to those lengths, do not use “about” in the translation. Otherwise it will give the impression that God did not care exactly how long something should be.

This page answers the question: *How can I translate the lengths and distances that are in the Bible?*

In order to understand this topic, it would be good to read:

Translation Strategies

- (1) Use the measurements from the ULT. These are the same kinds of measurements that the original writers used. Spell them in a way that is similar to the way they sound or are spelled in the ULT. (See [Copy or Borrow Words](#).)
- (2) Use the metric measurements given in the UST. The translators of the UST have already figured how to represent the amounts in the metric system.
- (3) Use measurements that are already used in your language. In order to do this you would need to know how your measurements relate to the metric system and figure out each measurement.
- (4) Use the measurements from the ULT and include measurements that your people know in the text or a note.
- (5) Use measurements that your people know, and include the measurements from the ULT in the text or in a note.

Translation Strategies Applied

The strategies are all applied to Exodus 25:10 below.

They are to make an ark of acacia wood. Its length must be two and a half cubits; its width will be one cubit and a half; and its height will be one cubit and a half. (Exodus 25:10 ULT)

- (1) Use the measurements given in the ULT. These are the same kinds of measurements that the original writers used. Spell them in a way that is similar to the way they sound or are spelled in the ULT. (See [Copy or Borrow Words](#).)

"They are to make an ark of acacia wood. Its length must be **two and a half kubits**; its width will be **one kubit and a half**; and its height will be **one kubit and a half**."

- (2) Use the metric measurements given in the UST. The translators of the UST have already figured how to represent the amounts in the metric system.

"They are to make an ark of acacia wood. Its length must be **one meter**; its width will be **two thirds of a meter**; and its height will be **two thirds of a meter**."

- (3) Use measurements that are already used in your language. In order to do this you would need to know how your measurements relate to the metric system and figure out each measurement. For example, if you measure things using the standard meter length, you could translate it as below.

"They are to make an ark of acacia wood. Its length must be **one meter**; its width will be **two thirds of a meter**; and its height will be **two thirds of a meter**."

- (4) Use the measurements from the ULT and include measurements that your people know in the text or a note. The following shows both measurements in the text.

"They are to make an ark of acacia wood. Its length must be **two and a half cubits (one meter)**; its width will be **one cubit and a half (two thirds of a meter)**; and its height will be **one cubit and a half (two thirds of a meter)**."

- (5) Use measurements that your people know, and include the measurements from the ULT in the text or in a note. The following shows the ULT measurements in notes.

“They are to make an ark of acacia wood. Its length must be **one meter**; ¹ its width will be **two thirds of a meter**; ² and its height will be **two thirds of a meter**.”

The footnotes would look like:

Biblical Money

Description

This page answers the question: *How can I translate the values of money in the Bible?*

In early Old Testament times, people weighed their metals, such as silver and gold, and would pay a certain weight of that metal in order to buy things. Later, people started to make coins that each contained a standard amount of a certain metal. The daric is one such coin. In New Testament times, people used silver and copper coins.

The two tables below show some of the most well-known units of money found in the Old Testament (OT) and New Testament (NT). The table for Old Testament units shows what kind of metal was used and how much it weighed. The table for New Testament units shows what kind of metal was used and how much it was worth in terms of a day's wage.

Unit in OT	Metal	Weight
daric	gold coin	8.4 grams
shekel	various metals	11 grams
talent	various metals	33 kilograms

Unit in NT	Metal	Day's Wage
denarius/denarii	silver coin	1 day
drachma	silver coin	1 day
mite	copper coin	1/64 day
shekel	silver coin	4 days
talent	silver	6,000 days

Translation Principle

Do not use modern money values since these change from year to year. Using them will cause the Bible translation to become outdated and inaccurate.

Translation Strategies

The value of most money in the Old Testament was based on its weight. So when translating these weights in the Old Testament, see [Biblical Weight](#). The strategies below are for translating the value of money in the New Testament.

- (1) Use the Bible term and spell it in a way that is similar to the way it sounds. (See [Copy or Borrow Words](#).)
- (2) Describe the value of the money in terms of what kind of metal it was made of and how many coins were used.
- (3) Describe the value of the money in terms of what people in Bible times could earn in one day of work.
- (4) Use the biblical term and give the equivalent amount in the text or a footnote.

(5) Use the biblical term and explain it in a footnote.

Translation Strategies Applied

The translations strategies are all applied to Luke 7:41 below.

█ The one owed 500 denarii, and the other, 50. (Luke 7:41b ULT)

Use the Bible term and spell it in a way that is similar to the way it sounds. (See [Copy or Borrow Words](#).)

█ "The one owed **500 denali**, and the other, **50**."

Describe the value of the money in terms of what kind of metal it was made of and how many pieces or coins were used.

█ "The one owed **500 silver coins**, and the other, **50**."

(3) Describe the value of the money in terms of what people in Bible times could earn in one day of work.

█ "The one owed **500 days' wages**, and the other, **50**."

(4) Use the Bible term and give the equivalent amount in the text or a footnote.

█ "The one owed **500 denarii** 1, and the other owed **50 denarii**. 2"

The footnotes would look like:

█ [1] 500 days' wages [2] 50 days' wages

(5) Use the Bible term and explain it in a footnote.

█ "The one owed **500 denarii**,¹ and the other, **50**." (Luke 7:41 ULT)

Biblical Volume

Description

The following terms are the most common units of volume used in the Bible to state how much a certain container could hold. The containers and measurements are given for both liquids (such as wine) and dry solids (such as grain). The metric values are not exactly equal to the biblical measures. The biblical measures probably differed in exact amount from time to time and place to place. The equivalents below are an attempt to give an average measurement.

This page answers the question: *How can I translate the measures of volume that are in the Bible?*

In order to understand this topic, it would be good to read:

Type	Original Measure	Liters
Dry	omer	2 liters
Dry	ephah	22 liters
Dry	homer	220 liters
Dry	cor	220 liters
Dry	seah	7.7 liters
Dry	lethek	114.8 liters
Liquid	metrete	40 liters
Liquid	bath	22 liters
Liquid	hin	3.7 liters
Liquid	kab	1.23 liters
Liquid	log	0.31 liters

Translation Principles

- The people in the Bible did not use modern measures such as meters, liters, and kilograms. Using the original measures can help readers know that the Bible really was written long ago in a time when people used those measures.
- Using modern measures can help readers understand the text more easily.
- Whatever measures you use, it would be good, if possible, to tell about the other kinds of measures in the text or a footnote.
- If you do not use the biblical measures, try not to give the readers the idea that the measurements are exact. For example, if you translate one hin as “3.7 liters,” readers might think that the measurement is exactly 3.7 liters, not 3.6 or 3.8. It would be better to use a more approximate measure such as “three and a half liters” or “four liters.”
- When God tells people how much of something to use, and when people use those amounts in obedience to him, do not say “about” in the translation. Otherwise it will give the impression that God did not care exactly how much they used.

When the unit of measure is stated

Translation Strategies

- (1) Use the measurements from the ULT. These are the same kinds of measurements that the original writers used. Spell them in a way that is similar to the way they sound or are spelled in the ULT. (See [Copy or Borrow Words](#).)
- (2) Use the metric measurements given in the UST. The translators of the UST have already figured how to represent the amounts in the metric system.
- (3) Use measurements that are already used in your language. In order to do this you would need to know how your measurements relate to the metric system and figure out each measurement.
- (4) Use the measurements from the ULT and include measurements that your people know in the text or a note.
- (5) Use measurements that your people know, and include the measurements from the ULT in the text or in a note.

Translation Strategies Applied

The strategies are all applied to Isaiah 5:10 below.

For a ten-yoke vineyard will yield only one bath, and one homer of seed will yield only an ephah. (Isaiah 5:10 ULT)

- (1) Use the measurements from the ULT. These are the same kinds of measurements that the original writers used. Spell them in a way that is similar to the way they sound or are spelled in the ULT. (See [Copy or Borrow Words](#).)

“For a ten-yoke vineyard will yield only one **bat**, and one **homer** of seed will yield only an **efa**.”

- (2) Use the measurements given in the UST. Usually they are metric measurements. The translators of the UST have already figured how to represent the amounts in the metric system.

“For a ten-yoke vineyard will yield only **22 liters** and **220 liters** of seed will yield only **22 liters**.”

“For a ten-yoke vineyard will yield only **22**, and **ten baskets** of seed will yield only **one basket**.”

- (3) Use measurements that are already used in your language. In order to do this you would need to know how your measurements relate to the metric system and figure out each measurement.

“For a ten-yoke vineyard will yield only **six gallons**, and **six and a half bushels** of seed will yield only **20 quarts**.”

- (4) Use the measurements from the ULT and include measurements that your people know in the text or a note. The following shows both measurements in the text.

“For a ten-yoke vineyard will yield only **one bath (six gallons)**, and **one homer (six and a half bushels)** of seed will yield only **an ephah (20 quarts)**.”

- (5) Use measurements that your people know, and include the measurements from the ULT in the text or in a note. The following shows the ULT measurements in footnotes.

“For a ten-yoke vineyard will yield only 22 liters¹, and 220 liters² of seed will yield only 22 liters³.”

The footnotes would look like:

- [1] one bath
- [2] one homer
- [3] one ephah

When the unit of measure is implied

Sometimes the Hebrew does not specify a particular unit of volume but only uses a number. In these cases, many English versions, including the ULT and UST, add the word “measure.”

When you came to a heap of **20 measures** of grain, there were only **ten**, and when you came to the wine vat to draw out **50 measures** of wine, there were only 20. (Haggai 2:16 ULT)

Translation Strategies

- (1) Translate literally by using the number without a unit.
- (2) Use a generic word like “measure” or “quantity” or “amount.”
- (3) Use the name of an appropriate container, such as “basket” for grain or “jar” for wine.
- (4) Use a unit of measure that you are already using in your translation.

Translation Strategies Applied

The strategies are all applied to Haggai 2:16 below.

When you came to a heap of **20 measures** of grain, there were only **ten**, and when you came to the wine vat to draw out **fifty measures** of wine, there were only **20**. (Haggai 2:16 ULT)

- (1) Translate literally by using the number without a unit.

When you came to a heap of **20** of grain, there were only **ten**, and when you came to the wine vat to draw out **50** of wine, there were only **20**.

- (2) Use a generic word like “measure” or “quantity” or “amount.”

When you came to a heap of **20 amounts** of grain, there were only **ten**, and when you came to the wine vat to draw out **fifty amounts** of wine, there were only **20**.

- (3) Use the name of an appropriate container, such as “basket” for grain or “jar” for wine.

When you came to a heap of **20 baskets** of grain, there were only **ten**, and when you came to the wine vat to draw out **50 jars** of wine, there were only **20**.

- (4) Use a unit of measure that you are already using in your translation.

Biblical Weight

Description

This page answers the question: *How can I translate the values of weight in the Bible?*

The following terms are the most common units of weight in the Bible. The term “shekel” means “weight,” and many other weights are described in terms of the shekel. Some of these weights were used for money. The metric values in the table below are not exactly equal to the biblical measures. The biblical measures differed in exact amount from time to time and place to place. The equivalents below are only an attempt to give an average measurement.

Original Measure	Shekels	Grams	Kilograms
shekel	1 shekel	11 grams	-
bekah	1/2 shekel	5.7 grams	-
pim	2/3 shekel	7.6 grams	-
gerah	1/20 shekel	0.57 grams	-
mina	50 shekels	550 grams	1/2 kilogram
talent	3,000 shekels	-	34 kilograms

Translation Principles

The people in the Bible did not use modern measures such as meters, liters, and kilograms. Using the original measures can help readers know that the Bible really was written long ago in a time when people used those measures.

Using modern measures can help readers understand the text more easily.

Whatever measure you use, it would be good, if possible, to tell about the other kind of measure in the text or a footnote.

If you do not use the biblical measures, try not to give the readers the idea that the measurements are exact. For example, if you translate one gerah as “.57 grams,” readers might think that the measurement is exact. It would be better to say “half a gram.”

Sometimes it can be helpful to use the word “about” to show that a measurement is not exact. For example, 2 Samuel 21:16 says that Goliath’s spear weighed 300 shekels. Instead of translating this as “3300 grams” or “3.3 kilograms,” it can be translated as “about three and one half kilograms.”

When God tells people how much something should weigh, and when people use those weights, do not say “about” in the translation. Otherwise, it will give the impression that God did not care exactly how much the thing should weigh.

Translation Strategies

(1) Use the measurements from the ULT. These are the same kinds of measurements that the original writers used. Spell them in a way that is similar to the way they sound or are spelled in the ULT. (See [Copy or Borrow Words](#).)

(2) Use the metric measurements given in the UST. The translators of the UST have already figured how to represent the amounts in the metric system.

- (4) Use the measurements from the ULT and include measurements that your people know in the text or a note.
- (5) Use measurements that your people know, and include the measurements from the ULT in the text or in a note.

Translation Strategies Applied

The strategies are all applied to Exodus 38:29 below.

■ The bronze from the wave offering weighed **70 talents and 2,400 shekels**. (Exodus 38:29 ULT)

- (1) Use the measurements from the ULT. These are the same kinds of measurements that the original writers used. Spell them in a way that is similar to the way they sound or are spelled in the ULT. (See [Copy or Borrow Words](#).)

■ "The bronze from the wave offering weighed **70 talentes and 2,400 sekeles**."

- (2) Use the metric measurements given in the UST. The translators of the UST have already figured how to represent the amounts in the metric system.

■ "The bronze from the wave offering weighed **2,400 kilograms**."

- (3) Use measurements that are already used in your language. In order to do this you would need to know how your measurements relate to the metric system and figure out each measurement.

■ "The bronze from the wave offering weighed **5,300 pounds**."

■ "The bronze from the wave offering weighed **70 talents (2,380 kilograms) and 2,400 shekels (26.4 kilograms)**."

- (5) Use measurements that your people know, and include the measurements from the ULT in the text or in a footnote. The following shows the ULT measurements in notes.

■ "The bronze from the offering weighed **70 talents and 2,400 shekels**. ¹"

The footnote would look like:

Copy or Borrow Words

Description

Sometimes the Bible includes things that are not part of your culture and for which your language may not have a word. The Bible also includes people and places for which you may not have names.

When that happens you can “borrow” the word from the Bible in a familiar language and use it in your translation in your own language. This means that you basically copy it from the other language. This page tells how to “borrow” words. (There are also other ways to translate words for things that are not in your language. See Translate Unknowns.)

This page answers the question: *What does it mean to borrow words from another language and how can I do it?*

In order to understand this topic, it would be good to read:

[[rc://en/ta/man/translate/translate-unknown]]

Examples From the Bible

Seeing one fig tree along the roadside, he went to it. (Matthew 21:19a ULT)

If there are no fig trees where your language is spoken, there might not be a name for this kind of tree in your language.

Above him were the **seraphim**; each one had six wings; with two each covered his face, and with two he covered his feet, and with two he flew. (Isaiah 6:2 ULT)

Your language might not have a name for this kind of creature.

The declaration of the word of Yahweh to Israel by the hand of **Malachi**. (Malachi 1:1 ULT)

Malachi might not be a name that people who speak your language use.

Translation Strategies

There are several things to be aware of when borrowing words from another language.

- Different languages use different scripts, such as the Hebrew, Greek, Latin, Cyrillic, Devanagari, and Korean scripts. These scripts use different shapes to represent the letters in their alphabets.
- Languages that use the same script might pronounce the letters in that script differently. For example, when speaking German, people pronounce the letter “j” the same way that people pronounce the letter “y” when speaking English.
- Languages do not all have the same sounds or combinations of sounds. For example, many languages do not have the soft “th” sound in the English word “think,” and some languages cannot start a word with a combination of sounds like “st” as in “stop.”

There are several ways to borrow a word.

- (1) If your language uses a different script from the language you are translating from, you can simply substitute each letter shape with the corresponding letter shape of the script of your language.
- (2) You can spell the word as the Other Language spells it, and pronounce it the way your language normally pronounces those letters.
- (3) You can pronounce the word similarly to the way the Other Language does, and adjust the spelling to fit the rules of your language.

(3) You can pronounce the word similarly to the way the Other Language does, and adjust the spelling to fit the rules of your language.

Zephaniah — If your language does not have the "z," you could use "s." If your writing system does not use "ph" you could use "f." Depending on how you pronounce the "i" you could spell it with "i" or "ai" or "ay."

Direct and Indirect Quotations

Description

There are two kinds of quotations: direct quotations and indirect quotations.

A direct quotation occurs when someone reports what another person said from the viewpoint of that original speaker. People usually expect that this kind of quotation will represent the original speaker's exact words. In the example below, John would have said "I" when referring to himself, so the narrator, who is reporting John's words, uses the word "I" in the quotation to refer to John. To show that these are John's exact words, many languages put the words between quotation marks: "".

- John said, "I do not know at what time I will arrive."

An indirect quotation occurs when a speaker reports what someone else said, but in this case, the speaker is reporting it from his own point of view instead and not from the original person's point of view. This kind of quotation usually contains changes in pronouns, and it often includes changes in time, in word choices, and in length. In the example below, the narrator refers to John as "he" in the quotation and uses the word "would" to replace the future tense, indicated by "will."

- John said that **he** did not know at what time **he** would arrive.

Reason This Is a Translation Issue

In some languages, reported speech can be expressed by either direct or indirect quotations. In other languages, it is more natural to use one than the other. There may be a certain meaning implied by using one rather than the other. So for each quotation, translators need to decide whether it is best to translate it as a direct quotation or as an indirect quotation.

Examples From the Bible

The verses in the examples below contain both direct and indirect quotations. In the explanation below the verse, we have marked in bold the words that are quoted.

And he commanded him to tell no one, but, "Go, show yourself to the priest and offer a sacrifice for your cleansing, according to what Moses commanded, for a testimony to them."
(Luke 5:14 ULT)

- Indirect quote: He commanded him **to tell no one**,
- Direct quote: but told him, "**Go, show yourself to the priest ...**"

And being asked by the Pharisees when the kingdom of God was coming, he answered them and said, "The kingdom of God is not coming with careful observation. Neither will they say, 'Look, here it is!' or 'There it is!' For indeed, the kingdom of God is among you." (Luke 17:20-21 ULT)

- Indirect quote: Being asked by the Pharisees **when the kingdom of God was coming**,
- Direct quote: he answered them and said, "**The kingdom of God is not coming with careful observation. Neither will they say, 'Look, here it is!' or 'There it is!' For indeed, the kingdom of God is among you.**"
- Direct quotes: Neither will they say, '**Look, here it is!**' or, '**There it is!**'

Double Negatives

A double negative occurs when a clause has two words that each express the meaning of “not.” Double negatives mean very different things in different languages. To translate sentences that have double negatives accurately and clearly, you need to know what a double negative means in the Bible and how to express this idea in your language.

This page answers the question: *What are double negatives?*

In order to understand this topic, it would be good to read:

[\[\[rc://en/ta/man/translate/figs-partsofspeech\]\]](#)

[\[\[rc://en/ta/man/translate/figs-sentences\]\]](#)

Description

Negative words are words that have in them the meaning “not.” Examples in English are “no,” “not,” “none,” “no one,” “nothing,” “nowhere,” “never,” “nor,” “neither,” and “without.” Also, some words have prefixes or suffixes that mean “not,” such as the bolded parts of these words: “**un**happy,” “**im**possible,” and “**useless**.” Some other kinds of words also have a negative meaning, such as “lack” or “reject,” or even “fight” or “evil.”

A double negative occurs when a clause has two words that each have a negative meaning.

We did this **not** because we have **no** authority ... (2 Thessalonians 3:9a ULT)

And this was **not** done **without** an oath! (Hebrews 7:20a ULT)

Be sure of this—the wicked person will **not** go **un**punished. (Proverbs 11:21a ULT)

Reason This Is a Translation Issue

Double negatives mean very different things in different languages.

- In some languages, such as Spanish, a double negative emphasizes the negative. The Spanish sentence, “No vi a nadie,” literally says “I did not see no one.” It has both the word ‘no’ next to the verb and ‘nadie,’ which means “no one.” The two negatives are seen as in agreement with each other, and the sentence means, “I did not see anyone.”
- In some languages, a second negative cancels the first one, creating a positive sentence. So, “He is not unintelligent” means “He is intelligent.”
- In some languages the double negative creates a positive sentence, but it is a weak statement. So, “He is not unintelligent” means, “He is somewhat intelligent.”
- In some languages, such as the languages of the Bible, the double negative can create a positive sentence, and often strengthens the statement. So, “He is not unintelligent” can mean “He is intelligent” or “He is very intelligent.”

To translate sentences with double negatives accurately and clearly in your language, you need to know what a double negative means in the Bible and how to express the same idea in your language.

Examples From the Bible

... in order **not** to be **un**fruitful. (Titus 3:14b ULT)

This means “so that they will be fruitful.”

All things were made through him and **without** him there was **not** one thing made that has been made. (John 1:3 ULT)

By using a double negative, John emphasized that the Son of God created absolutely everything. The double negative makes a stronger statement than the simple positive.

Translation Strategies

If double negatives are natural and are used to express the positive in your language, consider using them. Otherwise, you could consider these strategies:

- (1) If the purpose of a double negative in the Bible is simply to make a positive statement, and if it would not do that in your language, remove the two negatives so that it is positive.
- (2) If the purpose of a double negative in the Bible is to make a strong positive statement, and if it would not do that in your language, remove the two negatives and put in a strengthening word or phrase such as “very” or “surely” or “absolutely.”

Examples of Translation Strategies Applied

- (1) If the purpose of a double negative in the Bible is simply to make a positive statement, and if it would not do that in your language, remove the two negatives so that it is positive.

For we do **not** have a high priest who **cannot** feel sympathy for our weaknesses. (Hebrews 4:15a ULT)

“For we have a high priest who can feel sympathy for our weaknesses.”

... in order **not** to be **unfruitful**. (Titus 3:14b ULT)

“... so that they may be fruitful.”

- (2) If the purpose of a double negative in the Bible is to make a strong positive statement, and if it would not do that in your language, remove the two negatives and put in a strengthening word or phrase such as “very” or “surely” or “absolutely.”

Be sure of this—the wicked person will **not** go **unpunished**. (Proverbs 11:21a ULT)

“Be sure of this—wicked people will **certainly** be punished.”

All things were made through him and **without** him there was **not** one thing made that has been made. (John 1:3 ULT)

Doublet

Description

We are using the word “doublet” to refer to two words or phrases that are used together and either mean the same thing or mean very close to the same thing. Often they are joined with the word “and.” Unlike Hendiadys, in which one of the words modifies the other, in a doublet the two words or phrases are equal and are used to emphasize or intensify the one idea that is expressed by the two words or phrases.

This page answers the question: *What are doublets and how can I translate them?*

In order to understand this topic, it would be good to read:

[\[\[rc://en/ta/man/translate/figs-intro\]\]](#)

A very similar issue is the repetition of the same word or phrase for emphasis, usually with no other words between them. Because these figures of speech are so similar and have the same effect, we will treat them here together.

Reason This Is a Translation Issue

In some languages people do not use doublets. Or they may use doublets, but only in certain situations, so a doublet might not make sense in their language in some verses. People might think that the verse is describing two ideas or actions, when it is only describing one. In this case, translators may need to find some other way to express the meaning expressed by the doublet.

Examples From the Bible

He has one people **scattered** and **dispersed** among the peoples (Esther 3:8 ULT)

The bolded words mean the same thing. Together they mean the people were spread out.

He attacked two men **more righteous** and **better** than himself. (1 Kings 2:32b ULT)

This means that they were “much more righteous” than he was.

You have decided to prepare **false** and **deceptive** words. (Daniel 2:9b ULT)

This means that they had decided to lie, which is another way of saying that they intended to deceive people.

... like of a lamb **without blemish** and **without spot**. (1 Peter 1:19b ULT)

This means that he was like a lamb that did not have any defect—not even one.

Then they approached {and} woke him up, saying, “**Master! Master!** We are perishing!” (Luke 8:24 ULT)

The repetition of “Master” means that the disciples called to Jesus urgently and continually.

Translation Strategies

If a doublet would be natural and give the right meaning in your language, consider using it. If not, consider these strategies.

(1) Translate only one of the words or phrases.

(2) If the doublet is used to intensify the meaning, translate one of the words or phrases and add a word that intensifies it such as “very” or “great” or “many.”

(3) If the doublet is used to intensify or emphasize the meaning, use one of your language's ways of doing that.

Translation Strategies Applied

(1) Translate only one of the words.

You have decided to prepare **false** and **deceptive** words. (Daniel 2:9b ULT)

"You have decided to prepare **false** things to say."

(2) If the doublet is used to intensify the meaning, translate one of the words and add a word that intensifies it such as "very" or "great" or "many."

He has one people **scattered** and **dispersed** among the peoples (Esther 3:8 ULT)

"He has one people **very spread out**."

(3) If the doublet is used to intensify or emphasize the meaning, use one of your language's ways of doing that.

... like a lamb **without blemish** and **without spot**. (1 Peter 1:19b ULT)

- English can emphasize this with "any" and "at all."

"... like a lamb **without any blemish at all**."

Then they approached {and} woke him up, saying, "**Master! Master!** We are perishing!" (Luke 8:24 ULT)

Ellipsis

Description

An ellipsis¹ occurs when a speaker or writer leaves out one or more words that normally should be in the sentence. The speaker or writer does this because he knows that the hearer or reader will understand the meaning of the sentence and supply the words in his mind when he hears or reads the words that are there. For example:

So the wicked will not stand in the judgment, **nor sinners in the assembly of the righteous.**
(Psalm 1:5 ULT)

There is ellipsis in the second part because “nor sinners in the assembly of the righteous” is not a complete sentence. The speaker assumes that the hearer will understand what it is that sinners will not do in the assembly of the righteous by filling in the action from the previous clause. With the action filled in, the complete sentence would read:

So the wicked will not stand in the judgment, nor **will** sinners **stand** in the assembly of the righteous.

[¹] English has a punctuation symbol which is also called an ellipsis. It is a series of three dots (...) used to indicate an intentional omission of a word, phrase, sentence or more from text without altering its original meaning. This translationAcademy article is not about the punctuation mark, but about the concept of omission of words that normally should be in the sentence.

Two Types of Ellipsis

A Relative Ellipsis happens when the reader has to supply the omitted word or words from the context. Usually the word is in the previous sentence, as in the example above.

An Absolute Ellipsis happens when the omitted word or words are not in the context, but the phrases are common enough in the language that the reader is expected to supply what is missing from this common usage or from the nature of the situation.

Reason This Is a Translation Issue

Readers who see incomplete sentences or phrases may not know that there is information missing that the writer expects them to fill in. Or readers may understand that there is information missing, but they may not know what information is missing because they do not know the original biblical language, culture, or situation as the original readers did. In this case, they may fill in the wrong information. Or readers may misunderstand the ellipsis if they do not use ellipsis in the same way in their language.

Examples From the Bible

Relative Ellipsis

He makes Lebanon skip like a calf **and Sirion like a young ox.** (Psalm 29:6 ULT)

The writer wants his words to be few and to make good poetry. The full sentence with the information filled in would be:

Watch carefully, therefore, how you walk—**walk** not as unwise but **walk** as wise,

Absolute Ellipsis

Then when he had come near, he asked him, “What do you want me to do for you?” And so he said, “Lord, **that I might recover my sight**.” (Luke 18:40b-41 ULT)

It seems that the man answered in an incomplete sentence because he wanted to be polite and not directly ask Jesus for healing. He knew that Jesus would understand that the only way he could receive his sight would be for Jesus to heal him. The complete sentence would be:

“Lord, **I want you to heal me so** that I might receive my sight.”

To Titus, a true son in our common faith. Grace and peace from God the Father and Christ Jesus our Savior. (Titus 1:4 ULT)

The writer assumes that the reader will recognize this common form of a blessing or wish, so he does not need to include the full sentence, which would be:

To Titus, a true son in our common faith. **May you receive** grace and peace from God the Father and Christ Jesus our Savior.

Translation Strategies

If ellipsis would be natural and give the right meaning in your language, consider using it. If not, here is another option:

(1) Add the missing words to the incomplete phrase or sentence.

Examples of Translation Strategies Applied

(1) Add the missing words to the incomplete phrase or sentence.

So the wicked will not stand in the judgment, nor **sinner in the assembly** of the righteous. (Psalm 1:5 ULT)

So the wicked will not stand in the judgment, and **sinner will not stand in the assembly** of the righteous.

Then when he had come near, he asked him, “What do you want me to do for you?” And so he said, “Lord, **that I might recover my sight**.” (Luke 18:40b-41 ULT)

End of Story

Description

There are different types of information that may be given at the end of a story. Often this is background information. This background information is different from the actions that make up the main part of the story. A book of the Bible is often made up of many smaller stories that are part of the larger story of the book itself. For example, the story of Jesus' birth is a smaller story in the larger story of the book of Luke. Each of these stories, whether large or small, can have background information at the end of it.

This page answers the question: *What kinds of information are given at the end of a story?*

In order to understand this topic, it would be good to read:

[\[\[rc://en/ta/man/translate/writing-intro\]\]](#)

[Background Information](#)

The following are purposes for end of story information:

- to summarize the story
- to give a comment about what happened in the story
- to connect a smaller story to the larger story it is a part of
- to tell the reader what happens to a specific character after the main part of the story ends
- to tell on-going action that continues after the main part of the story ends
- to tell what happens after the story as a result of the events that happened in the story itself

Reasons This Is a Translation Issue

Different languages have different ways of presenting these kinds of information. If you (the translator) do not use your language's ways of doing this, readers may not know:

- that this information is ending the story
- what the purpose of the information is
- how the information is related to the story

Translation Strategies

- Translate the particular kind of information at the end of a story the way your language expresses that kind of information.
- Translate it so that people will understand how it relates to the story it is part of.
- If possible, translate the end of the story in a way that people will know where that story ends and the next begins.

Examples From the Bible

- To summarize the story

Then the rest of the men should follow, some on planks, and some on other things from the ship. **In this way it happened that all of us were brought safely to the land.** (Acts 27:44 ULT)

- To give a comment about what happened in the story

Many of those who practiced magical arts brought their books together and burned them in the sight of everyone. Then they counted the value of them, and found it was 50,000 pieces of

silver. **So the word of the Lord was spreading and prevailing with power.** (Acts 19:19-20 ULT)

- To tell the reader what happens to a specific character after the main part of the story ends

And Mary said, "My soul magnifies the Lord, and my spirit rejoiced in God my savior." **And Mary stayed with her about three months and then returned to her house.** (Luke 1:46-47, 56 ULT)

- To tell on-going action that continues after the main part of the story ends

All who those who heard it were amazed concerning the things that were spoken to them by the shepherds. **But Mary kept all the things, pondering them in her heart.** (Luke 2:18-19 ULT)

- To tell what happens after the story as a result of the events that happened in the story itself

"Woe to you, experts in the Jewish law, because you have taken away the key of knowledge; you do not enter in yourselves, and you hinder those who are entering." **After he went from there, the scribes and the Pharisees began to fiercely oppose him and argued against him about many things, lying in wait to trap him in something from his mouth.** (Luke 11:52-54 ULT)

Euphemism

Description

A euphemism is a mild or polite way of referring to something that is unpleasant, embarrassing, or socially unacceptable, such as death or activities usually done in private.

This page answers the question: *What is a euphemism?*

In order to understand this topic, it would be good to read:

[\[\[rc://en/ta/man/translate/figs-intro\]\]](#)

... they found Saul and his sons **fallen** on Mount Gilboa.
(1 Chronicles 10:8b ULT)

This means that Saul and his sons “were dead.” It is a euphemism because the important thing was not that Saul and his sons had fallen but that they were dead. Sometimes people do not like to speak directly about death because it is unpleasant.

Reason This Is a Translation Issue

Different languages use different euphemisms. If the target language does not use the same euphemism as in the source language, readers may not understand what it means and they may think that the writer means only what the words literally say.

Examples From the Bible

... where there was a cave. Saul went inside to **cover his feet**. (1 Samuel 24:3b ULT)

The original hearers would have understood that Saul went into the cave to use it as a toilet, but the writer wanted to avoid offending or distracting them, so **he did not say specifically** what Saul did or what he left in the cave.

But Mary said to the angel, “How will this be, since I have not **known a man**?” (Luke 1:34 ULT)

In order **to be polite**, Mary uses a euphemism to say that she has never had sexual intercourse with a man.

Translation Strategies

If euphemism would be natural and give the right meaning in your language, consider using it. If not, here are other options:

- (1) Use a euphemism from your own culture.
- (2) State the information plainly without a euphemism if it would not be offensive.

Examples of Translation Strategies Applied

- (1) Use a euphemism from your own culture.

... where there was a cave. Saul went inside to **cover his feet**. (1 Samuel 24:3b ULT) — Some languages might use euphemisms like these:

“... where there was a cave. Saul went into the cave to **dig a hole**”

“... where there was a cave. Saul went into the cave to **have some time alone**”

But Mary said to the angel, “How will this be, since I have not **known a man**?” (Luke 1:34 ULT)

But Mary said to the angel, “How will this be, since I have not **slept with a man?**”

(2) State the information plainly without a euphemism if it would not be offensive.

First, Second or Third Person

Normally a speaker refers to himself as “I” and the person he is speaking to as “you.” Sometimes in the Bible a speaker refers to himself or to the person he is speaking to with terms other than “I” or “you.”

Description

- First person — This is how a speaker normally refers to himself. English uses the pronouns “I” and “we.” (Also: me, my, mine; us, our, ours)
- Second person — This is how a speaker normally refers to the person or people he is speaking to. English uses the pronoun “you.” (Also: your, yours)
- Third person — This is how a speaker refers to someone else. English uses the pronouns “he,” “she,” “it,” and “they.” (Also: him, his, her, hers, its; them, their, theirs) Noun phrases like “the man” or “the woman” are also third person.

This page answers the question: *What are first, second, and third person, and how do I translate when a third person form does not refer to the third person?*

In order to understand this topic, it would be good to read:

[[rc://en/ta/man/translate/figs-explicitinfo]]

[[rc://en/ta/man/translate/figs-pronouns]]

Reason This Is a Translation Issue

Sometimes in the Bible a speaker uses the third person to refer to himself or to the people he is speaking to. Readers might think that the speaker was referring to someone else. They might not understand that he meant “I” or “you.”

Examples From the Bible

Sometimes people used the third person instead of “I” or “me” to refer to themselves.

But David said to Saul, “**Your servant** used to keep **his** father’s sheep.” (1 Samuel 17:34 ULT)

David referred to himself in the third person as “your servant” and used “his.” He was calling himself Saul’s servant in order to show his humility before Saul.

Then Yahweh answered Job out of a fierce storm and said,
“... Do you have an arm like **God’s**? Can you thunder with a voice like **his**?” (Job 40:6, 9 ULT)

God referred to himself in the third person with the words “God’s” and “his.” He did this to emphasize that he is God, and he is powerful.

Sometimes people use the third person instead of “you” or “your” to refer to the person or people they are speaking to.

Abraham answered and said, “Look, I have undertaken to speak to my Lord, even though I am only dust and ashes!” (Genesis 18:27 ULT)

Abraham was speaking to the Lord, and referred to the Lord as “My Lord” rather than as “you.” He did this to show his humility before God.

So also my heavenly Father will do to you, if **each of you** does not forgive **his** brother from your heart. (Matthew 18:35 ULT)

After saying “each of you,” Jesus used the third person “his” instead of “your.”

Translation Strategies

If using the third person to mean “I” or “you” would be natural and give the right meaning in your language, consider using it. If not, here are some other options.

- (1) Use the third person phrase along with the pronoun “I” or “you.”
- (2) Simply use the first person (“I”) or second person (“you”) instead of the third person.

Examples of Translation Strategies Applied

- (1) Use the third person phrase along with the pronoun “I” or “you.”

But David said to Saul, “**Your servant** used to keep **his** father’s sheep.” (1 Samuel 17:34)

But David said to Saul, “**I, your servant**, used to keep **my** father’s sheep.”

- (2) Simply use the first person (“I”) or second person (“you”) instead of the third person.

Fractions

Description

A fraction is a number that represents part of a whole. When an item is divided into several equal parts, a fraction refers to one or more of those parts.

For the drink offering, you must offer **a third** of a hin of wine. (Numbers 15:7a ULT)

A hin is a container of a set size which is used for measuring wine and other liquids. The people were to think about dividing a hin container into three equal parts, filling up only one of those parts and offering that amount.

... **a third** of the ships were destroyed. (Revelation 8:9b ULT)

There were many ships. If all those ships were divided into three equal groups of ships, one group of ships was destroyed.

Most fractions in English simply have the letters “th” added to the end of the number, such as fourth, sixth, ninth, tenth.

| Number of parts the whole is divided into | Fraction | | ----- | ----- | | four | fourth | | ten | tenth | | one hundred | one hundredth | | one thousand | one thousandth |

Some fractions in English do not follow that pattern.

| Number of parts the whole is divided into | Fraction | | ----- | ----- | | two | half | | three | third | | five | fifth |

Reason This is a Translation Issue

Some languages do not use fractions. They may simply talk about parts or groups, but they do not use fractions to tell how big a part is or how many parts are included in a group.

Examples From the Bible

Now to the **half-tribe** of Manasseh, Moses had given a possession in Bashan, but to the other **half**, Joshua gave a possession among their brothers across the Jordan on the west. (Joshua 22:7 ULT)

The tribe of Manasseh divided into two groups. The phrase “the half-tribe of Manasseh” refers one of those groups. The phrase “the other half” refers to the other group.

So the four angels who had been prepared for that hour, that day, that month, and that year, were released so that they would kill **a third** of mankind. (Revelation 9:15 ULT)

If all the people in the world were to be divided into three equal groups, then the number of people in one group would be killed.

You must also prepare **a fourth** of a hin of wine as the drink offering. (Numbers 15:5 ULT)

They were to imagine dividing a hin of wine into four equal parts and prepare the amount equal to one of them.

Translation Strategies

If a fraction in your language would give the right meaning, consider using it. If not, you could consider these strategies.

- (1) Tell the number of parts or groups that the item would be divided into, and then tell the number of parts or groups that is being referred to.
- (2) For measurements such as for weight and length, use a unit that your people might know or the unit in the UST.
- (3) For measurements, use ones that are used in your language. In order to do that you would need to know how your measurements relates to the metric system and figure out each measurement.

Examples of These Translation Strategies Applied

- (1) Tell the number of parts or groups that the item would be divided into, and then tell the number of parts or groups that is being referred to.

A third of the ocean became red like blood (Revelation 8:8 ULT)

It was like they **divided** the ocean **into three parts**, and **one part** of the ocean became blood.

Then you must offer with the bull a grain offering of **three-tenths** of an ephah of fine flour mixed with **half a hin** of oil. (Numbers 15:9 ULT)

... then you must **divide** an ephah of fine flour **into ten parts** and **divide** a hin of oil **into two parts**. Then mix **three of those parts** of the flour with **one of the parts** of oil. Then you must offer that grain offering along with the bull.

- (2) For measurements, use the measurements that are given in the UST. The translators of the UST have already figured how to represent the amounts in the metric system.

... **two-thirds of a shekel** ... (1 Samuel 13:21b ULT)

... **eight grams** of silver ... (1 Samuel 13:21b UST)

... **three-tenths of an ephah** of fine flour mixed with **half a hin** of oil. (Numbers 15:9b ULT)

... **six and one-half liters** of finely ground flour mixed with **two liters** of olive oil. (Numbers 15:9b UST)

- (3) For measurements, use ones that are used in your language. In order to do that you would need to know how your measurements relates to the metric system and figure out each measurement.

Hebrew Months

Description

This page answers the question: *What are the Hebrew months?*

The Hebrew calendar used in the Bible has twelve months. Unlike the western calendar, its first month begins in the spring of the northern hemisphere. Sometimes a month is called by its name (Aviv, Ziv, Sivan), and sometimes it is called by its order in the Hebrew calendar year (first month, second month, third month).

Reasons This Is a Translation Issue

- Readers may be surprised to read of months that they have never heard of, and they may wonder how those months correspond to the months that they use.
- Readers may not realize that phrases such as “the first month” or “the second month” refer to the first or second month of the Hebrew calendar, not some other calendar.
- Readers may not know when the first month of the Hebrew calendar begins.
- The Bible may tell about something happening in a certain month, but readers will not be able to fully understand what is said about it if they do not know what season of the year that was.

List of Hebrew Months

This is a list of the Hebrew months with information about them that may be helpful in the translation.

Aviv — (This month was called **Nisan** after the Babylonian exile.) This is the first month of the Hebrew calendar. It marks when God brought the people of Israel out of Egypt. It is at the beginning of the spring season when the late rains come and people begin to harvest their crops. It is during the last part of March and the first part of April on western calendars. The Passover celebration started on Aviv 10; the Festival of Unleavened Bread was right after that, and the Festival of Harvest was a few weeks after that.

Ziv — This is the second month of the Hebrew calendar. This is during the harvest season. It is during the last part of April and the first part of May on Western calendars.

Sivan — This is the third month of the Hebrew calendar. It is at the end of the harvest season and the beginning of the dry season. It is during the last part of May and the first part of June on Western calendars. The Feast of Weeks is celebrated on Sivan 6.

Tammuz — This is the fourth month of the Hebrew calendar. It is during the dry season. It is during the last part of June and the first part of July on Western calendars.

Ab — This is the fifth month of the Hebrew calendar. It is during the dry season. It is during the last part of July and the first part of August on Western calendars.

Elul — This is the sixth month of the Hebrew calendar. It is at the end of the dry season and the beginning of the rainy season. It is during the last part of August and the first part of September on Western calendars.

Ethanim — This is the seventh month of the Hebrew calendar. This is during the early rain season which would soften the land for sowing. It is during the last part of September and the first part of October on Western calendars. The Feast of Ingathering and the Day of Atonement are celebrated in this month.

Bul — This is the eighth month of the Hebrew calendar. It is during the rainy season when people plough their fields and sow seed. It is during the last part of October and the first part of November on Western calendars.

Kislev — This is the ninth month of the Hebrew calendar. This is at the end of the sowing season and the beginning of the cold season. It is during the last part of November and the first part of December on Western calendars.

Tebeth — This is the tenth month of the Hebrew calendar. It is during the cold season when there may be rain and snow. It is during the last part of December and the first part of January on Western calendars.

Shebat — This is the eleventh month of the Hebrew calendar. This is the coldest month of the year, and it has heavy rainfall. It is during the last part of January and the first part of February on Western calendars.

Adar — This is the twelfth and last month of the Hebrew calendar. This is during the cold season. It is during the last part of February and the first part of March on western calendars. The feast called Purim is celebrated in Adar.

Examples From the Bible

Today you are going out, in **the month of Aviv**. (Exodus 13:4 ULT)

You must eat unleavened bread from evening of the fourteenth day **in the first month of the year**, until evening of the twenty-first day of the month. (Exodus 12:18 ULT)

Translation Strategies

You may need to make some information about the months explicit. (See [Assumed Knowledge and Implicit Information](#).)

(1) Tell the number of the Hebrew month.

(2) Use the names for months that people know.

(3) State clearly what season the month occurred in.

(4) Refer to the time in terms of the season rather than in terms of the Hebrew name of the month. (If possible, use a footnote to show the Hebrew month and day.)

Examples of Translation Strategies Applied

The examples below use these two verses.

At that time, you will appear before me in **the month of Aviv**, which is fixed for this purpose. It was in this month that you came out from Egypt. (Exodus 23:15b ULT)

It will always be a statute for you that in **the seventh month, on the tenth day of the month**, you must humble yourselves and do no work. (Leviticus 16:29a ULT)

(1) Tell the number of the Hebrew month.

At that time, you will appear before me in **the first month of the year**, which is fixed for this purpose. It was in this month that you came out from Egypt.

(2) Use the months that people know.

At that time, you will appear before me in **the month of March**, which is fixed for this purpose. It was in this month that you came out from Egypt.

It will always be a statute for you that **on the day I choose in late September** you must humble yourselves and do no work.

(3) State clearly what season the month occurs in.

It will always be a statute for you that **in the autumn, on the tenth day of the seventh month**, you must humble yourselves and do no work.

(4) Refer to the time in terms of the season rather than in terms of the month.

It will always be a statute for you that in **the day I choose in early autumn**¹ you must humble yourselves and do no work.

How to Translate Names

Description

The Bible contains the names of many people, groups of people, and places. Some of these names may sound strange and be hard to say. Sometimes readers may not know what a name refers to, and sometimes they may need to understand what a name means. This page will help you see how you can translate these names and how you can help people understand what they need to know about them.

This page answers the question: *How can I translate names that are new to my culture?*

In order to understand this topic, it would be good to read:

[[rc://en/ta/man/translate/translate-unknown]]

Meaning of names

Most names in the Bible have meaning. Most of the time, names in the Bible are used simply to identify the people and places they refer to, but sometimes the meaning of a name is especially important.

For this **Melchizedek**, king of Salem, priest of God Most High, was the one who met Abraham returning from the slaughter of the kings and blessed him. (Hebrews 7:1 ULT)

Here the writer uses the name “Melchizedek” primarily to refer to a man who had that name, and the title “king of Salem” tells us that he ruled over a certain city.

His name first indeed means “king of righteousness,” and then also “king of Salem,” that is, “king of peace.” (Hebrews 7:2b ULT)

Here the writer explains the meanings of Melchizedek’s name and title because those things tell us more about the person. Other times, the writer does not explain the meaning of a name because he expects the reader to already know the meaning. If the meaning of the name is important to understand the passage, you can include the meaning in the text or in a footnote.

Reasons This Is a Translation Issue

- Readers may not know some of the names in the Bible. They may not know whether a name refers to a person or place or something else.
- Readers may need to understand the meaning of a name in order to understand the passage.
- Some names may have different sounds or combinations of sounds that are not used in your language or are unpleasant to say in your language. For strategies to address this problem, see [Borrow Words](#).
- Some people and places in the Bible have two names. Readers may not realize that two names refer to the same person or place.

Examples From the Bible

Then you crossed over the **Jordan** and came to **Jericho**, and the men of Jericho, and the **Amorites** ... fought against you, but I gave them into your hand. (Joshua 24:11 ULT)

Readers might not know that “Jordan” is the name of a river, “Jericho” is the name of a city, and “Amorites” is the name of a group of people.

She said, “Do I really continue to see, even after he has seen me?” Therefore, the well was called **Beer Lahai Roi**. (Genesis 16:13b-14a ULT)

Readers may not understand the second sentence if they do not know that “Beer Lahai Roi” means “Well of the Living One who sees me.”

And she called his name **Moses** and she said, “For out of the water I drew him.” (Exodus 2:10b ULT)

Readers may not understand why she said this if they do not know that the name Moses sounds like the Hebrew words “pull out.”

Saul was in agreement with his execution. (Acts 8:1a ULT)

But when the apostles, Barnabas and **Paul**, heard of it, they tore their clothing. (Acts 14:14a ULT)

Readers may not know that the names Saul and Paul refer to the same person.

Translation Strategies

- (1) If readers cannot easily understand from the context what kind of a thing a name refers to, you can add a word to clarify it.
- (2) If readers need to understand the meaning of a name in order to understand what is said about it, copy the name and tell about its meaning either in the text or in a footnote.
- (3) Or if readers need to understand the meaning of a name in order to understand what is said about it, and that name is used only once, translate the meaning of the name instead of copying the name.
- (4) If a person or place has two different names, use one name most of the time and the other name only when the text tells about the person or place having more than one name or when it says something about why the person or place was given that name. Write a footnote when the source text uses the name that is used less frequently.
- (5) Or if a person or place has two different names, then use whatever name is given in the source text, and add a footnote that gives the other name.

Examples of Translation Strategies Applied

- (1) If readers cannot easily understand from the context what kind of a thing a name refers to, you can add a word to clarify it.

Then you crossed over the **Jordan** and came to **Jericho**, and the men of Jericho, and the **Amorites** ... fought against you, but I gave them into your hand. (Joshua 24:11 ULT)

You went over the **Jordan River** and came to the **city of Jericho**. The men of Jericho fought against you, along with **the tribe of the Amorites**.

At that hour, certain Pharisees approached, saying to him, “Leave and go away from here, because **Herod** wants to kill you.” (Luke 13:31 ULT)

At that hour, certain Pharisees approached, saying to him, “Go and leave here, because **King Herod** wants to kill you.”

- (2) If readers need to understand the meaning of a name in order to understand what is said about it, copy the name and tell about its meaning either in the text or in a footnote.

And she called his name **Moses** and she said, “For out of the water I drew him.” (Exodus 2:10b ULT)

She called his name **Moses (which sounds like ‘drawn out’)**, and she said, “For out of the water I drew him.”

(3) Or if readers need to understand the meaning of a name in order to understand what is said about it, and that name is used only once, translate the meaning of the name instead of copying the name.

She said, “Do I really continue to see, even after he has seen me?” Therefore, the well was called **Beer Lahai Roi**. (Genesis 16:13b-14a ULT)

Therefore, the well was called **Well of the Living One who sees me**.

(4) If a person or place has two different names, use one name most of the time and the other name only when the text tells about the person or place having more than one name or when it says something about why the person or place was given that name. Write a footnote when the source text uses the name that is used less frequently. For example, Paul is called “Saul” before Acts 13 and “Paul” after Acts 13. You could translate his name as “Paul” all of the time, except in Acts 13:9 where it talks about him having both names.

... a young man named **Saul**. (Acts 7:58b ULT)

... a young man named **Paul** ¹

The footnote would look like:

^[1] Most versions say “Saul” here, but most of the time in the Bible he is called “Paul.”

Then later in the story, you could translate this way:

But **Saul**, who is also called **Paul**, was filled with the Holy Spirit; (Acts 13:9)

But **Saul**, who is also called **Paul**, was filled with the Holy Spirit;

(5) Or if a person or place has two names, use whatever name is given in the source text, and add a footnote that gives the other name. For example, you could write “Saul” where the source text has “Saul” and “Paul” where the source text has “Paul.”

a young man named **Saul** (Acts 7:58 ULT)

a young man named **Saul**

The footnote would look like:

^[1] This is the same man who is called Paul beginning in Acts 13.

Then later in the story, you could translate this way:

But **Saul**, who is also called **Paul**, was filled with the Holy Spirit; (Acts 13:9)

But **Saul**, who is also called **Paul**, was filled with the Holy Spirit;

Then after the story has explained the name change, you could translate this way.

Hyperbole

Description

A speaker or writer can use exactly the same words to say something that he means as completely true, or as generally true, or as a hyperbole. This is why it can be hard to decide how to understand a statement. For example, the sentence below could mean three different things.

It rains here every night.

The speaker means this as literally true if he means that it really does rain here every night.

The speaker means this as a **generalization** if he means that it rains here most nights.

The speaker means this as a **hyperbole** if he wants to say that it rains more than it actually does, usually in order to express a strong attitude toward the amount or frequency of rain, such as being annoyed or being happy about it.

This page answers the question: *What are hyperboles? What are generalizations? How can I translate them?*

In order to understand this topic, it would be good to read:

[\[\[rc://en/ta/man/translate/figs-intro\]\]](#)

Hyperbole

In hyperbole, a figure of speech that uses exaggeration, a speaker deliberately describes something with an extreme or even unreal statement, usually to show his strong feeling or opinion about it. He expects people to understand that he is exaggerating.

They will not leave **stone upon stone in you**. (Luke 19:44b ULT)

This is an exaggeration. It means that the enemies will completely destroy Jerusalem.

Moses was educated in **all the wisdom of the Egyptians**. (Acts 7:22a ULT)

This hyperbole means that he had learned everything an Egyptian education could offer.

Generalization

This is a statement that is true most of the time or in most situations that it could apply to.

The one who ignores instruction **will have poverty and shame**, but **honor will come** to him who learns from correction. (Proverbs 13:18)

These generalizations tell about what normally happens to people who ignore instruction and what normally happens to people who learn from correction. There may be some exceptions to these statements, but they are generally true.

And when you pray, do not make useless repetitions as **the Gentiles do, for they think that they will be heard because of their many words**. (Matthew 6:7)

This generalization tells about what Gentiles were known for doing. Many Gentiles did this. It does not matter if a few did not. The point was that the hearers should not join in this well-known practice.

Even though a hyperbole or a generalization may have a strong-sounding word like “all,” “always,” “none,” or “never,” it does not necessarily mean **exactly** “all,” “always,” “none,” or “never.” It simply means “most,” “most of the time,” “hardly any,” or “rarely.”

Reason This Is a Translation Issue

Readers need to be able to understand whether or not a statement is literally true.

If readers realize that a statement is not literally true, they need to be able to understand whether it is a hyperbole, a generalization, or a lie. (Though the Bible is completely true, it tells about people who did not always tell the truth.)

Examples From the Bible

Examples of Hyperbole

If your hand causes you to stumble, **cut it off**. It is better for you to enter into life maimed ... (Mark 9:43a ULT)

When Jesus said to cut off your hand, he meant that we should **do whatever extreme things** we need to do in order not to sin. He used this hyperbole to show how extremely important it is to try to stop sinning.

The Philistines gathered together to fight against Israel with 3,000 chariots, 6,000 men to drive the chariots, and troops **as numerous as the sand on the seashore**. (1 Samuel 13:5a ULT)

The bolded phrase is an exaggeration for the purpose of expressing the emotion that the Philistine army was overwhelming in number. It means that there were **many, many** soldiers in the Philistine army.

But as his anointing teaches you **everything** and is true and is not a lie, and just as it has taught you, remain in him. (1 John 2:27b ULT)

This is a hyperbole. It expresses the assurance that God's Spirit teaches us about **all things that we need to know**. God's Spirit does not teach us about everything that it is possible to know.

When they found him, they also said to him, "**Everyone** is looking for you." (Mark 1:37 ULT)

The disciples probably did not mean that everyone in the city was looking for Jesus, but that **many people** were looking for him, or that all of Jesus' closest friends there were looking for him. This is an exaggeration for the purpose of expressing the emotion that they and many others were worried about him.

Examples of Generalization

Can **any good thing** come out of Nazareth? (John 1:46b ULT)

This rhetorical question is meant to express the generalization that there is nothing good in Nazareth. The people there had a reputation for being uneducated and not strictly religious. Of course, there were exceptions.

One of them, of their own prophets, has said, "**Cretans are always liars, evil beasts, lazy bellies**." (Titus 1:12 ULT)

This is a generalization that means that Cretans had a reputation to be like this because, in general, this is how Cretans behaved. It is possible that there were exceptions.

A lazy hand causes a person to be poor, but the hand of the diligent person gains riches. (Proverbs 10:4 ULT)

This is generally true, and it reflects the experience of most people. It is possible that there are exceptions in some circumstances.

Caution

- Do not assume that something is an exaggeration just because it seems to be impossible. God does miraculous things.

They saw Jesus **walking on the sea** and coming near the boat. (John 6:19b ULT)

This is not hyperbole. Jesus really walked on the water. It is a literal statement.

- Do not assume that the word “all” is always a generalization that means “most.”
 - > Yahweh is righteous in **all** his ways
 - > and gracious in **all** he does. (Psalms 145:17 ULT)

Yahweh is always righteous. This is a completely true statement.

Translation Strategies

If the hyperbole or generalization would be natural and people would understand it and not think that it is a lie, consider using it. If not, here are other options.

- (1) Express the meaning without the exaggeration.
- (2) For a generalization, show that it is a generalization by using a phrase like “in general” or “in most cases.”
- (3) For a hyperbole or a generalization, add a word like “many” or “almost” to show that the hyperbole or generalization is not meant to be exact.
- (4) For a hyperbole or a generalization that has a word like “all,” “always,” “none,” or “never,” consider deleting that word.

Examples of Translation Strategies Applied

The Philistines gathered together to fight against Israel: 3,000 chariots, 6,000 men to drive the chariots, and troops **as numerous as the sand on the seashore**. (1 Samuel 13:5a ULT)

The Philistines gathered together to fight against Israel: 3,000 chariots, 6,000 men to drive the chariots, and **a great number of troops**.

- (2) For a generalization, show that it is a generalization by using a phrase like “in general” or “in most cases.”

The one who ignores instruction will have poverty and shame. (Proverbs 13:18a ULT)

Many of the country of Judea and **many** of the people of Jerusalem went out to him.

Idiom

An idiom is a figure of speech made up of a group of words that, as a whole, has a meaning that is different from what one would understand from the meanings of the individual words. Someone from outside of the culture usually cannot understand an idiom without someone inside the culture explaining its true meaning. Every language uses idioms. Some English examples are:

- You are pulling my leg. (This means, “You are teasing me by telling me something that is not true.”)
- Do not push the envelope. (This means, “Do not take a matter to its extreme.”)
- This house is under water. (This means, “The debt owed for this house is greater than its actual value.”)
- We are painting the town red. (This means, “We are going around town tonight celebrating very intensely.”)

This page answers the question: *What are idioms and how can I translate them?*

In order to understand this topic, it would be good to read:

[\[\[rc://en/ta/man/translate/figs-intro\]\]](#)

Description

An idiom is a phrase that has a special meaning to the people of the language or culture who use it. Its meaning is different than what a person would understand from the meanings of the individual words that form the phrase.

He **set his face** to go to Jerusalem. (Luke 9:51b ULT)

The words “set his face” is an idiom that means “decided.”

Sometimes people may be able to understand an idiom from another culture, but it might sound like a strange way to express the meaning.

I am not worthy that you would **come under my roof**. (Luke 7:6b ULT)

The phrase “come under my roof” is an idiom that means “enter my house.”

Put these words **into your ears**. (Luke 9:44a ULT)

This idiom means “Listen carefully and remember what I say.”

Purpose: An idiom is probably created in a culture somewhat by accident when someone describes something in an unusual way. But, when that unusual way communicates the message powerfully and people understand it clearly, other people start to use it. After a while, it becomes a normal way of talking in that language.

Reasons This Is a Translation Issue

- People can easily misunderstand idioms in the original languages of the Bible if they do not know the cultures that produced the Bible.
- People can easily misunderstand idioms that are in the source language Bibles if they do not know the cultures that made those translations.
- It is useless to translate idioms literally (according to the meaning of each word) when the target language audience will not understand what they mean.

Examples From the Bible

Then all Israel came to David at Hebron and said, “Look, we are your **flesh and bone**.” (1 Chronicles 11:1 ULT)

This means, “We and you belong to the same race, the same family.”

■ The children of Israel went out **with a high hand**. (Exodus 14:8b ASV)

This means, "The Israelites went out defiantly."

■ the one who **lifts up my head** (Psalm 3:3b ULT)

This means, "the one who helps me."

Translation Strategies

If the idiom would be clearly understood in your language, consider using it. If not, here are some other options.

- (1) Translate the meaning plainly without using an idiom.
- (2) Use a different idiom that people use in your own language that has the same meaning.

Introduction of a New Event

Description

When people tell a story, they tell about an event or a series of events. Often they put certain information at the beginning of the story, such as who the story is about, when it happened, and where it happened. This information that the writer gives before the events of the story begin is called the setting of the story. Some new events in a story also have a setting because they might involve new people, new times, and new places. In some languages, people also tell if they saw the event or heard about it from someone else.

This page answers the question: *How do we introduce a new event in a story?*

In order to understand this topic, it would be good to read:

[\[\[rc://en/ta/man/translate/writing-intro\]\]](#)

[\[\[rc://en/ta/man/translate/figs-events\]\]](#)

When your people tell about events, what information do they give at the beginning? Is there a certain order that they put it in? In your translation, you will need to follow the way your language introduces new information at the beginning of a story or a new event rather than the way the source language did that. In this way your translation will sound natural and communicate clearly in your language.

Examples From the Bible

In the days of Herod, king of Judea, **there was a certain priest named Zechariah**, from the division of Abijah. And **his wife was** from the daughters of Aaron, and her name was Elizabeth. (Luke 1:5 ULT)

The verses above introduce a story about Zechariah. The first bolded phrase tells when it happened, and the next two bolded phrases introduce the main people. The next two verses go on to explain that Zechariah and Elizabeth were old and did not have any children. All of this is the setting. Then the phrase “And it happened that” in Luke 1:8 helps to introduce the first event in this story:

And it happened that in his performing as priest before God, in the order of his division, according to the custom of the priesthood, he came up by lot to enter into the temple of the Lord to burn incense. (Luke 1:8-9 ULT)

The birth of Jesus Christ happened in the following way. His mother, Mary, was engaged to marry Joseph, but before they came together, she was found to be pregnant by the Holy Spirit. (Matthew 1:18 ULT)

The bolded sentence above makes it explicit that a story about Jesus is being introduced. The story will tell about how the birth of Jesus happened.

Now after Jesus was born in Bethlehem of Judea in the days of Herod the king, behold, learned men from the east arrived in Jerusalem. (Matthew 2:1 ULT)

The bolded phrase above shows that the events concerning the learned men happened **after** Jesus was born.

Now in those days John the Baptist came preaching in the wilderness of Judea. (Matthew 3:1-22 ULT)

The bolded phrase above shows that John the Baptist came preaching around the time of the previous events. It is probably very general and refers to when Jesus lived in Nazareth.

Then Jesus came from Galilee to the Jordan River to John, to be baptized by him. (Matthew 3:13 ULT)

The word “then” shows that Jesus came to the Jordan River some time after the events in the previous verses.

Now there was **a man from the Pharisees whose name was Nicodemus, a Jewish leader**.
This man came to Jesus at night. (John 3:1-2a ULT)

The author first introduced the new person and then told about what he did and when he did it. In some languages, it might be more natural to tell about the time first.

6 Noah was 600 years old when the flood came upon the earth. 7 Noah, his sons, his wife, and his sons' wives went into the ark together because of the waters of the flood. (Genesis 7:6-7 ULT)

Verse 6 is a statement of the events that happen in the rest of chapter 7. Chapter 6 already told about how God told Noah that there would be a flood, and how Noah prepared for it. Chapter 7 verse 6 introduces the part of the story that tells about Noah and his family and the animals going into the ship, the rain starting, and the rain flooding the earth. Some languages might need to make it clear that this verse simply introduces the event, or move this verse after verse 7. Verse 6 is not one of the events of the story. The people went into the ship before the flood came.

Translation Strategies

If the information given at the beginning of a new event is clear and natural to your readers, consider translating it as it is in the ULT or UST. If not, consider one of these strategies:

- (1) Put the information that introduces the event in the order that your people put it.
- (2) If readers would expect certain information but it is not in the Bible, consider using an indefinite word or phrase to fill in that information, such as: "another time" or "someone."
- (3) If the introduction is a summary of the whole event, use your language's way of showing that it is a summary.
- (4) If it would be strange in the target language to give a summary of the event at the beginning, indicate that the event would actually happen later in the story.

Examples of Translation Strategies Applied

- (1) Put the information that introduces the event in the order that your people put it.

Now there was **a man from the Pharisees whose name was Nicodemus, a Jewish leader**.
This man came to Jesus at night. (John 3:1-2a ULT)

There was a **man whose name was Nicodemus. He was a Pharisee and a member of the Jewish Council**. One night he came to Jesus.

One night **a man named Nicodemus, who was a Pharisee and a member of the Jewish Council**, came to Jesus.

As he passed by, **he saw Levi the son of Alpheus, sitting** at the tax collector's tent, and he said to him ... (Mark 2:14a ULT)

As he passed by, **Levi the son of Alpheus was sitting** at the tax collector's tent. Jesus saw him and said to him ...

As he passed by, **there was a man sitting** at the tax collector's tent. His name was Levi, and he was the son of Alpheus. Jesus saw him and said to him ...

As he passed by, **there was a tax collector** sitting at the tax collector's tent. His name was Levi, and he was the son of Alpheus. Jesus saw him and said to him ...

(2) If readers would expect certain information, but it is not in the Bible, consider using an indefinite word or phrase such as "another time," or "someone."

Noah was 600 years old when the flood came upon the earth. (Genesis 7:6 ULT) — If people expect to be told something about when the new event happened, the phrase "after that" can help them see that it happened after the events already mentioned.

After that, when Noah was 600 years old, the flood came upon the earth.

Again he began to teach beside the sea. (Mark 4:1a ULT) — In chapter 3 Jesus was teaching at someone's house. Readers may need to be told that this new event happened at another time, or that Jesus actually went to the sea.

Another time Jesus began to teach people again beside the sea.

Jesus went to the sea and **began to teach people again** there.

(3) If the introduction is a summary of the whole event, use your language's way of showing that it is a summary.

Noah was 600 years old when the flood came upon the earth. (Genesis 7:6 ULT)

Now this is what happened when Noah was 600 years old and the flood came upon the earth.

This part tells about what happened when the flood came upon the earth. It happened when Noah was 600 years old.

(4) If it would be strange in the target language to give a summary of the event at the beginning, show that the event will actually happen later in the story.

Noah was 600 years old when the flood came upon the earth. Noah, his sons, his wife, and his sons' wives went into the ark together because of the waters of the flood. (Genesis 7:6-7 ULT)

Now this is what happened when Noah was 600 years old. Noah, his sons, his wife, and his sons' wives went into the ark together because **God had said that the waters of the flood would come.**

Irony

Description

Irony is a figure of speech in which the sense that the speaker intends to communicate is actually the opposite of the literal meaning of the words. Sometimes a person does this by using someone else's words, but in a way that communicates that he does not agree with them. People do this to emphasize how different something is from what it should be, or how someone else's belief about something is wrong or foolish. It is often humorous.

This page answers the question: *What is irony and how can I translate it?*

In order to understand this topic, it would be good to read:

[\[\[rc://en/ta/man/translate/figs-intro\]\]](#)

Then Jesus answered and said to them, "People who are well do not have need of a physician, but those who have sickness. I did not come to call the righteous, but sinners to repentance."
(Luke 5:31-32 ULT)

When Jesus spoke of "righteous people," he was not referring to people who were truly righteous, but to people who wrongly believed that they were righteous. By using irony, Jesus communicated that they were wrong to think that they were better than others and did not need to repent.

Reason This Is a Translation Issue

If someone does not realize that a speaker is using irony, he will think that the speaker actually believes what he is saying. He will understand the passage to mean the opposite of what it was intended to mean.

Examples From the Bible

How well you reject the commandment of God so that you may keep your tradition! (Mark 7:9b ULT)

Here Jesus praises the Pharisees for doing something that is obviously wrong. Through irony, he communicates the opposite of praise: He communicates that the Pharisees, who take great pride in keeping the commandments, are so far from God that they do not even recognize that their traditions are breaking God's commandments. The use of irony makes the Pharisee's sin more obvious and startling.

"Present your case," says Yahweh; "present your best arguments for your idols," says the King of Jacob. **"Let them bring us their own arguments; have them come forward and declare to us what will happen, so we may know these things well. Have them tell us of earlier predictive declarations, so we can reflect on them and know how they were fulfilled."** (Isaiah 41:21-22 ULT)

People worshiped idols as if their idols had knowledge or power, and Yahweh was angry at them for doing that. So he used irony and challenged their idols to tell what would happen in the future. He knew that the idols could not do this, but by speaking as if they could, he mocked the idols, making their inability more obvious, and rebuked the people for worshiping them.

Can you lead light and darkness to their places of work?
Can you find the way back to their houses for them?
Undoubtedly you know, for you were born then; "the number of your days is so large!" (Job 38:20-21 ULT)

Job thought that he was wise. Yahweh used irony to show Job that he was not so wise. The two phrases in bold above are irony. They emphasize the opposite of what they say, because they are so obviously false. They

emphasize that Job could not possibly answer God's questions about the creation of light because Job was not born until many, many years later.

Already you are satisfied! Already you have become rich! **You began to reign** apart from us, and I wish you really did reign, so that we also might reign with you. (1 Corinthians 4:8 ULT)

The Corinthians considered themselves to be very wise, self-sufficient, and not in need of any instruction from the Apostle Paul. Paul used irony, speaking as if he agreed with them, to show how proudly they were acting and how far from being wise they really were.

Translation Strategies

If the irony would be understood correctly in your language, translate it as it is stated. If not, here are some other strategies.

- (1) Translate it in a way that shows that the speaker is saying what someone else believes.
- (2) The irony is **not** found in the literal words of the speaker, but instead the true meaning is found in the opposite of the literal meaning of the speaker's words.

Examples of Translation Strategies Applied

- (1) Translate it in a way that shows that the speaker is saying what someone else believes.

How well you reject the commandment of God so that you may keep your tradition! (Mark 7:9a ULT)

You think that you are doing well when you reject God's commandment so you may keep your tradition!
You act like it is good to reject God's commandment so you may keep your tradition!

I did not come to call **the righteous**, but sinners to repentance. (Luke 5:32 ULT)

I did not come to call **people who think that they are righteous** to repentance, but to call sinners to repentance.

- (2) Translate the actual, intended meaning of the statement of irony.

How well you reject the commandment of God so that you may keep your tradition! (Mark 7:9a ULT)

You are doing a terrible thing when you reject the commandment of God so you may keep your tradition!

"Present your case," says Yahweh; "present your best arguments for your idols," says the King of Jacob. **"Let them bring us their own arguments; have them come forward and declare to us what will happen, so we may know these things well. Have them tell us of earlier predictive declarations, so we can reflect on them and know how they were fulfilled."** (Isaiah 41:21-22 ULT)

'Present your case,' says Yahweh; 'present your best arguments for your idols,' says the King of Jacob. Your idols **cannot bring us their own arguments or come forward to declare to us what will happen** so we may know these things well. We cannot hear them because **they cannot speak** to tell us their earlier predictive declarations, so we cannot reflect on them and know how they were fulfilled.

Can you lead light and darkness to their places of work?

Can you find the way back to their houses for them?

**Undoubtedly you know, for you were born then;
the number of your days is so large!** (Job 38:20-21 ULT)

Can you lead light and darkness to their places of work? Can you find the way back to their houses for them? **You act like you know how light and darkness were created, as if you were there; as if you are as old as creation, but you are not!**

Merism

Definition

Merism is a figure of speech in which a person refers to something by speaking of two extreme parts of it. By referring to the extreme parts, the speaker intends to include also everything in between those parts.

This page answers the question: *What does the word merism mean and how can I translate phrases that have it?*

In order to understand this topic, it would be good to read:

[\[\[rc://en/ta/man/translate/figs-intro\]\]](#)

"I am **the alpha and the omega**," says the Lord God, "the one who is, and who was, and who is to come, the Almighty." (Revelation 1:8 ULT)

I am **the alpha and the omega, the first and the last, the beginning and the end**. (Revelation 22:13, ULT)

Alpha and omega are the first and last letters of the Greek alphabet. This is a merism that includes everything from the beginning to the end. It means eternal.

... I praise you, Father, Lord of **heaven and earth** ..., (Matthew 11:25b ULT)

Heaven and earth is a merism that includes everything that exists.

Reason This is a Translation Issue

Some languages do not use merism. The readers of those languages may think that the phrase only applies to the items mentioned. They may not realize that it refers to those two things and everything in between.

Examples From the Bible

From the rising of the sun to its setting, Yahweh's name should be praised. (Psalm 113:3 ULT)

This bolded phrase is a merism because it speaks of the east and the west and everywhere in between. It means "everywhere."

He will bless those who honor him, both **young and old**. (Psalm 115:13)

The bolded phrase is merism because it speaks of old people and young people and everyone in between. It means "everyone."

Translation Strategies

If the merism would be natural and give the right meaning in your language, consider using it. If not, here are other options:

- (1) Identify what the merism refers to without mentioning the parts.
- (2) Identify what the merism refers to and include the parts.

Examples of Translation Strategies Applied

- (1) Identify what the merism refers to without mentioning the parts.

I praise you, Father, Lord of **heaven and earth**. (Matthew 11:25b ULT)

I praise you, Father, Lord of **everything**.

From the rising of the sun to its setting, Yahweh's name should be praised. (Psalm 113:3 ULT)

In all places, people should praise Yahweh's name.

(2) Identify what the merism refers to and include the parts.

I praise you, Father, Lord of **heaven and earth**. (Matthew 11:25b ULT)

I praise you, Father, Lord of **everything, including both what is in heaven and what is on earth**.

He will bless those who honor him, both **young and old**. (Psalm 115:13 ULT)

He will bless **all those** who honor him, regardless of whether they are **young or old**.

Metaphor

Description

A metaphor is a figure of speech in which someone speaks of one thing as if it were a different thing because he wants people to think about how those two things are alike.

For example, someone might say, “The girl I love is a red rose.”

A girl and a rose are very different things, but the speaker considers that they are alike in some way. The hearer’s task is to understand in what way they are alike.

This page answers the question: *What is a metaphor and how can I translate a Bible passage that has one?*

In order to understand this topic, it would be good to read:

[\[\[rc://en/ta/man/translate/figs-intro\]\]](#)

[Simile](#)

The Parts of a Metaphor

The example above shows us that a metaphor has three parts. In this metaphor, the speaker is talking about “the girl I love.” This is the **Topic**. The speaker wants the hearer to think about what is similar between her and “a red rose.” The red rose is the **Image** to which he compares the girl. Most probably, he wants the hearer to consider that they are both beautiful. This is the **Idea** that the girl and the rose both share, and so we may also call it the **Point of Comparison**.

Every metaphor has three parts:

- The **Topic**, the item being immediately discussed by the writer/speaker.
- The **Image**, the physical item (object, event, action, etc.) which the speaker uses to describe the topic.
- The **Idea**, the abstract concept or quality that the physical **Image** brings to the mind of the hearer when he thinks of how the **Image** and the **Topic** are similar. Often, the **Idea** of a metaphor is not explicitly stated in the Bible, but it is only implied from the context. The hearer or reader usually needs to think of the **Idea** himself.

Using these terms, we can say that a metaphor is a figure of speech that uses a physical **Image** to apply an abstract **Idea** to the speaker’s **Topic**.

Usually, a writer or speaker uses a metaphor in order to express something about a **Topic**, with at least one **Point of Comparison (Idea)** between the **Topic** and the **Image**. Often in metaphors, the **Topic** and the **Image** are explicitly stated, but the **Idea** is only implied. The writer/speaker often uses a metaphor in order to invite the readers/listeners to think about the similarity between the **Topic** and the **Image** and to figure out for themselves the **Idea** that is being communicated.

Speakers often use metaphors in order to strengthen their message, to make their language more vivid, to express their feelings better, to say something that is hard to say in any other way, or to help people remember their message.

Sometimes speakers use metaphors that are very common in their language. However, sometimes speakers use metaphors that are uncommon, and even some metaphors that are unique. When a metaphor has become very common in a language, often it becomes a “passive” metaphor, in contrast to uncommon metaphors, which we describe as being “active.” Passive metaphors and active metaphors each present a different kind of translation problem, which we will discuss below.

Passive Metaphors

A passive metaphor is a metaphor that has been used so much in the language that its speakers no longer regard it as one concept standing for another. Linguists often call these “dead metaphors.” Passive metaphors are extremely common. Examples in English include the terms “table **leg**,” “family **tree**,” “book **leaf**” (meaning a page

in a book), or the word “crane” (meaning a large machine for lifting heavy loads). English speakers simply think of these words as having more than one meaning. Examples of passive metaphors in Biblical Hebrew include using the word “hand” to represent “power,” using the word “face” to represent “presence,” and speaking of emotions or moral qualities as if they were “clothing.”

Patterned Pairs of Concepts Acting as Metaphors

Many ways of metaphorical speaking depend on pairs of concepts, where one underlying concept frequently stands for a different underlying concept. For example, in English, the direction “up” (the Image) often represents the concepts of “more” or “better” (the Idea). Because of this pair of underlying concepts, we can make sentences such as “The price of gasoline is going **up**,” “A **highly** intelligent man,” and also the opposite kind of idea: “The temperature is going **down**,” and “I am feeling very **low**.”

Patterned pairs of concepts are constantly used for metaphorical purposes in the world’s languages because they serve as convenient ways to organize thought. In general, people like to speak of abstract qualities (such as power, presence, emotions, and moral qualities) as if they were body parts, or as if they were objects that could be seen or held, or as if they were events that could be watched as they happened.

When these metaphors are used in normal ways, it is rare that the speaker and audience regard them as figurative speech. Examples of metaphors in English that go unrecognized are:

- “Turn the heat **up**.” More is spoken of as up.
- “Let us **go ahead** with our debate.” Doing what was planned is spoken of as walking or advancing.
- “You **defend** your theory well.” Argument is spoken of as war.
- “A **flow** of words.” Words are spoken of as liquids.

English speakers do not view these as metaphorical expressions or figures of speech, so it would be wrong to translate them into other languages in a way that would lead people to pay special attention to them as figurative speech. For a description of important patterns of this kind of metaphor in biblical languages, please see Biblical Imagery — Common Patterns and the pages it will direct you to.

When translating something that is a passive metaphor into another language, do not treat it as a metaphor. Instead, just use the best expression for that thing or concept in the target language.

Active Metaphors

These are metaphors that people recognize as one concept standing for another concept, or one thing for another thing. Metaphors make people think about how the one thing is like the other thing, because in most ways the two things are very different. People also easily recognize these metaphors as giving strength and unusual qualities to the message. For this reason, people pay attention to these metaphors. For example,

But for you who fear my name, the sun of righteousness will rise with healing in its wings.
(Malachi 4:2a ULT)

Here, God speaks about his salvation as if it were the sun rising in order to shine its rays on the people whom he loves. He also speaks of the sun’s rays as if they were wings. Also, he speaks of these wings as if they were bringing medicine that would heal his people. Here is another example:

And he said to them, “Go and tell that fox ...” (Luke 13:32a ULT)

Here, “that fox” refers to King Herod. The people listening to Jesus certainly understood that Jesus was intending for them to apply certain characteristics of a fox to Herod. They probably understood that Jesus intended to communicate that Herod was evil, either in a cunning way or as someone who was destructive, murderous, or who took things that did not belong to him, or all of these.

Active metaphors require the translator's special care to make a correct translation. To do so, you need to understand the parts of a metaphor and how they work together to produce meaning.

Jesus said to them, "I am the bread of life; he who comes to me will not be hungry, and he who believes in me will never be thirsty." (John 6:35 ULT)

In this metaphor, Jesus called himself the bread of life. The **Topic** is "I" (meaning Jesus himself) and the **Image** is "bread." Bread was the primary food that people ate in that place and time. The similarity between bread and Jesus is that people need both to live. Just as people need to eat food in order to have physical life, people need to trust in Jesus in order to have eternal life. The **Idea** of the metaphor is "life." In this case, Jesus stated the central Idea of the metaphor, but often the Idea is only implied.

Purposes of Metaphor

- One purpose of metaphor is to teach people about something that they do not know (the **Topic**) by showing that it is like something that they already do know (the **Image**).
- Another purpose is to emphasize that something (the **Topic**) has a particular quality (the **Idea**) or to show that it has that quality in an extreme way.
- Another purpose is to lead people to feel the same way about the **Topic** as they would feel about the **Image**.

Reasons This Is a Translation Issue

- People may not recognize that something is a metaphor. In other words, they may mistake a metaphor for a literal statement, and thus, misunderstand it.
- People may not be familiar with the thing that is used as an image, and so, not be able to understand the metaphor.
- If the topic is not stated, people may not know what the topic is.
- People may not know the points of comparison that the speaker wants them to understand. If they fail to think of these points of comparison, they will not understand the metaphor.
- People may think that they understand the metaphor, but they do not. This can happen when they apply points of comparison from their own culture, rather than from the biblical culture.

Translation Principles

- Make the meaning of a metaphor as clear to the target audience as it was to the original audience.
- Do not make the meaning of a metaphor more clear to the target audience than you think it was to the original audience.

Examples From the Bible

Listen to this word, **you cows of Bashan**, (Amos 4:1q ULT)

In this metaphor Amos speaks to the upper-class women of Samaria ("you," the Topic) as if they were cows (the Image). Amos does not say what similarity(s) he intends between these women and cows. He wants the reader to think of them, and he fully expects that readers from his culture will easily do so. From the context, we can see that he means that the women are like cows in that they are fat and interested only in feeding themselves. If we were to apply similarities from a different culture, such as that cows are sacred and should be worshiped, we would get the wrong meaning from this verse.

NOTE: Amos does not actually mean that the women are cows. He speaks to them as human beings.

Yet, Yahweh, you are our father; **we are the clay. You are our potter**; and we all are the work of your hand. (Isaiah 64:8 ULT)

The example above has two related metaphors. The Topic(s) are “we” and “you,” and the Image(s) are “clay” and “potter.” The similarity between a potter and God is the fact that both make what they wish out of their material. The potter makes what he wishes out of the clay, and God makes what he wishes out of his people. The Idea being expressed by the comparison between the potter’s clay and “us” is that **neither the clay nor God’s people have a right to complain about what they are becoming**.

Jesus said to them, “Take heed and beware of **the yeast of the Pharisees and Sadducees**.” The disciples reasoned among themselves and said, “It is because we did not take bread.” (Matthew 16:6-7 ULT)

Jesus used a metaphor here, but his disciples did not realize it. When he said “yeast,” they thought he was talking about bread, but “yeast” was the Image in his metaphor, and the Topic was the teaching of the Pharisees and Sadducees. Since the disciples (the original audience) did not understand what Jesus meant, it would not be good to state clearly here what Jesus meant.

Translation Strategies

If people would understand the metaphor in the same way that the original readers would have understood it, go ahead and use it. Be sure to test the translation to make sure that people do understand it in the right way.

If people do not or would not understand it, here are some other strategies.

- (1) If the metaphor is a common expression in the source language or expresses a patterned pair of concepts in a biblical language (that is, it is a passive metaphor), then express the **Idea** in the simplest way preferred by your language.
- (2) If the metaphor seems to be an active metaphor, you can translate it literally **if you think that the target language also uses this metaphor in the same way to mean the same thing as in the Bible**. If you do this, be sure to test it to make sure that the language community understands it correctly.
- (3) If the target audience does not realize that it is a metaphor, then change the metaphor to a simile. Some languages do this by adding words such as “like” or “as.” See [Simile](#).
- (4) If the target audience would not know the **Image**, see Translate Unknowns for ideas on how to translate that image.
- (5) If the target audience would not use that **Image** for that meaning, use an image from your own culture instead. Be sure that it is an image that could have been possible in Bible times.
- (6) If the target audience would not know what the **Topic** is, then state the topic clearly. (However, do not do this if the original audience did not know what the Topic was.)
- (7) If the target audience would not know the intended similarity (the **Idea**) between the topic and the image, then state it clearly.
- (8) If none of these strategies is satisfactory, then simply state the **Idea** plainly without using a metaphor.

Examples of Translation Strategies Applied

(1) If the metaphor is a common expression in the source language or expresses a patterned pair of concepts in a biblical language (that is, a passive metaphor), then express the Idea in the simplest way preferred by your language.

Then, see, one of the leaders of the synagogue, named Jairus, came, and when he saw him, **fell at his feet**. (Mark 5:22 ULT)

Then one of the leaders of the synagogue, named Jairus, came, and when he saw him, **immediately bowed down in front of him**.

(2) If the metaphor seems to be an active metaphor, you can translate it literally **if you think that the target language also uses this metaphor in the same way to mean the same thing as in the Bible**. If you do this, be sure to test it to make sure that the language community understands it correctly.

But Jesus said to them, "He wrote this commandment to you because of your **hardness of heart**." (Mark 10:5 ULT)

It was because of your **hard hearts** that he wrote you this law.

We made no change to this one, but it must be tested to make sure that the target audience correctly understands this metaphor.

(3) If the target audience does not realize that it is a metaphor, then change the metaphor to a simile. Some languages do this by adding words such as "like" or "as."

Yet, Yahweh, you are our father; we **are the clay**. You **are our potter**; and we all are the work of your hand. (Isaiah 64:8 ULT)

And yet, Yahweh, you are our father; we are **like** clay. You are **like** a potter; and we all are the work of your hand.

(4) If the target audience would not know the **Image**, see Translate Unknowns for ideas on how to translate that image.

Saul, Saul, why do you persecute me? It is hard for you **to kick against a goad**. (Acts 26:14b ULT)

Saul, Saul, why do you persecute me? It is hard for you to **kick against a pointed stick**.

(5) If the target audience would not use that **Image** for that meaning, use an image from your own culture instead. Be sure that it is an image that could have been possible in Bible times.

Yet, Yahweh, you are our father; we are the **clay**. You are our **potter**; and we all are the work of your hand. (Isaiah 64:8 ULT)

"And yet, Yahweh, you are our father; we are the **wood**. You are our **carver**; and we all are the work of your hand."

"And yet, Yahweh, you are our father; we are the **string**. You are the **weaver**; and we all are the work of your hand."

(6) If the target audience would not know what the **Topic** is, then state the topic clearly. (However, do not do this if the original audience did not know what the topic was.)

Yahweh lives; may **my rock** be praised. May the God of my salvation be exalted. (Psalm 18:46 ULT)

Yahweh lives; **He is my rock**. May he be praised. May the God of my salvation be exalted.

(7) If the target audience would not know the intended similarity between the Topic and the Image, then state it clearly.

Yahweh lives; may **my rock** be praised. May the God of my salvation be exalted. (Psalm 18:46 ULT)

Yahweh lives; may he be praised because he is the rock **under which I can hide from my enemies**. May the God of my salvation be exalted.

Saul, Saul, why do you persecute me? It is hard for you **to kick against a goad**. (Acts 26:14 ULT)

Saul, Saul, why do you persecute me? You **fight against me and hurt yourself like an ox that kicks against its owner's pointed stick**.

(8) If none of these strategies are satisfactory, then simply state the idea plainly without using a metaphor.

I will make you to become **fishers of men**. (Mark 1:17b ULT)

I will make you to become **people who gather men**.
Now you gather fish. I will make you **gather people**.

Metonymy

Description

Metonymy is a figure of speech in which an item (either physical or abstract) is called not by its own name, but by the name of something closely associated with it. A metonym is a word or phrase used as a substitute for something that it is associated with.

This page answers the question: *What is a metonymy?*

In order to understand this topic, it would be good to read:

[[rc://en/ta/man/translate/figs-intro]]

... and **the blood** of Jesus his Son cleanses us from every sin. (1 John 1:7b ULT)

The blood represents Christ's death.

And he took **the cup** in the same way after supper, saying, "**This cup** is the new covenant in my blood, which is poured out for you." (Luke 22:20 ULT)

The cup represents the wine that is in the cup.

Metonymy can be used

- as a shorter way of referring to something
- to make an abstract idea more meaningful by referring to it with the name of a physical object associated with it

Reason This Is a Translation Issue

The Bible uses metonymy very often. Speakers of some languages are not familiar with metonymy and they may not recognize it when they read it in the Bible. If they do not recognize the metonymy, they will not understand the passage or, worse yet, they will get a wrong understanding of the passage. Whenever a metonym is used, people need to be able to understand what it represents.

Examples From the Bible

The Lord God will give to him **the throne** of his father David. (Luke 1:32b ULT)

A throne represents the authority of a king. "Throne" is a metonym for "kingly authority," "kingship," or "reign." This means that God would make him become a king who would follow King David.

Then immediately his **mouth** was opened (Luke 1:64a ULT)

The mouth here represents the power to speak. This means that he was able to talk again.

Who warned you to flee from **the wrath** that is coming? (Luke 3:7b ULT)

The word "wrath" or "anger" is a metonym for "punishment." God was extremely angry with the people and, as a result, he would punish them.

Translation Strategies

If people would easily understand the metonym, consider using it. Otherwise, here are some options.

- (1) Use the metonym along with the name of the thing it represents.
- (2) Use only the name of the thing the metonym represents.

Examples of Translation Strategies Applied

- (1) Use the metonym along with the name of the thing it represents.

And he took the cup in the same way after the supper, saying, “**This cup** is the new covenant in my blood, which is poured out for you.” (Luke 22:20 ULT)

He took the cup in the same way after supper, saying, “**The wine in this cup** is the new covenant in my blood, which is poured out for you.”

This verse also contains a second metonym: The cup, (representing the wine it contains) also represents the new covenant made with the blood Christ shed for us.

- (2) Use the name of the thing the metonym represents.

The Lord God will give him **the throne** of his father David. (Luke 1:32b ULT)

“The Lord God will give him **the kingly authority** of his father, David.”

or:

“The Lord God will **make him king** like his ancestor, King David.”

Who warned you to flee from **the wrath** that is coming? (Luke 3:7b ULT)

“Who warned you to flee from God’s coming **punishment**?”

Numbers

Description

There are many numbers in the Bible. They can be written as words (“five”) or as numerals (“5”). Some numbers are very large, such as “two hundred” (200), “twenty-two thousand” (22,000), or “one hundred million” (100,000,000). Some languages do not have words for all of these numbers. Translators need to decide how to translate numbers and whether to write them as words or numerals.

This page answers the question: *How do I translate numbers?*

In order to understand this topic, it would be good to read:

[[rc://en/ta/man/translate/translate-unknown]]

Some numbers are exact and others are rounded.

Abram was **86** years old when Hagar bore Ishmael to Abram. (Genesis 16:16 ULT)

Eighty-six (86) is an exact number.

That day about **3,000** of the people died. (Exodus 32:28b ULT)

Here the number three thousand (3,000) is a round number. It may have been a little more than that or a little less than that. The word “about” shows that it is not an exact number.

Reason This Is a Translation Issue

Some languages do not have words for some of these numbers.

Translation Principles

- Exact numbers should be translated as closely and specifically as they can be.
- Rounded numbers can be translated more generally.

Examples From the Bible

When Jared had lived **162** years, he became the father of Enoch. After he became the father of Enoch, Jared lived **800** years. He became the father of more sons and daughters. Jared lived **962** years, and then he died. (Genesis 5:18-20 ULT)

The numbers 162, 800, and 962 are exact numbers and should be translated with something as close to those numbers as possible.

Our sister, may you be the mother of **thousands of ten thousands**. (Genesis 24:60b ULT)

This is a rounded number. It does not say exactly how many descendants she should have, but it was a huge number of them.

Translation Strategies

- (1) Write numbers using numerals.
- (2) Write numbers using your language’s words or the Gateway Language words for those numbers.
- (3) Write numbers using words, and put the numerals in parentheses after them.

(4) Combine words for large numbers.

(5) Use a very general expression for very large rounded numbers and write the numeral in parentheses afterward.

Examples of Translation Strategies Applied

We will use the following verse in our examples:

Now, see, at great effort I have prepared for Yahweh's house **100,000** talents of gold, **1,000,000** talents of silver, and bronze and iron in large quantities. (1 Chronicles 22:14a ULT)

(1) Write numbers using numerals.

I have prepared for Yahweh's house **100,000** talents of gold, **1,000,000** talents of silver, and bronze and iron in large quantities.

(2) Write numbers using your language's words or the Gateway Language words for those numbers.

I have prepared for Yahweh's house **one hundred thousand** talents of gold, **one million** talents of silver, and bronze and iron in large quantities.

(3) Write numbers using words, and put the numerals in parenthesis after them.

I have prepared for Yahweh's house one **hundred thousand (100,000)** talents of gold, **one million (1,000,000)** talents of silver, and bronze and iron in large quantities.

(4) Combine words for large numbers.

I have prepared for Yahweh's house **one hundred thousand** talents of gold, **a thousand thousand** talents of silver, and bronze and iron in large quantities.

(5) Use a very general expression for very large rounded numbers and write the numeral in parentheses afterward.

I have prepared for Yahweh's house **a great amount of gold (100,000 talents), ten times that amount of silver (1,000,000 talents)**, and bronze and iron in large quantities.

Consistency

Be consistent in your translations. Decide how the numbers will be translated, using numbers or numerals. There are different ways of being consistent.

- Use words to represent numbers all of the time. (You might have very long words.)
- Use numerals to represent numbers all of the time.
- Use words to represent the numbers that your language has words for and use numerals for the numbers that your language does not have words for.
- Use words for low numbers and numerals for high numbers.
- Use words for numbers that require few words and numerals for numbers that require more than a few words.
- Use words to represent numbers, and write the numerals in parentheses after them.

Consistency in the ULT and UST

The *unfoldingWord® Literal Text* (ULT) and the *unfoldingWord® Simplified Text* (UST) use words for the numbers one through ten and use numerals for all numbers above ten.

When Adam had lived **130** years, he became the father of a son in his own likeness, after his image, and he called his name Seth. After Adam became the father of Seth, he lived **800** years. He became the father of more sons and daughters. Adam lived **930** years, and then he died.

Ordinal Numbers

Description

Ordinal numbers are used in the Bible mainly to tell the position of something in a list.

And God has indeed appointed some in the church, **first** apostles, **second** prophets, **third** teachers, then miracles. (1 Corinthians 12:28a ULT)

This page answers the question: *What are ordinal numbers and how can I translate them?*

Ordinal Numbers in English

Most ordinal numbers in English simply have “-th” added to the end.

Numeral	Number	Ordinal Number
4	four	fourth
10	ten	tenth
100	one hundred	one hundredth
1,000	one thousand	one thousandth

Some ordinal numbers in English do not follow that pattern.

Numeral	Number	Ordinal Number
1	one	first
2	two	second
3	three	third
5	five	fifth
12	twelve	twelfth

Reason This Is a Translation Issue

Some languages do not have special numbers for showing the order of items in a list. There are different ways to deal with this.

Examples From the Bible

The **first** lot went to Jehoiarib, the **second** to Jedaiah, the **third** to Harim, the **fourth** to Seorim ... the **twenty-third** to Delaiah, and the **twenty-fourth** to Maaziah. (1 Chronicles 24:7-18 ULT)

The people cast lots and one went to each of these people in the order given.

You must place in it four rows of precious stones. The **first** row must have a ruby, a topaz, and a garnet. The **second** row must have an emerald, a sapphire, and a diamond. The **third** row must have a jacinth, an agate, and an amethyst. The **fourth** row must have a beryl, and an onyx, and a jasper. They must be mounted in gold settings. (Exodus 28:17-20 ULT)

This describes four rows of stones. The first row is probably the top row, and the fourth row is probably the bottom row.

Translation Strategies

If your language has ordinal numbers and using them would give the right meaning, consider using them. If not, here are some strategies to consider:

- (1) Use “one” with the first item and “another” or “the next” with the rest.
- (2) Tell the total number of items and then list them or the things associated with them.

Parallelism

Description

Parallelism is a poetic device in which two phrases or clauses that are similar in structure or idea are used together. The following are some of the different kinds of parallelism.

- The second clause or phrase means the same as the first. This is called synonymous parallelism.
- The second clarifies or strengthens the meaning of the first.
- The second completes what is said in the first.
- The second says something that contrasts with the first, but adds to the same idea.

Parallelism is most commonly found in Old Testament poetry, such as in the books of Psalms and Proverbs. It also occurs in Greek in the New Testament, both in the four gospels and in the apostles' letters.

This article will only discuss synonymous parallelism, the kind in which the two parallel phrases mean the same thing, because that is the kind that presents a problem for translation. Note that we use the term "synonymous parallelism" for long phrases or clauses that have the same meaning. We use the term "doublet" for words or very short phrases that mean basically the same thing and are used together.

In the poetry of the original languages, synonymous parallelism has several effects:

- It shows that something is very important by saying it more than once and in more than one way.
- It helps the hearer to think more deeply about the idea by saying it in different ways.
- It makes the language more beautiful and raises it above the ordinary way of speaking.

Reason This Is a Translation Issue

Some languages would not use synonymous parallelism. They would either think it odd that someone said the same thing twice, or, since it is in the Bible, they would think that the two phrases must have some difference in meaning. For them it would be confusing, rather than beautiful. They would not understand that the repetition of the idea in different words serves to emphasize the idea.

Examples From the Bible

Your word is a lamp to my feet
and a light for my path. (Psalm 119:105 ULT)

Both parts of the sentence are metaphors saying that God's word teaches people how to live. That is the single idea. The words "lamp" and "light" are similar in meaning because they refer to light. The words "my feet" and "my path" are related because they refer to a person walking. Walking is a metaphor for living.

You make him to rule over the works of your hands;
you have put all things under his feet (Psalm 8:6 ULT)

Both lines say that God made man the ruler of everything. "To rule over" is the same idea as putting things "under his feet," and "the works of your [God's] hands" is the same idea as "all things."

This page answers the question: *What is parallelism?*

In order to understand this topic, it would be good to read:

[[rc://en/ta/man/translate/figs-intro]]

Yahweh sees everything a person does
and watches all the paths he takes. (Proverbs 5:21 ULT)

The first phrase and the second phrase mean the same thing. There are three ideas that are the same between these two phrases. “Sees” corresponds to “watches,” “everything...does” corresponds to “all the paths...takes,” and “a person” corresponds to “he.”

Praise Yahweh, all you nations;
exalt him, all you peoples! (Psalm 117:1 ULT)

Both parts of this verse tell people everywhere to praise Yahweh. The words ‘Praise’ and ‘exalt’ mean the same thing. The words ‘Yahweh’ and ‘him’ refer to the same person. The terms ‘all you nations’ and ‘all you peoples’ refer to the same people.

For Yahweh has a lawsuit with his people,
and he will fight in court against Israel. (Micah 6:2b ULT)

The two parts of this verse say that Yahweh has a serious disagreement with his people, Israel. These are not two different disagreements or two different groups of people.

Translation Strategies

For most kinds of parallelism, it is good to translate both of the clauses or phrases. For synonymous parallelism, it is good to translate both clauses if people in your language understand that the purpose of saying something twice is to strengthen a single idea. But if your language does not use parallelism in this way, then consider using one of the following translation strategies.

- (1) Combine the ideas of both clauses into one.
- (2) If it appears that the clauses are used together to show that what they say is really true, you could combine the ideas of both clauses into one and include words that emphasize the truth such as “truly” or “certainly.”
- (3) If it appears that the clauses are used together to intensify an idea in them, you could combine the ideas of both clauses into one and use words like “very,” “completely,” or “all.”

Examples of Translation Strategies Applied

- (1) Combine the ideas of both clauses into one.

Until now you have dealt deceitfully with me and you have spoken lies to me. (Judges 16:13, ULT)

Delilah expressed this idea twice to emphasize that she was very upset.

Until now you have deceived me with your lies.

Yahweh sees everything a person does and watches all the paths he takes. (Proverbs 5:21 ULT)

The phrase “all the paths he takes” is a metaphor for “all he does.”

Yahweh pays attention to everything a person does.

For Yahweh has a lawsuit with his people, and he will fight in court against Israel. (Micah 6:2 ULT)

This parallelism describes one serious disagreement that Yahweh had with one group of people. If this is unclear, the phrases can be combined:

For Yahweh has a lawsuit with his people, Israel.

(2) If it appears that the clauses are used together to show that what they say is really true, you could combine the ideas of both clauses into one and include words that emphasize the truth such as “truly” or “certainly.”

Yahweh sees everything a person does and watches all the paths he takes. (Proverbs 5:21 ULT)

Yahweh truly sees everything a person does.

You make him to rule over the works of your hands; you have put all things under his feet
(Psalm 8:6 ULT)

You have certainly made him to rule over everything that you have created.

(3) If it appears that the clauses are used together to intensify an idea in them, you could combine the ideas of both clauses into one and use words like “very,” “completely” or “all.”

Until now you have dealt deceitfully with me and you have spoken lies to me. (Judges 16:13, ULT)

All you have done is lie to me.

Yahweh sees everything a person does and watches all the paths he takes. (Proverbs 5:21 ULT)

Yahweh sees absolutely everything that a person does.

Personification

Description

Personification is a figure of speech in which someone speaks of something as if it could do things that animals or people can do. People often do this because it makes it easier to talk about things that we cannot see:

Such as wisdom:

Does not Wisdom call out? (Proverbs 8:1a ULT)

Or sin:

Sin crouches at the door. (Genesis 4:7b ULT)

People also use personification because it is sometimes easier to talk about people's relationships with non-human things such as wealth as if they were relationships between people.

You cannot serve God and wealth. (Matthew 6:24b ULT)

In each case, the purpose of the personification is to highlight a certain characteristic of the non-human thing. As in metaphor, the reader needs to think of the way that the thing is like a certain kind of person.

Reasons This Is a Translation Issue

- Some languages do not use personification.
- Some languages use personification only in certain situations.

Examples From the Bible

You cannot **serve** God and wealth. (Matthew 6:24b ULT)

Jesus speaks of wealth as if it were a master whom people might serve. Loving money and basing one's decisions on it is like serving it as a slave would serve his master.

Does not Wisdom **call** out? Does not Understanding **raise her voice**? (Proverbs 8:1 ULT)

The author speaks of wisdom and understanding as if they were woman who calls out to teach people. This means that they are not something hidden, but something obvious that people should pay attention to.

Translation Strategies

If the personification would be understood clearly, consider using it. If it would not be understood, here are some other ways for translating it.

- (1) Add words or phrases to make the human (or animal) characteristic clear.
- (2) In addition to Strategy (1), use words such as "like" or "as" to show that the sentence is not to be understood literally.
- (3) Find a way to translate it without the personification.

This page answers the question: *What is personification?*

Examples of Translation Strategies Applied

(1) Add words or phrases to make the human (or animal) characteristic clear.

Sin crouches at the door. (Genesis 4:7b ULT) — God speaks of sin as if it were a wild animal that is waiting for the chance to attack. This shows how dangerous sin is. An additional phrase can be added to make this danger clear.

Sin is at your door, **waiting to attack you**.

(2) In addition to Strategy (1), use words such as “like” or “as” to show that the sentence is not to be understood literally.

Sin crouches at the door. (Genesis 4:7b ULT) — This can be translated with the word “as.”

Sin is crouching at the door, **just as a wild animal does as it waits to attack a person..**

(3) Find a way to translate it without the personification.

Even the **winds and the sea obey him**. (Matthew 8:27b ULT) — The men speak of the “wind and the sea” as if they are able to hear and obey Jesus, just as people can. This could also be translated without the idea of obedience by speaking of Jesus controlling them.

He even **controls the winds and the sea**.

NOTE: We have broadened our definition of “personification” to include “zoomorphism” (speaking of other things as if they had animal characteristics) and “anthropomorphism” (speaking of non-human things as if they had human characteristics) because the translation strategies for them are the same.

Possession

Description

In English, the grammatical form that commonly indicates possession is also used to indicate a variety of relationships between people and objects or people and other people. In English, that grammatical relationship is shown by using the word “**of**,” by using **an apostrophe and the letter “s”**, or by using a **possessive pronoun**. The following examples are different ways to indicate that my grandfather owns a house.

- the house **of** my grandfather
- my grandfather’s house
- **his** house

Possession is used in Hebrew, Greek, and English for a variety of situations. Here are a few common situations that it is used for.

- Ownership — Someone owns something.
 - My clothes — The clothes that I own
- Social Relationship — Someone has some kind of social relationship with another.
 - my mother — the woman who gave birth to me, or the woman who cared for me
 - my teacher — the person who teaches me
- Association — A particular thing is associated with a particular person, place, or thing.
 - David’s sickness — the sickness that David is experiencing
 - the fear of the Lord — the fear that is appropriate for a human being to have when relating to the Lord
- Contents — Something has something in it.
 - a bag of clothes — a bag that has clothes in it, or a bag that is full of clothes
- Part and whole: One thing is part of another.
 - my head — the head that is part of my body
 - the roof of a house — the roof that is part of a house

In some languages there is a special form of possession, termed **inalienable possession**. This form of possession is used for things that cannot be removed from you, as opposed to things you could lose. In the examples above, *my head* and *my mother* are examples of inalienable possession (at least in some languages), while *my clothes* or *my teacher* would be alienably possessed. What may be considered alienable vs. inalienable may differ by language.

This page answers the question: *What is possession and how can I translate phrases that show it?*

In order to understand this topic, it would be good to read:

[[rc://en/ta/man/translate/figs-partsofspeech]]
 [[rc://en/ta/man/translate/figs-sentences]]

Reasons This Is a Translation Issue

- You (the translator) need to understand the relationship between two ideas represented by the two nouns when one is in the grammatical relationship of possessing the other.
- Some languages do not use grammatical possession for all of the situations that your source text Bible might use it for.

Examples From the Bible

Ownership — In the example below, the son owned the money.

█ The younger son ... wasted his wealth by living recklessly. (Luke 15:13b)

Social Relationship — In the example below, the disciples were people who learned from John.

█ Then **the disciples of John** came to him. (Matthew 9:14a ULT)

Association — In the example below, the gospel is the message associated with Paul because he preaches it.

█ Remember Jesus Christ, raised from the dead, from the seed of David, according to **my gospel**, (2 Timothy 2:8 ULT)

Material — In the example below, the material used for making the crowns was gold.

█ On their heads were something like **crowns of gold**. (Revelation 9:7b)

Contents — In the example below, the cup has water in it.

█ For whoever gives you **a cup of water** to drink ... will not lose his reward. (Mark 9:41 ULT)

Part of a whole — In the example below, the door was a part of the palace.

█ But Uriah slept at **the door of the king's palace**. (2 Samuel 11:9a ULT)

Part of a group — In the example below, “us” refers to the whole group and “each one” refers to the individual members.

█ Now to **each one of us** grace has been given according to the measure of the gift of Christ. (Ephesians 4:7 ULT)

Events and Possession

Sometimes one or both of the nouns is an abstract noun that refers to an event or action. In the examples below, the abstract nouns are in **bold** print. These are just some of the relationships that are possible between two nouns when one of them refers to an event.

Subject — Sometimes the word after “of” tells who would do the action named by the first noun. In the example below, **John baptized people**.

█ The **baptism of John**, was it from heaven or from men? Answer me. (Mark 11:30)

In the example below, **Christ loves us**.

█ Who will separate us from the **love of Christ**? (Romans 8:35)

Object — Sometimes the word after “of” tells who or what something would happen to. In the example below, **people love money**.

For the **love of money** is a root of all kinds of evil. (1 Timothy 6:10a ULT)

Instrument — Sometimes the word after “of” tells how something would happen. In the example below, God would **punish people by sending enemies to attack them with swords**.

Then be afraid of the sword, because wrath brings **the punishment of the sword**. (Job 19:29a ULT)

Representation — In the example below, John was baptizing people who were repenting of their sins. They were being baptized to show that they were repenting. Their **baptism represented their repentance**.

John came, baptizing in the wilderness and preaching **a baptism of repentance** for the forgiveness of sins. (Mark 1:4 ULT)

Strategies for learning what the relationship is between the two nouns

- (1) Read the surrounding verses to see if they help you to understand the relationship between the two nouns.
- (2) Read the verse in the UST. Sometimes it shows the relationship clearly.
- (3) See what the notes say about it.

Translation Strategies

If possession would be a natural way to show a particular relationship between two nouns, consider using it. If it would be strange or hard to understand, consider these.

- (1) Use an adjective to show that one noun describes the other.
- (2) Use a verb to show how the two are related.
- (3) If one of the nouns refers to an event, translate it as a verb.

Examples of Translation Strategies Applied

- (1) Use an adjective to show that one noun describes the other.

On their heads were something like **crowns of gold**. (Revelation 9:7b)

“On their heads were **gold crowns**”

- (2) Use a verb to show how the two are related.

Whoever gives you **a cup of water** to drink ... will not lose his reward. (Mark 9:41 ULT)

Whoever gives you a **cup that has water in it** to drink ... will not lose his reward.

Wealth is worthless on **the day of wrath**. (Proverbs 11:4a ULT)

Wealth is worthless on **the day when God shows his wrath**.
or:

Wealth is worthless on the **day when God punishes people because of his wrath**.

(3) If one of the nouns refers to an event, translate it as a verb. (In the example below, there are two possession relationships, “punishment of Yahweh” and “your God.”)

Notice that I am not speaking to your children, who have not known or seen **the punishment of Yahweh your God**. (Deuteronomy 11:2a ULT)

Notice that I am not speaking to your children who have not known or seen **how Yahweh, the God whom you worship, punished the people of Egypt**.

You will only observe and see the **punishment of the wicked**. (Psalms 91:8 ULT)

You will only observe and see **how Yahweh punishes the wicked**.

You will receive **the gift of the Holy Spirit**. (Acts 2:38b ULT)

You will receive the **Holy Spirit, whom God will give to you**.

Rhetorical Question

A rhetorical question is a question that a speaker asks when he is more interested in expressing his attitude about something than in getting information about it. Speakers use rhetorical questions to express deep emotion or to encourage hearers to think deeply about something. The Bible contains many rhetorical questions, often to express surprise, to rebuke or scold the hearer, or to teach. Speakers of some languages use rhetorical questions for other purposes as well.

This page answers the question: *What are rhetorical questions and how can I translate them?*

In order to understand this topic, it would be good to read:

[\[\[rc://en/ta/man/translate/figs-intro\]\]](#)

[\[\[rc://en/ta/man/translate/figs-sentencetypes\]\]](#)

Description

A rhetorical question is a question that strongly expresses the speaker's attitude toward something. Often the speaker is not looking for information at all. Or, if he is asking for information, it is not usually the information that the question appears to ask for. The speaker is more interested in expressing his attitude than in getting information.

But those who stood by said, “**Are you insulting the high priest of God?**”(Acts 23:4 ULT)

The people who asked Paul this question were not asking if he was insulting God's high priest. Rather, they used this question to accuse Paul of insulting the high priest.

The Bible contains many rhetorical questions. These rhetorical questions might be used for the purposes: of expressing attitudes or feelings, rebuking people, teaching something by reminding people of something they know and encouraging them to apply it to something new, or introducing something they want to talk about.

Reasons This Is a Translation Issue

- Some languages do not use rhetorical questions; for them a question is always a request for information.
- Some languages use rhetorical questions, but for purposes that are different or more limited than in the Bible.
- Because of these differences between languages, some readers might misunderstand the purpose of a rhetorical question in the Bible.

Examples From the Bible

Do you not still rule the kingdom of Israel? (1 Kings 21:7b ULT)

Jezebel used the question above to remind King Ahab of something he already knew: he still ruled the kingdom of Israel. The rhetorical question made her point more strongly than if she had merely stated it, because it forced Ahab to admit the point himself. She did this in order to rebuke him for being unwilling to take over a poor man's property. She was implying that, since he was the king of Israel, he had the power to take the man's property.

Will a virgin forget her jewelry, a bride her veils? Yet my people have forgotten me for days without number! (Jeremiah 2:32 ULT)

God used the question above to remind his people of something they already knew: a young woman would never forget her jewelry or a bride forget her veils. He then rebuked his people for forgetting him who is so much greater than those things.

Why did I not die when I came out from the womb? (Job 3:11a ULT)

Job used the question above to show deep emotion. This rhetorical question expresses how sad he was that he did not die as soon as he was born. He wished that he had not lived.

And how has this happened to me that the mother of my Lord would come to me? (Luke 1:43 ULT)

Elizabeth used the question above to show how surprised and happy she was that the mother of her Lord came to her.

Or what man is there among you, of whom his son will ask for a loaf of bread, but he will give him a stone? (Matthew 7:9 ULT)

Jesus used the question above to remind the people of something they already knew: a good father would never give his son something bad to eat. By introducing this point, Jesus could go on to teach them about God with his next rhetorical question:

Therefore, if you who are evil know how to give good gifts to your children, how much more will your Father who is in heaven give good things to those who ask him? (Matthew 7:11 ULT)

Jesus used this question to teach the people in an emphatic way that God gives good things to those who ask him.

What is the kingdom of God like, and what can I compare it to? It is like a mustard seed that a man took and threw into his garden ... (Luke 13:18b-19a ULT)

Jesus used the question above to introduce what he was going to talk about. He was about to compare the kingdom of God to something. In this case, he compared the kingdom of God to a mustard seed.

Translation Strategies

In order to translate a rhetorical question accurately, first be sure that the question you are translating truly is a rhetorical question and is not an information question. Ask yourself, "Does the person asking the question already know the answer to the question?" If so, it is a rhetorical question. Or, if no one answers the question, did the person who asked it expect to receive an answer? If not, it is a rhetorical question.

When you are sure that the question is rhetorical, then be sure that you understand the purpose for the rhetorical question. Is it to encourage or rebuke or shame the hearer? Is it to bring up a new topic? Is it to do something else?

When you know the purpose of the rhetorical question, then think of the most natural way to express that purpose in the target language. It might be as a question, or a statement, or an exclamation.

If using the rhetorical question would be natural and give the right meaning in your language, consider doing so. If not, here are other options:

- (1) Add the answer after the question.
- (2) Change the rhetorical question to a statement or exclamation.
- (3) Change the rhetorical question to a statement, and then follow it with a short question.
- (4) Change the form of the question so that it communicates in your language what the original speaker communicated in his.

Examples of Translation Strategies Applied

- (1) Add the answer after the question.

Will a virgin forget her jewelry, a bride her veils? Yet my people have forgotten me for days without number! (Jeremiah 2:32 ULT)

Will a virgin forget her jewelry, a bride her veils? **Of course not!** Yet my people have forgotten me for days without number!

Or what man is there among you, of whom his son will ask for a loaf of bread, but he will give him a stone? (Matthew 7:9 ULT)

Or what man is there among you, of whom his son will ask for a loaf of bread, but he will give him a stone? **None of you would do that!**

(2) Change the rhetorical question to a statement or exclamation.

What is the kingdom of God like, and what can I compare it to? It is like a mustard seed. (Luke 13:18-19a ULT)

This is what the kingdom of God is like. It is like a mustard seed ...

Are you insulting the high priest of God? (Acts 23:4b ULT) (Acts 23:4 ULT)

You should not insult God's high priest!

Why did I not die when I came out from the womb? (Job 3:11a ULT)

I wish I had died when I came out from the womb!

How wonderful it is that the mother of my Lord has come to me!

You still rule the kingdom of Israel, **do you not?**

(4) Change the form of the question so that it communicates in your language what the original speaker communicated in his.

Or what man is there among you, of whom his son will ask for a loaf of bread, but he will give him a stone? (Matthew 7:9 ULT)

If your son asks you for a loaf of bread, **would you give him a stone?**

Will a virgin forget her jewelry, a bride her veils? Yet my people have forgotten me for days without number! (Jeremiah 2:32 ULT)

What virgin would forget her jewelry, and what bride would forget her veils? Yet my people have forgotten me for days without number

Simile

Description

A simile is a comparison of two things that are not normally thought to be similar. The simile focuses on a particular trait the two items have in common, and it includes the words “like,” “as,” or “than.”

This page answers the question: *What is a simile?*

In order to understand this topic, it would be good to read:

[[rc://en/ta/man/translate/figs-intro]]

When he saw the crowds, he had compassion for them, because they were troubled and discouraged, **like sheep not having a shepherd**. (Matthew 9:36)

Jesus compared the crowds of people to sheep without a shepherd. Sheep grow frightened when they do not have a good shepherd to lead them in safe places. The crowds were like that because they did not have good religious leaders.

See, I send you out **as sheep in the midst of wolves**, so be as wise **as the serpents** and harmless **as the doves**. (Matthew 10:16 ULT)

Jesus compared his disciples to sheep and their enemies to wolves. Wolves attack sheep; Jesus' enemies would attack his disciples.

For the word of God is living and active and sharper **than any two-edged sword**. (Hebrews 4:12a ULT)

God's word is compared to a two-edged sword. A two-edged sword is a weapon that can easily cut through a person's flesh. God's word is very effective in showing what is in a person's heart and thoughts.

Purposes of Simile

- A simile can teach about something that is unknown by showing how it is similar to something that is known.
- A simile can emphasize a particular trait, sometimes in a way that gets people's attention.
- Similes help form a picture in the mind or help the reader experience what he is reading about more fully.

Reasons This Is a Translation Issue

- People may not know how the two items are similar.
- People may not be familiar with both of the items being compared.

Examples From the Bible

Suffer hardship with me, **as a good soldier** of Christ Jesus. (2 Timothy 2:3 ULT)

In this simile, Paul compares suffering with what soldiers endure, and he encourages Timothy to follow their example.

Just as the lightning flashing from a place under the sky shines to another place under the sky, so will the Son of Man be. (Luke 17:24b ULT)

This verse does not tell how the Son of Man will be like the lightning. But in context we can understand from the verses before it that just as lighting flashes suddenly and everyone can see it, the Son of Man will come suddenly and everyone will be able to see him. No one will have to be told about it.

Translation Strategies

If people would understand the correct meaning of a simile, consider using it. If they would not, here are some strategies you can use:

- (1) If people do not know how the two items are alike, tell how they are alike. However, do not do this if the meaning was not clear to the original audience.
- (2) If people are not familiar with the item that something is compared to, use an item from your own culture. Be sure that it is one that could have been used in the cultures of the Bible. If you use this strategy, you may want to put the original item in a footnote.
- (3) Simply describe the item without comparing it to another.

Examples of Translation Strategies Applied

- (1) If people do not know how the two items are alike, tell how they are alike. However, do not do this if the meaning was not clear to the original audience.

See, I send you out **as sheep in the midst of wolves**. (Matthew 10:16a ULT) — This compares the danger that Jesus' disciples would be in with the danger that sheep are in when they are surrounded by wolves.

See, I send **you out among wicked people** and you will be in danger from them **as sheep are in danger when they are among wolves**.

For the word of God is living and active and sharper **than any two-edged sword**. (Hebrews 4:12a ULT)

For the word of God is living and active and **more powerful than a very sharp two-edged sword**.

- (2) If people are not familiar with the item that something is compared to, use an item from your own culture. Be sure that it is one that could have been used in the cultures of the Bible. If you use this strategy, you may want to put the original item in a footnote.

See, I send you out **as sheep in the midst of wolves**. (Matthew 10:16a ULT) — If people do not know what sheep and wolves are, or that wolves kill and eat sheep, you could use some other animal that kills another.

See, I send you out **as chickens in the midst of wild dogs**.

How often did I long to gather your children together, just **as a hen gathers her chickens under her wings**, but you were not willing! (Matthew 23:37b ULT)

How often I wanted to gather your children together, **as a mother closely watches over her infants**, but you refused!

If you have faith **as a grain of mustard** ... (Matthew 17:20)

If you have faith even as small **as a tiny seed**,

- (3) Simply describe the item without comparing it to another.

See, I send you out **as sheep in the midst of wolves**. (Matthew 10:16a ULT)

See, I send you out among **people who will want to harm you**.

Symbolic Action

Description

A symbolic action is something that someone does in order to express a certain idea. For example, in some cultures people nod their heads up and down to mean “yes” or turn their heads from side to side to mean “no.” Symbolic actions do not mean the same things in all cultures. In the Bible, sometimes people perform symbolic actions and sometimes they only refer to the symbolic action.

This page answers the question: *What is a symbolic action and how do I translate it?*

In order to understand this topic, it would be good to read:

[[rc://en/ta/man/translate/translate-unknown]]

Examples of symbolic actions

- In some cultures people shake hands when they meet to show that they are willing to be friendly.
- In some cultures people bow when they meet to show respect to each other.

Reason This Is a Translation Issue

An action may have a meaning in one culture and a different meaning or no meaning at all in another culture. For example, in some cultures raising the eyebrows means “I am surprised” or “What did you say?” In other cultures it means “yes.”

In the Bible, people did things that had certain meanings in their culture. When we read the Bible, we might not understand what someone meant if we interpret the action based on what it means in our own culture today.

You (the translator) need to understand what people in the Bible meant when they used symbolic actions. If an action does not mean the same thing in your own culture, then you need to figure out how to translate what the action meant.

Examples From the Bible

And behold, a man came whose name was Jairus, and he was a ruler of the synagogue. And **falling at the feet of Jesus**, he begged him to come to his house. (Luke 8:41 ULT)

Meaning of symbolic action: He did this to show great respect to Jesus.

Look, I am standing at the door and am knocking. If anyone hears my voice and opens the door, I will come into him and will eat with him, and he with me. (Revelation 3:20 ULT)

Meaning of symbolic action: When people wanted someone to welcome them into their home, they stood at the door and knocked on it.

Translation Strategies

If people would correctly understand what a symbolic action meant to the people in the Bible, consider using it. If not, here are some strategies for translating it.

- (1) Tell what the person did and why he did it.
- (2) Do not tell what the person did, but tell what he meant.

(3) Use an action from your own culture that has the same meaning. Do this only in poetry, parables, and sermons. Do not do this when there actually was a person who did a specific action.

Examples of Translation Strategies Applied

(1) Tell what the person did and why he did it.

And **falling at the feet of Jesus** (Luke 8:41 ULT)

Jairus fell down at Jesus' feet in order to show that he greatly respected him.

Look, I am **standing at the door and am knocking**. (Revelation 3:20 ULT)

Look, I stand at the door and knock on it, asking you to let me in.

(2) Do not tell what the person did, but tell what he meant.

And **falling at the feet of Jesus** (Luke 8:41 ULT)

Jairus showed Jesus great respect.

Look, I am **standing at the door and am knocking**. (Revelation 3:20 ULT)

Look, I stand at the door and ask you to let me in.

(3) Use an action from your own culture that has the same meaning.

And **falling at the feet of Jesus** (Luke 8:41 ULT) — Since Jairus actually did this, you should not substitute an action from your own culture.

Look, I am **standing at the door and am knocking**. (Revelation 3:20 ULT) — Jesus was not standing at a real door. Rather he was speaking about wanting to have a relationship with people. So in cultures where it is polite to clear one's throat when wanting to be let into a house, you could use that.

Look, I stand at the door and clear my throat.

Synecdoche

Description

Synecdoche is a figure of speech in which a speaker uses a part of something to refer to the whole thing, or uses the whole to refer to a part.

■ **My soul** magnifies the Lord. (Luke 1:46b ULT)

Mary was very happy about what the Lord was doing, so she said “my soul,” which means the inner, emotional part of herself, to refer to her whole self.

■ So **the Pharisees** said to him, “Look, why are they doing that which is not lawful?” (Mark 2:24a ULT)

The Pharisees who were standing there did not all say the same words at the same time. Instead, it is more likely that one man representing the group said those words.

Reasons This Is a Translation Issue

- Some readers may not recognize the synecdoche and thus misunderstand the words as a literal statement.
- Some readers may realize that they are not to understand the words literally, but they may not know what the meaning is.

Example From the Bible

■ Then I looked on all the deeds that **my hands** had accomplished. (Ecclesiastes 2:11a ULT)

“My hands” is a synecdoche for the whole person because clearly the arms and the rest of the body and the mind were also involved in the person’s accomplishments. The hands are chosen to represent the person because they are the parts of the body most directly involved in the work.

Translation Strategies

If the synecdoche would be natural and give the right meaning in your language, consider using it. If not, here is another option:

(1) State specifically what the synecdoche refers to.

Examples of Translation Strategies Applied

(1) State specifically what the synecdoche refers to.

■ **“My soul** magnifies the Lord.” (Luke 1:46b ULT)

■ **“I** magnify the Lord.”

So **the Pharisees** said to him ... (Mark 2:24a ULT)

■ **A representative of the Pharisees** said to him ...

Then I looked on all the deeds that **my hands** had accomplished. (Ecclesiastes 2:11a ULT)

god, false god, goddess, idol, idolater, idolatrous, idolatry

- In the Bible, God’s people frequently turned away from obeying him in order to worship false gods.
- Demons often deceive people into believing that the false gods and idols they worship have power.
- Baal, Dagon, and Molech were three of the many false gods that were worshiped by people in Bible times.
- Asherah and Artemis (Diana) were two of the goddesses that ancient peoples worshiped.

An idol is an object that people make so they can worship it. Something is described as “idolatrous” if it involves giving honor to something other than the one true God.

- People make idols to represent the false gods that they worship.
- These false gods do not exist; there is no God besides Yahweh.
- Sometimes demons work through an idol to make it seem like it has power, even though it does not.
- Idols are often made of valuable materials like gold, silver, bronze, or expensive wood.
- An “idolatrous kingdom” means a “kingdom of people who worship idols” or a “kingdom of people who worship earthly things.”
- The term “idolatrous figure” is another word for a “carved image” or an “idol.”

Translation Suggestions:

- There may already be a word for “god” or “false god” in the language or in a nearby language.
- The term “idol” could be used to refer to false gods.
- In English, a lower case “g” is used to refer to false gods, and upper case “G” is used to refer to the one true God. Other languages also do that.
- Another option would be to use a completely different word to refer to the false gods.
- Some languages may add a word to specify whether the false god is described as male or female.

priest, priesthood

Definition:

In the Bible, a priest was someone who was chosen to offer sacrifices to God on behalf of God's people. The "priesthood" was the name for the office or condition of being a priest.

- In the Old Testament, God chose Aaron and his descendants to be his priests for the people of Israel.
- The "priesthood" was a right and a responsibility that was passed down from father to son in the Levite clan.
- The Israelite priests had the responsibility of offering the people's sacrifices to God, along with other duties in the temple.
- Priests also offered regular prayers to God on behalf of his people and performed other religious rites.
- The priests pronounced formal blessings on people and taught them God's laws.
- In Jesus' time, there were different levels of priests, including the chief priests and the high priest.
- Jesus is our "great high priest" who intercedes for us in God's presence. He offered himself as the ultimate sacrifice for sin. This means that the sacrifices made by human priests are no longer needed.
- In the New Testament, every believer in Jesus is called a "priest" who can come directly to God in prayer to intercede for himself and other people.
- In ancient times, there were also pagan priests who presented offerings to false gods such as Baal.

Translation Suggestions:

- Depending on the context, the term "priest" could be translated as "sacrifice person" or "God's intermediary" or "sacrificial mediator" or "person God appoints to represent him."
- The translation of "priest" should be different from the translation of "mediator."
- Some translations may prefer to always say something like "Israelite priest" or "Jewish priest" or "Yahweh's priest" or "priest of Baal" to make it clear that this does not refer to a modern-day type of priest.
- The term used to translate "priest" should be different from the terms for "chief priest" and "high priest" and "Levite" and "prophet."

temple, house, house of God

Facts:

The temple was a building surrounded by walled courtyards where the Israelites came to pray and to offer sacrifices to God. It was located on Mount Moriah in the city of Jerusalem.

- Often the term “temple” referred to the whole temple complex, including the courtyards that surrounded the main building. Sometimes it referred only to the building.
- The temple building had two rooms, the Holy Place and the Most Holy Place.
- God referred to the temple as his dwelling place.
- King Solomon built the Temple during his reign. It was supposed to be the permanent place of worship in Jerusalem.
- In the New Testament, the term “temple of the Holy Spirit” is used to refer to believers in Jesus as a group, because the Holy Spirit lives in them.

Translation Suggestions:

- Usually when the text says that people were “in the temple,” it is referring to the courtyards outside the building. This could be translated as “in the temple courtyards” or “in the temple complex.”
- Where it refers specifically to the building itself, some translations translate “temple” as “temple building,” to make it the reference clear.
- Ways to translate “temple” could include, “God’s holy house” or “sacred worship place.”
- Often in the Bible, the temple is referred to as “the house of Yahweh” or “the house of God.”
