1 Chronicles

Introduction to 1 Chronicles

Part 1: General Introduction

Outline of 1 Chronicles

Lists of descendants (1:1-9:44)

- From Adam to Jacob (1:1-2:2)
- Jacob's descendants (2:2-9:44)

Saul dies and David begins to reign (10:1-29:30)

- Saul dies (10:1-14)
- David captures Jerusalem (11:1-9)
- David's mighty men (11:10-12:40)
- David prospers (13:1-22:1)
- David prepares for Solomon to build the temple (22:2-29:30)

What are the Books of 1 and 2 Chronicles about?

The Book of 1 Chronicles retells the line of descendants from Adam to Saul. It then gives the history of Israel during the time of David. The Book of 2 Chronicles gives the history of Israel beginning with Solomon. It ends when the Babylonian army attacks Judah and takes some of the people to Babylon. The writers of Chronicles probably wrote these books for the Jews who returned from exile in Babylon. The purpose was to teach the people to avoid disobeying God as their ancestors did.

How should the title of this book be translated?

Translators can use the traditional title "1 Chronicles" or "First Chronicles." You may also call this book "The Events of the Kings of Judah and Israel, Book 1" or "The First Book of the Events of the Kings of Judah and Israel."

Who wrote 1 and 2 Chronicles?

The writers of 1 and 2 Chronicles are unknown. They mention that they used other books when writing Chronicles. The names of these other books are "The Chronicles of Samuel the Seer," "The Chronicles of Nathan the Seer," "The Chronicles of Gad the Seer," "The History of Nathan the Prophet," "The Chronicles of Shemaiah the Prophet and Iddo," "The Story of the Prophet Iddo" and "The books of the kings of Judah and Israel."

Why are there multiple books that give the history of the kings of Israel?

The books of Chronicles and the books of Kings tell much of the same history, but they are not exactly the same. The writers of Chronicles wrote mostly about the kings of Judah who were faithful to Yahweh and his covenant. The writers wanted the Jews to think carefully about David and Solomon. They also wanted the Jews to think about how Jehoshaphat, Hezekiah, and Josiah caused their ancestors to repent and to worship Yahweh. The writers wanted to encourage the Jews and their leaders to obey the law and to honor God's covenant with them. (See: [covenant](#))

Part 2: Important Religious and Cultural Concepts

Why did God punish the people of Israel?

God punished the people of Israel because they disobeyed him and worshiped false gods. God punished them with disease, disasters, and defeat in battle. However, God forgave them and caused them to prosper again if they repented and obeyed him. The writers of 1 and 2 Chronicles continually reminded the readers that God punished his people because they disobeyed. They wanted the readers to understand that they must obey God.

Why are alliances with foreign countries seen as evil in these books?

Yahweh led and protected the nation of Israel. The people of Israel should have trusted him instead of relying on other nations to protect them.

Part 3: Important Translation Issues

What is the meaning of the term “Israel”?

The name “Israel” is used in many different ways in the Bible. Jacob was the son of Isaac. God changed Jacob’s name to Israel. The descendants of Jacob became a nation also called Israel. Eventually, the nation of Israel split into two kingdoms. The northern kingdom was named Israel. The southern kingdom was named Judah.

What does it mean to “seek God”?

The writers of 1 and 2 Chronicles often wrote about “seeking God.” To “seek God” means to make an effort to please and honor God. It can also mean to ask God for help. It does not imply that God is hidden. (See: [Metaphor](#))

What does the phrase “to this day” mean?

The writers used the phrase “to this day” to refer to the time when they were writing. The translator should be aware that “to this day” refers to a time already passed. The translator might decide to say, “to this day, at the time when this is being written,” or, “to this day, at the time of writing.” This Hebrew phrase occurs in 1 Chronicles 4:41, 43; 5:26; 13:11; 20:26; 21:10; 35:25.

This is probably a generalization. It seems that while all the soldiers did run away, not all of them died. Alternate translation: "Every man of Israel ... most of them died" (See: [Hyperbole](#))

ULT

¹ And the Philistines fought with Israel. And the men of Israel fled from the faces of the Philistines, and they fell slain on Mount Gilboa.

Structure and formatting

The story of David begins here and continues throughout the remainder of this book.

Special concepts in this chapter

King David the military leader

David was made the king of all Israel and was the leader of their army. He conquered Jerusalem and strengthened its defenses. He had many brave men in his army that did great deeds. (See: [work](#), [works](#), [deeds](#))

1 Chronicles 11:1

all Israel came to David

This is a generalization that means people from every tribe in Israel came to David, but not every individual. Alternate translation: “people from throughout Israel came to David” or “people from every tribe in Israel came to David” (See: [Hyperbole](#))

we are your flesh and bone

This idiom means that they are relatives. Alternate translation: “we are your relatives” or “we have the same ancestors as you” (See: [Idiom](#))

ULT

¹ And all Israel gathered to David at Hebron, saying, “Look, your bones and your flesh are we.

UST

¹ Then the people of Israel came to David at the city of Hebron and said to him, “Listen, we have the same ancestors as you.

1 Chronicles 11:2

In the recent past

This is historical information. Saul had been their king before David. (See: [Background Information](#))

You will shepherd my people Israel, and you will become a ruler over my people Israel

These two clauses mean basically the same thing and emphasize that Yahweh had chosen David to be king. (See: [Parallelism](#))

You will shepherd my people Israel

Here ruling over the people is spoken of as shepherding them. Alternate translation: “You will care for my people Israel” or “You will lead my people Israel” (See: [Metaphor](#))

ULT

To “anoint” is a symbolic act to show that they recognized that God had chosen David as king. (See: [Symbolic Action](#))

the word of Yahweh that had been declared by Samuel

If your language does not use the passive form in this way, you can state this in active form or in another way that is natural in your language. Alternate translation: “the word of Yahweh that Samuel had declared” (See: [Active or Passive](#))

ULT

³ And all the elders of Israel came to the king at Hebron, and David cut with them a covenant at Hebron before the face of Yahweh. And they anointed David king over Israel according to the word of Yahweh by the hand of Samuel.

UST

³ So all the Israelite elders came to David at Hebron. There David made an agreement with them with Yahweh as witness. The elders anointed David with oil to set him apart to be the king of the Israelite people, just as Yahweh had previously told the prophet Samuel would happen.

1 Chronicles 11:4

David and all Israel

Here the phrase “all Israel” represents the entire Israelite army. Alternate translation: “David and all the Israelite army” (See: [Metonymy](#))

ULT

⁴ And David went and all Israel to Jerusalem; that is, Jebus. And there were the Jebusites, the inhabitants of the land.

UST

⁴ David and all the Israelite soldiers went to Jerusalem. Another name for the city was Jebus because the Jebus people group lived in the area.

1 Chronicles 11:5

David took the stronghold of Zion

Here the word “took” is an idiom that means “captured” or “conquered.” Since David led the army, his name here is a synecdoche for the whole army who attacked the city. Alternate translation: “David captured the stronghold of Zion” or “David and the Israelite army captured the stronghold of Zion” (See: [Idiom](#) and [Synecdoche](#))

the stronghold of Zion ... the city of David

Both of these names refer to Jerusalem.

ULT

⁵ And the inhabitants of Jebus said to David, “You will not come in here.” But David captured the stronghold of Zion, that is, the city of David.

so he was made the chief

ULT

⁶ And David said, "Whoever strikes down the Jebusites first will become head and chief." And Joab the son of Zeruiah went up first, and he became head.

UST

⁶ Now, David had said to his soldiers, "Whoever leads our soldiers to defeat the people in Jebus will become the commander of all my army." Joab son of Zeruiah led the soldiers, so he became the commander.

1 Chronicles 11:7

This is the beginning of the story about the war against the Ammonites. This story continues in the first part of the next chapter.

Special concepts in this chapter

Insults

The young king of Ammon insulted David when he had David's servants shaved and cut off their garments. Knowing David was going to attack him for this, he hired mercenaries from Aram to help him. Israel was able to defeat the Aramean mercenaries.

² When David heard about that, he thought to himself, "Nahash was kind to me, so I will be kind to his son." So David sent some officials there to tell Hanun that David was sorry to hear that Hanun's father had died. ⁷ And he taunted Israel. And Jonathan the son of Shimea, the brother of David, struck him down.

UST

⁷ When he insulted the soldiers of Israel, Jonathan son of Shimea killed him. Shimea was one of David's older brothers.

These were descendants of the Rephaim of Gath

Here “these” refer to Sippai in [1 Chronicles 20:4](#), Lahmi in [1 Chronicles 20:5](#), and the giant in verse 6.

they were killed by the hand of David and by the hand of his soldiers

David and his soldiers are referred to by the part of their bodies used to hold a sword. If your language does not use the passive form in this way, you can state this in active form or in another way that is natural in your language. Alternate translation: “David and his soldiers killed the descendants of the Rephaim” (See: [Synecdoche](#) and [Active or Passive](#))

1 Chronicles 21 General Notes

Special concepts in this chapter

Trust

To trust in one's own power instead of God's protection is a sin. David had been trusting God to protect him, but now he counted the men of military age so he could know the strength of his army. (See: [trust](#), [trusted](#), [trustworthy](#), [trustworthiness](#) and [sin](#), [sinful](#), [sinner](#), [sinning](#))

1 Chronicles 21:1

An adversary arose against Israel

Possible meanings of **adversary** are: (1) this refers to Satan who decided to cause trouble for Israel or (2) this refers to an enemy army that began to threaten Israel.

incited David to count Israel

“caused David to do wrong, to count Israel.” If your language has a word for getting someone to become angry and do something he knows is wrong, you should use it here.

ULT

¹ And an adversary stood against Israel, and he incited David to count Israel.

UST

¹ An opponent decided to cause the Israelite people to have trouble. So he provoked David to find out how many men in Israel were able to be in the army.

1 Chronicles 21:2

count the people of Israel ... that I may know their number

It is apparent from [1 Chronicles 21:5](#) that David wanted to count only the men who were able to fight.

from Beersheba to Dan

The Israelites considered these two cities their most southern and most northern cities. David uses these cities to refer to all of Israel. (See: [Merism](#))

ULT

² And David said to Joab and to the chiefs of the people, "Go, count Israel from Beersheba and as far as Dan, and bring to me, that I may know their number."

UST

² So David commanded Joab and the other army commanders, "Go out and count all the men in Israel who are able to be in the army. Start at Beersheba in the south and go all the way to Dan in the north. Then come back and report to me, in order that I may know how many men there are."

1 Chronicles 21:3

a hundred times greater than it is

Joab expresses the desire for an army the size of 100 armies to say he would like the army to have more soldiers and be more powerful. (See: [Hyperbole](#))

But my master the king, do they not all serve my master? Why does my master want this? Why bring guilt on Israel?

Joab uses these three rhetorical questions to tell David that the census was a bad idea. It appears that David was trusting the size of his army instead of trusting Yahweh, and thus making Israel guilty of sin. These rhetorical questions can be translated as statements. Alternate translation: But my master the king, they all serve you already. My master should not request this. You will only bring guilt on the people of Israel by trusting your military power.” (See: [Rhetorical Question](#))

Why does my master want this?

The word “this” refers to David’s plan to count all the men of Israel.

ULT

³ And Joab said, “May Yahweh add to his people like them 100 times. Are not, my lord the king, all of them servants to my lord? Why does my lord seek this? Why should it be guilt for Israel?”

UST

³ But Joab replied, “Your Majesty, I hope that Yahweh will make our army a hundred times larger than it is now. But we all serve you. So you should not commit this sin, your Highness, and make Israel suffer for it.”

1 Chronicles 21:4

the king's word was enforced against Joab

Alternate translation: "the command of the king prevailed despite Joab's objections"

So Joab left and went throughout all Israel

It is understood from David's command in [1 Chronicles 21:2](#) that Joab went to count the people of Israel. It can be stated clearly. Alternate translation: "So Joab left and went throughout all Israel to count the people" (See: [Assumed Knowledge and Implicit Information](#))

ULT

⁴ But the word of the king was strong against Joab. So Joab went out and walked back and forth in all Israel. Then he came to Jerusalem.

UST

⁴ But David would not change his mind. So Joab and his soldiers went everywhere in Israel and in Judah, and counted the people. Then they returned to Jerusalem,

1 Chronicles 21:5

1,100,000 men

“one million, one hundred thousand men” (See: [Numbers](#))

men who drew the sword

The soldiers in Israel are described by the action of pulling out a sword to fight with it. Alternate translation: “men who were prepared to serve as soldiers” (See: [Metonymy](#))

470,000 soldiers

“four hundred seventy thousand soldiers” (See: [Numbers](#))

ULT

⁵ And Joab gave the number of the numbering of the people to David. And all Israel was 1,100,000 men who drew the sword, and Judah, 470,000 men who drew the sword.

UST

⁵ and they reported to David that there were 1,100,000 men in Israel who could be in the army, and 470,000 men in Judah who could be in the army.

1 Chronicles 21:6

But Levi and Benjamin were not counted among them

The Levites were supposed to lead worship and not to fight. It is unclear why Joab did not count Benjamin. This can be stated in active voice. Alternate translation: "But Joab did not count the men from the tribes of Levi and Benjamin" (See: [Active or Passive](#))

the king's command had disgusted Joab

If your language does not use the passive form in this way, you can state this in active form or in another way that is natural in your language. Alternate translation: "Joab was offended by what David had commanded" (See: [Active or Passive](#))

ULT

⁶ But Levi and Benjamin he did not number in their midst, for the word of the king was abhorrent to Joab.

UST

⁶ However, Joab did not count the men from the tribes of Levi and Benjamin, because he was disgusted with what the king had commanded.

1 Chronicles 21:7

by this action

Here “this action” refers to David’s plan to count all the men of Israel who are able to fight.

so he attacked Israel

The nature of this attack is not clear. It was apparently enough to cause David to realize that Yahweh was angry with him for counting the people.

ULT

⁷ And it was evil in the eyes of God concerning this word, and he struck Israel.

UST

⁷ David’s command to count the people caused God to become angry, so he told David that he had decided to punish the people of Israel.

1 Chronicles 21:8

take away your servant's guilt

This is an idiom. Forgiveness is here spoken of as having guilt taken away. Alternate translation: "forgive me" (See: [Idiom](#))

your servant's guilt

David refers to himself as God's servant. Alternate translation: "my guilt" (See: [First, Second or Third Person](#))

ULT

8 And David said to God, "I have sinned greatly in that I have done this thing. And now please cause to pass the iniquity of your servant, for I have acted very foolishly."

UST

8 Then David prayed to God, "What I did was very foolish. I committed a terrible sin by what I have done. So now I plead with you, please forgive me."

UST

¹² either three years of famine in Israel, or three months during which your armies will run away from their enemies who will attack and overrun them with swords, or three days of direct punishment from me during which I will send my angel to cause many people in the country to die because of a plague.’ So you must decide what I will say to answer Yahweh, the one who sent me.”

1 Chronicles 21:13

Let me fall into the hand of Yahweh rather than into the hand of man

Here “hand” represents power to harm or punish Israel. Alternate translation: “Let me be punished by Yahweh, rather than be punished by people” (See: [Metonymy](#))

Let me fall

The people of Israel are the ones who would die from the plague, but David is personalizing this judgment as if he himself was being killed.

hand of man

Here “man” is used in the generic sense of “people.”

his merciful actions are very great

Alternate translation: “Yahweh is very merciful”

ULT

¹³ And David said to Gad, “There is great distress to me! Please let me fall into the hand of Yahweh, for many are his great mercies, but into the hand of man, do not let me fall.”

¹⁴ So Yahweh sent a plague on the people of Israel, and 70,000 Israelite people died because of the plague.

1 Chronicles 21:15

changed his mind about the harm

Here “mind” represents his decision. Alternate translation: “decided not to destroy Jerusalem” (See: [Metonymy](#))

Enough!

This exclamation means “You have killed enough people!” (See: [Exclamations](#))

This is an idiom that means to stop doing something. Alternate translation: “do not kill attack the people of Jerusalem” (See: [Idiom](#))

Ornan

This is the name of a man. (See: [How to Translate Names](#))

ULT

15 And God sent an angel to Jerusalem to destroy her. And when destroying, Yahweh saw, and he relented concerning the disaster. And he said to the angel who was destroying, “Enough! Now release your hand.” And the angel of Yahweh was standing at the threshing floor of Ornan the Jebusite.

UST

15 And God sent an angel to kill the people in Jerusalem with the plague. While the angel was killing people, Yahweh saw all the suffering that the people had endured and decided to stop the killing. So he said to the angel when the angel was standing at the place where Ornan, from the Jebus people group, threshed grain, “Stop what you are doing! That is enough!”

This is symbolic language to indicate that the angel was sent from Yahweh in heaven to judge the people on the earth. (See: [Symbolic Language](#))

having a drawn sword in his hand raised over Jerusalem

The angel holding a sword in his hand is a symbolic action that shows he is ready to attack Jerusalem. This is symbolic, because the judgment was sickness. Alternate translation: “holding a sword in his hand as if ready to attack Jerusalem” (See: [Symbolic Action](#))

These were symbols of repentance. (See: [Symbolic Action](#))

ULT

16 And David lifted his eyes and saw the angel of Yahweh standing between the earth and between the heavens and his sword drawn in his hand stretched out over Jerusalem. And David fell, and the elders, covered in sackcloth, on their faces.

UST

16 David looked up and saw the angel whom Yahweh had sent, standing between the sky and the ground. The angel had a sword in his hand that he pointed toward Jerusalem. Then David and the elders of the city, who were wearing clothes made of rough sackcloth, prostrated themselves on the ground.

1 Chronicles 21:17

Is it not I that commanded that the army be numbered?

David uses this question to emphasize that he is the one who sinned by counting the people. Alternate translation: "I am the one who commanded that the army be numbered." (See: [Rhetorical Question](#))

But these sheep

David speaks of the people of Israel as if they were sheep, who are known for trusting and following their leader. (See: [Metaphor](#))

what have they done?

David uses this question to ask God not to punish the people. If your readers would misunderstand this question, you can express it as a statement. Alternate translation: "they certainly have done nothing that deserves punishment." (See: [Rhetorical Question](#))

Let your hand strike me and my family

Here "hand" represents Yahweh's power to punish. Alternate translation: "Punish me and my family" (See: [Metonymy](#))

ULT

¹⁷ And David said to God, "Was it not I myself who said to count the people? And it is I who sinned, and I have surely done evil, but these sheep, what have they done? Yahweh my God, please let your hand be against me and against the house of my father, but not on your people a plague."

UST

¹⁷ David prayed to God, "I am the one who ordered the census of the men who could be in the army. I am the one who has sinned and done what is wrong, but these people are as innocent as sheep. They have certainly not done anything that is wrong. So Yahweh my God, punish me and my family, but do not allow this plague to continue to cause your people to become sick and die."

21 And David came to Ornan. And Ornan looked, and he saw David. And he went out from the threshing floor, and he bowed down to David, face to the ground.

1 Chronicles 22 General Notes

Structure and formatting

This chapter begins a new section lasting for the remainder of the book. David begins preparing the things needed for building the temple. (See: [temple](#), [house](#), [house of God](#))

Special concepts in this chapter

Solomon

In addition to preparing for the construction of the temple by gathering supplies, David also prepares his son, Solomon, to build the temple. David instructs Solomon to obey God. This is what is most necessary.

1 Chronicles 22:1

This is where

Alternate translation: "This threshing floor is where"

ULT

¹ And David said, "This is the house of Yahweh God, and this is the altar for the burnt offering of Israel."

UST

¹ David realized that this was the place that Yahweh now wanted sacrifices to be made and announced, "Here, at the edge of Jerusalem, is where we will build the temple for our God Yahweh, and where we will make the altar for fully burning the offerings that the Israelite people will bring."

1 Chronicles 22:2

stonecutters

persons who gathered large stones and cut them to the correct size so builders could use the rocks in walls and buildings

ULT

² And David said to gather the foreigners who were in the land of Israel. And he assigned stonemasons to hew out cut stones to build the house of God.

UST

² So David commanded that the foreigners who lived in Israel must assemble together. When they did that, he appointed some of those men to cut huge stones from the quarries and to smooth their surfaces for use in building the temple of God.

1 Chronicles 22:3

braces

items that connect two things together. “clamps” or “hinges”

more bronze than could be weighed

This is an exaggeration to show that there was a very large quantity of bronze. If your language does not use the passive form in this way, you can state this in active form or in another way that is natural in your language. Alternate translation: “so much bronze that no one could weigh it” (See: [Active or Passive](#) and [Hyperbole](#))

ULT

³ And a large amount of iron for the nails for the doors of the gates and for braces, David prepared; and a large amount of bronze, there is no weighing.

UST

³ David provided a lot of iron for making nails and hinges for the doors in the gates of the temple. He also provided a huge amount of bronze for making various things. There was so much bronze, no one could weigh it all.

1 Chronicles 22:4

more cedar trees than could be counted

This is an exaggeration to show that there was a very large number of cedar trees. If your language does not use the passive form in this way, you can state this in active form or in another way that is natural in your language. Alternate translation: "so many cedar trees that no one could count them" (See: [Active or Passive](#) and [Hyperbole](#))

The Sidonians and the Tyrians brought too many cedar logs to David to count

This is background information to explain who provided so many logs. (See: [Background Information](#))

ULT

⁴ And trees of cedar without number, for the Sidonians and the Tyrians brought a large amount of cedar trees to David.

UST

⁴ David also provided money for buying a lot of cedar logs for use in building the temple. Men from the cities of Tyre and Sidon brought the logs to David that he purchased. Because they brought so many logs, no one could count them.

1 Chronicles 22:5

the house that is to be built for Yahweh

If your language does not use the passive form in this way, you can state this in active form or in another way that is natural in your language. Alternate translation: “the house that he will build for Yahweh” (See: [Active or Passive](#))

so that it will be famous and glorious in all other lands

Here the word “lands” refers to the people who lived there. Alternate translation: “so that people in every other land will know about it and think that it is glorious” (See: [Metonymy](#))

prepare for its building

Alternate translation: “prepare to build it”

ULT

⁵ And David said, “Solomon my son is young and tender, and the house to be built for Yahweh must be great for the sake of a name and for beauty in all the lands. I will now prepare for it.” And David prepared a large amount before the face of his death.

UST

⁵ David provided all those things because he thought, “My son Solomon is still young and he does not yet know what he needs to know about building buildings, and the temple constructed for Yahweh must be magnificent. It must be a glorious building that will become famous, and people throughout the world must consider it beautiful. So now I will begin to prepare for its construction.” So David collected a great amount of building materials before he died.

1 Chronicles 22:6

Alternate translation: "David called"

commanded him to build

The readers should understand that David intended for laborers to do the actual work. Alternate translation: "commanded him to oversee the building of" (See: [Metonymy](#))

it was my intention to build a house myself

The readers should understand that David intended for laborers to do the actual work. Alternate translation: “it was my intention to oversee the building of the house myself” (See: [Metonymy](#))

Here “name” represents God’s honor. Alternate translation: “to honor me” (See: [Metonymy](#))

you have shed ... in my sight

Here “sight” refers to what God has seen. Alternate translation: “I have seen that you have shed much blood on the earth” (See: [Metonymy](#))

ULT

⁸ But the word of Yahweh was to me, saying, ‘A large amount of blood you have shed and great wars you have made; you shall not build a house for my name because a large amount of blood you have shed on the ground before my face.

UST

⁸ But Yahweh told a prophet to tell me, ‘You have killed many men in the big battles that you have fought. I have seen all the people you have killed, so you will not be the one who will arrange for the construction of a temple to honor me.

Connecting Statement:

David continues telling Solomon what Yahweh said to him.

Alternate translation: “live at peace with everyone”

give him rest from all his enemies

in his days

Alternate translation: “while he rules”

ULT

⁹ Behold, a son is being born to you; he himself will be a man of rest. And I will give rest to him from all his enemies from all around. For Solomon will be his name, and peace and quietness I will give to Israel in his days.

UST

⁹ But you will have a son who will be king of Israel after you. He will be a man without war during his reign. I will cause peace between him and his enemies who are in all the nearby lands. That is why his name will be Solomon (which sounds like the word for peace). During the time that he is king, I will provide peace and safety for the people in Israel.

Abstract Nouns

Description

Abstract nouns are nouns that refer to attitudes, qualities, events, or situations. These are things that cannot be seen or touched in a physical sense, such as happiness, weight, unity, friendship, health, and reason. This is a translation issue because some languages may express a certain idea with an abstract noun, while others would need a different way to express it.

This page answers the question: *What are abstract nouns and how do I deal with them in my translation?*

In order to understand this topic, it would be good to read:

[\[\[rc://en/ta/man/translate/figs-partsofspeech\]\]](#)

[\[\[rc://en/ta/man/translate/figs-sentences\]\]](#)

Remember that nouns are words that refer to a person, place, thing, or idea. Abstract nouns are the nouns that refer to ideas. These can be attitudes, qualities, events, situations, or even relationships between those ideas. These are things that cannot be seen or touched in a physical sense, such as joy, peace, creation, goodness, contentment, justice, truth, freedom, vengeance, slowness, length, weight, and many, many more.

Some languages, such as Biblical Greek and English, use abstract nouns a lot. They provide a way of giving names to actions or qualities. With names, people who speak these languages can talk about the concepts as though they were things. For example, in languages that use abstract nouns, people can say, "I believe in the forgiveness of sin."

But some languages do not use abstract nouns very much. In these languages, speakers may not have the two abstract nouns "forgiveness" and "sin," but they would express the same meaning in other ways. For example, they would express, "I believe that God is willing to forgive people after they have sinned," by using verb phrases instead of nouns for those ideas.

Reason This Is a Translation Issue

The Bible that you translate from may use abstract nouns to express certain ideas. Your language might not use abstract nouns for some of those ideas. Instead, it might use phrases to express those ideas. Those phrases will use other kinds of words such as adjectives, verbs, or adverbs to express the meaning of the abstract noun. For example, "What is its **weight**?" could be expressed as "How much does it **weigh**?" or "How **heavy** is it?"

Examples From the Bible

From **childhood** you have known the sacred writings ... (2 Timothy 3:15a ULT)

The abstract noun "childhood" refers to when someone was a child.

But **godliness** with **contentment** is great **gain**. (1 Timothy 6:6 ULT)

The abstract nouns "godliness" and "contentment" refer to being godly and content. The abstract noun "gain" refers to something that benefits or helps someone.

Today **salvation** has come to this house, because he too is a son of Abraham. (Luke 19:9 ULT)

The abstract noun "salvation" here refers to being saved.

The Lord does not move slowly concerning his promises, as some consider **slowness** to be (2 Peter 3:9a ULT)

The abstract noun "slowness" refers to the lack of speed with which something is done.

He will both bring to light the hidden things of darkness and reveal the **purposes** of the heart. (1 Corinthians 4:5b ULT)

The abstract noun “purposes” refers to the things that people want to do and the reasons they want to do them.

Translation Strategies

If an abstract noun would be natural and give the right meaning in your language, consider using it. If not, here is another option:

(1) Reword the sentence with a phrase that expresses the meaning of the abstract noun. Instead of a noun, the new phrase will use a verb, an adverb, or an adjective to express the idea of the abstract noun.

Examples of Translation Strategies Applied

(1) Reword the sentence with a phrase that expresses the meaning of the abstract noun. Instead of a noun, the new phrase will use a verb, an adverb, or an adjective to express the idea of the abstract noun. Alternative translations are indented below the Scripture example.

... from **childhood** you have known the sacred writings ... (2 Timothy 3:15a ULT)

Ever since **you were a child** you have known the sacred writings.

But **godliness** with **contentment** is great **gain**. (1 Timothy 6:6 ULT)

But **being godly** and **content** is very **beneficial**. But we **benefit** greatly when we **are godly** and **content**. But we **benefit** greatly when we **honor and obey God** and when we are **happy with what we have**.

Today **salvation** has come to this house, because he too is a son of Abraham. (Luke 19:9 ULT)

Today the people in this house **have been saved** ... Today God **has saved** the people in this house ...

The Lord does not move slowly concerning his promises, as some consider **slowness** to be. (2 Peter 3:9a ULT)

The Lord does not move slowly concerning his promises, as some consider **moving slowly** to be.

He will bring to light the hidden things of darkness and reveal the **purposes** of the heart. (1 Corinthians 4:5b ULT)

Active or Passive

Some languages use both active and passive sentences. In active sentences, the subject does the action. In passive sentences, the subject is the one that receives the action. Here are some examples with their subjects bolded:

- Active: **My father** built the house in 2010.
- Passive: **The house** was built in 2010.

Translators whose languages do not use passive sentences will need to know how they can translate passive sentences that they find in the Bible. Other translators will need to decide when to use a passive sentence and when to use the active form.

This page answers the question: *What do active and passive mean, and how do I translate passive sentences?*

In order to understand this topic, it would be good to read:

[\[\[rc://en/ta/man/translate/figs-sentences\]\]](#)

[\[\[rc://en/ta/man/translate/figs-verbs\]\]](#)

Description

Some languages have both active and passive forms of sentences.

- In the active form, the subject does the action and is always mentioned.
- In the passive form, the action is done to the subject, and the one who does the action is not always mentioned.

In the examples of active and passive sentences below, we have bolded the subject.

- active: **My father** built the house in 2010.
- passive: **The house** was built by my father in 2010.
- passive: **The house** was built in 2010. (This does not tell who did the action.)

Reasons This Is a Translation Issue

All languages use active forms. Some languages use passive forms, and some do not. Some languages use passive forms only for certain purposes, and the passive form is not used for the same purposes in all of the languages that use it.

Purposes for the Passive

- The speaker is talking about the person or thing the action was done to, not about the person who did the action.
- The speaker does not want to tell who did the action.
- The speaker does not know who did the action.

Translation Principles Regarding the Passive

- Translators whose language does not use passive forms will need to find another way to express the idea.
- Translators whose language has passive forms will need to understand why the passive is used in a particular sentence in the Bible and decide whether or not to use a passive form for that purpose in his translation of the sentence.

Examples From the Bible

Then their shooters shot at your soldiers from off the wall, and some of the king's servants **were killed**, and your servant Uriah the Hittite **was killed** too. (2 Samuel 11:24 ULT)

This means that the enemy's shooters shot and killed some of the king's servants, including Uriah. The point is what happened to the king's servants and Uriah, not who shot them. The purpose of the passive form here is to keep the focus on the king's servants and Uriah.

When the men of the city arose early in the morning, and see, the altar of Baal **was torn down**. (Judges 6:28a ULT)

The men of the town saw what had happened to the altar of Baal, but they did not know who broke it down. The purpose of the passive form here is to communicate this event from the perspective of the men of the town.

It would be better for him if a millstone **were put** around his neck and he **were thrown** into the sea. (Luke 17:2a ULT)

This describes a situation in which a person ends up in the sea with a millstone around his neck. The purpose of the passive form here is to keep the focus on what happens to this person. Who does these things to the person is not important.

Translation Strategies

If your language would use a passive form for the same purpose as in the passage that you are translating, then use a passive form. If you decide that it is better to translate without a passive form, here are some strategies that you might consider.

- (1) Use the same verb in an active sentence and tell who or what did the action. If you do this, try to keep the focus on the person receiving the action.
- (2) Use the same verb in an active sentence, and do not tell who or what did the action. Instead, use a generic expression like "they" or "people" or "someone."
- (3) Use a different verb.

Examples of Translation Strategies Applied

- (1) Use the same verb in an active sentence and tell who did the action. If you do this, try to keep the focus on the person receiving the action.

A loaf of bread **was given** him every day from the street of the bakers. (Jeremiah 37:21b ULT)

The king's servants gave Jeremiah a loaf of bread every day from the street of the bakers.

- (2) Use the same verb in an active sentence, and do not tell who did the action. Instead, use a generic expression like "they" or "people" or "someone."

It would be better for him if a millstone **were put** around his neck and he **were thrown** into the sea. (Luke 17:2a ULT)

It would be better for him if **they were to put** a millstone around his neck and **throw** him into the sea.

It would be better for him if **someone were to put** a heavy stone around his neck and **throw** him into the sea.

- (3) Use a different verb in an active sentence.

A loaf of bread **was given** him every day from the street of the bakers. (Jeremiah 37:21 ULT)

He **received** a loaf of bread every day from the street of the bakers.

Assumed Knowledge and Implicit Information

Assumed knowledge is whatever a speaker assumes his audience knows before he speaks and gives them some kind of information. The speaker does not give the audience this information because he believes that they already know it.

This page answers the question: *How can I be sure that my translation communicates the assumed knowledge and implicit information along with the explicit information of the original message?*

When the speaker does give the audience information, he can do so in two ways. The speaker gives explicit information in what he states directly. Implicit Information is what the speaker does not state directly because he expects his audience to be able to learn it from other things he says.

Description

When someone speaks or writes, he has something specific that he wants people to know or do or think about. He normally states this directly. This is explicit information.

The speaker assumes that his audience already knows certain things that they will need to think about in order to understand this information. Normally he does not tell people these things, because they already know them. This is called assumed knowledge.

The speaker does not always directly state everything that he expects his audience to learn from what he says. Implicit information is information that he expects people to learn from what he says even though he does not state it directly.

Often, the audience understands this implicit information by combining what they already know (assumed knowledge) with the explicit information that the speaker tells them directly.

Reasons This Is a Translation Issue

All three kinds of information are part of the speaker's message. If one of these kinds of information is missing, then the audience will not understand the message. Because the target translation is in a language that is very different from the biblical languages and is made for an audience that lives in a very different time and place than the people in the Bible, many times the assumed knowledge or the implicit information is missing from the message. In other words, modern readers do not know everything that the original speakers and hearers in the Bible knew. When these things are important for understanding the message, it is helpful if you include this information in the text or in a footnote.

Examples From the Bible

Then a scribe came to him and said, "Teacher, I will follow you wherever you go." Jesus said to him, "Foxes **have holes**, and the birds of the sky **have nests**, but the Son of Man has nowhere to lay his head." (Matthew 8:19-20 ULT)

Jesus did not say what foxes and birds use holes and nests for, because he assumed that the scribe would have known that foxes sleep in holes in the ground and birds sleep in their nests. This is **assumed knowledge**.

Jesus did not directly say here "I am the Son of Man" but, if the scribe did not already know it, then that fact would be **implicit information** that he could learn because Jesus referred to himself that way. Also, Jesus did not state explicitly that he travelled a lot and did not have a house that he slept in every night. That is **implicit information** that the scribe could learn when Jesus said that he had nowhere to lay his head.

Woe to you, Chorazin! Woe to you, Bethsaida! If the mighty deeds had been done in **Tyre and Sidon** which were done in you, they would have repented long ago in sackcloth and ashes. But

I say to you, it will be more tolerable for Tyre and Sidon at the **day of judgment** than for you.
(Matthew 11:21-22 ULT)

Jesus assumed that the people he was speaking to knew that Tyre and Sidon were very wicked, and that the day of judgment is a time when God will judge every person. Jesus also knew that the people he was talking to believed that they were good and did not need to repent. Jesus did not need to tell them these things. This is all **assumed knowledge**.

An important piece of **implicit information** here is that the people he was speaking to would be judged more severely than the people of Tyre and Sidon would be judged **because** they did not repent.

Why do your disciples violate the traditions of the elders? For **they do not wash their hands when they eat bread**. (Matthew 15:2 ULT)

One of the traditions of the elders was a ceremony in which people would wash their hands in order to be ritually clean before eating. People thought that in order to be righteous, they had to follow all the traditions of the elders. This was **assumed knowledge** that the Pharisees who were speaking to Jesus expected him to know. By saying this, they were accusing his disciples of not following the traditions, and thus not being righteous. This is **implicit information** that they wanted him to understand from what they said.

Translation Strategies

If readers have enough assumed knowledge to be able to understand the message, along with any important implicit information that goes with the explicit information, then it is good to leave that knowledge unstated and leave the implicit information implicit. If the readers do not understand the message because one of these is missing for them, then follow these strategies:

- (1) If readers cannot understand the message because they do not have certain assumed knowledge, then provide that knowledge as explicit information.
- (2) If readers cannot understand the message because they do not know certain implicit information, then state that information clearly, but try to do it in a way that does not imply that the information was new to the original audience.

Examples of Translation Strategies Applied

- (1) If readers cannot understand the message because they do not have certain assumed knowledge, then provide that knowledge as explicit information.

Jesus said to him, "Foxes **have holes**, and the birds of the sky **have nests**, but the Son of Man has nowhere to lay his head." (Matthew 8:20 ULT)

The assumed knowledge was that the foxes slept in their holes and birds slept in their nests.

Jesus said to him, "Foxes **have holes to live in**, and the birds of the sky **have nests to live in**, but the Son of Man has nowhere to lay his head and sleep."

It will be more tolerable for **Tyre and Sidon** at the day of judgment than for you (Matthew 11:22 ULT)

The assumed knowledge was that the people of Tyre and Sidon were very, very wicked. This can be stated explicitly.
>

At the day of judgment, it will be more tolerable for **those cities of Tyre and Sidon, whose people were very wicked**, than it will be for you. or At

the day of judgment, It will be more tolerable for those **wicked cities, Tyre and Sidon**, than for you.

Why do your disciples violate the traditions of the elders? For **they do not wash their hands** when they eat bread. (Matthew 15:2 ULT)

The assumed knowledge was that one of the traditions of the elders was a ceremony in which people would wash their hands in order to be ritually clean before eating, which they must do to be righteous. It was not to remove germs from their hands to avoid sickness, as a modern reader might think.

Why do your disciples violate the traditions of the elders? For **they do not go through the ceremonial handwashing ritual of righteousness** when they eat bread.

(2) If readers cannot understand the message because they do not know certain implicit information, then state that information clearly, but try to do it in a way that does not imply that the information was new to the original audience.

Then a scribe came to him and said, "Teacher, I will follow you wherever you go." Jesus said to him, "Foxes have holes, and the birds of the sky have nests, but the Son of Man has nowhere to lay his head." (Matthew 8:19-20 ULT)

The implicit information is that Jesus himself is the Son of Man. Other implicit information is that if the scribe wanted to follow Jesus, then, like Jesus, he would have to live without a house.

Jesus said to him, "Foxes have holes, and the birds of the sky have nests, but **I, the Son of Man**, have **no home to rest in. If you want to follow me, you will live as I live.**"

It will be more tolerable for Tyre and Sidon at the day of judgment than for you (Matthew 11:22 ULT)

The implicit information is that God would not only judge the people; he would punish them. This can be made explicit.

At the day of judgment, God will **punish Tyre and Sidon**, cities whose people were very wicked, **less severely than he will punish you.**
or:

At the day of judgment, God will **punish you more severely** than Tyre and Sidon, cities whose people were very wicked.

Modern readers may not know some of the things that the people in the Bible and the people who first read it knew. This can make it hard for them to understand what a speaker or writer says, and to learn things that the speaker left implicit. Translators may need to state some things explicitly in the translation that the original speaker or writer left unstated or implicit.

Background Information

Description

When people tell a story, they normally tell the events in the order that they happened. This sequence of events makes up the storyline. The storyline is full of action verbs that move the story along in time. But sometimes a writer may take a break from the storyline and give some information to help his listeners understand the story better. This type of information is called background information. The background information might be about things that happened before the events he has already told about, or it might explain something in the story, or it might be about something that would happen much later in the story.

This page answers the question: *What is background information, and how can I show that some information is background information?*

In order to understand this topic, it would be good to read:

[\[\[rc://en/ta/man/translate/figs-events\]\]](#)

[\[\[rc://en/ta/man/translate/writing-intro\]\]](#)

Example — The bolded phrases in the story below are all background information.

Peter and John went on a hunting trip because **their village was going to have a feast the next day. Peter was the best hunter in the village. He once killed three wild pigs in one day!** They walked for hours through low bushes until they heard a wild pig. The pig ran, but they managed to shoot the pig and kill it. Then they tied up its legs with some rope **they had brought with them** and carried it home on a pole. When they brought it to the village, Peter's cousin saw the pig and realized that it was his own pig. Peter had mistakenly killed his cousin's pig.

Background information often tells about something that had happened earlier or something that would happen much later. Examples of these are: "their village was going to have a feast the next day," "He once killed three wild pigs in one day," and "that they had brought with them."

Often background information uses "be" verbs like "was" and "were," rather than action verbs. Examples of these are "their village was going to have a feast the next day," and "Peter **was** the best hunter in the village."

Background information can also be marked with words that tell the reader that this information is not part of the event line of the story. In this story, some of these words are "because," "once," and "had."

A writer may use background information:

- to help their listeners be interested in the story
- to help their listeners understand something in the story
- to help the listeners understand why something is important in the story
- to tell the setting of a story
 - > * Setting includes:
 - > * where the story takes place
 - > * when the story takes place
 - > * who is present when the story begins
 - > * what is happening when the story begins

Reasons This Is a Translation Issue

- Languages have different ways of marking background information and storyline information.
- You (the translator) need to know the order of the events in the Bible, which information is background information, and which is storyline information.
- You will need to translate the story in a way that marks the background information in a way that your own readers will understand the order of events, which information is background information, and which is storyline information.

Examples From the Bible

Hagar gave birth to Abram's son, and Abram named his son, whom Hagar bore, Ishmael. Abram **was 86 years old** when Hagar bore Ishmael to Abram. (Genesis 16:15-16 ULT)

The first sentence tells about two events. Hagar gave birth and Abraham named his son. The second sentence is background information about how old Abram was when those things happened.

And Jesus himself **was beginning about 30 years old**. He **was the son** (as it was assumed) of Joseph, of Heli, (Luke 3:23 ULT)

The verses before this tell about when Jesus was baptized. This sentence introduces background information about Jesus' age and ancestors. The story resumes in chapter 4 where it tells about Jesus going to the wilderness.

Then **it happened on a Sabbath** that he **was going through the grain fields**, and his disciples **were picking and eating the heads of grain, rubbing them in their hands**. But some of the Pharisees said ... (Luke 6:1-2a ULT)

These verses give the setting of the story. The events took place in a grain field on the Sabbath day. Jesus, his disciples, and some Pharisees were there, and Jesus' disciples were picking heads of grain and eating them. The main action in the story starts with the phrase, "But some of the Pharisees said"

Translation Strategies

To keep translations clear and natural you will need to study how people tell stories in your language. Observe how your language marks background information. You may need to write down some stories in order to study this. Observe what kinds of verbs your language uses for background information and what kinds of words or other markers signal that something is background information. Do these same things when you translate, so that your translation is clear and natural and people can understand it easily.

- (1) Use your language's way of showing that certain information is background information.
- (2) Reorder the information so that earlier events are mentioned first. (This is not always possible when the background information is very long.)

Examples of Translation Strategies Applied

- (1) Use your language's way of showing that certain information is background information. The examples below explain how this was done in the ULT English translations.

And Jesus himself **was** beginning about 30 years old. He **was** the son (as it was assumed) of Joseph, of Heli. (Luke 3:23 ULT)

As here, English sometimes uses the word "and" to show that there is some kind of change in the story. The verb "was" shows that it is background information.

Therefore, also exhorting many other things, he preached the good news to the people. But Herod the tetrarch, having been rebuked by him concerning Herodias, the wife of his brother, and **concerning all the evil things that Herod had done**, added even this to them all: He locked John up in prison. (Luke 3:18-20 ULT)

The bolded phrase happened before John rebuked Herod. In English, the helping verb "had" in "had done" shows that Herod did those things before John rebuked him.

- (2) Reorder the information so that earlier events are mentioned first.

Hagar gave birth to Abram's son, and Abram named his son, whom Hagar bore, Ishmael.
Abram was 86 years old when Hagar bore Ishmael to Abram. (Genesis 16:16 ULT)

"**When Abram was 86 years old**, Hagar gave birth to his son, and Abram named his son Ishmael."

Therefore, also exhorting many other things, he preached the good news to the people. But Herod the tetrarch, having been rebuked by him concerning Herodias, the wife of his brother, and **concerning all the evil things that Herod had done**, added even this to them all: He locked John up in prison. (Luke 3:18-20 ULT)

The translation below reorders John's rebuke and Herod's actions.

"Now Herod the tetrarch married his brother's wife, Herodias, and **he did many other evil things**, so John rebuked him. But then Herod did another very evil thing. He had John locked up in prison."

Biblical Distance

Description

The following terms are the most common measures for distance or length that were originally used in the Bible. Most of these are based on the sizes of the hand and forearm.

- The **handbreadth** was the width of the palm of a man’s hand.
- The **span** or handspan was the width of a man’s hand with the fingers spread out.
- The **cubit** was the length of a man’s forearm, from the elbow to the tip of the longest finger.
- The **“long” cubit** is used only in Ezekiel 40-48. It is the length of a normal cubit plus a span.
- The **stadium** (plural, **stadia**) referred to a certain footrace that was about 185 meters in length. Some older English versions translated this word as “furlong,” which referred to the average length of a plowed field.

This page answers the question: *How can I translate the lengths and distances that are in the Bible?*

In order to understand this topic, it would be good to read:

[\[\[rc://en/ta/man/translate/translate-decimal\]\]](#)
[\[\[rc://en/ta/man/translate/translate-fraction\]\]](#)

The metric values in the table below are close but not exactly equal to the biblical measures. The biblical measures probably differed in exact length from time to time and place to place. The equivalents below are an attempt to give an average measurement.

Original Measure	Metric Measure
handbreadth	8 centimeters
span	23 centimeters
cubit	46 centimeters
“long” cubit	54 centimeters
stadia	185 meters

Translation Principles

The people in the Bible did not use modern measures such as meters, liters, and kilograms. Using the original measures can help readers know that the Bible really was written long ago in a time when people used those measures.

Using modern measures can help readers understand the text more easily.

Whatever measure you use, it would be good, if possible, to tell about the other kind of measure in the text or a footnote.

If you do not use the Biblical measures, try not to give the readers the idea that the measurements are exact. For example, if you translate one cubit as “.46 meters” or even as “46 centimeters,” readers might think that the measurement is exact. It would be better to say “half a meter,” “45 centimeters,” or “50 centimeters.”

Sometimes it can be helpful to use the word “about” to show that a measurement is not exact. For example, Luke 24:13 says that Emmaus was 60 stadia from Jerusalem. This can be translated as “about ten kilometers” from Jerusalem.

When God tells people how long something should be, and when people make things according to those lengths, do not use “about” in the translation. Otherwise it will give the impression that God did not care exactly how long something should be.

Translation Strategies

- (1) Use the measurements from the ULT. These are the same kinds of measurements that the original writers used. Spell them in a way that is similar to the way they sound or are spelled in the ULT. (See Copy or Borrow Words.)
- (2) Use the metric measurements given in the UST. The translators of the UST have already figured how to represent the amounts in the metric system.
- (3) Use measurements that are already used in your language. In order to do this you would need to know how your measurements relate to the metric system and figure out each measurement.
- (4) Use the measurements from the ULT and include measurements that your people know in the text or a note.
- (5) Use measurements that your people know, and include the measurements from the ULT in the text or in a note.

Translation Strategies Applied

The strategies are all applied to Exodus 25:10 below.

They are to make an ark of acacia wood. Its length must be two and a half cubits; its width will be one cubit and a half; and its height will be one cubit and a half. (Exodus 25:10 ULT)

- (1) Use the measurements given in the ULT. These are the same kinds of measurements that the original writers used. Spell them in a way that is similar to the way they sound or are spelled in the ULT. (See Copy or Borrow Words.)

"They are to make an ark of acacia wood. Its length must be **two and a half kubits**; its width will be **one kubit and a half**; and its height will be **one kubit and a half**."

- (2) Use the metric measurements given in the UST. The translators of the UST have already figured how to represent the amounts in the metric system.

"They are to make an ark of acacia wood. Its length must be **one meter**; its width will be **two thirds of a meter**; and its height will be **two thirds of a meter**."

- (3) Use measurements that are already used in your language. In order to do this you would need to know how your measurements relate to the metric system and figure out each measurement. For example, if you measure things using the standard meter length, you could translate it as below.

"They are to make an ark of acacia wood. Its length must be **one meter**; its width will be **two thirds of a meter**; and its height will be **two thirds of a meter**."

- (4) Use the measurements from the ULT and include measurements that your people know in the text or a note. The following shows both measurements in the text.

"They are to make an ark of acacia wood. Its length must be **two and a half cubits (one meter)**; its width will be **one cubit and a half (two thirds of a meter)**; and its height will be **one cubit and a half (two thirds of a meter)**."

- (5) Use measurements that your people know, and include the measurements from the ULT in the text or in a note. The following shows the ULT measurements in notes.

“They are to make an ark of acacia wood. Its length must be **one meter**; ¹ its width will be **two thirds of a meter**; ² and its height will be **two thirds of a meter**.”

The footnotes would look like:

“They are to make an ark of acacia wood. Its length must be **one meter**; ¹ its width will be **two thirds of a meter**; ² and its height will be **two thirds of a meter**.”

The footnotes would look like:

Biblical Money

Description

This page answers the question: *How can I translate the values of money in the Bible?*

In early Old Testament times, people weighed their metals, such as silver and gold, and would pay a certain weight of that metal in order to buy things. Later, people started to make coins that each contained a standard amount of a certain metal. The daric is one such coin. In New Testament times, people used silver and copper coins.

The two tables below show some of the most well-known units of money found in the Old Testament (OT) and New Testament (NT). The table for Old Testament units shows what kind of metal was used and how much it weighed. The table for New Testament units shows what kind of metal was used and how much it was worth in terms of a day's wage.

Unit in OT	Metal	Weight
daric	gold coin	8.4 grams
shekel	various metals	11 grams
talent	various metals	33 kilograms
Unit in NT	Metal	Day's Wage
denarius/denarii	silver coin	1 day
drachma	silver coin	1 day
mite	copper coin	1/64 day
shekel	silver coin	4 days
talent	silver	6,000 days

Translation Principle

Do not use modern money values since these change from year to year. Using them will cause the Bible translation to become outdated and inaccurate.

Translation Strategies

The value of most money in the Old Testament was based on its weight. So when translating these weights in the Old Testament, see Biblical Weight. The strategies below are for translating the value of money in the New Testament.

- (1) Use the Bible term and spell it in a way that is similar to the way it sounds. (See Copy or Borrow Words.)
- (2) Describe the value of the money in terms of what kind of metal it was made of and how many coins were used.
- (3) Describe the value of the money in terms of what people in Bible times could earn in one day of work.
- (4) Use the biblical term and give the equivalent amount in the text or a footnote.

(5) Use the biblical term and explain it in a footnote.

Translation Strategies Applied

The translations strategies are all applied to Luke 7:41 below.

█ The one owed 500 denarii, and the other, 50. (Luke 7:41b ULT)

Use the Bible term and spell it in a way that is similar to the way it sounds. (See Copy or Borrow Words.)

█ "The one owed **500 denali**, and the other, **50**."

Describe the value of the money in terms of what kind of metal it was made of and how many pieces or coins were used.

█ "The one owed **500 silver coins**, and the other, **50**."

(3) Describe the value of the money in terms of what people in Bible times could earn in one day of work.

█ "The one owed **500 days' wages**, and the other, **50**."

(4) Use the Bible term and give the equivalent amount in the text or a footnote.

█ "The one owed **500 denarii** 1, and the other owed **50 denarii**. 2"

The footnotes would look like:

█ [1] 500 days' wages [2] 50 days' wages

(5) Use the Bible term and explain it in a footnote.

█ "The one owed **500 denarii**,¹ and the other, **50**." (Luke 7:41 ULT)

█ ^[1] A denarius was the amount of silver that people could earn in one day of work.

Direct and Indirect Quotations

Description

There are two kinds of quotations: direct quotations and indirect quotations.

A direct quotation occurs when someone reports what another person said from the viewpoint of that original speaker. People usually expect that this kind of quotation will represent the original speaker's exact words. In the example below, John would have said "I" when referring to himself, so the narrator, who is reporting John's words, uses the word "I" in the quotation to refer to John. To show that these are John's exact words, many languages put the words between quotation marks: "".

- John said, "I do not know at what time I will arrive."

An indirect quotation occurs when a speaker reports what someone else said, but in this case, the speaker is reporting it from his own point of view instead and not from the original person's point of view. This kind of quotation usually contains changes in pronouns, and it often includes changes in time, in word choices, and in length. In the example below, the narrator refers to John as "he" in the quotation and uses the word "would" to replace the future tense, indicated by "will."

- John said that he did not know at what time he would arrive.

This page answers the question: *What are direct and indirect quotations?*

In order to understand this topic, it would be good to read:

[\[\[rc://en/ta/man/translate/figs-pronouns\]\]](#)

[\[\[rc://en/ta/man/translate/figs-verbs\]\]](#)

[\[\[rc://en/ta/man/translate/writing-quotations\]\]](#)

Reason This Is a Translation Issue

In some languages, reported speech can be expressed by either direct or indirect quotations. In other languages, it is more natural to use one than the other. There may be a certain meaning implied by using one rather than the other. So for each quotation, translators need to decide whether it is best to translate it as a direct quotation or as an indirect quotation.

Examples From the Bible

The verses in the examples below contain both direct and indirect quotations. In the explanation below the verse, we have marked in bold the words that are quoted.

And he commanded him to tell no one, but, "Go, show yourself to the priest and offer a sacrifice for your cleansing, according to what Moses commanded, for a testimony to them."
(Luke 5:14 ULT)

- Indirect quote: He commanded him **to tell no one**,
- Direct quote: but told him, "**Go, show yourself to the priest ...**"

And being asked by the Pharisees when the kingdom of God was coming, he answered them and said, "The kingdom of God is not coming with careful observation. Neither will they say, 'Look, here it is!' or 'There it is!' For indeed, the kingdom of God is among you." (Luke 17:20-21 ULT)

- Indirect quote: Being asked by the Pharisees **when the kingdom of God was coming**,
- Direct quote: he answered them and said, "**The kingdom of God is not coming with careful observation. Neither will they say, 'Look, here it is!' or 'There it is!' For indeed, the kingdom of God is among you.**"
- Direct quotes: Neither will they say, '**Look, here it is!**' or, '**There it is!**'

Translation Strategies

If the kind of quote used in the source text would work well in your language, consider using it. If the kind of quote used in that context is not natural for your language, follow these strategies.

- (1) If a direct quote would not work well in your language, change it to an indirect quote.
- (2) If an indirect quote would not work well in your language, change it to a direct quote.

Examples of Translation Strategies Applied

- (1) If a direct quote would not work well in your language, change it to an indirect quote.

And he commanded him to tell no one, but, **“Go, show yourself to the priest and offer a sacrifice for your cleansing, according to what Moses commanded, for a testimony to them.”** (Luke 5:14 ULT)

He commanded him to tell no one, but **to go and show himself to the priest and offer a sacrifice for his cleansing according to what Moses commanded, for a testimony to them.**

- (2) If an indirect quote would not work well in your language, change it to a direct quote.

Doublet

Description

We are using the word “doublet” to refer to two words or phrases that are used together and either mean the same thing or mean very close to the same thing. Often they are joined with the word “and.” Unlike Hendiadys, in which one of the words modifies the other, in a doublet the two words or phrases are equal and are used to emphasize or intensify the one idea that is expressed by the two words or phrases.

This page answers the question: *What are doublets and how can I translate them?*

In order to understand this topic, it would be good to read:

[\[\[rc://en/ta/man/translate/figs-intro\]\]](#)

A very similar issue is the repetition of the same word or phrase for emphasis, usually with no other words between them. Because these figures of speech are so similar and have the same effect, we will treat them here together.

Reason This Is a Translation Issue

In some languages people do not use doublets. Or they may use doublets, but only in certain situations, so a doublet might not make sense in their language in some verses. People might think that the verse is describing two ideas or actions, when it is only describing one. In this case, translators may need to find some other way to express the meaning expressed by the doublet.

Examples From the Bible

He has one people **scattered** and **dispersed** among the peoples (Esther 3:8 ULT)

The bolded words mean the same thing. Together they mean the people were spread out.

He attacked two men **more righteous** and **better** than himself. (1 Kings 2:32b ULT)

This means that they were “much more righteous” than he was.

You have decided to prepare **false** and **deceptive** words. (Daniel 2:9b ULT)

This means that they had decided to lie, which is another way of saying that they intended to deceive people.

... like of a lamb **without blemish** and **without spot**. (1 Peter 1:19b ULT)

This means that he was like a lamb that did not have any defect—not even one.

Then they approached {and} woke him up, saying, “**Master! Master!** We are perishing!” (Luke 8:24 ULT)

The repetition of “Master” means that the disciples called to Jesus urgently and continually.

Translation Strategies

If a doublet would be natural and give the right meaning in your language, consider using it. If not, consider these strategies.

(1) Translate only one of the words or phrases.

(2) If the doublet is used to intensify the meaning, translate one of the words or phrases and add a word that intensifies it such as “very” or “great” or “many.”

(3) If the doublet is used to intensify or emphasize the meaning, use one of your language's ways of doing that.

Translation Strategies Applied

(1) Translate only one of the words.

You have decided to prepare **false** and **deceptive** words. (Daniel 2:9b ULT)

"You have decided to prepare **false** things to say."

(2) If the doublet is used to intensify the meaning, translate one of the words and add a word that intensifies it such as "very" or "great" or "many."

He has one people **scattered** and **dispersed** among the peoples (Esther 3:8 ULT)

"He has one people **very spread out**."

(3) If the doublet is used to intensify or emphasize the meaning, use one of your language's ways of doing that.

... like a lamb **without blemish** and **without spot**. (1 Peter 1:19b ULT)

- English can emphasize this with "any" and "at all."

"... like a lamb **without any blemish at all**."

Then they approached {and} woke him up, saying, "**Master! Master!** We are perishing!" (Luke 8:24 ULT)

Ellipsis

Description

An ellipsis¹ occurs when a speaker or writer leaves out one or more words that normally should be in the sentence. The speaker or writer does this because he knows that the hearer or reader will understand the meaning of the sentence and supply the words in his mind when he hears or reads the words that are there. For example:

So the wicked will not stand in the judgment, **nor sinners in the assembly of the righteous.**
(Psalm 1:5 ULT)

There is ellipsis in the second part because “nor sinners in the assembly of the righteous” is not a complete sentence. The speaker assumes that the hearer will understand what it is that sinners will not do in the assembly of the righteous by filling in the action from the previous clause. With the action filled in, the complete sentence would read:

So the wicked will not stand in the judgment, nor **will** sinners **stand** in the assembly of the righteous.

[¹] English has a punctuation symbol which is also called an ellipsis. It is a series of three dots (...) used to indicate an intentional omission of a word, phrase, sentence or more from text without altering its original meaning. This translationAcademy article is not about the punctuation mark, but about the concept of omission of words that normally should be in the sentence.

Two Types of Ellipsis

A Relative Ellipsis happens when the reader has to supply the omitted word or words from the context. Usually the word is in the previous sentence, as in the example above.

An Absolute Ellipsis happens when the omitted word or words are not in the context, but the phrases are common enough in the language that the reader is expected to supply what is missing from this common usage or from the nature of the situation.

Reason This Is a Translation Issue

Readers who see incomplete sentences or phrases may not know that there is information missing that the writer expects them to fill in. Or readers may understand that there is information missing, but they may not know what information is missing because they do not know the original biblical language, culture, or situation as the original readers did. In this case, they may fill in the wrong information. Or readers may misunderstand the ellipsis if they do not use ellipsis in the same way in their language.

Examples From the Bible

Relative Ellipsis

He makes Lebanon skip like a calf **and Sirion like a young ox.** (Psalm 29:6 ULT)

The writer wants his words to be few and to make good poetry. The full sentence with the information filled in would be:

This page answers the question: *What is ellipsis ?*

In order to understand this topic, it would be good to read:

[[rc://en/ta/man/translate/figs-intro]]

[[rc://en/ta/man/translate/figs-sentences]]

He makes Lebanon skip like a calf and **he makes** Sirion **skip** like a young ox.

Watch carefully, therefore, how you walk—**not as unwise but as wise**. (Ephesians 5:15b ULT)

The information that the reader must understand in the second parts of these sentences can be filled in from the first parts:

Watch carefully, therefore, how you walk—**walk** not as unwise but **walk** as wise,

Absolute Ellipsis

Then when he had come near, he asked him, “What do you want me to do for you?” And so he said, “Lord, **that I might recover my sight**.” (Luke 18:40b-41 ULT)

It seems that the man answered in an incomplete sentence because he wanted to be polite and not directly ask Jesus for healing. He knew that Jesus would understand that the only way he could receive his sight would be for Jesus to heal him. The complete sentence would be:

“Lord, **I want you to heal me so** that I might receive my sight.”

To Titus, a true son in our common faith. Grace and peace from God the Father and Christ Jesus our Savior. (Titus 1:4 ULT)

The writer assumes that the reader will recognize this common form of a blessing or wish, so he does not need to include the full sentence, which would be:

To Titus, a true son in our common faith. **May you receive** grace and peace from God the Father and Christ Jesus our Savior.

If ellipsis would be natural and give the right meaning in your language, consider using it. If not, here is another option:

(1) Add the missing words to the incomplete phrase or sentence.

So the wicked will not stand in the judgment, nor **sinner in the assembly** of the righteous. (Psalm 1:5 ULT)

So the wicked will not stand in the judgment, and **sinner will not stand in the assembly** of the righteous.

Euphemism

Description

A euphemism is a mild or polite way of referring to something that is unpleasant, embarrassing, or socially unacceptable, such as death or activities usually done in private.

This page answers the question: *What is a euphemism?*

In order to understand this topic, it would be good to read:

[[rc://en/ta/man/translate/figs-intro]]

... they found Saul and his sons **fallen** on Mount Gilboa.
(1 Chronicles 10:8b ULT)

This means that Saul and his sons “were dead.” It is a euphemism because the important thing was not that Saul and his sons had fallen but that they were dead. Sometimes people do not like to speak directly about death because it is unpleasant.

Reason This Is a Translation Issue

Different languages use different euphemisms. If the target language does not use the same euphemism as in the source language, readers may not understand what it means and they may think that the writer means only what the words literally say.

Examples From the Bible

... where there was a cave. Saul went inside to **cover his feet**. (1 Samuel 24:3b ULT)

The original hearers would have understood that Saul went into the cave to use it as a toilet, but the writer wanted to avoid offending or distracting them, so **he did not say specifically** what Saul did or what he left in the cave.

But Mary said to the angel, “How will this be, since I have not **known a man?**” (Luke 1:34 ULT)

In order **to be polite**, Mary uses a euphemism to say that she has never had sexual intercourse with a man.

Translation Strategies

If euphemism would be natural and give the right meaning in your language, consider using it. If not, here are other options:

- (1) Use a euphemism from your own culture.
- (2) State the information plainly without a euphemism if it would not be offensive.

Examples of Translation Strategies Applied

- (1) Use a euphemism from your own culture.

... where there was a cave. Saul went inside to **cover his feet**. (1 Samuel 24:3b ULT) — Some languages might use euphemisms like these:

“... where there was a cave. Saul went into the cave to **dig a hole**”

“... where there was a cave. Saul went into the cave to **have some time alone**”

But Mary said to the angel, “How will this be, since I have not **known a man?**” (Luke 1:34 ULT)

But Mary said to the angel, "How will this be, since I have not **slept with a man?**"

Exclamations

Description

Exclamations are words or sentences that show strong feeling such as surprise, joy, fear, or anger. In the ULT and UST, they usually have an exclamation mark (!) at the end. The mark shows that it is an exclamation. The situation and the meaning of what the people said helps us understand what feelings they were expressing. In the example below from Matthew 8, the speakers were terribly afraid. In the example from Matthew 9, the speakers were amazed, because something happened that they had never seen before.

This page answers the question: *What are ways of translating exclamations?*

In order to understand this topic, it would be good to read:

[\[\[rc://en/ta/man/translate/figs-sentencetypes\]\]](#)

Save us, Lord; we are about to die! (Matthew 8:25b ULT)

When the demon had been driven out, the mute man spoke. The crowds were astonished and said, "This has never been seen before in Israel!" (Matthew 9:33 ULT)

Reason This Is a Translation Issue

Languages have different ways of showing that a sentence communicates strong emotion.

Examples From the Bible

Some exclamations have a word that shows feeling. The sentences below have "Oh" and "Ah." The word "oh" here shows the speaker's amazement.

Oh, the depth of the riches both of the wisdom and the knowledge of God! (Romans 11:33 ULT)

The word "Alas" below shows that Gideon was very frightened.

When Gideon saw that he was the angel of Yahweh, Gideon lamented, "**Alas**, O my Lord Yahweh, for because of this I have seen the angel of Yahweh face to face!" (Judges 6:22 ULT)

Some exclamations start with a question word such as "how" or "why," even though they are not questions. The sentence below shows that the speaker is amazed at how unsearchable God's judgments are.

How unsearchable are his judgments, and his ways beyond discovering! (Romans 11:33b ULT)

Some exclamations in the Bible do not have a main verb. The exclamation below shows that the speaker is disgusted with the person he is speaking to.

You worthless person! (Matthew 5:22b ULT)

Translation Strategies

- (1) If an exclamation in your language needs a verb, add one. Often a good verb is "is" or "are."
- (2) Use an exclamation word from your language that shows the strong feeling.
- (3) Translate the exclamation word with a sentence that shows the feeling.
- (4) Use a word that emphasizes the part of the sentence that brings about the strong feeling.

(5) If the strong feeling is not clear in the target language, then tell how the person felt.

Examples of Translation Strategies Applied

(1) If an exclamation in your language needs a verb, add one. Often a good verb is “is” or “are.”

You worthless person! (Matthew 5:22b ULT)

“You **are** such a worthless person!”

Oh, the depth of the riches both of the wisdom and the knowledge of God! (Romans 11:33b ULT)

“Oh, the riches of the wisdom and the knowledge of God **are** so deep!”

(2) Use an exclamation word from your language that shows the strong feeling. In the first suggested translation below, the word “wow” shows that they were astonished. In the second suggested translation, the expression “Oh no” shows that something terrible or frightening has happened.

They were extremely astonished, saying, “He has done everything well. He even makes the deaf hear and the mute speak.” (Mark 7:37 ULT)

“They were extremely astonished, saying, ‘**Wow!** He has done everything well. He even makes the deaf to hear and the mute to speak.’”

Alas, oh my Lord Yahweh! For because of this I have seen the angel of Yahweh face to face! (Judges 6:22b ULT)

“**Oh no**, Lord Yahweh! I have seen the angel of Yahweh face to face!”

(3) Translate the exclamation word with a sentence that shows the feeling.

“**Alas**, O my Lord Yahweh, for because of this I have seen the angel of Yahweh face to face!” (Judges 6:22 ULT)

“Lord Yahweh, **what will happen to me?** For I have seen the angel of Yahweh face to face!”

“**Help**, Lord Yahweh! For I have seen the angel of Yahweh face to face!”

(4) Use a word that emphasizes the part of the sentence that brings about the strong feeling.

How unsearchable are his judgments, and his ways beyond discovering! (Romans 11:33b ULT)

“His judgments are **so** unsearchable and his ways are **far** beyond discovering!”

(5) If the strong feeling is not clear in the target language, then tell how the person felt.

When Gideon saw that he was the angel of Yahweh, Gideon lamented, “**Alas**, O my Lord Yahweh, for because of this I have seen the angel of Yahweh face to face!” (Judges 6:22 ULT)

Gideon understood that this was the angel of Yahweh. **He was terrified** and said, “**Alas**, Lord Yahweh! I have seen the angel of Yahweh face to face!”

Exclusive and Inclusive 'We'

Description

Some languages have more than one form of “we”: an inclusive form that means “I and you” and an exclusive form that means “I and someone else but not you.” The exclusive form excludes the person being spoken to. The inclusive form includes the person being spoken to and possibly others. This is also true for “us,” “our,” “ours,” and “ourselves.” Some languages have inclusive forms and exclusive forms for each of these. Translators whose language has separate exclusive and inclusive forms for these words will need to understand what the speaker meant so that they can decide which form to use.

This page answers the question: *What are the exclusive and inclusive forms of “we”?*

In order to understand this topic, it would be good to read:

[\[\[rc://en/ta/man/translate/figs-pronouns\]\]](#)

See the pictures. The people on the right are the people that the speaker is talking to. The yellow highlight shows who the inclusive “we” and the exclusive “we” refer to.

Reason This Is a Translation Issue

The Bible was first written in the Hebrew, Aramaic, and Greek languages. Like English, these languages do not have separate exclusive and inclusive forms for “we.” If your language has separate exclusive and inclusive forms of “we,” then you will need to understand what the speaker meant so that you can decide which form of “we” to use.

Examples From the Bible

Exclusive

They said, “There are not more than five loaves of bread and two fish with **us**—unless **we** go and buy food for all these people.” (Luke 9:13 ULT)

In the second clause, the disciples are talking about some of them going to buy food. They were speaking to Jesus, but Jesus was not going to buy food. So languages that have inclusive and exclusive forms of “we” would use the **exclusive** form there.

We have seen it, and **we** bear witness to it. **We** are announcing to you the eternal life, which was with the Father, and which has been made known to **us**. (1 John 1:2 ULT)

John is telling people who have not seen Jesus what he and the other apostles have seen. So languages that have inclusive and exclusive forms of “we” and “us” would use the **exclusive** forms in this verse.

Inclusive

The shepherds said one to each other, "Let **us** now go to Bethlehem, and see this thing that has happened, which the Lord has made known to **us**." (Luke 2:15b ULT)

The shepherds were speaking to one another. When they said "us," they were including the people they were speaking to, so languages that have inclusive and exclusive forms of "we" and "us" would use the **inclusive** form in this verse.

Now it happened that on one of those days, he indeed got into a boat with his disciples, and he said to them, "Let **us** go over to the other side of the lake." So they set sail. (Luke 8:22 ULT)

When Jesus said "us," he was referring to himself and to the disciples he was speaking to, so languages that have inclusive and exclusive forms of "we" and "us" would use the **inclusive** form in this verse.

First, Second or Third Person

Normally a speaker refers to himself as “I” and the person he is speaking to as “you.” Sometimes in the Bible a speaker refers to himself or to the person he is speaking to with terms other than “I” or “you.”

Description

- First person — This is how a speaker normally refers to himself. English uses the pronouns “I” and “we.” (Also: me, my, mine; us, our, ours)
- Second person — This is how a speaker normally refers to the person or people he is speaking to. English uses the pronoun “you.” (Also: your, yours)
- Third person — This is how a speaker refers to someone else. English uses the pronouns “he,” “she,” “it,” and “they.” (Also: him, his, her, hers, its; them, their, theirs) Noun phrases like “the man” or “the woman” are also third person.

This page answers the question: *What are first, second, and third person, and how do I translate when a third person form does not refer to the third person?*

In order to understand this topic, it would be good to read:

[\[\[rc://en/ta/man/translate/figs-explicitinfo\]\]](#)

[\[\[rc://en/ta/man/translate/figs-pronouns\]\]](#)

Reason This Is a Translation Issue

Sometimes in the Bible a speaker uses the third person to refer to himself or to the people he is speaking to. Readers might think that the speaker was referring to someone else. They might not understand that he meant “I” or “you.”

Examples From the Bible

Sometimes people used the third person instead of “I” or “me” to refer to themselves.

But David said to Saul, “**Your servant** used to keep **his** father’s sheep.” (1 Samuel 17:34 ULT)

David referred to himself in the third person as “your servant” and used “his.” He was calling himself Saul’s servant in order to show his humility before Saul.

Then Yahweh answered Job out of a fierce storm and said,
“... Do you have an arm like **God’s**? Can you thunder with a voice like **his**?” (Job 40:6, 9 ULT)

God referred to himself in the third person with the words “God’s” and “his.” He did this to emphasize that he is God, and he is powerful.

Sometimes people use the third person instead of “you” or “your” to refer to the person or people they are speaking to.

Abraham answered and said, “Look, I have undertaken to speak to my Lord, even though I am only dust and ashes!” (Genesis 18:27 ULT)

Abraham was speaking to the Lord, and referred to the Lord as “My Lord” rather than as “you.” He did this to show his humility before God.

So also my heavenly Father will do to you, if **each of you** does not forgive **his** brother from your heart. (Matthew 18:35 ULT)

After saying “each of you,” Jesus used the third person “his” instead of “your.”

Translation Strategies

If using the third person to mean “I” or “you” would be natural and give the right meaning in your language, consider using it. If not, here are some other options.

- (1) Use the third person phrase along with the pronoun “I” or “you.”
- (2) Simply use the first person (“I”) or second person (“you”) instead of the third person.

Hebrew Months

Description

This page answers the question: *What are the Hebrew months?*

The Hebrew calendar used in the Bible has twelve months. Unlike the western calendar, its first month begins in the spring of the northern hemisphere. Sometimes a month is called by its name (Aviv, Ziv, Sivan), and sometimes it is called by its order in the Hebrew calendar year (first month, second month, third month).

Reasons This Is a Translation Issue

- Readers may be surprised to read of months that they have never heard of, and they may wonder how those months correspond to the months that they use.
- Readers may not realize that phrases such as “the first month” or “the second month” refer to the first or second month of the Hebrew calendar, not some other calendar.
- Readers may not know when the first month of the Hebrew calendar begins.
- The Bible may tell about something happening in a certain month, but readers will not be able to fully understand what is said about it if they do not know what season of the year that was.

List of Hebrew Months

This is a list of the Hebrew months with information about them that may be helpful in the translation.

Aviv — (This month was called **Nisan** after the Babylonian exile.) This is the first month of the Hebrew calendar. It marks when God brought the people of Israel out of Egypt. It is at the beginning of the spring season when the late rains come and people begin to harvest their crops. It is during the last part of March and the first part of April on western calendars. The Passover celebration started on Aviv 10; the Festival of Unleavened Bread was right after that, and the Festival of Harvest was a few weeks after that.

Ziv — This is the second month of the Hebrew calendar. This is during the harvest season. It is during the last part of April and the first part of May on Western calendars.

Sivan — This is the third month of the Hebrew calendar. It is at the end of the harvest season and the beginning of the dry season. It is during the last part of May and the first part of June on Western calendars. The Feast of Weeks is celebrated on Sivan 6.

Tammuz — This is the fourth month of the Hebrew calendar. It is during the dry season. It is during the last part of June and the first part of July on Western calendars.

Ab — This is the fifth month of the Hebrew calendar. It is during the dry season. It is during the last part of July and the first part of August on Western calendars.

Elul — This is the sixth month of the Hebrew calendar. It is at the end of the dry season and the beginning of the rainy season. It is during the last part of August and the first part of September on Western calendars.

Ethanim — This is the seventh month of the Hebrew calendar. This is during the early rain season which would soften the land for sowing. It is during the last part of September and the first part of October on Western calendars. The Feast of Ingathering and the Day of Atonement are celebrated in this month.

Bul — This is the eighth month of the Hebrew calendar. It is during the rainy season when people plough their fields and sow seed. It is during the last part of October and the first part of November on Western calendars.

Kislev — This is the ninth month of the Hebrew calendar. This is at the end of the sowing season and the beginning of the cold season. It is during the last part of November and the first part of December on Western calendars.

Tebeth — This is the tenth month of the Hebrew calendar. It is during the cold season when there may be rain and snow. It is during the last part of December and the first part of January on Western calendars.

Shebat — This is the eleventh month of the Hebrew calendar. This is the coldest month of the year, and it has heavy rainfall. It is during the last part of January and the first part of February on Western calendars.

Adar — This is the twelfth and last month of the Hebrew calendar. This is during the cold season. It is during the last part of February and the first part of March on western calendars. The feast called Purim is celebrated in Adar.

Examples From the Bible

Today you are going out, in **the month of Aviv**. (Exodus 13:4 ULT)

You must eat unleavened bread from evening of the fourteenth day **in the first month of the year**, until evening of the twenty-first day of the month. (Exodus 12:18 ULT)

Translation Strategies

You may need to make some information about the months explicit. (See [Assumed Knowledge and Implicit Information](#).)

(1) Tell the number of the Hebrew month.

(2) Use the names for months that people know.

(3) State clearly what season the month occurred in.

(4) Refer to the time in terms of the season rather than in terms of the Hebrew name of the month. (If possible, use a footnote to show the Hebrew month and day.)

Examples of Translation Strategies Applied

The examples below use these two verses.

At that time, you will appear before me in **the month of Aviv**, which is fixed for this purpose. It was in this month that you came out from Egypt. (Exodus 23:15b ULT)

It will always be a statute for you that in **the seventh month, on the tenth day of the month**, you must humble yourselves and do no work. (Leviticus 16:29a ULT)

(1) Tell the number of the Hebrew month.

At that time, you will appear before me in **the first month of the year**, which is fixed for this purpose. It was in this month that you came out from Egypt.

(2) Use the months that people know.

At that time, you will appear before me in **the month of March**, which is fixed for this purpose. It was in this month that you came out from Egypt.

It will always be a statute for you that **on the day I choose in late September** you must humble yourselves and do no work.

(3) State clearly what season the month occurs in.

It will always be a statute for you that **in the autumn, on the tenth day of the seventh month**, you must humble yourselves and do no work.

(4) Refer to the time in terms of the season rather than in terms of the month.

It will always be a statute for you that in **the day I choose in early autumn**¹ you must humble yourselves and do no work.

The footnote would look like:

^[1] The Hebrew says, "the seventh month, on the tenth day of the month."

How to Translate Names

Description

The Bible contains the names of many people, groups of people, and places. Some of these names may sound strange and be hard to say. Sometimes readers may not know what a name refers to, and sometimes they may need to understand what a name means. This page will help you see how you can translate these names and how you can help people understand what they need to know about them.

This page answers the question: *How can I translate names that are new to my culture?*

In order to understand this topic, it would be good to read:

[Translate Unknowns](#)

Meaning of names

Most names in the Bible have meaning. Most of the time, names in the Bible are used simply to identify the people and places they refer to, but sometimes the meaning of a name is especially important.

For this **Melchizedek**, king of Salem, priest of God Most High, was the one who met Abraham returning from the slaughter of the kings and blessed him. (Hebrews 7:1 ULT)

Here the writer uses the name “Melchizedek” primarily to refer to a man who had that name, and the title “king of Salem” tells us that he ruled over a certain city.

His name first indeed means “king of righteousness,” and then also “king of Salem,” that is, “king of peace.” (Hebrews 7:2b ULT)

Here the writer explains the meanings of Melchizedek’s name and title because those things tell us more about the person. Other times, the writer does not explain the meaning of a name because he expects the reader to already know the meaning. If the meaning of the name is important to understand the passage, you can include the meaning in the text or in a footnote.

Reasons This Is a Translation Issue

- Readers may not know some of the names in the Bible. They may not know whether a name refers to a person or place or something else.
- Readers may need to understand the meaning of a name in order to understand the passage.
- Some names may have different sounds or combinations of sounds that are not used in your language or are unpleasant to say in your language. For strategies to address this problem, see Borrow Words.
- Some people and places in the Bible have two names. Readers may not realize that two names refer to the same person or place.

Examples From the Bible

Then you crossed over the **Jordan** and came to **Jericho**, and the men of Jericho, and the **Amorites** ... fought against you, but I gave them into your hand. (Joshua 24:11 ULT)

Readers might not know that “Jordan” is the name of a river, “Jericho” is the name of a city, and “Amorites” is the name of a group of people.

She said, “Do I really continue to see, even after he has seen me?” Therefore, the well was called **Beer Lahai Roi**. (Genesis 16:13b-14a ULT)

Readers may not understand the second sentence if they do not know that “Beer Lahai Roi” means “Well of the Living One who sees me.”

And she called his name **Moses** and she said, “For out of the water I drew him.” (Exodus 2:10b ULT)

Readers may not understand why she said this if they do not know that the name Moses sounds like the Hebrew words “pull out.”

Saul was in agreement with his execution. (Acts 8:1a ULT)

But when the apostles, Barnabas and **Paul**, heard of it, they tore their clothing. (Acts 14:14a ULT)

Readers may not know that the names Saul and Paul refer to the same person.

Translation Strategies

(1) If readers cannot easily understand from the context what kind of a thing a name refers to, you can add a word to clarify it.

(2) If readers need to understand the meaning of a name in order to understand what is said about it, copy the name and tell about its meaning either in the text or in a footnote.

(3) Or if readers need to understand the meaning of a name in order to understand what is said about it, and that name is used only once, translate the meaning of the name instead of copying the name.

(4) If a person or place has two different names, use one name most of the time and the other name only when the text tells about the person or place having more than one name or when it says something about why the person or place was given that name. Write a footnote when the source text uses the name that is used less frequently.

(5) Or if a person or place has two different names, then use whatever name is given in the source text, and add a footnote that gives the other name.

Examples of Translation Strategies Applied

(1) If readers cannot easily understand from the context what kind of a thing a name refers to, you can add a word to clarify it.

You went over the **Jordan River** and came to the **city of Jericho**. The men of Jericho fought against you, along with **the tribe of the Amorites**.

At that hour, certain Pharisees approached, saying to him, “Leave and go away from here, because **Herod** wants to kill you.” (Luke 13:31 ULT)

At that hour, certain Pharisees approached, saying to him, “Go and leave here, because **King Herod** wants to kill you.”

(2) If readers need to understand the meaning of a name in order to understand what is said about it, copy the name and tell about its meaning either in the text or in a footnote.

And she called his name **Moses** and she said, “For out of the water I drew him.” (Exodus 2:10b ULT)

She called his name **Moses (which sounds like ‘drawn out’)**, and she said, “For out of the water I drew him.”

(3) Or if readers need to understand the meaning of a name in order to understand what is said about it, and that name is used only once, translate the meaning of the name instead of copying the name.

She said, “Do I really continue to see, even after he has seen me?”
Therefore, the well was called **Well of the Living One who sees me**.

(4) If a person or place has two different names, use one name most of the time and the other name only when the text tells about the person or place having more than one name or when it says something about why the person or place was given that name. Write a footnote when the source text uses the name that is used less frequently. For example, Paul is called “Saul” before Acts 13 and “Paul” after Acts 13. You could translate his name as “Paul” all of the time, except in Acts 13:9 where it talks about him having both names.

... a young man named **Saul**. (Acts 7:58b ULT)

... a young man named **Paul** 1

The footnote would look like:

[1] Most versions say “Saul” here, but most of the time in the Bible he is called “Paul.”

Then later in the story, you could translate this way:

But **Saul**, who is also called **Paul**, was filled with the Holy Spirit; (Acts 13:9)

But **Saul**, who is also called **Paul**, was filled with the Holy Spirit;

(5) Or if a person or place has two names, use whatever name is given in the source text, and add a footnote that gives the other name. For example, you could write “Saul” where the source text has “Saul” and “Paul” where the source text has “Paul.”

a young man named **Saul** (Acts 7:58 ULT)

a young man named **Saul**

The footnote would look like:

[1] This is the same man who is called Paul beginning in Acts 13.

Then later in the story, you could translate this way:

But **Saul**, who is also called **Paul**, was filled with the Holy Spirit; (Acts 13:9)

But **Saul**, who is also called **Paul**, was filled with the Holy Spirit;

Then after the story has explained the name change, you could translate this way.

It came about in Iconium that **Paul** and Barnabas entered together into the synagogue (Acts 14:1 ULT)

It came about in Iconium that **Paul**¹ and Barnabas entered together into the synagogue

The footnote would look like:

^[1] This is the same man who was called Saul before Acts 13.

Hyperbole

Description

A speaker or writer can use exactly the same words to say something that he means as completely true, or as generally true, or as a hyperbole. This is why it can be hard to decide how to understand a statement. For example, the sentence below could mean three different things.

It rains here every night.

The speaker means this as literally true if he means that it really does rain here every night.

The speaker means this as a **generalization** if he means that it rains here most nights.

The speaker means this as a **hyperbole** if he wants to say that it rains more than it actually does, usually in order to express a strong attitude toward the amount or frequency of rain, such as being annoyed or being happy about it.

This page answers the question: *What are hyperboles? What are generalizations? How can I translate them?*

In order to understand this topic, it would be good to read:

[\[\[rc://en/ta/man/translate/figs-intro\]\]](#)

Hyperbole

In hyperbole, a figure of speech that uses exaggeration, a speaker deliberately describes something with an extreme or even unreal statement, usually to show his strong feeling or opinion about it. He expects people to understand that he is exaggerating.

They will not leave **stone upon stone in you**. (Luke 19:44b ULT)

This is an exaggeration. It means that the enemies will completely destroy Jerusalem.

Moses was educated in **all the wisdom of the Egyptians**. (Acts 7:22a ULT)

This hyperbole means that he had learned everything an Egyptian education could offer.

Generalization

This is a statement that is true most of the time or in most situations that it could apply to.

The one who ignores instruction **will have poverty and shame**,
but **honor will come** to him who learns from correction. (Proverbs 13:18)

These generalizations tell about what normally happens to people who ignore instruction and what normally happens to people who learn from correction. There may be some exceptions to these statements, but they are generally true.

And when you pray, do not make useless repetitions as **the Gentiles do, for they think that they will be heard because of their many words**. (Matthew 6:7)

This generalization tells about what Gentiles were known for doing. Many Gentiles did this. It does not matter if a few did not. The point was that the hearers should not join in this well-known practice.

Even though a hyperbole or a generalization may have a strong-sounding word like "all," "always," "none," or "never," it does not necessarily mean **exactly** "all," "always," "none," or "never." It simply means "most," "most of the time," "hardly any," or "rarely."

Reason This Is a Translation Issue

Readers need to be able to understand whether or not a statement is literally true.

If readers realize that a statement is not literally true, they need to be able to understand whether it is a hyperbole, a generalization, or a lie. (Though the Bible is completely true, it tells about people who did not always tell the truth.)

Examples From the Bible

Examples of Hyperbole

If your hand causes you to stumble, **cut it off**. It is better for you to enter into life maimed ... (Mark 9:43a ULT)

When Jesus said to cut off your hand, he meant that we should **do whatever extreme things** we need to do in order not to sin. He used this hyperbole to show how extremely important it is to try to stop sinning.

The Philistines gathered together to fight against Israel with 3,000 chariots, 6,000 men to drive the chariots, and troops **as numerous as the sand on the seashore**. (1 Samuel 13:5a ULT)

The bolded phrase is an exaggeration for the purpose of expressing the emotion that the Philistine army was overwhelming in number. It means that there were **many, many** soldiers in the Philistine army.

But as his anointing teaches you **everything** and is true and is not a lie, and just as it has taught you, remain in him. (1 John 2:27b ULT)

This is a hyperbole. It expresses the assurance that God's Spirit teaches us about **all things that we need to know**. God's Spirit does not teach us about everything that it is possible to know.

When they found him, they also said to him, "**Everyone** is looking for you." (Mark 1:37 ULT)

The disciples probably did not mean that everyone in the city was looking for Jesus, but that **many people** were looking for him, or that all of Jesus' closest friends there were looking for him. This is an exaggeration for the purpose of expressing the emotion that they and many others were worried about him.

Examples of Generalization

Can **any good thing** come out of Nazareth? (John 1:46b ULT)

This rhetorical question is meant to express the generalization that there is nothing good in Nazareth. The people there had a reputation for being uneducated and not strictly religious. Of course, there were exceptions.

One of them, of their own prophets, has said, "**Cretans are always liars, evil beasts, lazy bellies**." (Titus 1:12 ULT)

This is a generalization that means that Cretans had a reputation to be like this because, in general, this is how Cretans behaved. It is possible that there were exceptions.

A lazy hand causes a person to be poor, but the hand of the diligent person gains riches. (Proverbs 10:4 ULT)

This is generally true, and it reflects the experience of most people. It is possible that there are exceptions in some circumstances.

Caution

- Do not assume that something is an exaggeration just because it seems to be impossible. God does miraculous things.

They saw Jesus **walking on the sea** and coming near the boat. (John 6:19b ULT)

This is not hyperbole. Jesus really walked on the water. It is a literal statement.

- Do not assume that the word “all” is always a generalization that means “most.”

> Yahweh is righteous in **all** his ways
> and gracious in **all** he does. (Psalms 145:17 ULT)

Yahweh is always righteous. This is a completely true statement.

Translation Strategies

If the hyperbole or generalization would be natural and people would understand it and not think that it is a lie, consider using it. If not, here are other options.

- (1) Express the meaning without the exaggeration.
- (2) For a generalization, show that it is a generalization by using a phrase like “in general” or “in most cases.”
- (3) For a hyperbole or a generalization, add a word like “many” or “almost” to show that the hyperbole or generalization is not meant to be exact.
- (4) For a hyperbole or a generalization that has a word like “all,” “always,” “none,” or “never,” consider deleting that word.

Idiom

An idiom is a figure of speech made up of a group of words that, as a whole, has a meaning that is different from what one would understand from the meanings of the individual words. Someone from outside of the culture usually cannot understand an idiom without someone inside the culture explaining its true meaning. Every language uses idioms. Some English examples are:

- You are pulling my leg. (This means, “You are teasing me by telling me something that is not true.”)
- Do not push the envelope. (This means, “Do not take a matter to its extreme.”)
- This house is under water. (This means, “The debt owed for this house is greater than its actual value.”)
- We are painting the town red. (This means, “We are going around town tonight celebrating very intensely.”)

This page answers the question: *What are idioms and how can I translate them?*

In order to understand this topic, it would be good to read:

[\[\[rc://en/ta/man/translate/figs-intro\]\]](#)

Description

An idiom is a phrase that has a special meaning to the people of the language or culture who use it. Its meaning is different than what a person would understand from the meanings of the individual words that form the phrase.

He **set his face** to go to Jerusalem. (Luke 9:51b ULT)

The words “set his face” is an idiom that means “decided.”

Sometimes people may be able to understand an idiom from another culture, but it might sound like a strange way to express the meaning.

I am not worthy that you would **come under my roof**. (Luke 7:6b ULT)

The phrase “come under my roof” is an idiom that means “enter my house.”

Put these words **into your ears**. (Luke 9:44a ULT)

This idiom means “Listen carefully and remember what I say.”

Purpose: An idiom is probably created in a culture somewhat by accident when someone describes something in an unusual way. But, when that unusual way communicates the message powerfully and people understand it clearly, other people start to use it. After a while, it becomes a normal way of talking in that language.

Reasons This Is a Translation Issue

- People can easily misunderstand idioms in the original languages of the Bible if they do not know the cultures that produced the Bible.
- People can easily misunderstand idioms that are in the source language Bibles if they do not know the cultures that made those translations.
- It is useless to translate idioms literally (according to the meaning of each word) when the target language audience will not understand what they mean.

Examples From the Bible

Then all Israel came to David at Hebron and said, “Look, we are your **flesh and bone**.” (1 Chronicles 11:1 ULT)

This means, “We and you belong to the same race, the same family.”

■ The children of Israel went out **with a high hand**. (Exodus 14:8b ASV)

This means, "The Israelites went out defiantly."

■ the one who **lifts up my head** (Psalm 3:3b ULT)

This means, "the one who helps me."

Translation Strategies

If the idiom would be clearly understood in your language, consider using it. If not, here are some other options.

- (1) Translate the meaning plainly without using an idiom.
- (2) Use a different idiom that people use in your own language that has the same meaning.

Introduction of a New Event

Description

When people tell a story, they tell about an event or a series of events. Often they put certain information at the beginning of the story, such as who the story is about, when it happened, and where it happened. This information that the writer gives before the events of the story begin is called the setting of the story. Some new events in a story also have a setting because they might involve new people, new times, and new places. In some languages, people also tell if they saw the event or heard about it from someone else.

This page answers the question: *How do we introduce a new event in a story?*

In order to understand this topic, it would be good to read:

[\[\[rc://en/ta/man/translate/writing-intro\]\]](#)

[\[\[rc://en/ta/man/translate/figs-events\]\]](#)

When your people tell about events, what information do they give at the beginning? Is there a certain order that they put it in? In your translation, you will need to follow the way your language introduces new information at the beginning of a story or a new event rather than the way the source language did that. In this way your translation will sound natural and communicate clearly in your language.

Examples From the Bible

In the days of Herod, king of Judea, **there was a certain priest named Zechariah**, from the division of Abijah. And **his wife was** from the daughters of Aaron, and her name was Elizabeth. (Luke 1:5 ULT)

The verses above introduce a story about Zechariah. The first bolded phrase tells when it happened, and the next two bolded phrases introduce the main people. The next two verses go on to explain that Zechariah and Elizabeth were old and did not have any children. All of this is the setting. Then the phrase “And it happened that” in Luke 1:8 helps to introduce the first event in this story:

And it happened that in his performing as priest before God, in the order of his division, according to the custom of the priesthood, he came up by lot to enter into the temple of the Lord to burn incense. (Luke 1:8-9 ULT)

The birth of Jesus Christ happened in the following way. His mother, Mary, was engaged to marry Joseph, but before they came together, she was found to be pregnant by the Holy Spirit. (Matthew 1:18 ULT)

The bolded sentence above makes it explicit that a story about Jesus is being introduced. The story will tell about how the birth of Jesus happened.

Now after Jesus was born in Bethlehem of Judea in the days of Herod the king, behold, learned men from the east arrived in Jerusalem. (Matthew 2:1 ULT)

The bolded phrase above shows that the events concerning the learned men happened **after** Jesus was born.

Now in those days John the Baptist came preaching in the wilderness of Judea. (Matthew 3:1-22 ULT)

The bolded phrase above shows that John the Baptist came preaching around the time of the previous events. It is probably very general and refers to when Jesus lived in Nazareth.

Then Jesus came from Galilee to the Jordan River to John, to be baptized by him. (Matthew 3:13 ULT)

The word “then” shows that Jesus came to the Jordan River some time after the events in the previous verses.

Now there was **a man from the Pharisees whose name was Nicodemus, a Jewish leader**.
This man came to Jesus at night. (John 3:1-2a ULT)

The author first introduced the new person and then told about what he did and when he did it. In some languages, it might be more natural to tell about the time first.

6 Noah was 600 years old when the flood came upon the earth. 7 Noah, his sons, his wife, and his sons' wives went into the ark together because of the waters of the flood. (Genesis 7:6-7 ULT)

Verse 6 is a statement of the events that happen in the rest of chapter 7. Chapter 6 already told about how God told Noah that there would be a flood, and how Noah prepared for it. Chapter 7 verse 6 introduces the part of the story that tells about Noah and his family and the animals going into the ship, the rain starting, and the rain flooding the earth. Some languages might need to make it clear that this verse simply introduces the event, or move this verse after verse 7. Verse 6 is not one of the events of the story. The people went into the ship before the flood came.

Translation Strategies

If the information given at the beginning of a new event is clear and natural to your readers, consider translating it as it is in the ULT or UST. If not, consider one of these strategies:

- (1) Put the information that introduces the event in the order that your people put it.
- (2) If readers would expect certain information but it is not in the Bible, consider using an indefinite word or phrase to fill in that information, such as: "another time" or "someone."
- (3) If the introduction is a summary of the whole event, use your language's way of showing that it is a summary.
- (4) If it would be strange in the target language to give a summary of the event at the beginning, indicate that the event would actually happen later in the story.

Examples of Translation Strategies Applied

- (1) Put the information that introduces the event in the order that your people put it.

Now there was **a man from the Pharisees whose name was Nicodemus, a Jewish leader**.
This man came to Jesus at night. (John 3:1-2a ULT)

There was a **man whose name was Nicodemus. He was a Pharisee and a member of the Jewish Council**. One night he came to Jesus.

One night **a man named Nicodemus, who was a Pharisee and a member of the Jewish Council**, came to Jesus.

As he passed by, **he saw Levi the son of Alpheus, sitting** at the tax collector's tent, and he said to him ... (Mark 2:14a ULT)

As he passed by, **Levi the son of Alpheus was sitting** at the tax collector's tent. Jesus saw him and said to him ...

As he passed by, **there was a man sitting** at the tax collector's tent. His name was Levi, and he was the son of Alpheus. Jesus saw him and said to him ...

As he passed by, **there was a tax collector** sitting at the tax collector's tent. His name was Levi, and he was the son of Alpheus. Jesus saw him and said to him ...

(2) If readers would expect certain information, but it is not in the Bible, consider using an indefinite word or phrase such as "another time," or "someone."

Noah was 600 years old when the flood came upon the earth. (Genesis 7:6 ULT) — If people expect to be told something about when the new event happened, the phrase "after that" can help them see that it happened after the events already mentioned.

After that, when Noah was 600 years old, the flood came upon the earth.

Again he began to teach beside the sea. (Mark 4:1a ULT) — In chapter 3 Jesus was teaching at someone's house. Readers may need to be told that this new event happened at another time, or that Jesus actually went to the sea.

Another time Jesus began to teach people again beside the sea.

Jesus went to the sea and **began to teach people again** there.

(3) If the introduction is a summary of the whole event, use your language's way of showing that it is a summary.

Noah was 600 years old when the flood came upon the earth. (Genesis 7:6 ULT)

Now this is what happened when Noah was 600 years old and the flood came upon the earth.

This part tells about what happened when the flood came upon the earth. It happened when Noah was 600 years old.

(4) If it would be strange in the target language to give a summary of the event at the beginning, show that the event will actually happen later in the story.

Noah was 600 years old when the flood came upon the earth. Noah, his sons, his wife, and his sons' wives went into the ark together because of the waters of the flood. (Genesis 7:6-7 ULT)

Now this is what happened when Noah was 600 years old. Noah, his sons, his wife, and his sons' wives went into the ark together because **God had said that the waters of the flood would come**.

Merism

Definition

Merism is a figure of speech in which a person refers to something by speaking of two extreme parts of it. By referring to the extreme parts, the speaker intends to include also everything in between those parts.

This page answers the question: *What does the word merism mean and how can I translate phrases that have it?*

In order to understand this topic, it would be good to read:

[\[\[rc://en/ta/man/translate/figs-intro\]\]](#)

"I am **the alpha and the omega**," says the Lord God,
"the one who is, and who was, and who is to come, the Almighty." (Revelation 1:8 ULT)

I am **the alpha and the omega, the first and the last, the beginning and the end**.
(Revelation 22:13, ULT)

Alpha and omega are the first and last letters of the Greek alphabet. This is a merism that includes everything from the beginning to the end. It means eternal.

... I praise you, Father, Lord of **heaven and earth** ..., (Matthew 11:25b ULT)

Heaven and earth is a merism that includes everything that exists.

Reason This is a Translation Issue

Some languages do not use merism. The readers of those languages may think that the phrase only applies to the items mentioned. They may not realize that it refers to those two things and everything in between.

Examples From the Bible

From the rising of the sun to its setting, Yahweh's name should be praised. (Psalm 113:3 ULT)

This bolded phrase is a merism because it speaks of the east and the west and everywhere in between. It means "everywhere."

He will bless those who honor him, both **young and old**. (Psalm 115:13)

The bolded phrase is merism because it speaks of old people and young people and everyone in between. It means "everyone."

Translation Strategies

If the merism would be natural and give the right meaning in your language, consider using it. If not, here are other options:

- (1) Identify what the merism refers to without mentioning the parts.
- (2) Identify what the merism refers to and include the parts.

Examples of Translation Strategies Applied

- (1) Identify what the merism refers to without mentioning the parts.

I praise you, Father, Lord of **heaven and earth**. (Matthew 11:25b ULT)

I praise you, Father, Lord of **everything**.

From the rising of the sun to its setting, Yahweh's name should be praised. (Psalm 113:3 ULT)

In all places, people should praise Yahweh's name.

(2) Identify what the merism refers to and include the parts.

I praise you, Father, Lord of **heaven and earth**. (Matthew 11:25b ULT)

I praise you, Father, Lord of **everything, including both what is in heaven and what is on earth**.

He will bless those who honor him, both **young and old**. (Psalm 115:13 ULT)

He will bless **all those** who honor him, regardless of whether they are **young or old**.

Metaphor

Description

A metaphor is a figure of speech in which someone speaks of one thing as if it were a different thing because he wants people to think about how those two things are alike.

For example, someone might say, “The girl I love is a red rose.”

A girl and a rose are very different things, but the speaker considers that they are alike in some way. The hearer’s task is to understand in what way they are alike.

This page answers the question: *What is a metaphor and how can I translate a Bible passage that has one?*

In order to understand this topic, it would be good to read:

[\[\[rc://en/ta/man/translate/figs-intro\]\]](#)

[Simile](#)

The Parts of a Metaphor

The example above shows us that a metaphor has three parts. In this metaphor, the speaker is talking about “the girl I love.” This is the **Topic**. The speaker wants the hearer to think about what is similar between her and “a red rose.” The red rose is the **Image** to which he compares the girl. Most probably, he wants the hearer to consider that they are both beautiful. This is the **Idea** that the girl and the rose both share, and so we may also call it the **Point of Comparison**.

Every metaphor has three parts:

- The **Topic**, the item being immediately discussed by the writer/speaker.
- The **Image**, the physical item (object, event, action, etc.) which the speaker uses to describe the topic.
- The **Idea**, the abstract concept or quality that the physical **Image** brings to the mind of the hearer when he thinks of how the **Image** and the **Topic** are similar. Often, the **Idea** of a metaphor is not explicitly stated in the Bible, but it is only implied from the context. The hearer or reader usually needs to think of the **Idea** himself.

Using these terms, we can say that a metaphor is a figure of speech that uses a physical **Image** to apply an abstract **Idea** to the speaker’s **Topic**.

Usually, a writer or speaker uses a metaphor in order to express something about a **Topic**, with at least one **Point of Comparison (Idea)** between the **Topic** and the **Image**. Often in metaphors, the **Topic** and the **Image** are explicitly stated, but the **Idea** is only implied. The writer/speaker often uses a metaphor in order to invite the readers/listeners to think about the similarity between the **Topic** and the **Image** and to figure out for themselves the **Idea** that is being communicated.

Speakers often use metaphors in order to strengthen their message, to make their language more vivid, to express their feelings better, to say something that is hard to say in any other way, or to help people remember their message.

Sometimes speakers use metaphors that are very common in their language. However, sometimes speakers use metaphors that are uncommon, and even some metaphors that are unique. When a metaphor has become very common in a language, often it becomes a “passive” metaphor, in contrast to uncommon metaphors, which we describe as being “active.” Passive metaphors and active metaphors each present a different kind of translation problem, which we will discuss below.

Passive Metaphors

A passive metaphor is a metaphor that has been used so much in the language that its speakers no longer regard it as one concept standing for another. Linguists often call these “dead metaphors.” Passive metaphors are extremely common. Examples in English include the terms “table **leg**,” “family **tree**,” “book **leaf**” (meaning a page in

a book), or the word “crane” (meaning a large machine for lifting heavy loads). English speakers simply think of these words as having more than one meaning. Examples of passive metaphors in Biblical Hebrew include using the word “hand” to represent “power,” using the word “face” to represent “presence,” and speaking of emotions or moral qualities as if they were “clothing.”

Patterned Pairs of Concepts Acting as Metaphors

Many ways of metaphorical speaking depend on pairs of concepts, where one underlying concept frequently stands for a different underlying concept. For example, in English, the direction “up” (the Image) often represents the concepts of “more” or “better” (the Idea). Because of this pair of underlying concepts, we can make sentences such as “The price of gasoline is going **up**,” “A **highly** intelligent man,” and also the opposite kind of idea: “The temperature is going **down**,” and “I am feeling very **low**.”

Patterned pairs of concepts are constantly used for metaphorical purposes in the world’s languages because they serve as convenient ways to organize thought. In general, people like to speak of abstract qualities (such as power, presence, emotions, and moral qualities) as if they were body parts, or as if they were objects that could be seen or held, or as if they were events that could be watched as they happened.

When these metaphors are used in normal ways, it is rare that the speaker and audience regard them as figurative speech. Examples of metaphors in English that go unrecognized are:

- “Turn the heat **up**.” More is spoken of as up.
- “Let us **go ahead** with our debate.” Doing what was planned is spoken of as walking or advancing.
- “You **defend** your theory well.” Argument is spoken of as war.
- “A **flow** of words.” Words are spoken of as liquids.

English speakers do not view these as metaphorical expressions or figures of speech, so it would be wrong to translate them into other languages in a way that would lead people to pay special attention to them as figurative speech. For a description of important patterns of this kind of metaphor in biblical languages, please see Biblical Imagery — Common Patterns and the pages it will direct you to.

When translating something that is a passive metaphor into another language, do not treat it as a metaphor. Instead, just use the best expression for that thing or concept in the target language.

Active Metaphors

These are metaphors that people recognize as one concept standing for another concept, or one thing for another thing. Metaphors make people think about how the one thing is like the other thing, because in most ways the two things are very different. People also easily recognize these metaphors as giving strength and unusual qualities to the message. For this reason, people pay attention to these metaphors. For example,

But for you who fear my name, the sun of righteousness will rise with healing in its wings.
(Malachi 4:2a ULT)

Here, God speaks about his salvation as if it were the sun rising in order to shine its rays on the people whom he loves. He also speaks of the sun’s rays as if they were wings. Also, he speaks of these wings as if they were bringing medicine that would heal his people. Here is another example:

And he said to them, “Go and tell that fox ...” (Luke 13:32a ULT)

Here, “that fox” refers to King Herod. The people listening to Jesus certainly understood that Jesus was intending for them to apply certain characteristics of a fox to Herod. They probably understood that Jesus intended to communicate that Herod was evil, either in a cunning way or as someone who was destructive, murderous, or who took things that did not belong to him, or all of these.

Active metaphors require the translator's special care to make a correct translation. To do so, you need to understand the parts of a metaphor and how they work together to produce meaning.

Jesus said to them, "I am the bread of life; he who comes to me will not be hungry, and he who believes in me will never be thirsty." (John 6:35 ULT)

In this metaphor, Jesus called himself the bread of life. The **Topic** is "I" (meaning Jesus himself) and the **Image** is "bread." Bread was the primary food that people ate in that place and time. The similarity between bread and Jesus is that people need both to live. Just as people need to eat food in order to have physical life, people need to trust in Jesus in order to have eternal life. The **Idea** of the metaphor is "life." In this case, Jesus stated the central Idea of the metaphor, but often the Idea is only implied.

Purposes of Metaphor

- One purpose of metaphor is to teach people about something that they do not know (the **Topic**) by showing that it is like something that they already do know (the **Image**).
- Another purpose is to emphasize that something (the **Topic**) has a particular quality (the **Idea**) or to show that it has that quality in an extreme way.
- Another purpose is to lead people to feel the same way about the **Topic** as they would feel about the **Image**.

Reasons This Is a Translation Issue

- People may not recognize that something is a metaphor. In other words, they may mistake a metaphor for a literal statement, and thus, misunderstand it.
- People may not be familiar with the thing that is used as an image, and so, not be able to understand the metaphor.
- If the topic is not stated, people may not know what the topic is.
- People may not know the points of comparison that the speaker wants them to understand. If they fail to think of these points of comparison, they will not understand the metaphor.
- People may think that they understand the metaphor, but they do not. This can happen when they apply points of comparison from their own culture, rather than from the biblical culture.

Translation Principles

- Make the meaning of a metaphor as clear to the target audience as it was to the original audience.
- Do not make the meaning of a metaphor more clear to the target audience than you think it was to the original audience.

Examples From the Bible

Listen to this word, **you cows of Bashan**, (Amos 4:1q ULT)

In this metaphor Amos speaks to the upper-class women of Samaria ("you," the Topic) as if they were cows (the Image). Amos does not say what similarity(s) he intends between these women and cows. He wants the reader to think of them, and he fully expects that readers from his culture will easily do so. From the context, we can see that he means that the women are like cows in that they are fat and interested only in feeding themselves. If we were to apply similarities from a different culture, such as that cows are sacred and should be worshiped, we would get the wrong meaning from this verse.

NOTE: Amos does not actually mean that the women are cows. He speaks to them as human beings.

Yet, Yahweh, you are our father; **we are the clay. You are our potter**; and we all are the work of your hand. (Isaiah 64:8 ULT)

The example above has two related metaphors. The Topic(s) are “we” and “you,” and the Image(s) are “clay” and “potter.” The similarity between a potter and God is the fact that both make what they wish out of their material. The potter makes what he wishes out of the clay, and God makes what he wishes out of his people. The Idea being expressed by the comparison between the potter’s clay and “us” is that **neither the clay nor God’s people have a right to complain about what they are becoming**.

Jesus said to them, “Take heed and beware of **the yeast of the Pharisees and Sadducees**.” The disciples reasoned among themselves and said, “It is because we did not take bread.” (Matthew 16:6-7 ULT)

Jesus used a metaphor here, but his disciples did not realize it. When he said “yeast,” they thought he was talking about bread, but “yeast” was the Image in his metaphor, and the Topic was the teaching of the Pharisees and Sadducees. Since the disciples (the original audience) did not understand what Jesus meant, it would not be good to state clearly here what Jesus meant.

Translation Strategies

If people would understand the metaphor in the same way that the original readers would have understood it, go ahead and use it. Be sure to test the translation to make sure that people do understand it in the right way.

If people do not or would not understand it, here are some other strategies.

- (1) If the metaphor is a common expression in the source language or expresses a patterned pair of concepts in a biblical language (that is, it is a passive metaphor), then express the **Idea** in the simplest way preferred by your language.
- (2) If the metaphor seems to be an active metaphor, you can translate it literally **if you think that the target language also uses this metaphor in the same way to mean the same thing as in the Bible**. If you do this, be sure to test it to make sure that the language community understands it correctly.
- (3) If the target audience does not realize that it is a metaphor, then change the metaphor to a simile. Some languages do this by adding words such as “like” or “as.” See [Simile](#).
- (4) If the target audience would not know the **Image**, see [Translate Unknowns](#) for ideas on how to translate that image.
- (5) If the target audience would not use that **Image** for that meaning, use an image from your own culture instead. Be sure that it is an image that could have been possible in Bible times.
- (6) If the target audience would not know what the **Topic** is, then state the topic clearly. (However, do not do this if the original audience did not know what the Topic was.)
- (7) If the target audience would not know the intended similarity (the **Idea**) between the topic and the image, then state it clearly.
- (8) If none of these strategies is satisfactory, then simply state the **Idea** plainly without using a metaphor.

Examples of Translation Strategies Applied

(1) If the metaphor is a common expression in the source language or expresses a patterned pair of concepts in a biblical language (that is, a passive metaphor), then express the Idea in the simplest way preferred by your language.

Then, see, one of the leaders of the synagogue, named Jairus, came, and when he saw him, **fell at his feet**. (Mark 5:22 ULT)

Then one of the leaders of the synagogue, named Jairus, came, and when he saw him, **immediately bowed down in front of him**.

(2) If the metaphor seems to be an active metaphor, you can translate it literally **if you think that the target language also uses this metaphor in the same way to mean the same thing as in the Bible**. If you do this, be sure to test it to make sure that the language community understands it correctly.

But Jesus said to them, "He wrote this commandment to you because of your **hardness of heart**." (Mark 10:5 ULT)

It was because of your **hard hearts** that he wrote you this law.

We made no change to this one, but it must be tested to make sure that the target audience correctly understands this metaphor.

(3) If the target audience does not realize that it is a metaphor, then change the metaphor to a simile. Some languages do this by adding words such as "like" or "as."

Yet, Yahweh, you are our father; we **are the clay**. You **are our potter**; and we all are the work of your hand. (Isaiah 64:8 ULT)

And yet, Yahweh, you are our father; we are **like** clay. You are **like** a potter; and we all are the work of your hand.

(4) If the target audience would not know the **Image**, see [Translate Unknowns](#) for ideas on how to translate that image.

Saul, Saul, why do you persecute me? It is hard for you **to kick against a goad**. (Acts 26:14b ULT)

Saul, Saul, why do you persecute me? It is hard for you to **kick against a pointed stick**.

(5) If the target audience would not use that **Image** for that meaning, use an image from your own culture instead. Be sure that it is an image that could have been possible in Bible times.

Yet, Yahweh, you are our father; we are the **clay**. You are our **potter**; and we all are the work of your hand. (Isaiah 64:8 ULT)

"And yet, Yahweh, you are our father; we are the **wood**. You are our **carver**; and we all are the work of your hand."

"And yet, Yahweh, you are our father; we are the **string**. You are the **weaver**; and we all are the work of your hand."

(6) If the target audience would not know what the **Topic** is, then state the topic clearly. (However, do not do this if the original audience did not know what the topic was.)

Yahweh lives; may **my rock** be praised. May the God of my salvation be exalted. (Psalm 18:46 ULT)

Yahweh lives; **He is my rock**. May he be praised. May the God of my salvation be exalted.

(7) If the target audience would not know the intended similarity between the Topic and the Image, then state it clearly.

Yahweh lives; may **my rock** be praised. May the God of my salvation be exalted. (Psalm 18:46 ULT)

Yahweh lives; may he be praised because he is the rock **under which I can hide from my enemies**. May the God of my salvation be exalted.

Saul, Saul, why do you persecute me? It is hard for you **to kick against a goad**. (Acts 26:14 ULT)

Saul, Saul, why do you persecute me? You **fight against me and hurt yourself like an ox that kicks against its owner's pointed stick**.

(8) If none of these strategies are satisfactory, then simply state the idea plainly without using a metaphor.

I will make you to become **fishers of men**. (Mark 1:17b ULT)

I will make you to become **people who gather men**.
Now you gather fish. I will make you **gather people**.

Metonymy

Description

Metonymy is a figure of speech in which an item (either physical or abstract) is called not by its own name, but by the name of something closely associated with it. A metonym is a word or phrase used as a substitute for something that it is associated with.

This page answers the question: *What is a metonymy?*

In order to understand this topic, it would be good to read:

[\[\[rc://en/ta/man/translate/figs-intro\]\]](#)

... and **the blood** of Jesus his Son cleanses us from every sin. (1 John 1:7b ULT)

The blood represents Christ's death.

And he took **the cup** in the same way after supper, saying, "**This cup** is the new covenant in my blood, which is poured out for you." (Luke 22:20 ULT)

The cup represents the wine that is in the cup.

Metonymy can be used

- as a shorter way of referring to something
- to make an abstract idea more meaningful by referring to it with the name of a physical object associated with it

Reason This Is a Translation Issue

The Bible uses metonymy very often. Speakers of some languages are not familiar with metonymy and they may not recognize it when they read it in the Bible. If they do not recognize the metonymy, they will not understand the passage or, worse yet, they will get a wrong understanding of the passage. Whenever a metonym is used, people need to be able to understand what it represents.

Examples From the Bible

The Lord God will give to him **the throne** of his father David. (Luke 1:32b ULT)

A throne represents the authority of a king. "Throne" is a metonym for "kingly authority," "kingship," or "reign." This means that God would make him become a king who would follow King David.

Then immediately his **mouth** was opened (Luke 1:64a ULT)

The mouth here represents the power to speak. This means that he was able to talk again.

Who warned you to flee from **the wrath** that is coming? (Luke 3:7b ULT)

The word "wrath" or "anger" is a metonym for "punishment." God was extremely angry with the people and, as a result, he would punish them.

Translation Strategies

If people would easily understand the metonym, consider using it. Otherwise, here are some options.

- (1) Use the metonym along with the name of the thing it represents.
- (2) Use only the name of the thing the metonym represents.

Examples of Translation Strategies Applied

- (1) Use the metonym along with the name of the thing it represents.

And he took the cup in the same way after the supper, saying, “**This cup** is the new covenant in my blood, which is poured out for you.” (Luke 22:20 ULT)

He took the cup in the same way after supper, saying, “**The wine in this cup** is the new covenant in my blood, which is poured out for you.”

This verse also contains a second metonym: The cup, (representing the wine it contains) also represents the new covenant made with the blood Christ shed for us.

- (2) Use the name of the thing the metonym represents.

The Lord God will give him **the throne** of his father David. (Luke 1:32b ULT)

“The Lord God will give him **the kingly authority** of his father, David.”

or:

“The Lord God will **make him king** like his ancestor, King David.”

Who warned you to flee from **the wrath** that is coming? (Luke 3:7b ULT)

“Who warned you to flee from God’s coming **punishment**?”

Nominal Adjectives

Description

In some languages an adjective can be used to refer to a class of things that the adjective describes. When it does, it acts like a noun. For example, the word “rich” is an adjective. Here are two sentences that show that “rich” is an adjective.

The rich man had huge numbers of flocks and herds.
(2 Samuel 12:2 ULT)

The adjective “rich” comes before the word “man” and describes “man.”

He will not be rich; his wealth will not last. (Job 15:29a ULT)

The adjective “rich” comes after the verb “be” and describes “He.”

Here is a sentence that shows that “rich” can also function as a noun.

The rich must not give more than the half shekel, and **the poor** must not give less. (Exodus 30:15b ULT)

In Exodus 30:15, the word “rich” acts as a noun in the phrase “the rich,” and it refers to rich people. The word “poor” also acts as a noun and refers to poor people.

This page answers the question: *How do I translate adjectives that act like nouns?*

Reason This Is a Translation Issue

- Many times in the Bible adjectives are used as nouns to describe a group of people.
- Some languages do not use adjectives in this way.
- Readers of these languages may think that the text is talking about one particular person when it is really talking about the group of people whom the adjective describes.

Examples From the Bible

The scepter of wickedness must not rule in the land of **the righteous**. (Psalms 125:3a ULT)

“The righteous” here are people who are righteous, not one particular righteous person.

Blessed are **the meek**. (Matthew 5:5a ULT)

“The meek” here are all people who are meek, not one particular meek person.

Translation Strategies

If your language uses adjectives as nouns to refer to a class of people, consider using the adjectives in this way. If it would sound strange, or if the meaning would be unclear or wrong, here is another option:

- (1) Use the adjective with a plural form of the noun that the adjective describes.

Examples of Translation Strategies Applied

- (1) Use the adjective with a plural form of the noun that the adjective describes.

Numbers

Description

There are many numbers in the Bible. They can be written as words ("five") or as numerals ("5"). Some numbers are very large, such as "two hundred" (200), "twenty-two thousand" (22,000), or "one hundred million" (100,000,000). Some languages do not have words for all of these numbers. Translators need to decide how to translate numbers and whether to write them as words or numerals.

This page answers the question: *How do I translate numbers?*

In order to understand this topic, it would be good to read:

[Translate Unknowns](#)

Some numbers are exact and others are rounded.

Abram was **86** years old when Hagar bore Ishmael to Abram. (Genesis 16:16 ULT)

Eighty-six (86) is an exact number.

That day about **3,000** of the people died. (Exodus 32:28b ULT)

Here the number three thousand (3,000) is a round number. It may have been a little more than that or a little less than that. The word "about" shows that it is not an exact number.

Reason This Is a Translation Issue

Some languages do not have words for some of these numbers.

Translation Principles

- Exact numbers should be translated as closely and specifically as they can be.
- Rounded numbers can be translated more generally.

Examples From the Bible

When Jared had lived **162** years, he became the father of Enoch. After he became the father of Enoch, Jared lived **800** years. He became the father of more sons and daughters. Jared lived **962** years, and then he died. (Genesis 5:18-20 ULT)

The numbers 162, 800, and 962 are exact numbers and should be translated with something as close to those numbers as possible.

Our sister, may you be the mother of **thousands of ten thousands**. (Genesis 24:60b ULT)

This is a rounded number. It does not say exactly how many descendants she should have, but it was a huge number of them.

Translation Strategies

- (1) Write numbers using numerals.
- (2) Write numbers using your language's words or the Gateway Language words for those numbers.
- (3) Write numbers using words, and put the numerals in parentheses after them.

(4) Combine words for large numbers.

(5) Use a very general expression for very large rounded numbers and write the numeral in parentheses afterward.

Examples of Translation Strategies Applied

We will use the following verse in our examples:

Now, see, at great effort I have prepared for Yahweh's house **100,000** talents of gold, **1,000,000** talents of silver, and bronze and iron in large quantities. (1 Chronicles 22:14a ULT)

(1) Write numbers using numerals.

I have prepared for Yahweh's house **100,000** talents of gold, **1,000,000** talents of silver, and bronze and iron in large quantities.

(2) Write numbers using your language's words or the Gateway Language words for those numbers.

I have prepared for Yahweh's house **one hundred thousand** talents of gold, **one million** talents of silver, and bronze and iron in large quantities.

(3) Write numbers using words, and put the numerals in parenthesis after them.

I have prepared for Yahweh's house one **hundred thousand (100,000)** talents of gold, **one million (1,000,000)** talents of silver, and bronze and iron in large quantities.

(4) Combine words for large numbers.

I have prepared for Yahweh's house **one hundred thousand** talents of gold, **a thousand thousand** talents of silver, and bronze and iron in large quantities.

(5) Use a very general expression for very large rounded numbers and write the numeral in parentheses afterward.

I have prepared for Yahweh's house **a great amount of gold (100,000 talents), ten times that amount of silver (1,000,000 talents)**, and bronze and iron in large quantities.

Consistency

Be consistent in your translations. Decide how the numbers will be translated, using numbers or numerals. There are different ways of being consistent.

- Use words to represent numbers all of the time. (You might have very long words.)
- Use numerals to represent numbers all of the time.
- Use words to represent the numbers that your language has words for and use numerals for the numbers that your language does not have words for.
- Use words for low numbers and numerals for high numbers.
- Use words for numbers that require few words and numerals for numbers that require more than a few words.
- Use words to represent numbers, and write the numerals in parentheses after them.

Consistency in the ULT and UST

The *unfoldingWord® Literal Text* (ULT) and the *unfoldingWord® Simplified Text* (UST) use words for the numbers one through ten and use numerals for all numbers above ten.

When Adam had lived **130** years, he became the father of a son in his own likeness, after his image, and he called his name Seth. After Adam became the father of Seth, he lived **800** years. He became the father of more sons and daughters. Adam lived **930** years, and then he died.

Ordinal Numbers

Description

Ordinal numbers are used in the Bible mainly to tell the position of something in a list.

And God has indeed appointed some in the church, **first** apostles, **second** prophets, **third** teachers, then miracles. (1 Corinthians 12:28a ULT)

This page answers the question: *What are ordinal numbers and how can I translate them?*

In order to understand this topic, it would be good to read:

[Numbers](#)

This is a list of workers that God gave to the church in their order.

Ordinal Numbers in English

Most ordinal numbers in English simply have “-th” added to the end.

Numeral	Number	Ordinal Number
4	four	fourth
10	ten	tenth
100	one hundred	one hundredth
1,000	one thousand	one thousandth

Some ordinal numbers in English do not follow that pattern.

Numeral	Number	Ordinal Number
1	one	first
2	two	second
3	three	third
5	five	fifth
12	twelve	twelfth

Reason This Is a Translation Issue

Some languages do not have special numbers for showing the order of items in a list. There are different ways to deal with this.

Examples From the Bible

The **first** lot went to Jehoiarib, the **second** to Jedaiah, the **third** to Harim, the **fourth** to Seorim ... the **twenty-third** to Delaiah, and the **twenty-fourth** to Maaziah. (1 Chronicles 24:7-18 ULT)

The people cast lots and one went to each of these people in the order given.

You must place in it four rows of precious stones. The **first** row must have a ruby, a topaz, and a garnet. The **second** row must have an emerald, a sapphire, and a diamond. The **third** row must have a jacinth, an agate, and an amethyst. The **fourth** row must have a beryl, and an onyx, and a jasper. They must be mounted in gold settings. (Exodus 28:17-20 ULT)

This describes four rows of stones. The first row is probably the top row, and the fourth row is probably the bottom row.

Translation Strategies

If your language has ordinal numbers and using them would give the right meaning, consider using them. If not, here are some strategies to consider:

- (1) Use “one” with the first item and “another” or “the next” with the rest.
- (2) Tell the total number of items and then list them or the things associated with them.

Examples of Translation Strategies Applied

Parallelism

Description

Parallelism is a poetic device in which two phrases or clauses that are similar in structure or idea are used together. The following are some of the different kinds of parallelism.

- The second clause or phrase means the same as the first. This is called synonymous parallelism.
- The second clarifies or strengthens the meaning of the first.
- The second completes what is said in the first.
- The second says something that contrasts with the first, but adds to the same idea.

Parallelism is most commonly found in Old Testament poetry, such as in the books of Psalms and Proverbs. It also occurs in Greek in the New Testament, both in the four gospels and in the apostles' letters.

This article will only discuss synonymous parallelism, the kind in which the two parallel phrases mean the same thing, because that is the kind that presents a problem for translation. Note that we use the term "synonymous parallelism" for long phrases or clauses that have the same meaning. We use the term "doublet" for words or very short phrases that mean basically the same thing and are used together.

In the poetry of the original languages, synonymous parallelism has several effects:

- It shows that something is very important by saying it more than once and in more than one way.
- It helps the hearer to think more deeply about the idea by saying it in different ways.
- It makes the language more beautiful and raises it above the ordinary way of speaking.

Reason This Is a Translation Issue

Some languages would not use synonymous parallelism. They would either think it odd that someone said the same thing twice, or, since it is in the Bible, they would think that the two phrases must have some difference in meaning. For them it would be confusing, rather than beautiful. They would not understand that the repetition of the idea in different words serves to emphasize the idea.

Examples From the Bible

Your word is a lamp to my feet
and a light for my path. (Psalm 119:105 ULT)

Both parts of the sentence are metaphors saying that God's word teaches people how to live. That is the single idea. The words "lamp" and "light" are similar in meaning because they refer to light. The words "my feet" and "my path" are related because they refer to a person walking. Walking is a metaphor for living.

You make him to rule over the works of your hands;
you have put all things under his feet (Psalm 8:6 ULT)

Both lines say that God made man the ruler of everything. "To rule over" is the same idea as putting things "under his feet," and "the works of your [God's] hands" is the same idea as "all things."

This page answers the question: *What is parallelism?*

In order to understand this topic, it would be good to read:

[[rc://en/ta/man/translate/figs-intro]]

Yahweh sees everything a person does
and watches all the paths he takes. (Proverbs 5:21 ULT)

The first phrase and the second phrase mean the same thing. There are three ideas that are the same between these two phrases. "Sees" corresponds to "watches," "everything...does" corresponds to "all the paths...takes," and "a person" corresponds to "he."

Praise Yahweh, all you nations;
exalt him, all you peoples! (Psalm 117:1 ULT)

Both parts of this verse tell people everywhere to praise Yahweh. The words 'Praise' and 'exalt' mean the same thing. The words 'Yahweh' and 'him' refer to the same person. The terms 'all you nations' and 'all you peoples' refer to the same people.

For Yahweh has a lawsuit with his people,
and he will fight in court against Israel. (Micah 6:2b ULT)

The two parts of this verse say that Yahweh has a serious disagreement with his people, Israel. These are not two different disagreements or two different groups of people.

Translation Strategies

For most kinds of parallelism, it is good to translate both of the clauses or phrases. For synonymous parallelism, it is good to translate both clauses if people in your language understand that the purpose of saying something twice is to strengthen a single idea. But if your language does not use parallelism in this way, then consider using one of the following translation strategies.

- (1) Combine the ideas of both clauses into one.
- (2) If it appears that the clauses are used together to show that what they say is really true, you could combine the ideas of both clauses into one and include words that emphasize the truth such as "truly" or "certainly."
- (3) If it appears that the clauses are used together to intensify an idea in them, you could combine the ideas of both clauses into one and use words like "very," "completely," or "all."

Examples of Translation Strategies Applied

- (1) Combine the ideas of both clauses into one.

Until now you have dealt deceitfully with me and you have spoken lies to me. (Judges 16:13, ULT)

Delilah expressed this idea twice to emphasize that she was very upset.

Until now you have deceived me with your lies.

Yahweh sees everything a person does and watches all the paths he takes. (Proverbs 5:21 ULT)

The phrase "all the paths he takes" is a metaphor for "all he does."

Yahweh pays attention to everything a person does.

For Yahweh has a lawsuit with his people, and he will fight in court against Israel. (Micah 6:2 ULT)

This parallelism describes one serious disagreement that Yahweh had with one group of people. If this is unclear, the phrases can be combined:

For Yahweh has a lawsuit with his people, Israel.

(2) If it appears that the clauses are used together to show that what they say is really true, you could combine the ideas of both clauses into one and include words that emphasize the truth such as “truly” or “certainly.”

Yahweh sees everything a person does and watches all the paths he takes. (Proverbs 5:21 ULT)

Yahweh truly sees everything a person does.

You make him to rule over the works of your hands; you have put all things under his feet
(Psalm 8:6 ULT)

You have certainly made him to rule over everything that you have created.

(3) If it appears that the clauses are used together to intensify an idea in them, you could combine the ideas of both clauses into one and use words like “very,” “completely” or “all.”

Until now you have dealt deceitfully with me and you have spoken lies to me. (Judges 16:13, ULT)

All you have done is lie to me.

Yahweh sees everything a person does and watches all the paths he takes. (Proverbs 5:21 ULT)

Yahweh sees absolutely everything that a person does.

Personification

Description

Personification is a figure of speech in which someone speaks of something as if it could do things that animals or people can do. People often do this because it makes it easier to talk about things that we cannot see:

Such as wisdom:

Does not Wisdom call out? (Proverbs 8:1a ULT)

Or sin:

Sin crouches at the door. (Genesis 4:7b ULT)

People also use personification because it is sometimes easier to talk about people's relationships with non-human things such as wealth as if they were relationships between people.

You cannot serve God and wealth. (Matthew 6:24b ULT)

In each case, the purpose of the personification is to highlight a certain characteristic of the non-human thing. As in metaphor, the reader needs to think of the way that the thing is like a certain kind of person.

Reasons This Is a Translation Issue

- Some languages do not use personification.
- Some languages use personification only in certain situations.

Examples From the Bible

You cannot **serve** God and wealth. (Matthew 6:24b ULT)

Jesus speaks of wealth as if it were a master whom people might serve. Loving money and basing one's decisions on it is like serving it as a slave would serve his master.

Does not Wisdom **call** out? Does not Understanding **raise her voice**? (Proverbs 8:1 ULT)

The author speaks of wisdom and understanding as if they were woman who calls out to teach people. This means that they are not something hidden, but something obvious that people should pay attention to.

Translation Strategies

If the personification would be understood clearly, consider using it. If it would not be understood, here are some other ways for translating it.

- (1) Add words or phrases to make the human (or animal) characteristic clear.
- (2) In addition to Strategy (1), use words such as "like" or "as" to show that the sentence is not to be understood literally.
- (3) Find a way to translate it without the personification.

Examples of Translation Strategies Applied

(1) Add words or phrases to make the human (or animal) characteristic clear.

Sin crouches at the door. (Genesis 4:7b ULT) — God speaks of sin as if it were a wild animal that is waiting for the chance to attack. This shows how dangerous sin is. An additional phrase can be added to make this danger clear.

Sin is at your door, **waiting to attack you**.

(2) In addition to Strategy (1), use words such as “like” or “as” to show that the sentence is not to be understood literally.

Sin crouches at the door. (Genesis 4:7b ULT) — This can be translated with the word “as.”

Sin is crouching at the door, **just as a wild animal does as it waits to attack a person..**

(3) Find a way to translate it without the personification.

Even the **winds and the sea obey him**. (Matthew 8:27b ULT) — The men speak of the “wind and the sea” as if they are able to hear and obey Jesus, just as people can. This could also be translated without the idea of obedience by speaking of Jesus controlling them.

He even **controls the winds and the sea**.

NOTE: We have broadened our definition of “personification” to include “zoomorphism” (speaking of other things as if they had animal characteristics) and “anthropomorphism” (speaking of non-human things as if they had human characteristics) because the translation strategies for them are the same.

Poetry

Description

Poetry is one of the ways that people use the words and sounds of their language to make their speech and writing more beautiful and to express strong emotion. Through poetry, people can communicate deeper emotion than they can through simple non-poetic forms. Poetry gives more weight and elegance to statements of truth, such as proverbs, and is also easier to remember than ordinary speech.

This page answers the question: *What is poetry and how do I translate it into my language?*

In order to understand this topic, it would be good to read:

[\[\[rc://en/ta/man/translate/figs-intro\]\]](#)

[\[\[rc://en/ta/man/translate/writing-intro\]\]](#)

In poetry we commonly find:

- many figures of speech such as Apostrophe
- arrangements of clauses into particular patterns such as:
 - parallel lines (See [Parallelism](#))
 - acrostics (beginning lines with successive letters of the alphabet)
 - chiasms (in which the first line relates to the last line, the second to the next-to-last line, etc.):
 - > You should not give what is holy to the dogs,
 - >
 - >> and should not throw your pearls in front of the pigs.
 - >>
 - >> Otherwise they will trample them under their feet,
 - >
 - > and having turned, they might tear you to pieces. (Matt 7:6 ULT)

- repetition of some or all of a line:

Praise him, all his angels; praise him, all his hosts. Praise him, sun and moon; praise him, all you shining stars. (Psalm 148:2-3 ULT)

- lines of similar length:

Listen to my call to you,
Yahweh; think about my groanings.
Listen to the sound of my call, my King and my God,
for it is to you that I pray. (Psalm 5:1-2 ULT)

- the same sound used at the end or at the beginning of two or more lines:

“Twinkle, twinkle little **star**. How I wonder what you **are**.” (from an English rhyme)

- the same sound repeated many times:

“Peter, Peter, pumpkin eater” (from an English rhyme)

We also find:

- old words and expressions
- dramatic imagery
- different use of grammar — including:
 - incomplete sentences

- lack of connective words

Some places to look for poetry in your language

Songs, particularly old songs or songs used in children's games
Religious ceremony or chants of priests or witch doctors
Prayers, blessings, and curses
Old legends

Elegant or fancy speech

Elegant or fancy speech is similar to poetry in that it uses beautiful language, but it does not use all of the language's features of poetry, and it does not use them as much as poetry does. Popular speakers in the language often use elegant speech, and this is probably the easiest source of text to study to find out what makes speech elegant in your language.

Reasons This Is a Translation Issue:

- Different languages use poetry for different things. If a poetic form would not communicate the same meaning in your language, you may need to write it without the poetry.
- Different languages use different poetic devices. A poetic device that conveys elegance or emotion in a biblical language may be confusing or misunderstood in another language.
- In some languages, using poetry for a particular part of the Bible would make it much more powerful.

Examples From the Bible

The Bible uses poetry for songs, teaching, and prophecy. Almost all of the books of the Old Testament have poetry in them and many of the books are completely made up of poetry.

... for you saw my affliction; you knew the distress of my soul. (Psalm 31:7b ULT)

This example of [Parallelism](#) has two lines that mean the same thing.

Keep your servant also from arrogant sins; let them not rule over me. (Psalm 19:13a ULT)

This example of personification speaks of sins as if they could rule over a person. (See [Personification](#).)

Oh, give thanks to Yahweh; for he is good,
for his covenant faithfulness endures forever.

Oh, give thanks to the God of gods,
for his covenant faithfulness endures forever.

Oh, give thanks to the Lord of lords,
for his covenant faithfulness endures forever.

■ (Psalm 136:1-3 ULT)

This example repeats the phrases “give thanks” and “his covenant faithfulness endures forever.”

Translation Strategies

If the style of poetry that is used in the source text would be natural and give the right meaning in your language, consider using it. If not, here are some other ways of translating it.

- (1) Translate the poetry using one of your styles of poetry.
- (2) Translate the poetry using your style of elegant speech.
- (3) Translate the poetry using your style of ordinary speech.

If you use poetry it may be more beautiful.

If you use ordinary speech it may be more clear.

Examples of Translation Strategies Applied

■ Blessed is the man who does not walk in the advice of the wicked, or stand in the pathway with sinners, or sit in the assembly of mockers. But his delight is in the law of Yahweh, and on his law he meditates day and night. (Psalm 1:1-2 ULT)

The following are examples of how people might translate Psalm 1:1-2.

- (1) Translate the poetry using one of your styles of poetry. (The style in this example has words that sound similar at the end of each line.)

■ “Happy is the person not encouraged **to sin**, Disrespect for God he will not **begin**, To those who laugh at God he is **no kin**. God is his constant **delight**, He does what God says **is right**, He thinks of it all day **and night**.”

- (2) Translate the poetry using your style of elegant speech.

■ This is the kind of person who is truly blessed: the one who does not follow the advice of wicked people nor stop along the road to speak with sinners nor join the gathering of those who mock God. Rather, he takes great joy in Yahweh’s law, and he meditates on it day and night.

- (3) Translate the poetry using your style of ordinary speech.

■ The people who do not listen to the advice of bad people are really happy. They do not spend time with people who continually do evil things or join with those who do not respect God. Instead, they love to obey Yahweh’s law, and they think about it all the time.

Quotes within Quotes

Description

A quotation may have a quote within it, and quotes that are inside of other quotes can also have quotes within them. When a quote has quotes within it, we say there are “layers” of quotation, and each of the quotes is a layer. When there are many layers of quotes inside of quotes, it can be hard for listeners and readers to know who is saying what. Some languages use a combination of direct quotes and indirect quotes to make it easier.

This page answers the question: *What is a quote within a quote, and how can I help the readers understand who is saying what?*

In order to understand this topic, it would be good to read:

[Direct and Indirect Quotations](#)

Reasons This Is a Translation Issue

When there is a quote within a quote, the listener needs to know who the pronouns refer to. For example: if a quote that is inside a quote has the word “I,” the listener needs to know whether “I” refers to the speaker of the inner quote or the outer quote.

Some languages make this clear by using different kinds of quotes when there are quotes within quotes.

They may use direct quotes for some and indirect quotes for others.

Some languages do not use indirect quotes.

Examples From the Bible

A quotation with only one layer

But Paul said, “I, however, was indeed born a citizen.” (Acts 22:28b ULT)

Quotations with two layers

Jesus answered and said to them, “Be careful that no one leads you astray. For many will come in my name. They will say, ‘I am the Christ,’ and will lead many astray.” (Matthew 24:4-5 ULT)

The outermost layer is what Jesus said to his disciples. The second layer is what other people will say.

Jesus answered, “You say that I am a king.” (John 18:37b ULT)

The outermost layer is what Jesus said to Pilate. The second layer is what Pilate said about Jesus.

A quotation with three layers

Abraham said, “... I said to her, ‘You must show me this faithfulness as my wife: At every place where we go, say about me, **“He is my brother.”**’” (Genesis 20:11a, 13 ULT)

The outermost layer is what Abraham responded to Abimelech. The second layer is what Abraham had told his wife. The third layer is what he wanted his wife to say. (We have bolded the third layer.)

A quotation with four layers

They said to him, "A man came to meet us who said to us, 'Go back to the king who sent you, and say to him, "Yahweh says this: **'Is it because there is no God in Israel that you sent men to consult with Baal- Zebub, the god of Ekron? Therefore you will not come down from the bed to which you have gone up; instead, you will certainly die.'**"'" (2 Kings 1:6 ULT)

The outermost layer is what the messengers said to the king. The second layer is what the man who had met the messengers told them. The third is what that man wanted the messengers to say to the king. The fourth is what Yahweh said. (We have bolded the fourth layer.)

Translation Strategies

Some languages use only direct quotes. Other languages use a combination of direct quotes and indirect quotes. In those languages it might sound strange and perhaps even be confusing if there are many layers of direct quotes.

- (1) Translate all of the quotes as direct quotes.
- (2) Translate one or some of the quotes as indirect quotes. (See [Direct and Indirect Quotations](#).)

Examples of Translation Strategies Applied

- (1) Translate all of the quotes as direct quotes. In the example below we have bolded the indirect quotes in the ULT and the quotes that we have changed to direct quotes below it.

Festus presented to the king the things concerning Paul, saying, "There is a certain man was left here as a prisoner by Felix. So I am uncertain about the things concerning this matter. I asked **if he was willing to go to Jerusalem and there to be judged concerning these things**. But when Paul appealed **to keep him in custody for the decision of the emperor**, I ordered him **to be held in custody until when I could send him to Caesar**." (Acts 25:14b, 20-21 ULT)

Festus presented Paul's case to the king. He said, "A certain man was left behind here by Felix as a prisoner. I was uncertain about the things concerning this matter. I asked him, **'Will you go to Jerusalem to be judged there concerning these things?'** But when Paul said, **'I want to be kept in custody for the emperor's decision,'** I told the guard, **'Keep him in custody until when I can send him to Caesar.'**"

- (2) Translate one or some of the quotes as indirect quotes. In English the word "that" can come before indirect quotes. It is bolded in the examples below. The pronouns that changed because of the indirect quote are also bolded.

And Yahweh spoke to Moses, saying, "I have heard the complaints of the sons of Israel. Speak to them and say, 'During the evenings you will eat meat, and in the morning you will be satisfied with bread. And you will know that I am Yahweh your God.'" (Exodus 16:11-12 ULT)

And Yahweh spoke to Moses, saying, "I have heard the complaints of the sons of Israel. Tell them **that** during the evenings **they** will eat meat, and in the morning **they** will be satisfied with bread. And **they** will know that I am Yahweh **their** God."

They said to him, "A man came to meet us who said to us, 'Go back to the king who sent you, and say to him, "Yahweh says this: 'Is it because there is no God in Israel that you sent men to consult with Baal-Zebub, the god of Ekron? Therefore you will not come down from the bed to which you have gone up; instead, you will certainly die.'"" (2 Kings 1:6 ULT)

They told him **that** a man had come to meet **them** who said to **them**, "Go back to the king who sent you, and tell him **that** Yahweh says this: 'Is it because there is no God in Israel that you sent men to consult with Baal Zebub, the god of Ekron? Reflexive Pronouns

Description

All languages have ways of showing that the same person fills two different roles in a sentence. English does this by using reflexive pronouns. These are pronouns that refer to someone or something that has already been mentioned in a sentence. In English the reflexive pronouns are: “myself,” “yourself,” “himself,” “herself,” “itself,” “ourselves,” “yourselves,” and “themselves.” Other languages may have other ways to show this.

This page answers the question: *What are reflexive pronouns?*

In order to understand this topic, it would be good to read:

[\[\[rc://en/ta/man/translate/figs-pronouns\]\]](#)

[\[\[rc://en/ta/man/translate/figs-sentences\]\]](#)

Reason This Is a Translation Issue

- Languages have different ways of showing that the same person fills two different roles in a sentence. For those languages, translators will need to know how to translate the English reflexive pronouns.
- The reflexive pronouns in English also have other functions.

Uses of Reflexive Pronouns

- To show that the same person or things fills two different roles in a sentence
- To emphasize a person or thing in the sentence
- To show that someone did something alone
- To show that someone or something was alone

Examples From the Bible

Reflexive pronouns are used to show the same person or thing fills two different roles in a sentence.

If **I** should testify about **myself**, my testimony would not be true. (John 5:31 ULT)

Now the Passover of the Jews was near, and **many** went up to Jerusalem from the country before the Passover in order to purify **themselves**. (John 11:55 ULT)

Reflexive pronouns are used to emphasize a person or thing in the sentence.

Jesus himself was not baptizing, but his disciples were. (John 4:2 ULT)

So they left the crowd, taking Jesus with them, just as he was, in the boat. There also were other boats with him. Then a violent windstorm arose and the waves were breaking into the boat so that the boat was already full of water. But **Jesus himself** was in the stern, asleep on the cushion. (Mark 4:36-38a ULT)

Reflexive pronouns are used to show that someone did something alone.

When Jesus realized that they were about to come and seize him by force to make him king, he withdrew again up the mountain **by himself**. (John 6:15 ULT)

Reflexive pronouns are used to show that someone or something was alone.

He saw the linen cloths lying there and the cloth that had been on his head. **It** was not lying with the linen cloths but was folded up in a place **by itself**. (John 20:6b-7 ULT)

Translation Strategies

If a reflexive pronoun would have the same function in your language, consider using it. If not, here are some other strategies.

- (1) In some languages people put something on the verb to show that the object of the verb is the same as the subject.
- (2) In some languages people emphasize a certain person or thing by referring to it in a special place in the sentence.
- (3) In some languages people emphasize a certain person or thing by adding something to that word or putting another word with it.
- (4) In some languages people show that someone did something alone by using a word like “alone.”
- (5) In some languages people show that something was alone by using a phrase that tells about where it was.

Examples of Translation Strategies Applied

- (1) In some languages people modify the verb to show that the object of the verb is the same as the subject.

If I should testify about **myself** alone, my testimony would not be true. (John 5:31)

“If I should **self-testify** alone, my testimony would not be true.”

Now the Passover of the Jews was near, and many went up to Jerusalem from the country before the Passover in order to **purify themselves**. (John 11:55)

“Now the Passover of the Jews was near, and many went up to Jerusalem out from country before the Passover in order to **self-purify**.”

- (2) In some languages people emphasize a certain person or thing by referring to it in a special place in the sentence.

He himself took our sickness and bore our diseases. (Matthew 8:17 ULT)

“**It was he who** took our sickness and bore our diseases.”

Jesus himself was not baptizing, but his disciples were. (John 4:2)

“**It was not Jesus who** was baptizing, but his disciples were.”

- (3) In some languages people emphasize a certain person or thing by adding something to that word or putting another word with it. English adds the reflexive pronoun.

But Jesus said this to test Philip, for he **himself** knew what he was going to do. (John 6:6)

- (4) In some languages people show that someone did something alone by using a word like “alone.”

When Jesus realized that they were about to come and seize him by force to make him king, he withdrew again up the mountain **by himself**. (John 6:15)

“When Jesus realized that they were about to come and seize him by force to make him king, he withdrew again **alone** up the mountain.”

- (5) In some languages people show that something was alone by using a phrase that tells about where it was.

He saw the linen cloths lying there and the cloth that had been on his head. It was not lying with the linen cloths but was folded up in a place **by itself**. (John 20:6b-7 ULT)

“He saw the linen cloths lying there and the cloth that had been on his head. It was not lying with the linen cloths but was folded up and lying **in its own place.**”

Rhetorical Question

A rhetorical question is a question that a speaker asks when he is more interested in expressing his attitude about something than in getting information about it. Speakers use rhetorical questions to express deep emotion or to encourage hearers to think deeply about something. The Bible contains many rhetorical questions, often to express surprise, to rebuke or scold the hearer, or to teach. Speakers of some languages use rhetorical questions for other purposes as well.

This page answers the question: *What are rhetorical questions and how can I translate them?*

In order to understand this topic, it would be good to read:

[\[\[rc://en/ta/man/translate/figs-intro\]\]](#)

[\[\[rc://en/ta/man/translate/figs-sentencetypes\]\]](#)

Description

A rhetorical question is a question that strongly expresses the speaker's attitude toward something. Often the speaker is not looking for information at all. Or, if he is asking for information, it is not usually the information that the question appears to ask for. The speaker is more interested in expressing his attitude than in getting information.

But those who stood by said, **“Are you insulting the high priest of God?”**(Acts 23:4 ULT)

The people who asked Paul this question were not asking if he was insulting God's high priest. Rather, they used this question to accuse Paul of insulting the high priest.

The Bible contains many rhetorical questions. These rhetorical questions might be used for the purposes: of expressing attitudes or feelings, rebuking people, teaching something by reminding people of something they know and encouraging them to apply it to something new, or introducing something they want to talk about.

Reasons This Is a Translation Issue

- Some languages do not use rhetorical questions; for them a question is always a request for information.
- Some languages use rhetorical questions, but for purposes that are different or more limited than in the Bible.
- Because of these differences between languages, some readers might misunderstand the purpose of a rhetorical question in the Bible.

Examples From the Bible

Do you not still rule the kingdom of Israel? (1 Kings 21:7b ULT)

Jezebel used the question above to remind King Ahab of something he already knew: he still ruled the kingdom of Israel. The rhetorical question made her point more strongly than if she had merely stated it, because it forced Ahab to admit the point himself. She did this in order to rebuke him for being unwilling to take over a poor man's property. She was implying that, since he was the king of Israel, he had the power to take the man's property.

Will a virgin forget her jewelry, a bride her veils? Yet my people have forgotten me for days without number! (Jeremiah 2:32 ULT)

God used the question above to remind his people of something they already knew: a young woman would never forget her jewelry or a bride forget her veils. He then rebuked his people for forgetting him who is so much greater than those things.

Why did I not die when I came out from the womb? (Job 3:11a ULT)

Job used the question above to show deep emotion. This rhetorical question expresses how sad he was that he did not die as soon as he was born. He wished that he had not lived.

And how has this happened to me that the mother of my Lord would come to me? (Luke 1:43 ULT)

Elizabeth used the question above to show how surprised and happy she was that the mother of her Lord came to her.

Or what man is there among you, of whom his son will ask for a loaf of bread, but he will give him a stone? (Matthew 7:9 ULT)

Jesus used the question above to remind the people of something they already knew: a good father would never give his son something bad to eat. By introducing this point, Jesus could go on to teach them about God with his next rhetorical question:

Therefore, if you who are evil know how to give good gifts to your children, how much more will your Father who is in heaven give good things to those who ask him? (Matthew 7:11 ULT)

Jesus used this question to teach the people in an emphatic way that God gives good things to those who ask him.

What is the kingdom of God like, and what can I compare it to? It is like a mustard seed that a man took and threw into his garden ... (Luke 13:18b-19a ULT)

Jesus used the question above to introduce what he was going to talk about. He was about to compare the kingdom of God to something. In this case, he compared the kingdom of God to a mustard seed.

Translation Strategies

In order to translate a rhetorical question accurately, first be sure that the question you are translating truly is a rhetorical question and is not an information question. Ask yourself, "Does the person asking the question already know the answer to the question?" If so, it is a rhetorical question. Or, if no one answers the question, did the person who asked it expect to receive an answer? If not, it is a rhetorical question.

When you are sure that the question is rhetorical, then be sure that you understand the purpose for the rhetorical question. Is it to encourage or rebuke or shame the hearer? Is it to bring up a new topic? Is it to do something else?

When you know the purpose of the rhetorical question, then think of the most natural way to express that purpose in the target language. It might be as a question, or a statement, or an exclamation.

If using the rhetorical question would be natural and give the right meaning in your language, consider doing so. If not, here are other options:

- (1) Add the answer after the question.
- (2) Change the rhetorical question to a statement or exclamation.
- (3) Change the rhetorical question to a statement, and then follow it with a short question.
- (4) Change the form of the question so that it communicates in your language what the original speaker communicated in his.

Examples of Translation Strategies Applied

- (1) Add the answer after the question.

Will a virgin forget her jewelry, a bride her veils? Yet my people have forgotten me for days without number! (Jeremiah 2:32 ULT)

Will a virgin forget her jewelry, a bride her veils? **Of course not!** Yet my people have forgotten me for days without number!

Or what man is there among you, of whom his son will ask for a loaf of bread, but he will give him a stone? (Matthew 7:9 ULT)

Or what man is there among you, of whom his son will ask for a loaf of bread, but he will give him a stone? **None of you would do that!**

(2) Change the rhetorical question to a statement or exclamation.

What is the kingdom of God like, and what can I compare it to? It is like a mustard seed. (Luke 13:18-19a ULT)

This is what the kingdom of God is like. It is like a mustard seed ...

Are you insulting the high priest of God? (Acts 23:4b ULT) (Acts 23:4 ULT)

You should not insult God's high priest!

Why did I not die when I came out from the womb? (Job 3:11a ULT)

I wish I had died when I came out from the womb!

And how has this happened to me that the mother of my Lord should come to me? (Luke 1:43 ULT)

How wonderful it is that the mother of my Lord has come to me!

(3) Change the rhetorical question to a statement, and then follow it with a short question.

Do you not still rule the kingdom of Israel? (1 Kings 21:7b ULT)

You still rule the kingdom of Israel, **do you not?**

(4) Change the form of the question so that it communicates in your language what the original speaker communicated in his.

Or what man is there among you, of whom his son will ask for a loaf of bread, but he will give him a stone? (Matthew 7:9 ULT)

If your son asks you for a loaf of bread, **would you give him a stone?**

Will a virgin forget her jewelry, a bride her veils? Yet my people have forgotten me for days without number! (Jeremiah 2:32 ULT)

Simile

Description

A simile is a comparison of two things that are not normally thought to be similar. The simile focuses on a particular trait the two items have in common, and it includes the words “like,” “as,” or “than.”

This page answers the question: *What is a simile?*

In order to understand this topic, it would be good to read:

[[rc://en/ta/man/translate/figs-intro]]

When he saw the crowds, he had compassion for them, because they were troubled and discouraged, **like sheep not having a shepherd**. (Matthew 9:36)

Jesus compared the crowds of people to sheep without a shepherd. Sheep grow frightened when they do not have a good shepherd to lead them in safe places. The crowds were like that because they did not have good religious leaders.

See, I send you out **as sheep in the midst of wolves**, so be as wise **as the serpents** and harmless **as the doves**. (Matthew 10:16 ULT)

Jesus compared his disciples to sheep and their enemies to wolves. Wolves attack sheep; Jesus' enemies would attack his disciples.

For the word of God is living and active and sharper **than any two-edged sword**. (Hebrews 4:12a ULT)

God's word is compared to a two-edged sword. A two-edged sword is a weapon that can easily cut through a person's flesh. God's word is very effective in showing what is in a person's heart and thoughts.

Purposes of Simile

- A simile can teach about something that is unknown by showing how it is similar to something that is known.
- A simile can emphasize a particular trait, sometimes in a way that gets people's attention.
- Similes help form a picture in the mind or help the reader experience what he is reading about more fully.

Reasons This Is a Translation Issue

- People may not know how the two items are similar.
- People may not be familiar with both of the items being compared.

Examples From the Bible

Suffer hardship with me, **as a good soldier** of Christ Jesus. (2 Timothy 2:3 ULT)

In this simile, Paul compares suffering with what soldiers endure, and he encourages Timothy to follow their example.

Just as the lightning flashing from a place under the sky shines to another place under the sky, so will the Son of Man be. (Luke 17:24b ULT)

This verse does not tell how the Son of Man will be like the lightning. But in context we can understand from the verses before it that just as lightning flashes suddenly and everyone can see it, the Son of Man will come suddenly and everyone will be able to see him. No one will have to be told about it.

Translation Strategies

If people would understand the correct meaning of a simile, consider using it. If they would not, here are some strategies you can use:

- (1) If people do not know how the two items are alike, tell how they are alike. However, do not do this if the meaning was not clear to the original audience.
- (2) If people are not familiar with the item that something is compared to, use an item from your own culture. Be sure that it is one that could have been used in the cultures of the Bible. If you use this strategy, you may want to put the original item in a footnote.
- (3) Simply describe the item without comparing it to another.

Examples of Translation Strategies Applied

- (1) If people do not know how the two items are alike, tell how they are alike. However, do not do this if the meaning was not clear to the original audience.

See, I send you out **as sheep in the midst of wolves**. (Matthew 10:16a ULT) — This compares the danger that Jesus' disciples would be in with the danger that sheep are in when they are surrounded by wolves.

See, I send **you out among wicked people** and you will be in danger from them **as sheep are in danger when they are among wolves**.

For the word of God is living and active and sharper **than any two-edged sword**. (Hebrews 4:12a ULT)

For the word of God is living and active and **more powerful than a very sharp two-edged sword**.

- (2) If people are not familiar with the item that something is compared to, use an item from your own culture. Be sure that it is one that could have been used in the cultures of the Bible. If you use this strategy, you may want to put the original item in a footnote.

See, I send you out **as sheep in the midst of wolves**. (Matthew 10:16a ULT) — If people do not know what sheep and wolves are, or that wolves kill and eat sheep, you could use some other animal that kills another.

See, I send you out **as chickens in the midst of wild dogs**.

How often did I long to gather your children together, just **as a hen gathers her chickens under her wings**, but you were not willing! (Matthew 23:37b ULT)

How often I wanted to gather your children together, **as a mother closely watches over her infants**, but you refused!

If you have faith **as a grain of mustard** ... (Matthew 17:20)

If you have faith even as small **as a tiny seed**,

- (3) Simply describe the item without comparing it to another.

See, I send you out **as sheep in the midst of wolves**. (Matthew 10:16a ULT)

See, I send you out among **people who will want to harm you**.

How often did I long to gather your children together, just **as a hen gathers her chickens under her wings**, but you were not willing! (Matthew 23:37b ULT)

How often I wanted to **protect you**, but you refused!

Symbolic Action

Description

A symbolic action is something that someone does in order to express a certain idea. For example, in some cultures people nod their heads up and down to mean “yes” or turn their heads from side to side to mean “no.” Symbolic actions do not mean the same things in all cultures. In the Bible, sometimes people perform symbolic actions and sometimes they only refer to the symbolic action.

This page answers the question: *What is a symbolic action and how do I translate it?*

In order to understand this topic, it would be good to read:

[Translate Unknowns](#)

Examples of symbolic actions

- In some cultures people shake hands when they meet to show that they are willing to be friendly.
- In some cultures people bow when they meet to show respect to each other.

Reason This Is a Translation Issue

An action may have a meaning in one culture and a different meaning or no meaning at all in another culture. For example, in some cultures raising the eyebrows means “I am surprised” or “What did you say?” In other cultures it means “yes.”

In the Bible, people did things that had certain meanings in their culture. When we read the Bible, we might not understand what someone meant if we interpret the action based on what it means in our own culture today.

You (the translator) need to understand what people in the Bible meant when they used symbolic actions. If an action does not mean the same thing in your own culture, then you need to figure out how to translate what the action meant.

Examples From the Bible

And behold, a man came whose name was Jairus, and he was a ruler of the synagogue. And **falling at the feet of Jesus**, he begged him to come to his house. (Luke 8:41 ULT)

Meaning of symbolic action: He did this to show great respect to Jesus.

Look, I am standing at the door and am knocking. If anyone hears my voice and opens the door, I will come into him and will eat with him, and he with me. (Revelation 3:20 ULT)

Meaning of symbolic action: When people wanted someone to welcome them into their home, they stood at the door and knocked on it.

Translation Strategies

If people would correctly understand what a symbolic action meant to the people in the Bible, consider using it. If not, here are some strategies for translating it.

- (1) Tell what the person did and why he did it.
- (2) Do not tell what the person did, but tell what he meant.

(3) Use an action from your own culture that has the same meaning. Do this only in poetry, parables, and sermons. Do not do this when there actually was a person who did a specific action.

Examples of Translation Strategies Applied

(1) Tell what the person did and why he did it.

And **falling at the feet of Jesus** (Luke 8:41 ULT)

Jairus fell down at Jesus' feet in order to show that he greatly respected him.

Look, I am **standing at the door and am knocking**. (Revelation 3:20 ULT)

Look, I stand at the door and knock on it, asking you to let me in.

(2) Do not tell what the person did, but tell what he meant.

And **falling at the feet of Jesus** (Luke 8:41 ULT)

Jairus showed Jesus great respect.

Look, I am **standing at the door and am knocking**. (Revelation 3:20 ULT)

Look, I stand at the door and ask you to let me in.

(3) Use an action from your own culture that has the same meaning.

And **falling at the feet of Jesus** (Luke 8:41 ULT) — Since Jairus actually did this, you should not substitute an action from your own culture.

Look, I am **standing at the door and am knocking**. (Revelation 3:20 ULT) — Jesus was not standing at a real door. Rather he was speaking about wanting to have a relationship with people. So in cultures where it is polite to clear one's throat when wanting to be let into a house, you could use that.

Look, I stand at the door and clear my throat.

Symbolic Language

Description

Symbolic language in speech and writing is the use of symbols to represent other things, other events, etc. In the Bible it occurs most in prophecy and poetry, especially in visions and dreams about things that will happen in the future. Though people may not immediately know the meaning of a symbol, it is important to keep the symbol in the translation.

This page answers the question: *What is symbolic language and how do I translate it?*

In order to understand this topic, it would be good to read:

[\[\[rc://en/ta/man/translate/writing-intro\]\]](#)

■ Eat this scroll; then go speak to the house of Israel. (Ezekiel 3:1 ULT)

This was in a dream. Eating the scroll is a symbol of Ezekiel reading and understanding well what was written on the scroll, and accepting these words from God into himself.

Purposes of Symbolism

- One purpose of symbolism is to help people understand the importance or severity of an event by putting it in other, very dramatic terms.
- Another purpose of symbolism is to tell some people about something while hiding the true meaning from others who do not understand the symbolism.

Reason This Is a Translation Issue

People who read the Bible today may find it hard to recognize that the language is symbolic, and they may not know what the symbol stands for.

Translation Principles

- When symbolic language is used, it is important to keep the symbol in the translation.
- It is also important not to explain the symbol more than the original speaker or writer did, since he may not have wanted everyone living then to be able to understand it easily.

Examples From the Bible

■ After this I saw in my visions of the night **a fourth animal**, terrifying, frightening, and very strong. It had **large iron teeth**; it devoured, broke in pieces, and trampled underfoot what was left. It was different from the other animals, and it had **ten horns**. (Daniel 7:7 ULT)

The meaning of the bolded symbols is explained in Daniel 7:23-24 as shown below. The animals represent kingdoms, iron teeth represent a powerful army, and the horns represent powerful leaders.

■ This is what that person said, 'As for the fourth animal, it will be **a fourth kingdom** on earth that will be different from all the other kingdoms. It will devour the whole earth, and it will trample it down and break it into pieces. As for the ten horns, out of this kingdom **ten kings** will arise, and another will arise after them. He will be different from the previous ones, and he will conquer the three kings.' (Daniel 7:23-24 ULT)

■ I turned around to see the voice that was speaking to me, and as I turned I saw **seven golden lampstands**. In the middle of the lampstands there was one like a son of man ... He had **seven**

stars in his right hand and **a sword with two sharp edges** was coming out of his mouth. As for the hidden meaning about the seven stars that you saw in my right hand, and the seven golden lampstands: **The seven stars are the angels of the seven churches**, and **the seven lampstands are the seven churches**. (Revelation 1:12-13a, 16a, 20 ULT)

This passage explains the meaning of the seven lampstands and the seven stars. The two-edged sword represents God's word and judgment.

Translation Strategies

- (1) Translate the text with the symbols. Often the speaker or author explains the meaning later in the passage.
- (2) Translate the text with the symbols. Then explain the symbols in footnotes.

Examples of Translation Strategies Applied

- (1) Translate the text with the symbols. Often the speaker or author explains the meaning later in the passage.

This is what that person said, 'As for the fourth animal, it will be **a fourth kingdom** on earth that will be different from all the other kingdoms. - (2) Translate the text with the symbols. Then explain the symbols in footnotes.

After this I saw in my dream at night a fourth animal, ¹ terrifying, frightening, and very strong. It had large iron teeth; ² it devoured, broke in pieces, and trampled underfoot what was left. It was different from the other animals, and it had ten horns. ³

The footnotes would look like:

[1] The animal is a symbol for a kingdom.

[2] The iron teeth is a symbol for the kingdom's powerful army.

[3] The horns are a symbol of powerful kings.

Synecdoche

Description

Synecdoche is a figure of speech in which a speaker uses a part of something to refer to the whole thing, or uses the whole to refer to a part.

■ **My soul** magnifies the Lord. (Luke 1:46b ULT)

Mary was very happy about what the Lord was doing, so she said “my soul,” which means the inner, emotional part of herself, to refer to her whole self.

■ So **the Pharisees** said to him, “Look, why are they doing that which is not lawful?” (Mark 2:24a ULT)

The Pharisees who were standing there did not all say the same words at the same time. Instead, it is more likely that one man representing the group said those words.

Reasons This Is a Translation Issue

- Some readers may not recognize the synecdoche and thus misunderstand the words as a literal statement.
- Some readers may realize that they are not to understand the words literally, but they may not know what the meaning is.

Example From the Bible

■ Then I looked on all the deeds that **my hands** had accomplished. (Ecclesiastes 2:11a ULT)

“My hands” is a synecdoche for the whole person because clearly the arms and the rest of the body and the mind were also involved in the person’s accomplishments. The hands are chosen to represent the person because they are the parts of the body most directly involved in the work.

Translation Strategies

If the synecdoche would be natural and give the right meaning in your language, consider using it. If not, here is another option:

(1) State specifically what the synecdoche refers to.

Examples of Translation Strategies Applied

(1) State specifically what the synecdoche refers to.

■ **“My soul** magnifies the Lord.” (Luke 1:46b ULT)

■ **“I** magnify the Lord.”

So **the Pharisees** said to him ... (Mark 2:24a ULT)

■ **A representative of the Pharisees** said to him ...

Then I looked on all the deeds that **my hands** had accomplished. (Ecclesiastes 2:11a ULT)

Textual Variants

Description

Thousands of years ago, people wrote the books of the Bible. Other people then copied them by hand and translated them. They did this work very carefully, and over the years many people made thousands of copies. However, people who looked at them later saw that there were small differences between them. Some copiers accidentally left out some words, or some mistook one word for another that looked like it. Occasionally, they added words or even whole sentences, either by accident or because they wanted to explain something. Modern Bibles are translations of the old copies. Some modern Bibles include some of these sentences that were added. In the ULT, these added sentences are usually written in footnotes.

Bible scholars have read many old copies and compared them with each other. For each place in the Bible where there was a difference, they have figured out which wordings are most likely correct. The translators of the ULT based the ULT on wordings that scholars say are most likely correct. Because people who use the ULT may have access to Bibles that are based on other copies, the ULT translators have sometimes included information about some of the differences between them, either in the ULT footnotes or in the unfoldingWord® Translation Notes.

Translators are encouraged to translate the text in the ULT and to write about added sentences in footnotes, as is done in the ULT. However, if the local church really wants those sentences to be included in the main text, translators may put them in the text and include a footnote about them.

This page answers the question: *Why does the ULT have missing or added verses, and should I translate them?*

Examples From the Bible

Matthew 18:10-11 ULT has a footnote about verse 11.

¹⁰ See that you do not despise one of these little ones. For I say to you that in heaven their angels always look on the face of my Father who is in heaven. ¹¹ ^[1]

^[1] Many authorities, some ancient, insert v. 11: **For the Son of Man came to save that which was lost.**

John 7:53-8:11 is not in the best earliest manuscripts. It has been included in the ULT, but it is marked off with square brackets ([]) at the beginning and end, and there is a footnote after verse 11.

53 [Then everyone went to his own house ... 11 She said, "No one, Lord." Jesus said, "Neither do I condemn you. Go and sin no more."] ^[2]

^[2] Some ancient manuscripts include John 7:53-8:11

Translation Strategies

When there is a textual variant, you may choose to follow the ULT or another version that you have access to.

- (1) Translate the verses as they are in the ULT and include the footnote that the ULT provides.
- (2) Translate the verses as another version has them, and change the footnote so that it fits this situation.

Examples of Translation Strategies Applied

The translation strategies are applied to Mark 7:14-16 ULT, which has a footnote about verse 16.

¹⁴ He called the crowd again and said to them, "Listen to me, all of you, and understand. ¹⁵ There is nothing from outside the man that can defile him when it enters into him. But the things that come out of the man are the things that defile the man." ¹⁶ ^[1]

^[1] Some ancient manuscripts include verse 16: **If any man has ears to hear, let him hear.**

Translate Unknowns

While working to translate the Bible, you (the translator) might find yourself asking: “How do I translate words like lion, fig tree, mountain, priest, or temple when people in my culture have never seen these things and we do not have a word for them?”

This page answers the question: *How can I translate ideas that my readers are not familiar with?*

In order to understand this topic, it would be good to read:

[\[\[rc://en/ta/man/translate/figs-sentences\]\]](#)

Description

Unknowns are things that occur in the source text that are not known to the people of your culture. The unfoldingWord® Translation Words pages and the unfoldingWord® Translation Notes will help you understand what they are. After you understand them, you will need to find ways to refer to those things so that people who read your translation will understand what they are.

They said to him, “We have nothing here except five loaves of **bread** and two fish.” (Matthew 14:17 ULT)

Bread is a particular food made by mixing finely crushed grains with oil, and then cooking the mixture so that it is dry. (Grains are the seeds of a kind of grass.) In some cultures people do not have bread and do not know what it is.

Reason This Is a Translation Issue

- Readers may not know some of the things that are in the Bible because those things are not part of their own culture.
- Readers may have difficulty understanding a text if they do not know some of the things that are mentioned in it.

Translation Principles

- Use words that are already part of your language if possible.
- Keep expressions short if possible.
- Represent God’s commands and historical facts accurately.

Examples From the Bible

So I will turn Jerusalem into piles of ruins, a hideout for **jackals**. (Jeremiah 9:11a ULT)

Jackals are wild animals like dogs that live in only a few parts of the world. So they are not known in many places.

Beware of false prophets, who come to you in sheep’s clothing, but inwardly they are ravenous **wolves**. (Matthew 7:15 ULT)

If wolves do not live where the translation will be read, the readers may not understand that they are fierce, wild animals like dogs that attack and eat sheep.

They offered him wine mixed with **myrrh**, but he did not drink it. (Mark 15:23 ULT)

People may not know what myrrh is and that it was used as a medicine.

... to him who made **great lights** ... (Psalm 136:7a ULT)

Some languages have terms for things that give light, like the sun and fire, but they have no general term for lights.

■ Your sins ... will be white like **snow**. (Isaiah 1:18b ULT)

People in many parts of the world have not seen snow, but they may have seen it in pictures.

Translation Strategies

Here are ways you might translate a term that is not known in your language:

- (1) Use a phrase that describes what the unknown item is, or what is important about the unknown item for the verse being translated.
- (2) Substitute something similar from your language if doing so does not falsely represent a historical fact.
- (3) Copy the word from another language, and add a general word or descriptive phrase to help people understand it.
- (4) Use a word that is more general in meaning.
- (5) Use a word or phrase that is more specific in meaning.

Examples of Translation Strategies Applied

- (1) Use a phrase that describes what the unknown item is, or what is important about the unknown item for the verse being translated.

■ Beware of false prophets, who come to you in sheep's clothing, but are inwardly they are **ravenous wolves**. (Matthew 7:15 ULT)

■ Beware of false prophets, who come to you in sheep's clothing, but **inwardly they are very hungry and dangerous animals**.

"Ravenous wolves" is part of a metaphor here, so the reader needs to know that they are very dangerous to sheep in order to understand this metaphor. (If sheep are also unknown, then you will need to also use one of the translation strategies to translate sheep, or change the metaphor to something else, using a translation strategy for metaphors. See [Translating Metaphors](#).)

■ "We have nothing here except five **loaves of bread** and two fish." (Matthew 14:17 ULT)

■ We have nothing here except five **loaves of baked grain seeds** and two fish.

- (2) Substitute something similar from your language if doing so does not falsely represent a historical fact.

■ Your sins ... will be white like **snow**. (Isaiah 1:18b ULT) This verse is not about snow. It uses snow in a figure of speech to help people understand how white something will be.

■ Your sins ... will be white like **milk**.

■ Your sins ... will be white like **the moon**.

- (3) Copy the word from another language, and add a general word or descriptive phrase to help people understand it.

Then they tried to give Jesus wine that was mixed with **myrrh**. But he refused to drink it. (Mark 15:23 ULT) — People may understand better what myrrh is if it is used with the general word “medicine.”

Then they tried to give Jesus wine that was mixed with **a medicine called myrrh**. But he refused to drink it.

“We have nothing here except five **loaves of bread** and two fish.” (Matthew 14:17 ULT) — People may understand better what bread is if it is used with a phrase that tells what it is made of (seeds) and how it is prepared (crushed and baked).

We have nothing here except five loaves of **baked crushed seed bread** and two fish.

(4) Use a word that is more general in meaning.

I will turn Jerusalem into piles of ruins, a hideout for **jackals** (Jeremiah 9:11a ULT)

I will turn Jerusalem into piles of ruins, a hideout for **wild dogs**

“We have nothing here except five **loaves of bread** and two fish.” (Matthew 14:17 ULT)

We have nothing here except five **loaves of baked food** and two fish.

(5) Use a word or phrase that is more specific in meaning.

... to him who made **great lights** ... (Psalm 136:7a ULT)

to him who made **the sun and the moon**

Verse Bridges

Description

In some cases, you will see in the unfoldingWord® Simplified Text (UST) that two or more verse numbers are combined, such as 17-18. This is called a verse bridge. This means that the information in the verses was rearranged so that the story or message could be more easily understood.

This page answers the question: *Why are some verse numbers combined in the UST, such as "3-5" or "17-18"?*

In order to understand this topic, it would be good to read:

[\[\[rc://en/ta/man/translate/translate-bibleorg\]\]](https://www.unfoldingword.com/en/ta/man/translate/translate-bibleorg/)

29 These were the clans of the Horites: Lotan, Shobal, Zibeon, and Anah, 30 Dishon, Ezer, Dishan: these are clans of the Horites, according to their clan lists in the land of Seir. (Genesis 36:29-30 ULT)

29-30 The people groups who were descendants of Hor lived in Seir land. The names of the people groups are Lotan, Shobal, Zibeon, Anah, Dishon, Ezer, and Dishan. (Genesis 36:29-30 UST)

In the ULT text, verses 29 and 30 are separate, and the information about the people living in Seir is at the end of verse 30. In the UST text, the verses are joined, and the information about them living in Seir is at the beginning. For many languages, this is a more logical order of information.

Examples From the Bible

Where the UST has a verse bridge, the ULT will have separate verses.

⁴⁻⁵ Yahweh our God will bless you in the land that he is giving to you. If you obey Yahweh our God and obey all the commandments that I am giving to you today, there will not be any poor people among you. (Deuteronomy 15:4-5 UST)

⁴ However, there should be no poor among you (for Yahweh will surely bless you in the land that he gives you as an inheritance to possess), ⁵ if only you diligently listen to the voice of Yahweh your God, to keep all these commandments that I am commanding you today. (Deuteronomy 15:4-5 ULT)

¹⁶⁻¹⁷ But Yahweh said to him, "I will not permit you to eat the fruit of the tree that will enable you to know what actions are good to do and what actions are evil to do. If you eat any fruit from that tree, on the day you eat it you will surely die. But I will permit you to eat the fruit of any of the other trees in the park." (Genesis 2:16-17 UST)

¹⁶ Yahweh God commanded the man, saying, "From every tree in the garden you may freely eat. ¹⁷ But from the tree of the knowledge of good and evil you may not eat, for on the day that you eat from it, you will surely die." (Genesis 2:16-17 ULT)

Translation Strategies

Order the information in a way that will be clear to your readers. If the order of information is clear as it is in the ULT, then use that order. But if the order is confusing or gives the wrong meaning, then change the order so that it is more clear.

(1) If you put information from one verse before information from an earlier verse, then combine the verses and put a hyphen between the two verse numbers.

See how to mark verses in [translationStudio](https://www.unfoldingword.com/en/ta/man/translate/translate-bibleorg/).

Examples of Translation Strategies Applied

(1) If information from one verse is put before information from an earlier verse, then combine the verses and put the verse numbers before the first verse with a hyphen between them.

2 You must select three cities for yourself in the middle of your land that Yahweh your God is giving you to possess. 3 You must build a road and divide the borders of your land into three parts, the land that Yahweh your God is causing you to inherit, so that everyone who kills another person may flee there. (Deuteronomy 19:2-3 ULT)

2-3 You must divide into three parts the land that he is giving to you. Then select a city in each part. You must make good roads in order that people can get to those cities easily. Someone who kills another person can escape to one of those cities to be safe. (Deuteronomy 19:2-3 UST)

Version 32

covenant

Definition:

In the Bible, the term “covenant” refers to a formal, binding agreement between two parties that one or both parties must fulfill.

- This agreement can be between individuals, between groups of people, or between God and people.
- When people make a covenant with each other, they promise that they will do something, and they must do it.
- Examples of human covenants include marriage covenants, business agreements, and treaties between countries.
- Throughout the Bible, God made several different covenants with his people.
- In some of the covenants, God promised to fulfill his part without conditions. For example, when God established his covenant with mankind promising to never destroy the earth again with a worldwide flood, this promise had no conditions for people to fulfill.
- In other covenants, God promised to fulfill his part only if the people obeyed him and fulfilled their part of the covenant.

The term “new covenant” refers to the commitment or agreement God made with his people through the sacrifice of his Son, Jesus.

- God’s “new covenant” was explained in the part of the Bible called the “New Testament.”
- This new covenant is in contrast to the “old” or “former” covenant that God had made with the Israelites in Old Testament times.
- The new covenant is better than the old one because it is based on the sacrifice of Jesus, which completely atoned for people’s sins forever. The sacrifices made under the old covenant did not do this.
- God writes the new covenant on the hearts of those who become believers in Jesus. This causes them to want to obey God and to begin to live holy lives.
- The new covenant will be completely fulfilled in the end times when God establishes his reign on earth. Everything will once again be very good, as it was when God first created the world.

Translation Suggestions:

- Depending on the context, ways to translate this term could include, “binding agreement” or “formal commitment” or “pledge” or “contract.”
- Some languages may have different words for covenant depending on whether one party or both parties have made a promise they must keep. If the covenant is one-sided, it could be translated as “promise” or “pledge.”
- Make sure the translation of this term does not sound like people proposed the covenant. In all cases of covenants between God and people, it was God who initiated the covenant.
- The term “new covenant” could be translated as “new formal agreement” or “new pact” or “new contract.”
- The word “new” in these expressions has the meaning of “fresh” or “new kind of” or “another.”

law, law of Moses, law of Yahweh, law of God

Definition:

Most simply, the term “law” refers to a rule or instruction that should be followed. In the Bible, the term “law” is often used generally to refer to anything and everything God wants his people to obey and do. The specific term “law of Moses” refers to the commandments and instructions that God gave Moses for the Israelites to obey.

- Depending on the context, the “law” can refer to:
 - the Ten Commandments that God wrote on stone tablets for the Israelites
 - all the laws given to Moses
 - the first five books of the Old Testament
 - the entire Old Testament (also referred to as “scriptures” in the New Testament).
 - all of God’s instructions and will
- The phrase “the Law and the Prophets” is used in the New Testament to refer to the Hebrew scriptures (or “Old Testament”)

Translation Suggestions:

- These terms could be translated using the plural, “laws,” since they refer to many instructions.
- The term “law of Moses” could be translated as “the laws that God told Moses to give to the Israelites.”
- Depending on the context, “the law of Moses” could also be translated as “the law that God told to Moses” or “God’s laws that Moses wrote down” or “the laws that God told Moses to give to the Israelites.”
- Ways to translate “the law” or “law of God” or “God’s laws” could include “laws from God” or “God’s commands” or “laws that God gave” or “everything that God commands” or “all of God’s instructions.”
- The phrase “law of Yahweh” could also be translated as “Yahweh’s laws” or “laws that Yahweh said to obey” or “laws from Yahweh” or “things Yahweh commanded.”

priest, priesthood

Definition:

In the Bible, a priest was someone who was chosen to offer sacrifices to God on behalf of God's people. The "priesthood" was the name for the office or condition of being a priest.

- In the Old Testament, God chose Aaron and his descendants to be his priests for the people of Israel.
- The "priesthood" was a right and a responsibility that was passed down from father to son in the Levite clan.
- The Israelite priests had the responsibility of offering the people's sacrifices to God, along with other duties in the temple.
- Priests also offered regular prayers to God on behalf of his people and performed other religious rites.
- The priests pronounced formal blessings on people and taught them God's laws.
- In Jesus' time, there were different levels of priests, including the chief priests and the high priest.
- Jesus is our "great high priest" who intercedes for us in God's presence. He offered himself as the ultimate sacrifice for sin. This means that the sacrifices made by human priests are no longer needed.
- In the New Testament, every believer in Jesus is called a "priest" who can come directly to God in prayer to intercede for himself and other people.
- In ancient times, there were also pagan priests who presented offerings to false gods such as Baal.

Translation Suggestions:

- Depending on the context, the term "priest" could be translated as "sacrifice person" or "God's intermediary" or "sacrificial mediator" or "person God appoints to represent him."
- The translation of "priest" should be different from the translation of "mediator."
- Some translations may prefer to always say something like "Israelite priest" or "Jewish priest" or "Yahweh's priest" or "priest of Baal" to make it clear that this does not refer to a modern-day type of priest.
- The term used to translate "priest" should be different from the terms for "chief priest" and "high priest" and "Levite" and "prophet."
