Romans

Introduction to Romans

Part 1: General Introduction

Outline of the book of Romans

Introduction (1:1–15)

Main Theme: Righteousness is received by trusting in Jesus Christ (1:16–17)

All mankind is condemned because of sin (1:18–3:20)

Righteousness is received through Jesus Christ by trusting in him (3:21–5:21)

Becoming like Christ in this life (6:1–8:39)

God's plan for Israel (9:1–11:36)

Instructions for living as Christians (12:1–15:13)

Conclusion (15:14–16:27)

Who wrote the book of Romans?

The Apostle Paul wrote the book of Romans and may other books in the New Testament. Paul was from the city of Tarsus. He had been known as Saul in his early life. Before becoming a Christian, Paul was part of a strict Jewish religious group called the Pharisees. He persecuted Christians. After he became a Christian, he traveled several times throughout the Roman Empire telling people about Jesus.

Paul probably wrote this letter while he was staying in the city of Corinth during his third trip through the Roman Empire.

What is the book of Romans about?

Paul wrote this letter to the Christians in Rome. Paul wanted to get them ready to receive him when he visited them. He said his purpose was to “bring about the obedience of faith” (16:26).

In this letter Paul most fully described the gospel of Jesus Christ. He explained that both Jews and non-Jews have sinned, and God will forgive them and declare them righteous only if they believe in Jesus (chapters 1–11). Then he gave them practical advice for how believers should live (chapters 12–16),

How should the title of this book be translated?

Translators may choose to call this book by its traditional title, “Romans.” Or they may choose a clearer title, such as “Paul’s Letter to the Church in Rome,” or “A Letter to the Christians in Rome.” (See: [How to Translate Names](#))

Part 2: Important Religious and Cultural Concepts

What are the titles used to refer to Jesus?

In Romans, Paul described Jesus Christ by many titles and descriptions: Jesus Christ (1:1), the Seed of David (1:3), the Son of God (1:4), the Lord Jesus Christ (1:7), Christ Jesus (3:24), Propitiation (3:25), Jesus (3:26), Jesus our Lord (4:24), Lord of Hosts (9:29), a Stumbling Stone and Rock of Offence (9:33), the End of the Law (10:4), the Deliverer (11:26), Lord of the Dead and the Living (14:9), and the Root of Jesse (15:12).

How should theological terms in Romans be translated?

Paul uses many theological terms that are not used in the four Gospels. As early Christians learned more about the meaning of Jesus Christ and his message, they needed words and expressions for new ideas. Some examples of these words are “justification” (5:1), “works of the law” (3:20), “reconcile” (5:10), “propitiation” (3:25), “sanctification” (6:19), and “the old man” (6:6). If your language doesn’t have similar words, you can develop short phrases to communicate these ideas. For example, the term “gospel” can be translated as “the good news about Jesus Christ.”

Translators should also remember that some of these terms have more than one meaning. The meaning will depend on how the author is using the word in that particular passage. For example, “righteousness” sometimes means that a person obeys God’s law. At other times, “righteousness” means that Jesus Christ has perfectly obeyed God’s law for us.

What did Paul mean by “a remnant” of Israel (11:5)?

The idea of a “remnant” is important both in the Old Testament and for Paul. Most of the Israelites were either killed or scattered among other people when the Assyrians and then the Babylonians conquered their land. Only a relatively few Jews survived. They were known as “the remnant.”

In 11:1–9, Paul speaks of another remnant. This remnant is the Jews whom God saved because they believed in Jesus. (See: [remnant](#))

Part 3: Important Translation Issues

What did Paul mean by being “in Christ”?

The phrase “in Christ” and similar phrases occur in 3:24; 6:11, 23; 8:1,2,39; 9:1; 12:5,17; 15:17; and 16:3,7,9,10. Paul used these kinds of phrases as a metaphor to express that Christian believers belong to Jesus Christ. Belonging to Christ means the believer is saved and is made a friend with God. The believer is also promised to live with God forever. However, this idea can be difficult to represent in many languages.

These phrases also have specific meanings that depend on how Paul used them in a particular passage. For example, in 3:24 (“the redemption that is in Christ Jesus”), Paul referred to our being redeemed “because” of Jesus Christ. In 8:9 (“you are not in the flesh but in the Spirit”), Paul spoke of believers submitting “to” the Holy Spirit. In 9:1 (“I tell the truth in Christ”), Paul meant that he is telling the truth that “is in agreement with” Jesus Christ.

Nevertheless, the basic idea of our being united with Jesus Christ (and with the Holy Spirit) is seen in these passages as well. Therefore, the translator has a choice in many passages that use “in.” He will often decide to represent the more immediate sense of “in,” such as, “by means of,” “in the manner of,” or “in regard to.” But, if possible, the translator should choose a word or phrase that represents the immediate sense and the sense of “in union with.” (See: [in Christ](#), [in Jesus](#), [in the Lord](#), [in him](#))

How are the ideas of “holy,” “saints” or “holy ones,” and “sanctify” represented in Romans in the ULT?

The scriptures use such words to indicate any one of various ideas. For this reason, it is often difficult for translators to represent them well in their versions. In translating into English, the ULT uses the following principles:

- Sometimes the meaning in a passage implies moral holiness. Especially important for understanding the gospel is the fact that God considers Christians to be sinless because they are united to Jesus Christ. Another related fact is that God is perfect and faultless. A third fact is that Christians are to conduct

themselves in a blameless and faultless manner in life. In these cases, the ULT uses “holy,” “holy God,” “holy ones” or “holy people.” (See: [1:7](#))

- Sometimes the meaning in a passage indicates a simple reference to Christians without implying any particular role filled by them. In cases where some other English versions have “saints” or “holy ones,” the ULT uses “believers.” (See: [8:27](#); [12:13](#); [15:25, 26, 31](#); [16:2, 15](#))
- Sometimes the meaning in a passage indicates the idea of someone or something set apart for God alone. In these cases, the ULT uses “set apart,” “dedicated to,” “consecrated,” or “reserved for.” (See: [15:16](#))

The UST will often be helpful as translators think about how to represent these ideas in their own versions.

Singular and plural “you”

In this book, the word “you” is almost always plural and refers to Paul’s audience. There are only four instances of singular “you,” three of which are quotations from the Old Testament ([9:7](#), [17](#); [13:4](#), [15:9](#)). Those exceptions will be addressed in the notes. (See: [Forms of You](#))

What are the major issues in the text of the book of Romans?

For the following verses, modern version of the Bible differ from older versions. The ULT includes the modern reading and puts the older reading in a footnote.

- “he \[God\] works all things together for good” ([8:28](#)). Some older versions read, “All things work together for good.”
- “But if it is by grace, it is no longer by works. Otherwise grace would no longer be grace” ([11:6](#)). Some older versions read: “But if it is by works, then is it no more grace: otherwise work is no more work.”

The following verse is not in the best ancient copies of the Bible. Translators are advised not to include this verse. However, if in the translators’ region there are older Bible versions that have this verse, the translators can include it. If it is translated, it should be put inside square brackets (\[\]) to indicate that it is probably not original to the book of Romans.

- “May the grace of our Lord Jesus Christ be with you all. Amen” ([16:24](#)).

Introduction (1:1–15)

- Greeting (1:1–7)
- Paul plans to visit Rome (1:8–15)

Main Theme: Righteousness is received by having faith in Jesus Christ (1:16–17)

All mankind is condemned because of sin (1:18–3:20)

- All non-Jews have sinned (1:18–32)

Special concepts in this chapter

The gospel

This chapter refers to the contents of the Book of Romans as “the gospel” (1:2). Romans is not a Gospel like Matthew, Mark, Luke, or John, which are historical accounts of the life of Jesus. Instead, chapters 1–8 present the biblical gospel, which is the good news of salvation. The gospel contains the following true ideas: Everyone has sinned. Jesus died for our sins. Jesus came back to life again so that we might live for his glory and receive eternal life when we die.

Universal Condemnation and the Wrath of God

In this chapter Paul explains that no one has an excuse for sinning. We all know about the true God, Yahweh, from his creation all around us. Because of our sin and our sinful nature, every person justly deserves the eternal punishment of God. The requirement for this punishment was satisfied by Jesus dying on a cross for those who believe in him. (See: [believe](#), [believer](#), [belief](#), [unbeliever](#), [unbelief](#) and [sin](#), [sinful](#), [sinner](#), [sinning](#))

Important figures of speech in this chapter

“God gave them over”

Many scholars view the phrases “God gave them over” and “God gave them up” as theologically significant. For this reason, it is important to translate these phrases with God playing a passive role in the action. God allows men to pursue their own sinful desires, he does not force them to act sinfully. (See: [Active or Passive](#))

Romans 1:1

Paul (ULT)**I,} Paul, {am writing this letter (UST)**

In the culture of this time, letter writers would give their own names first. Your language may have a particular way of introducing the author of a letter, and if it would be helpful to your readers, you could use it here. Alternate translation: “From Paul” (See: [First, Second or Third Person](#))

Paul (ULT)**I,} Paul, {am writing this letter (UST)**

Paul is the name of a man, an apostle of Jesus. See the information about him in Part 1 of the Introduction to Romans. (See: [How to Translate Names](#))

a servant of Christ Jesus, a called apostle (ULT)**I serve the Messiah Jesus. He called me to be an apostle (UST)**

These two phrases give further information about Paul. He describes himself as being someone given the position and authority of being Christ's **servant** and **apostle**. (See: [Distinguishing Versus Informing or Reminding](#))

a called apostle, set apart (ULT)**He called me to be an apostle and specially chose me (UST)**

If your language does not use the passive form in this way, you can state this in active form or in another way that is natural in your language. Alternate translation: “whom Jesus called to be an apostle and set apart” (See: [Active or Passive](#))

for the gospel of God (ULT)**to proclaim God's good news (UST)**

Here, **for** introduces a purpose clause. Paul is stating the purpose for which Jesus **set** him **apart**. Use a natural way in your language for introducing a purpose clause. but I was hindered until now (ULT) But {God} has prevented me from visiting you until the present time (UST)

Paul assumes that his readers will know that **until now** means "even at the present time." He does not mean that he was no longer **hindered** at the moment he wrote these words. If this might confuse your readers, you could state this explicitly. Alternate translation: "but I have been hindered and still am now" (See: [Assumed Knowledge and Implicit Information](#))

I was hindered (ULT) God} has prevented me from visiting you (UST)

If your language does not use the passive form in this way, you could express the idea in active form or in another way that is natural in your language. If you must state who did the action, Paul implies that "God" did it. Alternate translation: "God hindered me" (See: [Active or Passive](#))

a likeness of an image (ULT) idols that resemble (UST)

The words translated as **likeness** and **image** were used in the Greek translation of the Old Testament to refer to the same thing ([Genesis 1:26](#)). Here Paul is using the possessive form to indicate that **image** is an explanation of **likeness**. Use a word or phrase that introduces a further explanation or elaboration in your language. Alternate translation: “a likeness, that is, an image” (See: [Possession](#))

ULT

and of birds, and of four-footed beasts, and of creeping things (ULT)
birds, four-legged animals, and animals that crawl {on the ground (UST)}

Paul is leaving out some of the words that a phrase would need in many languages to be complete. If your readers might misunderstand this, you could supply these words from earlier in the verse. Alternate translation: “and likenesses of birds, and likenesses of four-footed animals, and likenesses of creeping things” (See: [Ellipsis](#))

of four-footed beasts (ULT)
four-legged animals (UST)

Alternate translation: “As a result” or “This is why” or “Because of this” (See: [Connect — Reason-and-Result Relationship](#))

God gave them over to the lusts of their hearts (ULT) God lets these people do the lustful things that they desire to do (UST)

Paul speaks figuratively of these people as if **God** were physically giving them to **lusts**. He means that God is allowing them to have what they desire. If this might confuse your readers, you could express the meaning plainly. Alternative translation: “God permitted them to become controlled by the lusts of their hearts” (See: [Metaphor](#))

the lusts of their hearts (ULT) do the lustful things...that they desire to do (UST)

Paul is using the possessive form to describe **lusts** that come from **their hearts**. If this is not clear in your language, you could state the meaning explicitly. Alternate translation: “the lusts that come from their hearts” (See: [Possession](#))

for uncleanness (ULT) so that they become {spiritually} impure (UST)

Here Paul uses **uncleanness** figuratively to refer to sexual immorality as if it were something dirty. He means that these lustful people become spiritually impure as a result of doing sexually immoral acts. If your readers would not understand this, you could use an equivalent metaphor from your culture or express the meaning plainly. Alternative translation, “to become sexually immoral” (See: [Metaphor](#))

to dishonor (ULT) and they disgrace...by doing sexually immoral acts (UST)

Here, **to dishonor** could refer to: (1) the result of God giving the people **over to their lusts**. Alternate translation: “which results in them dishonoring” (2) the purpose for which **God gave them over to their lusts**. Alternate translation: “in order to dishonor” (See: [Connect — Goal \(Purpose\) Relationship](#))

Romans 2

Romans 2 General Notes

Structure and formatting

All mankind is condemned because of sin (1:18–3:20)

- All non-Jews have sinned (1:18–32)
- All Jews have sinned (2:1–3:8)

In this chapter Paul shifts his audience from Roman Christians to people who “judge” other people and do not believe in Jesus. (See: [judge](#), [judgment](#) and [believe](#), [believer](#), [belief](#), [unbeliever](#), [unbelief](#))

Special concepts in this chapter

“The Law”

In this chapter Paul uses the singular noun “the law” to refer to the group of laws that God gave Israel through Moses. Paul says that those who try to obey the Law of Moses will not be justified by trying to obey it. If your language does not use singular nouns in that way, you can use a different expression. (See: [Collective Nouns](#) and [law](#), [law of Moses](#), [law of Yahweh](#), [law of God](#))

Other possible translation difficulties in this chapter

In [verses 1–5](#) Paul uses the singular pronoun “you” and the singular noun “man” to refer to all people in general. If your language does not use singular pronouns or singular nouns to refer to a group of people, you can use a different expression. (See: [Crowd](#) and [Collective Nouns](#))

Romans 2:1

Therefore (ULT) Consequently (UST)

Therefore here marks a new section of the letter. It also introduces a result clause that summarizes the consequences of the behavior that Paul described in [1:18-32](#). Use a natural way in your language to indicate result. Alternate translation: “As a result” or “So then” (See: [Connect — Reason-and-Result Relationship](#))

Paul uses the singular pronoun **you** here to refer to all people in general. See the discussion of this in the General Notes for this chapter. Alternate translation: “every one of you is ... every one of you judges ... every one of you condemns yourself ... every one of you who judges practices” (See: [Crowd](#))

UST

¹ Consequently, any one of you **who judges another person** cannot excuse yourself {at all} {when God condemns you}. {This is} because you **are actually condemning** yourself when **you judge** someone else, since you **who judge someone else** do the exact same things {that they do}!

in that which (ULT) **when (UST)**

The word translated **that which** is a pronoun that refers to any way or any time a person might judge someone else. You may need to make this explicit in your language. Alternate translation: “anytime” or “in anything that” (See: [Pronouns — When to Use Them](#))

Here, **the other** refers to any other person. You may need to make this explicit in your language. Alternate translation: “any other person” (See: [Generic Noun Phrases](#))

Here, **judgment** is spoken of figuratively as though it were a person who someone could **escape** from. Paul means that no one can avoid God’s judgment. If this might confuse your readers, you could express the meaning in a non-figurative way. Alternate translation: “that you will not prevent God’s judgment” (See: [Personification](#))

the riches of his kindness and forbearance and patience (ULT)

Paul speaks figuratively of God's **kindness and forbearance and patience** as if they were wealth that could be acquired or rejected. If this might confuse your readers, you could use a simile or express the meaning plainly. Paul speaks figuratively of the non-Jewish people obeying some basic rules from the Law of Moses as if they were showing **the work of the law** to other people. He means that non-Jewish people demonstrate that they naturally understand some rules of the law by obeying those rules. So {even though you Jews have convinced yourself that these things are true}, you should teach yourselves to do what you teach others to do {because you don't do those things}! You keep telling others that they should not steal, but you steal (UST)

In [verses 21–23](#) Paul transitions from his description of the Jews in [verses 17–20](#) to a series of rhetorical questions. These questions emphasize the hypocrisy of the Jews, who thought they were superior to non-Jews because they knew the Law of Moses. Romans 2:22

You, who says not to commit adultery, do you commit adultery? You, who abhor idols, do you rob temples (ULT)

You keep telling {people} not to have sexual relations with people whom they did not marry, {but} you do so! You {supposedly} detest idols, {but} you ransack temples {that contain idols (UST)

Like in the previous verse, Paul is not asking for information here, but is using the question form twice to emphasize the truth of what he is saying. If you would not use a rhetorical question for this purpose in your language, you could translate his words as statements or exclamations and communicate the emphasis in another way. Alternate translation: "You, who says not to commit adultery, actually commit adultery! You, who abhor idols, actually rob temples!" (See: [Rhetorical Question](#))

do you rob temples (ULT)
but} you ransack temples {that contain idols (UST)

Here Paul implies that the **temples** the Jews **rob** are where **idols** are kept and worshipped. If it would be helpful to your readers, you could say that explicitly. Alternate translation: "do you rob temples where idols are kept" or "should you actually enter an idol temple and rob it" (See: [Assumed Knowledge and Implicit Information](#))

Translation Words - ULT

- to commit adultery
- do you commit adultery
- idols

Translation Words - UST

- to have sexual relations with people whom they did not marry

Romans 2:23

You, who boast in the law, do you dishonor God through the transgression of the law (ULT)

Like in the previous two verses, Paul is not asking for information here, but is using the question form to emphasize the truth of what he is saying. If you would not use a rhetorical question for this purpose in your language, you could translate his words as a statement or exclamation and communicate the emphasis in another way. Alternate translation: "You, who boast in the law, actually dishonor God through the transgression of the law!" (See: [Rhetorical Question](#))

You, who boast in the law (ULT)

Paul uses **in the law** figuratively as if it were something that people could boast inside of. He means that the Jews brag that they are the only nation who knows God's law, which has similar meaning to "boast in God" in [verse 17](#). If this might confuse your readers, you could express the meaning plainly. Alternative translation, "You, who brag that you are the only ones who know God's law" (See: [Metaphor](#))

through the transgression of the law (ULT) by disobeying those laws (UST)

If your language does not use an abstract noun for the idea of **transgression**, you could express the same idea in another way. Alternate translation: "by transgressing the law" or "by breaking the law" (See: [Abstract Nouns](#))

Translation Words - ULT

For here indicates that what follows is the reason why the previous statement is true. If it might help your readers, you could state this explicitly. Alternate translation: “These things I have said about you are true because” (See: [Connect — Reason-and-Result Relationship](#))

**the...name of God is blasphemed among the Gentiles because of you (ULT)
God...The nations say bad things about...God...because of {how wickedly} you {Jews act (UST)**

In this clause Paul quotes part of Isaiah 52:5. It may be helpful to your readers to indicate this by setting off all of this material with quotation marks or with whatever punctuation or convention your language uses to indicate a quotation. (See: [Quote Markings](#))

the...name of God (ULT)

God...God (UST)

Paul is using the possessive form to indicate the **name** that belongs to **God**. Paul does not mean that **God** is a **name**. If this is not clear in your language, you could use a different expression. Alternate translation: “God’s name” (See: [Possession](#))

the...name of God (ULT)

God...God (UST)

Paul uses **the name of God** figuratively to refer to **God** himself. If this would be misunderstood in your language, you could express the meaning plainly, as in the UST. (See: [Synecdoche](#))

the...name of God is blasphemed among the Gentiles because of you (ULT)
God...The nations say bad things about...God...because of {how wickedly} you {Jews act (UST)

If your language does not use the passive form in this way, you can state this in active form or in another way that is natural in your language. Alternate translation: “the Gentiles blaspheme the name of God because of you” (See: [Active or Passive](#))

the...name of God is blasphemed among the Gentiles because of you (ULT)
God...The nations say bad things about...God...because of {how wickedly} you {Jews act (UST)

If it would be more natural in your language, you could reverse the order of these phrases, since the second phrase gives the reason for the result that the first phrase describes. Alternate translation: “because of you the name of God is blasphemed among the Gentiles” (See: [Connect — Reason-and-Result Relationship](#))

because of you (ULT)
because of {how wickedly} you {Jews act (UST)

Paul quotes Isaiah implying that the bad behavior of the Jews is what causes **the Gentiles** to blaspheme **the name of God**. Since the Jews were supposed to represent God to the world, their bad behavior misrepresented God so that the Gentiles blasphemed him. If it would be helpful to your readers, you could state that explicitly. Alternate translation: “as a result of how you act” or “because of the way you behave” (See: [Assumed Knowledge and Implicit Information](#))

because of you (ULT)
because of {how wickedly} you {Jews act (UST)

Here, **you** is the plural and refers to the Jewish people. This is the only occurrence of plural **you** in [verses 17–27](#). If it would be helpful to your readers, you could state this explicitly. Alternate translation: “you Jewish people” (See: [Forms of You](#))

just as it is written (ULT)
it is exactly as Isaiah wrote (UST)

If your language does not use the passive form in this way, you can state this in active form or in another way that is natural in your language. Since Paul is referring to something Isaiah wrote, you could indicate Isaiah as the subject. Alternate translation: “just as Isaiah wrote” (See: [Active or Passive](#))

it is written (ULT)
Isaiah wrote (UST)

Here Paul uses **it is written** to indicate a quotation from an Old Testament book (Isaiah 52:5). If it would be helpful in your language, you could use a comparable phrase that indicates that Peter is quoting from an important text. Alternate translation: “it had been written in the scriptures” (See: [Quotations and Quote Margins](#))

Alternate translation: "Jews will be judged along with Gentiles because" (See: [Connect — Reason-and-Result Relationship](#))

a transgressor of the law (ULT)

Paul is using the possessive form to describe a person who transgresses **the law**. If this is not clear in your language, you could use a different expression. Alternate translation: "one who transgresses the law" or "one who breaks the law"(See: [Possession](#))

your circumcision has become uncircumcision (ULT)
being circumcised does not benefit you at all (UST)

Here, **your circumcision becomes uncircumcision** is an exaggeration that Paul uses to show how important it is for God's people to **practice the law**. Paul does not mean that the person who transgresses God's **law** is no longer physically circumcised. If this would confuse your readers, you express the meaning plainly. Alternate translation: "it is as if you are not circumcised" or "it is the same as if you were never circumcised" (See: [Hyperbole](#))

Romans 3

Romans 3 General Notes

Structure and formatting

All mankind is condemned because of sin (1:18–3:20)

- All non-Jews have sinned (1:18–32)
- All Jews have sinned (2:1–3:8)
- Everyone has sinned (3:9–20)

Righteousness is received through Jesus Christ by trusting in him (3:21–5:21)

- God's righteousness is received through faith (3:21–26)
- No one can boast in works (3:27–31)

Some translations set each line of poetry farther to the right than the rest of the text to make it easier to read. The ULT does this with [verses 4](#) and [10–18](#) of this chapter, which are quotations from the Old Testament.

Important figures of speech in this chapter

Rhetorical Questions

In [verses 1–9](#) and [27–31](#) Paul frequently uses rhetorical questions in this chapter in order to answer objections that Jews might make about what he is saying. You may need to indicate that Paul is asking these questions as if he were a non-Christian Jew responding to his arguments. When Paul asks the rhetorical questions, he is speaking as if he were a non-Christian Jew arguing against Paul. When Paul answers those questions, he is speaking as himself. It may be helpful to your readers to indicate this change in speakers with quotation marks or with whatever other punctuation or convention your language uses to indicate quotations, as in the UST. (See: [Rhetorical Question](#) and [Quote Markings](#))

Romans 3:1

Connecting Statement:

In [verses 1–9](#) Paul uses a series of rhetorical questions and answers in order to emphasize that both “Jews and Greeks” are “under sin.”

What then {is (ULT) You Jews might say,} {"If what you have said is true,} then surely being a Jew is not advantageous (UST)

Here, **then** indicates that what follows is a response to what Paul said in the previous chapter, especially what he said in [2:28–29](#). If it might help your readers, you could state this explicitly. Alternate translation: “If these things are true, then what is” (See: [Connect — Reason-and-Result Relationship](#))

What then {is} the advantage of the Jew, or what {is} the benefit of the circumcision (ULT)

This verse contains two rhetorical questions connected by **or**. Paul is not asking for information, but is using these two questions here to express the objections that a Jew might have to what Paul said in the previous chapter, especially what he said in [2:28–29](#). If you would not use a rhetorical question for this purpose in your language, you could translate his words as a statement or an exclamation and communicate the emphasis in another way. Alternate translation: “Then the Jew certainly has no advantage, and circumcision certainly has no benefit!” (See: [Rhetorical Question](#))

What then {is} the advantage of the Jew, or what {is} the benefit of the circumcision (ULT)

If your language does not use abstract nouns for the ideas of **advantage** or **benefit**, you could express the same idea in another way. Alternate translation: “How then is being a Jew advantageous, or how is being circumcised beneficial” (See: [Abstract Nouns](#))

of the Jew (ULT)

You Jews might say...If what you have said is true...then surely being a Jew is not advantageous (UST)

Paul is using the possessive form **of the Jew** to describe for whom there is **the advantage**. If this is not clear in your language, you could use a different expression. Alternate translation: “for the Jew” (See: [Possession](#))

ULT

Romans 4

Romans 4 General Notes

Structure and formatting

Righteousness is received through Jesus Christ by trusting in him (3:21–5:21)

- God's righteousness is received through faith (3:21–26)
- No one can boast in works (3:27–31)
- The examples of Abraham and David (4:1–25)

Some translations set each line of poetry farther to the right than the rest of the text to make it easier to read. The ULT does this with [verses 7–8](#) of this chapter, which are words from the Old Testament.

Special concepts in this chapter

The purpose of the law of Moses

In this chapter Paul continues to develop his argument based on what he wrote in the previous chapter. He explains how God made Abraham, the ancestor of all Jews, righteous a long time before God gave the Jews the Law of Moses. Even Abraham could not become righteous by what he did. Rather, God made Abraham righteous on the basis of Abraham's faith. Obeying the law of Moses does not make a person righteous. People have always become righteous only by faith. (See: [just, justice, unjust, injustice, justify, justification](#) and [law, law of Moses, law of Yahweh, law of God](#) and [faith](#))

Circumcision

Circumcision was important to the Israelites. It identified a person as a descendant of Abraham. It was also a sign of the covenant between Abraham and Yahweh. However, being circumcised never made anyone righteous. In this chapter Paul uses "circumcision" to refer to Jews and "uncircumcision" to refer to non-Jews. (See: [circumcise, circumcised, circumcision, uncircumcised, uncircumcision](#) and [covenant](#))

Important figures of speech in this chapter

Rhetorical Questions

In [verses 1, 3, and 9–10](#) Paul continues using rhetorical questions like he did in the previous chapter. He does this in order to answer objections that Jews might make about what he is saying.

Romans 4:1

Connecting Statement:

Verses 1–12 are a series of rhetorical questions and answers that Paul uses to emphasize that even **Abraham**, the ancestor of the Jewish people, was made righteous by God “through faith.”

What then (ULT)

You Jews might say,} {"If what you have said is true,} then surely our physical ancestor Abraham found out {about it (UST)

ULT

¹ What then will we say {that} **Abraham**, our **forefather** according to **the flesh**, has discovered?

UST

¹ {You Jews might say,} {"If what you have said is true,} then surely our physical ancestor **Abraham** found out {about it}.

Here, **then** indicates that what follows is a response to what Paul said in the previous chapter, especially what he said in 3:27–31. See how you translated **What then** in 3:1. (See: [Connect — Reason-and-Result Relationship](#))

What then will we say {that} Abraham, our forefather according to the flesh, has discovered (ULT)

You Jews might say,} {"If what you have said is true,} then surely our physical ancestor Abraham found out {about it (UST)

In this verse Paul is not asking for information, but is using a question to express the objections that a Jew might have to what Paul said in the previous chapter, especially what he said in 3:27–31. If you would not use a rhetorical question for this purpose in your language, you could translate his words as a statement or an exclamation and communicate the emphasis in another way. Alternate translation: “Then we will say that Abraham, our forefather according to the flesh, has surely discovered something!” (See: [Rhetorical Question](#))

What then will we say {that} Abraham, our forefather according to the flesh, has discovered (ULT)

You Jews might say,} {"If what you have said is true,} then surely our physical ancestor Abraham found out {about it (UST)

In this verse and the first part of the next verse, Paul is speaking as if he were a non-Christian Jew arguing against Paul. It may be helpful to your readers to indicate this with quotation marks or with whatever other punctuation or convention your language uses to indicate quotations, as in the UST. (See: [Quote Markings](#))

will we say (ULT)

You Jews might say...If what you have said is true...then surely our physical ancestor Abraham found out...about it (UST)

In [verses 1–9](#) Paul uses **we** exclusively to speak of himself and other Jews. Your language may require you to mark these forms. Alternate translation: “will we Jews say” (See: [Exclusive and Inclusive ‘We’](#))

**that} Abraham, our forefather according to the flesh, has discovered (ULT)
You Jews might say...If what you have said is true...then surely our physical
ancestor Abraham found out...about it (UST)**

If it would be more natural in your language, you could reverse the order of these phrases. Alternate translation: "that Abraham has discovered, who is our forefather according to the flesh" (See: [Information Structure](#))

**according to the flesh (ULT)
You Jews might say...If what you have said is true...then surely our physical

Romans 4:2

For if Abraham was justified by works, he has a boast (ULT)

This must be true} because if Abraham became righteous based on doing the things {that God commanded in his laws}, then he could brag {about it (UST)

These clauses continue the the statements that a Jew might have to against Paul that began in the previous verse. You may need to indicate this with a closing quotation mark at the end of these clauses or with whatever other punctuation or convention your language uses to indicate the end of a quotation. (See: [Quote Markings](#))

For (ULT)

This must be true} because (UST)

For here indicates that what follows is a the reason for the statement in the previous verse. If it might help your readers, you could state this explicitly. Alternate translation: “This must be the case because” (See: [Connect — Reason-and-Result Relationship](#))

if...Abraham was justified by works, he has a boast (ULT)

if...Abraham became righteous based on doing the things {that God commanded in his laws}, then he could brag {about it (UST)

Paul is speaking as if this were a hypothetical possibility, but he means that the unbelieving Jew might think that this is actually true. In Paul’s time some Jewish teachers taught that Abraham had a right to boast because of his faith. However, since translating this as if it were true might confuse your readers, it is best to use a hypothetical sentence, as in the UST. (See: [Connect — Factual Conditions](#))

Abraham...was justified (ULT)

Abraham...became righteous (UST)

If your language does not use the passive form in this way, you could express the idea in active form or in another way that is natural in your language. If you must state who did the action, Paul implies that “God” did it. Alternate translation: “God justified Abraham” or “God made Abraham right with himself” (See: [Active or Passive](#))

by works (ULT)

based on doing the things {that God commanded in his laws (UST)

Paul assumes that his readers would understand that **works** means “works of the law” as in 3:28. If it would be helpful to your readers, you could state this explicitly. Alternate translation: “by doing what God requires from his people” (See: [Assumed Knowledge and Implicit Information](#))

ULT

but not before God (ULT)

On the contrary, {I would say that} {Abraham could} not possibly {boast about it} to God (UST)

In this clause Paul begins to respond to the rhetorical questions he wrote in the previous clauses and previous verse. If it might help your readers, you could state this explicitly. Alternate translation: "I would respond by saying, 'But not before God!'" (See: [Assumed Knowledge and Implicit Information](#))

but not before God (ULT)

On the contrary, {I would say that} {Abraham could} not possibly {boast about it} to God (UST)

What follows the word **but** here is an emphatic contrast to what was just stated. Paul is negating the argument that he presented earlier in this verse and in the previous verse. You could make this emphasis explicit by replacing the period with an exclamation point or another natural way in your language for introducing an emphatic contrast. Alternate translation: "but certainly not before God!" or "however not from God's perspective!" (See: [Connect — Contrast Relationship](#))

before God (ULT)

I would say that...Abraham could} not possibly...boast about it} to God (UST)

Paul speaks figuratively of **Abraham** as if he were located in the presence of **God**. He means that Abraham could not **boast** to God about his **righteousness** if it was **righteous by works**. If this might confuse your readers, you could express the meaning plainly. Alternative translation: "from God's perspective" (See: [Metaphor](#))

This verse means the same thing as the two clauses in the previous verse. Paul the same thing here, in a slightly different way, to emphasize how **Blessed** people are home God forgives for their sins. Use a natural way in your language to express this emphasis. Alternate translation: "How truly blessed is a man whose sin the Lord does certainly not count!" (See: [Parallelism](#))

a man (ULT)

Paul quotes David speaking of people in general, not of one particular **man**. If it would be helpful in your language, use a more natural phrase. Alternate translation: "a person" (See: [Generic Noun Phrases](#))

If your language does not use an abstract noun for the idea of **sin**, you could express the same idea in another way. Alternate translation: "sinful deeds" (See: [Abstract Nouns](#))

Paul quotes David using **count** figuratively to refer to God remembering or regarding people's sins after he has forgiven them. If this might confuse your readers, you could express the meaning plainly. Alternate translation: "does certainly not regard" (See: [Metaphor](#))

certainly not (ULT)
never again (UST)

The phrase **certainly not** translates two negative words in Greek. Paul quotes David using them together to emphasize how certain it is that God does not regard people's sin after he has forgiven them. Use a natural way in your language to indicate this emphasis. is...blessedness...this...upon the circumcision, or also upon the uncircumcision (ULT)

Paul is not asking for information, but is using the question form here to emphasize the truth of what he is saying. If you would not use a rhetorical question for this purpose in your language, you could translate his words as a statement or an exclamation and communicate the emphasis in another way. Alternate translation: “this blessedness is surely upon the circumcision and also upon the uncircumcision!” (See: [Rhetorical Question](#))

Paul speaks of **blessedness** figuratively as if it were an object that could be put **upon** someone. If you would not use a rhetorical question for this purpose in your language, you could translate his words as a statement or an exclamation and communicate the emphasis in another way. You may need to combine these sentences. Alternate translation: “Then you surely know how it was counted to him! Here, **raised** is an idiom for causing someone who has died to become alive again. If it would be helpful in your language, you could express the meaning plainly. Alternate translation: "who caused Jesus our Lord to live again" (See: [Idiom](#))

**from {the} dead {ones (ULT)
after he had died (UST)**

Here, the phrase translated **the dead ones** refers to dead people. Here it means that Jesus physically died and was buried. If your language has a word or phrase for the place that dead people go, you could use it here. Alternate translation: "from the place where dead people are" (See: [Idiom](#))

who...our...our justification (ULT)
Jesus...we sinned...against God...make us righteous (UST)

Here the pronoun **who** refers to Jesus, and **our** refers to all “those who believe” in him, as mentioned in the previous verse. If this might confuse your readers, you could state this explicitly. Alternate translation: “Jesus ... we believers’ ... the justification of us believers” (See: [Pronouns — When to Use Them](#))

who was given up...was raised (ULT)
God allowed people to kill Jesus...God...caused Jesus to become alive again (UST)

If your language does not use the passive form in this way, you could express the idea in active form or in another way that is natural in your language. If you must state who did the action, Paul implies that “God” did it. Alternate translation: “whom God gave up ... God raised” (See: [Active or Passive](#))

who was given up (ULT)
God allowed people to kill Jesus (UST)

Paul speaks figuratively of Jesus as if he were a thing that could be **given up** to another person. Paul means that God allowed people to arrest and kill Jesus. If your readers would not understand this, you could express the meaning plainly. Alternative translation: “who was allowed to be killed” (See: [Metaphor](#))

for the sake of our trespasses...for the sake of our justification (ULT)

for the sake of our trespasses (ULT)
because we sinned {against God (UST)

Here Paul uses **for the sake of** differently than he did in [verses 23–24](#). Here Paul uses this phrase to indicate the reason why Jesus **was given up**. If this might confuse your readers, you could state this explicitly. Alternate translation: “because of our trespasses” (See: [Connect — Reason-and-Result Relationship](#))

Here Paul uses **for the sake of** differently than he did in the first part of this verse. Here Paul uses this phrase to indicate one of the purposes for Jesus being **raised**. If this might confuse your readers, you could state this explicitly. Alternate translation: “for the purpose of our justification” (See: [Connect — Goal \(Purpose\) Relationship](#))

Romans 5

Romans 5 General Notes

Structure and formatting

Righteousness is received through Jesus Christ by trusting in him (3:21–5:21)

- God's righteousness is received through faith (3:21–26)
- No one can boast in works (3:27–31)
- The examples of Abraham and David (4:1–25)
- The blessings of justification (5:1–11)
- Adam and Christ are compared (5:12–5:21)

Special concepts in this chapter

The second Adam

Adam was the first man and the first “son” of God. He was created by God. He brought sin and death into the world by eating the forbidden fruit. In this chapter Paul describes Jesus as the “second Adam” and the true son of God. Jesus brings eternal life and overcame sin and death by dying on the cross. (See: [Son of God](#), [the Son](#) and [die, dead, deadly, death](#))

Other possible translation difficulties in this chapter

In this chapter the pronouns “we”, “us”, and “our” refer inclusively to all believers in Christ. Paul calls these people those who have been “justified by faith” in [verse 1](#). Your language may require you to mark these forms. (See: [Exclusive and Inclusive ‘We’](#))

Romans 5:1

Therefore (ULT) Consequently (UST)

Therefore, here marks a new section of the letter. It also introduces a result clause that summarizes the blessed results of a person becoming righteous by trusting in Jesus, which Paul just discussed in [1:18–4:25](#). Use a natural way in your language to indicate result. Alternate translation: “Since all these things are true” or “As a result of everything that I have just told you being true” (See: [Connecting Words and Phrases](#))

having been justified...by faith, let us have peace with God through our Lord Jesus Christ (ULT)

because we have become righteous...we should live peacefully with God by means of {what} our Lord Jesus the Messiah {did for us...by trusting {in Jesus (UST)

If it would be more natural in your language, you could reverse the order of these phrases, since the second phrase gives the reason for the result that the first phrase describes. Alternate translation: “Let us have peace with God through our Lord Jesus Christ, because we have been justified by faith” or “We can have peace with God through our Lord Jesus Christ, since we have been justified by faith” (See: [Connect — Reason-and-Result Relationship](#))

having been justified (ULT) because we have become righteous (UST)

If your language does not use the passive form in this way, you could express the idea in active form or in another way that is natural in your language. If you must state who did the action, Paul implies that “God” did it. Alternate translation: “because God makes us righteous” or “since God makes us right with him” (See: [Active or Passive](#))

by faith (ULT) by trusting {in Jesus (UST)

See how you translated this phrase in [4:16](#). (See: [Abstract Nouns](#))

let us have peace (ULT) we should live peacefully (UST)

Some ancient copies say “we have peace,” which makes sense, since [verses 1–5](#) are a list of blessings that belong to those people who have been **justified by faith**. If the reading **let us have peace** is correct, this phrase may be indicating Paul’s desire that his fellow believers continue to experience the peace they have with God. If a translation of the Bible already exists in your area, you could consider using the reading in that translation. If there is not already a Bible translation in your area, we recommend that you follow the readings of ULT and UST. (See: [Textual Variants](#))

ULT

¹ Therefore, [having been justified](#) by [faith](#), let us have [peace](#) ^[1] with [God](#) through our [Lord Jesus Christ](#),

UST

¹ Consequently, we should live [peacefully](#) with [God](#) by means of {[what](#)} our [Lord Jesus the Messiah](#) {[did for us](#)} because we have become righteous by [trusting](#) {[in Jesus](#)}.

let us have (ULT) we should live (UST)

Paul uses the phrase **let us have peace** to exhort his Christian readers to continue living peacefully with God. It is not a command. This phrase does not imply that those who have been **justified by faith** do not yet have peace with God. Use a form in your language that communicates an exhortation. Alternate translation: “we must continue to have” (See: [Imperatives — Other Uses](#))

let us have peace (ULT) we should live peacefully (UST)

If your language does not use an abstract noun for the idea of **peace**, you could express the same idea with a verbal form, as in the UST. (See: [Abstract Nouns](#))

let us have peace (ULT) we should live peacefully (UST)

Paul speaks figuratively of these people as if they could possess or own **peace**. He means that they can live peacefully with God. If your readers would not understand what **have peace** means in this context, you could express the meaning plainly. Alternative translation: “let us live in a peaceful manner” (See: [Metaphor](#))

let us have...our (ULT) we should live...our (UST)

Here and throughout this chapter the pronouns **us** and **our** inclusively refer to all those **having been justified by faith** in Jesus. If this might confuse your readers, you could state the meaning explicitly. Alternate translation: “let us believers ... our” (See: [Exclusive and Inclusive 'We'](#))

through our Lord Jesus Christ (ULT) by means of {what} our Lord Jesus the Messiah {did for us (UST)

Here, **through** indicates that **our Lord Jesus Christ** is the means by which believers have **peace with God**. This refers to what Jesus did for believers in order for them to have **peace with God**, as briefly mentioned in [4:25](#). If this might confuse your readers, you could state this explicitly. Alternate translation: “through what our Lord Jesus Christ did for us” or “which was caused by our Lord Jesus Christ” (See: [Assumed Knowledge and Implicit Information](#))

through whom we also have access by {this} faith into this grace in which we stand (ULT)
Our Lord Jesus the Messiah also allows us to continually experience how kind God is by trusting in him (UST)

If your language does not use abstract nouns for the ideas of **access**, **faith**, or **grace**, you could express the same ideas another way. Alternate translation: “through whom we also access and stand in how gracious God is by trusting in him” (See: [Abstract Nouns](#))

whom (ULT)
Our Lord Jesus the Messiah...allows us (UST)

The pronoun **whom** refers to “our Lord Jesus Christ,” as mentioned in the previous verse. If this might confuse your readers, you could state this explicitly. Alternate translation: “through our Lord Jesus Christ” (See: [Pronouns — When to Use Them](#))

also...we...have...we stand...we boast (ULT)
also...to...experience...continually...We can...boast (UST)

The pronoun **we** in this verse refers inclusively to all believers in Christ. See the discussion of this in the General Notes for this chapter. Alternate translation: “we believers also have ... we believers stand ... we believers boast” (See: [Exclusive and Inclusive ‘We’](#))

into this grace in which we stand (ULT)
continually...how kind God is (UST)

Paul speaks figuratively of **grace** as if it were a location that someone could access and stand within. He means that trusting in Jesus allows believers to confidently experience how gracious God is toward his people. If your readers would not understand this, you express the meaning plainly. Alternative translation: “to confidently experience how kind God is” or “to safely experience how gracious God is” (See: [Metaphor](#))

we boast on the basis of hope of the glory of God (ULT)
We can confidently boast that we will share in God’s glorious status (UST)

If your language does not use abstract nouns for the ideas of **hope and **glory**, you could express the same ideas in another way. Alternate translation: “we may boast because we are confident that we will be glorified with God” (See: [Abstract Nouns](#))

of the glory of God (ULT)
that we will share in God’s glorious status (UST)

Paul is using possessive forms to describe how **glory** relates to **God**. This could refer to: (1) the glory that God shares with believers. This was the same glory that God shared with humans when he created them, but which they lost when the first humans sinned, as mentioned in [3:23](#). Alternate translation: “of sharing in the glory God has” or “of the glory from God” (2) glorifying God, as in the similar phrase “the glory of the imperishable God” in [1:23](#). Alternate translation: “of glorifying God” (See: [Possession](#))

ULT

² through whom we also have access by {this} **faith** into this **grace** in which we stand, and **we boast** on the basis of **hope** of the **glory** of God.

UST

² Our Lord Jesus the Messiah also allows us to continually experience **how kind God is by trusting in him**. **We can confidently boast that we will share in God’s glorious status**.

- that we will share in God's glorious status

Romans 5:3

And not only this (ULT)
This is not the only thing {about which we can confidently boast (UST)

The pronoun **this** here refers to boasting about “the hope of the glory of God,” as mentioned in the previous verse. If this might confuse your readers, you could state this explicitly. Alternate translation: “And we not only boast on the basis of the hope of the glory of God” (See: [Pronouns — When to Use Them](#))

we also boast in {our} sufferings (ULT)
we can also confidently boast about the painful things {that we have experienced (UST)

Here, **in our sufferings** could mean: (1) believers can **boast** about their **sufferings**. Alternate translation: “we can also boast about our sufferings” (2) believers can boast while they are experiencing **sufferings**. Alternate translation: “we can also boast when we are distressed” (See: [Metaphor](#))

knowing (ULT)

Here, **knowing** indicates that what follows in this verse and the next verse are the reasons why believers can **boast in our sufferings**. If this might confuse your readers, you could state this explicitly. Alternate translation: “since we know” (See: [Connect — Reason-and-Result Relationship](#))

in {our} sufferings...this} suffering...endurance (ULT)

If your language does not use abstract nouns for the ideas of **sufferings**, **suffering**, and **endurance**, you could express the same ideas with verbal forms. Alternate translation: “when we suffer ... when we suffer ... a way to endure” (See: [Abstract Nouns](#))

this} suffering produces endurance (ULT)
a painful thing {that we experience} causes us to endure {hardships better than before (UST)

Paul uses a repetitive series of clauses in this clause and the next verse to show how many reasons there are for Christians to boast about their suffering. This repetitive style of speaking or writing is called a “litany.” Use a form in your language that someone would use to list a series of reasons for something. (See: [Litany](#))

ULT

³ And not only this, but we also **boast** in {our} sufferings, knowing that {this} suffering produces endurance;

UST

³ This is not the only thing {about which we can confidently boast}. Rather, **we** can also **confidently boast** about the painful things {that we have experienced}. {We can do this} because we know that a painful thing {that we experience} causes us to endure {hardships better than before}.

**this} suffering produces endurance (ULT)
a painful thing {that we experience} causes us to endure {hardships better
than before (UST)**

Paul speaks figuratively of **endurance** as if it were an object that could be produced. He means that when Christians trust in God while **suffering**, they develop greater **endurance** than they had before experiencing **suffering**. If this might confuse your readers, you could express the meaning plainly. Alternative translation: "this suffering helps us know how to endure" (See: [Metaphor](#))

And being able to endure {hardships} results in {God} approving {us}. And {when God} approves {us, we become more} confident (UST)

Paul is leaving out some of the words that a sentence would need in many languages to be complete. If this would be misunderstood in your language, you could supply these words from the context.

Alternate translation: “and endurance produces character, and this character produces hope” (See: [Ellipsis](#))

ULT

And when we become confident, we will not be disappointed. {This is} because the Holy Spirit has enabled us to deeply understand {how much} God loves us. God has given us this Holy Spirit (UST)

If it would be more natural in your language, you could reverse the order of these clauses, since the second clause gives the reason for the result that the first clause describes. Alternate translation: “And because the love of God has been poured into our hearts through the Holy Spirit, who has been given to us, that hope does not disappoint” (See: [Connect — Reason-and-Result Relationship](#))

And that hope (ULT)

Paul speaks figuratively of **love** as if it were something that could be **poured** out of a container, and speaks figurative of **our hearts** as though they were containers that could be filled. He means that the Holy Spirit has completely revealed to God’s people how much God loves them. If this might confuse your readers, you could express the meaning plainly. Alternate translation: “during the time we were still being weak” (See: [Connect — Simultaneous Time Relationship](#))

still...we...being weak (ULT)

For here indicates that what follows in this verse explains how surprising it is that Christ would die on the behalf of ungodly sinners, as stated in the previous verse. If this might confuse your readers, you could use a different expression, as in the UST. (See: [Connecting Words and Phrases](#))

Paul uses **someone** twice in this verse to indicate two hypothetical situations. He does this to help his readers recognize how rare it is for someone to voluntarily die on behalf of another person. Use the natural form in your language for expressing hypothetical situations. Alternate translation: "Let us consider how rare it would be for someone to die ... Let us, though, suppose that just maybe someone" (See: [Hypothetical Situations](#))

What follows the word **though** here is in contrast to what Paul stated in the previous sentence. Although **someone will hardly die** for a **righteous person**, **someone** might possibly be willing to die for a **good person**. Although Paul does not state the difference between a **righteous person** and a **good person**, he contrasts both examples to emphasize how unlikely it is for a person to die on the behalf of another person. Use a natural way in your language for introducing a contrast. Alternate translation: "By contrast, perhaps someone" (See: [Connect — Contrast Relationship](#))

might even dare to die (ULT) might...even bravely consider dying (UST)

Paul speaks figuratively of dying as if it were a **dare** or challenge for **someone** to overcome. He means that **someone** would be brave enough to give their life for the sake of someone else. For (ULT) Indeed (UST)

For here indicates that what follows in this verse explains what Paul said in the previous verse. If this might confuse your readers, you could use an alternate expression. Alternate translation: "In fact" (See: [Connecting Words and Phrases](#))

if...being enemies (ULT) Therefore...while we were {still} {his} enemies (UST)

Paul is speaking as if this were a hypothetical possibility, but he means that it is actually true. If your language does not state something as a condition if it is certain or true, and if your readers might misunderstand and think that what Paul is saying is not certain, then you can translate his words as an affirmative statement. Alternate translation: "since being enemies" (See: [Connect — Factual Conditions](#))

we were reconciled to God through the death of his Son (ULT) God's Son {Jesus} died to reconcile us to God (UST)

If your language does not use passive forms in this way, you could express these ideas with active forms or in other ways that are natural in your language. Alternate translation: "the death of his Son reconciled us to God" (See: [Active or Passive](#))

of his Son (ULT) God's Son {Jesus} (UST)

Son is an important title for Jesus. (See: [Translating Son and Father](#))

much more (ULT) it is even more certain (UST)

Here, **much more** strongly emphasizes that what follows is an important result of **having been reconciled** with **God**. See how you translated this phrase in the previous verse. Alternate translation: "it is much more certain" (See: [Connecting Words and Phrases](#))

having been reconciled (ULT) since Jesus has {already} reconciled us to God (UST)

If your language does not use the passive form in this way, you could express this idea with an active form or in another way that is natural in your language. Alternate translation: "he having reconciled us" (See: [Active or Passive](#))

ULT

¹⁰ For if, being **enemies**, we were **reconciled to God** through the **death** of his **Son**, much more, **having been reconciled**, **will we be saved** by his **life**.

UST

¹⁰ Indeed, God's **Son** {Jesus} **died to reconcile us to God** while we were {still} {his} **enemies**. Therefore, **since Jesus has** {already} **reconciled us to God**, it is even more certain **that he will rescue us** {when God punishes sinners} because **he is alive** {again}!

having been reconciled (ULT)
since Jesus has {already} reconciled us to God (UST)

This clause states the reason why **we** can be **much more** certain that **we will be saved**. Use the most natural way in your language to express a reason clause. Alternate translation: “because we have been reconciled” (See: [Connect — Reason-and-Result Relationship](#))

will we be saved by his life (ULT)
that he will rescue us {when God punishes sinners} because he is alive {again (UST)}

If your language does not use the passive form in this way, you could express this idea with an active form or in another way that is natural in your language. Alternate translation: “his life will save us” (See: [Active or Passive](#))

will we be saved (ULT)
that he will rescue us {when God punishes sinners (UST)}

Paul is leaving out some of the words that a clause would need in many languages to be complete. If your readers might misunderstand this, you could supply these words from the similar statement in the previous verse. Alternate translation: “we will be saved when God finally judges people” (See: [Ellipsis](#))

his life (ULT)
he is alive {again (UST)}

Here **life** implies the **life** that Jesus has after God made him alive again. This resurrection **life** showed that God had accepted Jesus’ death as the payment for the sins of everyone who trusts in Jesus. If this might confuse your readers, you could state this explicitly. Alternate translation: “Jesus’ life after God caused him to become alive again” (See: [Assumed Knowledge and Implicit Information](#))

his life (ULT)
he is alive {again (UST)}

If your language does not use an abstract noun for the idea of **life**, you could express the same idea in another way. Alternate translation: “him being alive” (See: [Abstract Nouns](#))

we...also...are boasting in God (ULT)
we also boast about God (UST)

Paul speaks figuratively of these people as if they were boasting inside of God. Paul means that these believers in Christ **boast** about how great God is. If this might confuse your readers, you could express the meaning plainly. Alternative translation: “we also are boasting about how great God is” or “we also are boasting because of God” (See: [Metaphor](#))

Here, **through** indicates that **our Lord Jesus Christ** is the means by which believers can boast. This refers to what Jesus did for believers in order for them to be able to boast. If this might confuse your readers, you could state this explicitly. Alternate translation: “through what our Lord Jesus Christ did for us” (See: [Assumed Knowledge and Implicit Information](#))

through whom we now have received the reconciliation (ULT)
Jesus has already reconciled us {with God (UST)}

Here, **through** indicates that Jesus is the means by which believers **have received the reconciliation**. This refers to what Jesus did for believers in order for them to have peace with God, as briefly mentioned in [4:25](#). If this might confuse your readers, you could state this explicitly. Alternate translation: “through what he did for us that caused us to receive the reconciliation” (See: [Assumed Knowledge and Implicit Information](#))

For this reason (ULT)**So then (UST)**

For this reason here indicates that what follows in [verses 12–21](#) is Paul's explanation of the relationship between human **sin** and God's grace. If this might confuse your readers, you could use a different expression. Alternate translation: "Because of this" (See: [Connecting Words and Phrases](#))

just as through one man sin entered into the world, and through sin, death, so also death spread to all men (ULT)

Here Paul speaks of **sin** and **death** figuratively as if they were objects that could enter a place or spread within people. Paul means that the way God intended for **the world** and human beings to function became thoroughly corrupted by **sin** and **death**. If this might confuse your readers, you could express the meaning plainly. Alternate translation: "just as through one man sinned began to exist in the world, and that sin would result in that man's death, so also all men born after that man would die too" (See: [Metaphor](#))

through one man (ULT)**because one man sinned (UST)**

Paul uses the phrase **one man** to refer to Adam, the first human being. If it would be helpful to your readers, you could state this explicitly, as in [verse 14](#). Alternate translation: "through the first man Adam" (See: [Assumed Knowledge and Implicit Information](#))

sin...sin, death, so also...death (ULT)**sin...living things started} to die...because he sinned...In the same way...as well...started dying (UST)**

through sin, death (ULT)**living things started} to die because he sinned (UST)**

men (ULT)**everyone (UST)**

because of which all sinned (ULT) because everyone sins (UST)

Here the pronoun **which** could refer to: (1) the fact that Paul states in the next phrase. Alternate translation: “because of this fact, namely, that all sinned” (2) the **one man** mentioned earlier in the verse. Alternate translation: “because of the one man all sinned” (See: [Pronouns — When to Use Them](#))

all (ULT) everyone (UST)

Paul is using the adjective **all** as a noun in order to describe a group of people. Your language may use adjectives in the same way. If not, you could translate this with a noun phrase. Alternate translation: “all men” or “all humanity” or “all people” (See: [Nominal Adjectives](#))

If this might confuse your readers, you could express the meaning plainly. Alternate translation: “people sinned in the world” (See: [Metaphor](#))

sin...is not charged (ULT)

If your language does not use the passive form in this way, you could express the idea in active form or in another way that is natural in your language. If you must state who did the action, Paul implies that “God” did it. Alternate translation: “God did not charge them with sinning” or “God did not reckon it as sin” (See: [Active or Passive](#))

sin...is not charged (ULT)

Alternate translation: “a record of sin is not kept” or “no account is kept of sins”

ULT

¹³ For until **law, sin** was in {the} world, but **sin** is not charged, being no **law**.

UST

¹³ Indeed, **people** throughout the world sinned before {God gave his} laws {to the Jews}. However, God did not legally regard **what they did as sinning**, since **those laws** did not yet exist {to identify what it means to sin}.

being no law (ULT)**since those laws did not yet exist {to identify what it means to sin (UST)**

Here, **being** could indicate: (1) the reason why **sin is not charged**. Alternate translation: “because there was no law” (2) the time when **sin is not charged**. Alternate translation: “when there was no law” (See: [Connect — Reason-and-Result Relationship](#))

everyone died from {the time of the first man} Adam until {the time of} Moses. Even those people died (UST)**

Here, **death** is spoken of figuratively as though it were a king who **ruled over** people. Paul means that nobody could prevent themselves from dying. If this might be confusing for your readers, you could express the meaning plainly. Alternate translation: “no human could escape dying from Adam until Moses, even those” or “human life inevitably ended in death from Adam until Moses, even the lives of those” (See: [Personification](#))

See how you translated **death** in [verse 12](#). (See: [Abstract Nouns](#))

Here, **Adam** refers to the period of time when Adam lived and **Moses** refers to the period of time when **Moses** lived. If this would confuse your readers, you could state this explicitly. Alternate translation: “from the time when Adam lived until the time when Moses lived” (See: [Assumed Knowledge and Implicit Information](#))

**even over those who did not sin in the likeness of the transgression of Adam (ULT)

If this might confuse your readers, you can make the relationship between these phrases clearer. Alternate translation: “even over the people who did not disobey God in the same way that Adam did” (See: [Distinguishing Versus Informing or Reminding](#))

Alternate translation: “in the same way that Adam transgressed, who typifies the one who is coming” or “exactly how Adam transgressed, who resembles the one who is coming” (See: [Abstract Nouns](#))

in the likeness of the transgression of Adam (ULT) by violating the same command God gave to Adam (UST)

Paul is using the possessive form to describe how **the likeness** relates to the **transgression**. If this is not clear in your language, you could use a different expression. Alternate translation: “like Adam’s transgression” or “in the same way Adam transgressed” (See: [Possession](#))

of Adam, who is a pattern of the one who is coming (ULT) to Adam. Adam is like the person who would come {later (UST)

Paul speaks figuratively of **Adam** as if he were a model or **pattern**. Paul means that **Adam**’s role is similar to the role of **the one who is coming** because both people do things that affect all human beings. Romans 6

Romans 6 General Notes

Structure and formatting

Becoming like Christ in this life (6:1–8:39)

- Baptism represents union with Christ's death (6:1–14)
- Christians are now slaves of righteousness (6:15–23)

Special concepts in this chapter

Slavery

In this chapter Paul frequently uses the metaphor of the relationship between slaves and their masters. He speaks figuratively of people who live sinfully as if they were slaves to sin and the death it causes (6:6, 16–17, 20). He also speaks figuratively of Christians as if God has freed them from being enslaved to sin and has himself or righteousness their master (6:18, 22). Because Christians are no longer controlled by their desire to sin, they should instead serve God and live in a way that glorifies him (6:12–14, 19). (See: [servant](#), [serve](#), [slave](#), [young man](#), [young women](#))

Important figures of speech in this chapter

Rhetorical Questions

In [verses 1–3](#), [15–16](#), and [21](#) Paul uses rhetorical questions in order to answer objections that people might make about what he is saying.

Possible translation difficulties in this chapter

Inclusive language

In this chapter the pronouns “we”, “us”, and “our” refer inclusively to all believers in Christ. Paul calls these people those who have been “baptized into Christ Jesus” in [verse 3](#). Your language may require you to mark these forms. (See: [Exclusive and Inclusive 'We'](#))

Romans 6:1

What then (ULT)

Someone might say,} {"If what you have said is true,} then surely we {believers} should keep on sinning in order that God might show how kind he is even more (UST)

Here, **then** indicates that what follows is a response to what Paul said in the previous chapter, especially what he said in 5:20. See how you translated **What then** in 3:1 and 4:1. (See: [Connect — Reason-and-Result Relationship](#))

What then will we say? Should we continue in the sin so that the grace might increase (ULT)

Someone might say,} {"If what you have said is true,} then surely we {believers} should keep on sinning in order that God might show how kind he is even more (UST)

In this verse Paul is not asking for information, but is using a question to address rumors some people may have been saying that misrepresented his teachings. If you would not use rhetorical questions for this purpose in your language, you could translate his words as a statement or an exclamation or communicate the emphasis in another way. Alternate translation: "Then we will say that we should continue in the sin so that the grace might increase!" (See: [Rhetorical Question](#))

What then will we say? Should we continue in the sin so that the grace might increase (ULT)

Someone might say,} {"If what you have said is true,} then surely we {believers} should keep on sinning in order that God might show how kind he is even more (UST)

In this verse and the first part of the next verse, Paul is speaking as if he were a Christian who misunderstood what Paul had taught in the previous chapter. It may be helpful to your readers to indicate this with quotation marks or with whatever other punctuation or convention your language uses to indicate quotations, as in the UST. (See: [Quote Markings](#))

will we say? Should we continue (ULT)

Someone might say...If what you have said is true...then surely we... believers} should keep on sinning in order that God might show how kind he is even more (UST)

When Paul says **we** in this verse, he is including all "who were baptized into Christ Jesus," as mentioned in 6:3, so **we** is inclusive of all Christians. Your language may require you to mark these forms. (See: [Exclusive and Inclusive 'We'](#))

so that the grace might increase (ULT)

Someone might say...If what you have said is true...then surely we...believers} should keep on sinning in order that God might show how kind he is even more (UST)

Paul speaks figuratively of **grace** as if it were an object that could **increase** in amount, as he also does in 5:20. He is referring to the idea of Christians experiencing the power or influence of **grace** in their lives. If this might confuse your readers, you could express the meaning plainly. Alternate translation: “We who died to sin surely cannot still live in it!” (See: [Rhetorical Question](#))

We who died to sin, how will we still live in it (ULT) We who are no longer controlled by sinning surely must not continue living sinfully (UST)

Romans 6:14

For (ULT) Indeed (UST)

For here indicates that what follows explains what Paul said in the previous verse. If this might confuse your readers, you could use a different expression. Alternate translation: “In fact,” (See: [Connecting Words and Phrases](#))

sin...must not be lord over you, for you are not under law, but under grace (ULT)

your desire to sin...do not allow...to control you because the laws {God gave the Jews} do not control you. Instead, how kind God is controls you (UST)

If it would be more natural in your language, you could reverse the order of these clauses, since the second clause gives the reason for the result that the first clause describes. Alternate translation: “because you are not under law, but under grace, do not allow sin to rule over you” (See: [Connect — Reason-and-Result Relationship](#))

**sin...must not be lord over you (ULT)
your desire to sin...do not allow...to control you (UST)**

See how you translated the similar phrase in [verse 12](#). (See: [Personification](#))

**sin...must not be lord over (ULT)
your desire to sin...do not allow...to control (UST)**

Paul is using a future statement to give a command. If this is confusing in your language, you can use a more natural form for a command. Alternate translation: “sin must not rule over” or “do not allow sin to rule over” (See: [Statements — Other Uses](#))

for (ULT) because (UST)

Here, **for** indicates that what follows is the reason why Paul urges his readers to not allow **sin** to **lord over** them. Use the most natural form in your language for indicating a reason. Alternate translation: “The reason for this is that” (See: [Connecting Words and Phrases](#))

**for you are not under law, but under grace (ULT)
because the laws {God gave the Jews} do not control you. Instead, how kind God is controls you (UST)**

Paul speaks figuratively of **law** and **grace** as if they were rulers whose authority people have to live **under**. He means that Christians are no longer controlled by the requirements of the **law**, which resulted in people sinning more, as stated in [5:20](#). By contrast, Christians now serve the gracious God, as is explained in [verses 15–23](#). If your readers would not understand this, you could express the meaning plainly. Alternative translation: “for the law no longer controls you, but you are now controlled by God’s grace” (See: [Personification](#))

See how you translated **law** in 2:12. (See: [Collective Nouns](#))

What then (ULT)

Someone might say,} {"If what you have said is true,} then surely we {believers} should keep on sinning because the laws {God gave the Jews} do not control us. Instead, how kind God is controls us (UST)

Here, **then** indicates that what follows is a response to what Paul said in [verses 1–14](#). See how you translated **What then** in [3:1](#), [4:1](#), and [6:1](#). (See: [Connect — Reason-and-Result Relationship](#))

What then? Should we sin because we are not under law, but under grace (ULT)

Someone might say,} {"If what you have said is true,} then surely we {believers} should keep on sinning because the laws {God gave the Jews} do not control us. Instead, how kind God is controls us (UST)

Here Paul is not asking for information, but is using a question to address an objection that some people may have to what he said in the previous verses. If you would not use rhetorical questions for this purpose in your language, you could translate his words as a statement or an exclamation or communicate the emphasis in another way. Alternate translation: "Then we should sin because we are not under law, but under grace!" (See: [Rhetorical Question](#))

What then? Should we sin because we are not under law, but under grace (ULT)

Someone might say,} {"If what you have said is true,} then surely we {believers} should keep on sinning because the laws {God gave the Jews} do not control us. Instead, how kind God is controls us (UST)

In these two sentences, Paul is speaking as if he were a Christian who misunderstood what Paul had taught in the previous verses. It may be helpful to your readers to indicate this with quotation marks or with whatever other punctuation or convention your language uses to indicate quotations, as in the UST. (See: [Quote Markings](#))

Romans 6:16

Paul is not asking for information, but is using the question form here to emphasize the truth of what he is saying. If you would not use a rhetorical question for this purpose in your language, you could translate his words as a statement or an exclamation and communicate the emphasis in another way. Alternate translation: “You surely know that to what you keep presenting yourselves as slaves for obedience, you become slaves to what you obey—whether of sin leading to death, or of obedience leading to righteousness!” (See: [Rhetorical Question](#))

You surely know that if you submit yourselves to be controlled by a thing or person, you become like slaves to that thing or person you submit to...You surely know that if you submit yourselves to be controlled by a thing or person, you become like slaves to that thing or person you submit to (UST)

The pronoun translated **what** here indicates a general reference to a thing or person. If this might confuse your readers, you could say the meaning explicitly. Alternate translation: “to whomever or whatever... to whomever or whatever” (See: [Pronouns — When to Use Them](#))

you keep presenting yourselves {as} slaves...you become slaves to what you obey (ULT)

You surely know that if you submit yourselves to be controlled by a thing or person, you become like slaves to that thing or person you submit to...You surely know that if you submit yourselves to be controlled by a thing or person, you become like slaves to that thing or person you submit to (UST)

Paul speaks figuratively of people as if they could offer themselves as **slaves** to someone or something. He is referring to being controlled by someone or something. If this might confuse your readers, you could express the meaning plainly. Alternative translation: “you keep being controlled by ... you become controlled by what you obey” (See: [Metaphor](#))

for obedience (ULT)

You surely know that if you submit yourselves to be controlled by a thing or person, you become like slaves to that thing or person you submit to (UST)

Here, **for** indicates that this is a purpose clause. Paul is stating the purpose for which these people are **presenting** themselves as **slaves**. Use a natural way in your language for indicating a purpose clause. Alternate translation (without a comma preceding): “in order to obey” or “for the purpose of obeying” (See: [Connect — Goal \(Purpose\) Relationship](#))

ULT

16 Do you not know that to what you keep presenting yourselves {as} slaves for obedience, you become slaves to what you obey—whether of sin {leading} to death, or of obedience {leading} to righteousness?

UST

16 You surely know that if you submit yourselves to be controlled by a thing or person, you become like slaves to that thing or person you submit to! {This is true} whether you submit yourselves to living sinfully, which will kill you {eternally}, or you submit yourselves to God, which will make you righteous.

for obedience...of obedience (ULT)

You surely know that if you submit yourselves to be controlled by a thing or person, you become like slaves to that thing or person you submit to...you submit yourselves to God (UST)

If your language does not use an abstract noun for the ideas of **obedience**, you could express the same idea with a verbal form. Alternate translation: “to obey ... to obey” (See: [Abstract Nouns](#))

whether of sin {leading} to death, or of obedience {leading} to righteousness (ULT)

This is true} whether you submit yourselves to living sinfully, which will kill you {eternally}, or you submit yourselves to God, which will make you righteous (UST)

Here, **sin** and **obedience** are spoken of as if they were masters that **slaves** would obey. Paul means that people can be controlled either by their desire to **sin** or a desire to obey God. If this might be confusing for your readers, you could express this in a non-figurative way. Alternate translation: “whether you are controlled by sinning, leading to death, or you are controlled by obeying God, leading to righteousness” (See: [Personification](#))

of sin...of obedience (ULT)

you submit yourselves to living sinfully...you submit yourselves to God (UST)

Paul is using the possessive form to describe **slaves** that belong to **sin** or **obedience**. If this might confuse your readers, you could state this explicitly. Alternate translation: “slaves that belong to sin ... slaves that belong to obedience” or “sin’s slaves ... obedience’s slaves” (See: [Possession](#))

leading} to death (ULT)

Here, **death** refers to spiritual **death**, which is eternal punishment in hell that occurs after physical death. If it would be helpful to your readers, you could state this explicitly. Romans 7

Romans 7 General Notes

Structure and formatting

Becoming like Christ in this life (6:1–8:39)

- Baptism represents union with Christ's death (6:1–14)
- Christians are now slaves of righteousness (6:15–23)
- Christians have been freed from the law (7:1–6)
- The law is not sinful (7:7–12)
- Christians still struggle with indwelling sin (7:13–25)

Special concepts in this chapter

“The Law”

Throughout most of this chapter Paul uses the singular noun “the law” to refer to the group of laws that God gave Israel through Moses. However, in [verses 21–25](#) Paul uses the word “law” in several different ways. Each of these different uses will be addressed in the notes. (See: [law](#), [law of Moses](#), [law of Yahweh](#), [law of God](#))

Important figures of speech in this chapter

Marriage

Scripture commonly uses marriage as a metaphor. Here Paul uses it to describe how the church relates to the law of Moses and now to Christ. (See: [Metaphor](#))

Possible translation difficulties in this chapter

Inclusive language

In this chapter the pronouns “we”, “us”, and “our” refer inclusively to all Jewish believers in Christ. Paul calls these people “brothers” in [verses 1](#) and [4](#). Your language may require you to mark these forms. (See: [Exclusive and Inclusive ‘We’](#))

Romans 7:1

Or do you not know, brothers (for I am speaking to {those} who know {the} law), that the law is lord of the man for as long as he lives (ULT)

My fellow {Jewish} believers {in the Messiah}, you are well-aware that the laws {God gave the Jews} must be obeyed by {Jewish} people for their whole lives. ({I know that you are well-aware of this fact}, because I am speaking to people who are familiar with the laws {God gave the Jews} (UST)

Paul is using a rhetorical question here to emphasize that the Jew is required to obey the Law of Moses his whole life. If you would not

use a rhetorical question for this purpose in your language, you could translate his words as a statement or an exclamation and communicate the emphasis in another way. Alternate translation: "You surely know, brothers (for I am speaking to those who know the law), that the law is lord of the man for as long as he lives!" (See: [Rhetorical Question](#))

brothers...of the man...he lives (ULT)

My fellow {Jewish} believers {in the Messiah...by {Jewish} people...lives (UST)

Although the term **brothers** and **the man** and **he** are masculine, Paul is using the words here in a generic sense that includes both males and females. Alternate translation: "fellow Jewish believers ... a person ... that person lives" (See: [When Masculine Words Include Women](#))

for I am speaking to {those} who know {the} law (ULT)

I know that you are well-aware of this fact}, because I am speaking to people who are familiar with the laws {God gave the Jews} (UST)

Here Paul interrupts himself in order to clarify that he is specifically directing this part of the letter to the Jewish believers in the church at Rome. If this would be confusing in your language, you could add parentheses like the ULT or use a natural way in your language to indicate this.

for (ULT)

I know that you are well-aware of this fact}, because (UST)

Here, **for** indicates that what follows is the reason why Paul expects these **brothers** to understand what he is saying. Use the most natural way in your language to state a reason. Alternate translation: "I know you should understand this because" (See: [Connect — Reason-and-Result Relationship](#))

I am speaking (ULT)

I am speaking (UST)

The pronoun **I** and throughout this chapter refers to Paul (see [6:19](#)). If this might confuse your readers, you could say this explicitly. Alternate translation: "I, Paul, am speaking" (See: [Pronouns — When to Use Them](#))

ULT

¹ Or **do you not know, brothers** (for I am speaking to {those} who know {the} law), that the law is lord of the man for as long as he lives?

UST

¹ My fellow {Jewish} believers {in the Messiah}, you are well-aware that the laws {God gave the Jews} must be obeyed by {Jewish} people for their whole lives. ({I know that you are well-aware of this fact}, because I am speaking to people who are familiar with the laws {God gave the Jews}.)

the} law...the law (ULT)**the laws {God gave the Jews...the laws {God gave the Jews (UST)**

For every occurrence of **the law** in [verses 1–20](#) translate the phrase in the same way you translated it in [2:12](#). (See: [Collective Nouns](#))

the law is lord of the man (ULT)**the laws {God gave the Jews} must be obeyed by {Jewish} people (UST)**

Here Paul speaks of **the law** figuratively as if it were a king. Paul means that, like a king, **the law** must be obeyed by those who are obligated to do so. If this might confuse your readers, you could express the meaning plainly or with a simile. Alternate translation: “like a king, the law must be obeyed by every Jewish person” (See: [Personification](#))

Romans 7:2

For (ULT) For instance (UST)

For here indicates that what follows in this verse and the next verse is an example from God's law that illustrates how "the law rules over the man for as long as he lives," as Paul said in the previous verse. If this might confuse your readers, you could state this explicitly. Alternate translation: "For example," or "As an illustration," (See: [Connecting Words and Phrases](#))

**the...married woman remains bound by law to the living husband, but if the husband dies, she has been released...of the husband (ULT)
a married...according to the laws {God gave the Jews...a married...woman must remain married to her husband for as long as he lives. However, if her husband dies...no longer requires her to remain married...to him (UST)**

Paul is speaking of Jewish **married** women and husbands in general, not of one particular **woman** or **husband**. If it would be helpful in your language, use a more natural phrase. Alternate translation: "married women remain bound by law to their living husbands, but if their husbands die, they have been released ... of their husbands" (See: [Generic Noun Phrases](#))

**the...married woman...remains bound by law...she has been released (ULT)
a married...a married...woman...according to the laws {God gave the Jews... must remain married...no longer requires her to remain married (UST)**

If your language does not use the passive form in this way, you can state this in active form or in another way that is natural in your language. Alternate translation: "the law continually binds the married woman ... God releases her" (See: [Active or Passive](#))

**the...married woman remains bound by law to the living husband...she has been released from the law of the husband (ULT)
a married...according to the laws {God gave the Jews...a married...woman must remain married to her husband for as long as he lives...God's} law no longer requires her to remain married to him (UST)**

Here Paul speaks of the **law** figuratively as if it were a person who could tie a **woman** to her **husband**. Paul means that the **law** of Moses requires a **married woman** to stay married to her **husband** only while he is alive. If this might confuse your readers, you could express the meaning plainly. Alternate translation: "God requires in his laws that the married woman remain married to her living husband ... she is no longer required to remain married to the husband" (See: [Personification](#))

ULT

² For the married woman **remains bound by law** to the **living** husband, but if the husband **dies**, she has been released from the **law** of the husband.

UST

² For instance, **according to the laws {God gave the Jews}**, a married woman **must remain married** to her husband **for as long as he lives**. However, if her husband **dies**, **{God's} law** no longer requires her to remain married to him.

the law of the husband (ULT) **God's} law...to him (UST)**

Paul is using the possessive form to describe **the law** that is related to **the husband**. This phrase refers to the **law** already described in the previous clause. If this is not clear in your language, you could use a different expression. Alternate translation: "the law that requires her to remain bound to the husband" (See: [Possession](#))

Translation Words - ULT

- remains bound
- by law
- law
- living

Translation Words - UST

- according to the laws...God gave the Jews...must remain married
- God's} law

Romans 7:3

**So then (ULT)
Therefore (UST)**

See how you translated this phrase in 5:18. (See: [Connecting Words and Phrases](#))

**the husband being alive, if she becomes {married} to another husband, she will be titled an adulteress (ULT)
if she marries another man while her husband is alive, {according to God's law} she will be an adulterous woman (UST)**

If it would be more natural in your language, you could reverse the order of these phrases. Alternate translation: "if she becomes married to another husband, the first husband being alive" (See: [Information Structure](#))

**the husband being alive (ULT)
while her husband is alive (UST)**

In this clause Paul is describing something that was occurring during the same time period as what he describes in the next clause. You can make this clear in your translation with an appropriate connecting word or phrase. Alternate translation: "at the same time that the husband is alive" (See: [Connect — Simultaneous Time Relationship](#))

**the husband...the husband (ULT)
her husband...her husband (UST)**

See how you translated this phrase in the previous verse. (See: [Generic Noun Phrases](#))

**she will be titled an adulteress (ULT)
according to God's law} she will be an adulterous woman (UST)**

If your language does not use the passive form in this way, you can state this in active form or in another way that is natural in your language. Alternate translation: "the law will title her an adulteress" (See: [Active or Passive](#))

**she is free from the law (ULT)
she no longer has to obey {what} God's law {requires of those who are married (UST)**

Here Paul speaks of **the law** figuratively as if it were an object or person someone could to be freed from. Paul means that **the law** that prohibited a woman from marrying **another husband** did not apply if her first husband died. If this might confuse your readers, you could express the meaning plainly. See how you translated the similar phrase "she has been released from the law" in the previous verse. Alternate translation: "she is no longer required to remain married to the first husband" (See: [Metaphor](#))

ULT

³ So then, the husband **being alive**, if she becomes {married} to another husband, **she will be titled an adulteress**. But if the husband **dies**, she is **free** from the **law**, so that she is not **an adulteress**, having become {married} to another husband.

UST

³ Therefore, if she marries another man **while** her husband **is alive**, {**according to God's law**} **she will be an adulterous woman**. However, if her husband **dies**, she **no longer has to obey** {**what**} **God's law** {**requires of those who are married**}. As a result, she would not be **an adulterous woman** if she married another man.

Translation Words - ULT

Romans 7:4

So then (ULT)**So (UST)**

So then here introduces the result of what Paul said in [verses 1-3](#). Use a natural way in your language for introducing a result clause. Alternate translation: “Since this is true” (See: [Connect — Reason-and-Result Relationship](#))

If your language does not use the passive form in this way, you can state this in active form or in another way that is natural in your language. Alternate translation: “you also died to the law” (See: [Active or Passive](#))

you yourselves were also made dead (ULT)

Paul uses the word **yourselves** to emphasize that even Jewish Christians are not required to obey the Law of Moses. Use a way that is natural in your language to indicate this emphasis. Alternate translation: “you very Jews yourselves were also made dead” (See: [Reflexive Pronouns](#))

you yourselves were also made dead to the law (ULT)

Here Paul uses **made dead** figuratively to refer to Jewish Christians not being required to obey the Law of Moses. Just as dead people don't have to obey the law, so too Jewish Christians no longer have to obey it. If this might confuse your readers, you could express the meaning plainly or use a simile. Alternate translation: “your yourselves no longer have to obey the law” or “you yourselves are like dead people in that you do not have to obey the law” (See: [Metaphor](#))

through the body of Christ (ULT)**by means of the Messiah dying {on the cross (UST)**

Here, **through** indicates that **the body of Christ** is the means by which believers **were made dead to the law**. If this might confuse your readers, you could state this explicitly. Alternate translation: “by means of the body of Christ” (See: [Assumed Knowledge and Implicit Information](#))

through the body of Christ (ULT)**by means of the Messiah dying {on the cross (UST)**

Here, **the body of Christ** refers to the death of Jesus' body. If this might confuse your readers, you could state this explicitly. Alternate translation: “through the death of Christ's body” (See: [Metaphor](#))

⁴ **So then**, my **brothers**, you yourselves were also **made dead** to the **law** through the **body of Christ** so that you might become {married} to another, to the one **who was raised** from **dead ones**, in order that **we might produce fruit for God**.

UST

⁴ **So**, my **fellow {Jewish} believers {in the Messiah}**, by means of **the Messiah dying {on the cross} the laws {God gave the Jews} no longer control** you. {God did this} in order to unite you to the Messiah, {as if you were marrying a new husband}. **He is the person whom God made alive again after he had died**. {God did this} in order for **us to do things that please him**.

**so that you might become {married} to another (ULT)
God did this} in order to unite you to the Messiah, {as if you were marrying a
new husband (UST)**

Here, **so that** introduces a purpose clause. Paul is stating the purpose for which God **made** believers **dead to the law**. Use a natural way in your language for introducing a purpose clause. Alternate translation (without a comma preceding): “in order for us to become married to another” (See: [Connect — Goal \(Purpose\) Relationship](#))

**so that you might become {married} to another (ULT)

Here Paul uses **married to another** to refer to Christians being united with **Christ** as if they became **married** to him. If this might confuse your readers, you could express the meaning plainly or use a simile. **to the one who was raised from dead ones (ULT)
He is the person whom God made alive again after he had died (UST)**

If your language does not use the passive form in this way, you can state this in active form or in another way that is natural in your language. Alternate translation: “to the one whom God raised from dead ones” (See: [Active or Passive](#))

**to the one who was raised from dead ones (ULT)

See how you translated a similar phrase in [4:24](#). (See: [Idiom](#))

**in order that we might produce fruit for God (ULT)
God did this} in order for us to do things that please him (UST)**

Here, **in order that** introduces a purpose clause. Paul is stating the purpose for which God **raised** Jesus **from dead ones**. Use a natural way in your language for introducing a purpose clause. Alternate translation (without a comma preceding): “in order for us to produce fruit for God” (See: [Connect — Goal \(Purpose\) Relationship](#))

**we might produce fruit for God (ULT)
us to do things that please him (UST)**

Paul uses **fruit** here figuratively to refer to actions that please God as if they were **fruit** that a person could grow. If this might confuse your readers, you could express the meaning plainly. Alternate translation: “we might be able to do things pleasing to God” (See: [Metaphor](#))

we might produce fruit (ULT) **us to do things that please (UST)**

When Paul says **we** in this verse, he is including all those whom he called **brothers** earlier in this verse and in [verse 1](#), so **we** is inclusive of all Jewish Christians. Your language may require you to mark these forms. (See: [Exclusive and Inclusive 'We'](#))

we were in the flesh (ULT) living sinfully used to control us (UST)

Here Paul speaks figuratively of **the flesh** as if it were a location that someone could be **in**. He means his readers used to live according to the desires of their sinful natures. If this might confuse your readers, you could express the meaning plainly. Alternate translation: “we were living according to our sinful natures” or “we were doing whatever we wanted to do” (See: [Metaphor](#))

Paul is leaving out a word that a clause would need in many languages to be complete. If your readers might misunderstand this, you could supply the word from the context. Paul said something similar about **the law** causing sin to increase in [5:20](#). Alternate translation: “that were increased through the law were working” or “that were stimulated by the law were working” (See: [Ellipsis](#))

Paul means that Christians do not have to obey the laws God gave the Jews. If this might confuse your readers, you could express the meaning plainly or use a simile. not...what I do...want, this I practice...what I hate, this I do (ULT)

The phrases **I practice** and **I do** are exaggerations that Paul uses to emphasize that he often does what he does not want to do. It does not mean that Paul always does these things. If this might confuse your readers, you could state this explicitly. Alternate translation: “what I do not want, this I often practice ... what I hate, this I often do” (See: [Hyperbole](#))

Romans 8

Romans 8 General Notes

Structure and formatting

Becoming like Christ in this life (6:1–8:39)

- Baptism represents union with Christ's death (6:1–14)
- Christians are now slaves of righteousness (6:15–23)
- Christians have been freed from the law (7:1–6)
- The law is not sinful (7:7–12)
- Christians still struggle with indwelling sin (7:13–25)
- The Holy Spirit dwells in Christians (8:1–27)
- Christians have confidence in God's love (8:28–8:39)

Some translations set each line of poetry farther to the right than the rest of the text to make it easier to read. The ULT does this with verse 36. Paul quotes these words from the Old Testament.

Special concepts in this chapter

Indwelling of the Spirit

In [verses 9–17](#) and [26–27](#) Paul says that Holy Spirit dwells inside Christians to help them stop sinning and to intercede for them. The presence of the Holy Spirit within a person indicates that that person is a genuine Christian. (See: [save](#), [saved](#), [safe](#), [salvation](#))

Predestination

Many scholars believe this chapter teaches on a subject known as "predestination." See the use of the word "predestined" in [verses 28–30](#) and "elect" in [verse 33](#). Some scholars take this to indicate that God has, from before the foundation of the world, chosen some people to save. Christians have different views on what the Bible teaches on this subject, so translators need to take extra care when translating these verses. (See: [predestine](#), [predestined](#))### Important figures of speech in this chapter

Important figure of speech in this chapter

Rhetorical questions

In [verses 24](#) and [31–35](#) Paul uses rhetorical questions in order to emphasize that what he is saying is true. If you would not use rhetorical questions for this purpose in your language, you could translate his words as a statement or an exclamation and communicate the emphasis in another way. (See: [Rhetorical Question](#))

Litany

In [verses 35](#) and [\[38–39\(../08/38.md\)\]](#) Paul uses a repetitive series of words or phrases in order to emphasize the nothing can ever stop God from loving those who believe in Jesus. This repetitive style of speaking or writing is called a "litany." Use a form in your language that someone would use to list things for emphasis. (See: [Litany](#))

Other possible translation difficulties in this chapter

Flesh

Paul uses “flesh” in a variety of ways throughout this letter. In this chapter he frequently uses it to refer to sinful human nature. However, he uses “flesh” to refer to Christ’s physical body in [verse 3](#). Every use of “flesh” will be discussed in the notes. (See: [flesh](#))

Inclusive language

In this chapter the pronouns “we”, “us”, and “our” refer inclusively to all believers in Christ. Paul calls these people “brothers” in [verses 12](#). Your language may require you to mark these forms. (See: [Exclusive and Inclusive ‘We’](#))

Romans 8:1

There is} therefore now no condemnation at all (ULT)

So now, God does not condemn at all (UST)

Here, **therefore now** marks the beginning of a new section in the letter. It also introduces a result clause that concludes what Paul discussed in chapters 5–7. Use a natural way in your language to indicate result. Alternate translation: “Since all these things are true, there is no condemnation at all” or “As a result of everything that I have just told you being true, there is no condemnation at all” (See: [Connect — Reason-and-Result Relationship](#))

condemnation (ULT)

Romans 8:34

Who {is} the one who condemns (ULT)
Surely no one can condemn {God's people (UST)}

Paul is not asking for information, but is using the question form here to emphasize the truth of what he is saying. If you would not use a rhetorical question for this purpose in your language, you could translate his words as a statement or an exclamation and communicate the emphasis in another way. Alternate translation: "Surely no one can condemn!" (See: [Rhetorical Question](#))

the one who condemns (ULT)
Surely no one can condemn...God's people (UST)

Paul is leaving out a word that a sentence would need in many languages to be complete. If your readers might misunderstand this, you could supply the word from the context. Alternate translation: "the one who condemns us believers" (See: [Ellipsis](#))

Christ Jesus {is} the one who died—but more {than that}, he was raised who also is at the right hand of God—who also intercedes on our behalf (ULT)
This is because} the Messiah Jesus is the one who died. Furthermore, he is the one whom God made alive again. He is also at the place of highest honor next to God and even pleads for our sake (UST)

This sentence states the reason why the idea in the previous sentence is true. Use a natural way in your language for indicating a reason. Alternate translation: "No one can condemn because Christ Jesus is the one who died—but more than that, he was raised who also is at the right hand of God—who also intercedes on our behalf" (See: [Connect — Reason-and-Result Relationship](#))

he was raised (ULT)
he is...whom God made alive again (UST)

If your language does not use the passive form in this way, you could express the idea in active form or in another way that is natural in your language. If you must state who did the action, Paul implies that "God" did it. Alternate translation: "God raised him" (See: [Active or Passive](#))

he was raised (ULT)
he is...whom God made alive again (UST)

See how you translated **raised** in 4:25. (See: [Idiom](#))

ULT

³⁴ Who {is} the one who condemns? Christ Jesus {is} the one who died—but more {than that}, he was raised ^[2] who also is at the right hand of God—who also intercedes on our behalf.

UST

at the right hand of God (ULT)
at the place of highest honor next to God (UST)

Paul is using the adjective **right** as a noun in order to indicate the **right** side. Your language may use adjectives in the same way. If not, you could translate this with a noun phrase. Alternate translation: "at the right side of God" (See: [Nominal Adjectives](#))

who also is at the right hand of God (ULT)
the one...He is also at the place of highest honor next to God (UST)

In this culture, the place at the **right** side of a ruler was a position of honor. If it would be helpful to your readers, you could indicate that explicitly. Alternate translation: "at a place of honor next to God" (See: [Assumed Knowledge and Implicit Information](#))

Who will separate us from the love of Christ (ULT)

Paul is not asking for information, but is using the question form here to emphasize the truth of what he is saying. Alternate translation: "Surely no one will separate us from the love of Christ!" (See: [Rhetorical Question](#))

will separate us from the love of Christ (ULT)
Surely no one can make Jesus stop loving us (UST)

Here Paul speaks figuratively of **love** as if it were an object that someone can be separated from. He means that **Christ** cannot stop loving those who believe in him. If it might be helpful in your language, you could express this plainly. Alternate translation: "will cause Christ to stop loving us" (See: [Metaphor](#))

Tribulation, or distress, or persecution, or hunger, or nakedness, or danger, or sword (ULT)
If people trouble us, or distress us, or persecute us, or if we are hungry, or naked, or in danger, or if people kill us with swords, surely none of those things can make Jesus stop loving us (UST)

Paul uses a repetitive series of words in this sentence to emphasize that nothing can stop Jesus from loving those who believe in him. This repetitive style of speaking or writing is called a "litany." This is a list of various types of suffering that Christians may endure because of their faith. Use a form in your language that someone would use to list things that someone might have to endure. (See: [Litany](#))

Tribulation, or distress, or persecution, or hunger, or nakedness, or danger, or sword (ULT)

Romans 9

Romans 9 General Notes

Structure and formatting

God's plan for Israel (9:1–11:36)

- Paul's sorrow for Israel's unbelief (9:1–5)
- God chooses whom he wants to choose (9:6–13)
- God shows mercy on whom he wants to show mercy (9:14–18)
- No one can question God's choice (9:19–33)

In this chapter, Paul changes what he is teaching about. In Chapters 9-11, he focuses on the nation of Israel.

Some translations set each line of poetry farther to the right than the rest of the text to make it easier to read. The ULT does this with verses 25-29 and 33 of this chapter. Paul quotes all of these words from the Old Testament.

Special concepts in this chapter

Flesh

Paul uses the word "flesh" in this chapter only to refer to Israelites, people physically descending from Abraham through Jacob, who God named Israel. (See: [flesh](#))

In other chapters, Paul uses the word "brother" to mean fellow Christians. However, in this chapter, he uses "my brothers" to mean his kinsmen the Israelites.

Paul refers to those who believe in Jesus as "children of God" and "children of the promise."

Predestination

Many scholars believe Paul in this chapter teaches extensively on a subject known as "predestination." This is related to the biblical concept of "predestine." Some take this to indicate that God has, from before the foundation of the world, chosen some people to eternally save. Christians have different views on what the Bible teaches on this subject. So translators need to take extra care when translating this chapter. (See: [predestine](#), [predestined](#) and [save](#), [saved](#), [safe](#), [salvation](#))

Important figures of speech in this chapter

Stone of stumbling

Paul explains that while some Gentiles accepted Jesus as their savior by believing in him, most Jews were trying to earn their salvation and so rejected Jesus. Paul, quoting the Old Testament, describes Jesus as a stone that the Jews stumble over when walking. This "stone of stumbling" causes them to "fall." (See: [Metaphor](#))

Other possible translation difficulties in this chapter

“It is not everyone in Israel who truly belongs to Israel”

Paul uses the word “Israel” in this verse with two different meanings. The first “Israel” means the physical descendants of Abraham through Jacob. The second “Israel” means those who are God’s people through faith. The UST reflects this.

Romans 9:1

Connecting Statement:

Paul tells of his personal desire that the people of the nation of Israel will be saved. Then he emphasizes the different ways in which God has prepared them to believe.

I speak truth in Christ. I do not lie (ULT)
I speak what is true {because I am authorized to represent the Messiah {Jesus}. I do not speak what is false (UST)

Romans 10

Romans 10 General Notes

Structure and formatting

God's plan for Israel (9:1–11:36)

- Paul's sorrow for Israel's unbelief (9:1–5)
- God chooses whom he wants to choose (9:6–13)
- God shows mercy on whom he wants to show mercy (9:14–18)
- No one can question God's choice (9:19–33)
- Israel's false righteousness (10:1–4)
- Salvation is available to everyone (10:5–21)

Some translations set prose quotations from the Old Testament farther to the right on the page than the rest of the text. The ULT does this with the quoted words in verse 8.

Some translations set each line of poetry farther to the right than the rest of the text to make it easier to read. The ULT does this with verses 18-20 of this chapter, which are words from the Old Testament.

Special concepts in this chapter

God's righteousness

Paul teaches here that while many Jews earnestly tried to be righteous, they did not succeed. We cannot earn God's righteousness. God gives us Jesus' righteousness when we believe in him. (See: [righteous](#), [righteousness](#), [unrighteous](#), [unrighteousness](#), [upright](#), [uprightness](#) and [faith](#))

Important figures of speech in this chapter

Rhetorical questions

Paul uses many rhetorical questions in this chapter. He does this to convince his readers that God does not save only the Hebrew people, so Christians must be ready to go and share the gospel with the whole world. (See: [Rhetorical Question](#) and [save](#), [saved](#), [safe](#), [salvation](#))

Other possible translation difficulties in this chapter

“I will provoke you to jealousy by what is not a nation”

Paul uses this prophecy to explain that God will use the church to make the Hebrew people jealous. This is so they will seek God and believe the gospel. (See: [prophet](#), [prophecy](#), [prophesy](#), [seer](#), [prophetess](#) and [jealous](#), [jealousy](#) and [Assumed Knowledge and Implicit Information](#))

Romans 10:1

Here the words I, “me,” and “my” refer to God.

**Now Isaiah is very bold and he says (ULT)

through the Prophet Isaiah in the holy
scriptures (UST)**

This means the prophet **Isaiah** wrote what God had said.

**I was found by those who were not seeking
me (ULT)**

Those who were not searching for me found me (UST)

Prophets often speak of things in the future as if they have already happened. This emphasizes that the prophecy will certainly come true.

I was found by those who were not seeking me (ULT)

Those who were not searching for me found me (UST)

You can translate this in an active form. Alternate translation: “Even though the Gentile people will not look for me, they will find me” (See: [Active or Passive](#))

Romans 11

Romans 11 General Notes

Structure and formatting

God's plan for Israel (9:1–11:36)

- Paul's sorrow for Israel's unbelief (9:1–5)
- God chooses whom he wants to choose (9:6–13)
- God shows mercy on whom he wants to show mercy (9:14–18)
- No one can question God's choice (9:19–33)
- Israel's false righteousness (10:1–4)
- Salvation is available to everyone (10:5–21)
- Israel has a faithful remnant (11:1–10)
- Israel's unbelief resulted in non-Jews' belief (11:11–24)
- God will save Israel (11:15–32)
- Praise for God's wisdom (11:33–11:36)

Some translations set each line of poetry farther to the right than the rest of the text to make it easier to read. The ULT does this with verses 9-10, 26-27, and 34-35, which are words from the Old Testament.

Special concepts in this chapter

Grafting

Paul uses the image of "grafting" to refer to the place of the Gentiles and Jews in the plans of God. Making one plant to be permanently part of another plant is called "grafting." Paul uses the picture of God grafting the Gentiles as a wild branch into his saving plans. But God has not forgotten about the Jews, who are spoken of as the natural plant. God will also save Jews who believe in Jesus.

Other possible translation difficulties in this chapter

"Did God reject his people? May it never be"

Whether Israel (the physical descendants of Abraham, Isaac and Jacob) has a future in the plans of God, or if they have been replaced in the plans of God by the church, is a major theological issue in Chapters 9-11. This phrase is an important part of this section of Romans. It seems to indicate that Israel remains distinct from the church. Not all scholars arrive at this conclusion. Despite their currently rejecting Jesus as their Messiah, Israel has not exhausted the grace and mercy of God. (See: [Christ, Messiah](#) and [grace, gracious](#) and [mercy, merciful](#))

Romans 11:1

Connecting Statement:

Though Israel as a nation has rejected God, God wants them to understand salvation comes by grace without works.

I say then (ULT)**The point of what I am saying is this (UST)**

Alternate translation: "I, Paul, say then"

God did not reject his people, did he (ULT)**God did not discard his own people (UST)**

Paul asks this question so that he can answer the questions of other Jews who are upset that God has included the Gentiles among his people, while the hearts of the Jewish people have been hardened. (See: [Rhetorical Question](#))

not...did he...May it never be (ULT)**of course...not (UST)**

"That is not possible!" or "Certainly not!" This expression strongly denies that this could happen. You may have a similar expression in your language that you could use here. See how you translated this in [Romans 9:14](#).

UST

¹ The point of what I am saying is this—of course God did not discard his own people! In fact, I too am an Israelite. I am a {direct} descendant of {the patriarch} Abraham. I come from the {family} tribe of Benjamin {who was the son of the Patriarch Jacob}.

ULT

² God did not reject his people, whom he foreknew. Or do you not know what the scripture says about Elijah, how he pleads with God against Israel?

UST

² God did not discard his people who he knew in advance {would belong to him}. You certainly know what the holy scripture says about the Prophet Elijah. Elijah appealed to God against Israel.

Romans 11:3**they killed (ULT)****they murdered (UST)**

Here, **they** refers to the people of Israel.

³ {This is what the Prophet Elijah said,} "Lord, they murdered {all of} your prophets {except for me}! They demolished all your altars! I am the very last surviving {prophet}! Now, they are trying to kill me {too}!"

Romans 11:4

But what does the divine response say to him (ULT)

But, this is how God replied to Elijah (UST)

Paul is using this question to bring the reader to his next point.

Romans 11:6

But if by grace (ULT) Certainly, {God chooses his people} based on how gracious he is (UST)

Translation Words - UST

- then...would...be...revealed (2)
- they do {what God's law says

ULT

⁶ But if by grace, {it is} no longer by works. Otherwise {this} grace becomes no longer grace. ^[1]

UST

⁶ Certainly, {God chooses his people} based on how gracious he is. So, {God} does not {choose his people} because they do {what God's law says}. {If God chose people because they do what the law says,} then how gracious he is would not be {revealed}.

Romans 11:7

What then (ULT)

So then, although (UST)

ULT

⁷ What then? The {thing} [Israel diligently seeks](#), it did not obtain, but the [elect](#) obtained it, and the rest {of them} [were hardened](#),

UST

⁷ So then, although [Israel continues striving](#) to make themselves right with God, they cannot attain this goal. Instead, [those who God {graciously} chose {from Israel}](#) become right with God. Romans 12 General Notes

Structure and formatting

Instructions for living as Christians (12:1–15:13)

- How to act toward God (12:1–2)
- How to serve the church (12:3–8)
- How to act toward other Christians (12:9–13)
- How to act toward unbelievers (12:14–21)
- How to act toward government (13:1–7)
- How to act toward other people (13:8–10)
- Act as if the end is near (13:11–14)
- Do not judge other Christians (14:1–12)
- Do not tempt other Christians to sin (14:13–23)
- Be united with other Christians (15:1–13)

Some translations set each line of poetry farther to the right than the rest of the text to make it easier to read. The ULT does this with the words of verse 20, which are from the Old Testament.

Many scholars believe Paul uses the word **therefore** in [Romans 12:1](#) to refer back to all of Chapters 1-11. Having carefully explained the Christian gospel, Paul now explains how Christians should live in light of these great truths. Chapters 12-16 focus on living out one's Christian faith. Paul uses many different commands in these chapters to give these practical instructions. (See: [faith](#))

Special concepts in this chapter

Christian living

Under the law of Moses, people were required to offer temple sacrifices of animals or grain. Now Christians are required to live their lives as a type of sacrifice to God. Physical sacrifices are no longer required. (See: [law](#), [law of Moses](#), [law of Yahweh](#), [law of God](#))

Important figures of speech in this chapter

Body of Christ

The body of Christ is an important metaphor or image used in Scripture to refer to the church. Each church member plays a unique and important function. Christians need each other. (See: [body](#) and [Metaphor](#))

Romans 12:1

Connecting Statement:

Paul tells what the life of a believer should be and how believers should serve.

I urge you therefore, brothers, by the compassions of God (ULT)
So then, my fellow believers in the Messiah, I appeal to you because of how compassionate God is (UST)

Here, **brothers** refers to fellow believers, both male and female. Alternate translation: "Fellow believers, because of the great mercy that God has given you I very much want you" (See: [Assumed Knowledge and Implicit Information](#))

to present your bodies a living sacrifice (ULT)
offer your own bodies...as if they were a live sacrifice (UST)

Here Paul uses the word **bodies** to refer to the whole person. Alternate translation: "to offer yourselves completely to God as a living sacrifice" (See: [Synecdoche](#))

to present your bodies a living sacrifice (ULT)
offer your own bodies...as if they were a live sacrifice (UST)

Paul is comparing a believer in Christ who completely obeys God to the animals that the Jews killed and then offered to God. Alternate translation: "to offer yourselves completely to God while you are alive as if you were a dead sacrifice on a temple altar" (See: [Metaphor](#))

holy, well-pleasing to God (ULT)
to God...Set yourselves apart {this way} for God's purposes in order to please him (UST)

Romans 13

Romans 13 General Notes

Structure and formatting

Instructions for living as Christians (12:1–15:13)

- How to act toward God (12:1–2)
- How to serve the church (12:3–8)
- How to act toward other Christians (12:9–13)
- How to act toward unbelievers (12:14–21)
- How to act toward government (13:1–7)
- How to act toward other people (13:8–10)
- Act as if the end is near (13:11–14)

In the first part of this chapter, Paul teaches Christians to obey rulers who govern them. At that time, ungodly Roman rulers governed the land. (See: [godly](#), [godliness](#), [ungodly](#), [godless](#), [ungodliness](#), [godlessness](#))

Special concepts in this chapter

Ungodly rulers

When Paul teaches about obeying rulers, some readers will find this difficult to understand, especially in places where rulers persecute the church. Christians must obey their rulers as well as obey God, unless the rulers do not allow Christians to do something God explicitly commands them to do. There are times when a believer must submit to these rulers and suffer at their hands. Christians understand that this world is temporary and they will ultimately be with God forever. (See: [eternity](#), [everlasting](#), [eternal](#), [forever](#))

Other possible translation difficulties in this chapter

Flesh

This is a complex issue. “Flesh” is possibly a metaphor for our sinful nature. Paul is not teaching that our physical bodies are sinful. Paul appears to be teaching that as long as Christians are alive (“in the flesh”), we will continue to sin. But our new nature will be fighting against our old nature. (See: [flesh](#) and [sin](#), [sinful](#), [sinner](#), [sinning](#))

Romans 13:1

Translation Words - UST

- you are required to submit...to those God authorizes to rule

ULT

⁵ Therefore, {it is} necessary to be subjected not only because of the wrath, but also because of the conscience.

UST

⁵ As a result, you are required to submit yourselves to those God authorizes to rule. This is not only true because they can punish you, but also because you are well aware {that to disobey them is to disobey God}!

⁹ For this: “You shall not commit adultery, you shall not kill, you shall not steal, you shall not covet,” and if any other commandment, it is summed up in this word: “You shall love your neighbor as yourself.”

UST

⁹ Because God's law says these things, “You must not practice adultery, you must not murder, you must not rob, you must not lust for what belongs to others.” Anything else God commands in his law you could summarize in this way, “You must lovingly care for those you come in contact with, in the same way you would lovingly care for yourself.”

Romans 14 General Notes

Structure and formatting

Instructions for living as Christians (12:1–15:13)

- How to act toward God (12:1–2)
- How to serve the church (12:3–8)
- How to act toward other Christians (12:9–13)
- How to act toward unbelievers (12:14–21)
- How to act toward government (13:1–7)
- How to act toward other people (13:8–10)
- Act as if the end is near (13:11–14)
- Do not judge other Christians (14:1–12)
- Do not tempt other Christians to sin (14:13–23)

Some translations set each line of poetry farther to the right than the rest of the text to make it easier to read. The ULT does this with verse 11 of this chapter, which Paul quotes from the Old Testament.

Special concepts in this chapter

Weak in faith

Paul teaches that Christians can have real faith and at the same time be “weak in faith” in a given situation. This describes Christians whose faith is immature, not strong, or misunderstood. (See: [faith](#))

Dietary restrictions

Many religions in the ancient Near East restricted what was eaten. Christians have freedom to eat what they want. But they need to use this freedom wisely, in a way that honors the Lord and does not cause others to sin. (See: [sin](#), [sinful](#), [sinner](#), [sinning](#))

The judgment seat of God

The judgment seat of God or Christ represents a time when all people, including Christians, will be held accountable for the way they lived their lives.

Romans 14:1

Connecting Statement:

Paul encourages believers to remember that they are answerable to God.

In [Romans 15:14](#), Paul begins to speak more personally. He shifts from teaching to telling of his personal plans.

Abstract Nouns

Description

Abstract nouns are nouns that refer to attitudes, qualities, events, or situations. These are things that cannot be seen or touched in a physical sense, such as happiness, weight, unity, friendship, health, and reason. This is a translation issue because some languages may express a certain idea with an abstract noun, while others would need a different way to express it.

This page answers the question: *What are abstract nouns and how do I deal with them in my translation?*

In order to understand this topic, it would be good to read:

[[rc://en/ta/man/translate/figs-partsofspeech]]
[[rc://en/ta/man/translate/figs-sentences]]

Remember that nouns are words that refer to a person, place, thing, or idea. Abstract nouns are the nouns that refer to ideas. These can be attitudes, qualities, events, situations, or even relationships between those ideas. These are things that cannot be seen or touched in a physical sense, such as joy, peace, creation, goodness, contentment, justice, truth, freedom, vengeance, slowness, length, weight, and many, many more.

Some languages, such as Biblical Greek and English, use abstract nouns a lot. They provide a way of giving names to actions or qualities. With names, people who speak these languages can talk about the concepts as though they were things. For example, in languages that use abstract nouns, people can say, "I believe in the forgiveness of sin."

But some languages do not use abstract nouns very much. In these languages, speakers may not have the two abstract nouns "forgiveness" and "sin," but they would express the same meaning in other ways. For example, they would express, "I believe that God is willing to forgive people after they have sinned," by using verb phrases instead of nouns for those ideas.

Reason This Is a Translation Issue

The Bible that you translate from may use abstract nouns to express certain ideas. Your language might not use abstract nouns for some of those ideas. Instead, it might use phrases to express those ideas. Those phrases will use other kinds of words such as adjectives, verbs, or adverbs to express the meaning of the abstract noun. For example, "What is its **weight**?" could be expressed as "How much does it **weigh**?" or "How **heavy** is it?"

Examples From the Bible

From **childhood** you have known the sacred writings ... (2 Timothy 3:15a ULT)

The abstract noun "childhood" refers to when someone was a child.

But **godliness** with **contentment** is great **gain**. (1 Timothy 6:6 ULT)

The abstract nouns "godliness" and "contentment" refer to being godly and content. The abstract noun "gain" refers to something that benefits or helps someone.

Today **salvation** has come to this house, because he too is a son of Abraham. (Luke 19:9 ULT)

The abstract noun "salvation" here refers to being saved.

The Lord does not move slowly concerning his promises, as some consider **slowness** to be (2 Peter 3:9a ULT)

The abstract noun "slowness" refers to the lack of speed with which something is done.

He will both bring to light the hidden things of darkness and reveal the **purposes** of the heart. (1 Corinthians 4:5b ULT)

The abstract noun “purposes” refers to the things that people want to do and the reasons they want to do them.

Translation Strategies

If an abstract noun would be natural and give the right meaning in your language, consider using it. If not, here is another option:

(1) Reword the sentence with a phrase that expresses the meaning of the abstract noun. Instead of a noun, the new phrase will use a verb, an adverb, or an adjective to express the idea of the abstract noun.

Examples of Translation Strategies Applied

(1) Reword the sentence with a phrase that expresses the meaning of the abstract noun. Instead of a noun, the new phrase will use a verb, an adverb, or an adjective to express the idea of the abstract noun. Alternative translations are indented below the Scripture example.

... from **childhood** you have known the sacred writings ... (2 Timothy 3:15a ULT)

Ever since **you were a child** you have known the sacred writings.

But **godliness** with **contentment** is great **gain**. (1 Timothy 6:6 ULT)

But **being godly** and **content** is very **beneficial**. But we **benefit** greatly when we **are godly** and **content**. But we **benefit** greatly when we **honor and obey God** and when we are **happy with what we have**.

Today **salvation** has come to this house, because he too is a son of Abraham. (Luke 19:9 ULT)

Today the people in this house **have been saved** ... Today God **has saved** the people in this house ...

The Lord does not move slowly concerning his promises, as some consider **slowness** to be. (2 Peter 3:9a ULT)

The Lord does not move slowly concerning his promises, as some consider **moving slowly** to be.

He will bring to light the hidden things of darkness and reveal the **purposes** of the heart. (1 Corinthians 4:5b ULT)

He will bring to light the hidden things of darkness and reveal **the things that people want to do and the reasons that they want to do them**.

Active or Passive

Some languages use both active and passive sentences. In active sentences, the subject does the action. In passive sentences, the subject is the one that receives the action. Here are some examples with their subjects bolded:

- Active: **My father** built the house in 2010.
- Passive: **The house** was built in 2010.

Translators whose languages do not use passive sentences will need to know how they can translate passive sentences that they find in the Bible. Other translators will need to decide when to use a passive sentence and when to use the active form.

This page answers the question: *What do active and passive mean, and how do I translate passive sentences?*

In order to understand this topic, it would be good to read:

[[rc://en/ta/man/translate/figs-sentences]]
[[rc://en/ta/man/translate/figs-verbs]]

Description

Some languages have both active and passive forms of sentences.

- In the active form, the subject does the action and is always mentioned.
- In the passive form, the action is done to the subject, and the one who does the action is not always mentioned.

In the examples of active and passive sentences below, we have bolded the subject.

- active: **My father** built the house in 2010.
- passive: **The house** was built by my father in 2010.
- passive: **The house** was built in 2010. (This does not tell who did the action.)

Reasons This Is a Translation Issue

All languages use active forms. Some languages use passive forms, and some do not. Some languages use passive forms only for certain purposes, and the passive form is not used for the same purposes in all of the languages that use it.

Purposes for the Passive

- The speaker is talking about the person or thing the action was done to, not about the person who did the action.
- The speaker does not want to tell who did the action.
- The speaker does not know who did the action.

Translation Principles Regarding the Passive

- Translators whose language does not use passive forms will need to find another way to express the idea.
- Translators whose language has passive forms will need to understand why the passive is used in a particular sentence in the Bible and decide whether or not to use a passive form for that purpose in his translation of the sentence.

Examples From the Bible

Then their shooters shot at your soldiers from off the wall, and some of the king's servants **were killed**, and your servant Uriah the Hittite **was killed** too. (2 Samuel 11:24 ULT)

This means that the enemy's shooters shot and killed some of the king's servants, including Uriah. The point is what happened to the king's servants and Uriah, not who shot them. The purpose of the passive form here is to keep the focus on the king's servants and Uriah.

When the men of the city arose early in the morning, and see, the altar of Baal **was torn down**. (Judges 6:28a ULT)

The men of the town saw what had happened to the altar of Baal, but they did not know who broke it down. The purpose of the passive form here is to communicate this event from the perspective of the men of the town.

It would be better for him if a millstone **were put** around his neck and he **were thrown** into the sea. (Luke 17:2a ULT)

This describes a situation in which a person ends up in the sea with a millstone around his neck. The purpose of the passive form here is to keep the focus on what happens to this person. Who does these things to the person is not important.

Translation Strategies

If your language would use a passive form for the same purpose as in the passage that you are translating, then use a passive form. If you decide that it is better to translate without a passive form, here are some strategies that you might consider.

- (1) Use the same verb in an active sentence and tell who or what did the action. If you do this, try to keep the focus on the person receiving the action.
- (2) Use the same verb in an active sentence, and do not tell who or what did the action. Instead, use a generic expression like "they" or "people" or "someone."
- (3) Use a different verb.

Examples of Translation Strategies Applied

- (1) Use the same verb in an active sentence and tell who did the action. If you do this, try to keep the focus on the person receiving the action.

A loaf of bread **was given** him every day from the street of the bakers. (Jeremiah 37:21b ULT)

The king's servants gave Jeremiah a loaf of bread every day from the street of the bakers.

- (2) Use the same verb in an active sentence, and do not tell who did the action. Instead, use a generic expression like "they" or "people" or "someone."

It would be better for him if a millstone **were put** around his neck and he **were thrown** into the sea. (Luke 17:2a ULT)

It would be better for him if **they were to put** a millstone around his neck and **throw** him into the sea.

It would be better for him if **someone were to put** a heavy stone around his neck and **throw** him into the sea.

- (3) Use a different verb in an active sentence.

A loaf of bread **was given** him every day from the street of the bakers. (Jeremiah 37:21 ULT)

He **received** a loaf of bread every day from the street of the bakers.

Aside

Description

An aside is a figure of speech in which someone who is speaking to a person or group pauses to speak confidentially to himself or someone else about those to whom he had been speaking. The speaker does this to indicate in a strong way his thoughts or feelings about that person or group.

This page answers the question: *What is the figure of speech called an "aside"?*

In order to understand this topic, it would be good to read:

[[rc://en/ta/man/translate/figs-intro]]

Reason This Is a Translation Issue

Many languages do not use asides, and readers could be confused by them. They may wonder why the speaker suddenly starts talking to himself or someone else about the people he is speaking with.

Examples From the Bible

All the men of your covenant are sending you away as far as the border.
The men of your peace are deceiving you and are prevailing against you.
They of your bread will set a trap under you.

There is no understanding in him. (Obadiah 1:7 ULT)

In the first three lines, Yahweh is telling the people of Edom what will happen to them because they did not help the people of Judah. In the fourth line, Yahweh says something about Edom to himself.

And I purified them from everything foreign. And I caused the service watches to stand: for the priests and for the Levites, a man in his work; and for the offering of pieces of wood at the appointed times; and for the firstfruits. **Remember me, my God, for good.** (Nehemiah 13:30-31 ULT)

Nehemiah is speaking to the readers of his account and describing some of the many things he did to restore true worship in Judah after the people returned from exile. But he suddenly turns aside and addresses God, asking God to bless him for what he, Nehemiah, has done for those people.

Translation Strategies

(1) If an aside would be natural and give the right meaning in your language, consider using it. But if this way of speaking would be confusing, let the speaker continue speaking to the people who are listening to him, but make clear that he is now expressing his thoughts and feelings about them.

(2) If a person speaks a prayer to God as an aside, you can put the prayer in quotation marks to indicate that.

Examples of Translation Strategies Applied

(1)

All the men of your covenant are sending you away as far as the border.
The men of your peace are deceiving you and are prevailing against you.
They of your bread will set a trap under you.

There is no understanding in him. (Obadiah 1:7 ULT)

All the men of your covenant are sending you away as far as the border.
The men of your peace are deceiving you and are prevailing against you.
They of your bread will set a trap under you.

You do not understand any of this.

(2)

Assumed Knowledge and Implicit Information

Assumed knowledge is whatever a speaker assumes his audience knows before he speaks and gives them some kind of information. The speaker does not give the audience this information because he believes that they already know it.

This page answers the question: *How can I be sure that my translation communicates the assumed knowledge and implicit information along with the explicit information of the original message?*

When the speaker does give the audience information, he can do so in two ways. The speaker gives explicit information in what he states directly. Implicit Information is what the speaker does not state directly because he expects his audience to be able to learn it from other things he says.

Description

When someone speaks or writes, he has something specific that he wants people to know or do or think about. He normally states this directly. This is explicit information.

The speaker assumes that his audience already knows certain things that they will need to think about in order to understand this information. Normally he does not tell people these things, because they already know them. This is called assumed knowledge.

The speaker does not always directly state everything that he expects his audience to learn from what he says. Implicit information is information that he expects people to learn from what he says even though he does not state it directly.

Often, the audience understands this implicit information by combining what they already know (assumed knowledge) with the explicit information that the speaker tells them directly.

Reasons This Is a Translation Issue

All three kinds of information are part of the speaker's message. If one of these kinds of information is missing, then the audience will not understand the message. Because the target translation is in a language that is very different from the biblical languages and is made for an audience that lives in a very different time and place than the people in the Bible, many times the assumed knowledge or the implicit information is missing from the message. In other words, modern readers do not know everything that the original speakers and hearers in the Bible knew. When these things are important for understanding the message, it is helpful if you include this information in the text or in a footnote.

Examples From the Bible

Then a scribe came to him and said, "Teacher, I will follow you wherever you go." Jesus said to him, "Foxes **have holes**, and the birds of the sky **have nests**, but the Son of Man has nowhere to lay his head." (Matthew 8:19-20 ULT)

Jesus did not say what foxes and birds use holes and nests for, because he assumed that the scribe would have known that foxes sleep in holes in the ground and birds sleep in their nests. This is **assumed knowledge**.

Jesus did not directly say here "I am the Son of Man" but, if the scribe did not already know it, then that fact would be **implicit information** that he could learn because Jesus referred to himself that way. Also, Jesus did not state explicitly that he travelled a lot and did not have a house that he slept in every night. That is **implicit information** that the scribe could learn when Jesus said that he had nowhere to lay his head.

Woe to you, Chorazin! Woe to you, Bethsaida! If the mighty deeds had been done in **Tyre and Sidon** which were done in you, they would have repented long ago in sackcloth and ashes. But

I say to you, it will be more tolerable for Tyre and Sidon at the **day of judgment** than for you.
(Matthew 11:21-22 ULT)

Jesus assumed that the people he was speaking to knew that Tyre and Sidon were very wicked, and that the day of judgment is a time when God will judge every person. Jesus also knew that the people he was talking to believed that they were good and did not need to repent. Jesus did not need to tell them these things. This is all **assumed knowledge**.

An important piece of **implicit information** here is that the people he was speaking to would be judged more severely than the people of Tyre and Sidon would be judged **because** they did not repent.

Why do your disciples violate the traditions of the elders? For **they do not wash their hands when they eat bread**. (Matthew 15:2 ULT)

One of the traditions of the elders was a ceremony in which people would wash their hands in order to be ritually clean before eating. People thought that in order to be righteous, they had to follow all the traditions of the elders. This was **assumed knowledge** that the Pharisees who were speaking to Jesus expected him to know. By saying this, they were accusing his disciples of not following the traditions, and thus not being righteous. This is **implicit information** that they wanted him to understand from what they said.

Translation Strategies

If readers have enough assumed knowledge to be able to understand the message, along with any important implicit information that goes with the explicit information, then it is good to leave that knowledge unstated and leave the implicit information implicit. If the readers do not understand the message because one of these is missing for them, then follow these strategies:

(1) If readers cannot understand the message because they do not have certain assumed knowledge, then provide that knowledge as explicit information.

(2) If readers cannot understand the message because they do not know certain implicit information, then state that information clearly, but try to do it in a way that does not imply that the information was new to the original audience.

Examples of Translation Strategies Applied

(1) If readers cannot understand the message because they do not have certain assumed knowledge, then provide that knowledge as explicit information.

Jesus said to him, "Foxes **have holes**, and the birds of the sky **have nests**, but the Son of Man has nowhere to lay his head." (Matthew 8:20 ULT)

The assumed knowledge was that the foxes slept in their holes and birds slept in their nests.

Jesus said to him, "Foxes **have holes to live in**, and the birds of the sky **have nests to live in**, but the Son of Man has nowhere to lay his head and sleep."

It will be more tolerable for **Tyre and Sidon** at the day of judgment than for you (Matthew 11:22 ULT)

The assumed knowledge was that the people of Tyre and Sidon were very, very wicked. This can be stated explicitly.
>

At the day of judgment, it will be more tolerable for **those cities of Tyre and Sidon, whose people were very wicked**, than it will be for you. or At

the day of judgment, It will be more tolerable for those **wicked cities, Tyre and Sidon**, than for you.

Why do your disciples violate the traditions of the elders? For **they do not wash their hands** when they eat bread. (Matthew 15:2 ULT)

The assumed knowledge was that one of the traditions of the elders was a ceremony in which people would wash their hands in order to be ritually clean before eating, which they must do to be righteous. It was not to remove germs from their hands to avoid sickness, as a modern reader might think.

Why do your disciples violate the traditions of the elders? For **they do not go through the ceremonial handwashing ritual of righteousness** when they eat bread.

(2) If readers cannot understand the message because they do not know certain implicit information, then state that information clearly, but try to do it in a way that does not imply that the information was new to the original audience.

Then a scribe came to him and said, "Teacher, I will follow you wherever you go." Jesus said to him, "Foxes have holes, and the birds of the sky have nests, but the Son of Man has nowhere to lay his head." (Matthew 8:19-20 ULT)

The implicit information is that Jesus himself is the Son of Man. Other implicit information is that if the scribe wanted to follow Jesus, then, like Jesus, he would have to live without a house.

Jesus said to him, "Foxes have holes, and the birds of the sky have nests, but **I, the Son of Man, have no home to rest in. If you want to follow me, you will live as I live.**"

It will be more tolerable for Tyre and Sidon at the day of judgment than for you (Matthew 11:22 ULT)

The implicit information is that God would not only judge the people; he would punish them. This can be made explicit.

At the day of judgment, God will **punish Tyre and Sidon**, cities whose people were very wicked, **less severely than he will punish you.**
or:

At the day of judgment, God will **punish you more severely** than Tyre and Sidon, cities whose people were very wicked.

Modern readers may not know some of the things that the people in the Bible and the people who first read it knew. This can make it hard for them to understand what a speaker or writer says, and to learn things that the speaker left implicit. Translators may need to state some things explicitly in the translation that the original speaker or writer left unstated or implicit.

Background Information

Description

When people tell a story, they normally tell the events in the order that they happened. This sequence of events makes up the storyline. The storyline is full of action verbs that move the story along in time. But sometimes a writer may take a break from the storyline and give some information to help his listeners understand the story better. This type of information is called background information. The background information might be about things that happened before the events he has already told about, or it might explain something in the story, or it might be about something that would happen much later in the story.

This page answers the question: *What is background information, and how can I show that some information is background information?*

In order to understand this topic, it would be good to read:

[[rc://en/ta/man/translate/figs-events]]
[[rc://en/ta/man/translate/writing-intro]]

Example — The bolded phrases in the story below are all background information.

Peter and John went on a hunting trip because **their village was going to have a feast the next day. Peter was the best hunter in the village. He once killed three wild pigs in one day!** They walked for hours through low bushes until they heard a wild pig. The pig ran, but they managed to shoot the pig and kill it. Then they tied up its legs with some rope **they had brought with them** and carried it home on a pole. When they brought it to the village, Peter's cousin saw the pig and realized that it was his own pig. Peter had mistakenly killed his cousin's pig.

Background information often tells about something that had happened earlier or something that would happen much later. Examples of these are: "their village was going to have a feast the next day," "He once killed three wild pigs in one day," and "that they had brought with them."

Often background information uses "be" verbs like "was" and "were," rather than action verbs. Examples of these are "their village was going to have a feast the next day," and "Peter **was** the best hunter in the village."

Background information can also be marked with words that tell the reader that this information is not part of the event line of the story. In this story, some of these words are "because," "once," and "had."

A writer may use background information:

- to help their listeners be interested in the story
- to help their listeners understand something in the story
- to help the listeners understand why something is important in the story
- to tell the setting of a story
 - > * Setting includes:
 - > * where the story takes place
 - > * when the story takes place
 - > * who is present when the story begins
 - > * what is happening when the story begins

Reasons This Is a Translation Issue

- Languages have different ways of marking background information and storyline information.
- You (the translator) need to know the order of the events in the Bible, which information is background information, and which is storyline information.
- You will need to translate the story in a way that marks the background information in a way that your own readers will understand the order of events, which information is background information, and which is storyline information.

Examples From the Bible

Hagar gave birth to Abram's son, and Abram named his son, whom Hagar bore, Ishmael. Abram **was 86 years old** when Hagar bore Ishmael to Abram. (Genesis 16:15-16 ULT)

The first sentence tells about two events. Hagar gave birth and Abraham named his son. The second sentence is background information about how old Abram was when those things happened.

And Jesus himself **was beginning about 30 years old**. He **was the son** (as it was assumed) of Joseph, of Heli, (Luke 3:23 ULT)

The verses before this tell about when Jesus was baptized. This sentence introduces background information about Jesus' age and ancestors. The story resumes in chapter 4 where it tells about Jesus going to the wilderness.

Then **it happened on a Sabbath** that he **was going through the grain fields**, and his disciples **were picking and eating the heads of grain, rubbing them in their hands**. But some of the Pharisees said ... (Luke 6:1-2a ULT)

These verses give the setting of the story. The events took place in a grain field on the Sabbath day. Jesus, his disciples, and some Pharisees were there, and Jesus' disciples were picking heads of grain and eating them. The main action in the story starts with the phrase, "But some of the Pharisees said"

Translation Strategies

To keep translations clear and natural you will need to study how people tell stories in your language. Observe how your language marks background information. You may need to write down some stories in order to study this. Observe what kinds of verbs your language uses for background information and what kinds of words or other markers signal that something is background information. Do these same things when you translate, so that your translation is clear and natural and people can understand it easily.

(1) Use your language's way of showing that certain information is background information.

(2) Reorder the information so that earlier events are mentioned first. (This is not always possible when the background information is very long.)

Examples of Translation Strategies Applied

(1) Use your language's way of showing that certain information is background information. The examples below explain how this was done in the ULT English translations.

And Jesus himself **was** beginning about 30 years old. He **was** the son (as it was assumed) of Joseph, of Heli. (Luke 3:23 ULT)

As here, English sometimes uses the word "and" to show that there is some kind of change in the story. The verb "was" shows that it is background information.

Therefore, also exhorting many other things, he preached the good news to the people. But Herod the tetrarch, having been rebuked by him concerning Herodias, the wife of his brother, and **concerning all the evil things that Herod had done**, added even this to them all: He locked John up in prison. (Luke 3:18-20 ULT)

The bolded phrase happened before John rebuked Herod. In English, the helping verb "had" in "had done" shows that Herod did those things before John rebuked him.

(2) Reorder the information so that earlier events are mentioned first.

Hagar gave birth to Abram's son, and Abram named his son, whom Hagar bore, Ishmael.
Abram was 86 years old when Hagar bore Ishmael to Abram. (Genesis 16:16 ULT)

"When Abram was 86 years old, Hagar gave birth to his son, and Abram named his son Ishmael."

Therefore, also exhorting many other things, he preached the good news to the people. But Herod the tetrarch, having been rebuked by him concerning Herodias, the wife of his brother, and **concerning all the evil things that Herod had done,** added even this to them all: He locked John up in prison. (Luke 3:18-20 ULT)

The translation below reorders John's rebuke and Herod's actions.

"Now Herod the tetrarch married his brother's wife, Herodias, and **he did many other evil things,** so John rebuked him. But then Herod did another very evil thing. He had John locked up in prison."

Blessings

Description

Blessings are short sayings that people use to ask God to do something good for another person. In the Bible, the person saying the blessing speaks or writes directly to the person who will receive the blessing. The person who says the blessing does not directly speak to God, but it is understood that God is the one who will do the good thing mentioned. It is also understood that God hears the blessing, whether he is mentioned by name or not.

This page answers the question: *What are blessings, and how can I translate them?*

In order to understand this topic, it would be good to read:

[\[\[rc://en/ta/man/translate/writing-intro\]\]](#)

[\[\[rc://en/ta/man/translate/writing-poetry\]\]](#)

Reason This Is a Translation Issue

Each language has its own ways of saying blessings. There are many blessings in the Bible. They need to be translated in the way that people say blessings in your language, so that people recognize them as blessings and understand what one person wants God to do for another.

Examples From the Bible

In the Bible, people often said a blessing when they met someone or when they were leaving someone or sending someone off.

In the book of Ruth, when Boaz meets his workers in the fields, he greets them with a blessing:

Then behold, Boaz coming from Bethlehem! And he said to the reapers, “Yahweh be with you.” And they said to him, “May Yahweh bless you.” (Ruth 2:4 ULT)

Similarly, when Rebekah leaves her family, they say farewell with a blessing:

They blessed Rebekah, and said to her, “Our sister, may you be the mother of thousands of ten thousands, and may your descendants possess the gate of those who hate them.” (Genesis 24:60 ULT)

In a similar way, the writers of letters in the New Testament often wrote a blessing at the beginning of their letters as well as at the end. Here are examples from the beginning and end of Paul’s second letter to Timothy:

Grace, mercy, and peace from God the Father and Christ Jesus our Lord. (2 Tim 1:2 ULT)
The Lord be with your spirit. Grace be with you. (2 Tim 4:22 ULT)

Translation Strategies

Find out how people say blessings in your language. Collect a list of common blessings, noting the form of the verb, the use of certain words, and the words that are not used in a blessing but would normally be in a sentence. Also find out what differences there might be between blessings that people use when they are speaking to each other and when they are writing to each other.

If translating a blessing literally would be natural and give the right meaning in your language, consider doing that. If not, here are some options:

Add a verb if that is natural in your language.

Mention God as the subject of a blessing if that is natural in your language.

Translate the blessing in a form that is natural and clear in your language.

Examples of Translation Strategies Applied

(1) Add a verb if that is natural in your language.

▮ The Lord with your spirit. The grace with you. (2 Tim 4:22, literal from the Greek)

In the Greek of this verse, there is no verb 'be.' However, in blessings in English, it is natural to use a verb. The idea that the 'grace' from God will be or remain with the person is implied in Greek.

The Lord **be** with your spirit. Grace **be** with you. (2 Tim 4:22 ULT)

(2) Mention God as the subject of a blessing if that is natural in your language.

If people expect a blessing to refer to God in your language, you might have to provide 'God' as the subject or as the source of the blessing. In Greek and Hebrew, usually God is not explicitly mentioned in the blessing, but it is implied that God is the one acting to show his kindness to the person being addressed.

▮ The Lord be with your spirit. Grace be with you. (2 Tim 4:22 ULT)

The Lord be with your spirit. **May God give** grace to you.

▮ They blessed Rebekah, and said to her, "Our sister, may you be the mother of thousands of ten thousands, and may your descendants possess the gate of those who hate them." (Genesis 24:60 ULT)

They blessed Rebekah, and said to her, "Our sister, may **God grant that** you be the mother of thousands of ten thousands, and may **God empower** your descendants **to** possess the gate of those who hate them."

(3) Translate the blessing in a form that is natural and clear in your language.

Here are some ideas for ways that people might say a blessing in their language.

▮ The Lord be with your spirit. Grace be with you. (2 Tim 4:22 ULT)

May the Lord be with your spirit. May God cause his grace to be with you.

May you have God's presence with you. May you experience grace from God.

▮ "Our sister, may you be the mother of thousands of ten thousands, and may your descendants possess the gate of those who hate them." (Genesis 24:60 ULT)

"Our sister, we pray to God that you may be the mother of thousands of ten thousands, and appeal to him that your descendants may possess the gate of those who hate them."

"Our sister, by God's power you will be the mother of thousands of ten thousands, and your descendants will possess the gate of those who hate them."

Collective Nouns

Description

This page answers the question: *What are collective nouns and how can I translate them?*

A collective noun is a singular noun that refers to a group of something. Examples: a **family**, **clan**, or **tribe** is a group of people who are related to each other; a **flock** is a group of birds or sheep; a **fleet** is a group of ships; and an **army** is a group of soldiers.

Many collective nouns are used exclusively as a singular replacement for a group as in the examples above. Frequently in the Bible the name of an ancestor is used, through a process of metonymy, as a collective noun referencing the group of his descendants. In the Bible, sometimes the singular noun will take a singular verb form, other times it will take a plural verb form. This may depend on how the author is thinking about the group, or whether the action is being done as a group or as individuals.

Reason This is a Translation Issue

There are several issues that require care when translating collective nouns. Further care is needed because the language you are translating into may not use collective nouns in the same way as the language you are translating from. Issues include:

The source language may have a collective noun for a group that the target language does not and vice-versa. You may have to translate a collective noun with a plural noun in your language, or you may need to translate a plural noun with a collective noun in your language.

Subject-verb agreement. Different languages or dialects may have different rules about using singular or plural verbs with collective nouns.

Examples (from Wikipedia):

- a singular noun with a singular verb: The team *is* in the dressing room.
- a singular noun with a plural verb which is correct in British, but not American, English: The team *are* fighting among themselves. The team *have* finished the project.

Pronoun agreement. Similar to the previous, care needs to be taken to use the correct pronoun plurality and possibly gender or noun class to agree with the number/gender/class of the noun used. See the biblical examples below.

Clarity of referent. Especially if there is a mismatch in your translation between the verb and noun or pronoun concerning any of the factors above, readers may be confused about who or what is being referenced.

Examples from the Bible

And Joab and all the **army** which was with him arrived (2 Samuel 3:23a ULT)

The word in bold is written in singular form in both Hebrew and English, but it refers to a group of warriors that fight together.

and though the **flock** is cut off from the fold and there are no cattle in the stalls. (Habakkuk 3:17b ULT)

The word in bold is singular and refers to a group of sheep.

And he went out again beside the sea, and all the **crowd** was coming to him, and he was teaching **them**. (Mark 2:13 ULT)

Note in this example that the noun is singular but the pronoun is plural. This may or may not be allowed or natural in your language.

Do not let **your heart** be troubled. **You** believe in God; believe also in me. (John 14:1 ULT)

In this verse, the words translated “your” and “you” are plural, referring to many people. The word “heart” is singular in form, but it refers to all of their hearts as a group.

And he shall take the **hair** of the head of his separation. And he shall put **it** on the fire that is under the sacrifice of the peace offerings. (Num 6:18b ULT)

The word **hair** is singular, but it refers to many hairs, not just one.

And Pharaoh said, “Who is Yahweh that I should listen to his voice to let **Israel** go? I do not know Yahweh; and moreover, I will not let **Israel** go.” (Exodus 5:2 ULT)

Here, “Israel” is singular, but means “the Israelites” by metonymy.

Translation Strategies

If your language has a collective (singular) noun that refers to the same group as referenced by the collective noun in the source text, then translate the word using that term. If not, here are some strategies to consider:

- (1) Translate the collective noun with a plural noun.
- (2) Add a plural word to the collective noun so that you can use a plural verb and pronouns.
- (3) Use a phrase to describe the group that the collective noun references. A useful strategy here can be to use a general collective noun that refers to a group of people or things.
- (4) If your language uses a collective noun for something that is a plural noun in the source language, you can translate the plural noun as a collective noun and, if necessary, change the form of the verb and any pronouns so that they agree with the singular noun.

Examples of Translation Strategies Applied

- (1) Translate the collective noun with a plural noun.

And Pharaoh said, “Who is Yahweh that I should listen to his voice to let **Israel** go? I do not know Yahweh; and moreover, I will not let **Israel** go.” (Exodus 5:2 ULT)

And Pharaoh said, “Who is Yahweh that I should listen to his voice to let **the Israelites** go? I do not know Yahweh; and moreover, I will not let **the Israelites** go.”

And he shall take the **hair** of the head of his separation. And he shall put **it** on the fire that is under the sacrifice of the peace offerings. (Num 6:18b ULT)

And he shall take the **hairs** of the head of his separation. And he shall put **them** on the fire that is under the sacrifice of the peace offerings.

- (2) Add a plural word to the collective noun so that you can use a plural verb and pronouns.

And Joab and all the **army** which was with him arrived (2 Samuel 3:23a ULT)

And Joab and all the **army men who were** with him arrived

And he went out again beside the sea, and all the **crowd** was coming to him, and he was teaching **them**. (Mark 2:13 ULT)

And he went out again beside the sea, and all the **people of the crowd were** coming to him, and he was teaching **them**.

(3) Use a phrase to describe the group that the collective noun references. A useful strategy here can be to use a general collective noun that refers to a group of people or things.

and though the **flock** is cut off from the fold and there are no cattle in the stalls. (Habakkuk 3:17b ULT)

and though the **group of sheep** is cut off from the fold and there are no cattle in the stalls.

And Pharaoh said, "Who is Yahweh that I should listen to his voice to let **Israel** go? I do not know Yahweh; and moreover, I will not let **Israel** go." (Exodus 5:2 ULT)

And Pharaoh said, "Who is Yahweh that I should listen to his voice to let **the people of Israel** go? I do not know Yahweh; and moreover, I will not let **the people of Israel** go."

(4) If your language uses a collective noun for something that is a plural noun in the source language, you can translate the plural noun as a collective noun and, if necessary, change the form of the verb and any pronouns so that they agree with the singular noun.

Now this John had his clothing from the **hairs** of a camel and a leather belt around his waist (Matthew 3:4a ULT)

Now this John had his clothing from the **hair** of a camel and a leather belt around his waist

You shall not make for yourself a carved figure nor any likeness that {is} in **the heavens** above, or that {is} in the earth beneath, or that {is} in **the waters** under the earth. (Deuteronomy 5:8 ULT)

Connect — Contrast Relationship

Logical Relationships

Some connectors establish logical relationships between two phrases, clauses, sentences, or chunks of text.

This page answers the question: *How can I translate a contrast relationship?*

Contrast Relationship

Description

A contrast relationship is a logical relationship in which one event or item is in contrast or opposition to another.

Reason This Is a Translation Issue

In Scripture, many events did not happen as the people involved intended or expected them to happen. Sometimes people acted in ways that were not expected, whether good or bad. Often it was God at work, changing the events. These events were often pivotal. It is important that translators understand and communicate these contrasts. In English, contrast relationships are often indicated by the words “but,” “although,” “even though,” “though,” “yet,” or “however.”

Examples From OBS and the Bible

You tried to do evil when you sold me as a slave, **but** God used the evil for good! (Story 8 Frame 12 OBS)

Joseph’s brothers’ evil plan to sell Joseph is contrasted with God’s good plan to save many people. The word “but” marks the contrast.

For who is greater, the one who reclines at the table or the one who serves? Is it not the one who reclines at the table? **Yet** I am among you as one who serves. (Luke 22:27 ULT)

Jesus contrasts the proud way that human leaders behave with the humble way that he behaves. The contrast is marked by the word “yet.”

The hill country will also be yours. **Though** it is a forest, you will clear it and it will become yours to its farthest borders, for you will drive out the Canaanites, even **though** they have chariots of iron, and even **though** they are strong. (Joshua 17:18 ULT)

It was unexpected that the Israelites, who had been slaves in Egypt, would be able to conquer and lay claim to the promised land.

Translation Strategies

If your language uses contrast relationships in the same way as in the text, then use them as they are.

(1) If the contrast relationship between the clauses is not clear, then use a connecting word or phrase that is more specific or more clear.

(2) If it is more clear in your language to mark the other clause of the contrast relationship, then use a connecting word on the other clause.

(3) If your language shows a contrast relationship in a different way, then use that way.

Examples of Translation Strategies Applied

(1) If the contrast relationship between the clauses is not clear, then use a connecting word or phrase that is more specific or more clear.

For who is greater, the one who reclines at table or the one who serves? Is it not the one who reclines at table? **Yet** I am among you as one who serves. (Luke 22:27 ULT)

For who is greater, the one who reclines at table or the one who serves? Is it not the one who reclines at table? **Unlike that person**, I am among you as one who serves.

(2) If it is more clear in your language to mark the other clause of the contrast relationship, then use a connecting word on the other clause.

The hill country will also be yours. **Though** it is a forest, you will clear it and it will become yours to its farthest borders, for you will drive out the Canaanites, even **though** they have chariots of iron, and even **though** they are strong. (Joshua 17:18 ULT)

The hill country will also be yours. It is a forest, **but** you will clear it and it will become yours to its farthest borders. They have chariots of iron, and they are strong, **but** you will drive out the Canaanites.

(3) If your language shows a contrast relationship in a different way, then use that way.

{David} found favor in the sight of God, and he asked if he might find a dwelling place for the house of Jacob. **However**, Solomon built the house for him. **But** the Most High does not live in houses made with hands. (Acts 7:46-48a ULT)

[David] found favor in the sight of God, and he asked if he might find a dwelling place for the house of Jacob. **But** it was, Solomon, **not David**, who built the house for God. **Even though Solomon built him a house**, the Most High does not live in houses made with hands.

Connect — Factual Conditions

Conditional Relationships

This page answers the question: *How can I translate factual conditions?*

Conditional connectors connect two clauses to indicate that one of them will happen when the other one happens. In English, the most common way to connect conditional clauses is with the words, “if ... then.” Often, however, the word “then” is not stated.

Factual Conditions

Description

A Factual Condition is a condition that sounds hypothetical but is already certain or true in the speaker’s mind. In English, a sentence containing a Factual Condition can use the words “even though,” “since,” or “this being the case” to indicate that it is a factual condition and not a hypothetical condition.

Reason This Is a Translation Issue

Some languages do not state something as a condition if it is certain or true. Translators from these languages may misunderstand the original languages and think that the condition is uncertain. This would lead to mistakes in their translations. Even if the translators understand that the condition is certain or true, the readers may misunderstand it. In this case, it would be best to translate it as a statement of fact rather than as a conditional statement.

Examples From OBS and the Bible

“**If** Yahweh is God, worship him!” (Story 19 Frame 6 OBS)

Elijah came near to all the people and said, “How long will you keep changing your mind? **If Yahweh is God**, follow him. But if Baal is God, then follow him.” Yet the people did not answer him a word. (1 Kings 18:21 ULT)

This sentence has the same construction as a hypothetical condition. The condition is “if Yahweh is God.” If that is true, then the Israelites should worship Yahweh. But the prophet Elijah does not question whether or not Yahweh is God. In fact, he is so certain that Yahweh is God that later in the passage he pours water all over his sacrifice. He is confident that God is real and that he will burn even an offering that is completely wet. Over and over again, the prophets taught that Yahweh is God, so the people should worship him. The people did not worship Yahweh, however, even though He is God. By putting the statement or instruction into the form of a Factual Condition, Elijah is trying to get the Israelites to understand more clearly what they should do.

“A son honors his father, and a servant honors his master. **If** I, then, am a father, where is my honor? **If** I am a master, where is the reverence for me?” says Yahweh of hosts to you priests, who despise my name. (Malachi 1:6 ULT)

Yahweh has said that he is a father and a master to Israel, so even though this sounds like a hypothetical condition because it begins with “if,” it is not hypothetical. This verse begins with the proverb that a son honors his father. Everyone knows that is right. But the Israelites are not honoring Yahweh. The other proverb in the verse says that a servant honors his master. Everyone knows that is right. But the Israelites are not honoring Yahweh, so it seems that he is not their master. But Yahweh is the master. Yahweh uses the form of a hypothetical condition to demonstrate that the Israelites are wrong. The second part of the condition that should occur naturally is not happening, even though the conditional statement is true.

Translation Strategies

If using the form of a hypothetical condition is confusing or would make the reader think that the speaker doubts what he is saying in the first part of the sentence, then use a statement instead. Words such as “since” or “you know that ...” or “it is true that ...” can be helpful to make the meaning clear.

Examples of Translation Strategies Applied

“**If** Yahweh is God, worship him!” (Story 19 Frame 6 OBS)

“**It is true that** Yahweh is God, so worship him!”

“A son honors his father, and a servant honors his master. **If** I, then, am a father, where is my honor? **If** I am a master, where is the reverence for me?” says Yahweh of hosts to you priests, who despise my name. (Malachi 1:6 ULT)

Connect — Goal (Purpose) Relationship

Logical Relationships

Some connectors establish logical relationships between two phrases, clauses, sentences, or chunks of text.

This page answers the question: *How can I translate a goal (purpose) relationship?*

Goal (or Purpose) Relationship

Description

A Goal Relationship is a logical relationship in which the second event is the purpose or goal of the first event. In order for something to be a goal relationship, someone must do the first event with the intention that it will cause the second event.

Reason This Is a Translation Issue

In Scripture, the goal or purpose may be stated either first or second. But in some languages, the goal or purpose must always occur in the same position (either first or second) in order for that logical relationship to be understood. You (the translator) need to understand the relationship between the two parts and communicate those accurately in your language. This may require changing the order of the two events. It may also require specific words to indicate that one is the goal or purpose of the other. Words commonly used to indicate a goal relationship in English are “in order to,” “in order that” or “so that.” It is important that the translator recognize the words that signal a goal relationship and translate that relationship in a natural way.

Examples From OBS and the Bible

She became angry and falsely accused Joseph **so that he was arrested and sent to prison.**
(Story 8 Frame 5 OBS)

The goal or purpose of the woman’s false accusation was to get Joseph arrested and sent to prison.

Meanwhile Gideon, his son, was threshing out wheat at the winepress **in order to hide from the presence of Midian.** (Judges 6:11b ULT)

Here the prepositional phrase begins with “in order to.”

Now if I have found favor in your eyes, show me your ways **so that I may know you and continue to find favor in your eyes.** Remember that this nation is your people. (Exodus 33:13 ULT)

Moses wants God to show him God’s ways for the goal or purpose of Moses knowing God and continuing to find favor with God.

Even be sure to pull some out from the bundles for her and leave it **for her to glean,** and do not rebuke her! (Ruth 2:16 ULT)

The goal or purpose of Boaz instructing the men to pull out the grain from their bundles and leave it was for Ruth to gather (glean) it.

The shepherds said to each other, “Let us indeed go over as far as Bethlehem, **and let us see this thing that has happened,** which the Lord has made known to us.” (Luke 2:15 ULT)

The purpose of going to Bethlehem was to see the thing that had happened. Here the purpose is not marked and might be misunderstood.

“... if you want **to enter into life**, keep the commandments.” (Matthew 19:17b ULT)

The goal of keeping the commandments is to enter into life.

Do not turn from it to the right or to the left **so that you may be wise** in everything in which you walk. (Joshua 1:7c ULT)

The purpose of not turning away from the instructions that Moses gave to the Israelites was so that they would be wise.

But when the vine growers saw the son, they said among themselves, ‘This is the heir. Come, let us kill him **and take over his inheritance**.’ So they took him, threw him out of the vineyard and killed him. (Matt 21:38-39 ULT)

The purpose of the vine growers killing the heir was so they could take his inheritance. They state both events as a plan, joining them only with “and.” Then the word “so” marks the reporting of the first event, but the second event (the goal or purpose) is not stated.

Translation Strategies

If your language uses Goal or Purpose relationships in the same way as in the text, then use them as they are.

- (1) If the construction of the Goal statement is unclear, change it to one that is more clear.
- (2) If the order of the statements makes the Goal statement unclear or confusing for the reader, then change the order.

Examples of Translation Strategies Applied

- (1) If the construction of the goal statement is unclear, change it to one that is more clear.

(1) and (2)

But when the vine growers saw the son, they said among themselves, 'This is the heir. Come, let us kill him **and take over his inheritance.**' So they took him, threw him out of the vineyard and killed him. (Matt 21:38-39 ULT)

Connect — Hypothetical Conditions

Conditional Relationships

This page answers the question: *How can I translate hypothetical conditions?*

Conditional connectors connect two clauses to indicate that one of them will happen when the other one happens. In English, the most common way to connect conditional clauses is with the words “if ... then.” Often, however, the word “then” is not stated.

Hypothetical Condition

Description

A Hypothetical Condition is a condition in which the second event (the “then” clause) will only take place if the first event (the “if” clause) takes place or is fulfilled in some way. Sometimes what takes place is dependent on the actions of other people.

Reason This Is a Translation Issue

It is important that translators understand whether or not something is a Hypothetical Condition so that they translate it in the correct way. For example, some of God’s promises to Israel were conditional, based on whether or not Israel obeyed God. However, many of God’s promises to Israel were not conditional; God would keep these promises whether or not the Israelites obeyed. It is important that you (the translator) know the difference between these two types of promises and communicate each one accurately in your own language. Also, sometimes conditions are stated in an order different than the order in which they would happen. If the target language would state the clauses in a different order, then you will need to make that adjustment.

Examples From OBS and the Bible

God promised to bless the people and protect them, **if** they obeyed these laws. But he said he would punish them **if** they did not obey them (Story 13 Frame 7 OBS)

There are two hypothetical conditions in this frame. In both of these conditions, the first event (the “if clause”) is stated after the “then” clause. If this is unnatural or confusing, the clauses can be restated in the more natural order. The first hypothetical condition is: if the Israelites obeyed God, then God would bless and protect them. The second hypothetical condition is: if the Israelites did not obey God, then God would punish them.

If you do what is right, will you not be accepted? (Genesis 4:7a ULT)

If Cain does what is right, then he will be accepted. The only way for Cain to be accepted is by doing what is right.

... **if** this plan or this work is of men, it will be overthrown. But **if** it is of God, you will not be able to overthrow them. (Acts 5:38b-39aULT)

There are two hypothetical conditions here: (1) If it is true that this plan is of men, then it will be overthrown; (2) If it is true that this plan is of God, then it cannot be overthrown.

Translation Strategies

- (1) If the order of clauses makes the hypothetical condition confusing, then change the order of the clauses.
- (2) If it is not clear where the second event is, mark that part with a word like “then.”

Examples of Translation Strategies Applied

(1) If the order of clauses makes the hypothetical condition confusing, then change the order of the clauses.

God promised to bless the people and protect them **if** they obeyed these laws. But he said he would punish them **if** they did not obey them. (Story 13 Frame 7 OBS)

If the people obeyed these laws, God promised he would bless them and protect them. But **if** they did not obey these laws, God said that he would punish them.

(2) If it is not clear where the second event is, mark that part with a word like “then.”

Connect — Reason-and-Result Relationship

Logical Relationships

Some connectors establish logical relationships between two phrases, clauses, sentences, or chunks of text.

This page answers the question: *How can I translate the reason-result relationship?*

Reason-and-Result Relationships

Description

A reason-and-result relationship is a logical relationship in which one event is the **reason** or cause for another event. The second event, then, is the **result** of the first event.

Reason This Is a Translation Issue

A reason-and-result relationship can look forward — “I did Y because I wanted X to happen.” But usually it is looking backward — “X happened, and so I did Y.” Also, it is possible to state the reason either before or after the result. Many languages have a preferred order for the reason and the result, and it will be confusing for the reader if they are in the opposite order. Common words used to indicate a reason-and-result relationship in English are “because,” “so,” “therefore,” and “for.” Some of these words can also be used to indicate a goal relationship, so translators need to be aware of the difference between a goal relationship and a reason-and-result relationship. It is necessary for translators to understand how the two events are connected, and then communicate them clearly in their language.

If the reason and result are stated in different verses, it is still possible to put them in a different order. If you change the order of the verses, then put the verse numbers together at the beginning of the group of verses that were rearranged like this: 1-2. This is called a Verse Bridge.

Examples From OBS and the Bible

The Jews were amazed, **because** Saul had tried to kill believers, and now he believed in Jesus!
(Story 46 Frame 6 OBS)

The **reason** is the change in Saul — that he had tried to kill people who believed in Jesus, and now he himself believed in Jesus. The **result** is that the Jews were amazed. “Because” connects the two ideas and indicates that what follows it is a reason.

Behold, a great storm arose on the sea, **so that** the boat was covered with the waves.
(Matthew 8:24a ULT)

The **reason** is the great storm, and the **result** is that the boat was covered with the waves. The two events are connected by “so that.” Notice that the term “so that” often indicates a goal relationship, but here the relationship is reason-and-result. This is because the sea cannot think and therefore does not have a goal.

God blessed the seventh day and sanctified it, **because** in it he rested from all his work which he had done in his creation. (Genesis 2:3 ULT)

The **result** is that God blessed and sanctified the seventh day. The **reason** is because he rested on the seventh day from his work.

“Blessed are the poor, **for** yours is the kingdom of God.” (Luke 6:20b ULT)

The **result** is that the poor are blessed. The **reason** is that the kingdom of God is theirs.

But he raised up in their place their sons that Joshua circumcised, being uncircumcised, **because** they had not been circumcised on the way. (Joshua 5:7 ULT)

The **result** is that Joshua circumcised the boys and men who had been born in the wilderness. The **reason** was that they had not been circumcised while they were journeying.

Translation Strategies

If your language uses reason-and-result relationships in the same way as in the text, then use them as they are.

- (1) If the order of the clauses is confusing for the reader, then change the order.
- (2) If the relationship between the clauses is not clear, then use a more clear connecting word.
- (3) If it is more clear to put a connecting word in the clause that does not have one, then do so.

Examples of Translation Strategies Applied

God blessed the seventh day and sanctified it, **because** in it he rested from all his work which he had done in his creation. (Genesis 2:3 ULT)

(1) God rested on the seventh day from all his work which he had done in his creation. **That is why** he blessed the seventh day and sanctified it.

Blessed are the poor, **for** yours is the kingdom of God. (Luke 6:20 ULT)

- (1) The kingdom of God belongs to you who are poor. **Therefore**, the poor are blessed.
- (2) Blessed are the poor, **because** yours is the kingdom of God.
- (3) **The reason that** the poor are blessed **is because** yours is the kingdom of God.

Behold, a great storm arose on the sea, **so that** the boat was covered with the waves. (Matthew 8:24a ULT)

- (1) Behold, the boat was covered with the waves **because** a great storm arose on the sea.
- (2) Behold, a great storm arose on the sea, **with the result that** the boat was covered with the waves.
- (3) Behold, **because** a great storm arose on the sea, the boat was covered with the waves.

Since he was not able to find out anything for certain because of the noise, he ordered that he be brought into the fortress. (Acts 21:34b ULT)

- (1) The captain ordered that Paul be brought into the fortress, **because** he could not tell anything because of all the noise.
- (2) **Because** the captain could not tell anything because of all the noise, he ordered that Paul be brought into the fortress.
- (3) The captain could not tell anything because of all the noise, **so** he ordered that Paul be brought into the fortress.

Connect — Simultaneous Time Relationship

Time Relationships

Some connectors establish time relationships between two phrases, clauses, sentences, or chunks of text.

This page answers the question: *How can I translate clauses with a simultaneous time relationship?*

Simultaneous Clause

Description

A simultaneous clause is a time relationship that connects two or more events that occur at the same time.

Reason This Is a Translation Issue

Languages indicate in many different ways that events occur simultaneously. These ways may vary based on whether or not something is causing the events to occur simultaneously. Connecting words that may indicate simultaneous events are words such as “while,” “as,” and “during.” Often the Bible does not state a relationship between the events but simply says they occurred at the same time. It is important that you (the translator) know when a time relationship is implied and when it is not implied so that you can communicate it clearly. A simultaneous clause communicates that events happened at the same time but it does not indicate that one event caused the other. That would be a reason-and-result relationship.

Examples From OBS and the Bible

Joseph served his master well, **and** God blessed Joseph. (OBS Story 8 Frame 4)

Two events happened while Joseph was a slave to a wealthy government official: Joseph served well, and God blessed Joseph. There is no indication of a reason-and-result (cause and effect) relationship between the two, or that the first event happened, and then the second event happened.

But in truth I say to you that there were many widows in Israel **during** the days of Elijah. (Luke 4:25b ULT)

The connecting word “**during**” tells us clearly that two things happened at the same time, but one event did not cause the other.

And the people were waiting for Zechariah, **and** they were wondering at his delaying in the temple. (Luke 1:21 ULT)

The people were both waiting and wondering at the same time. The general connector “**and**” indicates this.

While they were looking intensely into heaven **as** he was going up, suddenly, two men stood by them in white clothing. (Acts 1:10 ULT)

Three events happened at the same time — the disciples looking, Jesus going up, and two men standing. The connector words “**while**” and “**as**” tell us this.

Translation Strategies

If the way that the simultaneous clauses are marked also is clear in your language, then translate the simultaneous clauses as they are.

- (1) If the connecting word does not make it clear that the simultaneous clauses are happening at the same time, use a connecting word that communicates this more clearly.
- (2) If it is not clear which clause the simultaneous clause is connected to, and that they are happening at the same time, mark all of the clauses with a connecting word.
- (3) If your language marks events as simultaneous in a different way than using connecting words, then use that way.

Examples of Translation Strategies Applied

Below, each Bible verse will be restated in three different ways, according to the translation strategies in the list above. Each restatement will have the same number as the translation strategy that it is using.

And the people were waiting for Zechariah, **and** they were wondering at his delaying in the temple. (Luke 1:21 ULT)

- (1) Now **while** the people were waiting for Zechariah, they were wondering at his delaying in the temple.
- (2) Now **while** the people were waiting for Zechariah, they were **also** wondering at his delaying in the temple.
- (3) Now the people were waiting for Zechariah, wondering at his delaying in the temple.

While they were looking intently into heaven **as** he was going up, suddenly, two men stood by them in white clothing. (Acts 1:10 ULT)

- (1) And **during the time** they were looking intently into heaven **while** he was going up, suddenly, two men stood by them in white clothing.
- (2) And **while** they were looking intently into heaven **as** he was going up, suddenly, **at that same time** two men stood by them in white clothing.
- (3) They were looking intently into heaven; he was going up **when** they saw two men standing by them in white clothing.

Connecting Words and Phrases

Description

This page answers the question: *How do connecting words work to join parts of the text in different ways?*

As humans, we write our thoughts in phrases and sentences. We usually want to communicate a series of thoughts that are connected to each other in different ways. **Connecting words and phrases** show how these thoughts are related to each other. For example, we can show how the following thoughts are related by using the Connecting Words in bold type:

- It was raining, **so** I opened my umbrella.
- It was raining, **but** I did not have an umbrella. **So** I got very wet.

Connecting words or phrases can connect phrases or clauses within a sentence. They can connect sentences to each other. They can also connect entire chunks to one another in order to show how the chunk before relates to the chunk after the connecting word. Very often, the connecting words that connect entire chunks to one another are either conjunctions or adverbs.

It was raining, but I did not have an umbrella, so I got very wet.

Now I must change my clothes. Then I will drink a cup of hot tea and warm myself by the fire.

In the above example, the word **now** connects the two short chunks of text, showing the relationship between them. The speaker must change his clothes, drink hot tea, and warm himself because of something that happened earlier (that is, he got wet in the rain).

Sometimes people might not use a connecting word because they expect the context to help the readers understand the relationship between the thoughts. Some languages do not use connecting words as much as other languages do. They might say:

- It was raining. I did not have an umbrella. I got very wet.

You (the translator) will need to use the method that is most natural and clear in the target language. But in general, using connecting words whenever possible helps the reader to understand the ideas in the Bible most clearly.

Reasons This Is a Translation Issue

- You need to understand the relationship between paragraphs, between sentences, and between parts of sentences in the Bible, and how connecting words and phrases can help you to understand the relationship between the thoughts that they are connecting.
- Each language has its own ways of showing how thoughts are related.
- You need to know how to help readers understand the relationship between the thoughts in a way that is natural in your language.

Translation Principles

- You need to translate in a way that readers can understand the same relationship between thoughts that the original readers would have understood.
- Whether or not a connecting word is used is not as important as readers being able to understand the relationship between the ideas.

The Different Types of Connections

Listed below are different types of connections between ideas or events. These different types of connections can be indicated by using different connecting words. When we write or translate something, it is important to use the right connecting word so that these connections are clear for the reader. If you would like additional information, simply click the colored, hyperlinked word to be directed to a page containing definitions and examples for each type of connection.

- Sequential Clause — a time relationship between two events in which one happens and then the other happens.
- [Simultaneous Clause](#) — a time relationship between two or more events that occur at the same time.
- Background Clause — a time relationship in which the first clause describes a long event that is happening at the time when the beginning of the second event happens, which is described in the second clause.
- Exceptional Relationship — one clause describes a group of people or items, and the other clause excludes one or more items or people from the group.
- [Hypothetical Condition](#) — the second event will only take place if the first one takes place. Sometimes what takes place is dependent on the actions of other people.
- [Factual Condition](#) — a connection that sounds hypothetical but is already certain or true, so that the condition is guaranteed to happen.
- Contrary-to-Fact Condition — a connection that sounds hypothetical but is already certain that it is not true. See also: [Hypothetical Statements](#).
- [Goal Relationship](#) — a logical relationship in which the second event is the purpose or goal of the first.
- [Reason and Result Relationship](#) — a logical relationship in which one event is the reason for the other event, the result.
- [Contrast Relationship](#) — one item is being described as different or in opposition to another.

Examples from the Bible

I did not immediately consult with flesh and blood. I did not go up to Jerusalem to those who were apostles before me. **Instead**, I went to Arabia and then returned to Damascus. **Then** after three years, I went up to Jerusalem to visit Cephas, and I stayed with him 15 days. (Galatians 1:16b-18 ULT)

The word “instead” introduces something that contrasts with what was said before. The contrast here is between what Paul did not do and what he did do. The word “then” introduces a sequence of events. It introduces something that Paul did after he returned to Damascus.

Therefore, whoever breaks the least one of these commandments **and** teaches others to do so will be called least in the kingdom of heaven. **But** whoever keeps them and teaches them, that one will be called great in the kingdom of heaven. (Matthew 5:19 ULT)

The word “therefore” links this section with the section before it, signaling that the section that came before gave the reason for this section. “Therefore” usually links sections larger than one sentence. The word “and” links only two actions within the same sentence, that of breaking commandments and teaching others. In this verse the word “but” contrasts what one group of people will be called in God’s kingdom with what another group of people will be called.

We place nothing as a stumbling block in front of anyone, **so that** our ministry might not be discredited. **Instead**, we commend ourselves in everything as God’s servants. (2 Corinthians 6:3-4 ULT)

Here the words “so that” connect what follows as the reason for what came before; the reason that Paul does not place stumbling blocks is that he does not want his ministry brought into disrepute. “Instead” contrasts what Paul does (prove by his actions that he is God’s servant) with what he said he does not do (place stumbling blocks).

General Translation Strategies

See each type of Connecting Word above for specific strategies

If the way the relationship between thoughts is shown in the ULT would be natural and give the right meaning in your language, then consider using it. If not, here are some other options.

- (1) Use a connecting word (even if the ULT does not use one).
- (2) Do not use a connecting word if it would be strange to use one and people would understand the right relationship between the thoughts without it.
- (3) Use a different connecting word.

Examples of Translation Strategies Applied

- (1) Use a connecting word (even if the ULT does not use one).

Jesus said to them, “Come follow me, and I will make you to become fishers of men.” Then immediately they left the nets and followed him. (Mark 1:17-18 ULT)

They followed Jesus because he told them to. Some translators may want to mark this clause with the connecting word “so.”

Jesus said to them, “Come follow me, and I will make you to become fishers of men.” **So**, immediately they left the nets and followed him.

- (2) Do not use a connecting word if it would be odd to use one, and if people would understand the right relationship between the thoughts without it.

Therefore, whoever breaks the least one of these commandments **and** teaches others to do so will be called least in the kingdom of heaven. **But** whoever keeps them and teaches them, that one will be called great in the kingdom of heaven. (Matthew 5:19 ULT)

Some languages would prefer not to use connecting words here because the meaning is clear without them and using them would be unnatural. They might translate like this:

Therefore, whoever breaks the least one of these commandments, teaching others to do so as well, will be called least in the kingdom of heaven. Whoever keeps them and teaches them, that one will be called great in the kingdom of heaven.

I did not immediately consult with flesh and blood. I did not go up to Jerusalem to those who were apostles before me. **Instead**, I went to Arabia and then returned to Damascus. **Then** after three years, I went up to Jerusalem to visit Cephas, and I stayed with him 15 days. (Galatians 1:16b-18 ULT) (Galatians 1:16-18 ULT)

Some languages might not need the words “instead” or “then” here. They might translate like this:

I did not immediately consult with flesh and blood, nor did I go up to Jerusalem to those who had become apostles before me. I went to Arabia and then returned to Damascus. After three years I went up to Jerusalem to visit Cephas, and I stayed with him 15 days.

- (3) Use a different connecting word.

Therefore, whoever breaks the least one of these commandments **and** teaches others to do so will be called least in the kingdom of heaven. **But** whoever keeps them and teaches them, that one will be called great in the kingdom of heaven. (Matthew 5:19 ULT)

Instead of a word like “therefore,” a language might need a phrase to indicate that there was a section before it that gave the reason for the section that follows. Also, the word “but” is used here because of the contrast between the two groups of people. But in some languages, the word “but” would show that what comes after it is surprising because of what came before it. So “and” might be clearer for those languages. They might translate like this:

Because of that, whoever breaks the least one of these commandments and teaches others to do so will be called least in the kingdom of heaven.
And whoever keeps them and teaches them, that one will be called great in the kingdom of heaven.

Direct and Indirect Quotations

Description

There are two kinds of quotations: direct quotations and indirect quotations.

A direct quotation occurs when someone reports what another person said from the viewpoint of that original speaker. People usually expect that this kind of quotation will represent the original speaker's exact words. In the example below, John would have said "I" when referring to himself, so the narrator, who is reporting John's words, uses the word "I" in the quotation to refer to John. To show that these are John's exact words, many languages put the words between quotation marks: "".

- John said, "I do not know at what time I will arrive."

An indirect quotation occurs when a speaker reports what someone else said, but in this case, the speaker is reporting it from his own point of view instead and not from the original person's point of view. This kind of quotation usually contains changes in pronouns, and it often includes changes in time, in word choices, and in length. In the example below, the narrator refers to John as "he" in the quotation and uses the word "would" to replace the future tense, indicated by "will."

- John said that he did not know at what time he would arrive.

Reason This Is a Translation Issue

In some languages, reported speech can be expressed by either direct or indirect quotations. In other languages, it is more natural to use one than the other. There may be a certain meaning implied by using one rather than the other. So for each quotation, translators need to decide whether it is best to translate it as a direct quotation or as an indirect quotation.

Examples From the Bible

The verses in the examples below contain both direct and indirect quotations. In the explanation below the verse, we have marked in bold the words that are quoted.

And he commanded him to tell no one, but, "Go, show yourself to the priest and offer a sacrifice for your cleansing, according to what Moses commanded, for a testimony to them."
(Luke 5:14 ULT)

- Indirect quote: He commanded him **to tell no one**,
- Direct quote: but told him, "**Go, show yourself to the priest ...**"

And being asked by the Pharisees when the kingdom of God was coming, he answered them and said, "The kingdom of God is not coming with careful observation. Neither will they say, 'Look, here it is!' or 'There it is!' For indeed, the kingdom of God is among you." (Luke 17:20-21 ULT)

- Indirect quote: Being asked by the Pharisees **when the kingdom of God was coming**,
- Direct quote: he answered them and said, "**The kingdom of God is not coming with careful observation. Neither will they say, 'Look, here it is!' or 'There it is!' For indeed, the kingdom of God is among you.**"
- Direct quotes: Neither will they say, '**Look, here it is!**' or, '**There it is!**'

- (2) If an indirect quote would not work well in your language, change it to a direct quote.

Distinguishing Versus Informing or Reminding

Description

In some languages, phrases that modify a noun can be used with the noun for two different purposes. They can either (1) distinguish the noun from other similar items, or (2) they can give more information about the noun. That information could be new to the reader, or a reminder about something the reader might already know. Other languages use modifying phrases with a noun only for distinguishing the noun from other similar things. When people who speak these languages hear a modifying phrase along with a noun, they assume that its function is to distinguish one item from another similar item.

This page answers the question: *When a phrase is used with a noun, what is the difference between phrases that distinguish the noun from others and phrases that simply inform or remind?*

In order to understand this topic, it would be good to read:

[[rc://en/ta/man/translate/figs-partsofspeech]]
 [[rc://en/ta/man/translate/figs-sentences]]

Some languages use a comma to mark the difference between (1) making a distinction between similar items and (2) giving more information about an item. Without the comma, the sentence below communicates that it is making a distinction:

- Mary gave some of the food to **her sister who was very thankful**.
 - If her sister was usually thankful, the phrase “who was thankful” could distinguish this sister of Mary’s from another sister who was not usually thankful.

With the comma, the sentence is giving more information:

- Mary gave some of the food to **her sister, who was very thankful**.
 - This same phrase can be used to give us more information about Mary’s sister. It tells us about how Mary’s sister responded when Mary gave her the food. In this case it does not distinguish one sister from another sister.

Reasons This Is a Translation Issue

- Many source languages of the Bible use phrases that modify a noun both for distinguishing the noun from another similar item and also for giving more information about the noun. You (the translator) must be careful to understand which meaning the author intended in each case.
- Some languages use phrases that modify a noun only for distinguishing the noun from another similar item. When translating a phrase that is used for giving more information, translators who speak these languages will need to separate the phrase from the noun. Otherwise, people who read it or hear it will think that the phrase is meant to distinguish the noun from other similar items.

Examples From the Bible

Examples of words and phrases that are used to distinguish one item from other possible items:

(These usually do not cause any problem in translation.)

█ The curtain is to separate **the holy place** from **the most holy place**. (Exodus 26:33b ULT)

The words “holy” and “most holy” distinguish two different places from each other and from any other place.

█ A foolish son is a grief to his father, and bitterness to **the woman who bore him**. (Proverbs 17:25 ULT)

The phrase “who bore him” distinguishes which woman the son is bitterness to. He is not bitterness to all women, but to his mother.

Examples of words and phrases that are used to give added information or a reminder about an item:

(These are a translation issue for languages that do not use these.)

... for **your righteous judgments** are good. (Psalm 119:39b ULT)

The word “righteous” simply reminds us that God’s judgments are righteous. It does not distinguish his righteous judgments from his unrighteous judgments, because all of his judgments are righteous.

How can Sarah, **who is 90 years old**, bear a son? (Genesis 17:17b ULT)

The phrase “who is 90 years old” is the reason that Abraham did not think that Sarah could bear a son. He was not distinguishing one woman named Sarah from another woman named Sarah who was a different age, and he was not telling anyone something new about her age. He simply did not think that a woman who was that old could bear a child.

I will wipe away mankind **whom I have created** from the surface of the earth. (Genesis 6:7 ULT)

The phrase “whom I have created” is a reminder of the relationship between God and mankind. It is the reason God had the right to wipe away mankind. There is not another mankind that God did not create.

Translation Strategies

If readers would understand the purpose of a phrase with a noun, then consider keeping the phrase and the noun together. For languages that use words or phrases with a noun only to distinguish one item from another, here are some strategies for translating phrases that are used to inform or remind.

- (1) Put the information in another part of the sentence and add words that show its purpose.
- (2) Use one of your language’s ways for expressing that this is just added information. It may be by adding a small word, or by changing the way the voice sounds. Sometimes changes in the voice can be shown with punctuation marks, such as parentheses or commas.

Examples of Translation Strategies Applied

- (1) Put the information in another part of the sentence and add words that show its purpose.

I hate those who serve **worthless** idols (Psalm 31:6 ULT)

By saying “worthless idols,” David was commenting about all idols and giving his reason for hating those who serve them. He was not distinguishing worthless idols from valuable idols.

>

Because idols are worthless, I hate those who serve them.

... for your **righteous** judgments are good. (Psalm 119:39b ULT)

... for your judgments are good **because they are righteous**.

Can Sarah, **who is 90 years old**, bear a son? (Genesis 17:17b ULT)

The phrase “who is 90 years old” is a reminder of Sarah’s age. It tells why Abraham was asking the question. He did not expect that a woman who was that old could bear a child.

>

Can Sarah bear a son **even when she is 90 years old**?

I will call on Yahweh, **who is worthy to be praised**. (2 Samuel 22:4a ULT) There is only one Yahweh. The phrase “who is worthy to be praised” gives a reason for calling on Yahweh.

I will call on Yahweh, because **he is worthy to be praised**

(2) Use one of your language’s ways for expressing that this is just added information.

You are my Son, **whom I love**. I am pleased with you. (Luke 3:22 ULT)

You are my Son. **I love you** and I am pleased with you.

Receiving my love, you are my Son. I am pleased with you.

Double Negatives

A double negative occurs when a clause has two words that each express the meaning of “not.” Double negatives mean very different things in different languages. To translate sentences that have double negatives accurately and clearly, you need to know what a double negative means in the Bible and how to express this idea in your language.

This page answers the question: *What are double negatives?*

In order to understand this topic, it would be good to read:

[\[\[rc://en/ta/man/translate/figs-partsofspeech\]\]](#)

[\[\[rc://en/ta/man/translate/figs-sentences\]\]](#)

Description

Negative words are words that have in them the meaning “not.” Examples in English are “no,” “not,” “none,” “no one,” “nothing,” “nowhere,” “never,” “nor,” “neither,” and “without.” Also, some words have prefixes or suffixes that mean “not,” such as the bolded parts of these words: “**un**happy,” “**im**possible,” and “use**less**.” Some other kinds of words also have a negative meaning, such as “lack” or “reject,” or even “fight” or “evil.”

A double negative occurs when a clause has two words that each have a negative meaning.

We did this **not** because we have **no** authority ... (2 Thessalonians 3:9a ULT)

And this was **not** done **without** an oath! (Hebrews 7:20a ULT)

Be sure of this—the wicked person will **not** go **un**punished. (Proverbs 11:21a ULT)

Reason This Is a Translation Issue

Double negatives mean very different things in different languages.

- In some languages, such as English, a second negative in a clause cancels the first one, creating a positive sentence. So, “He is not unintelligent” means “He is intelligent.”
- In some languages, such as French and Spanish, two negative words in a clause do not cancel each other to become a positive. The Spanish sentence, “No vi a nadie,” literally says “I did not see no one.” It has both the word ‘no’ next to the verb and ‘nadie,’ which means “no one.” The two negatives are seen as in agreement with each other, and the sentence means, “I did not see anyone.”
- In some languages, a double negative creates a stronger negative statement.
- In some languages, a double negative creates a positive sentence, but it is a weak statement. So, “He is not unintelligent” means, “He is somewhat intelligent.”
- In some languages, including the languages of the Bible, a double negative can produce a stronger positive meaning than a simple positive statement. So, “He is not unintelligent” can mean “He is very intelligent.” In this case, the double negative is actually the figure of speech called [litotes](#).

Biblical Greek can do all of the above. So to translate sentences with double negatives accurately and clearly in your language, you need to know what each double negative means in the Bible and how to express the same idea in your language.

Examples From the Bible

The Greek of John 15:5 says:

χωρὶς ἐμοῦ οὐ δύνασθε ποιεῖν οὐδέν

Without me **not** you can do **nothing**

We cannot reproduce this double negative in the English ULT because in English, a second negative in a clause cancels the first one. In English, and perhaps in your language, we need to choose only one of the negatives and say either:

Without me, you can do **nothing**.

or:

Without me, you **cannot** do anything.

... in order **not** to be **unfruitful**. (Titus 3:14b ULT)

This means "in order to be fruitful."

A prophet is **not without** honor (Mark 6:4 ULT)

This means "a prophet is honored."

I do **not** want you to be **ignorant**. (1 Corinthians 12:1)

This means "I want you to be knowledgeable."

Translation Strategies

If the way that the double negative is used in the Bible is natural and has the same meaning as in your language, consider using it in the same way. Otherwise, you could consider these strategies:

(1) If the purpose of a double negative in the Bible is to make a positive statement, and if it would not do that in your language, remove the two negatives so that it is positive.

(2) If the purpose of a double negative in the Bible is to make a negative statement, and if it would not do that in your language, remove one of the two negatives.

(3) If the purpose of a double negative in the Bible is to make a stronger negative statement, and if it would not do that in your language, remove one of the two negatives and add a strengthening word.

Examples of Translation Strategies Applied

(1) If the purpose of a double negative in the Bible is to make a positive statement, and if it would not do that in your language, remove the two negatives so that it is positive.

For we do **not** have a high priest who **cannot** feel sympathy for our weaknesses. (Hebrews 4:15a ULT)

"For we have a high priest who can feel sympathy for our weaknesses."

... in order **not** to be **unfruitful**. (Titus 3:14b ULT)

"... so that they may be fruitful."

(2) If the purpose of a double negative in the Bible is to make a negative statement, and if it would not do that in your language, remove one of the two negatives.

χωρὶς ἐμοῦ οὐ δύνασθε ποιεῖν οὐδέν

Without me, you can do **nothing**.

or:

Without me, you **cannot** do anything.

(3) If the purpose of a double negative in the Bible is to make a stronger negative statement, and if it would not do that in your language, remove one of the two negatives and add a strengthening word.

Doublet

Description

We are using the word “doublet” to refer to two words or phrases that are used together and either mean the same thing or mean very close to the same thing. Often they are joined with the word “and.” Unlike Hendiadys, in which one of the words modifies the other, in a doublet the two words or phrases are equal and are used to emphasize or intensify the one idea that is expressed by the two words or phrases.

This page answers the question: *What are doublets and how can I translate them?*

In order to understand this topic, it would be good to read:

[\[\[rc://en/ta/man/translate/figs-intro\]\]](#)

A very similar issue is the repetition of the same word or phrase for emphasis, usually with no other words between them. Because these figures of speech are so similar and have the same effect, we will treat them here together.

Reason This Is a Translation Issue

In some languages people do not use doublets. Or they may use doublets, but only in certain situations, so a doublet might not make sense in their language in some verses. People might think that the verse is describing two ideas or actions, when it is only describing one. In this case, translators may need to find some other way to express the meaning expressed by the doublet.

Examples From the Bible

He has one people **scattered** and **dispersed** among the peoples (Esther 3:8 ULT)

The bolded words mean the same thing. Together they mean the people were spread out.

He attacked two men **more righteous** and **better** than himself. (1 Kings 2:32b ULT)

This means that they were “much more righteous” than he was.

You have decided to prepare **false** and **deceptive** words. (Daniel 2:9b ULT)

This means that they had decided to lie, which is another way of saying that they intended to deceive people.

... like of a lamb **without blemish** and **without spot**. (1 Peter 1:19b ULT)

This means that he was like a lamb that did not have any defect—not even one.

Then they approached {and} woke him up, saying, “**Master! Master!** We are perishing!” (Luke 8:24 ULT)

The repetition of “Master” means that the disciples called to Jesus urgently and continually.

Translation Strategies

If a doublet would be natural and give the right meaning in your language, consider using it. If not, consider these strategies.

(1) Translate only one of the words or phrases.

(2) If the doublet is used to intensify the meaning, translate one of the words or phrases and add a word that intensifies it such as “very” or “great” or “many.”

(3) If the doublet is used to intensify or emphasize the meaning, use one of your language's ways of doing that.

Translation Strategies Applied

(1) Translate only one of the words.

You have decided to prepare **false** and **deceptive** words. (Daniel 2:9b ULT)

“You have decided to prepare **false** things to say.”

(2) If the doublet is used to intensify the meaning, translate one of the words and add a word that intensifies it such as “very” or “great” or “many.”

(3) If the doublet is used to intensify or emphasize the meaning, use one of your language's ways of doing that.

... like a lamb **without blemish** and **without spot**. (1 Peter 1:19b ULT)

- English can emphasize this with “any” and “at all.”

“... like a lamb **without any blemish at all**.”

Then they approached {and} woke him up, saying, “**Master! Master!** We are perishing!” (Luke 8:24 ULT)

Then they approached {and} woke him up, **urgently shouting, “Master!**

Ellipsis

Description

An ellipsis¹ occurs when a speaker or writer leaves out one or more words that normally should be in the sentence. The speaker or writer does this because he knows that the hearer or reader will understand the meaning of the sentence and supply the words in his mind when he hears or reads the words that are there. For example:

So the wicked will not stand in the judgment, **nor sinners in the assembly of the righteous.**
(Psalm 1:5 ULT)

There is ellipsis in the second part because “nor sinners in the assembly of the righteous” is not a complete sentence. The speaker assumes that the hearer will understand what it is that sinners will not do in the assembly of the righteous by filling in the action from the previous clause. With the action filled in, the complete sentence would read:

So the wicked will not stand in the judgment, nor **will sinners stand** in the assembly of the righteous.

[¹] English has a punctuation symbol which is also called an ellipsis. It is a series of three dots (...) used to indicate an intentional omission of a word, phrase, sentence or more from text without altering its original meaning. This translationAcademy article is not about the punctuation mark, but about the concept of omission of words that normally should be in the sentence.

Two Types of Ellipsis

A Relative Ellipsis happens when the reader has to supply the omitted word or words from the context. Usually the word is in the previous sentence, as in the example above.

An Absolute Ellipsis happens when the omitted word or words are not in the context, but the phrases are common enough in the language that the reader is expected to supply what is missing from this common usage or from the nature of the situation.

Reason This Is a Translation Issue

Readers who see incomplete sentences or phrases may not know that there is information missing that the writer expects them to fill in. Or readers may understand that there is information missing, but they may not know what information is missing because they do not know the original biblical language, culture, or situation as the original readers did. In this case, they may fill in the wrong information. Or readers may misunderstand the ellipsis if they do not use ellipsis in the same way in their language.

Examples From the Bible

Relative Ellipsis

He makes Lebanon skip like a calf **and Sirion like a young ox.** (Psalm 29:6 ULT)

The writer wants his words to be few and to make good poetry. The full sentence with the information filled in would be:

Watch carefully, therefore, how you walk—**not as unwise but as wise**. (Ephesians 5:15b ULT)

The information that the reader must understand in the second parts of these sentences can be filled in from the first parts:

Watch carefully, therefore, how you walk—**walk** not as unwise but **walk** as wise,

Absolute Ellipsis

Then when he had come near, he asked him, “What do you want me to do for you?” And so he said, “Lord, **that I might recover my sight**.” (Luke 18:40b-41 ULT)

It seems that the man answered in an incomplete sentence because he wanted to be polite and not directly ask Jesus for healing. He knew that Jesus would understand that the only way he could receive his sight would be for Jesus to heal him. The complete sentence would be:

“Lord, **I want you to heal me so** that I might receive my sight.”

To Titus, a true son in our common faith. Grace and peace from God the Father and Christ Jesus our Savior. (Titus 1:4 ULT)

The writer assumes that the reader will recognize this common form of a blessing or wish, so he does not need to include the full sentence, which would be:

To Titus, a true son in our common faith. **May you receive** grace and peace from God the Father and Christ Jesus our Savior.

Translation Strategies

If ellipsis would be natural and give the right meaning in your language, consider using it. If not, here is another option:

(1) Add the missing words to the incomplete phrase or sentence.

Examples of Translation Strategies Applied

Euphemism

Description

A euphemism is a mild or polite way of referring to something that is unpleasant, embarrassing, or socially unacceptable, such as death or activities usually done in private.

... they found Saul and his sons **fallen** on Mount Gilboa.
(1 Chronicles 10:8b ULT)

This means that Saul and his sons “were dead.” It is a euphemism because the important thing was not that Saul and his sons had fallen but that they were dead. Sometimes people do not like to speak directly about death because it is unpleasant.

This page answers the question: *What is a euphemism?*

In order to understand this topic, it would be good to read:

[[rc://en/ta/man/translate/figs-intro]]

Reason This Is a Translation Issue

Different languages use different euphemisms. If the target language does not use the same euphemism as in the source language, readers may not understand what it means and they may think that the writer means only what the words literally say.

Examples From the Bible

... where there was a cave. Saul went inside to **cover his feet**. (1 Samuel 24:3b ULT)

The original hearers would have understood that Saul went into the cave to use it as a toilet, but the writer wanted to avoid offending or distracting them, so **he did not say specifically** what Saul did or what he left in the cave.

But Mary said to the angel, “How will this be, since I have not **known a man?**” (Luke 1:34 ULT)

In order **to be polite**, Mary uses a euphemism to say that she has never had sexual intercourse with a man.

Translation Strategies

If euphemism would be natural and give the right meaning in your language, consider using it. If not, here are other options:

- (1) Use a euphemism from your own culture.
- (2) State the information plainly without a euphemism if it would not be offensive.

Examples of Translation Strategies Applied

- (1) Use a euphemism from your own culture.

... where there was a cave. Saul went inside to **cover his feet**. (1 Samuel 24:3b ULT) — Some languages might use euphemisms like these:

“... where there was a cave. Saul went into the cave to **dig a hole**”

“... where there was a cave. Saul went into the cave to **have some time alone**”

But Mary said to the angel, “How will this be, since I have not **known a man?**” (Luke 1:34 ULT)

But Mary said to the angel, “How will this be, since I have not **slept with a man?**”

Exclamations

Description

Exclamations are words or sentences that show strong feeling such as surprise, joy, fear, or anger. In the ULT and UST, they usually have an exclamation mark (!) at the end. The mark shows that it is an exclamation. The situation and the meaning of what the people said helps us understand what feelings they were expressing. In the example below from Matthew 8, the speakers were terribly afraid. In the example from Matthew 9, the speakers were amazed, because something happened that they had never seen before.

This page answers the question: *What are ways of translating exclamations?*

In order to understand this topic, it would be good to read:

[[rc://en/ta/man/translate/figs-sentencetypes]]

Save us, Lord; we are about to die! (Matthew 8:25b ULT)

When the demon had been driven out, the mute man spoke. The crowds were astonished and said, "This has never been seen before in Israel!" (Matthew 9:33 ULT)

Reason This Is a Translation Issue

Languages have different ways of showing that a sentence communicates strong emotion.

Examples From the Bible

Some exclamations have a word that shows feeling. The sentences below have "Oh" and "Ah." The word "oh" here shows the speaker's amazement.

Oh, the depth of the riches both of the wisdom and the knowledge of God! (Romans 11:33 ULT)

The word "Alas" below shows that Gideon was very frightened.

When Gideon saw that he was the angel of Yahweh, Gideon lamented, "**Alas**, O my Lord Yahweh, for because of this I have seen the angel of Yahweh face to face!" (Judges 6:22 ULT)

Some exclamations start with a question word such as "how" or "why," even though they are not questions. The sentence below shows that the speaker is amazed at how unsearchable God's judgments are.

How unsearchable are his judgments, and his ways beyond discovering! (Romans 11:33b ULT)

Some exclamations in the Bible do not have a main verb. The exclamation below shows that the speaker is disgusted with the person he is speaking to.

You worthless person! (Matthew 5:22b ULT)

Translation Strategies

- (1) If an exclamation in your language needs a verb, add one. Often a good verb is "is" or "are."
- (2) Use an exclamation word from your language that shows the strong feeling.
- (3) Translate the exclamation word with a sentence that shows the feeling.
- (4) Use a word that emphasizes the part of the sentence that brings about the strong feeling.

(5) If the strong feeling is not clear in the target language, then tell how the person felt.

Examples of Translation Strategies Applied

(1) If an exclamation in your language needs a verb, add one. Often a good verb is “is” or “are.”

You worthless person! (Matthew 5:22b ULT)

“You **are** such a worthless person!”

Oh, the depth of the riches both of the wisdom and the knowledge of God! (Romans 11:33b ULT)

“Oh, the riches of the wisdom and the knowledge of God **are** so deep!”

(2) Use an exclamation word from your language that shows the strong feeling. In the first suggested translation below, the word “wow” shows that they were astonished. In the second suggested translation, the expression “Oh no” shows that something terrible or frightening has happened.

They were extremely astonished, saying, “He has done everything well. He even makes the deaf hear and the mute speak.” (Mark 7:37 ULT)

“They were extremely astonished, saying, “**Wow!** He has done everything well. He even makes the deaf to hear and the mute to speak.””

Alas, oh my Lord Yahweh! For because of this I have seen the angel of Yahweh face to face! (Judges 6:22b ULT)

“**Oh no,** Lord Yahweh! I have seen the angel of Yahweh face to face!”

(3) Translate the exclamation word with a sentence that shows the feeling.

“**Alas,** O my Lord Yahweh, for because of this I have seen the angel of Yahweh face to face!” (Judges 6:22 ULT)

“Lord Yahweh, **what will happen to me?** For I have seen the angel of Yahweh face to face!”

“**Help,** Lord Yahweh! For I have seen the angel of Yahweh face to face!”

(4) Use a word that emphasizes the part of the sentence that brings about the strong feeling.

How unsearchable are his judgments, and his ways beyond discovering! (Romans 11:33b ULT)

“His judgments are **so** unsearchable and his ways are **far** beyond discovering!”

(5) If the strong feeling is not clear in the target language, then tell how the person felt.

When Gideon saw that he was the angel of Yahweh, Gideon lamented, “**Alas,** O my Lord Yahweh, for because of this I have seen the angel of Yahweh face to face!” (Judges 6:22 ULT)

Gideon understood that this was the angel of Yahweh. **He was terrified** and said, “**Alas,** Lord Yahweh! I have seen the angel of Yahweh face to face!”

Exclusive and Inclusive 'We'

Description

Some languages have more than one form of "we": an inclusive form that means "I and you" and an exclusive form that means "I and someone else but not you." The exclusive form excludes the person being spoken to. The inclusive form includes the person being spoken to and possibly others. This is also true for "us," "our," "ours," and "ourselves." Some languages have inclusive forms and exclusive forms for each of these. Translators whose language has separate exclusive and inclusive forms for these words will need to understand what the speaker meant so that they can decide which form to use.

This page answers the question: *What are the exclusive and inclusive forms of "we"?*

In order to understand this topic, it would be good to read:

[\[\[rc://en/ta/man/translate/figs-pronouns\]\]](#)

See the pictures. The people on the right are the people that the speaker is talking to. The yellow highlight shows who the inclusive "we" and the exclusive "we" refer to.

Reason This Is a Translation Issue

The Bible was first written in the Hebrew, Aramaic, and Greek languages. Like English, these languages do not have separate exclusive and inclusive forms for "we." If your language has separate exclusive and inclusive forms of "we," then you will need to understand what the speaker meant so that you can decide which form of "we" to use.

Examples From the Bible

Exclusive

They said, "There are not more than five loaves of bread and two fish with us—unless **we** go and buy food for all these people." (Luke 9:13 ULT)

In the second clause, the disciples are talking about some of them going to buy food. They were speaking to Jesus, but Jesus was not going to buy food. So languages that have inclusive and exclusive forms of "we" would use the **exclusive** form there.

We have seen it, and **we** bear witness to it. **We** are announcing to you the eternal life, which was with the Father, and which has been made known to **us**. (1 John 1:2 ULT)

John is telling people who have not seen Jesus what he and the other apostles have seen. So languages that have inclusive and exclusive forms of "we" and "us" would use the **exclusive** forms in this verse.

Inclusive

The shepherds said one to each other, "Let **us** now go to Bethlehem, and see this thing that has happened, which the Lord has made known to **us**." (Luke 2:15b ULT)

The shepherds were speaking to one another. When they said "us," they were including the people they were speaking to, so languages that have inclusive and exclusive forms of "we" and "us" would use the **inclusive** form in this verse.

Now it happened that on one of those days, he indeed got into a boat with his disciples, and he said to them, "Let **us** go over to the other side of the lake." So they set sail. (Luke 8:22 ULT)

When Jesus said "us," he was referring to himself and to the disciples he was speaking to, so languages that have inclusive and exclusive forms of "we" and "us" would use the **inclusive** form in this verse.

First, Second or Third Person

Normally a speaker refers to himself as “I” and the person he is speaking to as “you.” Sometimes in the Bible a speaker refers to himself or to the person he is speaking to with terms other than “I” or “you.”

Description

- First person — This is how a speaker normally refers to himself. English uses the pronouns “I” and “we.” (Also: me, my, mine; us, our, ours)
- Second person — This is how a speaker normally refers to the person or people he is speaking to. English uses the pronoun “you.” (Also: your, yours)
- Third person — This is how a speaker refers to someone else. English uses the pronouns “he,” “she,” “it,” and “they.” (Also: him, his, her, hers, its; them, their, theirs) Noun phrases like “the man” or “the woman” are also third person.

This page answers the question: *What are first, second, and third person, and how do I translate when a third person form does not refer to the third person?*

In order to understand this topic, it would be good to read:

[\[\[rc://en/ta/man/translate/figs-explicitinfo\]\]](#)

[\[\[rc://en/ta/man/translate/figs-pronouns\]\]](#)

Reason This Is a Translation Issue

Sometimes in the Bible a speaker uses the third person to refer to himself or to the people he is speaking to. Readers might think that the speaker was referring to someone else. They might not understand that he meant “I” or “you.”

Examples From the Bible

Sometimes people used the third person instead of “I” or “me” to refer to themselves.

But David said to Saul, “**Your servant** used to keep **his** father’s sheep.” (1 Samuel 17:34 ULT)

David referred to himself in the third person as “your servant” and used “his.” He was calling himself Saul’s servant in order to show his humility before Saul.

Then Yahweh answered Job out of a fierce storm and said,
“... Do you have an arm like **God’s**? Can you thunder with a voice like **his**?” (Job 40:6, 9 ULT)

God referred to himself in the third person with the words “God’s” and “his.” He did this to emphasize that he is God, and he is powerful.

Sometimes people use the third person instead of “you” or “your” to refer to the person or people they are speaking to.

Abraham answered and said, “Look, I have undertaken to speak to my Lord, even though I am only dust and ashes!” (Genesis 18:27 ULT)

Abraham was speaking to the Lord, and referred to the Lord as “My Lord” rather than as “you.” He did this to show his humility before God.

So also my heavenly Father will do to you, if **each of you** does not forgive **his** brother from your heart. (Matthew 18:35 ULT)

After saying “each of you,” Jesus used the third person “his” instead of “your.”

Translation Strategies

If using the third person to mean “I” or “you” would be natural and give the right meaning in your language, consider using it. If not, here are some other options.

- (1) Use the third person phrase along with the pronoun “I” or “you.”
- (2) Simply use the first person (“I”) or second person (“you”) instead of the third person.

Examples of Translation Strategies Applied

- (1) Use the third person phrase along with the pronoun “I” or “you.”

Forms of You

Singular, Dual, and Plural

Some languages have more than one word for “you” based on how many people the word “you” refers to. The **singular** form refers to one person, and the **plural** form refers to more than one person. Some languages also have a **dual** form which refers to two people, and some languages have other forms that refer to three or four people.

Generic Noun Phrases

Description

Generic noun phrases refer to people or things in general rather than to specific individuals or things. This happens frequently in proverbs, because proverbs tell about things that are true about people in general.

Can **a man** walk on hot coals without scorching his feet?
So is **the man who goes in to his neighbor's wife;**
the one who touches her will not go unpunished. (Proverbs 6:28-29 ULT)

The phrases in bold above do not refer to a specific man. They refer to any man who does these things.

Reason This Is a Translation Issue

Different languages have different ways of showing that noun phrases refer to something in general. You (the translator) should refer to these general ideas in ways that are natural in your language.

Examples From the Bible

The **righteous person** is kept away from trouble and it comes upon **the wicked** instead. (Proverbs 11:8 ULT)

The bold phrases above do not refer to a specific person but to anyone who does what is right or anyone who is wicked.

People curse **the man who refuses to sell grain**. (Proverbs 11:26 ULT)

This does not refer to a particular man, but to any person who refuses to sell grain.

Yahweh gives favor to **a good man**, but he condemns **a man who makes evil plans**. (Proverbs 12:2 ULT)

The phrase "a good man" does not refer to a particular man, but to any person who is good. The phrase "a man who makes evil plans" does not refer to a particular man, but to any person who makes evil plans.

Translation Strategies

If your language can use the same wording as in the ULT to refer to people or things in general rather than to specific individuals or things, consider using the same wording. If not, here are some strategies you might use.

- (1) Use the word "the" in the noun phrase.
- (2) Use the word "a" in the noun phrase.
- (3) Use the word "any," as in "any person" or "anyone."
- (4) Use the plural form, as in "people."

(5) Use any other way that is natural in your language.

Examples of Translation Strategies Applied

(1) Use the word “the” in the noun phrase.

Yahweh gives favor to **a good man**, but he condemns **a man who makes evil plans**. (Proverbs 12:2 ULT)

“Yahweh gives favor to **the good man**, but he condemns **the man who makes evil plans**.” (Proverbs 12:2)

(2) Use the word “a” in the noun phrase.

People curse **the man** who refuses to sell grain. (Proverbs 11:26 ULT)

“People curse **a man** who refuses to sell grain.”

(3) Use the word “any,” as in “any person” or “anyone.”

People curse **the man** who refuses to sell grain. (Proverbs 11:26 ULT)

“People curse **any man** who refuses to sell grain.”

(4) Use the plural form, as in “people” (or in this sentence, “men”).

People curse **the man** who refuses to sell grain. (Proverbs 11:26 ULT)

“People curse **men** who refuse to sell grain”

(5) Use any other way that is natural in your language.

People curse **the man** who refuses to sell grain. (Proverbs 11:26 ULT)

“People curse **whoever** refuses to sell grain.”

How to Translate Names

Description

The Bible contains the names of many people, groups of people, and places. Some of these names may sound strange and be hard to say. Sometimes readers may not know what a name refers to, and sometimes they may need to understand what a name means. This page will help you see how you can translate these names and how you can help people understand what they need to know about them.

This page answers the question: *How can I translate names that are new to my culture?*

In order to understand this topic, it would be good to read:

[[rc://en/ta/man/translate/translate-unknown]]

Meaning of names

Most names in the Bible have meaning. Most of the time, names in the Bible are used simply to identify the people and places they refer to, but sometimes the meaning of a name is especially important.

For this **Melchizedek**, king of Salem, priest of God Most High, was the one who met Abraham returning from the slaughter of the kings and blessed him. (Hebrews 7:1 ULT)

Here the writer uses the name “Melchizedek” primarily to refer to a man who had that name, and the title “king of Salem” tells us that he ruled over a certain city.

His name first indeed means “king of righteousness,” and then also “king of Salem,” that is, “king of peace.” (Hebrews 7:2b ULT)

Here the writer explains the meanings of Melchizedek’s name and title because those things tell us more about the person. Other times, the writer does not explain the meaning of a name because he expects the reader to already know the meaning. If the meaning of the name is important to understand the passage, you can include the meaning in the text or in a footnote.

Reasons This Is a Translation Issue

- Readers may not know some of the names in the Bible. They may not know whether a name refers to a person or place or something else.
- Readers may need to understand the meaning of a name in order to understand the passage.
- Some names may have different sounds or combinations of sounds that are not used in your language or are unpleasant to say in your language. For strategies to address this problem, see Borrow Words.
- Some people and places in the Bible have two names. Readers may not realize that two names refer to the same person or place.

Examples From the Bible

Then you crossed over the **Jordan** and came to **Jericho**, and the men of Jericho, and the **Amorites** ... fought against you, but I gave them into your hand. (Joshua 24:11 ULT)

Readers might not know that “Jordan” is the name of a river, “Jericho” is the name of a city, and “Amorites” is the name of a group of people.

She said, “Do I really continue to see, even after he has seen me?” Therefore, the well was called **Beer Lahai Roi**. (Genesis 16:13b-14a ULT)

Readers may not understand the second sentence if they do not know that “Beer Lahai Roi” means “Well of the Living One who sees me.”

And she called his name **Moses** and she said, “For out of the water I drew him.” (Exodus 2:10b ULT)

Readers may not understand why she said this if they do not know that the name Moses sounds like the Hebrew words “pull out.”

Saul was in agreement with his execution. (Acts 8:1a ULT)

But when the apostles, Barnabas and **Paul**, heard of it, they tore their clothing. (Acts 14:14a ULT)

Readers may not know that the names Saul and Paul refer to the same person.

Translation Strategies

- (1) If readers cannot easily understand from the context what kind of a thing a name refers to, you can add a word to clarify it.
- (2) If readers need to understand the meaning of a name in order to understand what is said about it, copy the name and tell about its meaning either in the text or in a footnote.
- (3) Or if readers need to understand the meaning of a name in order to understand what is said about it, and that name is used only once, translate the meaning of the name instead of copying the name.
- (4) If a person or place has two different names, use one name most of the time and the other name only when the text tells about the person or place having more than one name or when it says something about why the person or place was given that name. Write a footnote when the source text uses the name that is used less frequently.
- (5) Or if a person or place has two different names, then use whatever name is given in the source text, and add a footnote that gives the other name.

You went over the **Jordan River** and came to the **city of Jericho**. The men of Jericho fought against you, along with **the tribe of the Amorites**.

At that hour, certain Pharisees approached, saying to him, “Leave and go away from here, because **Herod** wants to kill you.” (Luke 13:31 ULT)

- (2) If readers need to understand the meaning of a name in order to understand what is said about it, copy the name and tell about its meaning either in the text or in a footnote.

And she called his name **Moses** and she said, “For out of the water I drew him.” (Exodus 2:10b ULT)

She called his name **Moses (which sounds like ‘drawn out’)**, and she said,
“For out of the water I drew him.”

(3) Or if readers need to understand the meaning of a name in order to understand what is said about it, and that name is used only once, translate the meaning of the name instead of copying the name.

(4) If a person or place has two different names, use one name most of the time and the other name only when the text tells about the person or place having more than one name or when it says something about why the person or place was given that name. Write a footnote when the source text uses the name that is used less frequently. For example, Paul is called “Saul” before Acts 13 and “Paul” after Acts 13. You could translate his name as “Paul” all of the time, except in Acts 13:9 where it talks about him having both names.

... a young man named **Saul**. (Acts 7:58b ULT)

... a young man named **Paul** 1

The footnote would look like:

[1] Most versions say “Saul” here, but most of the time in the Bible he is called “Paul.”

Then later in the story, you could translate this way:

But **Saul**, who is also called **Paul**, was filled with the Holy Spirit; (Acts 13:9)

But **Saul**, who is also called **Paul**, was filled with the Holy Spirit;

(5) Or if a person or place has two names, use whatever name is given in the source text, and add a footnote that gives the other name. For example, you could write “Saul” where the source text has “Saul” and “Paul” where the source text has “Paul.”

a young man named **Saul** (Acts 7:58 ULT)

a young man named **Saul**

The footnote would look like:

[1] This is the same man who is called Paul beginning in Acts 13.

Then later in the story, you could translate this way:

But **Saul**, who is also called **Paul**, was filled with the Holy Spirit; (Acts 13:9)

But **Saul**, who is also called **Paul**, was filled with the Holy Spirit;

Then after the story has explained the name change, you could translate this way.

It came about in Iconium that **Paul** and Barnabas entered together into the synagogue (Acts 14:1 ULT)

It came about in Iconium that **Paul**¹ and Barnabas entered together into the synagogue

The footnote would look like:

[1] This is the same man who was called Saul before Acts 13.

Hyperbole

Description

A speaker or writer can use exactly the same words to say something that he means as completely true, or as generally true, or as a hyperbole. This is why it can be hard to decide how to understand a statement. For example, the sentence below could mean three different things.

It rains here every night.

The speaker means this as literally true if he means that it really does rain here every night.

The speaker means this as a **generalization** if he means that it rains here most nights.

The speaker means this as a **hyperbole** if he wants to say that it rains more than it actually does, usually in order to express a strong attitude toward the amount or frequency of rain, such as being annoyed or being happy about it.

This page answers the question: *What are hyperboles? What are generalizations? How can I translate them?*

In order to understand this topic, it would be good to read:

[\[\[rc://en/ta/man/translate/figs-intro\]\]](#)

Hyperbole

In hyperbole, a figure of speech that uses exaggeration, a speaker deliberately describes something with an extreme or even unreal statement, usually to show his strong feeling or opinion about it. He expects people to understand that he is exaggerating.

They will not leave **stone upon stone in you**. (Luke 19:44b ULT)

This is an exaggeration. It means that the enemies will completely destroy Jerusalem.

Moses was educated in **all the wisdom of the Egyptians**. (Acts 7:22a ULT)

This hyperbole means that he had learned everything an Egyptian education could offer.

Generalization

This is a statement that is true most of the time or in most situations that it could apply to.

The one who ignores instruction **will have poverty and shame**, but **honor will come** to him who learns from correction. (Proverbs 13:18)

These generalizations tell about what normally happens to people who ignore instruction and what normally happens to people who learn from correction. There may be some exceptions to these statements, but they are generally true.

And when you pray, do not make useless repetitions as **the Gentiles do, for they think that they will be heard because of their many words**. (Matthew 6:7)

This generalization tells about what Gentiles were known for doing. Many Gentiles did this. It does not matter if a few did not. The point was that the hearers should not join in this well-known practice.

Even though a hyperbole or a generalization may have a strong-sounding word like "all," "always," "none," or "never," it does not necessarily mean **exactly** "all," "always," "none," or "never." It simply means "most," "most of the time," "hardly any," or "rarely."

Reason This Is a Translation Issue

Readers need to be able to understand whether or not a statement is literally true.

If readers realize that a statement is not literally true, they need to be able to understand whether it is a hyperbole, a generalization, or a lie. (Though the Bible is completely true, it tells about people who did not always tell the truth.)

Examples From the Bible

Examples of Hyperbole

If your hand causes you to stumble, **cut it off**. It is better for you to enter into life maimed ... (Mark 9:43a ULT)

When Jesus said to cut off your hand, he meant that we should **do whatever extreme things** we need to do in order not to sin. He used this hyperbole to show how extremely important it is to try to stop sinning.

The Philistines gathered together to fight against Israel with 3,000 chariots, 6,000 men to drive the chariots, and troops **as numerous as the sand on the seashore**. (1 Samuel 13:5a ULT)

The bolded phrase is an exaggeration for the purpose of expressing the emotion that the Philistine army was overwhelming in number. It means that there were **many, many** soldiers in the Philistine army.

But as his anointing teaches you **everything** and is true and is not a lie, and just as it has taught you, remain in him. (1 John 2:27b ULT)

This is a hyperbole. It expresses the assurance that God's Spirit teaches us about **all things that we need to know**. God's Spirit does not teach us about everything that it is possible to know.

When they found him, they also said to him, "**Everyone** is looking for you." (Mark 1:37 ULT)

The disciples probably did not mean that everyone in the city was looking for Jesus, but that **many people** were looking for him, or that all of Jesus' closest friends there were looking for him. This is an exaggeration for the purpose of expressing the emotion that they and many others were worried about him.

Examples of Generalization

Can **any good thing** come out of Nazareth? (John 1:46b ULT)

This rhetorical question is meant to express the generalization that there is nothing good in Nazareth. The people there had a reputation for being uneducated and not strictly religious. Of course, there were exceptions.

One of them, of their own prophets, has said, "**Cretans are always liars, evil beasts, lazy bellies**." (Titus 1:12 ULT)

This is a generalization that means that Cretans had a reputation to be like this because, in general, this is how Cretans behaved. It is possible that there were exceptions.

A lazy hand causes a person to be poor, but the hand of the diligent person gains riches. (Proverbs 10:4 ULT)

This is generally true, and it reflects the experience of most people. It is possible that there are exceptions in some circumstances.

Caution

- Do not assume that something is an exaggeration just because it seems to be impossible. God does miraculous things.

They saw Jesus **walking on the sea** and coming near the boat. (John 6:19b ULT)

This is not hyperbole. Jesus really walked on the water. It is a literal statement.

- Do not assume that the word “all” is always a generalization that means “most.”
 - > Yahweh is righteous in **all** his ways
 - > and gracious in **all** he does. (Psalms 145:17 ULT)

Yahweh is always righteous. This is a completely true statement.

Translation Strategies

If the hyperbole or generalization would be natural and people would understand it and not think that it is a lie, consider using it. If not, here are other options.

- (1) Express the meaning without the exaggeration.
- (2) For a generalization, show that it is a generalization by using a phrase like “in general” or “in most cases.”
- (3) For a hyperbole or a generalization, add a word like “many” or “almost” to show that the hyperbole or generalization is not meant to be exact.
- (4) For a hyperbole or a generalization that has a word like “all,” “always,” “none,” or “never,” consider deleting that word.

Examples of Translation Strategies Applied

- (1) Express the meaning without the exaggeration.

The Philistines gathered together to fight against Israel: 3,000 chariots, 6,000 men to drive the chariots, and troops **as numerous as the sand on the seashore**. (1 Samuel 13:5a ULT)

The Philistines gathered together to fight against Israel: 3,000 chariots, 6,000 men to drive the chariots, and **a great number of troops**.

- (2) For a generalization, show that it is a generalization by using a phrase like “in general” or “in most cases.”

The one who ignores instruction will have poverty and shame. (Proverbs 13:18a ULT)

In general, the one who ignores instruction will have poverty and shame

When you pray, do not make useless repetitions as the **Gentiles do**, for they think that they will be heard because of their many words. (Matthew 6:7 ULT)

And when you pray, do not make useless repetitions as the Gentiles **generally** do, for they think that they will be heard because of their many words.

- (3) For a hyperbole or a generalization, add a word like “many” or “almost” to show that the hyperbole or generalization is not meant to be exact.

The **whole** country of Judea and **all** the people of Jerusalem went out to him. (Mark 1:5a ULT)

Almost all the country of Judea and **almost all** the people of Jerusalem went out to him.

or:

Many of the country of Judea and **many** of the people of Jerusalem went out to him.

(4) For a hyperbole or a generalization that has a word like “all,” “always,” “none,” or “never,” consider deleting that word.

Hypothetical Situations

Consider these phrases: “If the sun stopped shining ...” “What if the sun stopped shining ...” “Suppose the sun stopped shining ...” and “If only the sun had not stopped shining.” We use such expressions to set up hypothetical situations, imagining what might have happened or what could happen in the future but probably will not. We also use them to express regret or wishes. Hypothetical expressions occur often in the Bible. You (the translator) need to translate them in a way that people will know that the event did not actually happen and so that they will understand why the event was imagined.

This page answers the question: *What is a hypothetical situation?*

In order to understand this topic, it would be good to read:

[\[\[rc://en/ta/man/translate/writing-intro\]\]](#)

Description

Hypothetical situations are situations that are not real. They can be in the past, present, or future. Hypothetical situations in the past and present have not happened, are not happening now, and ones in the future are not expected to happen.

People sometimes tell about conditions and what would happen if those conditions were met, but they know that these things have not happened or probably will not happen. (The conditions comprise a phrase that starts with “if.”)

- If he had lived to be 100 years old, he would have seen his grandson’s grandson. (But he did not.)
- If he lived to be 100 years old, he would still be alive today. (But he is not.)
- If he lives to be 100 years old, he will see his grandson’s grandson. (But he probably will not.)

People sometimes express wishes about things that have not happened or that are not expected to happen.

- I wish he had come.
- I wish he were here.
- I wish he would come.

People sometimes express regrets about things that have not happened or that are not expected to happen.

- If only he had come.
- If only he were here.
- If only he would come.

Reason This Is a Translation Issue

- Translators need to recognize the different kinds of hypothetical situations in the Bible and understand that they are unreal.
- Translators need to know their own language’s ways of talking about different kinds of hypothetical situations.

Examples From the Bible

Hypothetical Situations in the Past

“Woe to you, Chorazin! Woe to you, Bethsaida! **If the mighty deeds had been done** in Tyre and Sidon which were done in you, **they would have repented** long ago in sackcloth and ashes.” (Matthew 11:21 ULT)

Here in Matthew 11:21, Jesus said that **if** the people living in the ancient cities of Tyre and Sidon had been able to see the miracles that he performed, they would have repented long ago. The people of Tyre and Sidon did not actually see his miracles, and they did not repent. He said this to rebuke the people of Chorazin and Bethsaida who had seen his miracles and yet did not repent.

Martha then said to Jesus, “Lord, **if you had been here, my brother would not have died.**” (John 11:21 ULT)

Martha said this to express her wish that Jesus would have come sooner so that her brother would not have died. But Jesus did not come sooner and her brother did die.

Hypothetical Situations in the Present

And no man puts new wine into old wineskins. **But if he did do that, the new wine would burst the wineskins, and it would be spilled out, and the wineskins would be destroyed.** (Luke 5:37 ULT)

Jesus told about what would happen if a person were to put new wine into old wineskins. But no one would do that. He used this imaginary situation as an example to show that there are times when it is unwise to mix new things with old things. He did this so that people could understand why his disciples were not fasting as people traditionally did.

Jesus said to them, “What man would there be among you, who, **if he had just one sheep, and if this sheep fell into a deep hole on the Sabbath, would not grasp hold of it and lift it out?**” (Matthew 12:11 ULT)

Jesus asked the religious leaders what they would do on the Sabbath if one of their sheep fell into a hole. He was not saying that their sheep would fall into a hole. He used this imaginary situation to show them that they were wrong to judge him for healing people on the Sabbath.

Hypothetical Situation in the Future

Unless those days are shortened, no flesh would be saved. But for the sake of the elect, those days will be shortened. (Matthew 24:22 ULT)

Jesus was talking about a future time when very bad things would happen. He told what would happen if those days of trouble were to last a long time. He did this to show how bad those days will be—so bad that if they lasted a long time, no one would be saved. But then he clarified that God will shorten those days of trouble so that the elect (those he has chosen) will be saved.

Expressing Emotion About a Hypothetical Situation

People sometimes talk about hypothetical situations in order to express regrets and wishes. Regrets are about the past and wishes are about the present and future.

The Israelites said to them, “**If only we had died by Yahweh’s hand in the land of Egypt when we were sitting by the pots of meat and were eating bread to the full.** For you have brought us out into this wilderness to kill our whole community with hunger.” (Exodus 16:3 ULT)

Here the Israelites were afraid that they would have to suffer and die of hunger in the wilderness, and so they wished that they had stayed in Egypt and died there with full stomachs. They were complaining, expressing regret that this had not happened.

I know what you have done, and that you are neither cold nor hot. **I wish that you were either cold or hot!** (Revelation 3:15 ULT)

Jesus wished that the people were either hot or cold, but they are neither. He was rebuking them, expressing anger at this.

- that something could have happened, but did not.
- that something could be true now, but is not.
- that something could happen in the future, but will not unless something changes.

Idiom

An idiom is a figure of speech made up of a group of words that, as a whole, has a meaning that is different from what one would understand from the meanings of the individual words. Someone from outside of the culture usually cannot understand an idiom without someone inside the culture explaining its true meaning. Every language uses idioms. Some English examples are:

- You are pulling my leg. (This means, “You are teasing me by telling me something that is not true.”)
- Do not push the envelope. (This means, “Do not take a matter to its extreme.”)
- This house is under water. (This means, “The debt owed for this house is greater than its actual value.”)
- We are painting the town red. (This means, “We are going around town tonight celebrating very intensely.”)

This page answers the question: *What are idioms and how can I translate them?*

In order to understand this topic, it would be good to read:

[\[\[rc://en/ta/man/translate/figs-intro\]\]](#)

Description

An idiom is a phrase that has a special meaning to the people of the language or culture who use it. Its meaning is different than what a person would understand from the meanings of the individual words that form the phrase.

He **set his face** to go to Jerusalem. (Luke 9:51b ULT)

The words “set his face” is an idiom that means “decided.”

Sometimes people may be able to understand an idiom from another culture, but it might sound like a strange way to express the meaning.

I am not worthy that you would **come under my roof**. (Luke 7:6b ULT)

The phrase “come under my roof” is an idiom that means “enter my house.”

Put these words **into your ears**. (Luke 9:44a ULT)

This idiom means “Listen carefully and remember what I say.”

Purpose: An idiom is probably created in a culture somewhat by accident when someone describes something in an unusual way. But, when that unusual way communicates the message powerfully and people understand it clearly, other people start to use it. After a while, it becomes a normal way of talking in that language.

Reasons This Is a Translation Issue

- People can easily misunderstand idioms in the original languages of the Bible if they do not know the cultures that produced the Bible.
- People can easily misunderstand idioms that are in the source language Bibles if they do not know the cultures that made those translations.
- It is useless to translate idioms literally (according to the meaning of each word) when the target language audience will not understand what they mean.

Examples From the Bible

Then all Israel came to David at Hebron and said, “Look, we are your **flesh and bone**.” (1 Chronicles 11:1 ULT)

This means, “We and you belong to the same race, the same family.”

▮ The children of Israel went out **with a high hand**. (Exodus 14:8b ASV)

This means, "The Israelites went out defiantly."

▮ the one who **lifts up my head** (Psalm 3:3b ULT)

This means, "the one who helps me."

Translation Strategies

If the idiom would be clearly understood in your language, consider using it. If not, here are some other options.

- (1) Translate the meaning plainly without using an idiom.
- (2) Use a different idiom that people use in your own language that has the same meaning.

Imperatives — Other Uses

Description

Imperative sentences are mainly used to express a desire or requirement that someone do something. In the Bible, sometimes imperative sentences have other uses.

This page answers the question: *What other uses are there for imperative sentences in the Bible?*

In order to understand this topic, it would be good to read:

[[rc://en/ta/man/translate/figs-sentencetypes]]

Reason This Is a Translation Issue

Some languages would not use an imperative sentence for some of the functions that they are used for in the Bible.

Examples From the Bible

Speakers often use imperative sentences to tell or ask their listeners to do something. In Genesis 26, God spoke to Isaac and told him not to go to Egypt but to live where God would tell him to live.

Now Yahweh appeared to him and said, “**Do not go down** to Egypt; **live** in the land that I tell you to live in.” (Genesis 26:2 ULT)

Sometimes imperative sentences in the Bible have other uses.

Imperatives that make things happen

God can make things happen by commanding that they happen. Jesus healed a man by commanding that the man be healed. The man could not do anything to obey the command, but Jesus caused him to be healed by commanding it. (In this context, the command “Be clean” means to “be healed” so that others around would know that it was safe to touch the man again.)

“I am willing. **Be clean.**” Immediately he was cleansed of his leprosy. (Matthew 8:3b ULT)

In Genesis 1, God commanded that there should be light, and by commanding it, he caused it to exist. Some languages, such as the Hebrew of the Bible, have commands that are in the third person. English does not do that, and so it must turn the third-person command into a general, second-person command, as in the ULT:

God said, “**Let there be** light,” and there was light. (Genesis 1:3 ULT)

Languages that have third-person commands can follow the original Hebrew, which translates into English as something like “light must be.”

Imperatives that function as blessings

In the Bible, God blesses people by using imperatives. This indicates what his will is for them.

God blessed them and said to them, “**Be fruitful**, and **multiply**. **Fill** the earth, and **subdue** it. **Have dominion** over the fish of the sea, over the birds of the sky, and over every living thing that moves upon the earth.” (Genesis 1:28 ULT)

Imperatives that function as conditions

An imperative sentence can also be used to tell the **condition** under which something will happen. The proverbs mainly tell about life and things that often happen. The purpose of Proverbs 4:6 below is not primarily to give a command, but to teach what people can expect to happen **if** they love wisdom.

Do not abandon wisdom and she will watch over you;
love her and she will keep you safe. (Proverbs 4:6 ULT)

The purpose of Proverbs 22:6, below, is to teach what people can expect to happen if they teach their children the way they should go.

Teach a child the way he should go,
and when he is old he will not turn away from that instruction. (Proverbs 22:6 ULT)

Translation Strategies

- (1) If people would not use an imperative sentence for one of the functions in the Bible, try using a statement instead.
- (2) If people would not understand that a sentence is used to cause something to happen, add a connecting word like “so” to show that what happened was a result of what was said.
- (3) If people would not use a command as a condition, translate it as a statement with the words “if” and “then.”

Examples of Translation Strategies Applied

- (1) If people would not use an imperative sentence for one of the functions in the Bible, try using a statement instead.

Be clean. (Matthew 8:3b ULT)

“You are now clean.”
“I now cleanse you.”

God said, “**Let there be light,**” and there was light. (Genesis 1:3 ULT)

God said, “**There is now light**” and there was light.

God blessed them and said to them, “**Be fruitful, and multiply. Fill** the earth, and **subdue** it. **Have dominion** over the fish of the sea, over the birds of the sky, and over every living thing that moves upon the earth.” (Genesis 1:28 ULT)

God blessed them and said to them, “**My will for you is that you be fruitful, and multiply. Fill** the earth, and **subdue** it. **I want you to have dominion** over the fish of the sea, over the birds of the sky, and over every living thing that moves upon the earth.”

- (2) If people would not understand that a sentence is used to cause something to happen, add a connecting word like “so” to show that what happened was a result of what was said.

God said, “**Let there be light,**” and there was light. (Genesis 1:3 ULT)

God said, ‘Let there be light,’ **so** there was light.
God said, “Light must be;” **as a result**, there was light.

(3) If people would not use a command as a condition, translate it as a statement with the words “if” and “then.”

Teach a child the way he should go, and when he is old he will not turn away from that instruction. (Proverbs 22:6 ULT)

Translated as:

If you teach a child the way he should go,
then when he is old he will not turn away from that instruction.”

Information Structure

Description

Different languages arrange the parts of the sentence in different ways. In English, a sentence normally has the subject first, then the verb, then the object, then other modifiers, like this: Peter painted his house yesterday.

Many other languages normally put these things in a different order such as: Painted yesterday Peter his house.

Although all languages have a normal order for parts of a sentence, this order can change depending on what information the speaker or writer considers to be the most important.

Suppose that someone is answering the question, "What did Peter paint yesterday?" The person asking the question already knows all of the information in our sentence above except for the object, "his house." Therefore, that becomes the most important part of the information, and a person answering in English might say "His house is what Peter painted (yesterday)."

This puts the most important information first, which is normal for English. Many Other Languages would normally put the most important information last. In the flow of a text, the most important information is usually what the writer considers to be new information for the reader. In some languages the new information comes first, and in others it comes last.

Reasons This Is a Translation Issue

- Different languages arrange the parts of a sentence in different ways. If you (the translator) copy the order of the parts of a sentence from the source, it may not make sense in your language.
- Different languages put important or new information in different places in the sentence. If you keep the important or new information in the same place that it had in the source language, it may be confusing or give the wrong message in your language.

Examples From the Bible

They all ate until they were satisfied. (Mark 6:42 ULT)

The parts of this sentence were in a different order in the original Greek source language. They were like this: And they ate all and they were satisfied.

In English, this means that the people ate everything. But the next verse says that they took up twelve baskets full of leftover pieces of food. In order for this to not be so confusing, the translators of the ULT put the parts of the sentence in the right order for English.

And the day began to end, and the twelve came to him and said, "Send the crowd away so that, going into the surrounding villages and countryside, they may find lodging and food, because we are here in an desolate place." (Luke 9:12 ULT)

In this verse, what the disciples say to Jesus puts the important information first, that he should send the crowd away. In languages that put the important information last, people would understand that the reason that they gave, being in an isolated place, is the most important part of their message to Jesus. They might then think that the disciples are afraid of the spirits in that place, and that sending the people to buy food is a way to protect them from the spirits. That is the wrong message.

This page answers the question: *How do languages arrange the parts of a sentence?*

In order to understand this topic, it would be good to read:

[\[\[rc://en/ta/man/translate/figs-sentences\]\]](#)

Woe to you when all men speak well of you, for their fathers treated the false prophets in the same way. (Luke 6:26 ULT)

In this verse, the most important part of the information is first, that “woe” is coming on the people for what they are doing. The reason that supports that warning comes last. This could be confusing for people who expect the important information to come last.

Translation Strategies

(1) Study how your language arranges the parts of a sentence, and use that order in your translation.

(2) Study where your language puts the new or important information, and rearrange the order of information so that it follows the way it is done in your language.

Translation Strategies Applied

(1) Study how your language arranges the parts of a sentence, and use that order in your translation.

This is the verse in the original Greek order:

And he went out from there and came to the hometown his, and they followed him the disciples his. (Mark 6:1)

The ULT has put this into the normal order for English:

Now Jesus went out from there and came to his hometown, and his disciples followed him. (Mark 6:1 ULT)

(2) Study where your language puts the new or important information and rearrange the order of information so that it follows the way it is done in your language.

And the day began to end, and the twelve came and said to him, “Send the crowd away so that, going into the surrounding villages and countryside, they may find lodging and food, because we are here in a desolate place.” (Luke 9:12 ULT)

If your language puts the important information last, you can change the order of the verse.

Now the day was about to come to an end, and the twelve came to him and said, “Because we are here in an desolate place, send the crowd away that they may go into the surrounding villages and countryside to find lodging and food.”

Woe to you, when all men speak well of you, for that is how their ancestors treated the false prophets. (Luke 6:26 ULT)

If your language puts the important information last, you can change the order of the verse.

When all men speak well of you, which is just as people’s ancestors treated the false prophets, then woe to you!

Irony

Description

Irony is a figure of speech in which the sense that the speaker intends to communicate is actually the opposite of the literal meaning of the words. Sometimes a person does this by using someone else's words, but in a way that communicates that he does not agree with them. People do this to emphasize how different something is from what it should be, or how someone else's belief about something is wrong or foolish. It is often humorous.

This page answers the question: *What is irony and how can I translate it?*

In order to understand this topic, it would be good to read:

[[rc://en/ta/man/translate/figs-intro]]

Then Jesus answered and said to them, "People who are well do not have need of a physician, but those who have sickness. I did not come to call the righteous, but sinners to repentance."
(Luke 5:31-32 ULT)

When Jesus spoke of "righteous people," he was not referring to people who were truly righteous, but to people who wrongly believed that they were righteous. By using irony, Jesus communicated that they were wrong to think that they were better than others and did not need to repent.

Reason This Is a Translation Issue

If someone does not realize that a speaker is using irony, he will think that the speaker actually believes what he is saying. He will understand the passage to mean the opposite of what it was intended to mean.

Examples From the Bible

How well you reject the commandment of God so that you may keep your tradition! (Mark 7:9b ULT)

Here Jesus praises the Pharisees for doing something that is obviously wrong. Through irony, he communicates the opposite of praise: He communicates that the Pharisees, who take great pride in keeping the commandments, are so far from God that they do not even recognize that their traditions are breaking God's commandments. The use of irony makes the Pharisee's sin more obvious and startling.

"Present your case," says Yahweh; "present your best arguments for your idols," says the King of Jacob. **"Let them bring us their own arguments; have them come forward and declare to us what will happen, so we may know these things well. Have them tell us of earlier predictive declarations, so we can reflect on them and know how they were fulfilled."** (Isaiah 41:21-22 ULT)

People worshiped idols as if their idols had knowledge or power, and Yahweh was angry at them for doing that. So he used irony and challenged their idols to tell what would happen in the future. He knew that the idols could not do this, but by speaking as if they could, he mocked the idols, making their inability more obvious, and rebuked the people for worshipping them.

Can you lead light and darkness to their places of work?
Can you find the way back to their houses for them?
Undoubtedly you know, for you were born then; "the number of your days is so large!" (Job 38:20-21 ULT)

Job thought that he was wise. Yahweh used irony to show Job that he was not so wise. The two phrases in bold above are irony. They emphasize the opposite of what they say, because they are so obviously false. They

emphasize that Job could not possibly answer God's questions about the creation of light because Job was not born until many, many years later.

Already you are satisfied! Already you have become rich! **You began to reign** apart from us, and I wish you really did reign, so that we also might reign with you. (1 Corinthians 4:8 ULT)

The Corinthians considered themselves to be very wise, self-sufficient, and not in need of any instruction from the Apostle Paul. Paul used irony, speaking as if he agreed with them, to show how proudly they were acting and how far from being wise they really were.

Translation Strategies

If the irony would be understood correctly in your language, translate it as it is stated. If not, here are some other strategies.

(1) Translate it in a way that shows that the speaker is saying what someone else believes.

(2) The irony is **not** found in the literal words of the speaker, but instead the true meaning is found in the opposite of the literal meaning of the speaker's words.

Examples of Translation Strategies Applied

(1) Translate it in a way that shows that the speaker is saying what someone else believes.

How well you reject the commandment of God so that you may keep your tradition! (Mark 7:9a ULT)

You think that you are doing well when you reject God's commandment so you may keep your tradition!

You act like it is good to reject God's commandment so you may keep your tradition!

I did not come to call **the righteous**, but sinners to repentance. (Luke 5:32 ULT)

I did not come to call **people who think that they are righteous** to repentance, but to call sinners to repentance.

(2) Translate the actual, intended meaning of the statement of irony.

How well you reject the commandment of God so that you may keep your tradition! (Mark 7:9a ULT)

You are doing a terrible thing when you reject the commandment of God so you may keep your tradition!

"Present your case," says Yahweh; "present your best arguments for your idols," says the King of Jacob. "**Let them bring us their own arguments; have them come forward and declare to us what will happen, so we may know these things well. Have them tell us of earlier predictive declarations, so we can reflect on them and know how they were fulfilled.**" (Isaiah 41:21-22 ULT)

'Present your case,' says Yahweh; 'present your best arguments for your idols,' says the King of Jacob. Your idols **cannot bring us their own arguments or come forward to declare to us what will happen** so we may know these things well. We cannot hear them because **they cannot speak** to tell us their earlier predictive declarations, so we cannot reflect on them and know how they were fulfilled.

Can you lead light and darkness to their places of work?

Can you find the way back to their houses for them?

**Undoubtedly you know, for you were born then;
the number of your days is so large!** (Job 38:20-21 ULT)

Can you lead light and darkness to their places of work? Can you find the way back to their houses for them? **You act like you know how light and darkness were created, as if you were there; as if you are as old as creation, but you are not!**

Litany

Description

A litany is a figure of speech in which the various components of a thing are listed in a series of very similar statements. The speaker does this to indicate that what he is saying should be understood as comprehensive and without exceptions.

This page answers the question: *What is the figure of speech called litany?*

In order to understand this topic, it would be good to read:

[[rc://en/ta/man/translate/figs-intro]]

Reason This Is a Translation Issue

Many languages do not use litanies, and readers could be confused by them. They may wonder why the speaker seems to be saying the same thing over and over again.

Examples From the Bible

Though they dig into Sheol, there my hand will take them. Though they climb up to heaven, there I will bring them down. Though they hide on the top of Carmel, there I will search and take them. Though they are hidden from my sight in the bottom of the sea, there will I give orders to the serpent, and it will bite them. Though they go into captivity, driven by their enemies before them, there will I give orders to the sword, and it will kill them. (Amos 9:2-4 ULT)

In this passage Yahweh is telling the people of Israel that when he punishes them, none of them will escape.

But you should not have looked on the day of your brother, on the day of his misfortune. And you should not have rejoiced over the sons of Judah in the day of their perishing. And you should not have made your mouth great in a day of distress. You should not have entered the gate of my people in the day of their calamity. Yes, you! You should not have looked on his evil in the day of his calamity. And you women should not have looted his wealth in the day of his calamity. And you should not have stood at the crossroads to cut down his fugitives. And you should not have delivered up his survivors in a day of distress. (Obadiah 1:12-14)

In this passage Yahweh is telling the people of Edom that they should have helped the people of Judah when they were conquered by the Babylonians.

Translation Strategies

If the litany is understood as it is in the ULT, then translate the litany as it is. If it is not understood, then try one or more of the following strategies.

- (1) Often in the Bible there will be a general statement at the beginning or end of a litany that sums up its overall meaning. You can format that statement in a way that will show that it is a summary statement that gives the meaning of the litany.
- (2) You can put each sentence of the litany on a separate line. Also, if each sentence in the litany has two parts, you can format the litany so that the equivalent parts of each sentence line up. Use this or any other type of formatting that will show that each sentence is reinforcing the same meaning.
- (3) You can eliminate words like “and,” “but,” and “or” at the beginning of sentences so that it will be clearer that the component parts of the litany are all being listed in a row.

Examples of Translation Strategies Applied

(1) combined with (3):

Often in the Bible there will be a general statement at the beginning or end of a litany that sums up its overall meaning. You can format that statement in a way that will show that it is a summary statement that gives the meaning of the litany;

You can eliminate words like “and,” “but,” and “or” at the beginning of sentences so that it will be clearer that the component parts of the litany are all being listed in a row.

You did nothing to help the Israelites when strangers carried away their wealth. They conquered all the cities of Judah, and they even plundered Jerusalem. And you were just as bad as those foreigners, because you did nothing to help:

You should not have looked on the day of your brother, on the day of his misfortune. You should not have rejoiced over the sons of Judah in the day of their perishing. You should not have made your mouth great in a day of distress. You should not have entered the gate of my people in the day of their calamity. Yes, you! You should not have looked on his evil in the day of his calamity. You women should not have looted his wealth in the day of his calamity. You should not have stood at the crossroads to cut down his fugitives. You should not have delivered up his survivors in a day of distress. (Obadiah 1:11-14)

In the above example, verse 11 provides the summary and meaning for the litany that follows in verses 12-14.

(1) combined with (2):

Often in the Bible there will be a general statement at the beginning or end of a litany that sums up its overall meaning. You can format that statement in a way that will show that it is a summary statement that gives the meaning of the litany;

You can put each sentence of the litany on a separate line. Also, if each sentence in the litany has two parts, you can format the litany so that the equivalent parts of each sentence line up. Use this or any other type of formatting that will show that each sentence is reinforcing the same meaning.

Not one of them will get away, not one of them will escape:

Though they dig into Sheol, there my hand will take them.

Though they climb up to heaven, there I will bring them down.

Though they hide on the top of Carmel, there I will search and take them.

Though they are hidden from my sight in the bottom of the sea, there will I give orders to the serpent, and it will bite them.

Though they go into captivity, driven by their enemies before them, there will I give orders to the sword, and it will kill them.

(Amos 9:1b-4 ULT)

In the above example, the sentence before the litany explains its overall meaning. That sentence can be placed as an introduction. The second half of each sentence can be formatted in a descending staircase pattern as above, or

lined up evenly like the first half of each sentence, or in another way. Use whatever format best shows that these sentences are all communicating the same truth, that it is not possible to escape from God.

Litotes

Description

Litotes is a figure of speech in which the speaker expresses a strong positive meaning by negating a word or phrase that means the opposite of the meaning that he intends. For example, someone could intend to communicate that something is extremely good by describing it as "not bad." The difference between a litotes and a [double negative](#) is that a litotes heightens the positive meaning beyond what a plain positive statement would do, and a double negative does not. In the example above, the literal meaning of "not bad," taken as a plain double negative, would be "acceptable" or even "good." But if the speaker intended it as a litotes, then the meaning is "very good" or "extremely good."

This page answers the question: *What is litotes?*

In order to understand this topic, it would be good to read:

[[rc://en/ta/man/translate/figs-intro]]

Reason This Is a Translation Issue

Some languages do not use litotes. People who speak those languages might not understand that a statement using litotes actually strengthens the positive meaning. Instead, they might think that it weakens or even cancels the positive meaning.

Examples From the Bible

For you yourselves know, brothers, that our coming to you was **not useless**, (1 Thessalonians 2:1 ULT)

By using litotes, Paul emphasized that his visit with them was **very** useful.

Now when it became day, there was **no small disturbance** among the soldiers over what therefore had happened to Peter. (Acts 12:18 ULT)

By using litotes, Luke emphasized that there was a **lot** of excitement or anxiety among the soldiers about what happened to Peter. (Peter had been in prison, and even though there were soldiers guarding him, he escaped when an angel let him out. So they were very agitated.)

But you, Bethlehem, in the land of Judah,
are **not the least** among the leaders of Judah,
for from you will come a ruler
who will shepherd my people Israel. (Matthew 2:6 ULT)

By using litotes, the prophet emphasized that Bethlehem would be a **very important city**.

Translation Strategies

If the litotes would be understood correctly, consider using it.

(1) If the meaning with the negative would not be clear, give the **positive** meaning in a strong way.

Merism

Definition

Merism is a figure of speech in which a person refers to something by speaking of two extreme parts of it. By referring to the extreme parts, the speaker intends to include also everything in between those parts.

“I am **the alpha and the omega**,” says the Lord God,
“the one who is, and who was, and who is to come, the Almighty.” (Revelation 1:8 ULT)

I am **the alpha and the omega, the first and the last, the beginning and the end**.
(Revelation 22:13, ULT)

This page answers the question: *What does the word merism mean and how can I translate phrases that have it?*

In order to understand this topic, it would be good to read:

[\[\[rc://en/ta/man/translate/figs-intro\]\]](#)

Alpha and omega are the first and last letters of the Greek alphabet. This is a merism that includes everything from the beginning to the end. It means eternal.

... I praise you, Father, Lord of **heaven and earth** ..., (Matthew 11:25b ULT)

Heaven and earth is a merism that includes everything that exists.

Reason This is a Translation Issue

Some languages do not use merism. The readers of those languages may think that the phrase only applies to the items mentioned. They may not realize that it refers to those two things and everything in between.

Examples From the Bible

From the rising of the sun to its setting, Yahweh’s name should be praised. (Psalm 113:3 ULT)

This bolded phrase is a merism because it speaks of the east and the west and everywhere in between. It means “everywhere.”

He will bless those who honor him, both **young and old**. (Psalm 115:13)

The bolded phrase is merism because it speaks of old people and young people and everyone in between. It means “everyone.”

Translation Strategies

If the merism would be natural and give the right meaning in your language, consider using it. If not, here are other options:

- (1) Identify what the merism refers to without mentioning the parts.
- (2) Identify what the merism refers to and include the parts.

Examples of Translation Strategies Applied

- (1) Identify what the merism refers to without mentioning the parts.

I praise you, Father, Lord of **heaven and earth**. (Matthew 11:25b ULT)

I praise you, Father, Lord of **everything**.

From the rising of the sun to its setting, Yahweh's name should be praised. (Psalm 113:3 ULT)

In all places, people should praise Yahweh's name.

(2) Identify what the merism refers to and include the parts.

I praise you, Father, Lord of **heaven and earth**. (Matthew 11:25b ULT)

I praise you, Father, Lord of **everything, including both what is in heaven and what is on earth**.

He will bless those who honor him, both **young and old**. (Psalm 115:13 ULT)

He will bless **all those** who honor him, regardless of whether they are **young or old**.

Metaphor

Description

A metaphor is a figure of speech in which someone speaks of one thing as if it were a different thing because he wants people to think about how those two things are alike.

For example, someone might say, “The girl I love is a red rose.”

A girl and a rose are very different things, but the speaker considers that they are alike in some way. The hearer’s task is to understand in what way they are alike.

This page answers the question: *What is a metaphor and how can I translate a Bible passage that has one?*

In order to understand this topic, it would be good to read:

[\[\[rc://en/ta/man/translate/figs-intro\]\]](#)

[Simile](#)

The Parts of a Metaphor

The example above shows us that a metaphor has three parts. In this metaphor, the speaker is talking about “the girl I love.” This is the **Topic**. The speaker wants the hearer to think about what is similar between her and “a red rose.” The red rose is the **Image** to which he compares the girl. Most probably, he wants the hearer to consider that they are both beautiful. This is the **Idea** that the girl and the rose both share, and so we may also call it the **Point of Comparison**.

Every metaphor has three parts:

- The **Topic**, the item being immediately discussed by the writer/speaker.
- The **Image**, the physical item (object, event, action, etc.) which the speaker uses to describe the topic.
- The **Idea**, the abstract concept or quality that the physical **Image** brings to the mind of the hearer when he thinks of how the **Image** and the **Topic** are similar. Often, the **Idea** of a metaphor is not explicitly stated in the Bible, but it is only implied from the context. The hearer or reader usually needs to think of the **Idea** himself.

Using these terms, we can say that a metaphor is a figure of speech that uses a physical **Image** to apply an abstract **Idea** to the speaker’s **Topic**.

Usually, a writer or speaker uses a metaphor in order to express something about a **Topic**, with at least one **Point of Comparison (Idea)** between the **Topic** and the **Image**. Often in metaphors, the **Topic** and the **Image** are explicitly stated, but the **Idea** is only implied. The writer/speaker often uses a metaphor in order to invite the readers/listeners to think about the similarity between the **Topic** and the **Image** and to figure out for themselves the **Idea** that is being communicated.

Speakers often use metaphors in order to strengthen their message, to make their language more vivid, to express their feelings better, to say something that is hard to say in any other way, or to help people remember their message.

Sometimes speakers use metaphors that are very common in their language. However, sometimes speakers use metaphors that are uncommon, and even some metaphors that are unique. When a metaphor has become very common in a language, often it becomes a “passive” metaphor, in contrast to uncommon metaphors, which we describe as being “active.” Passive metaphors and active metaphors each present a different kind of translation problem, which we will discuss below.

Passive Metaphors

A passive metaphor is a metaphor that has been used so much in the language that its speakers no longer regard it as one concept standing for another. Linguists often call these “dead metaphors.” Passive metaphors are extremely common. Examples in English include the terms “table **leg**,” “family **tree**,” “book **leaf**” (meaning a page in

a book), or the word “crane” (meaning a large machine for lifting heavy loads). English speakers simply think of these words as having more than one meaning. Examples of passive metaphors in Biblical Hebrew include using the word “hand” to represent “power,” using the word “face” to represent “presence,” and speaking of emotions or moral qualities as if they were “clothing.”

Patterned Pairs of Concepts Acting as Metaphors

Many ways of metaphorical speaking depend on pairs of concepts, where one underlying concept frequently stands for a different underlying concept. For example, in English, the direction “up” (the Image) often represents the concepts of “more” or “better” (the Idea). Because of this pair of underlying concepts, we can make sentences such as “The price of gasoline is going **up**,” “A **highly** intelligent man,” and also the opposite kind of idea: “The temperature is going **down**,” and “I am feeling very **low**.”

Patterned pairs of concepts are constantly used for metaphorical purposes in the world’s languages because they serve as convenient ways to organize thought. In general, people like to speak of abstract qualities (such as power, presence, emotions, and moral qualities) as if they were body parts, or as if they were objects that could be seen or held, or as if they were events that could be watched as they happened.

When these metaphors are used in normal ways, it is rare that the speaker and audience regard them as figurative speech. Examples of metaphors in English that go unrecognized are:

- “Turn the heat **up**.” More is spoken of as up.
- “Let us **go ahead** with our debate.” Doing what was planned is spoken of as walking or advancing.
- “You **defend** your theory well.” Argument is spoken of as war.
- “A **flow** of words.” Words are spoken of as liquids.

English speakers do not view these as metaphorical expressions or figures of speech, so it would be wrong to translate them into other languages in a way that would lead people to pay special attention to them as figurative speech. For a description of important patterns of this kind of metaphor in biblical languages, please see [Biblical Imagery — Common Patterns](#) and the pages it will direct you to.

When translating something that is a passive metaphor into another language, do not treat it as a metaphor. Instead, just use the best expression for that thing or concept in the target language.

Active Metaphors

These are metaphors that people recognize as one concept standing for another concept, or one thing for another thing. Metaphors make people think about how the one thing is like the other thing, because in most ways the two things are very different. People also easily recognize these metaphors as giving strength and unusual qualities to the message. For this reason, people pay attention to these metaphors. For example,

But for you who fear my name, the sun of righteousness will rise with healing in its wings.
(Malachi 4:2a ULT)

Here, God speaks about his salvation as if it were the sun rising in order to shine its rays on the people whom he loves. He also speaks of the sun’s rays as if they were wings. Also, he speaks of these wings as if they were bringing medicine that would heal his people. Here is another example:

And he said to them, “Go and tell that fox ...” (Luke 13:32a ULT)

Here, “that fox” refers to King Herod. The people listening to Jesus certainly understood that Jesus was intending for them to apply certain characteristics of a fox to Herod. They probably understood that Jesus intended to communicate that Herod was evil, either in a cunning way or as someone who was destructive, murderous, or who took things that did not belong to him, or all of these.

Active metaphors require the translator’s special care to make a correct translation. To do so, you need to understand the parts of a metaphor and how they work together to produce meaning.

Jesus said to them, “I am the bread of life; he who comes to me will not be hungry, and he who believes in me will never be thirsty.” (John 6:35 ULT)

In this metaphor, Jesus called himself the bread of life. The **Topic** is “I” (meaning Jesus himself) and the **Image** is “bread.” Bread was the primary food that people ate in that place and time. The similarity between bread and Jesus is that people need both to live. Just as people need to eat food in order to have physical life, people need to trust in Jesus in order to have eternal life. The **Idea** of the metaphor is “life.” In this case, Jesus stated the central Idea of the metaphor, but often the Idea is only implied.

Purposes of Metaphor

- One purpose of metaphor is to teach people about something that they do not know (the **Topic**) by showing that it is like something that they already do know (the **Image**).
- Another purpose is to emphasize that something (the **Topic**) has a particular quality (the **Idea**) or to show that it has that quality in an extreme way.
- Another purpose is to lead people to feel the same way about the **Topic** as they would feel about the **Image**.

Reasons This Is a Translation Issue

- People may not recognize that something is a metaphor. In other words, they may mistake a metaphor for a literal statement, and thus, misunderstand it.
- People may not be familiar with the thing that is used as an image, and so, not be able to understand the metaphor.
- If the topic is not stated, people may not know what the topic is.
- People may not know the points of comparison that the speaker wants them to understand. If they fail to think of these points of comparison, they will not understand the metaphor.
- People may think that they understand the metaphor, but they do not. This can happen when they apply points of comparison from their own culture, rather than from the biblical culture.

Translation Principles

- Make the meaning of a metaphor as clear to the target audience as it was to the original audience.
- Do not make the meaning of a metaphor more clear to the target audience than you think it was to the original audience.

Examples From the Bible

Listen to this word, **you cows of Bashan**, (Amos 4:1q ULT)

In this metaphor Amos speaks to the upper-class women of Samaria (“you,” the Topic) as if they were cows (the Image). Amos does not say what similarity(s) he intends between these women and cows. He wants the reader to think of them, and he fully expects that readers from his culture will easily do so. From the context, we can see that he means that the women are like cows in that they are fat and interested only in feeding themselves. If we were to apply similarities from a different culture, such as that cows are sacred and should be worshiped, we would get the wrong meaning from this verse.

NOTE: Amos does not actually mean that the women are cows. He speaks to them as human beings.

Yet, Yahweh, you are our father; **we are the clay. You are our potter**; and we all are the work of your hand. (Isaiah 64:8 ULT)

The example above has two related metaphors. The Topic(s) are “we” and “you,” and the Image(s) are “clay” and “potter.” The similarity between a potter and God is the fact that both make what they wish out of their material. The potter makes what he wishes out of the clay, and God makes what he wishes out of his people. The Idea being expressed by the comparison between the potter’s clay and “us” is that **neither the clay nor God’s people have a right to complain about what they are becoming.**

Jesus said to them, “Take heed and beware of **the yeast of the Pharisees and Sadducees.**” The disciples reasoned among themselves and said, “It is because we did not take bread.” (Matthew 16:6-7 ULT)

Jesus used a metaphor here, but his disciples did not realize it. When he said “yeast,” they thought he was talking about bread, but “yeast” was the Image in his metaphor, and the Topic was the teaching of the Pharisees and Sadducees. Since the disciples (the original audience) did not understand what Jesus meant, it would not be good to state clearly here what Jesus meant.

Translation Strategies

If people would understand the metaphor in the same way that the original readers would have understood it, go ahead and use it. Be sure to test the translation to make sure that people do understand it in the right way.

If people do not or would not understand it, here are some other strategies.

(1) If the metaphor is a common expression in the source language or expresses a patterned pair of concepts in a biblical language (that is, it is a passive metaphor), then express the **Idea** in the simplest way preferred by your language.

(2) If the metaphor seems to be an active metaphor, you can translate it literally **if you think that the target language also uses this metaphor in the same way to mean the same thing as in the Bible.** If you do this, be sure to test it to make sure that the language community understands it correctly.

(3) If the target audience does not realize that it is a metaphor, then change the metaphor to a simile. Some languages do this by adding words such as “like” or “as.” See [Simile](#).

(4) If the target audience would not know the **Image**, see Translate Unknowns for ideas on how to translate that image.

(5) If the target audience would not use that **Image** for that meaning, use an image from your own culture instead. Be sure that it is an image that could have been possible in Bible times.

(6) If the target audience would not know what the **Topic** is, then state the topic clearly. (However, do not do this if the original audience did not know what the Topic was.)

(7) If the target audience would not know the intended similarity (the **Idea**) between the topic and the image, then state it clearly.

(8) If none of these strategies is satisfactory, then simply state the **Idea** plainly without using a metaphor.

Examples of Translation Strategies Applied

(1) If the metaphor is a common expression in the source language or expresses a patterned pair of concepts in a biblical language (that is, a passive metaphor), then express the Idea in the simplest way preferred by your language.

Then, see, one of the leaders of the synagogue, named Jairus, came, and when he saw him, **fell at his feet.** (Mark 5:22 ULT)

Then one of the leaders of the synagogue, named Jairus, came, and when he saw him, **immediately bowed down in front of him.**

(2) If the metaphor seems to be an active metaphor, you can translate it literally **if you think that the target language also uses this metaphor in the same way to mean the same thing as in the Bible.** If you do this, be sure to test it to make sure that the language community understands it correctly.

But Jesus said to them, "He wrote this commandment to you because of your **hardness of heart.**" (Mark 10:5 ULT)

It was because of your **hard hearts** that he wrote you this law.

We made no change to this one, but it must be tested to make sure that the target audience correctly understands this metaphor.

(3) If the target audience does not realize that it is a metaphor, then change the metaphor to a simile. Some languages do this by adding words such as "like" or "as."

Yet, Yahweh, you are our father; we **are the clay.** You **are our potter;** and we all are the work of your hand. (Isaiah 64:8 ULT)

And yet, Yahweh, you are our father; we are **like** clay. You are **like** a potter; and we all are the work of your hand.

(4) If the target audience would not know the **Image**, see Translate Unknowns for ideas on how to translate that image.

Saul, Saul, why do you persecute me? It is hard for you **to kick against a goad.** (Acts 26:14b ULT)

Saul, Saul, why do you persecute me? It is hard for you **to kick against a pointed stick.**

(5) If the target audience would not use that **Image** for that meaning, use an image from your own culture instead. Be sure that it is an image that could have been possible in Bible times.

Yet, Yahweh, you are our father; we are the **clay.** You are our **potter;** and we all are the work of your hand. (Isaiah 64:8 ULT)

"And yet, Yahweh, you are our father; we are the **wood.** You are our **carver;** and we all are the work of your hand."

"And yet, Yahweh, you are our father; we are the **string.** You are the **weaver;** and we all are the work of your hand."

(6) If the target audience would not know what the **Topic** is, then state the topic clearly. (However, do not do this if the original audience did not know what the topic was.)

Yahweh lives; may **my rock** be praised. May the God of my salvation be exalted. (Psalm 18:46 ULT)

Yahweh lives; **He is my rock**. May he be praised. May the God of my salvation be exalted.

(7) If the target audience would not know the intended similarity between the Topic and the Image, then state it clearly.

Yahweh lives; may **my rock** be praised. May the God of my salvation be exalted. (Psalm 18:46 ULT)

Yahweh lives; may he be praised because he is the rock **under which I can hide from my enemies**. May the God of my salvation be exalted.

Saul, Saul, why do you persecute me? It is hard for you **to kick against a goad**. (Acts 26:14 ULT)

Saul, Saul, why do you persecute me? You **fight against me and hurt yourself like an ox that kicks against its owner's pointed stick**.

(8) If none of these strategies are satisfactory, then simply state the idea plainly without using a metaphor.

I will make you to become **fishers of men**. (Mark 1:17b ULT)

I will make you to become **people who gather men**.
Now you gather fish. I will make you **gather people**.

Metonymy

Description

Metonymy is a figure of speech in which an item (either physical or abstract) is called not by its own name, but by the name of something closely associated with it. A metonym is a word or phrase used as a substitute for something that it is associated with.

This page answers the question: *What is a metonymy?*

In order to understand this topic, it would be good to read:

[\[\[rc://en/ta/man/translate/figs-intro\]\]](#)

... and **the blood** of Jesus his Son cleanses us from every sin. (1 John 1:7b ULT)

The blood represents Christ's death.

And he took **the cup** in the same way after supper, saying, "**This cup** is the new covenant in my blood, which is poured out for you." (Luke 22:20 ULT)

The cup represents the wine that is in the cup.

Metonymy can be used

- as a shorter way of referring to something
- to make an abstract idea more meaningful by referring to it with the name of a physical object associated with it

Reason This Is a Translation Issue

The Bible uses metonymy very often. Speakers of some languages are not familiar with metonymy and they may not recognize it when they read it in the Bible. If they do not recognize the metonymy, they will not understand the passage or, worse yet, they will get a wrong understanding of the passage. Whenever a metonym is used, people need to be able to understand what it represents.

Examples From the Bible

The Lord God will give to him **the throne** of his father David. (Luke 1:32b ULT)

A throne represents the authority of a king. "Throne" is a metonym for "kingly authority," "kingship," or "reign." This means that God would make him become a king who would follow King David.

Then immediately his **mouth** was opened (Luke 1:64a ULT)

The mouth here represents the power to speak. This means that he was able to talk again.

Who warned you to flee from **the wrath** that is coming? (Luke 3:7b ULT)

The word "wrath" or "anger" is a metonym for "punishment." God was extremely angry with the people and, as a result, he would punish them.

Translation Strategies

If people would easily understand the metonym, consider using it. Otherwise, here are some options.

- (1) Use the metonym along with the name of the thing it represents.
- (2) Use only the name of the thing the metonym represents.

Examples of Translation Strategies Applied

- (1) Use the metonym along with the name of the thing it represents.

And he took the cup in the same way after the supper, saying, “**This cup** is the new covenant in my blood, which is poured out for you.” (Luke 22:20 ULT)

He took the cup in the same way after supper, saying, “**The wine in this cup** is the new covenant in my blood, which is poured out for you.”

This verse also contains a second metonym: The cup, (representing the wine it contains) also represents the new covenant made with the blood Christ shed for us.

- (2) Use the name of the thing the metonym represents.

The Lord God will give him **the throne** of his father David. (Luke 1:32b ULT)

“The Lord God will give him **the kingly authority** of his father, David.”

or:

“The Lord God will **make him king** like his ancestor, King David.”

Who warned you to flee from **the wrath** that is coming? (Luke 3:7b ULT)

“Who warned you to flee from God’s coming **punishment?**”

Nominal Adjectives

Description

In some languages an adjective can be used to refer to a class of things that the adjective describes. When it does, it acts like a noun. For example, the word “rich” is an adjective. Here are two sentences that show that “rich” is an adjective.

The rich man had huge numbers of flocks and herds. (2 Samuel 12:2 ULT)

The adjective “rich” comes before the word “man” and describes “man.”

He will not be rich; his wealth will not last. (Job 15:29a ULT)

The adjective “rich” comes after the verb “be” and describes “He.”

Here is a sentence that shows that “rich” can also function as a noun.

The rich must not give more than the half shekel, and **the poor** must not give less. (Exodus 30:15b ULT)

In Exodus 30:15, the word “rich” acts as a noun in the phrase “the rich,” and it refers to rich people. The word “poor” also acts as a noun and refers to poor people.

Reason This Is a Translation Issue

- Many times in the Bible adjectives are used as nouns to describe a group of people.
- Some languages do not use adjectives in this way.
- Readers of these languages may think that the text is talking about one particular person when it is really talking about the group of people whom the adjective describes.

Examples From the Bible

The scepter of wickedness must not rule in the land of **the righteous**. (Psalms 125:3a ULT)

“The righteous” here are people who are righteous, not one particular righteous person.

Blessed are **the meek**. (Matthew 5:5a ULT)

“The meek” here are all people who are meek, not one particular meek person.

Translation Strategies

If your language uses adjectives as nouns to refer to a class of people, consider using the adjectives in this way. If it would sound strange, or if the meaning would be unclear or wrong, here is another option:

(1) Use the adjective with a plural form of the noun that the adjective describes.

Parallelism

Description

Parallelism is a poetic device in which two phrases or clauses that are similar in structure or idea are used together. The following are some of the different kinds of parallelism.

- The second clause or phrase means the same as the first. This is called synonymous parallelism.
- The second clarifies or strengthens the meaning of the first.
- The second completes what is said in the first.
- The second says something that contrasts with the first, but adds to the same idea.

Parallelism is most commonly found in Old Testament poetry, such as in the books of Psalms and Proverbs. It also occurs in Greek in the New Testament, both in the four gospels and in the apostles' letters.

This article will only discuss synonymous parallelism, the kind in which the two parallel phrases mean the same thing, because that is the kind that presents a problem for translation. Note that we use the term "synonymous parallelism" for long phrases or clauses that have the same meaning. We use the term "doublet" for words or very short phrases that mean basically the same thing and are used together.

In the poetry of the original languages, synonymous parallelism has several effects:

- It shows that something is very important by saying it more than once and in more than one way.
- It helps the hearer to think more deeply about the idea by saying it in different ways.
- It makes the language more beautiful and raises it above the ordinary way of speaking.

Reason This Is a Translation Issue

Some languages would not use synonymous parallelism. They would either think it odd that someone said the same thing twice, or, since it is in the Bible, they would think that the two phrases must have some difference in meaning. For them it would be confusing, rather than beautiful. They would not understand that the repetition of the idea in different words serves to emphasize the idea.

Examples From the Bible

Your word is a lamp to my feet
and a light for my path. (Psalm 119:105 ULT)

Both parts of the sentence are metaphors saying that God's word teaches people how to live. That is the single idea. The words "lamp" and "light" are similar in meaning because they refer to light. The words "my feet" and "my path" are related because they refer to a person walking. Walking is a metaphor for living.

You make him to rule over the works of your hands;
you have put all things under his feet (Psalm 8:6 ULT)

Both lines say that God made man the ruler of everything. "To rule over" is the same idea as putting things "under his feet," and "the works of your [God's] hands" is the same idea as "all things."

This page answers the question: *What is parallelism?*

In order to understand this topic, it would be good to read:

[[rc://en/ta/man/translate/figs-intro]]

Yahweh sees everything a person does
and watches all the paths he takes. (Proverbs 5:21 ULT)

The first phrase and the second phrase mean the same thing. There are three ideas that are the same between these two phrases. "Sees" corresponds to "watches," "everything...does" corresponds to "all the paths...takes," and "a person" corresponds to "he."

Praise Yahweh, all you nations;
exalt him, all you peoples! (Psalm 117:1 ULT)

Both parts of this verse tell people everywhere to praise Yahweh. The words 'Praise' and 'exalt' mean the same thing. The words 'Yahweh' and 'him' refer to the same person. The terms 'all you nations' and 'all you peoples' refer to the same people.

For Yahweh has a lawsuit with his people,
and he will fight in court against Israel. (Micah 6:2b ULT)

The two parts of this verse say that Yahweh has a serious disagreement with his people, Israel. These are not two different disagreements or two different groups of people.

Translation Strategies

For most kinds of parallelism, it is good to translate both of the clauses or phrases. For synonymous parallelism, it is good to translate both clauses if people in your language understand that the purpose of saying something twice is to strengthen a single idea. But if your language does not use parallelism in this way, then consider using one of the following translation strategies.

- (1) Combine the ideas of both clauses into one.
- (2) If it appears that the clauses are used together to show that what they say is really true, you could combine the ideas of both clauses into one and include words that emphasize the truth such as "truly" or "certainly."
- (3) If it appears that the clauses are used together to intensify an idea in them, you could combine the ideas of both clauses into one and use words like "very," "completely," or "all."

Examples of Translation Strategies Applied

- (1) Combine the ideas of both clauses into one.

Until now you have dealt deceitfully with me and you have spoken lies to me. (Judges 16:13, ULT)

Delilah expressed this idea twice to emphasize that she was very upset.

Until now you have deceived me with your lies.
Yahweh sees everything a person does and watches all the paths he takes. (Proverbs 5:21 ULT)

The phrase "all the paths he takes" is a metaphor for "all he does."

Yahweh pays attention to everything a person does.
For Yahweh has a lawsuit with his people, and he will fight in court against Israel. (Micah 6:2 ULT)

This parallelism describes one serious disagreement that Yahweh had with one group of people. If this is unclear, the phrases can be combined:

For Yahweh has a lawsuit with his people, Israel.

(2) If it appears that the clauses are used together to show that what they say is really true, you could combine the ideas of both clauses into one and include words that emphasize the truth such as “truly” or “certainly.”

Yahweh sees everything a person does and watches all the paths he takes. (Proverbs 5:21 ULT)

Yahweh truly sees everything a person does.

You make him to rule over the works of your hands; you have put all things under his feet (Psalm 8:6 ULT)

You have certainly made him to rule over everything that you have created.

(3) If it appears that the clauses are used together to intensify an idea in them, you could combine the ideas of both clauses into one and use words like “very,” “completely” or “all.”

Until now you have dealt deceitfully with me and you have spoken lies to me. (Judges 16:13, ULT)

All you have done is lie to me.

Yahweh sees everything a person does and watches all the paths he takes. (Proverbs 5:21 ULT)

Yahweh sees absolutely everything that a person does.

Personification

Description

Personification is a figure of speech in which someone speaks of something as if it could do things that animals or people can do. People often do this because it makes it easier to talk about things that we cannot see:

Such as wisdom:

Does not Wisdom call out? (Proverbs 8:1a ULT)

Or sin:

Sin crouches at the door. (Genesis 4:7b ULT)

People also use personification because it is sometimes easier to talk about people's relationships with non-human things such as wealth as if they were relationships between people.

You cannot serve God and wealth. (Matthew 6:24b ULT)

In each case, the purpose of the personification is to highlight a certain characteristic of the non-human thing. As in metaphor, the reader needs to think of the way that the thing is like a certain kind of person.

Reasons This Is a Translation Issue

- Some languages do not use personification.
- Some languages use personification only in certain situations.

Examples From the Bible

You cannot **serve** God and wealth. (Matthew 6:24b ULT)

Jesus speaks of wealth as if it were a master whom people might serve. Loving money and basing one's decisions on it is like serving it as a slave would serve his master.

Does not Wisdom **call** out? Does not Understanding **raise her voice**? (Proverbs 8:1 ULT)

The author speaks of wisdom and understanding as if they were woman who calls out to teach people. This means that they are not something hidden, but something obvious that people should pay attention to.

Translation Strategies

If the personification would be understood clearly, consider using it. If it would not be understood, here are some other ways for translating it.

- (1) Add words or phrases to make the human (or animal) characteristic clear.
- (2) In addition to Strategy (1), use words such as "like" or "as" to show that the sentence is not to be understood literally.
- (3) Find a way to translate it without the personification.

This page answers the question: *What is personification?*

In order to understand this topic, it would be good to read:

[[rc://en/ta/man/translate/figs-intro]]

Examples of Translation Strategies Applied

(1) Add words or phrases to make the human (or animal) characteristic clear.

Sin crouches at the door. (Genesis 4:7b ULT) — God speaks of sin as if it were a wild animal that is waiting for the chance to attack. This shows how dangerous sin is. An additional phrase can be added to make this danger clear.

Sin is at your door, **waiting to attack you**.

(2) In addition to Strategy (1), use words such as “like” or “as” to show that the sentence is not to be understood literally.

Sin crouches at the door. (Genesis 4:7b ULT) — This can be translated with the word “as.”

Sin is crouching at the door, **just as a wild animal does as it waits to attack a person..**

(3) Find a way to translate it without the personification.

Even the **winds and the sea obey him**. (Matthew 8:27b ULT) — The men speak of the “wind and the sea” as if they are able to hear and obey Jesus, just as people can. This could also be translated without the idea of obedience by speaking of Jesus controlling them.

He even **controls the winds and the sea**.

NOTE: We have broadened our definition of “personification” to include “zoomorphism” (speaking of other things as if they had animal characteristics) and “anthropomorphism” (speaking of non-human things as if they had human characteristics) because the translation strategies for them are the same.

Possession

Description

In English, the grammatical form that commonly indicates possession is also used to indicate a variety of relationships between people and objects or people and other people. In English, that grammatical relationship is shown by using the word “of,” by using **an apostrophe and the letter “s”**, or by using a **possessive pronoun**. The following examples are different ways to indicate that my grandfather owns a house.

- the house **of** my grandfather
- my grandfather **'s** house
- **his** house

Possession is used in Hebrew, Greek, and English for a variety of situations. Here are a few common situations that it is used for.

- Ownership — Someone owns something.
 - The clothes of me - my clothes — The clothes that I own
- Social Relationship — Someone has some kind of social relationship with another.
 - The mother of John — John's mother - the woman who gave birth to John, or the woman who cared for John
 - A teacher of Israel - Israel's teacher — a person who teaches Israel
- Association — A particular thing is associated with a particular person, place, or thing.
 - The sickness of David - David's sickness — the sickness that David is experiencing
 - the fear of the Lord — the fear that is appropriate for a human being to have when relating to the Lord
- Contents — Something has something in it.
 - a bag of clothes — a bag that has clothes in it, or a bag that is full of clothes
- Part and whole: One thing is part of another.
 - my head — the head that is part of my body
 - the roof of a house — the roof that is part of a house

In some languages there is a special form of possession, termed **inalienable possession**. This form of possession is used for things that cannot be removed from you, as opposed to things you could lose. In the examples above, *my head* and *my mother* are examples of inalienable possession (at least in some languages), while *my clothes* or *my teacher* would be alienably possessed. What may be considered alienable vs. inalienable may differ by language.

Reasons This Is a Translation Issue

- You (the translator) need to understand the relationship between two ideas represented by the two nouns when one is in the grammatical relationship of possessing the other.
- Some languages do not use grammatical possession for all of the situations that your source text Bible might use it for.

Examples From the Bible

Ownership — In the example below, the son owned the money.

▮ The younger son ... wasted his wealth by living recklessly. (Luke 15:13b)

Social Relationship — In the example below, the disciples were people who learned from John.

Then **the disciples of John** came to him. (Matthew 9:14a ULT)

Association — In the example below, the gospel is the message associated with Paul because he preaches it.

Remember Jesus Christ, raised from the dead, from the seed of David, according to **my gospel**, (2 Timothy 2:8 ULT)

Material — In the example below, the material used for making the crowns was gold.

On their heads were something like **crowns of gold**. (Revelation 9:7b)

Contents — In the example below, the cup has water in it.

For whoever gives you **a cup of water** to drink ... will not lose his reward. (Mark 9:41 ULT)

Part of a whole — In the example below, the door was a part of the palace.

But Uriah slept at **the door of the king's palace**. (2 Samuel 11:9a ULT)

Part of a group — In the example below, “us” refers to the whole group and “each one” refers to the individual members.

Now to **each one of us** grace has been given according to the measure of the gift of Christ. (Ephesians 4:7 ULT)

Events and Possession

Sometimes one or both of the nouns is an abstract noun that refers to an event or action. In the examples below, the abstract nouns are in **bold** print. These are just some of the relationships that are possible between two nouns when one of them refers to an event.

Subject — Sometimes the word after “of” tells who would do the action named by the first noun. In the example below, **John baptized people**.

The **baptism of John**, was it from heaven or from men? Answer me. (Mark 11:30)

In the example below, **Christ loves us**.

Who will separate us from the **love of Christ**? (Romans 8:35)

Object — Sometimes the word after “of” tells who or what something would happen to. In the example below, **people love money**.

For the **love of money** is a root of all kinds of evil. (1 Timothy 6:10a ULT)

Instrument — Sometimes the word after “of” tells how something would happen. In the example below, God would **punish people by sending enemies to attack them with swords**.

Then be afraid of the sword, because wrath brings **the punishment of the sword**. (Job 19:29a ULT)

Representation — In the example below, John was baptizing people who were repenting of their sins. They were being baptized to show that they were repenting. Their **baptism represented their repentance**.

John came, baptizing in the wilderness and preaching **a baptism of repentance** for the forgiveness of sins. (Mark 1:4 ULT)

Strategies for learning what the relationship is between the two nouns

- (1) Read the surrounding verses to see if they help you to understand the relationship between the two nouns.
- (2) Read the verse in the UST. Sometimes it shows the relationship clearly.
- (3) See what the notes say about it.

Translation Strategies

If possession would be a natural way to show a particular relationship between two nouns, consider using it. If it would be strange or hard to understand, consider these.

- (1) Use an adjective to show that one noun describes the other.
- (2) Use a verb to show how the two are related.
- (3) If one of the nouns refers to an event, translate it as a verb.

Examples of Translation Strategies Applied

- (1) Use an adjective to show that one noun describes the other.

On their heads were something like **crowns of gold**. (Revelation 9:7b)

“On their heads were **gold crowns**”

- (2) Use a verb to show how the two are related.

Whoever gives you **a cup of water** to drink ... will not lose his reward. (Mark 9:41 ULT)

Whoever gives you a **cup that has water in it** to drink ... will not lose his reward.

Wealth is worthless on **the day of wrath**. (Proverbs 11:4a ULT)

Wealth is worthless on **the day when God shows his wrath**.

or:

Wealth is worthless on the **day when God punishes people because of his wrath**.

- (3) If one of the nouns refers to an event, translate it as a verb. (In the example below, there are two possession relationships, “punishment of Yahweh” and “your God.”)

Notice that I am not speaking to your children, who have not known or seen **the punishment of Yahweh your God**. (Deuteronomy 11:2a ULT)

Notice that I am not speaking to your children who have not known or seen **how Yahweh, the God whom you worship, punished the people of Egypt**.

You will only observe and see the **punishment of the wicked**. (Psalms 91:8 ULT)

You will only observe and see **how Yahweh punishes the wicked**.

You will receive **the gift of the Holy Spirit**. (Acts 2:38b ULT)

You will receive the **Holy Spirit, whom God will give to you.**

Predictive Past

Description

The predictive past is a figure of speech that uses the past tense to refer to things that will happen in the future. This is sometimes done in prophecy to show that the event will certainly happen. It is also called the prophetic perfect.

Therefore my people have gone into captivity for lack of understanding; their honored leaders go hungry, and their common people have nothing to drink. (Isaiah 5:13 ULT)

In the example above, the people of Israel had not yet gone into captivity, but God spoke of their going into captivity as if it had already happened because he had decided that they certainly would go into captivity.

Reason This Is a Translation Issue:

Readers who are not aware of the past tense being used in prophecy to refer to future events may find it confusing.

Examples From the Bible

Now Jericho was tightly closed because of the sons of Israel. No one went out and no one came in. Yahweh said to Joshua, "See, I have delivered Jericho, and its king, and its powerful soldiers into your hand." (Joshua 6:1-2 ULT)

For to us a child has been born, to us a son has been given; and the rule will be on his shoulder. (Isaiah 9:6a ULT)

In the examples above, God spoke of things that would happen in the future as if they had already happened.

But even Enoch, the seventh from Adam, prophesied about them, saying, "Look! The Lord came with thousands and thousands of his holy ones." (Jude 1:14 ULT)

Enoch was speaking of something that would happen in the future, but he used the past tense when he said "the Lord came."

Translation Strategies

If the past tense would be natural and give the right meaning in your language, consider using it. If not, here are some other options.

- (1) Use the future tense to refer to future events.
- (2) If it refers to something in the immediate future, use a form that would show that.
- (3) Some languages may use the present tense to show that something will happen very soon.

Examples of Translation Strategies Applied

- (1) Use the future tense to refer to future events.

Pronouns — When to Use Them

Description

When we talk or write, we use pronouns to refer to people or things without always having to repeat the noun or name. Usually, the first time we refer to someone in a story, we use a descriptive phrase or a name. The next time we might refer to that person with a simple noun or by name. After that we might refer to him simply with a pronoun as long as we think that our listeners will be able to understand easily to whom the pronoun refers.

This page answers the question: *How do I decide whether or not to use a pronoun?*

In order to understand this topic, it would be good to read:

[[rc://en/ta/man/translate/figs-pronouns]]

Now there was **a man from the Pharisees whose name was Nicodemus, a Jewish leader**. **This man** came to Jesus at night. Jesus replied and said to **him** ... (John 3:1, 2a, 3a ULT)

In John 3, Nicodemus is first referred to with noun phrases and his name. Then he is referred to with the noun phrase “this man.” Then he is referred to with the pronoun “him.”

Each language has its rules and exceptions to this usual way of referring to people and things.

- In some languages, the first time something is referred to in a paragraph or chapter, it is referred to with a noun rather than a pronoun.
- The main character is the person whom a story is about. In some languages, after a main character is introduced in a story, he is usually referred to with a pronoun. Some languages have special pronouns that refer only to the main character.
- In some languages, marking on the verb helps people know who the subject is. (See Verbs.) In some of these languages, listeners rely on this marking to help them understand who the subject is. Speakers will use a pronoun, noun phrase, or proper name only when they want either to emphasize or to clarify who the subject is.

Reasons This Is a Translation Issue

- If translators use a pronoun at the wrong time for their language, readers might not know about whom the writer is talking.
- If translators too frequently refer to a main character by name, listeners of some languages might not realize that the person is a main character, or they might think that there is a new character with the same name.
- If translators use pronouns, nouns, or names at the wrong time, people might think that there is some special emphasis on the person or thing to which it refers.

Examples From the Bible

The example below occurs at the beginning of a chapter. In some languages it might not be clear to whom the pronouns refer.

Then Jesus entered into the synagogue again, and there was a man who had a withered hand. Some people watched **him** closely to see if **he** would heal **him** on the Sabbath so that they might accuse **him**. (Mark 3:1-2 ULT)

In the example below, two men are named in the first sentence. It might not be clear whom “he” in the second sentence refers to.

Now after some days had passed, **King Agrippa** and Bernice came down to Caesarea to pay their respects to **Festus**. After **he** had been there for many days, Festus presented to the king the things concerning Paul. (Acts 25:13-14)

Jesus is the main character of the book of Matthew, but in the verses below he is referred to four times by name. This may lead speakers of some languages to think that Jesus is not the main character. Or it might lead them to think that there is more than one person named Jesus in this story. Or it might lead them to think that there is some kind of emphasis on him, even though there is no emphasis.

At that time **Jesus** went on the Sabbath day through the grainfields. **His** disciples were hungry and began to pluck heads of grain and eat them. But when the Pharisees saw that, they said to **Jesus**, “See, your disciples do what is unlawful to do on the Sabbath.” But **Jesus** said to them, “Have you never read what David did, when he was hungry, and the men who were with him?” Then **Jesus** left from there and went into their synagogue. (Matthew 12:1-3,9 ULT)

Translation Strategies

- (1) If it would not be clear to your readers to whom or to what a pronoun refers, use a name or a noun.
- (2) If repeating a noun or name would lead people to think that a main character is not a main character, or that the writer is talking about more than one person with that name, or that there is some kind of emphasis on someone when there is no emphasis, use a pronoun instead.

Examples of Translation Strategies Applied

- (1) If it would not be clear to your readers to whom or to what a pronoun refers, use a name or a noun.

This may be translated as:

Quotations and Quote Margins

Description

This page answers the question: *What are quote margins and where should I put them?*

When saying that someone said something, we often tell who spoke, whom they spoke to, and what they said. The information about who spoke and whom they spoke to is called the quote margin. What the person said is the quotation. (This is also called a quote.) In some languages the quote margin may come first, last, or even in between two parts of the quotation.

The quote margins are bolded below.

- **She said**, “The food is ready. Come and eat.”
- “The food is ready. Come and eat,” **she said**.
- “The food is ready,” **she said**. “Come and eat.”

Also in some languages, the quote margin may have more than one verb meaning “said.”

But his mother **answered** and **said**, “No. Rather, he will be called John.” (Luke 1:60 ULT)

When writing that someone said something, some languages put the quote (what was said) in quotation marks called inverted commas (“ ”). Some languages use other symbols around the quotation, such as these angle quote marks (« »), or something else.

Reasons This Is a Translation Issue

- Translators need to put the quote margin where it is most clear and natural in their language.
- Translators need to decide whether they want the quote margin to have one or two verbs meaning “said.”
- Translators need to decide which marks to use around the quotation.

Examples From the Bible

Quote margin before the quote

Then Zechariah said to the angel, “How will I know this? For I am an old man and my wife is advanced in her days.” (Luke 1:18 ULT)

Then tax collectors also came to be baptized, and **they said to him**, “Teacher, what should we do?” (Luke 3:12 ULT)

So **he said to them**, “Collect nothing more than what you have been ordered.” (Luke 3:13 ULT)

Quote margin after the quote

Yahweh relented concerning this. “It will not happen,” **he said**. (Amos 7:3 ULT)

Quote margin between two parts of the quote

“I will hide my face from them,” **he said**, “and I will see what their end will be; for they are a perverse generation, children who are unfaithful.” (Deuteronomy 32:20 ULT)

For look, days are coming—**this is Yahweh’s declaration**—when I will restore the fortunes of my people, Israel and Judah. (Jeremiah 30:3a ULT)

Translation Strategies

- (1) Decide where to put the quote margin.
- (2) Decide whether to use one or two words meaning “said.”

Examples of Translation Strategies Applied

- (1) Decide where to put the quote margin.

He said, “Therefore, those among you who are leaders should go down with us. If there is something wrong with the man, let them accuse him.” (Acts 25:5 ULT)

Quote Markings

Description

Some languages use quotation marks to mark off direct quotes from the rest of the text. English uses the mark " immediately before a quote and " immediately after it.

- John said, "I do not know when I will arrive."

Quotation marks are not used with indirect quotes.

- John said that he did not know when he would arrive.

When there are several layers of quotations inside of other quotations, it might be hard for readers to understand who is saying what. Alternating two kinds of quotation marks can help careful readers to keep track of them. In English, the outermost quotation has double quote marks, and the next quotation within it has single marks. If there is a third embedded quote, that quotation again has double quotation marks.

- Mary said, "John said, 'I do not know when I will arrive.'"
- Bob said, "Mary told me, 'John said, "I do not know when I will arrive.''"

Some languages use other kinds of quotation marks: Here are some examples: ‘ ’ „ ” ‹ › ‹‹ ›› 7 — .

Examples From the Bible

The examples below show the kind of quotation markings used in the ULT.

A quotation with only one layer

A first layer direct quote has double quotation marks around it.

So the king replied, "That is Elijah the Tishbite." (2 Kings 1:8b ULT)

Quotations with two layers

A second layer direct quote has single quotation marks around it. We have printed it and the phrase in bold type for you to see them clearly.

They asked him, "Who is the man who said to you, '**Pick it up and walk?**'" (John 5:12 ULT)

He sent two of the disciples, saying, "Go into the village ahead of you. As you enter, you will find a colt that has never been ridden. Untie it and bring it to me. If any one asks you, '**Why are you untying it?**'" you will say thus, '**The Lord has need of it.**'" (Luke 19:29b-31 ULT)

A quotation with three layers

A third layer direct quote has double quotation marks around it. We have printed it in bold type for you to see them clearly.

Abraham said, "Because I thought, 'Surely there is no fear of God in this place, and they will kill me because of my wife.' Besides, she is indeed my sister, the daughter of my father, but not the daughter of my mother; and she became my wife. When God caused me to leave my father's

A quotation with four layers

A fourth layer direct quote has single quotation marks around it. We have printed it in bold for you to see it clearly.

They said to him, "A man came to meet us who said to us, 'Go back to the king who sent you, and say to him, "Yahweh says this: '**Is it because there is no God in Israel that you sent men to consult with Baal Zebub, the god of Ekron? Therefore you will not come down from the bed to which you have gone up; instead, you will certainly die.**' " " " (2 Kings 1:6 ULT)

Quote Marking Strategies

Here are some ways you may be able to help readers see where each quote starts and ends so they can more easily know who said what.

- (1) Alternate two kinds of quote marks to show layers of direct quotation. English alternates double quote marks and single quote marks.
- (2) Translate one or some of the quotes as indirect quotes in order to use fewer quote marks, since indirect quotes do not need them. (See [Direct and Indirect Quotations](#).)
- (3) If a quotation is very long and has many layers of quotation in it, indent the main overall quote, and use quote marks only for the direct quotes inside of it.

Examples of Quote Marking Strategies Applied

- (1) Alternate two kinds of quotation marks to show layers of direct quotation as shown in the ULT text below.

They said to him, "A man came to meet us who said to us, 'Go back to the king who sent you, and say to him, "Yahweh says this: 'Is it because there is no God in Israel that you sent men to consult with Baal Zebub, the god of Ekron? Therefore you will not come down from the bed to which you have gone up; instead, you will certainly die.'" " (2 Kings 1:6 ULT)

- (2) Translate one or more of the quotes as indirect quotes in order to use fewer quotation marks, since indirect quotes do not need them. In English, the word "that" can introduce an indirect quote. In the example below, everything after the word "that" is an indirect quote of what the messengers said to the king. Within that indirect quote, there are some direct quotes marked with double and single quotation marks.

They said to him, "A man came to meet us who said to us, 'Go back to the king who sent you, and say to him, "Yahweh says this: 'Is it because there is no God in Israel that you sent men to consult with Baal Zebub, the god of Ekron? Therefore you will not come down from the bed to which you have gone up; instead, you will certainly die.'" " (2 Kings 1:6 ULT)

They told him **that** a man came to meet them who said to them, "Go back to the king who sent you, and say to him, 'Yahweh says this: "Is it because there is no God in Israel that you sent men to consult with Baal Zebub, the god of Ekron? Therefore you will not come down from the bed to which you have gone up; instead, you will certainly die.'" "

- (3) If a quotation is very long and has many layers of quotation in it, indent the main overall quote, and use quote marks only for the direct quotes inside of it.

They said to him, "A man came to meet us who said to us, 'Go back to the king who sent you, and say to him, 'Yahweh says this: 'Is it because there is no God in Israel that you sent men to consult with Baal Zebub, the god of Ekron? Therefore you will not come down from the bed to which you have gone up; instead, you will certainly die.'"" (2 Kings 1:6 ULT)

They said to him,

A man came to meet us who said to us, "Go back to the king who sent you, and say to him, 'Yahweh says this: "Is it because there is no God in Israel that you sent men to consult with Baal Zebub, the god of Ekron? Reflexive Pronouns

Description

All languages have ways of showing that the same person fills two different roles in a sentence. English does this by using reflexive pronouns. These are pronouns that refer to someone or something that has already been mentioned in a sentence. In English the reflexive pronouns are: “myself,” “yourself,” “himself,” “herself,” “itself,” “ourselves,” “yourselves,” and “themselves.” Other languages may have other ways to show this.

This page answers the question: *What are reflexive pronouns?*

In order to understand this topic, it would be good to read:

[\[\[rc://en/ta/man/translate/figs-pronouns\]\]](#)

[\[\[rc://en/ta/man/translate/figs-sentences\]\]](#)

Reason This Is a Translation Issue

- Languages have different ways of showing that the same person fills two different roles in a sentence. For those languages, translators will need to know how to translate the English reflexive pronouns.
- The reflexive pronouns in English also have other functions.

Uses of Reflexive Pronouns

- To show that the same person or things fills two different roles in a sentence
- To emphasize a person or thing in the sentence
- To show that someone did something alone
- To show that someone or something was alone

Examples From the Bible

Reflexive pronouns are used to show the same person or thing fills two different roles in a sentence.

If **I** should testify about **myself**, my testimony would not be true. (John 5:31 ULT)

Now the Passover of the Jews was near, and **many** went up to Jerusalem from the country before the Passover in order to purify **themselves**. (John 11:55 ULT)

Reflexive pronouns are used to emphasize a person or thing in the sentence.

Jesus himself was not baptizing, but his disciples were. (John 4:2 ULT)

So they left the crowd, taking Jesus with them, just as he was, in the boat. There also were other boats with him. Then a violent windstorm arose and the waves were breaking into the boat so that the boat was already full of water. But **Jesus himself** was in the stern, asleep on the cushion. (Mark 4:36-38a ULT)

Reflexive pronouns are used to show that someone did something alone.

When Jesus realized that they were about to come and seize him by force to make him king, he withdrew again up the mountain **by himself**. (John 6:15 ULT)

Reflexive pronouns are used to show that someone or something was alone.

He saw the linen cloths lying there and the cloth that had been on his head. **It** was not lying with the linen cloths but was folded up in a place **by itself**. (John 20:6b-7 ULT)

Translation Strategies

If a reflexive pronoun would have the same function in your language, consider using it. If not, here are some other strategies.

- (1) In some languages people put something on the verb to show that the object of the verb is the same as the subject.
- (2) In some languages people emphasize a certain person or thing by referring to it in a special place in the sentence.
- (3) In some languages people emphasize a certain person or thing by adding something to that word or putting another word with it.
- (4) In some languages people show that someone did something alone by using a word like “alone.”
- (5) In some languages people show that something was alone by using a phrase that tells about where it was.

Examples of Translation Strategies Applied

- (1) In some languages people modify the verb to show that the object of the verb is the same as the subject.

If I should testify about **myself** alone, my testimony would not be true. (John 5:31)

“If I should **self-testify** alone, my testimony would not be true.”

Now the Passover of the Jews was near, and many went up to Jerusalem from the country before the Passover in order to **purify themselves**. (John 11:55)

“Now the Passover of the Jews was near, and many went up to Jerusalem out from country before the Passover in order to **self-purify**.”

- (2) In some languages people emphasize a certain person or thing by referring to it in a special place in the sentence.

He himself took our sickness and bore our diseases. (Matthew 8:17 ULT)

“**It was he who** took our sickness and bore our diseases.”

Jesus himself was not baptizing, but his disciples were. (John 4:2)

“**It was not Jesus who** was baptizing, but his disciples were.”

- (3) In some languages people emphasize a certain person or thing by adding something to that word or putting another word with it. English adds the reflexive pronoun.

But Jesus said this to test Philip, for he **himself** knew what he was going to do. (John 6:6)

- (4) In some languages people show that someone did something alone by using a word like “alone.”

When Jesus realized that they were about to come and seize him by force to make him king, he withdrew again up the mountain **by himself**. (John 6:15)

“When Jesus realized that they were about to come and seize him by force to make him king, he withdrew again **alone** up the mountain.”

- (5) In some languages people show that something was alone by using a phrase that tells about where it was.

He saw the linen cloths lying there and the cloth that had been on his head. It was not lying with the linen cloths but was folded up in a place **by itself**. (John 20:6b-7 ULT)

“He saw the linen cloths lying there and the cloth that had been on his head. It was not lying with the linen cloths but was folded up and lying **in its own place.**”

Rhetorical Question

A rhetorical question is a question that a speaker asks when he is more interested in expressing his attitude about something than in getting information about it. Speakers use rhetorical questions to express deep emotion or to encourage hearers to think deeply about something. The Bible contains many rhetorical questions, often to express surprise, to rebuke or scold the hearer, or to teach. Speakers of some languages use rhetorical questions for other purposes as well.

This page answers the question: *What are rhetorical questions and how can I translate them?*

In order to understand this topic, it would be good to read:

[\[\[rc://en/ta/man/translate/figs-intro\]\]](#)

[\[\[rc://en/ta/man/translate/figs-sentencetypes\]\]](#)

Description

A rhetorical question is a question that strongly expresses the speaker's attitude toward something. Often the speaker is not looking for information at all. Or, if he is asking for information, it is not usually the information that the question appears to ask for. The speaker is more interested in expressing his attitude than in getting information.

But those who stood by said, **“Are you insulting the high priest of God?”**(Acts 23:4 ULT)

The people who asked Paul this question were not asking if he was insulting God's high priest. Rather, they used this question to accuse Paul of insulting the high priest.

The Bible contains many rhetorical questions. These rhetorical questions might be used for the purposes: of expressing attitudes or feelings, rebuking people, teaching something by reminding people of something they know and encouraging them to apply it to something new, or introducing something they want to talk about.

Reasons This Is a Translation Issue

- Some languages do not use rhetorical questions; for them a question is always a request for information.
- Some languages use rhetorical questions, but for purposes that are different or more limited than in the Bible.
- Because of these differences between languages, some readers might misunderstand the purpose of a rhetorical question in the Bible.

Examples From the Bible

Do you not still rule the kingdom of Israel? (1 Kings 21:7b ULT)

Jezebel used the question above to remind King Ahab of something he already knew: he still ruled the kingdom of Israel. The rhetorical question made her point more strongly than if she had merely stated it, because it forced Ahab to admit the point himself. She did this in order to rebuke him for being unwilling to take over a poor man's property. She was implying that, since he was the king of Israel, he had the power to take the man's property.

Will a virgin forget her jewelry, a bride her veils? Yet my people have forgotten me for days without number! (Jeremiah 2:32 ULT)

God used the question above to remind his people of something they already knew: a young woman would never forget her jewelry or a bride forget her veils. He then rebuked his people for forgetting him who is so much greater than those things.

Why did I not die when I came out from the womb? (Job 3:11a ULT)

Job used the question above to show deep emotion. This rhetorical question expresses how sad he was that he did not die as soon as he was born. He wished that he had not lived.

And how has this happened to me that the mother of my Lord would come to me? (Luke 1:43 ULT)

Elizabeth used the question above to show how surprised and happy she was that the mother of her Lord came to her.

Or what man is there among you, of whom his son will ask for a loaf of bread, but he will give him a stone? (Matthew 7:9 ULT)

Jesus used the question above to remind the people of something they already knew: a good father would never give his son something bad to eat. By introducing this point, Jesus could go on to teach them about God with his next rhetorical question:

Therefore, if you who are evil know how to give good gifts to your children, how much more will your Father who is in heaven give good things to those who ask him? (Matthew 7:11 ULT)

Jesus used this question to teach the people in an emphatic way that God gives good things to those who ask him.

What is the kingdom of God like, and what can I compare it to? It is like a mustard seed that a man took and threw into his garden ... (Luke 13:18b-19a ULT)

Jesus used the question above to introduce what he was going to talk about. He was about to compare the kingdom of God to something. In this case, he compared the kingdom of God to a mustard seed.

Translation Strategies

In order to translate a rhetorical question accurately, first be sure that the question you are translating truly is a rhetorical question and is not an information question. Ask yourself, "Does the person asking the question already know the answer to the question?" If so, it is a rhetorical question. Or, if no one answers the question, did the person who asked it expect to receive an answer? If not, it is a rhetorical question.

When you are sure that the question is rhetorical, then be sure that you understand the purpose for the rhetorical question. Is it to encourage or rebuke or shame the hearer? Is it to bring up a new topic? Is it to do something else?

When you know the purpose of the rhetorical question, then think of the most natural way to express that purpose in the target language. It might be as a question, or a statement, or an exclamation.

If using the rhetorical question would be natural and give the right meaning in your language, consider doing so. If not, here are other options:

- (1) Add the answer after the question.
- (2) Change the rhetorical question to a statement or exclamation.
- (3) Change the rhetorical question to a statement, and then follow it with a short question.
- (4) Change the form of the question so that it communicates in your language what the original speaker communicated in his.

Examples of Translation Strategies Applied

- (1) Add the answer after the question.

Will a virgin forget her jewelry, a bride her veils? Yet my people have forgotten me for days without number! (Jeremiah 2:32 ULT)

Will a virgin forget her jewelry, a bride her veils? **Of course not!** Yet my people have forgotten me for days without number!

Or what man is there among you, of whom his son will ask for a loaf of bread, but he will give him a stone? (Matthew 7:9 ULT)

Or what man is there among you, of whom his son will ask for a loaf of bread, but he will give him a stone? **None of you would do that!**

(2) Change the rhetorical question to a statement or exclamation.

What is the kingdom of God like, and what can I compare it to? It is like a mustard seed. (Luke 13:18-19a ULT)

This is what the kingdom of God is like. It is like a mustard seed ...

Are you insulting the high priest of God? (Acts 23:4b ULT) (Acts 23:4 ULT)

You should not insult God's high priest!

Why did I not die when I came out from the womb? (Job 3:11a ULT)

I wish I had died when I came out from the womb!

And how has this happened to me that the mother of my Lord should come to me? (Luke 1:43 ULT)

How wonderful it is that the mother of my Lord has come to me!

(3) Change the rhetorical question to a statement, and then follow it with a short question.

Do you not still rule the kingdom of Israel? (1 Kings 21:7b ULT)

You still rule the kingdom of Israel, **do you not?**

(4) Change the form of the question so that it communicates in your language what the original speaker communicated in his.

Or what man is there among you, of whom his son will ask for a loaf of bread, but he will give him a stone? (Matthew 7:9 ULT)

If your son asks you for a loaf of bread, **would you give him a stone?**

Will a virgin forget her jewelry, a bride her veils? Yet my people have forgotten me for days without number! (Jeremiah 2:32 ULT)

What virgin would forget her jewelry, and what bride would forget her veils? Yet my people have forgotten me for days without number

Simile

Description

A simile is a comparison of two things that are not normally thought to be similar. The simile focuses on a particular trait the two items have in common, and it includes the words “like,” “as,” or “than.”

This page answers the question: *What is a simile?*

In order to understand this topic, it would be good to read:

[[rc://en/ta/man/translate/figs-intro]]

When he saw the crowds, he had compassion for them, because they were troubled and discouraged, **like sheep not having a shepherd**. (Matthew 9:36)

Jesus compared the crowds of people to sheep without a shepherd. Sheep grow frightened when they do not have a good shepherd to lead them in safe places. The crowds were like that because they did not have good religious leaders.

See, I send you out **as sheep in the midst of wolves**, so be as wise **as the serpents** and harmless **as the doves**. (Matthew 10:16 ULT)

Jesus compared his disciples to sheep and their enemies to wolves. Wolves attack sheep; Jesus' enemies would attack his disciples.

For the word of God is living and active and sharper **than any two-edged sword**. (Hebrews 4:12a ULT)

God's word is compared to a two-edged sword. A two-edged sword is a weapon that can easily cut through a person's flesh. God's word is very effective in showing what is in a person's heart and thoughts.

Purposes of Simile

- A simile can teach about something that is unknown by showing how it is similar to something that is known.
- A simile can emphasize a particular trait, sometimes in a way that gets people's attention.
- Similes help form a picture in the mind or help the reader experience what he is reading about more fully.

Reasons This Is a Translation Issue

- People may not know how the two items are similar.
- People may not be familiar with both of the items being compared.

Examples From the Bible

Suffer hardship with me, **as a good soldier** of Christ Jesus. (2 Timothy 2:3 ULT)

In this simile, Paul compares suffering with what soldiers endure, and he encourages Timothy to follow their example.

Just as the lightning flashing from a place under the sky shines to another place under the sky, so will the Son of Man be. (Luke 17:24b ULT)

This verse does not tell how the Son of Man will be like the lightning. But in context we can understand from the verses before it that just as lighting flashes suddenly and everyone can see it, the Son of Man will come suddenly and everyone will be able to see him. No one will have to be told about it.

Translation Strategies

If people would understand the correct meaning of a simile, consider using it. If they would not, here are some strategies you can use:

- (1) If people do not know how the two items are alike, tell how they are alike. However, do not do this if the meaning was not clear to the original audience.
- (2) If people are not familiar with the item that something is compared to, use an item from your own culture. Be sure that it is one that could have been used in the cultures of the Bible. If you use this strategy, you may want to put the original item in a footnote.
- (3) Simply describe the item without comparing it to another.

Examples of Translation Strategies Applied

- (1) If people do not know how the two items are alike, tell how they are alike. However, do not do this if the meaning was not clear to the original audience.

See, I send you out **as sheep in the midst of wolves**. (Matthew 10:16a ULT) — This compares the danger that Jesus' disciples would be in with the danger that sheep are in when they are surrounded by wolves.

See, I send **you out among wicked people** and you will be in danger from them **as sheep are in danger when they are among wolves**.

For the word of God is living and active and sharper **than any two-edged sword**. (Hebrews 4:12a ULT)

For the word of God is living and active and **more powerful than a very sharp two-edged sword**.

- (2) If people are not familiar with the item that something is compared to, use an item from your own culture. Be sure that it is one that could have been used in the cultures of the Bible. If you use this strategy, you may want to put the original item in a footnote.

See, I send you out **as sheep in the midst of wolves**, (Matthew 10:16a ULT) — If people do not know what sheep and wolves are, or that wolves kill and eat sheep, you could use some other animal that kills another.

See, I send you out **as chickens in the midst of wild dogs**.

How often did I long to gather your children together, just **as a hen gathers her chickens under her wings**, but you were not willing! (Matthew 23:37b ULT)

How often I wanted to gather your children together, **as a mother closely watches over her infants**, but you refused!

If you have faith **as a grain of mustard** ... (Matthew 17:20)

If you have faith even as small **as a tiny seed**,

- (3) Simply describe the item without comparing it to another.

See, I send you out **as sheep in the midst of wolves**. (Matthew 10:16a ULT)

See, I send you out among **people who will want to harm you**.

How often did I long to gather your children together, just **as a hen gathers her chickens under her wings**, but you were not willing! (Matthew 23:37b ULT)

How often I wanted to **protect you**, but you refused!

Singular Pronouns that refer to Groups

Description

The Bible was written in Hebrew, Aramaic and Greek. These languages have a singular form of “you” for when the word “you” refers to just one person, and a plural form for when the word “you” refers to more than one person. However, sometimes speakers in the Bible used the singular form of “you” even though they were speaking to a group of people. This is not obvious when you read the Bible in English because English does not have different forms that indicate where “you” is singular and where “you” is plural. But you may see this if you read a Bible in a language that does have distinct forms.

This page answers the question: *How do I translate singular pronouns that refer to groups of people?*

In order to understand this topic, it would be good to read:

[Forms of You](#)

[\[\[rc://en/ta/man/translate/figs-yousingular\]\]](#)

[\[\[rc://en/ta/man/translate/figs-pronouns\]\]](#)

Also, speakers and writers of the Old Testament often referred to groups of people with the singular pronoun “he,” rather than with the plural pronoun “they.”

Finally, Old Testament speakers and writers sometimes referred to actions that they performed as part of a group by saying ‘I’ did it when, really, the whole group was involved.

Reason This Is a Translation Issue

- For many languages, a translator who reads a Bible with a general form of “you” will need to know whether the speaker was speaking to one person or to more than one.
- In some languages, it might be confusing if a speaker uses a singular pronoun when speaking to or about more than one person.

Examples From the Bible

1 Now take heed that **you** do not do **your** acts of righteousness before people to be seen by them, otherwise **you** will not have a reward with **your** Father who is in heaven. 2 So when **you** give alms, do not sound a trumpet before **yourself** as the hypocrites do in the synagogues and in the streets, so that they may have the praise of people. Truly I say to **you**, they have received their reward. (Matthew 6:1-2 ULT)

Jesus said this to a crowd. He used “you” plural in verse 1, and “you” singular in the first sentence of verse 2. Then, in the last sentence, he used the plural again.

God spoke all these words: “I am Yahweh, **your** God, who brought **you** out of the land of Egypt, out of the house of slavery. **You** must have no other gods before me.” (Exodus 20:1-3 ULT)

God said this to all the people of Israel. He had taken them all out of Egypt and he wanted them all to obey him, but he used the singular form of you here when speaking to them.

This is what Yahweh says,
 “For three sins of Edom,
 even for four,
 I will not turn away punishment,
 because **he** pursued **his** brother with the sword
 and cast off all pity.
His anger raged continually,
 and **his** wrath lasted forever.” (Amos 1:11 ULT)

Yahweh said these things about the nation of Edom, not about only one person.

And I arose in the night, myself and a few men with me. And I was going up by the wadi at night, and I was looking intently at the wall. And I turned back, and I entered by the gate of the valley, and I returned. (Nehemiah 2:12a,15 ULT)

Nehemiah makes clear that he brought other people with him on his inspection tour of the wall of Jerusalem. But as he describes the tour, he just says “I” did this and that.

Translation Strategies

If the singular form of the pronoun would be natural when referring to a group of people, consider using it.

(1) If using the singular form of the pronoun when referring to a group of people would not be natural in your language, use the plural form of the pronoun.

- Whether you can use the singular form of the pronoun may depend on who the speaker is and who the people are that he is talking about or talking to.
- It may also depend on what the speaker is saying.

Translation Strategies Applied

(1) If using the singular form of the pronoun when referring to a group of people would not be natural in your language, use the plural form of the pronoun.

This is what Yahweh says,
 “For three sins of Edom,

Statements — Other Uses

Description

Normally statements are used to give information. Sometimes they are used in the Bible for other functions.

This page answers the question: *What other uses are there for statements?*

In order to understand this topic, it would be good to read:

[[rc://en/ta/man/translate/figs-sentencetypes]]

Reason This Is a Translation Issue

Some languages would not use a statement for some of the functions that statements are used for in the Bible.

Examples From the Bible

Statements are normally used to give **information**. All of the sentences in John 1:6-8 below are statements, and their function is to give information.

There was a man who was sent from God, whose name was John. He came as a witness in order to testify about the light, that all might believe through him. John was not the light, but came that he might testify about the light. (John 1:6-8 ULT)

A statement can also be used as a **command** to tell someone what to do. In the examples below, the high priest used statements with the verb “will” to tell people what to do.

He commanded them, saying, “This is what you **must** do. A third of you who come on the Sabbath **will** keep watch over the king’s house, and a third **will** be at the Sur Gate, and a third at the gate behind the guardhouse.” (2 Kings 11:5 ULT)

A statement can also be used to give **instructions**. The speaker below was not just telling Joseph about something Joseph would do in the future; he was telling Joseph what he needed to do.

She will give birth to a son, and **you will call his name Jesus**, for he will save his people from their sins. (Matthew 1:21 ULT)

A statement can also be used to make a **request**. The man with leprosy was not just saying what Jesus was able to do. He was also asking Jesus to heal him.

Behold, a leper came to him and bowed before him, saying, “Lord, if you are willing, **you can make me clean.**” (Matthew 8:2 ULT)

A statement can also be used to **perform** something. By telling Adam that the ground was cursed because of him, God actually cursed it.

... **cursed is the ground** because of you; (Genesis 3:17b ULT)

By telling a man that his sins were forgiven, **Jesus forgave** the man’s sins.

When Jesus saw their faith, he said to the paralyzed man, “**Son, your sins are forgiven.**” (Mark 2:5 ULT)

Translation Strategies

(1) If the function of a statement would not be understood correctly in your language, **use a sentence type** that would express that function.

(2) If the function of a statement would not be understood correctly in your language, **add a sentence type** that would express that function.

(3) If the function of a statement would not be understood correctly in your language, **use a verb form** that would express that function.

Examples of Translation Strategies Applied

(1) If the function of a statement would not be understood correctly in your language, use a sentence type that would express that function.

She will give birth to a son, and **you will call his name Jesus**, for he will save his people from their sins. (Matthew 1:21 ULT)

The phrase “you will call his name Jesus” is an instruction. It can be translated using the sentence type of a normal instruction.

She will give birth to a son. **Name him Jesus**, because he will save his people from their sins.

(2) If the function of a statement would not be understood correctly in your language, add a sentence type that would express that function.

Lord, **please heal me**, because I know you are able to heal me if you are willing to. (Matthew 8:2 ULT)

The function of “I know you can” is to make a request. In addition to the statement, a request can be added.

Lord, **I know you can heal me**. If you are willing, please do so.

Lord, if you are willing, please heal me. **I know you can do so**.

(3) If the function of a statement would not be understood correctly in your language, use a verb form that would express that function.

She will give birth to a son, and **you will call his name Jesus**, for he will save his people from their sins. (Matthew 1:21 ULT)

She will give birth to a son, and **you must call his name Jesus**, for he will save his people from their sins.

Son, your sins are forgiven. (Mark 2:5 ULT)

Son, I forgive your sins.

Son, God has forgiven your sins.

Symbolic Action

Description

A symbolic action is something that someone does in order to express a certain idea. For example, in some cultures people nod their heads up and down to mean “yes” or turn their heads from side to side to mean “no.” Symbolic actions do not mean the same things in all cultures. In the Bible, sometimes people perform symbolic actions and sometimes they only refer to the symbolic action.

This page answers the question: *What is a symbolic action and how do I translate it?*

In order to understand this topic, it would be good to read:

[[rc://en/ta/man/translate/translate-unknown]]

Examples of symbolic actions

- In some cultures people shake hands when they meet to show that they are willing to be friendly.
- In some cultures people bow when they meet to show respect to each other.

Reason This Is a Translation Issue

An action may have a meaning in one culture and a different meaning or no meaning at all in another culture. For example, in some cultures raising the eyebrows means “I am surprised” or “What did you say?” In other cultures it means “yes.”

In the Bible, people did things that had certain meanings in their culture. When we read the Bible, we might not understand what someone meant if we interpret the action based on what it means in our own culture today.

You (the translator) need to understand what people in the Bible meant when they used symbolic actions. If an action does not mean the same thing in your own culture, then you need to figure out how to translate what the action meant.

Examples From the Bible

And behold, a man came whose name was Jairus, and he was a ruler of the synagogue. And **falling at the feet of Jesus**, he begged him to come to his house. (Luke 8:41 ULT)

Meaning of symbolic action: He did this to show great respect to Jesus.

Look, I am standing at the door and am knocking. If anyone hears my voice and opens the door, I will come into him and will eat with him, and he with me. (Revelation 3:20 ULT)

Meaning of symbolic action: When people wanted someone to welcome them into their home, they stood at the door and knocked on it.

Translation Strategies

If people would correctly understand what a symbolic action meant to the people in the Bible, consider using it. If not, here are some strategies for translating it.

- (1) Tell what the person did and why he did it.
- (2) Do not tell what the person did, but tell what he meant.

(3) Use an action from your own culture that has the same meaning. Do this only in poetry, parables, and sermons. Do not do this when there actually was a person who did a specific action.

Examples of Translation Strategies Applied

(1) Tell what the person did and why he did it.

And **falling at the feet of Jesus** (Luke 8:41 ULT)

Jairus fell down at Jesus' feet in order to show that he greatly respected him.

Look, I am **standing at the door and am knocking**. (Revelation 3:20 ULT)

Look, I stand at the door and knock on it, asking you to let me in.

(2) Do not tell what the person did, but tell what he meant.

And **falling at the feet of Jesus** (Luke 8:41 ULT)

Jairus showed Jesus great respect.

Look, I am **standing at the door and am knocking**. (Revelation 3:20 ULT)

Look, I stand at the door and ask you to let me in.

(3) Use an action from your own culture that has the same meaning.

And **falling at the feet of Jesus** (Luke 8:41 ULT) — Since Jairus actually did this, you should not substitute an action from your own culture.

Look, I am **standing at the door and am knocking**. (Revelation 3:20 ULT) — Jesus was not standing at a real door. Rather he was speaking about wanting to have a relationship with people. So in cultures where it is polite to clear one's throat when wanting to be let into a house, you could use that.

Look, I stand at the door and clear my throat.

Synecdoche

Description

Synecdoche is a figure of speech in which a speaker uses a part of something to refer to the whole thing, or uses the whole to refer to a part.

■ **My soul** magnifies the Lord. (Luke 1:46b ULT)

Mary was very happy about what the Lord was doing, so she said “my soul,” which means the inner, emotional part of herself, to refer to her whole self.

■ So **the Pharisees** said to him, “Look, why are they doing that which is not lawful?” (Mark 2:24a ULT)

The Pharisees who were standing there did not all say the same words at the same time. Instead, it is more likely that one man representing the group said those words.

Reasons This Is a Translation Issue

- Some readers may not recognize the synecdoche and thus misunderstand the words as a literal statement.
- Some readers may realize that they are not to understand the words literally, but they may not know what the meaning is.

Example From the Bible

■ Then I looked on all the deeds that **my hands** had accomplished. (Ecclesiastes 2:11a ULT)

“My hands” is a synecdoche for the whole person because clearly the arms and the rest of the body and the mind were also involved in the person’s accomplishments. The hands are chosen to represent the person because they are the parts of the body most directly involved in the work.

Translation Strategies

If the synecdoche would be natural and give the right meaning in your language, consider using it. If not, here is another option:

(1) State specifically what the synecdoche refers to.

Examples of Translation Strategies Applied

Textual Variants

Description

Thousands of years ago, people wrote the books of the Bible. Other people then copied them by hand and translated them. They did this work very carefully, and over the years many people made thousands of copies. However, people who looked at them later saw that there were small differences between them. Some copiers accidentally left out some words, or some mistook one word for another that looked like it. Occasionally, they added words or even whole sentences, either by accident or because they wanted to explain something. Modern Bibles are translations of the old copies. Some modern Bibles include some of these sentences that were added. In the ULT, these added sentences are usually written in footnotes.

Bible scholars have read many old copies and compared them with each other. For each place in the Bible where there was a difference, they have figured out which wordings are most likely correct. The translators of the ULT based the ULT on wordings that scholars say are most likely correct. Because people who use the ULT may have access to Bibles that are based on other copies, the ULT translators have sometimes included information about some of the differences between them, either in the ULT footnotes or in the unfoldingWord® Translation Notes.

Translators are encouraged to translate the text in the ULT and to write about added sentences in footnotes, as is done in the ULT. However, if the local church really wants those sentences to be included in the main text, translators may put them in the text and include a footnote about them.

This page answers the question: *Why does the ULT have missing or added verses, and should I translate them?*

Examples From the Bible

Matthew 18:10-11 ULT has a footnote about verse 11.

¹⁰ See that you do not despise one of these little ones. For I say to you that in heaven their angels always look on the face of my Father who is in heaven. ¹¹ ^[1]

[1] Many authorities, some ancient, insert v. 11: **For the Son of Man came to save that which was lost.**

John 7:53-8:11 is not in the best earliest manuscripts. It has been included in the ULT, but it is marked off with square brackets ([]) at the beginning and end, and there is a footnote after verse 11.

53 [Then everyone went to his own house ... 11 She said, "No one, Lord." Jesus said, "Neither do I condemn you. Go and sin no more."] ^[2]

Examples of Translation Strategies Applied

The translation strategies are applied to Mark 7:14-16 ULT, which has a footnote about verse 16.

Translating Son and Father

Door43 supports Bible translations that represent these concepts when they refer to God.

Biblical Witness

“Father” and “Son” are names that God calls himself in the Bible.

The Bible shows that God called Jesus his Son:

After he was baptized, Jesus came up immediately from the water, and ... a voice came out of the heavens saying, **“This is my beloved Son.** I am very pleased with him.” (Matthew 3:16-17 ULT)

The Bible shows that Jesus called God his Father:

Jesus ... said, “I praise you **Father**, Lord of heaven and earth ... no one knows the **Son** except the **Father**, and no one knows the **Father** except the **Son.**” (Matthew 11:25a, 27b ULT) (See also: John 6:26-57)

Christians have found that “Father” and “Son” are the ideas that most essentially describe the eternal relationship of the First and Second Persons of the Trinity to each other. The Bible indeed refers to them in various ways, but no other terms reflect the eternal love and intimacy between these Persons, nor the interdependent eternal relationship between them.

Jesus referred to God in the following terms:

Baptize them into **the name of the Father, and of the Son, and of the Holy Spirit.** (Matthew 28:19b ULT)

The intimate, loving relationship between the Father and the Son is eternal, just as they are eternal. The Father **loves** the Son. (See John 3:35-36; 5:19-20 ULT)

I love the Father, and just as the Father commanded me, thus I do. (John 14:31 ULT)

No one knows who the Son is except the Father, and who the Father is except the Son. (Luke 10:22b ULT)

The terms “Father” and “Son” also communicate that the Father and the Son are of the same essence; they are both eternal God.

Jesus said, “Father, ... glorify your Son so that the Son will glorify you ... I glorified you on the earth ... Now Father, glorify me ... with the glory that **I had with you before the world was made.**” (John 17:1, 4a, 5 ULT)

But in these last days, {God the Father} has spoken to us through a Son, whom he appointed to be the heir of all things. Through him, he also made the universe. He is the brightness of God’s glory and **the very exact representation of his being.** He holds everything together by the word of his power. (Hebrews 1:2-3a ULT)

Jesus said to him, “I have been with you for so long and you still do not know me, Philip? **Whoever has seen me has seen the Father.** How can you say, ‘Show us the Father?’” (John 14:9 ULT)

Human Relationships

Human fathers and sons are not perfect, but the Bible still uses those terms for the Father and Son, who are perfect.

Just as today, human father-son relationships during Bible times were never as loving or perfect as the relationship between Jesus and his Father. But this does not mean that the translator should avoid the concepts of father and son. The Scriptures use these terms to refer to God, the perfect Father and Son, as well as to sinful human fathers and sons. In referring to God as Father and Son, choose words in your language that are widely used to refer to a human "father" and "son." In this way you will communicate that God the Father and God the Son are of the same divine essence (they are both God), just as a human father and son are of the same human essence (they are both human and share the same human characteristics).

Translation Strategies

(1) Think through all the possibilities within your language to translate the words "son" and "father." Determine which words in your language best represent the divine "Son" and "Father."

(2) If your language has more than one word for "son," use the word that has the closest meaning to "only son" (or "first son" if necessary).

(3) If your language has more than one word for "father," use the word that has the closest meaning to "birth father," rather than "adoptive father."

(See *God the Father and Son of God* pages in [unfoldingWord® Translation Words](#) for help translating "Father" and "Son.")

When Masculine Words Include Women

In the Bible, sometimes the words “men,” “brothers,” and “sons” refer only to men. At other times, those words include both men and women. In those places where the writer meant both men and women, you (the translator) need to translate it in a way that does not limit the meaning to men.

This page answers the question: *How do I translate “brother” or “he” when it could refer to anyone, male or female?*

In order to understand this topic, it would be good to read:

[\[\[rc://en/ta/man/translate/figs-pronouns\]\]](#)

[Generic Noun Phrases](#)

Description

In some languages a word that normally refers to men can also be used in a more general way to refer to both men and women. For example, the Bible sometimes says “brothers” when it refers to both brothers and sisters.

Also in some languages, the masculine pronouns “he” and “him” can be used in a more general way for any person if it is not important whether the person is a man or a woman. In the example below, the pronoun is “his,” but it is not limited to males.

A wise son makes **his** father rejoice
but a foolish son brings grief to **his** mother. (Proverbs 10:1 ULT)

Reason This Is a Translation Issue

- In some cultures words like “man,” “brother,” and “son” can only be used to refer to men. If those words are used in a translation in a more general way, people will think that what is being said does not apply to women.
- In some cultures, the masculine pronouns “he” and “him” can only refer to men. If a masculine pronoun is used, people will think that what is said does not apply to women.

Translation Principles

When a statement applies to both men and women, translate it in such a way that people will be able to understand that it applies to both.

Examples From the Bible

Now we want you to know, **brothers**, the grace of God that has been given to the churches of Macedonia. (2 Corinthians 8:1 ULT)

This verse is addressing the believers in Corinth, not only men, but **men and women**.

Then said Jesus to his disciples, “If anyone wants to follow me, **he** must deny **himself**, take up **his** cross, and follow me.” (Matthew 16:24 ULT)

Jesus was not speaking only of men, but of **men and women**.

Caution: Sometimes masculine words are used specifically to refer to men. Do not use words that would lead people to think that they include women. The words below are specifically about men.

Moses said, ‘If **someone** dies, not having children, **his brother** must marry **his** wife and have children for **his brother**.’ (Matthew 22:24 ULT)

Translation Strategies

If people would understand that that masculine words like “man,” “brother,” and “he” can include women, then consider using them. Otherwise, here are some ways for translating those words when they include women.

- (1) Use a noun that can be used for both men and women.
- (2) Use a word that refers to men and a word that refers to women.
- (3) Use pronouns that can be used for both men and women.

Examples of Translation Strategies Applied

- (1) Use nouns that can be used for both men and women.

The wise **man** dies just like the fool dies. (Ecclesiastes 2:16b ULT)

“The wise **person** dies just like the fool dies.”

“Wise **people** die just like fools die.”

- (2) Use a word that refers to men and a word that refers to women.

For we do not want you to be uninformed, **brothers**, about the troubles that happened to us in Asia. (2 Corinthians 1:8) — Paul was writing this letter to both men and women.

“For we do not want you to be uninformed, **brothers and sisters**, about the troubles that happened to us in Asia.”

- (3) Use pronouns that can be used for both men and women.

“If anyone wants to follow me, he must deny himself, take up his cross, and follow me.”
(Matthew 16:24 ULT)

English speakers can change the masculine singular pronouns, “he,” “himself,” and “his” to plural pronouns that do not mark gender, “they,” “themselves,” and “their” in order to show that it applies to all people, not just men.

>

“If **people** want to follow me, **they** must deny **themselves**, take up **their** cross, and follow me.”

When to Keep Information Implicit

Description

Sometimes it is better not to state assumed knowledge or implicit information explicitly. This page gives some direction about when not to do this.

This page answers the question: *When should I not make implicit information explicit?*

In order to understand this topic, it would be good to read:

[Assumed Knowledge and Implicit Information](#)
[[rc://en/ta/man/translate/figs-explicitinfo]]

Translation Principles

- If a speaker or author intentionally left something unclear, do not try to make it more clear.
- If the original audience did not understand what the speaker meant, do not make it so clear that your readers would find it strange that the original audience did not understand.
- If you need to explicitly state some assumed knowledge or implicit information, try to do it in a way that does not make your readers think that the original audience needed to be told those things.
- Do not make implicit information explicit if it confuses the message or leads the reader to forget what the main point is.
- Do not make assumed knowledge or implicit information explicit if your readers already understand it.

Examples From the Bible

From the eater came forth food;
and from the strong one came forth sweetness. (Judges 14:14 ULT)

This was a riddle. Samson purposely said this in a way that it would be hard for his enemies to know what it meant. Do not make it clear that the eater and the strong thing was a lion and that the sweet thing to eat was honey.

Jesus said to them, "Take heed and beware of the yeast of the Pharisees and Sadducees." They reasoned among themselves saying, "It is because we did not take bread." (Matthew 16:6-7 ULT)

Some possible implicit information here is that the disciples should beware of the false teaching of the Pharisees and Sadducees. But Jesus' disciples did not understand this. They thought that Jesus was talking about real yeast and bread. So it would not be appropriate to state explicitly that the word "yeast" here refers to false teaching. The disciples did not understand what Jesus meant until they heard what Jesus said in Matthew 16:11.

"How is it that you do not understand that I was not speaking to you about bread? Beware of the yeast of the Pharisees and Sadducees." Then they understood that he was not telling them to beware of yeast in bread, but to beware of the teaching of the Pharisees and Sadducees. (Matthew 16:11-12 ULT)

Only after Jesus explained that he was not talking about bread did they realize that he was talking about the false teaching of the Pharisees. Therefore, it would be wrong to explicitly state the implicit information in Matthew 16:6.

amen, truly

Definition:

The term "amen" is a word used to emphasize or call attention to what a person has said. It is often used at the end of a prayer. Sometimes it is translated as "truly."

- When used at the end of a prayer, "amen" communicates agreement with the prayer or expresses a desire that the prayer be fulfilled.
- In his teaching, Jesus used "amen" to emphasize the truth of what he said. He often followed that by "and I say to you" to introduce another teaching that related to the previous teaching.
- When Jesus uses "amen" this way, some English versions (and the ULT) translate this as "verily" or "truly."
- Another word meaning "truly" is sometimes translated as "surely" or "certainly" and is also used to emphasize what the speaker is saying.

Translation Suggestions:

- Consider whether the target language has a special word or phrase that is used to emphasize something that has been said.

circumcise, circumcised, circumcision, uncircumcised, uncircumcision

Definition:

The term “circumcise” means to cut off the foreskin of a man or male child. A circumcision ceremony may be performed in connection with this.

- God commanded Abraham to circumcise every male among his family and servants as a sign of God’s covenant with them.
- God also commanded Abraham’s descendants to continue to do this for every baby boy born into their households.
- The phrase, “circumcision of the heart” refers figuratively to the “cutting away” or removal of sin from a person.
- In a spiritual sense, “the circumcised” refers to people whom God has purified from sin through the blood of Jesus and who are his people.
- The term “uncircumcised” refers to those who have not been circumcised physically. It can also refer figuratively to those who have not been circumcised spiritually, who do not have a relationship with God.

The terms “uncircumcised” and “uncircumcision” refer to a male who has not been physically circumcised. These terms are also used figuratively.

- Egypt was a nation that also required circumcision. So when God talks about Egypt being defeated by the “uncircumcised,” he is referring to people whom the Egyptians despised for not being circumcised.
- The Bible refers to people who have an “uncircumcised heart” or who are “uncircumcised in heart.” This a figurative way of saying that these people are not God’s people, and are stubbornly disobedient to him.
- If a word for circumcision is used or known in the language, “uncircumcised” could be translated as “not circumcised.”
- The expression “the uncircumcision” could be translated as “people who are not circumcised” or “people who do not belong to God,” depending on the context.
- Other ways to translate figurative senses of this term could include “not God’s people” or “rebellious like those who don’t belong to God” or “people who have no sign of belonging to God.”
- The expression “uncircumcised in heart” could be translated as “stubbornly rebellious” or “refusing to believe.” However, if possible it is best to keep the expression or a similar one since spiritual circumcision is an important concept.

Translation Suggestions:

- If the culture of the target language performs circumcisions on males, the word used to refer to this should be used for this term.
- Other ways to translate this term would be, “cut around” or “cut in a circle” or “cut off the foreskin.”
- In cultures where circumcision is not known, it may be necessary to explain it in a footnote or glossary.
- Make sure the term used to translate this does not refer to females. It may be necessary to translate this with a word or phrase that includes the meaning of “male.”

- Examples of human covenants include marriage covenants, business agreements, and treaties between countries.
- Throughout the Bible, God made several different covenants with his people.
- In some of the covenants, God promised to fulfill his part without conditions. For example, when God established his covenant with mankind promising to never destroy the earth again with a worldwide flood, this promise had no conditions for people to fulfill.

Gentile

Facts:

The term "Gentile" refers to anyone who is not a Jew. Gentiles are people who are not descendants of Jacob.

- In the Bible, the term "uncircumcised" is also used figuratively to refer to Gentiles because many of them did not circumcise their male children as the Israelites did.
- Because God chose the Jews to be his special people, they thought of the Gentiles as outsiders who could never be God's people.
- The Jews were also called "Israelites" or "Hebrews" at different times in history. They referred to anyone else as a "Gentile."
- Gentile could also be translated as "not a Jew" or "non-Jewish" or "not an Israelite" (Old Testament) or "non-Jew."
- Traditionally, Jews would neither eat with nor associate with Gentiles, which at first caused problems within the early church.

God

Definition:

In the Bible, the term “God” refers to the eternal being who created the universe out of nothing. God exists as Father, Son, and Holy Spirit. God’s personal name is “Yahweh.”

- God has always existed; he existed before anything else existed, and he will continue to exist forever.
- He is the only true God and has authority over everything in the universe.
- God is perfectly righteous, infinitely wise, holy, sinless, just, merciful, and loving.
- He is a covenant-keeping God, who always fulfills his promises.
- People were created to worship God and he is the only one they should worship.
- God revealed his name as “Yahweh,” which means “he is” or “I am” or “the One who (always) exists.”
- The Bible also teaches about false “gods,” which are nonliving idols that people wrongly worship.

Translation Suggestions:

- Ways to translate “God” could include “Deity” or “Creator” or “Supreme Being” or “Supreme Creator” or “Infinite Sovereign Lord” or “Eternal Supreme Being.”
- Consider how God is referred to in a local or national language. There may also already be a word for “God” in the language being translated. If so, it is important to make sure that this word fits the characteristics of the one true God as described above.
- Many languages capitalize the first letter of the word for the one true God, to distinguish it from the word for a false god. Another way to make this distinction would be to use different terms for “God” and “god.”
NOTE: In the biblical text, when a person who does not worship Yahweh speaks about Yahweh and uses the word “god,” it is acceptable to render the term without a capital letter in reference to Yahweh (see Jonah 1:6, 3:9).
- The phrase “I will be their God and they will be my people” could also be translated as “I, God, will rule over these people and they will worship me.”

Facts:

The terms "God the Father" and "heavenly Father" refer to Yahweh, the one true God. Another term with the same meaning is "Father," used most often when Jesus was referring to him.

- Anyone who believes in God the Son becomes a child of God the Father, and God the Holy Spirit comes to live in that person. This is another mystery that human beings cannot fully understand.

- People sometimes make objects into idols to worship as symbols of their false gods.

Jacob, Israel

Facts:

Jacob was the younger twin son of Isaac by Rebekah. God changed his name to "Israel." His descendants became the nation of Israel.

- Jacob is the last of the three patriarchs of the Israelite nation: Abraham, Isaac, and Jacob. The descendants of Jacob's twelve sons became the twelve tribes of Israel.
- The name Jacob is similar to the Hebrew word meaning "heel." As Jacob was being born, he was holding onto the heel of his twin brother Esau. In the Old Testament times, the heel was a body part associated both with attack and with the rear part of a person's body. The Hebrew name Jacob was probably associated with the idea of attacking someone from behind.
- Many years later, God changed Jacob's name to "Israel," which probably means "He struggles with God."
- Jacob married Laban's two daughters, Leah and Rachel, as well as each of their servants, Zilpah and Bilhah. These four women mothered the twelve sons who became the ancestral fathers of the twelve tribes of Israel.
- In the New Testament, a different man named Jacob is listed as being Joseph's father in Matthew's genealogy.

Judea, Judah

Facts:

The term "Judea" refers to an area of land in ancient Israel. It is sometimes used in a narrow sense and other times in a broad sense.

- Sometimes "Judea" is used in a narrow sense to refer only to the province located in the southern part of ancient Israel just west of the Dead Sea. Some translations call this province "Judah."
- Other times "Judea" has a broad sense and refers to all the provinces of ancient Israel, including Galilee, Samaria, Perea, Idumea and Judea (Judah).
- If translators want to make the distinction clear, the broad sense of Judea could be translated as "Judea Country" and the narrow sense could be translated as "Judea Province," or "Judah Province" since this is the part of ancient Israel where the tribe of Judah had originally lived.

- The kingdom of God refers to God ruling people spiritually as well as ruling over the physical world.

- The term “kingdom of heaven” could also be translated as “God’s rule from heaven as king” or “God in heaven reigning” or “heaven’s reign” or “heaven ruling over everything.” If it is not possible to translate this simply and clearly, the phrase “kingdom of God” could be translated instead.
- Some translators may prefer to capitalize “Heaven” to show that it refers to God. Others may include a note in the text, such as “kingdom of heaven (that is, ‘kingdom of God).”
- A footnote at the bottom of the page of a printed Bible may also be used to explain the meaning of “heaven” in this expression.

lawful, unlawful, not lawful, lawless, lawlessness

Definition:

The term “lawful” refers to something that is permitted to be done according to a law or other requirement. The opposite of this is “unlawful,” which simply means “not lawful.”

- In the Bible, something was “lawful” if it was permitted by God’s moral law, or by the Law of Moses and other Jewish laws. Something that was “unlawful” was “not permitted” by those laws.
- To do something “lawfully” means to do it “properly” or “in the right way.”
- Many of the things that the Jewish laws considered lawful or not lawful were not in agreement with God’s laws about loving others.
- Depending on the context, ways to translate “lawful” could include “permitted” or “according to God’s law” or “following our laws” or “proper” or “fitting.”
- The phrase “Is it lawful?” could also be translated as “Do our laws allow?” or “Is that something our laws permit?”

The terms “unlawful” and “not lawful” are used to describe actions that break a law.

- In the New Testament, the term “unlawful” is not only used to refer to breaking God’s laws, but also often refers to breaking Jewish man-made laws.
- Over the years, the Jews added to the laws that God gave to them. The Jewish leaders would call something “unlawful” if it did not conform to their man-made laws.
- When Jesus and his disciples were picking grain on a Sabbath day, the Pharisees accused them of doing something “unlawful” because it was breaking the Jewish laws about not working on that day.
- When Peter stated that eating unclean foods was “unlawful” for him, he meant that if he ate those foods he would be breaking the laws God had given the Israelites about not eating certain foods.

The term “lawless” describes a person who does not obey laws or rules. When a country or group of people are in a state of “lawlessness,” there is widespread disobedience, rebellion, or immorality.

- A lawless person is rebellious and does not obey God’s laws.
- The apostle Paul wrote that in the last days there will be a “man of lawlessness,” or a “lawless one,” who will be influenced by Satan to do evil things.

Translation Suggestions:

- This term “unlawful” should be translated using a word or expression that means “not lawful” or “lawbreaking.”
- Other ways to translate “unlawful” could be “not permitted” or “not according to God’s law” or “not conforming to our laws.”
- The expression “against the law” has the same meaning as “unlawful.”
- The term “lawless” could also be translated as “rebellious” or “disobedient” or “law-defying”.
- The term “lawlessness” could be translated as “not obeying any laws” or “rebellion (against God’s laws).”
- The phrase “man of lawlessness” could be translated as “man who does not obey any laws” or “man who rebels against God’s laws.”
- It is important to keep the concept of “law” in this term, if possible.
- Note that the term “unlawful” has a different meaning from this term.

light, luminary, shine, brighten, enlighten

Definition:

The term “light” is used figuratively in various ways in the Bible. Light is often used as a metaphor for wisdom, life, righteousness, truth, or happiness.

- Jesus said, “I am the light of the world” to express that he brings God’s true message to the world and rescues people from the darkness of their sin.
- Christians are commanded to “walk in the light,” which means they should be living the way God wants them to and avoiding evil.
- The apostle John stated that “God is light” and in him there is no darkness at all.
- Jesus said that he was “the light of the world” and that his followers should shine like lights in the world by living in a way that clearly shows how great God is.
- “Walking in the light” represents living in a way that pleases God, doing what is good and right. Walking in darkness represents living in rebellion against God, doing evil things.

Translation Suggestions:

- When translating, it is important to keep the literal terms “light” and “darkness” even when they are used figuratively.
- It may be necessary to explain the comparison in the text. For example, “walk as children of light” could be translated as “live openly righteous lives, like someone who walks in bright sunlight.”
- Make sure that the translation of “light” does not refer to an object that gives light, such as a lamp. The translation of this term should refer to the light itself.

lord, Lord, master, sir

Definition:

In the Bible, the term “lord” generally refers to someone who has ownership or authority over other people. In the Bible, however, the term is used to address many different kinds of people, including God.

- This word is sometimes translated as “master” when addressing Jesus or when referring to someone who owns slaves.
- Some English versions translate this as “sir” in contexts where someone is politely addressing someone of higher status.

When “Lord” is capitalized, it is a title that refers to God. (Note, however, that when it is used as a form of addressing someone or it occurs at the beginning of a sentence it may be capitalized and have the meaning of “sir” or “master.”)

- In the Old Testament, this term is also used in expressions such as “Lord God Almighty” or “Lord Yahweh” or “Yahweh our Lord.”
- In the New Testament, the apostles used this term in expressions such as “Lord Jesus” and “Lord Jesus Christ,” which communicate that Jesus is God.
- The term “Lord” in the New Testament is also used alone as a direct reference to God, especially in quotations from the Old Testament. For example, the Old Testament text has “Blessed is he who comes in the name of Yahweh” and the New Testament text has “Blessed is he who comes in the name of the Lord.”
- In the ULT and UST, the title “Lord” is only used to translate the actual Hebrew and Greek words that mean “Lord.” It is never used as a translation of God’s name (Yahweh), as is done in many translations.
- Some languages translate “Lord” as “Master” or “Ruler” or some other term that communicates ownership or supreme rule.
- In the appropriate contexts, many translations capitalize the first letter of this term to make it clear to the reader that this is a title referring to God.
- For places in the New Testament where there is a quote from the Old Testament, the term “Lord God” could be used to make it clear that this is a reference to God.

Translation Suggestions:

- This term can be translated with the equivalent of “master” when it refers to a person who owns slaves. It can also be used by a servant to address the person he works for.
- When it refers to Jesus, if the context shows that the speaker sees him as a religious teacher, it can be translated with a respectful address for a religious teacher, such as “master.”
- If the person addressing Jesus does not know him, “lord” could be translated with a respectful form of address such as “sir.” This translation would also be used for other contexts in which a polite form of address to a man is called for.
- When referring to God the Father or to Jesus, this term is considered a title, written as “Lord” (capitalized) in English.

love, beloved

Definition:

To love another person is to care for that person and do things that will benefit him. There are different meanings for "love" some languages may express using different words:

The kind of love that comes from God is focused on the good of others even when it doesn't benefit oneself. This kind of love cares for others, no matter what they do. God himself is love and is the source of true love.

- Jesus showed this kind of love by sacrificing his life in order to rescue us from sin and death. He also taught his followers to love others sacrificially.
- When people love others with this kind of love, they act in ways that show they are thinking of what will cause the others to thrive. This kind of love especially includes forgiving others.
- In the ULT, the word "love" refers to this kind of sacrificial love, unless a Translation Note indicates a different meaning.

Another word in the New Testament refers to brotherly love, or love for a friend or family member.

- This term refers to natural human love between friends or relatives.
- The term can also be used in such contexts as, "They love to sit in the most important seats at a banquet." This means that they "like very much" or "greatly desire" to do that.

The word "love" can also refer to romantic love between a man and a woman.

Translation Suggestions:

- Unless indicated otherwise in a Translation Note, the word "love" in the ULT refers to the kind of sacrificial love that comes from God.
- Some languages may have a special word for the kind of unselfish, sacrificial love that God has. Ways to translate this might include, "devoted, faithful caring" or "care for unselfishly" or "love from God." Make sure that the word used to translate God's love can include giving up one's own interests to benefit others and loving others no matter what they do.
- Sometimes the English word "love" describes the deep caring that people have for friends and family members. Some languages might translate this with a word or phrase that means "like very much" or "care for" or "have strong affection for."
- In contexts where the word "love" is used to express a strong preference for something, this could be translated by "strongly prefer" or "like very much" or "greatly desire."
- Some languages may also have a separate word that refers to romantic or sexual love between a husband and wife.
- Many languages must express "love" as an action. So for example, they might translate "love is patient, love is kind" as, "when a person loves someone, he is patient with him and kind to him."

In the Bible, “servant” and “slave” are mostly interchangeable terms. The term “serve” generally means to do work for someone, and the concept can be applied in a wide variety of contexts.

- A slave was a kind of servant who was the property of the person he worked for. The person who bought a slave was called his “owner” or “master.” Some masters treated their slaves cruelly. Other masters treated their slaves well, like a valued member of the household. The term “slavery” means the state of being a slave.
- A person could be a slave temporarily, for instance while working to repay a debt to his owner.
- The words “young man” or “young woman” often mean “servant” or “slave.” This meaning will be discerned from context. One indicator of this situation is if the possessive is used, eg. “her young women” could be translated as “her servants” or “her slaves.”
- The term “enslave” means “to cause to be a slave” (usually by force).
- The New Testament speaks of human beings as “slaves of sin” until Jesus frees them from its control and power. When a person receives new life in Christ, he stops being a slave to sin and becomes a slave to righteousness.

- People who teach others about God are said to serve both God and the ones they are teaching.
- The apostle Paul wrote to the Corinthian Christians about how they used to “serve” the old covenant. This refers to obeying the laws of Moses. Now they “serve” the new covenant. That is, because of Jesus’ sacrifice on the cross, believers in Jesus are enabled by the Holy Spirit to please God and live holy lives.
- Paul talks about their actions in terms of their “service” to either the old or new covenant. This could be translated as “serving” or “obeying” or “devotion to.”
- Often, when a person referred to himself as “your servant” he was showing respect to the person addressed. That person may have had higher social status, or the speaker may be showing humility. It did not mean that the person speaking was an actual servant.

The terms “snare” and “trap” refer to devices that are used to catch animals and keep them from escaping. - The phrase “set a trap” means to get a trap ready to capture something.
- To “fall into a trap” refers to falling into a deep hole or pit that was dug and hidden in order to catch an animal.
- A person who starts sinning and cannot stop can be described as “ensnared by sin” in a figurative reference to the way an animal can be ensnared and cannot escape.
- Just as an animal is endangered and hurt by being in a trap, so a person caught in the trap of sin is being harmed by that sin and needs to be set free.

son

Definition:

The male offspring of a man and a woman is called their “son” for his entire life. He is also called a son of that man and a son of that woman. An “adopted son” is a male who has been legally placed into the position of being a son.

- The phrase “son of” can be used to identify a person’s father, mother, or an ancestor from some previous generation. This phrase is used in genealogies and many other places.
- The “sons of Israel” are usually the Israelite nation (after Genesis).
- Using “son of” to give the name of the father frequently helps distinguish people who have the same name. For example, “Azariah son of Zadok” and “Azariah son of Nathan” in 1 Kings 4, and “Azariah son of Amaziah” in 2 Kings 15 are three different men.
- The phrase “son of” can be used to associate the person with whatever person or concept comes next. The meaning is then greatly determined by context. It can be positive (eg. 2 Kings 2:16: “sons of ability”), negative (eg. 2 Samuel 7:10: “sons of wickedness”), denote membership in a group, express contempt by not naming the person (eg. “you sons of Zeruiah”), etc.

Translation Suggestions:

- In most occurrences of this term, it is best to translate “son” by the literal term in the language that is used to refer to a son.
- When translating the term “Son of God,” the project language’s common term for “son” should be used.
- Sometimes “sons” can be translated as “children,” when both males and females are being referred to. For example, “sons of God” could be translated as “children of God” since this expression also includes girls and women.

wine, wineskin, new wine

Definition:

In the Bible, the term “wine” refers to a kind of fermented drink made from the juice of a fruit called grapes. Wine was stored in “wineskins,” which were containers made out of animal skin.

- The term “new wine” referred to grape juice that had just been taken from the grape and was not fermented yet. Sometimes the term “wine” also referred to unfermented grape juice.
- To make wine, grapes are crushed in a winepress so that the juice comes out. The juice eventually ferments and alcohol forms in it.
- In Bible times, wine was the normal drink with meals. It did not have as much alcohol as present-day wine has.
- Before wine was served for a meal, it was often mixed with water.
- A wineskin that was old and brittle would get cracks in it, which allowed the wine to leak out. New wineskins were soft and flexible, which meant they did not tear easily and could store the wine safely.
- If wine is unknown in your culture, it could be translated as “fermented grape juice” or “fermented drink made from a fruit called grapes” or “fermented fruit juice.” (See: How to Translate Unknowns)
- Ways to translate “wineskin” could include “bag for wine” or “animal skin wine bag” or “animal skin container for wine.”

word of God, word of Yahweh, word of the Lord, word of truth, scripture

Definition:

In the Bible, the term “word of God” refers to anything that God has communicated to people. This includes spoken and written messages. Jesus is also called “the Word of God.”

- The term “scriptures” means “writings.” It is only used in the New Testament and refers to the Hebrew scriptures, which is the Old Testament. These writings were God’s message that he had told people to write down so that many years in the future people could still read it.
- The related terms “word of Yahweh” and “word of the Lord” often refer to a specific message from God that was given to a prophet or other person in the Bible.
- Sometimes this term occurs as simply “the word” or “my word” or “your word” (when talking about God’s word).
- In the New Testament, Jesus is called “the Word” and “the Word of God.” These titles mean that Jesus fully reveals who God is, because he is God himself.

The term “word of truth” is another way of referring to “God’s word,” which is his message or teaching. It does not refer to just one word.

- God’s word of truth includes everything that God has taught people about himself, his creation, and his plan of salvation through Jesus.
- This term emphasizes the fact that what God has told us is true, faithful, and real.

Translation Suggestions:

- Depending on the context, other ways to translate this term could include “the message of Yahweh” or “God’s message” or “the teachings from God.”
- It may be more natural in some languages to make this term plural and say “God’s words” or “the words of Yahweh.”
- The expression “the word of Yahweh came” is often used to introduce something that God told his prophets or his people. This could be translated as “Yahweh spoke this message” or “Yahweh spoke these words.”
- The term “scripture” or “scriptures” could be translated as “the writings” or “the written message from God.” This term should be translated differently from the translation of the term “word.”
- When “word” occurs alone and it refers to God’s word, it could be translated as “the message” or “God’s word” or “the teachings.” Also consider the alternate translations suggested above.
- When the Bible refers to Jesus as “the Word,” this term could be translated as “the Message” or “the Truth.”
- “Word of truth” could be translated as “God’s true message” or “God’s word, which is true.”
- It is important for the translation of this term to include the meaning of being true.

Definition:

Wrath is an intense anger that is sometimes long-lasting. The Bible describes both people and God as experiencing intense anger. When speaking about God's "wrath," make sure the word or phrase used to translate this term does not refer to a sinful fit of rage (which might be true of a human person).

- In the Bible, "wrath" often refers to God's righteous judgment of sin and punishment of people who rebel against him.
- The "wrath of God" can also refer to his judgment and punishment for sin.
- God's wrath is the righteous penalty for those who do not repent of their sin.

Translation Suggestions:

- Depending on the context, other ways this term could be translated include "intense anger" or "righteous judgment" or "anger."
- God's wrath is just and holy. When talking about God's wrath, make sure the word or phrase used to translate this term does not refer to a sinful human rage.

Yahweh of hosts, God of hosts, host of heaven, host of the heavens, Lord of hosts

Definition:

The terms “Yahweh of hosts” and “God of hosts” are titles that express God’s authority over the thousands of angels who obey him.

- The term “host” or “hosts” is a word that refers to a large number of something, such as an army of people or the massive number of stars. It can also refer to all the many spirit beings, including evil spirits. The context makes it clear what is being referred to.
- Phrases similar to “host of the heavens” refer to all the stars, planets and other heavenly bodies.
- In the New Testament, the phrase, “Lord of hosts” means the same as “Yahweh of hosts” but it cannot be translated that way since the Hebrew word “Yahweh” is not used in the New Testament.

Translation Suggestions:

- Ways to translate “Yahweh of hosts” could include, “Yahweh, who rules all the angels” or “Yahweh, the ruler over armies of angels” or “Yahweh, the ruler of all creation.”
- The phrase “of hosts” in the terms “God of hosts” and “Lord of hosts” would be translated the same way as in the phrase “Yahweh of hosts” above.
- Certain churches do not accept the literal term “Yahweh” and prefer to use the capitalized word, “LORD” instead, following the tradition of many Bible versions. For these churches, a translation of the term “LORD of hosts” would be used in the Old Testament for “Yahweh of hosts.”

year

Definition:

When used literally, the term “year” in the Bible refers to a period of time lasting 354 days. This is according to the lunar calendar system which is based on the time it takes for the moon to go around the earth.

- A year in the modern-day solar calendar lasts 365 days divided into twelve months, based on the amount of time it takes for the earth to travel around the sun.
- In both calendar systems a year has twelve months. But an extra thirteenth month is sometimes added to the year in the lunar calendar to make up for the fact that a lunar year is eleven days less than a solar year. This helps keep the two calendars more in line with each other.
- In the Bible, the term “year” is also used in a figurative sense to refer to a general time when a special event takes place. Examples of this include, “the year of Yahweh” or “in the year of drought” or “the favorable year of the Lord.” In these contexts, “year” could be translated as “time” or “season” or “time period.”

- Being zealous includes putting intense effort into doing something and continuing to persevere in that effort.
- The “zeal of the Lord” or the “zeal of Yahweh” refers to God’s strong, persistent actions to bless his people or to see justice done.

Translation Suggestions:

- To “be zealous” could also be translated by, “be strongly diligent” or “make an intense effort.”
- The term “zeal” could also be translated as “energetic devotion” or “eager determination” or “righteous enthusiasm.”
- The phrase, “zeal for your house” could be translated, “strongly honoring your temple” or “fervent desire to take care of your house.”

Zion, Mount Zion

Definition:

Originally, the term “Zion” or “Mount Zion” referred to a stronghold or fortress that King David captured from the Jebusites. Both these terms became other ways of referring to Jerusalem.

- Mount Zion and Mount Moriah were two of the hills that the city of Jerusalem was located on. Later, “Zion” and “Mount Zion” became used as general terms to refer to both of these mountains and to the city of Jerusalem. Sometimes they also referred to the temple that was located in Jerusalem. (See: [metonymy](#))
- David named Zion, or Jerusalem, the “City of David.” This is different from David’s hometown, Bethlehem, which was also called the City of David.
- The term “Zion” is used in other figurative ways, to refer to Israel or to God’s spiritual kingdom or to the new, heavenly Jerusalem that God will create.
