Amnon and Tamar; Absalom kills Amnon (13:1–14:33)

The later years of David's reign (15:1–24:25)

- Absalom rebels and is killed (15:1–18:33)
- David's kingdom restored (19:1–20:26)
- Famine and warfare (21:1–14)
- David's song of praise (22:1–23:7)
- David's mighty men (23:8–39)
- Yahweh judges David's sin of numbering the people; the plague stopped (24:1–25)

What is the Book of 2 Samuel about?

This book is about David ruling as king over Israel. He first ruled over the tribe of Judah for seven years. Then the other eleven tribes agreed to have him become their king. He ruled over all Israel for thirty-three years.

Throughout this time, David led his army to fight foreign enemies who attacked Israel. However, he struggled the most against someone in his own family. Absalom, his son, rebelled and fought against him ([2 Samuel 13-19](#)).

The Book of 2 Samuel also tells about when David sinned greatly. He slept with Bathsheba, the wife of Uriah the Hittite. When she became pregnant, David arranged for Uriah to be killed in battle. David and all Israel suffered much because of David's sin. However, the writer also tells of Yahweh repeatedly showing David grace and love after David repented of his sin.

How should the title of this book be translated?

Translators can use the traditional title "2 Samuel," or "Second Samuel." Or translators may consider a clearer title such as "The Second Book about Samuel, Saul, and David." (See: **How to Translate Names (p.770)**)

What was the purpose of the Book of 2 Samuel?

The Book of 2 Samuel begins where 1 Samuel ended. The writer continues to show how the tribes of Israel unite under the first kings of Israel. The Book of 2 Samuel centers around David as the king Yahweh chose to lead Israel.

Who wrote the Book of 2 Samuel?

It is uncertain who wrote 2 Samuel. It may have been someone alive soon after King Solomon died. When Solomon died, the kingdom of Israel split into two kingdoms. The author probably lived in the southern kingdom of Judah. A

descendant of David continued to rule over the southern kingdom. The author may have written 2 Samuel to defend David's right to be king. This would prove that David's descendant was the rightful king of God's people.

Part 2: Important Religious and Cultural Concepts

What covenant had its beginning in the Book of 2 Samuel?

In 2 Samuel 7, Yahweh made a covenant with David. God promised to make a descendant of David rule forever over Israel. Christians believe that Jesus Christ fulfills this covenant. Jesus was a descendant of David. Jesus is the true "anointed one," the person God chose to be king forever. (See: **covenant (p.840)**)

Part 3: Important Translation Issues

Why does the book refer to someone being addressed indirectly?

David frequently refers to himself as "your servant" when he speaks to King Saul. He also calls Saul "my master." Indirectly addressing a person in this way can be difficult to translate. It is intended to show that the speaker submits to the one being addressed. English sometimes uses the address "sir" or "ma'am" in this way.

Can I translate this book before 1 Samuel?

The Book of 1 Samuel should be translated before 2 Samuel, since 2 Samuel continues from where 1 Samuel ends.

How is the name "Israel" used in the Bible?

The name "Israel" is used in many different ways in the Bible. Jacob was the son of Isaac. God changed his name to Israel. The descendants of Jacob became a nation also called Israel. Eventually, the nation of Israel split into two kingdoms. The northern kingdom was named Israel. The southern kingdom was named Judah. (See: **Israel, Israelites (p.847)**)

2 Samuel speaks of both the northern kingdom of Israel and the whole nation of Israel as "Israel." However, these references appear in the narrative long before the two kingdoms split apart. It seems clear that the references to Israel and Judah indicate that the author wrote 2 Samuel at a time after the kingdoms split. (See: [2 Samuel 2:10](#); [2 Samuel 3:10](#); [2 Samuel 5:5](#); [2 Samuel 11:11](#); [2 Samuel 12:8](#); [2 Samuel 19:42-43](#); [2 Samuel 21:2](#); [2 Samuel 24:1](#)).

2 Samuel 1 General Notes

Structure and formatting

Some translations set each line of poetry farther to the right than the rest of the text to make it easier to read. The ULT does this with the poetic song in 1:19-27.

This chapter continues the material from 1 Samuel.

Special concepts in this chapter

David's funeral song

David praised Saul and Jonathan as great warriors and Jonathan as his dearest friend.

Important figures of speech in this chapter

Synecdoche

David used two figures of speech to express that Jonathan and Saul were great warriors: "the bow of Jonathan did not turn back, and the sword of Saul did not return empty." (See: **Synecdoche (p.831)**)

2 Samuel 1:1

Ziklag

This is the name of a city in the southern part of Judah. (See: **How to Translate Names (p.770)**) (See: **How to Translate Names (p.770)**)

2 Samuel 1:2

On the third day

“After three days” (See: **Ordinal Numbers (p.809)**) (See: **Ordinal Numbers (p.809)**)

with his clothes torn and with dirt on his head

In this culture, tearing one’s own clothes and putting dirt on one’s head was an act of mourning. (See: **Symbolic Action (p.829)**) (See: **Symbolic Action (p.829)**)

he lay facedown on the ground and prostrated himself

This was an act of showing submission to David, who was now the king of Israel. (See: **Symbolic Action (p.829)**) (See: **Symbolic Action (p.829)**)

2 Samuel 1:3

(There are no notes for this verse.)

2 Samuel 1:4

Many have fallen and many are dead

This could mean: (1) "Many were wounded and many were killed" or (2) "Many were wounded and killed."

2 Samuel 1:5

(There are no notes for this verse.)

2 Samuel 1:6

By chance I happened to be

This statement emphasizes that the man did not plan to meet Saul.

Saul was leaning on his spear

This could mean: (1) Saul was weak and using the spear to support himself or (2) Saul was attempting to kill himself by falling on his own spear. (See: **Euphemism (p.756)**) (See: **Euphemism (p.756)**)

2 Samuel 1:7

(There are no notes for this verse.)

2 Samuel 1:8

He said to me, 'Who are you?' I answered him, 'I am an Amalekite.'

These direct quotations could be stated as indirect speech. Alternate translation: "He asked me who I was, and I told him that I am an Amalekite" (See: **Direct and Indirect Quotations (p.747)**) (See: **Direct and Indirect Quotations (p.747)**)

I am an Amalekite

These are the same people David just finishing attacking in [2 Samuel 1:1](#).

2 Samuel 1:9

great suffering has taken hold of me

Saul's suffering is spoken of as something terrible that has grabbed hold of him. Alternate translation: "I am suffering terribly" (See: **Personification (p.814)**) (See: **Personification (p.814)**)

life is still in me

This idiom means he is still alive. Alternate translation: "I am still alive" (See: **Idiom (p.781)**) (See: **Idiom (p.781)**)

2 Samuel 1:10

he would not live after he had fallen

Alternate translation: "he would die anyway"

2 Samuel 1:11

David tore his clothes & the men with him did the same

David and his men tore their clothes as a sign of mourning for the death of King Saul. (See: **Symbolic Action** (p. 829)) (See: **Symbolic Action** (p.829))

2 Samuel 1:12

for the people of Yahweh, and for the house of Israel

Both statements mean basically same thing. The word “house” is a metonym that represents the descendants of Israel. But, both “people” and “house” probably are a synecdoche representing the soldiers of Israel. Alternate translation: “for the Israelite soldiers” (See: [\[\[rc:///ta/man/translate/figs-parallelism\]\]](#) and [\[\[rc:///ta/man/translate/figs-metonymy\]\]](#) and **Synecdoche (p.831)**) (See: **Parallelism (p.811)**)

Yahweh

This is the name of God that he revealed to his people in the Old Testament. See the translationWord page about Yahweh concerning how to translate this.

they had fallen by the sword

Here “fallen” is a polite way of referring to being killed. Also, “sword” represents a battle. This here means “had been killed.” Alternate translation: “they had died in battle” or “enemies had killed them in battle” (See: [\[\[rc:///ta/man/translate/figs-euphemism\]\]](#) and [\[\[rc:///ta/man/translate/figs-metonymy\]\]](#)) (See: **Euphemism (p.756)**)

2 Samuel 1:13

Where are you from?

The man had already stated that he is an Amalekite in [2 Samuel 1:8](#). David apparently asks the man to confirm this because of the serious judgment that David was going to pronounce on the man.

2 Samuel 1:14

Why were you not afraid to kill Yahweh's anointed & hand?

This rhetorical question is used to rebuke the man. If it would be helpful in your language, you could express this question as a statement. Alternate translation: "You should have feared Yahweh and not killed his anointed ... hand!" (See: **Rhetorical Question (p.822)**) (See: **Rhetorical Question (p.822)**)

Yahweh's anointed king

This refers to Saul.

This phrase refers to doing something yourself. Alternate translation: "yourself" or "personally" (See: **Metonymy (p.802)**) (See: **Metonymy (p.802)**)

2 Samuel 1:15

struck him down

This idiom means “killed him.” (See: **Idiom (p.781)**) (See: **Idiom (p.781)**)

2 Samuel 1:16

Your blood is on your head

Here “blood” is a metonym that implies “shed blood” and is associated with death. Here “your head” is a synecdoche referring to the man and means that he is responsible. Alternate translation: “You are responsible for your own death” or “You have caused your own death” (See: [\[\[rc://ta/man/translate/figs-metonymy\]\]](#) and [\[\[rc://ta/man/translate/figs-synecdoche\]\]](#)) (See: **Metonymy (p.802)**)

the Book of Jashar

The word “Jashar” means “upright.” Alternate translation: “the Book of the Upright” (See: **How to Translate Names (p.770)**) (See: **How to Translate Names (p.770)**)

Gath & Ashkelon

Gath and Ashkelon are two of the Philistines' major cities. The Philistines killed Saul and Jonathan.

so that the daughters of the Philistines may not rejoice & so that the daughters of the uncircumcised may not celebrate

let there not be dew or rain on you

David curses the ground where King Saul died in the battle. This was out of reverence for Saul, who was God’s anointed king.

the shield of the mighty was defiled

The “mighty” here refers to Saul. The shield was defiled because it fell on the ground, and because the king’s blood was shed on it. (See: **Metonymy (p.802)**) (See: **Metonymy (p.802)**)

The shield of Saul is no longer anointed with oil

Saul’s shield was made of leather. To care for the shield, it was rubbed with oil. Alternate translation: “No one will care for Saul’s shield anymore”

2 Samuel 1:22

**From the blood of those who have been killed, from the bodies of the mighty,
the bow of Jonathan did not turn back, and the sword of Saul did not return
empty**

Saul and Jonathan are shown here to have been fierce and valiant warriors. (See: **Parallelism (p.811)**) (See: **Parallelism (p.811)**)

the sword of Saul did not return empty

Saul's sword is spoken of as if it were a living thing that could return on its own. Rather than return empty, it was carrying the blood of Saul's enemies that it killed. (See: [\[\[rc:///ta/man/translate/figs-personification\]\]](#) and [\[\[rc:///ta/man/translate/figs-litotes\]\]](#)) (See: **Personification (p.814)**)

2 Samuel 1:23

in their death they were not separated

The phrase “were not separated” is used to emphasize that they were always together. Alternate translation: “even in death they were together”

They were swifter than eagles, they were stronger than lions.

Saul and Jonathan were spoken of as if they were faster than eagles and stronger than lions. (See: **Metaphor (p. 796)**) (See: **Metaphor (p.796)**)

2 Samuel 1:24

who clothed you in scarlet as well as jewels, and who put ornaments of gold on your clothing

“who provided you nice clothes and jewelry.” These two phrases share similar meanings that describe providing the women with expensive, attractive clothing. (See: **Parallelism (p.811)**) (See: **Parallelism (p.811)**)

2 Samuel 1:25

How the mighty have fallen in the midst of the battle

This phrase is repeated in verse 27 to emphasize that Israel's best warriors are dead. Alternate translation: "The mighty men have died in battle"

have fallen

This is a polite way to say "have died." (See: **Euphemism (p.756)**) (See: **Euphemism (p.756)**)

Jonathan is killed

If your language does not use the passive form in this way, you can state this in active form or in another way that is natural in your language. Alternate translation: "Jonathan has died in battle" or "The enemy has killed Jonathan" (See: **Active or Passive (p.731)**) (See: **Active or Passive (p.731)**)

on your high places

David continues to address this part of the song to the mountains of Gilboa as he started in [2 Samuel 1:21](#). (See: **Apostrophe (p.734)**) (See: **Apostrophe (p.734)**)

2 Samuel 1:26

my brother Jonathan

Here “brother” is used in the sense of a very close friend.

Your love to me was wonderful, exceeding the love of women

Here “love” is used in the sense of friendship and loyalty. Jonathan's loyalty to David was even greater than the loyalty a woman has for her husband and children.

Bringing the Ark of the Covenant to Jerusalem

David organized a procession with many musical instruments to bring the ark to Jerusalem. They put it on a cart; but when the oxen stumbled, Uzzah reached out to steady it so it would not fall. 2 Samuel 16 General Notes

Special concepts in this chapter

Absalom seeks advice from David's advisers

David's best adviser, Ahithophel, told Absalom to publicly seduce the concubines that David had left to take care of the palace. Because the concubines were the king's property, having sexual relations with a king's concubines implied that Absalom was now the king. This would show the people that the break with David was complete. (See: **Assumed Knowledge and Implicit Information (p.736)**)

Important figures of speech in this chapter

Simile

To show how seriously people took Ahithophel's advice, the author used a **Simile (p.826)** comparing his advice to God's advice. "Now the advice of Ahithophel that he gave in those days was as if a man heard from the mouth of God himself."

When David's army defeated Absalom's army, Absalom fled on a mule, but his hair caught in a tree limb and the mule ran on, leaving him hanging. One of David's soldiers saw him and told Joab. Joab went and killed him. When David heard about this he mourned for his son, Absalom. (See: **mercy, merciful (p.853)**)

Special concepts in this chapter

Famine caused by a broken oath

When Israel first conquered the land, they promised not to kill the people of Gibeon. When Saul tried to kill them all, God caused a famine in Israel. David made amends with the people of Gibeon and the famine ended. David also kept his vow to Jonathan's sons. This helps to show the wisdom of king David. Although these people were not Israelites, they believed in Yahweh. He also used metaphors for the victory God gave him: "I can run over a barricade" and "by my God I can leap over a wall." Abstract Nouns

Description

Abstract nouns are nouns that refer to attitudes, qualities, events, or situations. These are things that cannot be seen or touched in a physical sense, such as happiness, weight, unity, friendship, health, and reason. This is a translation issue because some languages may express a certain idea with an abstract noun, while others would need a different way to express it.

This page answers the question: *What are abstract nouns and how do I deal with them in my translation?*

In order to understand this topic, it would be good to read:

Parts of Speech ([UTA PDF](#))

Sentence Structure ([UTA PDF](#))

Remember that nouns are words that refer to a person, place, thing, or idea. Abstract nouns are the nouns that refer to ideas. These can be attitudes, qualities, events, situations, or even relationships between those ideas. These are things that cannot be seen or touched in a physical sense, such as joy, peace, creation, goodness, contentment, justice, truth, freedom, vengeance, slowness, length, weight, and many, many more.

Some languages, such as Biblical Greek and English, use abstract nouns a lot. They provide a way of giving names to actions or qualities. With names, people who speak these languages can talk about the concepts as though they were things. For example, in languages that use abstract nouns, people can say, "I believe in the forgiveness of sin."

But some languages do not use abstract nouns very much. In these languages, speakers may not have the two abstract nouns "forgiveness" and "sin," but they would express the same meaning in other ways. For example, they would express, "I believe that God is willing to forgive people after they have sinned," by using verb phrases instead of nouns for those ideas.

Reason This Is a Translation Issue

The Bible that you translate from may use abstract nouns to express certain ideas. Your language might not use abstract nouns for some of those ideas. Instead, it might use phrases to express those ideas. Those phrases will use other kinds of words such as adjectives, verbs, or adverbs to express the meaning of the abstract noun. For example, "What is its **weight**?" could be expressed as "How much does it **weigh**?" or "How **heavy** is it?"

Examples From the Bible

From **childhood** you have known the sacred writings ... (2 Timothy 3:15a ULT)

The abstract noun "childhood" refers to when someone was a child.

But **godliness** with **contentment** is great **gain**. (1 Timothy 6:6 ULT)

The abstract nouns "godliness" and "contentment" refer to being godly and content. The abstract noun "gain" refers to something that benefits or helps someone.

Today **salvation** has come to this house, because he too is a son of Abraham. (Luke 19:9 ULT)

The abstract noun "salvation" here refers to being saved.

The Lord does not move slowly concerning his promises, as some consider **slowness** to be (2 Peter 3:9a ULT)

The abstract noun "slowness" refers to the lack of speed with which something is done.

He will both bring to light the hidden things of darkness and reveal the **purposes** of the heart. (1 Corinthians 4:5b ULT)

The abstract noun “purposes” refers to the things that people want to do and the reasons they want to do them.

Translation Strategies

If an abstract noun would be natural and give the right meaning in your language, consider using it. If not, here is another option:

(1) Reword the sentence with a phrase that expresses the meaning of the abstract noun. Instead of a noun, the new phrase will use a verb, an adverb, or an adjective to express the idea of the abstract noun.

Examples of Translation Strategies Applied

(1) Reword the sentence with a phrase that expresses the meaning of the abstract noun. Instead of a noun, the new phrase will use a verb, an adverb, or an adjective to express the idea of the abstract noun. Alternative translations are indented below the Scripture example.

... from **childhood** you have known the sacred writings ... (2 Timothy 3:15a ULT)

Ever since **you were a child** you have known the sacred writings.

But **godliness** with **contentment** is great **gain**. (1 Timothy 6:6 ULT)

But **being godly** and **content** is very **beneficial**. But we **benefit** greatly when we **are godly** and **content**. But we **benefit** greatly when we **honor and obey God** and when we are **happy with what we have**.

Today **salvation** has come to this house, because he too is a son of Abraham. (Luke 19:9 ULT)

Today the people in this house **have been saved** ... Today God **has saved** the people in this house ...

The Lord does not move slowly concerning his promises, as some consider **slowness** to be. (2 Peter 3:9a ULT)

The Lord does not move slowly concerning his promises, as some consider **moving slowly** to be.

He will bring to light the hidden things of darkness and reveal the **purposes** of the heart. (1 Corinthians 4:5b ULT)

He will bring to light the hidden things of darkness and reveal **the things that people want to do and the reasons that they want to do them**.

Active or Passive

Some languages use both active and passive sentences. In active sentences, the subject does the action. In passive sentences, the subject is the one that receives the action. Here are some examples with their subjects bolded:

- Active: **My father** built the house in 2010.
- Passive: **The house** was built in 2010.

Translators whose languages do not use passive sentences will need to know how they can translate passive sentences that they find in the Bible. Other translators will need to decide when to use a passive sentence and when to use the active form.

This page answers the question: *What do active and passive mean, and how do I translate passive sentences?*

In order to understand this topic, it would be good to read:

Sentence Structure ([UTA PDF](#))

Verbs ([UTA PDF](#))

Description

Some languages have both active and passive forms of sentences.

- In the active form, the subject does the action and is always mentioned.
- In the passive form, the action is done to the subject, and the one who does the action is not always mentioned.

In the examples of active and passive sentences below, we have bolded the subject.

- active: **My father** built the house in 2010.
- passive: **The house** was built by my father in 2010.
- passive: **The house** was built in 2010. (This does not tell who did the action.)

Reasons This Is a Translation Issue

All languages use active forms. Some languages use passive forms, and some do not. Some languages use passive forms only for certain purposes, and the passive form is not used for the same purposes in all of the languages that use it.

Purposes for the Passive

- The speaker is talking about the person or thing the action was done to, not about the person who did the action.
- The speaker does not want to tell who did the action.
- The speaker does not know who did the action.

Translation Principles Regarding the Passive

- Translators whose language does not use passive forms will need to find another way to express the idea.
- Translators whose language has passive forms will need to understand why the passive is used in a particular sentence in the Bible and decide whether or not to use a passive form for that purpose in his translation of the sentence.

Examples From the Bible

Then their shooters shot at your soldiers from off the wall, and some of the king's servants **were killed**, and your servant Uriah the Hittite **was killed** too. (2 Samuel 11:24 ULT)

This means that the enemy's shooters shot and killed some of the king's servants, including Uriah. The point is what happened to the king's servants and Uriah, not who shot them. The purpose of the passive form here is to keep the focus on the king's servants and Uriah.

When the men of the city arose early in the morning, and see, the altar of Baal **was torn down**.
(Judges 6:28a ULT)

The men of the town saw what had happened to the altar of Baal, but they did not know who broke it down. The purpose of the passive form here is to communicate this event from the perspective of the men of the town.

It would be better for him if a millstone **were put** around his neck and he **were thrown** into the sea. (Luke 17:2a ULT)

This describes a situation in which a person ends up in the sea with a millstone around his neck. The purpose of the passive form here is to keep the focus on what happens to this person. Who does these things to the person is not important.

Translation Strategies

If your language would use a passive form for the same purpose as in the passage that you are translating, then use a passive form. If you decide that it is better to translate without a passive form, here are some strategies that you might consider.

- (1) Use the same verb in an active sentence and tell who or what did the action. If you do this, try to keep the focus on the person receiving the action.
- (2) Use the same verb in an active sentence, and do not tell who or what did the action. Instead, use a generic expression like "they" or "people" or "someone."
- (3) Use a different verb.

Examples of Translation Strategies Applied

- (1) Use the same verb in an active sentence and tell who did the action. If you do this, try to keep the focus on the person receiving the action.

A loaf of bread **was given** him every day from the street of the bakers. (Jeremiah 37:21b ULT)

The king's servants gave Jeremiah a loaf of bread every day from the street of the bakers.

- (2) Use the same verb in an active sentence, and do not tell who did the action. Instead, use a generic expression like "they" or "people" or "someone."

It would be better for him if a millstone **were put** around his neck and he **were thrown** into the sea. (Luke 17:2a ULT)

It would be better for him if **they were to put** a millstone around his neck and **throw** him into the sea.

It would be better for him if **someone were to put** a heavy stone around his neck and **throw** him into the sea.

- (3) Use a different verb in an active sentence.

A loaf of bread **was given** him every day from the street of the bakers. (Jeremiah 37:21 ULT)

He **received** a loaf of bread every day from the street of the bakers.

Apostrophe

Description

An apostrophe is a figure of speech in which a speaker turns his attention away from his listeners and speaks to someone or something that he knows cannot hear him. He does this to tell his listeners his message or feelings about that person or thing in a very strong way.

This page answers the question: *What is the figure of speech called an apostrophe?*

In order to understand this topic, it would be good to read:

Figures of Speech ([UTA PDF](#))

Reason This Is a Translation Issue

Many languages do not use apostrophe, and readers could be confused by it. They may wonder who the speaker is talking to, or think that the speaker is crazy to talk to things or people who cannot hear.

Examples from the Bible

Mountains of Gilboa, let there not be dew or rain on you. (2 Samuel 1:21a ULT)

King Saul was killed on Mount Gilboa, and David sang a sad song about it. By telling these mountains that he wanted them to have no dew or rain, he showed how sad he was.

Jerusalem, Jerusalem, who kills the prophets and stones those sent to you. (Luke 13:34a ULT)

Jesus was expressing his feelings for the people of Jerusalem in front of his disciples and a group of Pharisees. By speaking directly to Jerusalem as though its people could hear him, Jesus showed how deeply he cared about them.

He cried against the altar by the word of Yahweh: "**Altar, altar!** This is what Yahweh says, 'See, ... on you they will burn human bones.'" (1 Kings 13:2 ULT)

The man of God spoke as if the altar could hear him, but he really wanted the king, who was standing there, to hear him.

Translation Strategies

If apostrophe would be natural and give the right meaning in your language, consider using it. But if this way of speaking would be confusing to your people, let the speaker continue speaking to the people that are listening to him as he tells **them** his message or feelings about the people or thing that cannot hear him. See the example below.

Examples of Translation Strategies Applied

He cried against the altar by the word of Yahweh: "**Altar, altar!** This is what Yahweh says, 'See, ... on you they will burn human bones.'" (1 Kings 13:2 ULT)

He said this about the altar: "This is what Yahweh says **about this altar**. 'See, ... they will burn people's bones on **it**.'"

Mountains of Gilboa, let there not be dew or rain on **you**. (2 Samuel 1:21a ULT)

As for these mountains of Gilboa, let there not be dew or rain on **them**.

Assumed Knowledge and Implicit Information

Assumed knowledge is whatever a speaker assumes his audience knows before he speaks and gives them some kind of information. The speaker does not give the audience this information because he believes that they already know it.

This page answers the question: *How can I be sure that my translation communicates the assumed knowledge and implicit information along with the explicit information of the original message?*

When the speaker does give the audience information, he can do so in two ways. The speaker gives explicit information in what he states directly. Implicit Information is what the speaker does not state directly because he expects his audience to be able to learn it from other things he says.

Description

When someone speaks or writes, he has something specific that he wants people to know or do or think about. He normally states this directly. This is explicit information.

The speaker assumes that his audience already knows certain things that they will need to think about in order to understand this information. Normally he does not tell people these things, because they already know them. This is called assumed knowledge.

The speaker does not always directly state everything that he expects his audience to learn from what he says. Implicit information is information that he expects people to learn from what he says even though he does not state it directly.

Often, the audience understands this implicit information by combining what they already know (assumed knowledge) with the explicit information that the speaker tells them directly.

Reasons This Is a Translation Issue

All three kinds of information are part of the speaker's message. If one of these kinds of information is missing, then the audience will not understand the message. Because the target translation is in a language that is very different from the biblical languages and is made for an audience that lives in a very different time and place than the people in the Bible, many times the assumed knowledge or the implicit information is missing from the message. In other words, modern readers do not know everything that the original speakers and hearers in the Bible knew. When these things are important for understanding the message, it is helpful if you include this information in the text or in a footnote.

Examples From the Bible

Then a scribe came to him and said, "Teacher, I will follow you wherever you go." Jesus said to him, "Foxes **have holes**, and the birds of the sky **have nests**, but the Son of Man has nowhere to lay his head." (Matthew 8:19-20 ULT)

Jesus did not say what foxes and birds use holes and nests for, because he assumed that the scribe would have known that foxes sleep in holes in the ground and birds sleep in their nests. This is **assumed knowledge**.

Jesus did not directly say here "I am the Son of Man" but, if the scribe did not already know it, then that fact would be **implicit information** that he could learn because Jesus referred to himself that way. Also, Jesus did not state explicitly that he travelled a lot and did not have a house that he slept in every night. That is **implicit information** that the scribe could learn when Jesus said that he had nowhere to lay his head.

Woe to you, Chorazin! Woe to you, Bethsaida! If the mighty deeds had been done in **Tyre and Sidon** which were done in you, they would have repented long ago in sackcloth and ashes. But

I say to you, it will be more tolerable for Tyre and Sidon at the **day of judgment** than for you.
(Matthew 11:21-22 ULT)

Jesus assumed that the people he was speaking to knew that Tyre and Sidon were very wicked, and that the day of judgment is a time when God will judge every person. Jesus also knew that the people he was talking to believed that they were good and did not need to repent. Jesus did not need to tell them these things. This is all **assumed knowledge**.

An important piece of **implicit information** here is that the people he was speaking to would be judged more severely than the people of Tyre and Sidon would be judged **because** they did not repent.

Why do your disciples violate the traditions of the elders? For **they do not wash their hands when they eat bread**. (Matthew 15:2 ULT)

One of the traditions of the elders was a ceremony in which people would wash their hands in order to be ritually clean before eating. People thought that in order to be righteous, they had to follow all the traditions of the elders. This was **assumed knowledge** that the Pharisees who were speaking to Jesus expected him to know. By saying this, they were accusing his disciples of not following the traditions, and thus not being righteous. This is **implicit information** that they wanted him to understand from what they said.

Translation Strategies

If readers have enough assumed knowledge to be able to understand the message, along with any important implicit information that goes with the explicit information, then it is good to leave that knowledge unstated and leave the implicit information implicit. If the readers do not understand the message because one of these is missing for them, then follow these strategies:

(1) If readers cannot understand the message because they do not have certain assumed knowledge, then provide that knowledge as explicit information.

(2) If readers cannot understand the message because they do not know certain implicit information, then state that information clearly, but try to do it in a way that does not imply that the information was new to the original audience.

Examples of Translation Strategies Applied

(1) If readers cannot understand the message because they do not have certain assumed knowledge, then provide that knowledge as explicit information.

Jesus said to him, "Foxes **have holes**, and the birds of the sky **have nests**, but the Son of Man has nowhere to lay his head." (Matthew 8:20 ULT)

The assumed knowledge was that the foxes slept in their holes and birds slept in their nests.

Jesus said to him, "Foxes **have holes to live in**, and the birds of the sky **have nests to live in**, but the Son of Man has nowhere to lay his head and sleep."

It will be more tolerable for **Tyre and Sidon** at the day of judgment than for you (Matthew 11:22 ULT)

The assumed knowledge was that the people of Tyre and Sidon were very, very wicked. This can be stated explicitly.
>

At the day of judgment, it will be more tolerable for **those cities of Tyre and Sidon, whose people were very wicked**, than it will be for you. or At

the day of judgment, It will be more tolerable for those **wicked cities, Tyre and Sidon**, than for you.

Why do your disciples violate the traditions of the elders? For **they do not wash their hands** when they eat bread. (Matthew 15:2 ULT)

The assumed knowledge was that one of the traditions of the elders was a ceremony in which people would wash their hands in order to be ritually clean before eating, which they must do to be righteous. It was not to remove germs from their hands to avoid sickness, as a modern reader might think.

Why do your disciples violate the traditions of the elders? For **they do not go through the ceremonial handwashing ritual of righteousness** when they eat bread.

(2) If readers cannot understand the message because they do not know certain implicit information, then state that information clearly, but try to do it in a way that does not imply that the information was new to the original audience.

Then a scribe came to him and said, "Teacher, I will follow you wherever you go." Jesus said to him, "Foxes have holes, and the birds of the sky have nests, but the Son of Man has nowhere to lay his head." (Matthew 8:19-20 ULT)

The implicit information is that Jesus himself is the Son of Man. Other implicit information is that if the scribe wanted to follow Jesus, then, like Jesus, he would have to live without a house.

Jesus said to him, "Foxes have holes, and the birds of the sky have nests, but **I, the Son of Man**, have **no home to rest in. If you want to follow me, you will live as I live.**"

It will be more tolerable for Tyre and Sidon at the day of judgment than for you (Matthew 11:22 ULT)

The implicit information is that God would not only judge the people; he would punish them. This can be made explicit.

At the day of judgment, God will **punish Tyre and Sidon**, cities whose people were very wicked, **less severely than he will punish you.**
or:

At the day of judgment, God will **punish you more severely** than Tyre and Sidon, cities whose people were very wicked.

Modern readers may not know some of the things that the people in the Bible and the people who first read it knew. This can make it hard for them to understand what a speaker or writer says, and to learn things that the speaker left implicit. Translators may need to state some things explicitly in the translation that the original speaker or writer left unstated or implicit.

Background Information

Description

When people tell a story, they normally tell the events in the order that they happened. This sequence of events makes up the storyline. The storyline is full of action verbs that move the story along in time. But sometimes a writer may take a break from the storyline and give some information to help his listeners understand the story better. This type of information is called background information. The background information might be about things that happened before the events he has already told about, or it might explain something in the story, or it might be about something that would happen much later in the story.

This page answers the question: *What is background information, and how can I show that some information is background information?*

In order to understand this topic, it would be good to read:

Order of Events ([UTA PDF](#))

Writing Styles ([UTA PDF](#))

Example — The bolded phrases in the story below are all background information.

Peter and John went on a hunting trip because **their village was going to have a feast the next day. Peter was the best hunter in the village. He once killed three wild pigs in one day!** They walked for hours through low bushes until they heard a wild pig. The pig ran, but they managed to shoot the pig and kill it. Then they tied up its legs with some rope **they had brought with them** and carried it home on a pole. When they brought it to the village, Peter's cousin saw the pig and realized that it was his own pig. Peter had mistakenly killed his cousin's pig.

Background information often tells about something that had happened earlier or something that would happen much later. Examples of these are: "their village was going to have a feast the next day," "He once killed three wild pigs in one day," and "that they had brought with them."

Often background information uses "be" verbs like "was" and "were," rather than action verbs. Examples of these are "their village was going to have a feast the next day," and "Peter **was** the best hunter in the village."

Background information can also be marked with words that tell the reader that this information is not part of the event line of the story. In this story, some of these words are "because," "once," and "had."

A writer may use background information:

- to help their listeners be interested in the story
- to help their listeners understand something in the story
- to help the listeners understand why something is important in the story
- to tell the setting of a story
 - > * Setting includes:
 - > * where the story takes place
 - > * when the story takes place
 - > * who is present when the story begins
 - > * what is happening when the story begins

Reasons This Is a Translation Issue

- Languages have different ways of marking background information and storyline information.
- You (the translator) need to know the order of the events in the Bible, which information is background information, and which is storyline information.
- You will need to translate the story in a way that marks the background information in a way that your own readers will understand the order of events, which information is background information, and which is storyline information.

Examples From the Bible

Hagar gave birth to Abram's son, and Abram named his son, whom Hagar bore, Ishmael. Abram **was 86 years old** when Hagar bore Ishmael to Abram. (Genesis 16:15-16 ULT)

The first sentence tells about two events. Hagar gave birth and Abraham named his son. The second sentence is background information about how old Abram was when those things happened.

And Jesus himself **was beginning about 30 years old**. He **was the son** (as it was assumed) of Joseph, of Heli, (Luke 3:23 ULT)

The verses before this tell about when Jesus was baptized. This sentence introduces background information about Jesus' age and ancestors. The story resumes in chapter 4 where it tells about Jesus going to the wilderness.

Then **it happened on a Sabbath** that he **was going through the grain fields**, and his disciples **were picking and eating the heads of grain, rubbing them in their hands**. But some of the Pharisees said ... (Luke 6:1-2a ULT)

These verses give the setting of the story. The events took place in a grain field on the Sabbath day. Jesus, his disciples, and some Pharisees were there, and Jesus' disciples were picking heads of grain and eating them. The main action in the story starts with the phrase, "But some of the Pharisees said"

Translation Strategies

To keep translations clear and natural you will need to study how people tell stories in your language. Observe how your language marks background information. You may need to write down some stories in order to study this. Observe what kinds of verbs your language uses for background information and what kinds of words or other markers signal that something is background information. Do these same things when you translate, so that your translation is clear and natural and people can understand it easily.

- (1) Use your language's way of showing that certain information is background information.
- (2) Reorder the information so that earlier events are mentioned first. (This is not always possible when the background information is very long.)

Examples of Translation Strategies Applied

(1) Use your language's way of showing that certain information is background information. The examples below explain how this was done in the ULT English translations.

And Jesus himself **was** beginning about 30 years old. He **was** the son (as it was assumed) of Joseph, of Heli. (Luke 3:23 ULT)

As here, English sometimes uses the word "and" to show that there is some kind of change in the story. The verb "was" shows that it is background information.

Therefore, also exhorting many other things, he preached the good news to the people. But Herod the tetrarch, having been rebuked by him concerning Herodias, the wife of his brother, and **concerning all the evil things that Herod had done**, added even this to them all: He locked John up in prison. (Luke 3:18-20 ULT)

The bolded phrase happened before John rebuked Herod. In English, the helping verb "had" in "had done" shows that Herod did those things before John rebuked him.

- (2) Reorder the information so that earlier events are mentioned first.

Hagar gave birth to Abram's son, and Abram named his son, whom Hagar bore, Ishmael.
Abram was 86 years old when Hagar bore Ishmael to Abram. (Genesis 16:16 ULT)

"**When Abram was 86 years old**, Hagar gave birth to his son, and Abram named his son Ishmael."

Therefore, also exhorting many other things, he preached the good news to the people. But Herod the tetrarch, having been rebuked by him concerning Herodias, the wife of his brother, and **concerning all the evil things that Herod had done**, added even this to them all: He locked John up in prison. (Luke 3:18-20 ULT)

The translation below reorders John's rebuke and Herod's actions.

"Now Herod the tetrarch married his brother's wife, Herodias, and **he did many other evil things**, so John rebuked him. But then Herod did another very evil thing. He had John locked up in prison."

Biblical Money

Description

This page answers the question: *How can I translate the values of money in the Bible?*

In early Old Testament times, people weighed their metals, such as silver and gold, and would pay a certain weight of that metal in order to buy things. Later, people started to make coins that each contained a standard amount of a certain metal. The daric is one such coin. In New Testament times, people used silver and copper coins.

The two tables below show some of the most well-known units of money found in the Old Testament (OT) and New Testament (NT). The table for Old Testament units shows what kind of metal was used and how much it weighed. The table for New Testament units shows what kind of metal was used and how much it was worth in terms of a day's wage.

| Unit in OT | Metal | Weight |
|------------|----------------|--------------|
| daric | gold coin | 8.4 grams |
| shekel | various metals | 11 grams |
| talent | various metals | 33 kilograms |

| Unit in NT | Metal | Day's Wage |
|------------------|-------------|------------|
| denarius/denarii | silver coin | 1 day |
| drachma | silver coin | 1 day |
| mite | copper coin | 1/64 day |
| shekel | silver coin | 4 days |
| talent | silver | 6,000 days |

Translation Principle

Do not use modern money values since these change from year to year. Using them will cause the Bible translation to become outdated and inaccurate.

Translation Strategies

The value of most money in the Old Testament was based on its weight. So when translating these weights in the Old Testament, see [Biblical Weight](#). The strategies below are for translating the value of money in the New Testament.

- (1) Use the Bible term and spell it in a way that is similar to the way it sounds. (See [Copy or Borrow Words](#).)
- (2) Describe the value of the money in terms of what kind of metal it was made of and how many coins were used.
- (3) Describe the value of the money in terms of what people in Bible times could earn in one day of work.
- (4) Use the biblical term and give the equivalent amount in the text or a footnote.

(5) Use the biblical term and explain it in a footnote.

Translation Strategies Applied

The translations strategies are all applied to Luke 7:41 below.

█ The one owed 500 denarii, and the other, 50. (Luke 7:41b ULT)

Use the Bible term and spell it in a way that is similar to the way it sounds. (See [Copy or Borrow Words.](#))

█ "The one owed **500 denali**, and the other, **50.**"

Describe the value of the money in terms of what kind of metal it was made of and how many pieces or coins were used.

█ "The one owed **500 silver coins**, and the other, **50.**"

(3) Describe the value of the money in terms of what people in Bible times could earn in one day of work.

█ "The one owed **500 days' wages**, and the other, **50.**"

(4) Use the Bible term and give the equivalent amount in the text or a footnote.

█ "The one owed **500 denarii** 1, and the other owed **50 denarii**. 2"

The footnotes would look like:

█ [1] 500 days' wages [2] 50 days' wages

(5) Use the Bible term and explain it in a footnote.

█ "The one owed **500 denarii**,¹ and the other, **50.**" (Luke 7:41 ULT)

█ ^[1] A denarius was the amount of silver that people could earn in one day of work.

Biblical Weight

Description

This page answers the question: *How can I translate the values of weight in the Bible?*

The following terms are the most common units of weight in the Bible. The term “shekel” means “weight,” and many other weights are described in terms of the shekel. Some of these weights were used for money. The metric values in the table below are not exactly equal to the biblical measures. The biblical measures differed in exact amount from time to time and place to place. The equivalents below are only an attempt to give an average measurement.

| Original Measure | Shekels | Grams | Kilograms |
|------------------|---------------|------------|--------------|
| shekel | 1 shekel | 11 grams | - |
| bekah | 1/2 shekel | 5.7 grams | - |
| pim | 2/3 shekel | 7.6 grams | - |
| gerah | 1/20 shekel | 0.57 grams | - |
| mina | 50 shekels | 550 grams | 1/2 kilogram |
| talent | 3,000 shekels | - | 34 kilograms |

Translation Principles

The people in the Bible did not use modern measures such as meters, liters, and kilograms. Using the original measures can help readers know that the Bible really was written long ago in a time when people used those measures.

Using modern measures can help readers understand the text more easily.

Whatever measure you use, it would be good, if possible, to tell about the other kind of measure in the text or a footnote.

If you do not use the biblical measures, try not to give the readers the idea that the measurements are exact. For example, if you translate one gerah as “.57 grams,” readers might think that the measurement is exact. It would be better to say “half a gram.”

Sometimes it can be helpful to use the word “about” to show that a measurement is not exact. For example, 2 Samuel 21:16 says that Goliath’s spear weighed 300 shekels. Instead of translating this as “3300 grams” or “3.3 kilograms,” it can be translated as “about three and one half kilograms.”

When God tells people how much something should weigh, and when people use those weights, do not say “about” in the translation. Otherwise, it will give the impression that God did not care exactly how much the thing should weigh.

Translation Strategies

(1) Use the measurements from the ULT. These are the same kinds of measurements that the original writers used. Spell them in a way that is similar to the way they sound or are spelled in the ULT. (See [Copy or Borrow Words](#).)

(2) Use the metric measurements given in the UST. The translators of the UST have already figured how to represent the amounts in the metric system.

(3) Use measurements that are already used in your language. In order to do this, you would need to know how your measurements relate to the metric system and figure out each measurement.

(4) Use the measurements from the ULT and include measurements that your people know in the text or a note.

(5) Use measurements that your people know, and include the measurements from the ULT in the text or in a note.

Translation Strategies Applied

The strategies are all applied to Exodus 38:29 below.

█ The bronze from the wave offering weighed **70 talents and 2,400 shekels**. (Exodus 38:29 ULT)

(1) Use the measurements from the ULT. These are the same kinds of measurements that the original writers used. Spell them in a way that is similar to the way they sound or are spelled in the ULT. (See [Copy or Borrow Words](#).)

█ "The bronze from the wave offering weighed **70 talentes and 2,400 sekeles**."

(2) Use the metric measurements given in the UST. The translators of the UST have already figured how to represent the amounts in the metric system.

█ "The bronze from the wave offering weighed **2,400 kilograms**."

(3) Use measurements that are already used in your language. In order to do this you would need to know how your measurements relate to the metric system and figure out each measurement.

█ "The bronze from the wave offering weighed **5,300 pounds**."

(4) Use the measurements from the ULT and include measurements that your people know in the text or a footnote. The following shows both measurements in the text.

█ "The bronze from the wave offering weighed **70 talents (2,380 kilograms) and 2,400 shekels (26.4 kilograms)**."

(5) Use measurements that your people know, and include the measurements from the ULT in the text or in a footnote. The following shows the ULT measurements in notes.

█ "The bronze from the offering weighed **70 talents and 2,400 shekels**. 1"

The footnote would look like:

█ [1] This was a total of about 2,400 kilograms.

Direct and Indirect Quotations

Description

There are two kinds of quotations: direct quotations and indirect quotations.

A direct quotation occurs when someone reports what another person said from the viewpoint of that original speaker. People usually expect that this kind of quotation will represent the original speaker's exact words. In the example below, John would have said "I" when referring to himself, so the narrator, who is reporting John's words, uses the word "I" in the quotation to refer to John. To show that these are John's exact words, many languages put the words between quotation marks: "".

- John said, "I do not know at what time I will arrive."

An indirect quotation occurs when a speaker reports what someone else said, but in this case, the speaker is reporting it from his own point of view instead and not from the original person's point of view. This kind of quotation usually contains changes in pronouns, and it often includes changes in time, in word choices, and in length. In the example below, the narrator refers to John as "he" in the quotation and uses the word "would" to replace the future tense, indicated by "will."

- John said that he did not know at what time he would arrive.

Reason This Is a Translation Issue

In some languages, reported speech can be expressed by either direct or indirect quotations. In other languages, it is more natural to use one than the other. There may be a certain meaning implied by using one rather than the other. So for each quotation, translators need to decide whether it is best to translate it as a direct quotation or as an indirect quotation.

Examples From the Bible

The verses in the examples below contain both direct and indirect quotations. In the explanation below the verse, we have marked in bold the words that are quoted.

And he commanded him to tell no one, but, "Go, show yourself to the priest and offer a sacrifice for your cleansing, according to what Moses commanded, for a testimony to them."
(Luke 5:14 ULT)

- Indirect quote: He commanded him **to tell no one**,
- Direct quote: but told him, "**Go, show yourself to the priest ...**"

And being asked by the Pharisees when the kingdom of God was coming, he answered them and said, "The kingdom of God is not coming with careful observation. Neither will they say, 'Look, here it is!' or 'There it is!' For indeed, the kingdom of God is among you." (Luke 17:20-21 ULT)

- Indirect quote: Being asked by the Pharisees **when the kingdom of God was coming**,
- Direct quote: he answered them and said, "**The kingdom of God is not coming with careful observation. Neither will they say, 'Look, here it is!' or 'There it is!' For indeed, the kingdom of God is among you.**"
- Direct quotes: Neither will they say, '**Look, here it is!**' or, '**There it is!**'

Double Negatives

A double negative occurs when a clause has two words that each express the meaning of “not.” Double negatives mean very different things in different languages. To translate sentences that have double negatives accurately and clearly, you need to know what a double negative means in the Bible and how to express this idea in your language.

This page answers the question: *What are double negatives?*

In order to understand this topic, it would be good to read:

Parts of Speech ([UTA PDF](#))

Sentence Structure ([UTA PDF](#))

Description

Negative words are words that have in them the meaning “not.” Examples in English are “no,” “not,” “none,” “no one,” “nothing,” “nowhere,” “never,” “nor,” “neither,” and “without.” Also, some words have prefixes or suffixes that mean “not,” such as the bolded parts of these words: “**un**happy,” “**im**possible,” and “**useless**.” Some other kinds of words also have a negative meaning, such as “lack” or “reject,” or even “fight” or “evil.”

A double negative occurs when a clause has two words that each have a negative meaning.

We did this **not** because we have **no** authority ... (2 Thessalonians 3:9a ULT)

And this was **not** done **without** an oath! (Hebrews 7:20a ULT)

Be sure of this—the wicked person will **not** go **unpunished**. (Proverbs 11:21a ULT)

Reason This Is a Translation Issue

Double negatives mean very different things in different languages.

- In some languages, such as English, a second negative in a clause cancels the first one, creating a positive sentence. So, “He is not unintelligent” means “He is intelligent.”
- In some languages, such as French and Spanish, two negative words in a clause do not cancel each other to become a positive. The Spanish sentence, “No vi a nadie,” literally says “I did not see no one.” It has both the word ‘no’ next to the verb and ‘nadie,’ which means “no one.” The two negatives are seen as in agreement with each other, and the sentence means, “I did not see anyone.”
- In some languages, a double negative creates a stronger negative statement.
- In some languages, a double negative creates a positive sentence, but it is a weak statement. So, “He is not unintelligent” means, “He is somewhat intelligent.”
- In some languages, including the languages of the Bible, a double negative can produce a stronger positive meaning than a simple positive statement. So, “He is not unintelligent” can mean “He is very intelligent.” In this case, the double negative is actually the figure of speech called [litotes](#).

Biblical Greek can do all of the above. So to translate sentences with double negatives accurately and clearly in your language, you need to know what each double negative means in the Bible and how to express the same idea in your language.

Examples From the Bible

The Greek of John 15:5 says:

χωρὶς ἐμοῦ οὐ δύνασθε ποιεῖν οὐδέν

Without me **not** you can do **nothing**

We cannot reproduce this double negative in the English ULT because in English, a second negative in a clause cancels the first one. In English, and perhaps in your language, we need to choose only one of the negatives and say either:

Without me, you can do **nothing**.

or:

Without me, you **cannot** do anything.

... in order **not** to be **unfruitful**. (Titus 3:14b ULT)

This means "in order to be fruitful."

A prophet is **not without** honor (Mark 6:4 ULT)

This means "a prophet is honored."

I do **not** want you to be **ignorant**. (1 Corinthians 12:1)

This means "I want you to be knowledgeable."

Translation Strategies

If the way that the double negative is used in the Bible is natural and has the same meaning as in your language, consider using it in the same way. Otherwise, you could consider these strategies:

- (1) If the purpose of a double negative in the Bible is to make a positive statement, and if it would not do that in your language, remove the two negatives so that it is positive.
- (2) If the purpose of a double negative in the Bible is to make a negative statement, and if it would not do that in your language, remove one of the two negatives.
- (3) If the purpose of a double negative in the Bible is to make a stronger negative statement, and if it would not do that in your language, remove one of the two negatives and add a strengthening word.

Examples of Translation Strategies Applied

- (1) If the purpose of a double negative in the Bible is to make a positive statement, and if it would not do that in your language, remove the two negatives so that it is positive.

For we do **not** have a high priest who **cannot** feel sympathy for our weaknesses. (Hebrews 4:15a ULT)

"For we have a high priest who can feel sympathy for our weaknesses."

... in order **not** to be **unfruitful**. (Titus 3:14b ULT)

"... so that they may be fruitful."

- (2) If the purpose of a double negative in the Bible is to make a negative statement, and if it would not do that in your language, remove one of the two negatives.

χωρὶς ἐμοῦ οὐ δύνασθε ποιεῖν οὐδέν

Without me **not** you can do **nothing** (John 15:5)

Without me, you can do **nothing**.

or:

Without me, you **cannot** do anything.

(3) If the purpose of a double negative in the Bible is to make a stronger negative statement, and if it would not do that in your language, remove one of the two negatives and add a strengthening word.

Doublet

Description

We are using the word “doublet” to refer to two words or phrases that are used together and either mean the same thing or mean very close to the same thing. Often they are joined with the word “and.” Unlike [Hendiadys](#), in which one of the words modifies the other, in a doublet the two words or phrases are equal and are used to emphasize or intensify the one idea that is expressed by the two words or phrases.

This page answers the question: *What are doublets and how can I translate them?*

In order to understand this topic, it would be good to read:

Figures of Speech ([UTA PDF](#))

A very similar issue is the repetition of the same word or phrase for emphasis, usually with no other words between them. Because these figures of speech are so similar and have the same effect, we will treat them here together.

Reason This Is a Translation Issue

In some languages people do not use doublets. Or they may use doublets, but only in certain situations, so a doublet might not make sense in their language in some verses. People might think that the verse is describing two ideas or actions, when it is only describing one. In this case, translators may need to find some other way to express the meaning expressed by the doublet.

Examples From the Bible

He has one people **scattered** and **dispersed** among the peoples (Esther 3:8 ULT)

The bolded words mean the same thing. Together they mean the people were spread out.

He attacked two men **more righteous** and **better** than himself. (1 Kings 2:32b ULT)

This means that they were “much more righteous” than he was.

You have decided to prepare **false** and **deceptive** words. (Daniel 2:9b ULT)

This means that they had decided to lie, which is another way of saying that they intended to deceive people.

... like of a lamb **without blemish** and **without spot**. (1 Peter 1:19b ULT)

This means that he was like a lamb that did not have any defect—not even one.

Then they approached {and} woke him up, saying, “**Master! Master!** We are perishing!” (Luke 8:24 ULT)

The repetition of “Master” means that the disciples called to Jesus urgently and continually.

Translation Strategies

If a doublet would be natural and give the right meaning in your language, consider using it. If not, consider these strategies.

(1) Translate only one of the words or phrases.

(2) If the doublet is used to intensify the meaning, translate one of the words or phrases and add a word that intensifies it such as “very” or “great” or “many.”

(3) If the doublet is used to intensify or emphasize the meaning, use one of your language's ways of doing that.

Translation Strategies Applied

(1) Translate only one of the words.

You have decided to prepare **false** and **deceptive** words. (Daniel 2:9b ULT)

"You have decided to prepare **false** things to say."

(2) If the doublet is used to intensify the meaning, translate one of the words and add a word that intensifies it such as "very" or "great" or "many."

He has one people **scattered** and **dispersed** among the peoples (Esther 3:8 ULT)

"He has one people **very spread out**."

(3) If the doublet is used to intensify or emphasize the meaning, use one of your language's ways of doing that.

... like a lamb **without blemish** and **without spot**. (1 Peter 1:19b ULT)

- English can emphasize this with "any" and "at all."

"... like a lamb **without any blemish at all**."

Then they approached {and} woke him up, saying, "**Master! Master!** We are perishing!" (Luke 8:24 ULT)

Then they approached {and} woke him up, **urgently shouting, "Master!**

Ellipsis

Description

An ellipsis^[1] occurs when a speaker or writer leaves out one or more words that normally should be in the sentence. The speaker or writer does this because he knows that the hearer or reader will understand the meaning of the sentence and supply the words in his mind when he hears or reads the words that are there. For example:

So the wicked will not stand in the judgment, **nor sinners in the assembly of the righteous**.
(Psalm 1:5 ULT)

There is ellipsis in the second part because “nor sinners in the assembly of the righteous” is not a complete sentence. The speaker assumes that the hearer will understand what it is that sinners will not do in the assembly of the righteous by filling in the action from the previous clause. With the action filled in, the complete sentence would read:

So the wicked will not stand in the judgment, nor **will** sinners **stand** in the assembly of the righteous.

Two Types of Ellipsis

A Relative Ellipsis happens when the reader has to supply the omitted word or words from the context. Usually the word is in the previous sentence, as in the example above.

An Absolute Ellipsis happens when the omitted word or words are not in the context, but the phrases are common enough in the language that the reader is expected to supply what is missing from this common usage or from the nature of the situation.

Reason This Is a Translation Issue

Readers who see incomplete sentences or phrases may not know that there is information missing that the writer expects them to fill in. Or readers may understand that there is information missing, but they may not know what information is missing because they do not know the original biblical language, culture, or situation as the original readers did. In this case, they may fill in the wrong information. Or readers may misunderstand the ellipsis if they do not use ellipsis in the same way in their language.

Examples From the Bible

Relative Ellipsis

He makes Lebanon skip like a calf **and Sirion like a young ox**. (Psalm 29:6 ULT)

The writer wants his words to be few and to make good poetry. The full sentence with the information filled in would be:

He makes Lebanon skip like a calf and **he makes** Sirion **skip** like a young ox.

Watch carefully, therefore, how you walk—**not as unwise but as wise**. (Ephesians 5:15b ULT)

The information that the reader must understand in the second parts of these sentences can be filled in from the first parts:

In order to understand this topic, it would be good to read:

Figures of Speech ([UTA PDF](#))

Watch carefully, therefore, how you walk—**walk** not as unwise but **walk** as wise,

Absolute Ellipsis

Then when he had come near, he asked him, “What do you want me to do for you?” And so he said, “Lord, **that I might recover my sight.**” (Luke 18:40b-41 ULT)

It seems that the man answered in an incomplete sentence because he wanted to be polite and not directly ask Jesus for healing. He knew that Jesus would understand that the only way he could receive his sight would be for Jesus to heal him. The complete sentence would be:

“Lord, **I want you to heal me so** that I might receive my sight.”

To Titus, a true son in our common faith. Grace and peace from God the Father and Christ Jesus our Savior. (Titus 1:4 ULT)

The writer assumes that the reader will recognize this common form of a blessing or wish, so he does not need to include the full sentence, which would be:

To Titus, a true son in our common faith. **May you receive** grace and peace from God the Father and Christ Jesus our Savior.

Translation Strategies

If ellipsis would be natural and give the right meaning in your language, consider using it. If not, here is another option:

(1) Add the missing words to the incomplete phrase or sentence.

Examples of Translation Strategies Applied

Euphemism

Description

A euphemism is a mild or polite way of referring to something that is unpleasant, embarrassing, or socially unacceptable, such as death or activities usually done in private.

... they found Saul and his sons **fallen** on Mount Gilboa.
(1 Chronicles 10:8b ULT)

This means that Saul and his sons “were dead.” It is a euphemism because the important thing was not that Saul and his sons had fallen but that they were dead. Sometimes people do not like to speak directly about death because it is unpleasant.

This page answers the question: *What is a euphemism?*

In order to understand this topic, it would be good to read:

Figures of Speech ([UTA PDF](#))

Reason This Is a Translation Issue

Different languages use different euphemisms. If the target language does not use the same euphemism as in the source language, readers may not understand what it means and they may think that the writer means only what the words literally say.

Examples From the Bible

... where there was a cave. Saul went inside to **cover his feet**. (1 Samuel 24:3b ULT)

The original hearers would have understood that Saul went into the cave to use it as a toilet, but the writer wanted to avoid offending or distracting them, so **he did not say specifically** what Saul did or what he left in the cave.

But Mary said to the angel, “How will this be, since I have not **known a man?**” (Luke 1:34 ULT)

In order **to be polite**, Mary uses a euphemism to say that she has never had sexual intercourse with a man.

Translation Strategies

If euphemism would be natural and give the right meaning in your language, consider using it. If not, here are other options:

- (1) Use a euphemism from your own culture.
- (2) State the information plainly without a euphemism if it would not be offensive.

Examples of Translation Strategies Applied

- (1) Use a euphemism from your own culture.

... where there was a cave. Saul went inside to **cover his feet**. (1 Samuel 24:3b ULT) — Some languages might use euphemisms like these:

“... where there was a cave. Saul went into the cave to **dig a hole**”

“... where there was a cave. Saul went into the cave to **have some time alone**”

But Mary said to the angel, “How will this be, since I have not **known a man?**” (Luke 1:34 ULT)

But Mary said to the angel, "How will this be, since I have not **slept with a man?**"

(2) State the information plainly without a euphemism if it would not be offensive.

Exclusive and Inclusive 'We'

Description

Some languages have more than one form of "we": an inclusive form that means "I and you" and an exclusive form that means "I and someone else but not you." The exclusive form excludes the person being spoken to. The inclusive form includes the person being spoken to and possibly others. This is also true for "us," "our," "ours," and "ourselves." Some languages have inclusive forms and exclusive forms for each of these. Translators whose language has separate exclusive and inclusive forms for these words will need to understand what the speaker meant so that they can decide which form to use.

This page answers the question: *What are the exclusive and inclusive forms of "we"?*

In order to understand this topic, it would be good to read:

[Pronouns \(UTA PDF\)](#)

See the pictures. The people on the right are the people that the speaker is talking to. The yellow highlight shows who the inclusive "we" and the exclusive "we" refer to.

Reason This Is a Translation Issue

The Bible was first written in the Hebrew, Aramaic, and Greek languages. Like English, these languages do not have separate exclusive and inclusive forms for "we." If your language has separate exclusive and inclusive forms of "we," then you will need to understand what the speaker meant so that you can decide which form of "we" to use.

Examples From the Bible

Exclusive

They said, "There are not more than five loaves of bread and two fish with us—unless **we** go and buy food for all these people." (Luke 9:13 ULT)

In the second clause, the disciples are talking about some of them going to buy food. They were speaking to Jesus, but Jesus was not going to buy food. So languages that have inclusive and exclusive forms of "we" would use the **exclusive** form there.

We have seen it, and **we** bear witness to it. **We** are announcing to you the eternal life, which was with the Father, and which has been made known to **us**. (1 John 1:2 ULT)

John is telling people who have not seen Jesus what he and the other apostles have seen. So languages that have inclusive and exclusive forms of "we" and "us" would use the **exclusive** forms in this verse.

Inclusive

The shepherds said one to each other, "Let **us** now go to Bethlehem, and see this thing that has happened, which the Lord has made known to **us**." (Luke 2:15b ULT)

The shepherds were speaking to one another. When they said “us,” they were including the people they were speaking to, so languages that have inclusive and exclusive forms of “we” and “us” would use the **inclusive** form in this verse.

Now it happened that on one of those days, he indeed got into a boat with his disciples, and he said to them, “Let **us** go over to the other side of the lake.” So they set sail. (Luke 8:22 ULT)

When Jesus said “us,” he was referring to himself and to the disciples he was speaking to, so languages that have inclusive and exclusive forms of “we” and “us” would use the **inclusive** form in this verse.

First, Second or Third Person

Normally a speaker refers to himself as “I” and the person he is speaking to as “you.” Sometimes in the Bible a speaker refers to himself or to the person he is speaking to with terms other than “I” or “you.”

Description

- First person — This is how a speaker normally refers to himself. English uses the pronouns “I” and “we.” (Also: me, my, mine; us, our, ours)
- Second person — This is how a speaker normally refers to the person or people he is speaking to. English uses the pronoun “you.” (Also: your, yours)
- Third person — This is how a speaker refers to someone else. English uses the pronouns “he,” “she,” “it,” and “they.” (Also: him, his, her, hers, its; them, their, theirs) Noun phrases like “the man” or “the woman” are also third person.

This page answers the question: *What are first, second, and third person, and how do I translate when a third person form does not refer to the third person?*

In order to understand this topic, it would be good to read:

Reason This Is a Translation Issue

Sometimes in the Bible a speaker uses the third person to refer to himself or to the people he is speaking to. Readers might think that the speaker was referring to someone else. They might not understand that he meant “I” or “you.”

Examples From the Bible

Sometimes people used the third person instead of “I” or “me” to refer to themselves.

But David said to Saul, “**Your servant** used to keep **his** father’s sheep.” (1 Samuel 17:34 ULT)

David referred to himself in the third person as “your servant” and used “his.” He was calling himself Saul’s servant in order to show his humility before Saul.

Then Yahweh answered Job out of a fierce storm and said,
“... Do you have an arm like **God’s**? Can you thunder with a voice like **his**?” (Job 40:6, 9 ULT)

God referred to himself in the third person with the words “God’s” and “his.” He did this to emphasize that he is God, and he is powerful.

Sometimes people use the third person instead of “you” or “your” to refer to the person or people they are speaking to.

Abraham answered and said, “Look, I have undertaken to speak to my Lord, even though I am only dust and ashes!” (Genesis 18:27 ULT)

Abraham was speaking to the Lord, and referred to the Lord as “My Lord” rather than as “you.” He did this to show his humility before God.

So also my heavenly Father will do to you, if **each of you** does not forgive **his** brother from your heart. (Matthew 18:35 ULT)

After saying “each of you,” Jesus used the third person “his” instead of “your.”

Translation Strategies

If using the third person to mean “I” or “you” would be natural and give the right meaning in your language, consider using it. If not, here are some other options.

- (1) Use the third person phrase along with the pronoun “I” or “you.”
- (2) Simply use the first person (“I”) or second person (“you”) instead of the third person.

Examples of Translation Strategies Applied

- (1) Use the third person phrase along with the pronoun “I” or “you.”

But David said to Saul, “**Your servant** used to keep **his** father’s sheep.” (1 Samuel 17:34)

But David said to Saul, “**I, your servant**, used to keep **my** father’s sheep.”

- (2) Simply use the first person (“I”) or second person (“you”) instead of the third person.

Then Yahweh answered Job out of a fierce storm and said, “... Do you have an arm like **God’s**? Can you thunder with a voice like **his**?” (Job 40:6, 9 ULT)

Then Yahweh answered Job out of a fierce storm and said, “... Do you have an arm like **mine**? Can you thunder with a voice like **mine**?”

So also my heavenly Father will do to you if **each of you** does not forgive **his** brother from your heart. (Matthew 18:35 ULT)

Singular, Dual, and Plural

Some languages have more than one word for “you” based on how many people the word “you” refers to. The **singular** form refers to one person, and the **plural** form refers to more than one person. Fractions

Description

A fraction is a number that represents part of a whole. When an item is divided into several equal parts, a fraction refers to one or more of those parts.

For the drink offering, you must offer **a third** of a hin of wine. (Numbers 15:7a ULT)

A hin is a container of a set size which is used for measuring wine and other liquids. The people were to think about dividing a hin container into three equal parts, filling up only one of those parts and offering that amount.

... **a third** of the ships were destroyed. (Revelation 8:9b ULT)

There were many ships. If all those ships were divided into three equal groups of ships, one group of ships was destroyed.

Most fractions in English simply have the letters “th” added to the end of the number, such as fourth, sixth, ninth, tenth.

| Number of parts the whole is divided into | Fraction | | ----- | ----- | | four | fourth | | ten | tenth | | one hundred | one hundredth | | one thousand | one thousandth |

Some fractions in English do not follow that pattern.

| Number of parts the whole is divided into | Fraction | | ----- | ----- | | two | half | | three | third | | five | fifth |

Reason This is a Translation Issue

Some languages do not use fractions. They may simply talk about parts or groups, but they do not use fractions to tell how big a part is or how many parts are included in a group.

Examples From the Bible

Now to the **half-tribe** of Manasseh, Moses had given a possession in Bashan, but to the other **half**, Joshua gave a possession among their brothers across the Jordan on the west. (Joshua 22:7 ULT)

The tribe of Manasseh divided into two groups. The phrase “the half-tribe of Manasseh” refers one of those groups. The phrase “the other half” refers to the other group.

So the four angels who had been prepared for that hour, that day, that month, and that year, were released so that they would kill **a third** of mankind. (Revelation 9:15 ULT)

If all the people in the world were to be divided into three equal groups, then the number of people in one group would be killed.

You must also prepare **a fourth** of a hin of wine as the drink offering. (Numbers 15:5 ULT)

They were to imagine dividing a hin of wine into four equal parts and prepare the amount equal to one of them.

Translation Strategies

If a fraction in your language would give the right meaning, consider using it. If not, you could consider these strategies.

- (1) Tell the number of parts or groups that the item would be divided into, and then tell the number of parts or groups that is being referred to.
- (2) For measurements such as for weight and length, use a unit that your people might know or the unit in the UST.
- (3) For measurements, use ones that are used in your language. In order to do that you would need to know how your measurements relates to the metric system and figure out each measurement.

Examples of These Translation Strategies Applied

- (1) Tell the number of parts or groups that the item would be divided into, and then tell the number of parts or groups that is being referred to.

A third of the ocean became red like blood (Revelation 8:8 ULT)

It was like they **divided** the ocean **into three parts**, and **one part** of the ocean became blood.

Then you must offer with the bull a grain offering of **three-tenths** of an ephah of fine flour mixed with **half a hin** of oil. (Numbers 15:9 ULT)

... then you must **divide** an ephah of fine flour **into ten parts** and **divide** a hin of oil **into two parts**. Then mix **three of those parts** of the flour with **one of the parts** of oil. Then you must offer that grain offering along with the bull.

- (2) For measurements, use the measurements that are given in the UST. The translators of the UST have already figured how to represent the amounts in the metric system.

... **two-thirds of a shekel** ... (1 Samuel 13:21b ULT)

... **eight grams** of silver ... (1 Samuel 13:21b UST)

... **three-tenths of an ephah** of fine flour mixed with **half a hin** of oil. (Numbers 15:9b ULT)

... **six and one-half liters** of finely ground flour mixed with **two liters** of olive oil. (Numbers 15:9b UST)

- (3) For measurements, use ones that are used in your language. In order to do that you would need to know how your measurements relates to the metric system and figure out each measurement.

... **three-tenths of an ephah** of fine flour mixed with **half a hin** of oil. (Numbers 15:9b ULT)

Go and Come

Description

This page answers the question: *What do I do if the word "go" or "come" is confusing in a certain sentence?*

Different languages have different ways of determining whether to use the words "go" or "come" and whether to use the words "take" or "bring" when talking about motion. For example, when saying that they are approaching a person who has called them, English speakers say "I'm coming," while Spanish speakers say "I'm going." You will need to study the context in order to understand what is meant by the words "go" and "come" (and also "take" and "bring"), and then translate those words in a way that your readers will understand which direction people are moving in.

Reason This Is a Translation Issue

Different languages have different ways of talking about motion. The biblical languages or your source language may use the words "go" and "come" or "take" and "bring" differently than your language uses them. If these words are not translated in the way that is natural in your language, your readers may be confused about which direction people are moving.

Examples From the Bible

Yahweh said to Noah, "**Come**, you and all your household, into the ark." (Genesis 7:1 ULT)

In some languages, this would lead people to think that Yahweh was in the ark.

But you will be free from my oath if you **come** to my relatives and they will not give her to you.
Then you will be free from my oath. (Genesis 24:41 ULT)

Abraham was speaking to his servant. Abraham's relatives lived far away from where he and his servant were standing and he wanted his servant to **go** to them, not **come** toward Abraham.

When you have **come** to the land that Yahweh your God gives you, and when you take possession of it and begin to live in it ... (Deuteronomy 17:14a ULT)

Moses is speaking to the people in the wilderness. They had not yet gone into the land that God was giving them. In some languages, it would make more sense to say, "When you have **gone** into the land ..."

They **brought** him up to the temple in Jerusalem to present him to the Lord. (Luke 2:22b ULT)

In some languages, it might make more sense to say that they **took** or **carried** Jesus to the temple.

Then see, there was a man whose name was Jairus, and he was a leader of the synagogue. And falling at the feet of Jesus, he begged him to come to his house. (Luke 8:41 ULT)

The man was not at his house when he spoke to Jesus. He wanted Jesus to **go** with him to his house.

What did you go out into the desert to see? A reed shaken by the wind? (Luke 7:24b ULT)

In some languages, it might make more sense to ask what did you come out to see.

Translation Strategies

If the word used in the ULT would be natural and give the right meaning in your language, consider using it. If not, here are other strategies.

(1) Use the word “go,” “come,” “take,” or “bring” that would be natural in your language.

(2) Use another word that expresses the right meaning.

Examples of Translation Strategies Applied

(1) Use the word “go,” “come,” “take,” or “bring” that would be natural in your language.

What did you come out into the desert to see? A reed shaken by the wind?

(2) Use another word that expresses the right meaning.

Hendiadys

Description

In a hendiadys, a speaker uses two words that mean different things and that are connected with “and.” These two words work together to express a single idea. Usually one of the words is the primary idea and the other word further describes the primary one.

... his own **kingdom and glory**. (1 Thessalonians 2:12b ULT)

Though “kingdom” and “glory” are both nouns, “glory” actually tells what kind of kingdom it is: it is a **kingdom of glory** or **a glorious kingdom**.

Two phrases connected by “and” can also be a hendiadys when they refer to a single person, thing, or event.

while we look forward to receiving **the blessed hope and appearing of the glory of our great God and Savior Jesus Christ**. (Titus 2:13b ULT)

Titus 2:13 contains two hendiadyses. “The blessed hope” and “appearing of the glory” refer to the same thing and serve to strengthen the idea that the return of Jesus Christ is greatly anticipated and wonderful. Also, “our great God” and “Savior Jesus Christ” refer to one person, not two.

Reasons This Is a Translation Issue

- Often a hendiadys contains an abstract noun. Some languages may not have a noun with the same meaning.
- Many languages do not use the hendiadys, so people may not understand that the second word is further describing the first one.
- Many languages do not use the hendiadys, so people may not understand that only one person or thing is meant, not two.

Examples From the Bible

For I will give you **a mouth and wisdom** ... (Luke 21:15a ULT)

“A mouth” and “wisdom” are nouns, but in this figure of speech “wisdom” describes what comes from the mouth.

If you are willing and obedient ... (Isaiah 1:19a ULT)

“Willing” and “obedient” are adjectives, but “willing” describes “obedient.”

Translation Strategies

If the hendiadys would be natural and give the right meaning in your language, consider using it. If not, here are other options:

- (1) Substitute the describing noun with an adjective that means the same thing.
- (2) Substitute the describing noun with a phrase that means the same thing.
- (3) Substitute the describing adjective with an adverb that means the same thing.

For I will give you **wise words** ...

Walk in a manner that is worthy of God, who calls you into **his own kingdom and glory**. (1 Thessalonians 2:12b ULT)

You should walk in a manner that is worthy of God, who calls you to **his own glorious kingdom**.

(2) Substitute the describing noun with a phrase that means the same thing.

For I will give you **a mouth and wisdom** ... (Luke 21:15a ULT)

You should walk in a manner that is worthy of God, who calls you to **his own kingdom of glory**.

(3) Substitute the describing adjective with an adverb that means the same thing.

If you are **willingly obedient** ...

(4) Substitute other parts of speech that mean the same thing and show that one word or phrase describes the other.

If you are willing and obedient ... (Isaiah 1:19a ULT)

The adjective "obedient" can be substituted with the verb "obey."

if you **obey willingly** ...

(4) and (5) If it is unclear that only one thing is meant, change the phrase so that this is clear.

We look forward to receiving **the blessed hope and appearing of the glory of our great God and Savior Jesus Christ**. (Titus 2:13b ULT)

The noun "glory" can be changed to the adjective "glorious" to make it clear that Jesus' appearing is what we hope for. Also, "Jesus Christ" can be moved to the front of the phrase and "great God and Savior" put into a relative clause that describes the one person, Jesus Christ.

We look forward to receiving **what we are longing for, the blessed and glorious appearing of Jesus Christ, who is our great God and Savior**.

How to Translate Names

Description

The Bible contains the names of many people, groups of people, and places. Some of these names may sound strange and be hard to say. Sometimes readers may not know what a name refers to, and sometimes they may need to understand what a name means. This page will help you see how you can translate these names and how you can help people understand what they need to know about them.

This page answers the question: *How can I translate names that are new to my culture?*

In order to understand this topic, it would be good to read:

Translate Unknowns ([UTA PDF](#))

Meaning of names

Most names in the Bible have meaning. Most of the time, names in the Bible are used simply to identify the people and places they refer to, but sometimes the meaning of a name is especially important.

For this **Melchizedek**, king of Salem, priest of God Most High, was the one who met Abraham returning from the slaughter of the kings and blessed him. (Hebrews 7:1 ULT)

Here the writer uses the name “Melchizedek” primarily to refer to a man who had that name, and the title “king of Salem” tells us that he ruled over a certain city.

His name first indeed means “king of righteousness,” and then also “king of Salem,” that is, “king of peace.” (Hebrews 7:2b ULT)

Here the writer explains the meanings of Melchizedek’s name and title because those things tell us more about the person. Other times, the writer does not explain the meaning of a name because he expects the reader to already know the meaning. If the meaning of the name is important to understand the passage, you can include the meaning in the text or in a footnote.

Reasons This Is a Translation Issue

- Readers may not know some of the names in the Bible. They may not know whether a name refers to a person or place or something else.
- Readers may need to understand the meaning of a name in order to understand the passage.
- Some names may have different sounds or combinations of sounds that are not used in your language or are unpleasant to say in your language. For strategies to address this problem, see [Borrow Words](#).
- Some people and places in the Bible have two names. Readers may not realize that two names refer to the same person or place.

Examples From the Bible

Then you crossed over the **Jordan** and came to **Jericho**, and the men of Jericho, and the **Amorites** ... fought against you, but I gave them into your hand. (Joshua 24:11 ULT)

Readers might not know that “Jordan” is the name of a river, “Jericho” is the name of a city, and “Amorites” is the name of a group of people.

She said, “Do I really continue to see, even after he has seen me?” Therefore, the well was called **Beer Lahai Roi**. (Genesis 16:13b-14a ULT)

Readers may not understand the second sentence if they do not know that “Beer Lahai Roi” means “Well of the Living One who sees me.”

And she called his name **Moses** and she said, "For out of the water I drew him." (Exodus 2:10b ULT)

Readers may not understand why she said this if they do not know that the name Moses sounds like the Hebrew words "pull out."

Saul was in agreement with his execution. (Acts 8:1a ULT)

But when the apostles, Barnabas and **Paul**, heard of it, they tore their clothing. (Acts 14:14a ULT)

Readers may not know that the names Saul and Paul refer to the same person.

Translation Strategies

(1) If readers cannot easily understand from the context what kind of a thing a name refers to, you can add a word to clarify it.

(2) If readers need to understand the meaning of a name in order to understand what is said about it, copy the name and tell about its meaning either in the text or in a footnote.

(3) Or if readers need to understand the meaning of a name in order to understand what is said about it, and that name is used only once, translate the meaning of the name instead of copying the name.

(4) If a person or place has two different names, use one name most of the time and the other name only when the text tells about the person or place having more than one name or when it says something about why the person or place was given that name. Write a footnote when the source text uses the name that is used less frequently.

(5) Or if a person or place has two different names, then use whatever name is given in the source text, and add a footnote that gives the other name.

Examples of Translation Strategies Applied

(1) If readers cannot easily understand from the context what kind of a thing a name refers to, you can add a word to clarify it.

Then you crossed over the **Jordan** and came to **Jericho**, and the men of Jericho, and the **Amorites** ... fought against you, but I gave them into your hand. (Joshua 24:11 ULT)

You went over the **Jordan River** and came to the **city of Jericho**. The men of Jericho fought against you, along with **the tribe of the Amorites**.

At that hour, certain Pharisees approached, saying to him, "Leave and go away from here, because **Herod** wants to kill you." (Luke 13:31 ULT)

At that hour, certain Pharisees approached, saying to him, "Go and leave here, because **King Herod** wants to kill you."

(2) If readers need to understand the meaning of a name in order to understand what is said about it, copy the name and tell about its meaning either in the text or in a footnote.

And she called his name **Moses** and she said, "For out of the water I drew him." (Exodus 2:10b ULT)

She called his name **Moses (which sounds like ‘drawn out’)**, and she said,
“For out of the water I drew him.”

(3) Or if readers need to understand the meaning of a name in order to understand what is said about it, and that name is used only once, translate the meaning of the name instead of copying the name.

She said, “Do I really continue to see, even after he has seen me?” Therefore, the well was called **Beer Lahai Roi**. (Genesis 16:13b-14a ULT)

She said, “Do I really continue to see, even after he has seen me?”
Therefore, the well was called **Well of the Living One who sees me**.

(4) If a person or place has two different names, use one name most of the time and the other name only when the text tells about the person or place having more than one name or when it says something about why the person or place was given that name. Write a footnote when the source text uses the name that is used less frequently. For example, Paul is called “Saul” before Acts 13 and “Paul” after Acts 13. You could translate his name as “Paul” all of the time, except in Acts 13:9 where it talks about him having both names.

... a young man named **Saul**. (Acts 7:58b ULT)

... a young man named **Paul** ¹

The footnote would look like:

^[1] Most versions say “Saul” here, but most of the time in the Bible he is called “Paul.”

Then later in the story, you could translate this way:

But **Saul**, who is also called **Paul**, was filled with the Holy Spirit; (Acts 13:9)

But **Saul**, who is also called **Paul**, was filled with the Holy Spirit;

(5) Or if a person or place has two names, use whatever name is given in the source text, and add a footnote that gives the other name. For example, you could write “Saul” where the source text has “Saul” and “Paul” where the source text has “Paul.”

a young man named **Saul** (Acts 7:58 ULT)

a young man named **Saul**

The footnote would look like:

^[1] This is the same man who is called Paul beginning in Acts 13.

Then later in the story, you could translate this way:

But **Saul**, who is also called **Paul**, was filled with the Holy Spirit; (Acts 13:9)

But **Saul**, who is also called **Paul**, was filled with the Holy Spirit;

Then after the story has explained the name change, you could translate this way.

It came about in Iconium that **Paul** and Barnabas entered together into the synagogue (Acts 14:1 ULT)

It came about in Iconium that **Paul**¹ and Barnabas entered together into the synagogue

The footnote would look like:

[1] This is the same man who was called Saul before Acts 13.

Hyperbole

Description

A speaker or writer can use exactly the same words to say something that he means as completely true, or as generally true, or as a hyperbole. This is why it can be hard to decide how to understand a statement. For example, the sentence below could mean three different things.

It rains here every night.

The speaker means this as literally true if he means that it really does rain here every night.

The speaker means this as a **generalization** if he means that it rains here most nights.

The speaker means this as a **hyperbole** if he wants to say that it rains more than it actually does, usually in order to express a strong attitude toward the amount or frequency of rain, such as being annoyed or being happy about it.

This page answers the question: *What are hyperboles? What are generalizations? How can I translate them?*

In order to understand this topic, it would be good to read:

Figures of Speech ([UTA PDF](#))

Hyperbole

In hyperbole, a figure of speech that uses exaggeration, a speaker deliberately describes something with an extreme or even unreal statement, usually to show his strong feeling or opinion about it. He expects people to understand that he is exaggerating.

They will not leave **stone upon stone in you**. (Luke 19:44b ULT)

This is an exaggeration. It means that the enemies will completely destroy Jerusalem.

Moses was educated in **all the wisdom of the Egyptians**. (Acts 7:22a ULT)

This hyperbole means that he had learned everything an Egyptian education could offer.

Generalization

This is a statement that is true most of the time or in most situations that it could apply to.

The one who ignores instruction **will have poverty and shame**, but **honor will come** to him who learns from correction. (Proverbs 13:18)

These generalizations tell about what normally happens to people who ignore instruction and what normally happens to people who learn from correction. There may be some exceptions to these statements, but they are generally true.

And when you pray, do not make useless repetitions as **the Gentiles do, for they think that they will be heard because of their many words**. (Matthew 6:7)

This generalization tells about what Gentiles were known for doing. Many Gentiles did this. It does not matter if a few did not. The point was that the hearers should not join in this well-known practice.

Even though a hyperbole or a generalization may have a strong-sounding word like “all,” “always,” “none,” or “never,” it does not necessarily mean **exactly** “all,” “always,” “none,” or “never.” It simply means “most,” “most of the time,” “hardly any,” or “rarely.”

Reason This Is a Translation Issue

Readers need to be able to understand whether or not a statement is literally true.

If readers realize that a statement is not literally true, they need to be able to understand whether it is a hyperbole, a generalization, or a lie. (Though the Bible is completely true, it tells about people who did not always tell the truth.)

Examples From the Bible

Examples of Hyperbole

If your hand causes you to stumble, **cut it off**. It is better for you to enter into life maimed ... (Mark 9:43a ULT)

When Jesus said to cut off your hand, he meant that we should **do whatever extreme things** we need to do in order not to sin. He used this hyperbole to show how extremely important it is to try to stop sinning.

The Philistines gathered together to fight against Israel with 3,000 chariots, 6,000 men to drive the chariots, and troops **as numerous as the sand on the seashore**. (1 Samuel 13:5a ULT)

The bolded phrase is an exaggeration for the purpose of expressing the emotion that the Philistine army was overwhelming in number. It means that there were **many, many** soldiers in the Philistine army.

But as his anointing teaches you **everything** and is true and is not a lie, and just as it has taught you, remain in him. (1 John 2:27b ULT)

This is a hyperbole. It expresses the assurance that God's Spirit teaches us about **all things that we need to know**. God's Spirit does not teach us about everything that it is possible to know.

When they found him, they also said to him, "**Everyone** is looking for you." (Mark 1:37 ULT)

The disciples probably did not mean that everyone in the city was looking for Jesus, but that **many people** were looking for him, or that all of Jesus' closest friends there were looking for him. This is an exaggeration for the purpose of expressing the emotion that they and many others were worried about him.

Examples of Generalization

Can **any good thing** come out of Nazareth? (John 1:46b ULT)

This rhetorical question is meant to express the generalization that there is nothing good in Nazareth. The people there had a reputation for being uneducated and not strictly religious. Of course, there were exceptions.

One of them, of their own prophets, has said, "**Cretans are always liars, evil beasts, lazy bellies**." (Titus 1:12 ULT)

This is a generalization that means that Cretans had a reputation to be like this because, in general, this is how Cretans behaved. It is possible that there were exceptions.

A lazy hand causes a person to be poor, but the hand of the diligent person gains riches. (Proverbs 10:4 ULT)

This is generally true, and it reflects the experience of most people. It is possible that there are exceptions in some circumstances.

Caution

- Do not assume that something is an exaggeration just because it seems to be impossible. God does miraculous things.

They saw Jesus **walking on the sea** and coming near the boat. (John 6:19b ULT)

This is not hyperbole. Jesus really walked on the water. It is a literal statement.

- Do not assume that the word “all” is always a generalization that means “most.”

> Yahweh is righteous in **all** his ways
> and gracious in **all** he does. (Psalms 145:17 ULT)

Yahweh is always righteous. This is a completely true statement.

Translation Strategies

If the hyperbole or generalization would be natural and people would understand it and not think that it is a lie, consider using it. If not, here are other options.

- (1) Express the meaning without the exaggeration.
- (2) For a generalization, show that it is a generalization by using a phrase like “in general” or “in most cases.”
- (3) For a hyperbole or a generalization, add a word like “many” or “almost” to show that the hyperbole or generalization is not meant to be exact.
- (4) For a hyperbole or a generalization that has a word like “all,” “always,” “none,” or “never,” consider deleting that word.

Examples of Translation Strategies Applied

The Philistines gathered together to fight against Israel: 3,000 chariots, 6,000 men to drive the chariots, and troops **as numerous as the sand on the seashore**. (1 Samuel 13:5a ULT)

The Philistines gathered together to fight against Israel: 3,000 chariots, 6,000 men to drive the chariots, and **a great number of troops**.

- (2) For a generalization, show that it is a generalization by using a phrase like “in general” or “in most cases.”

The one who ignores instruction will have poverty and shame. (Proverbs 13:18a ULT)

In general, the one who ignores instruction will have poverty and shame

When you pray, do not make useless repetitions as the **Gentiles do**, for they think that they will be heard because of their many words. (Matthew 6:7 ULT)

The **whole** country of Judea and **all** the people of Jerusalem went out to him. (Mark 1:5a ULT)

Almost all the country of Judea and **almost all** the people of Jerusalem went out to him.
or:

Many of the country of Judea and **many** of the people of Jerusalem went out to him.

(4) For a hyperbole or a generalization that has a word like “all,” “always,” “none,” or “never,” consider deleting that word.

The **whole** country of Judea and **all** the people of Jerusalem went out to him. (Mark 1:5a ULT)

Hypothetical Situations

Consider these phrases: “If the sun stopped shining ...” “What if the sun stopped shining ...” “Suppose the sun stopped shining ...” and “If only the sun had not stopped shining.” We use such expressions to set up hypothetical situations, imagining what might have happened or what could happen in the future but probably will not. We also use them to express regret or wishes. Hypothetical expressions occur often in the Bible. You (the translator) need to translate them in a way that people will know that the event did not actually happen and so that they will understand why the event was imagined.

This page answers the question: *What is a hypothetical situation?*

In order to understand this topic, it would be good to read:

Writing Styles ([UTA PDF](#))

Description

Hypothetical situations are situations that are not real. They can be in the past, present, or future. Hypothetical situations in the past and present have not happened, are not happening now, and ones in the future are not expected to happen.

People sometimes tell about conditions and what would happen if those conditions were met, but they know that these things have not happened or probably will not happen. (The conditions comprise a phrase that starts with “if.”)

- If he had lived to be 100 years old, he would have seen his grandson’s grandson. (But he did not.)
- If he lived to be 100 years old, he would still be alive today. (But he is not.)
- If he lives to be 100 years old, he will see his grandson’s grandson. (But he probably will not.)

People sometimes express wishes about things that have not happened or that are not expected to happen.

- I wish he had come.
- I wish he were here.
- I wish he would come.

People sometimes express regrets about things that have not happened or that are not expected to happen.

- If only he had come.
- If only he were here.
- If only he would come.

Reason This Is a Translation Issue

- Translators need to recognize the different kinds of hypothetical situations in the Bible and understand that they are unreal.
- Translators need to know their own language’s ways of talking about different kinds of hypothetical situations.

Examples From the Bible

Hypothetical Situations in the Past

“Woe to you, Chorazin! Woe to you, Bethsaida! **If the mighty deeds had been done** in Tyre and Sidon which were done in you, **they would have repented** long ago in sackcloth and ashes.” (Matthew 11:21 ULT)

Here in Matthew 11:21, Jesus said that **if** the people living in the ancient cities of Tyre and Sidon had been able to see the miracles that he performed, they would have repented long ago. The people of Tyre and Sidon did not actually see his miracles, and they did not repent. He said this to rebuke the people of Chorazin and Bethsaida who had seen his miracles and yet did not repent.

Martha then said to Jesus, “Lord, **if you had been here, my brother would not have died.**” (John 11:21 ULT)

Martha said this to express her wish that Jesus would have come sooner so that her brother would not have died. But Jesus did not come sooner and her brother did die.

Hypothetical Situations in the Present

And no man puts new wine into old wineskins. **But if he did do that, the new wine would burst the wineskins, and it would be spilled out, and the wineskins would be destroyed.** (Luke 5:37 ULT)

Jesus told about what would happen if a person were to put new wine into old wineskins. But no one would do that. He used this imaginary situation as an example to show that there are times when it is unwise to mix new things with old things. He did this so that people could understand why his disciples were not fasting as people traditionally did.

Jesus said to them, “What man would there be among you, who, **if he had just one sheep, and if this sheep fell into a deep hole on the Sabbath, would not grasp hold of it and lift it out?**” (Matthew 12:11 ULT)

Jesus asked the religious leaders what they would do on the Sabbath if one of their sheep fell into a hole. He was not saying that their sheep would fall into a hole. He used this imaginary situation to show them that they were wrong to judge him for healing people on the Sabbath.

Hypothetical Situation in the Future

Unless those days are shortened, no flesh would be saved. But for the sake of the elect, those days will be shortened. (Matthew 24:22 ULT)

Jesus was talking about a future time when very bad things would happen. He told what would happen if those days of trouble were to last a long time. He did this to show how bad those days will be—so bad that if they lasted a long time, no one would be saved. But then he clarified that God will shorten those days of trouble so that the elect (those he has chosen) will be saved.

Expressing Emotion About a Hypothetical Situation

People sometimes talk about hypothetical situations in order to express regrets and wishes. Regrets are about the past and wishes are about the present and future.

The Israelites said to them, “**If only we had died by Yahweh’s hand in the land of Egypt when we were sitting by the pots of meat and were eating bread to the full.** For you have brought us out into this wilderness to kill our whole community with hunger.” (Exodus 16:3 ULT)

Here the Israelites were afraid that they would have to suffer and die of hunger in the wilderness, and so they wished that they had stayed in Egypt and died there with full stomachs. They were complaining, expressing regret that this had not happened.

I know what you have done, and that you are neither cold nor hot. **I wish that you were either cold or hot!** (Revelation 3:15 ULT)

Jesus wished that the people were either hot or cold, but they are neither. He was rebuking them, expressing anger at this.

Translation Strategies

Find out how people speaking your language show:

- that something could have happened, but did not.
- that something could be true now, but is not.
- that something could happen in the future, but will not unless something changes.
- that they wish for something, but it does not happen.
- that they regret that something did not happen.

Use your language's ways of showing these kinds of things.

Idiom

An idiom is a figure of speech made up of a group of words that, as a whole, has a meaning that is different from what one would understand from the meanings of the individual words. Someone from outside of the culture usually cannot understand an idiom without someone inside the culture explaining its true meaning. Every language uses idioms. Some English examples are:

- You are pulling my leg. (This means, “You are teasing me by telling me something that is not true.”)
- Do not push the envelope. (This means, “Do not take a matter to its extreme.”)
- This house is under water. (This means, “The debt owed for this house is greater than its actual value.”)
- We are painting the town red. (This means, “We are going around town tonight celebrating very intensely.”)

This page answers the question: *What are idioms and how can I translate them?*

In order to understand this topic, it would be good to read:

Figures of Speech ([UTA PDF](#))

Description

An idiom is a phrase that has a special meaning to the people of the language or culture who use it. Its meaning is different than what a person would understand from the meanings of the individual words that form the phrase.

He **set his face** to go to Jerusalem. (Luke 9:51b ULT)

The words “set his face” is an idiom that means “decided.”

Sometimes people may be able to understand an idiom from another culture, but it might sound like a strange way to express the meaning.

I am not worthy that you would **come under my roof**. (Luke 7:6b ULT)

The phrase “come under my roof” is an idiom that means “enter my house.”

Put these words **into your ears**. (Luke 9:44a ULT)

This idiom means “Listen carefully and remember what I say.”

Purpose: An idiom is probably created in a culture somewhat by accident when someone describes something in an unusual way. But, when that unusual way communicates the message powerfully and people understand it clearly, other people start to use it. After a while, it becomes a normal way of talking in that language.

Reasons This Is a Translation Issue

- People can easily misunderstand idioms in the original languages of the Bible if they do not know the cultures that produced the Bible.
- People can easily misunderstand idioms that are in the source language Bibles if they do not know the cultures that made those translations.
- It is useless to translate idioms literally (according to the meaning of each word) when the target language audience will not understand what they mean.

Examples From the Bible

Then all Israel came to David at Hebron and said, “Look, we are your **flesh and bone**.” (1 Chronicles 11:1 ULT)

This means, “We and you belong to the same race, the same family.”

■ The children of Israel went out **with a high hand**. (Exodus 14:8b ASV)

This means, "The Israelites went out defiantly."

■ the one who **lifts up my head** (Psalm 3:3b ULT)

This means, "the one who helps me."

Translation Strategies

If the idiom would be clearly understood in your language, consider using it. If not, here are some other options.

- (1) Translate the meaning plainly without using an idiom.
- (2) Use a different idiom that people use in your own language that has the same meaning.

Introduction of a New Event

Description

When people tell a story, they tell about an event or a series of events. Often they put certain information at the beginning of the story, such as who the story is about, when it happened, and where it happened. This information that the writer gives before the events of the story begin is called the setting of the story. Some new events in a story also have a setting because they might involve new people, new times, and new places. In some languages, people also tell if they saw the event or heard about it from someone else.

This page answers the question: *How do we introduce a new event in a story?*

In order to understand this topic, it would be good to read:

Writing Styles ([UTA PDF](#))

Order of Events ([UTA PDF](#))

When your people tell about events, what information do they give at the beginning? Is there a certain order that they put it in? In your translation, you will need to follow the way your language introduces new information at the beginning of a story or a new event rather than the way the source language did that. In this way your translation will sound natural and communicate clearly in your language.

Examples From the Bible

In the days of Herod, king of Judea, **there was a certain priest named Zechariah**, from the division of Abijah. And **his wife was** from the daughters of Aaron, and her name was Elizabeth. (Luke 1:5 ULT)

The verses above introduce a story about Zechariah. The first bolded phrase tells when it happened, and the next two bolded phrases introduce the main people. The next two verses go on to explain that Zechariah and Elizabeth were old and did not have any children. All of this is the setting. Then the phrase “And it happened that” in Luke 1:8 helps to introduce the first event in this story:

And it happened that in his performing as priest before God, in the order of his division, according to the custom of the priesthood, he came up by lot to enter into the temple of the Lord to burn incense. (Luke 1:8-9 ULT)

The birth of Jesus Christ happened in the following way. His mother, Mary, was engaged to marry Joseph, but before they came together, she was found to be pregnant by the Holy Spirit. (Matthew 1:18 ULT)

The bolded sentence above makes it explicit that a story about Jesus is being introduced. The story will tell about how the birth of Jesus happened.

Now after Jesus was born in Bethlehem of Judea in the days of Herod the king, behold, learned men from the east arrived in Jerusalem. (Matthew 2:1 ULT)

The bolded phrase above shows that the events concerning the learned men happened **after** Jesus was born.

Now in those days John the Baptist came preaching in the wilderness of Judea. (Matthew 3:1-22 ULT)

The bolded phrase above shows that John the Baptist came preaching around the time of the previous events. It is probably very general and refers to when Jesus lived in Nazareth.

Then Jesus came from Galilee to the Jordan River to John, to be baptized by him. (Matthew 3:13 ULT)

The word “then” shows that Jesus came to the Jordan River some time after the events in the previous verses.

Now there was **a man from the Pharisees whose name was Nicodemus, a Jewish leader**.
This man came to Jesus at night. (John 3:1-2a ULT)

The author first introduced the new person and then told about what he did and when he did it. In some languages, it might be more natural to tell about the time first.

6 Noah was 600 years old when the flood came upon the earth. 7 Noah, his sons, his wife, and his sons' wives went into the ark together because of the waters of the flood. (Genesis 7:6-7 ULT)

Verse 6 is a statement of the events that happen in the rest of chapter 7. Chapter 6 already told about how God told Noah that there would be a flood, and how Noah prepared for it. Chapter 7 verse 6 introduces the part of the story that tells about Noah and his family and the animals going into the ship, the rain starting, and the rain flooding the earth. Some languages might need to make it clear that this verse simply introduces the event, or move this verse after verse 7. Verse 6 is not one of the events of the story. The people went into the ship before the flood came.

Translation Strategies

If the information given at the beginning of a new event is clear and natural to your readers, consider translating it as it is in the ULT or UST. If not, consider one of these strategies:

- (1) Put the information that introduces the event in the order that your people put it.
- (2) If readers would expect certain information but it is not in the Bible, consider using an indefinite word or phrase to fill in that information, such as: "another time" or "someone."
- (3) If the introduction is a summary of the whole event, use your language's way of showing that it is a summary.
- (4) If it would be strange in the target language to give a summary of the event at the beginning, indicate that the event would actually happen later in the story.

Examples of Translation Strategies Applied

- (1) Put the information that introduces the event in the order that your people put it.

Now there was **a man from the Pharisees whose name was Nicodemus, a Jewish leader**.
This man came to Jesus at night. (John 3:1-2a ULT)

There was a **man whose name was Nicodemus. He was a Pharisee and a member of the Jewish Council**. One night he came to Jesus.

One night **a man named Nicodemus, who was a Pharisee and a member of the Jewish Council**, came to Jesus.

As he passed by, **he saw Levi the son of Alpheus, sitting** at the tax collector's tent, and he said to him ... (Mark 2:14a ULT)

As he passed by, **Levi the son of Alpheus was sitting** at the tax collector's tent. Jesus saw him and said to him ...

As he passed by, **there was a man sitting** at the tax collector's tent. His name was Levi, and he was the son of Alpheus. Jesus saw him and said to him ...

As he passed by, **there was a tax collector** sitting at the tax collector's tent. His name was Levi, and he was the son of Alpheus. Jesus saw him and said to him ...

(2) If readers would expect certain information, but it is not in the Bible, consider using an indefinite word or phrase such as "another time," or "someone."

Noah was 600 years old when the flood came upon the earth. (Genesis 7:6 ULT) — If people expect to be told something about when the new event happened, the phrase "after that" can help them see that it happened after the events already mentioned.

After that, when Noah was 600 years old, the flood came upon the earth.

Again he began to teach beside the sea. (Mark 4:1a ULT) — In chapter 3 Jesus was teaching at someone's house. Readers may need to be told that this new event happened at another time, or that Jesus actually went to the sea.

Another time Jesus began to teach people again beside the sea.

Jesus went to the sea and **began to teach people again** there.

(3) If the introduction is a summary of the whole event, use your language's way of showing that it is a summary.

Noah was 600 years old when the flood came upon the earth. (Genesis 7:6 ULT)

Now this is what happened when Noah was 600 years old and the flood came upon the earth.

This part tells about what happened when the flood came upon the earth. It happened when Noah was 600 years old.

(4) If it would be strange in the target language to give a summary of the event at the beginning, show that the event will actually happen later in the story.

Noah was 600 years old when the flood came upon the earth. Noah, his sons, his wife, and his sons' wives went into the ark together because of the waters of the flood. (Genesis 7:6-7 ULT)

Now this is what happened when Noah was 600 years old. Noah, his sons, his wife, and his sons' wives went into the ark together because **God had said that the waters of the flood would come**.

Introduction of New and Old Participants

Description

The first time that people or things are mentioned in a story, they are **new participants**. After that, whenever they are mentioned, they are **old participants**.

Now **there was a man from the Pharisees whose name was Nicodemus** ... **This man** came to Jesus at night ... Jesus replied and said to **him** ... (John 3:1, 2a, 3a)

This page answers the question: *Why cannot the readers of my translation understand who the author was writing about?*

In order to understand this topic, it would be good to read:

Parts of Speech ([UTA PDF](#))

Writing Styles ([UTA PDF](#))

The first bolded phrase introduces Nicodemus as a new participant. After being introduced, he is then referred to as “This man” and “him” when he has become an old participant.

Reason This Is a Translation Issue

In order to make your translation clear and natural, it is necessary to refer to the participants in such a way that people will know if they are new participants or participants that they have already read about. Different languages have different ways of doing this. You must follow the way that your language does this, not the way that the source language does this.

Examples From the Bible

New Participants

Often the most important new participant is introduced with a phrase that says that he existed, such as “There was a man,” as in the example below. The phrase “There was” tells us that this man existed. The word “a” in “a man” tells us that the author is speaking about him for the first time. The rest of the sentence tells where this man was from, who his family was, and what his name was.

Now there was a man from Zorah, of the families of the Danites, and his name was Manoah. (Judges 13:2a ULT)

A new participant who is not the most important participant is often introduced in relation to the more important person who was already introduced. In the example below, Manoah’s wife is simply referred to as “his wife.” This phrase shows her relationship to him.

Now there was one man from Zorah, of the families of the Danites, and his name was Manoah. **His wife** was barren and she had never given birth. (Judges 13:2 ULT)

Sometimes a new participant is introduced simply by name because the author assumes that the readers know who the person is. In the first verse of 1 Kings, the author assumes that his readers know who King David is, so there is no need to explain who he is.

Now King David was old, he had advanced in the days, and they covered him with the garments, but it was not warm enough for him. (1 Kings 1:1 ULT)

Old Participants

A person who has already been brought into the story can be referred to with a pronoun after that. In the example below, Manoah is referred to with the pronoun “his,” and his wife is referred to with the pronoun “she.”

His **wife** was barren and **she** had never given birth. (Judges 13:2 ULT)

Old participants can also be referred to in other ways, depending on what is happening in the story. In the example below, the story is about bearing a son, and Manoah's wife is referred to by the noun phrase "the wife."

The angel of Yahweh appeared to **the wife** and he said to her ... (Judges 13:3a ULT)

If the old participant has not been mentioned for a while, or if there could be confusion between participants, the author may use the participant's name again. In the example below, Manoah is referred to by his name, which the author has not used since verse 2.

Then **Manoah** prayed to Yahweh. (Judges 13:8a ULT)

Some languages place an affix on the verb that tells something about the subject. In some of those languages, people do not always use noun phrases or pronouns for old participants when they are the subject of the sentence. The marker on the verb gives enough information for the listener to understand who the subject is. (See [Verbs](#).)

Translation Strategies

- (1) If the participant is new, use one of your language's ways of introducing new participants.
- (2) If it is not clear to whom a pronoun refers, use a noun phrase or name.
- (3) If an old participant is referred to by name or a noun phrase, and people wonder if this is another new participant, try using a pronoun instead. If a pronoun is not needed because people would understand it clearly from the context, then leave out the pronoun.

Examples of Translation Strategies Applied

- (1) If the participant is new, use one of your language's ways of introducing new participants.

Then Joseph, who was called Barnabas by the apostles (which is translated as Son of Encouragement), a Levite from Cyprus by birth ... (Acts 4:36-37 ULT) — Starting the sentence with Joseph's name when he has not been introduced yet might be confusing in some languages.

There was a man from Cyprus who was a Levite. His name was Joseph, and he was given the name Barnabas by the apostles (that is, being interpreted, Son of Encouragement). There was a Levite from Cyprus whose name was Joseph. The apostles gave him the name Barnabas, which means Son of encouragement.

- (2) If it is not clear who a pronoun refers to, use a noun phrase or name.

And it happened that when he was praying in a certain place, when he stopped, one of his disciples said to him, "Lord, teach us to pray just as John also taught his disciples." (Luke 11:1 ULT) — Since this is the first verse in a chapter, readers might wonder who "he" refers to.

It happened when **Jesus** finished praying in a certain place, that one of his disciples said, "Lord, teach us to pray just as John taught his disciples."

- (3) If an old participant is referred to by name or a noun phrase, and people wonder if this is another new participant, try using a pronoun instead. If a pronoun is not needed because people would understand it clearly from the context, then leave out the pronoun.

Joseph's master took Joseph and put him in prison, in the place where all the king's prisoners were put, and Joseph stayed there. (Genesis 39:20) — Since Joseph is the main person in the story, some languages might prefer the pronoun.

Joseph's master took **him** and put **him** in prison, in the place where all the king's prisoners were put, and **he** stayed there in the prison.

Irony

Description

Irony is a figure of speech in which the sense that the speaker intends to communicate is actually the opposite of the literal meaning of the words. Sometimes a person does this by using someone else's words, but in a way that communicates that he does not agree with them. People do this to emphasize how different something is from what it should be, or how someone else's belief about something is wrong or foolish. It is often humorous.

This page answers the question: *What is irony and how can I translate it?*

In order to understand this topic, it would be good to read:

Figures of Speech ([UTA PDF](#))

Then Jesus answered and said to them, "People who are well do not have need of a physician, but those who have sickness. I did not come to call the righteous, but sinners to repentance."
(Luke 5:31-32 ULT)

When Jesus spoke of "righteous people," he was not referring to people who were truly righteous, but to people who wrongly believed that they were righteous. By using irony, Jesus communicated that they were wrong to think that they were better than others and did not need to repent.

Reason This Is a Translation Issue

If someone does not realize that a speaker is using irony, he will think that the speaker actually believes what he is saying. He will understand the passage to mean the opposite of what it was intended to mean.

Examples From the Bible

How well you reject the commandment of God so that you may keep your tradition! (Mark 7:9b ULT)

Here Jesus praises the Pharisees for doing something that is obviously wrong. Through irony, he communicates the opposite of praise: He communicates that the Pharisees, who take great pride in keeping the commandments, are so far from God that they do not even recognize that their traditions are breaking God's commandments. The use of irony makes the Pharisee's sin more obvious and startling.

"Present your case," says Yahweh; "present your best arguments for your idols," says the King of Jacob. **"Let them bring us their own arguments; have them come forward and declare to us what will happen, so we may know these things well. Have them tell us of earlier predictive declarations, so we can reflect on them and know how they were fulfilled."** (Isaiah 41:21-22 ULT)

People worshiped idols as if their idols had knowledge or power, and Yahweh was angry at them for doing that. So he used irony and challenged their idols to tell what would happen in the future. He knew that the idols could not do this, but by speaking as if they could, he mocked the idols, making their inability more obvious, and rebuked the people for worshiping them.

Can you lead light and darkness to their places of work?
Can you find the way back to their houses for them?
Undoubtedly you know, for you were born then; "the number of your days is so large!" (Job 38:20-21 ULT)

Job thought that he was wise. Yahweh used irony to show Job that he was not so wise. The two phrases in bold above are irony. They emphasize the opposite of what they say, because they are so obviously false. They

emphasize that Job could not possibly answer God's questions about the creation of light because Job was not born until many, many years later.

Already you are satisfied! Already you have become rich! **You began to reign** apart from us, and I wish you really did reign, so that we also might reign with you. (1 Corinthians 4:8 ULT)

The Corinthians considered themselves to be very wise, self-sufficient, and not in need of any instruction from the Apostle Paul. Paul used irony, speaking as if he agreed with them, to show how proudly they were acting and how far from being wise they really were.

Translation Strategies

If the irony would be understood correctly in your language, translate it as it is stated. If not, here are some other strategies.

(1) Translate it in a way that shows that the speaker is saying what someone else believes.

(2) The irony is **not** found in the literal words of the speaker, but instead the true meaning is found in the opposite of the literal meaning of the speaker's words.

Examples of Translation Strategies Applied

(1) Translate it in a way that shows that the speaker is saying what someone else believes.

How well you reject the commandment of God so that you may keep your tradition! (Mark 7:9a ULT)

You think that you are doing well when you reject God's commandment so you may keep your tradition!

You act like it is good to reject God's commandment so you may keep your tradition!

I did not come to call **the righteous**, but sinners to repentance. (Luke 5:32 ULT)

I did not come to call **people who think that they are righteous** to repentance, but to call sinners to repentance.

(2) Translate the actual, intended meaning of the statement of irony.

How well you reject the commandment of God so that you may keep your tradition! (Mark 7:9a ULT)

You are doing a terrible thing when you reject the commandment of God so you may keep your tradition!

"Present your case," says Yahweh; "present your best arguments for your idols," says the King of Jacob. **"Let them bring us their own arguments; have them come forward and declare to us what will happen, so we may know these things well. Have them tell us of earlier predictive declarations, so we can reflect on them and know how they were fulfilled."** (Isaiah 41:21-22 ULT)

'Present your case,' says Yahweh; 'present your best arguments for your idols,' says the King of Jacob. Your idols **cannot bring us their own arguments or come forward to declare to us what will happen** so we may know these things well. We cannot hear them because **they cannot speak** to tell us their earlier predictive declarations, so we cannot reflect on them and know how they were fulfilled.

Can you lead light and darkness to their places of work?

Can you find the way back to their houses for them?

**Undoubtedly you know, for you were born then;
the number of your days is so large!** (Job 38:20-21 ULT)

Can you lead light and darkness to their places of work? Can you find the way back to their houses for them? **You act like you know how light and darkness were created, as if you were there; as if you are as old as creation, but you are not!**

Litotes

Description

Litotes is a figure of speech in which the speaker expresses a strong positive meaning by negating a word or phrase that means the opposite of the meaning that he intends. For example, someone could intend to communicate that something is extremely good by describing it as "not bad." The difference between a litotes and a **double negative** is that a litotes heightens the positive meaning beyond what a plain positive statement would do, and a double negative does not. In the example above, the literal meaning of "not bad," taken as a plain double negative, would be "acceptable" or even "good." But if the speaker intended it as a litotes, then the meaning is "very good" or "extremely good."

This page answers the question: *What is litotes?*

In order to understand this topic, it would be good to read:

Figures of Speech ([UTA PDF](#))

Reason This Is a Translation Issue

Some languages do not use litotes. People who speak those languages might not understand that a statement using litotes actually strengthens the positive meaning. Instead, they might think that it weakens or even cancels the positive meaning.

Examples From the Bible

For you yourselves know, brothers, that our coming to you was **not useless**, (1 Thessalonians 2:1 ULT)

By using litotes, Paul emphasized that his visit with them was **very** useful.

Now when it became day, there was **no small disturbance** among the soldiers over what therefore had happened to Peter. (Acts 12:18 ULT)

By using litotes, Luke emphasized that there was a **lot** of excitement or anxiety among the soldiers about what happened to Peter. (Peter had been in prison, and even though there were soldiers guarding him, he escaped when an angel let him out. So they were very agitated.)

But you, Bethlehem, in the land of Judah,
are **not the least** among the leaders of Judah,
for from you will come a ruler
who will shepherd my people Israel. (Matthew 2:6 ULT)

By using litotes, the prophet emphasized that Bethlehem would be a **very important city**.

Translation Strategies

If the litotes would be understood correctly, consider using it.

(1) If the meaning with the negative would not be clear, give the **positive** meaning in a strong way.

Examples of Translation Strategies Applied

Merism

Definition

Merism is a figure of speech in which a person refers to something by speaking of two extreme parts of it. By referring to the extreme parts, the speaker intends to include also everything in between those parts.

"I am **the alpha and the omega**," says the Lord God, "the one who is, and who was, and who is to come, the Almighty." (Revelation 1:8 ULT)

I am **the alpha and the omega, the first and the last, the beginning and the end**. (Revelation 22:13, ULT)

This page answers the question: *What does the word merism mean and how can I translate phrases that have it?*

In order to understand this topic, it would be good to read:

Figures of Speech ([UTA PDF](#))

Alpha and omega are the first and last letters of the Greek alphabet. This is a merism that includes everything from the beginning to the end. It means eternal.

... I praise you, Father, Lord of **heaven and earth** ..., (Matthew 11:25b ULT)

Heaven and earth is a merism that includes everything that exists.

Reason This is a Translation Issue

Some languages do not use merism. The readers of those languages may think that the phrase only applies to the items mentioned. They may not realize that it refers to those two things and everything in between.

Examples From the Bible

From the rising of the sun to its setting, Yahweh's name should be praised. (Psalm 113:3 ULT)

This bolded phrase is a merism because it speaks of the east and the west and everywhere in between. It means "everywhere."

He will bless those who honor him, both **young and old**. (Psalm 115:13)

The bolded phrase is merism because it speaks of old people and young people and everyone in between. It means "everyone."

Translation Strategies

If the merism would be natural and give the right meaning in your language, consider using it. If not, here are other options:

- (1) Identify what the merism refers to without mentioning the parts.
- (2) Identify what the merism refers to and include the parts.

Examples of Translation Strategies Applied

- (1) Identify what the merism refers to without mentioning the parts.

I praise you, Father, Lord of **heaven and earth**. (Matthew 11:25b ULT)

I praise you, Father, Lord of **everything**.

From the rising of the sun to its setting, Yahweh's name should be praised. (Psalm 113:3 ULT)

In all places, people should praise Yahweh's name.

(2) Identify what the merism refers to and include the parts.

I praise you, Father, Lord of **heaven and earth**. (Matthew 11:25b ULT)

Metaphor

Description

A metaphor is a figure of speech in which someone speaks of one thing as if it were a different thing because he wants people to think about how those two things are alike.

For example, someone might say, “The girl I love is a red rose.”

A girl and a rose are very different things, but the speaker considers that they are alike in some way. The hearer’s task is to understand in what way they are alike.

This page answers the question: *What is a metaphor and how can I translate a Bible passage that has one?*

In order to understand this topic, it would be good to read:

Figures of Speech ([UTA PDF](#))

Simile ([UTA PDF](#))

The Parts of a Metaphor

The example above shows us that a metaphor has three parts. In this metaphor, the speaker is talking about “the girl I love.” This is the **Topic**. The speaker wants the hearer to think about what is similar between her and “a red rose.” The red rose is the **Image** to which he compares the girl. Most probably, he wants the hearer to consider that they are both beautiful. This is the **Idea** that the girl and the rose both share, and so we may also call it the **Point of Comparison**.

Every metaphor has three parts:

- The **Topic**, the item being immediately discussed by the writer/speaker.
- The **Image**, the physical item (object, event, action, etc.) which the speaker uses to describe the topic.
- The **Idea**, the abstract concept or quality that the physical **Image** brings to the mind of the hearer when he thinks of how the **Image** and the **Topic** are similar. Often, the **Idea** of a metaphor is not explicitly stated in the Bible, but it is only implied from the context. The hearer or reader usually needs to think of the **Idea** himself.

Using these terms, we can say that a metaphor is a figure of speech that uses a physical **Image** to apply an abstract **Idea** to the speaker’s **Topic**.

Usually, a writer or speaker uses a metaphor in order to express something about a **Topic**, with at least one **Point of Comparison (Idea)** between the **Topic** and the **Image**. Often in metaphors, the **Topic** and the **Image** are explicitly stated, but the **Idea** is only implied. The writer/speaker often uses a metaphor in order to invite the readers/listeners to think about the similarity between the **Topic** and the **Image** and to figure out for themselves the **Idea** that is being communicated.

Speakers often use metaphors in order to strengthen their message, to make their language more vivid, to express their feelings better, to say something that is hard to say in any other way, or to help people remember their message.

Sometimes speakers use metaphors that are very common in their language. However, sometimes speakers use metaphors that are uncommon, and even some metaphors that are unique. When a metaphor has become very common in a language, often it becomes a “passive” metaphor, in contrast to uncommon metaphors, which we describe as being “active.” Passive metaphors and active metaphors each present a different kind of translation problem, which we will discuss below.

Passive Metaphors

A passive metaphor is a metaphor that has been used so much in the language that its speakers no longer regard it as one concept standing for another. Linguists often call these “dead metaphors.” Passive metaphors are extremely common. Examples in English include the terms “table **leg**,” “family **tree**,” “book **leaf**” (meaning a page in

a book), or the word “crane” (meaning a large machine for lifting heavy loads). English speakers simply think of these words as having more than one meaning. Examples of passive metaphors in Biblical Hebrew include using the word “hand” to represent “power,” using the word “face” to represent “presence,” and speaking of emotions or moral qualities as if they were “clothing.”

Patterned Pairs of Concepts Acting as Metaphors

Many ways of metaphorical speaking depend on pairs of concepts, where one underlying concept frequently stands for a different underlying concept. For example, in English, the direction “up” (the Image) often represents the concepts of “more” or “better” (the Idea). Because of this pair of underlying concepts, we can make sentences such as “The price of gasoline is going **up**,” “A **highly** intelligent man,” and also the opposite kind of idea: “The temperature is going **down**,” and “I am feeling very **low**.”

Patterned pairs of concepts are constantly used for metaphorical purposes in the world’s languages because they serve as convenient ways to organize thought. In general, people like to speak of abstract qualities (such as power, presence, emotions, and moral qualities) as if they were body parts, or as if they were objects that could be seen or held, or as if they were events that could be watched as they happened.

When these metaphors are used in normal ways, it is rare that the speaker and audience regard them as figurative speech. Examples of metaphors in English that go unrecognized are:

- “Turn the heat **up**.” More is spoken of as up.
- “Let us **go ahead** with our debate.” Doing what was planned is spoken of as walking or advancing.
- “You **defend** your theory well.” Argument is spoken of as war.
- “A **flow** of words.” Words are spoken of as liquids.

English speakers do not view these as metaphorical expressions or figures of speech, so it would be wrong to translate them into other languages in a way that would lead people to pay special attention to them as figurative speech. For a description of important patterns of this kind of metaphor in biblical languages, please see [Biblical Imagery — Common Patterns](#) and the pages it will direct you to.

When translating something that is a passive metaphor into another language, do not treat it as a metaphor. Instead, just use the best expression for that thing or concept in the target language.

Active Metaphors

These are metaphors that people recognize as one concept standing for another concept, or one thing for another thing. Metaphors make people think about how the one thing is like the other thing, because in most ways the two things are very different. People also easily recognize these metaphors as giving strength and unusual qualities to the message. For this reason, people pay attention to these metaphors. For example,

But for you who fear my name, the sun of righteousness will rise with healing in its wings.
(Malachi 4:2a ULT)

Here, God speaks about his salvation as if it were the sun rising in order to shine its rays on the people whom he loves. He also speaks of the sun’s rays as if they were wings. Also, he speaks of these wings as if they were bringing medicine that would heal his people. Here is another example:

And he said to them, “Go and tell that fox ...” (Luke 13:32a ULT)

Here, “that fox” refers to King Herod. The people listening to Jesus certainly understood that Jesus was intending for them to apply certain characteristics of a fox to Herod. They probably understood that Jesus intended to communicate that Herod was evil, either in a cunning way or as someone who was destructive, murderous, or who took things that did not belong to him, or all of these.

Active metaphors require the translator’s special care to make a correct translation. To do so, you need to understand the parts of a metaphor and how they work together to produce meaning.

Jesus said to them, “I am the bread of life; he who comes to me will not be hungry, and he who believes in me will never be thirsty.” (John 6:35 ULT)

In this metaphor, Jesus called himself the bread of life. The **Topic** is “I” (meaning Jesus himself) and the **Image** is “bread.” Bread was the primary food that people ate in that place and time. The similarity between bread and Jesus is that people need both to live. Just as people need to eat food in order to have physical life, people need to trust in Jesus in order to have eternal life. The **Idea** of the metaphor is “life.” In this case, Jesus stated the central Idea of the metaphor, but often the Idea is only implied.

Purposes of Metaphor

- One purpose of metaphor is to teach people about something that they do not know (the **Topic**) by showing that it is like something that they already do know (the **Image**).
- Another purpose is to emphasize that something (the **Topic**) has a particular quality (the **Idea**) or to show that it has that quality in an extreme way.
- Another purpose is to lead people to feel the same way about the **Topic** as they would feel about the **Image**.

Reasons This Is a Translation Issue

- People may not recognize that something is a metaphor. In other words, they may mistake a metaphor for a literal statement, and thus, misunderstand it.
- People may not be familiar with the thing that is used as an image, and so, not be able to understand the metaphor.
- If the topic is not stated, people may not know what the topic is.
- People may not know the points of comparison that the speaker wants them to understand. If they fail to think of these points of comparison, they will not understand the metaphor.
- People may think that they understand the metaphor, but they do not. This can happen when they apply points of comparison from their own culture, rather than from the biblical culture.

Translation Principles

- Make the meaning of a metaphor as clear to the target audience as it was to the original audience.
- Do not make the meaning of a metaphor more clear to the target audience than you think it was to the original audience.

Examples From the Bible

Listen to this word, **you cows of Bashan**, (Amos 4:1q ULT)

In this metaphor Amos speaks to the upper-class women of Samaria (“you,” the Topic) as if they were cows (the Image). Amos does not say what similarity(s) he intends between these women and cows. He wants the reader to think of them, and he fully expects that readers from his culture will easily do so. From the context, we can see that he means that the women are like cows in that they are fat and interested only in feeding themselves. If we were to apply similarities from a different culture, such as that cows are sacred and should be worshiped, we would get the wrong meaning from this verse.

NOTE: Amos does not actually mean that the women are cows. He speaks to them as human beings.

Yet, Yahweh, you are our father; **we are the clay**. **You are our potter**; and we all are the work of your hand. (Isaiah 64:8 ULT)

The example above has two related metaphors. The Topic(s) are “we” and “you,” and the Image(s) are “clay” and “potter.” The similarity between a potter and God is the fact that both make what they wish out of their material.

The potter makes what he wishes out of the clay, and God makes what he wishes out of his people. The Idea being expressed by the comparison between the potter's clay and "us" is that **neither the clay nor God's people have a right to complain about what they are becoming.**

Jesus said to them, "Take heed and beware of **the yeast of the Pharisees and Sadducees.**"
The disciples reasoned among themselves and said, "It is because we did not take bread."
(Matthew 16:6-7 ULT)

Jesus used a metaphor here, but his disciples did not realize it. When he said "yeast," they thought he was talking about bread, but "yeast" was the Image in his metaphor, and the Topic was the teaching of the Pharisees and Sadducees. Since the disciples (the original audience) did not understand what Jesus meant, it would not be good to state clearly here what Jesus meant.

Translation Strategies

If people would understand the metaphor in the same way that the original readers would have understood it, go ahead and use it. Be sure to test the translation to make sure that people do understand it in the right way.

If people do not or would not understand it, here are some other strategies.

(1) If the metaphor is a common expression in the source language or expresses a patterned pair of concepts in a biblical language (that is, it is a passive metaphor), then express the **Idea** in the simplest way preferred by your language.

(2) If the metaphor seems to be an active metaphor, you can translate it literally **if you think that the target language also uses this metaphor in the same way to mean the same thing as in the Bible**. If you do this, be sure to test it to make sure that the language community understands it correctly.

(3) If the target audience does not realize that it is a metaphor, then change the metaphor to a simile. Some languages do this by adding words such as "like" or "as." See [Simile](#).

(4) If the target audience would not know the **Image**, see [Translate Unknowns](#) for ideas on how to translate that image.

(5) If the target audience would not use that **Image** for that meaning, use an image from your own culture instead. Be sure that it is an image that could have been possible in Bible times.

(6) If the target audience would not know what the **Topic** is, then state the topic clearly. (However, do not do this if the original audience did not know what the Topic was.)

(7) If the target audience would not know the intended similarity (the **Idea**) between the topic and the image, then state it clearly.

(8) If none of these strategies is satisfactory, then simply state the **Idea** plainly without using a metaphor.

Examples of Translation Strategies Applied

(1) If the metaphor is a common expression in the source language or expresses a patterned pair of concepts in a biblical language (that is, a passive metaphor), then express the Idea in the simplest way preferred by your language.

Then, see, one of the leaders of the synagogue, named Jairus, came, and when he saw him, **fell at his feet.** (Mark 5:22 ULT)

Then one of the leaders of the synagogue, named Jairus, came, and when he saw him, **immediately bowed down in front of him.**

(2) If the metaphor seems to be an active metaphor, you can translate it literally **if you think that the target language also uses this metaphor in the same way to mean the same thing as in the Bible.** If you do this, be sure to test it to make sure that the language community understands it correctly.

But Jesus said to them, “He wrote this commandment to you because of your **hardness of heart.**” (Mark 10:5 ULT)

It was because of your **hard hearts** that he wrote you this law.

We made no change to this one, but it must be tested to make sure that the target audience correctly understands this metaphor.

(3) If the target audience does not realize that it is a metaphor, then change the metaphor to a simile. Some languages do this by adding words such as “like” or “as.”

Yet, Yahweh, you are our father; we **are the clay.** You **are our potter;** and we all are the work of your hand. (Isaiah 64:8 ULT)

And yet, Yahweh, you are our father; we are **like** clay. You are **like** a potter; and we all are the work of your hand.

(4) If the target audience would not know the **Image**, see [Translate Unknowns](#) for ideas on how to translate that image.

Saul, Saul, why do you persecute me? It is hard for you **to kick against a goad.** (Acts 26:14b ULT)

Saul, Saul, why do you persecute me? It is hard for you to **kick against a pointed stick.**

(5) If the target audience would not use that **Image** for that meaning, use an image from your own culture instead. Be sure that it is an image that could have been possible in Bible times.

Yet, Yahweh, you are our father; we are the **clay.** You are our **potter;** and we all are the work of your hand. (Isaiah 64:8 ULT)

“And yet, Yahweh, you are our father; we are the **wood.** You are our **carver;** and we all are the work of your hand.”

“And yet, Yahweh, you are our father; we are the **string.** You are the **weaver;** and we all are the work of your hand.”

(6) If the target audience would not know what the **Topic** is, then state the topic clearly. (However, do not do this if the original audience did not know what the topic was.)

Yahweh lives; may **my rock** be praised. May the God of my salvation be exalted. (Psalm 18:46 ULT)

Yahweh lives; **He is my rock.** May he be praised. May the God of my salvation be exalted.

(7) If the target audience would not know the intended similarity between the Topic and the Image, then state it clearly.

Yahweh lives; may **my rock** be praised. May the God of my salvation be exalted. (Psalm 18:46 ULT)

Yahweh lives; may he be praised because he is the rock **under which I can hide from my enemies**. May the God of my salvation be exalted.

Saul, Saul, why do you persecute me? It is hard for you **to kick against a goad**. (Acts 26:14 ULT)

Saul, Saul, why do you persecute me? You **fight against me and hurt yourself like an ox that kicks against its owner's pointed stick**.

(8) If none of these strategies are satisfactory, then simply state the idea plainly without using a metaphor.

I will make you to become **fishers of men**. (Mark 1:17b ULT)

I will make you to become **people who gather men**.
Now you gather fish. I will make you **gather people**.

Metonymy

Description

Metonymy is a figure of speech in which an item (either physical or abstract) is called not by its own name, but by the name of something closely associated with it. A metonym is a word or phrase used as a substitute for something that it is associated with.

This page answers the question: *What is a metonymy?*

In order to understand this topic, it would be good to read:

Figures of Speech ([UTA PDF](#))

... and **the blood** of Jesus his Son cleanses us from every sin. (1 John 1:7b ULT)

The blood represents Christ's death.

And he took **the cup** in the same way after supper, saying, "**This cup** is the new covenant in my blood, which is poured out for you." (Luke 22:20 ULT)

The cup represents the wine that is in the cup.

Metonymy can be used

- as a shorter way of referring to something
- to make an abstract idea more meaningful by referring to it with the name of a physical object associated with it

Reason This Is a Translation Issue

The Bible uses metonymy very often. Speakers of some languages are not familiar with metonymy and they may not recognize it when they read it in the Bible. If they do not recognize the metonymy, they will not understand the passage or, worse yet, they will get a wrong understanding of the passage. Whenever a metonym is used, people need to be able to understand what it represents.

Examples From the Bible

The Lord God will give to him **the throne** of his father David. (Luke 1:32b ULT)

A throne represents the authority of a king. "Throne" is a metonym for "kingly authority," "kingship," or "reign." This means that God would make him become a king who would follow King David.

Then immediately his **mouth** was opened (Luke 1:64a ULT)

The mouth here represents the power to speak. This means that he was able to talk again.

Who warned you to flee from **the wrath** that is coming? (Luke 3:7b ULT)

The word "wrath" or "anger" is a metonym for "punishment." God was extremely angry with the people and, as a result, he would punish them.

Translation Strategies

If people would easily understand the metonym, consider using it. Otherwise, here are some options.

- (1) Use the metonym along with the name of the thing it represents.
- (2) Use only the name of the thing the metonym represents.

Examples of Translation Strategies Applied

- (1) Use the metonym along with the name of the thing it represents.

And he took the cup in the same way after the supper, saying, “**This cup** is the new covenant in my blood, which is poured out for you.” (Luke 22:20 ULT)

He took the cup in the same way after supper, saying, “**The wine in this cup** is the new covenant in my blood, which is poured out for you.”

This verse also contains a second metonym: The cup, (representing the wine it contains) also represents the new covenant made with the blood Christ shed for us.

- (2) Use the name of the thing the metonym represents.

The Lord God will give him **the throne** of his father David. (Luke 1:32b ULT)

“The Lord God will give him **the kingly authority** of his father, David.”

or:

“The Lord God will **make him king** like his ancestor, King David.”

Who warned you to flee from **the wrath** that is coming? (Luke 3:7b ULT)

“Who warned you to flee from God’s coming **punishment**?”

Nominal Adjectives

Description

In some languages an adjective can be used to refer to a class of things that the adjective describes. When it does, it acts like a noun. For example, the word “rich” is an adjective. Here are two sentences that show that “rich” is an adjective.

The rich man had huge numbers of flocks and herds.
(2 Samuel 12:2 ULT)

The adjective “rich” comes before the word “man” and describes “man.”

He will not be rich; his wealth will not last. (Job 15:29a ULT)

The adjective “rich” comes after the verb “be” and describes “He.”

Here is a sentence that shows that “rich” can also function as a noun.

The rich must not give more than the half shekel, and **the poor** must not give less. (Exodus 30:15b ULT)

In Exodus 30:15, the word “rich” acts as a noun in the phrase “the rich,” and it refers to rich people. The word “poor” also acts as a noun and refers to poor people.

This page answers the question: *How do I translate adjectives that act like nouns?*

In order to understand this topic, it would be good to read:

Parts of Speech ([UTA PDF](#))

Reason This Is a Translation Issue

- Many times in the Bible adjectives are used as nouns to describe a group of people.
- Some languages do not use adjectives in this way.
- Readers of these languages may think that the text is talking about one particular person when it is really talking about the group of people whom the adjective describes.

Examples From the Bible

The scepter of wickedness must not rule in the land of **the righteous**. (Psalms 125:3a ULT)

“The righteous” here are people who are righteous, not one particular righteous person.

Blessed are **the meek**. (Matthew 5:5a ULT)

“The meek” here are all people who are meek, not one particular meek person.

Translation Strategies

If your language uses adjectives as nouns to refer to a class of people, consider using the adjectives in this way. If it would sound strange, or if the meaning would be unclear or wrong, here is another option:

- (1) Use the adjective with a plural form of the noun that the adjective describes.

Examples of Translation Strategies Applied

- (1) Use the adjective with a plural form of the noun that the adjective describes.

The scepter of wickedness must not rule in the land of **the righteous**. (Psalms 125:3a ULT)

Numbers

Description

There are many numbers in the Bible. They can be written as words ("five") or as numerals ("5"). Some numbers are very large, such as "two hundred" (200), "twenty-two thousand" (22,000), or "one hundred million" (100,000,000). Some languages do not have words for all of these numbers. Translators need to decide how to translate numbers and whether to write them as words or numerals.

This page answers the question: *How do I translate numbers?*

In order to understand this topic, it would be good to read:

Translate Unknowns ([UTA PDF](#))

Some numbers are exact and others are rounded.

Abram was **86** years old when Hagar bore Ishmael to Abram. (Genesis 16:16 ULT)

Eighty-six (86) is an exact number.

That day about **3,000** of the people died. (Exodus 32:28b ULT)

Here the number three thousand (3,000) is a round number. It may have been a little more than that or a little less than that. The word "about" shows that it is not an exact number.

Reason This Is a Translation Issue

Some languages do not have words for some of these numbers.

Translation Principles

- Exact numbers should be translated as closely and specifically as they can be.
- Rounded numbers can be translated more generally.

Examples From the Bible

When Jared had lived **162** years, he became the father of Enoch. After he became the father of Enoch, Jared lived **800** years. He became the father of more sons and daughters. Jared lived **962** years, and then he died. (Genesis 5:18-20 ULT)

The numbers 162, 800, and 962 are exact numbers and should be translated with something as close to those numbers as possible.

Our sister, may you be the mother of **thousands of ten thousands**. (Genesis 24:60b ULT)

This is a rounded number. It does not say exactly how many descendants she should have, but it was a huge number of them.

Translation Strategies

- (1) Write numbers using numerals.
- (2) Write numbers using your language's words or the Gateway Language words for those numbers.
- (3) Write numbers using words, and put the numerals in parentheses after them.

(4) Combine words for large numbers.

(5) Use a very general expression for very large rounded numbers and write the numeral in parentheses afterward.

Examples of Translation Strategies Applied

We will use the following verse in our examples:

Now, see, at great effort I have prepared for Yahweh's house **100,000** talents of gold, **1,000,000** talents of silver, and bronze and iron in large quantities. (1 Chronicles 22:14a ULT)

(1) Write numbers using numerals.

I have prepared for Yahweh's house **100,000** talents of gold, **1,000,000** talents of silver, and bronze and iron in large quantities.

(2) Write numbers using your language's words or the Gateway Language words for those numbers.

I have prepared for Yahweh's house **one hundred thousand** talents of gold, **one million** talents of silver, and bronze and iron in large quantities.

(3) Write numbers using words, and put the numerals in parenthesis after them.

I have prepared for Yahweh's house one **hundred thousand (100,000)** talents of gold, **one million (1,000,000)** talents of silver, and bronze and iron in large quantities.

(4) Combine words for large numbers.

I have prepared for Yahweh's house **one hundred thousand** talents of gold, **a thousand thousand** talents of silver, and bronze and iron in large quantities.

(5) Use a very general expression for very large rounded numbers and write the numeral in parentheses afterward.

I have prepared for Yahweh's house **a great amount of gold (100,000 talents), ten times that amount of silver (1,000,000 talents)**, and bronze and iron in large quantities.

Consistency

Be consistent in your translations. Decide how the numbers will be translated, using numbers or numerals. There are different ways of being consistent.

- Use words to represent numbers all of the time. (You might have very long words.)
- Use numerals to represent numbers all of the time.
- Use words to represent the numbers that your language has words for and use numerals for the numbers that your language does not have words for.
- Use words for low numbers and numerals for high numbers.
- Use words for numbers that require few words and numerals for numbers that require more than a few words.
- Use words to represent numbers, and write the numerals in parentheses after them.

Consistency in the ULT and UST

The *unfoldingWord® Literal Text* (ULT) and the *unfoldingWord® Simplified Text* (UST) use words for the numbers one through ten and use numerals for all numbers above ten.

When Adam had lived **130** years, he became the father of a son in his own likeness, after his image, and he called his name Seth. After Adam became the father of Seth, he lived **800** years. He became the father of more sons and daughters. Adam lived **930** years, and then he died.

Ordinal Numbers

Description

Ordinal numbers are used in the Bible mainly to tell the position of something in a list.

And God has indeed appointed some in the church, **first** apostles, **second** prophets, **third** teachers, then miracles. (1 Corinthians 12:28a ULT)

This page answers the question: *What are ordinal numbers and how can I translate them?*

In order to understand this topic, it would be good to read:

Ordinal Numbers in English

Most ordinal numbers in English simply have “-th” added to the end.

| Numeral | Number | Ordinal Number |
|---------|--------------|----------------|
| 4 | four | fourth |
| 10 | ten | tenth |
| 100 | one hundred | one hundredth |
| 1,000 | one thousand | one thousandth |

Some ordinal numbers in English do not follow that pattern.

| Numeral | Number | Ordinal Number |
|---------|--------|----------------|
| 1 | one | first |
| 2 | two | second |
| 3 | three | third |
| 5 | five | fifth |
| 12 | twelve | twelfth |

Reason This Is a Translation Issue

Some languages do not have special numbers for showing the order of items in a list. There are different ways to deal with this.

Examples From the Bible

The **first** lot went to Jehoiarib, the **second** to Jedaiah, the **third** to Harim, the **fourth** to Seorim ... the **twenty-third** to Delaiah, and the **twenty-fourth** to Maaziah. (1 Chronicles 24:7-18 ULT)

The people cast lots and one went to each of these people in the order given.

You must place in it four rows of precious stones. The **first** row must have a ruby, a topaz, and a garnet. The **second** row must have an emerald, a sapphire, and a diamond. The **third** row

must have a jacinth, an agate, and an amethyst. The **fourth** row must have a beryl, and an onyx, and a jasper. They must be mounted in gold settings. (Exodus 28:17-20 ULT)

This describes four rows of stones. The first row is probably the top row, and the fourth row is probably the bottom row.

Translation Strategies

If your language has ordinal numbers and using them would give the right meaning, consider using them. If not, here are some strategies to consider:

- (1) Use “one” with the first item and “another” or “the next” with the rest.
- (2) Tell the total number of items and then list them or the things associated with them.

Examples of Translation Strategies Applied

The name of **the second** river is Gihon. This one flows throughout the whole land of Cush. Parallelism

Description

Parallelism is a poetic device in which two phrases or clauses that are similar in structure or idea are used together. The following are some of the different kinds of parallelism.

- The second clause or phrase means the same as the first. This is called synonymous parallelism.
- The second clarifies or strengthens the meaning of the first.
- The second completes what is said in the first.
- The second says something that contrasts with the first, but adds to the same idea.

Parallelism is most commonly found in Old Testament poetry, such as in the books of Psalms and Proverbs. It also occurs in Greek in the New Testament, both in the four gospels and in the apostles' letters.

This article will only discuss synonymous parallelism, the kind in which the two parallel phrases mean the same thing, because that is the kind that presents a problem for translation. Note that we use the term "synonymous parallelism" for long phrases or clauses that have the same meaning. We use the term "doublet" for words or very short phrases that mean basically the same thing and are used together.

In the poetry of the original languages, synonymous parallelism has several effects:

- It shows that something is very important by saying it more than once and in more than one way.
- It helps the hearer to think more deeply about the idea by saying it in different ways.
- It makes the language more beautiful and raises it above the ordinary way of speaking.

Reason This Is a Translation Issue

Some languages would not use synonymous parallelism. They would either think it odd that someone said the same thing twice, or, since it is in the Bible, they would think that the two phrases must have some difference in meaning. For them it would be confusing, rather than beautiful. They would not understand that the repetition of the idea in different words serves to emphasize the idea.

Examples From the Bible

Your word is a lamp to my feet
and a light for my path. (Psalm 119:105 ULT)

Both parts of the sentence are metaphors saying that God's word teaches people how to live. That is the single idea. The words "lamp" and "light" are similar in meaning because they refer to light. The words "my feet" and "my path" are related because they refer to a person walking. Walking is a metaphor for living.

You make him to rule over the works of your hands;
you have put all things under his feet (Psalm 8:6 ULT)

Both lines say that God made man the ruler of everything. "To rule over" is the same idea as putting things "under his feet," and "the works of your [God's] hands" is the same idea as "all things."

Yahweh sees everything a person does
and watches all the paths he takes. (Proverbs 5:21 ULT)

This page answers the question: *What is parallelism?*

In order to understand this topic, it would be good to read:

Figures of Speech ([UTA PDF](#))

The first phrase and the second phrase mean the same thing. There are three ideas that are the same between these two phrases. "Sees" corresponds to "watches," "everything...does" corresponds to "all the paths...takes," and "a person" corresponds to "he."

Praise Yahweh, all you nations;
exalt him, all you peoples! (Psalm 117:1 ULT)

Both parts of this verse tell people everywhere to praise Yahweh. The words 'Praise' and 'exalt' mean the same thing. The words 'Yahweh' and 'him' refer to the same person. The terms 'all you nations' and 'all you peoples' refer to the same people.

For Yahweh has a lawsuit with his people,
and he will fight in court against Israel. (Micah 6:2b ULT)

The two parts of this verse say that Yahweh has a serious disagreement with his people, Israel. These are not two different disagreements or two different groups of people.

Translation Strategies

For most kinds of parallelism, it is good to translate both of the clauses or phrases. For synonymous parallelism, it is good to translate both clauses if people in your language understand that the purpose of saying something twice is to strengthen a single idea. But if your language does not use parallelism in this way, then consider using one of the following translation strategies.

- (1) Combine the ideas of both clauses into one.
- (2) If it appears that the clauses are used together to show that what they say is really true, you could combine the ideas of both clauses into one and include words that emphasize the truth such as "truly" or "certainly."
- (3) If it appears that the clauses are used together to intensify an idea in them, you could combine the ideas of both clauses into one and use words like "very," "completely," or "all."

Examples of Translation Strategies Applied

- (1) Combine the ideas of both clauses into one.

Until now you have dealt deceitfully with me and you have spoken lies to me. (Judges 16:13, ULT)

Delilah expressed this idea twice to emphasize that she was very upset.

Until now you have deceived me with your lies.
Yahweh sees everything a person does and watches all the paths he takes. (Proverbs 5:21 ULT)

The phrase "all the paths he takes" is a metaphor for "all he does."

Yahweh pays attention to everything a person does.
For Yahweh has a lawsuit with his people, and he will fight in court against Israel. (Micah 6:2 ULT)

This parallelism describes one serious disagreement that Yahweh had with one group of people. If this is unclear, the phrases can be combined:

For Yahweh has a lawsuit with his people, Israel.

(2) If it appears that the clauses are used together to show that what they say is really true, you could combine the ideas of both clauses into one and include words that emphasize the truth such as “truly” or “certainly.”

Yahweh sees everything a person does and watches all the paths he takes. (Proverbs 5:21 ULT)

Yahweh truly sees everything a person does.

You make him to rule over the works of your hands; you have put all things under his feet
(Psalm 8:6 ULT)

You have certainly made him to rule over everything that you have created.

(3) If it appears that the clauses are used together to intensify an idea in them, you could combine the ideas of both clauses into one and use words like “very,” “completely” or “all.”

Until now you have dealt deceitfully with me and you have spoken lies to me. (Judges 16:13, ULT)

All you have done is lie to me.

Yahweh sees everything a person does and watches all the paths he takes. (Proverbs 5:21 ULT)

Yahweh sees absolutely everything that a person does.

Personification ([UTA PDF](#))

Personification

Description

Personification is a figure of speech in which someone speaks of something as if it could do things that animals or people can do. People often do this because it makes it easier to talk about things that we cannot see:

Such as wisdom:

Does not Wisdom call out? (Proverbs 8:1a ULT)

Or sin:

Sin crouches at the door. (Genesis 4:7b ULT)

People also use personification because it is sometimes easier to talk about people's relationships with non-human things such as wealth as if they were relationships between people.

You cannot serve God and wealth. (Matthew 6:24b ULT)

In each case, the purpose of the personification is to highlight a certain characteristic of the non-human thing. As in metaphor, the reader needs to think of the way that the thing is like a certain kind of person.

Reasons This Is a Translation Issue

- Some languages do not use personification.
- Some languages use personification only in certain situations.

Examples From the Bible

You cannot **serve** God and wealth. (Matthew 6:24b ULT)

Jesus speaks of wealth as if it were a master whom people might serve. Loving money and basing one's decisions on it is like serving it as a slave would serve his master.

Does not Wisdom **call** out? Does not Understanding **raise her voice**? (Proverbs 8:1 ULT)

The author speaks of wisdom and understanding as if they were woman who calls out to teach people. This means that they are not something hidden, but something obvious that people should pay attention to.

Translation Strategies

If the personification would be understood clearly, consider using it. If it would not be understood, here are some other ways for translating it.

- (1) Add words or phrases to make the human (or animal) characteristic clear.
- (2) In addition to Strategy (1), use words such as "like" or "as" to show that the sentence is not to be understood literally.
- (3) Find a way to translate it without the personification.

This page answers the question: *What is personification?*

In order to understand this topic, it would be good to read:

Figures of Speech ([UTA PDF](#))

Examples of Translation Strategies Applied

(1) Add words or phrases to make the human (or animal) characteristic clear.

Sin crouches at the door. (Genesis 4:7b ULT) — God speaks of sin as if it were a wild animal that is waiting for the chance to attack. This shows how dangerous sin is. An additional phrase can be added to make this danger clear.

Sin is at your door, **waiting to attack you**.

(2) In addition to Strategy (1), use words such as “like” or “as” to show that the sentence is not to be understood literally.

Sin crouches at the door. (Genesis 4:7b ULT) — This can be translated with the word “as.”

Sin is crouching at the door, **just as a wild animal does as it waits to attack a person..**

(3) Find a way to translate it without the personification.

Even the **winds and the sea obey him**. (Matthew 8:27b ULT) — The men speak of the “wind and the sea” as if they are able to hear and obey Jesus, just as people can. This could also be translated without the idea of obedience by speaking of Jesus controlling them.

He even **controls the winds and the sea**.

NOTE: We have broadened our definition of “personification” to include “zoomorphism” (speaking of other things as if they had animal characteristics) and “anthropomorphism” (speaking of non-human things as if they had human characteristics) because the translation strategies for them are the same.

Quotes within Quotes

Description

A quotation may have a quote within it, and quotes that are inside of other quotes can also have quotes within them. When a quote has quotes within it, we say there are “layers” of quotation, and each of the quotes is a layer. When there are many layers of quotes inside of quotes, it can be hard for listeners and readers to know who is saying what. Some languages use a combination of direct quotes and indirect quotes to make it easier.

This page answers the question: *What is a quote within a quote, and how can I help the readers understand who is saying what?*

In order to understand this topic, it would be good to read:

Direct and Indirect Quotations ([UTA PDF](#))

Reasons This Is a Translation Issue

When there is a quote within a quote, the listener needs to know who the pronouns refer to. For example: if a quote that is inside a quote has the word “I,” the listener needs to know whether “I” refers to the speaker of the inner quote or the outer quote.

Some languages make this clear by using different kinds of quotes when there are quotes within quotes.

They may use direct quotes for some and indirect quotes for others.

Some languages do not use indirect quotes.

Examples From the Bible

A quotation with only one layer

But Paul said, “I, however, was indeed born a citizen.” (Acts 22:28b ULT)

Quotations with two layers

Jesus answered and said to them, “Be careful that no one leads you astray. For many will come in my name. They will say, ‘I am the Christ,’ and will lead many astray.” (Matthew 24:4-5 ULT)

The outermost layer is what Jesus said to his disciples. The second layer is what other people will say.

Jesus answered, “You say that I am a king.” (John 18:37b ULT)

The outermost layer is what Jesus said to Pilate. The second layer is what Pilate said about Jesus.

A quotation with three layers

Abraham said, “... I said to her, ‘You must show me this faithfulness as my wife: At every place where we go, say about me, **“He is my brother.”**” (Genesis 20:11a, 13 ULT)

The outermost layer is what Abraham responded to Abimelech. The second layer is what Abraham had told his wife. The third layer is what he wanted his wife to say. (We have bolded the third layer.)

A quotation with four layers

They said to him, “A man came to meet us who said to us, ‘Go back to the king who sent you, and say to him, “Yahweh says this: **‘Is it because there is no God in Israel that you sent men to consult with Baal- Zebub, the god of Ekron? Therefore you will not come down from the bed to which you have gone up; instead, you will certainly die.’**” (2 Kings 1:6 ULT)

The outermost layer is what the messengers said to the king. The second layer is what the man who had met the messengers told them. The third is what that man wanted the messengers to say to the king. The fourth is what Yahweh said. (We have bolded the fourth layer.)

Translation Strategies

Some languages use only direct quotes. Other languages use a combination of direct quotes and indirect quotes. In those languages it might sound strange and perhaps even be confusing if there are many layers of direct quotes.

(1) Translate all of the quotes as direct quotes.

(2) Translate one or some of the quotes as indirect quotes. (See [Direct and Indirect Quotations](#).)

Examples of Translation Strategies Applied

(1) Translate all of the quotes as direct quotes. In the example below we have bolded the indirect quotes in the ULT and the quotes that we have changed to direct quotes below it.

Festus presented to the king the things concerning Paul, saying, "There is a certain man was left here as a prisoner by Felix. So I am uncertain about the things concerning this matter. I asked **if he was willing to go to Jerusalem and there to be judged concerning these things**. But when Paul appealed **to keep him in custody for the decision of the emperor**, I ordered him **to be held in custody until when I could send him to Caesar**." (Acts 25:14b, 20-21 ULT)

Festus presented Paul's case to the king. He said, "A certain man was left behind here by Felix as a prisoner. I was uncertain about the things concerning this matter. I asked him, '**Will you go to Jerusalem to be judged there concerning these things?**' But when Paul said, '**I want to be kept in custody for the emperor's decision,**' I told the guard, '**Keep him in custody until when I can send him to Caesar.**'"

(2) Translate one or some of the quotes as indirect quotes. In English the word "that" can come before indirect quotes. It is bolded in the examples below. The pronouns that changed because of the indirect quote are also bolded.

And Yahweh spoke to Moses, saying, "I have heard the complaints of the sons of Israel. Speak to them and say, 'During the evenings you will eat meat, and in the morning you will be satisfied with bread. And you will know that I am Yahweh your God.'" (Exodus 16:11-12 ULT)

And Yahweh spoke to Moses, saying, "I have heard the complaints of the sons of Israel. Tell them **that** during the evenings **they** will eat meat, and in the morning **they** will be satisfied with bread. And **they** will know that I am Yahweh **their** God."

They said to him, "A man came to meet us who said to us, 'Go back to the king who sent you, and say to him, 'Yahweh says this: 'Is it because there is no God in Israel that you sent men to consult with Baal-Zebub, the god of Ekron? Therefore you will not come down from the bed to which you have gone up; instead, you will certainly die.'"" (2 Kings 1:6 ULT)

They told him **that** a man had come to meet **them** who said to **them**, "Go back to the king who sent you, and tell him **that** Yahweh says this: 'Is it because there is no God in Israel that you sent men to consult with Baal

Zebub, the god of Ekron? Therefore you will not come down from the bed to which you have gone up; instead, you will certainly die.”

Reflexive Pronouns

Description

All languages have ways of showing that the same person fills two different roles in a sentence. English does this by using reflexive pronouns. These are pronouns that refer to someone or something that has already been mentioned in a sentence. In English the reflexive pronouns are: “myself,” “yourself,” “himself,” “herself,” “itself,” “ourselves,” “yourselves,” and “themselves.” Other languages may have other ways to show this.

This page answers the question: *What are reflexive pronouns?*

In order to understand this topic, it would be good to read:

[Pronouns \(UTA PDF\)](#)

[Sentence Structure \(UTA PDF\)](#)

Reason This Is a Translation Issue

- Languages have different ways of showing that the same person fills two different roles in a sentence. For those languages, translators will need to know how to translate the English reflexive pronouns.
- The reflexive pronouns in English also have other functions.

Uses of Reflexive Pronouns

- To show that the same person or things fills two different roles in a sentence
- To emphasize a person or thing in the sentence
- To show that someone did something alone
- To show that someone or something was alone

Examples From the Bible

Reflexive pronouns are used to show the same person or thing fills two different roles in a sentence.

If **I** should testify about **myself**, my testimony would not be true. (John 5:31 ULT)

Now the Passover of the Jews was near, and **many** went up to Jerusalem from the country before the Passover in order to purify **themselves**. (John 11:55 ULT)

Reflexive pronouns are used to emphasize a person or thing in the sentence.

Jesus himself was not baptizing, but his disciples were. (John 4:2 ULT)

So they left the crowd, taking Jesus with them, just as he was, in the boat. There also were other boats with him. Then a violent windstorm arose and the waves were breaking into the boat so that the boat was already full of water. But **Jesus himself** was in the stern, asleep on the cushion. (Mark 4:36-38a ULT)

Reflexive pronouns are used to show that someone did something alone.

When Jesus realized that they were about to come and seize him by force to make him king, he withdrew again up the mountain **by himself**. (John 6:15 ULT)

Reflexive pronouns are used to show that someone or something was alone.

He saw the linen cloths lying there and the cloth that had been on his head. **It** was not lying with the linen cloths but was folded up in a place **by itself**. (John 20:6b-7 ULT)

Translation Strategies

If a reflexive pronoun would have the same function in your language, consider using it. If not, here are some other strategies.

- (1) In some languages people put something on the verb to show that the object of the verb is the same as the subject.
- (2) In some languages people emphasize a certain person or thing by referring to it in a special place in the sentence.
- (3) In some languages people emphasize a certain person or thing by adding something to that word or putting another word with it.
- (4) In some languages people show that someone did something alone by using a word like “alone.”
- (5) In some languages people show that something was alone by using a phrase that tells about where it was.

Examples of Translation Strategies Applied

- (1) In some languages people modify the verb to show that the object of the verb is the same as the subject.

If I should testify about **myself** alone, my testimony would not be true. (John 5:31)

“If I should **self-testify** alone, my testimony would not be true.”

Now the Passover of the Jews was near, and many went up to Jerusalem from the country before the Passover in order to **purify themselves**. (John 11:55)

“Now the Passover of the Jews was near, and many went up to Jerusalem out from country before the Passover in order to **self-purify**.”

- (2) In some languages people emphasize a certain person or thing by referring to it in a special place in the sentence.

He himself took our sickness and bore our diseases. (Matthew 8:17 ULT)

“**It was he who** took our sickness and bore our diseases.”

Jesus himself was not baptizing, but his disciples were. (John 4:2)

“**It was not Jesus who** was baptizing, but his disciples were.”

- (3) In some languages people emphasize a certain person or thing by adding something to that word or putting another word with it. English adds the reflexive pronoun.

But Jesus said this to test Philip, for he **himself** knew what he was going to do. (John 6:6)

- (4) In some languages people show that someone did something alone by using a word like “alone.”

When Jesus realized that they were about to come and seize him by force to make him king, he withdrew again up the mountain **by himself**. (John 6:15)

“When Jesus realized that they were about to come and seize him by force to make him king, he withdrew again **alone** up the mountain.”

- (5) In some languages people show that something was alone by using a phrase that tells about where it was.

He saw the linen cloths lying there and the cloth that had been on his head. It was not lying with the linen cloths but was folded up in a place **by itself**. (John 20:6b-7 ULT)

"He saw the linen cloths lying there and the cloth that had been on his head. It was not lying with the linen cloths but was folded up and lying **in its own place.**"

Rhetorical Question

A rhetorical question is a question that a speaker asks when he is more interested in expressing his attitude about something than in getting information about it. Speakers use rhetorical questions to express deep emotion or to encourage hearers to think deeply about something. The Bible contains many rhetorical questions, often to express surprise, to rebuke or scold the hearer, or to teach. Speakers of some languages use rhetorical questions for other purposes as well.

This page answers the question: *What are rhetorical questions and how can I translate them?*

In order to understand this topic, it would be good to read:

Figures of Speech ([UTA PDF](#))

Sentence Types ([UTA PDF](#))

Description

A rhetorical question is a question that strongly expresses the speaker's attitude toward something. Often the speaker is not looking for information at all. Or, if he is asking for information, it is not usually the information that the question appears to ask for. The speaker is more interested in expressing his attitude than in getting information.

But those who stood by said, **"Are you insulting the high priest of God?"**(Acts 23:4 ULT)

The people who asked Paul this question were not asking if he was insulting God's high priest. Rather, they used this question to accuse Paul of insulting the high priest.

The Bible contains many rhetorical questions. These rhetorical questions might be used for the purposes: of expressing attitudes or feelings, rebuking people, teaching something by reminding people of something they know and encouraging them to apply it to something new, or introducing something they want to talk about.

Reasons This Is a Translation Issue

- Some languages do not use rhetorical questions; for them a question is always a request for information.
- Some languages use rhetorical questions, but for purposes that are different or more limited than in the Bible.
- Because of these differences between languages, some readers might misunderstand the purpose of a rhetorical question in the Bible.

Examples From the Bible

Do you not still rule the kingdom of Israel? (1 Kings 21:7b ULT)

Jezebel used the question above to remind King Ahab of something he already knew: he still ruled the kingdom of Israel. The rhetorical question made her point more strongly than if she had merely stated it, because it forced Ahab to admit the point himself. She did this in order to rebuke him for being unwilling to take over a poor man's property. She was implying that, since he was the king of Israel, he had the power to take the man's property.

Will a virgin forget her jewelry, a bride her veils? Yet my people have forgotten me for days without number! (Jeremiah 2:32 ULT)

God used the question above to remind his people of something they already knew: a young woman would never forget her jewelry or a bride forget her veils. He then rebuked his people for forgetting him who is so much greater than those things.

Why did I not die when I came out from the womb? (Job 3:11a ULT)

Job used the question above to show deep emotion. This rhetorical question expresses how sad he was that he did not die as soon as he was born. He wished that he had not lived.

And how has this happened to me that the mother of my Lord would come to me? (Luke 1:43 ULT)

Elizabeth used the question above to show how surprised and happy she was that the mother of her Lord came to her.

Or what man is there among you, of whom his son will ask for a loaf of bread, but he will give him a stone? (Matthew 7:9 ULT)

Jesus used the question above to remind the people of something they already knew: a good father would never give his son something bad to eat. By introducing this point, Jesus could go on to teach them about God with his next rhetorical question:

Therefore, if you who are evil know how to give good gifts to your children, how much more will your Father who is in heaven give good things to those who ask him? (Matthew 7:11 ULT)

Jesus used this question to teach the people in an emphatic way that God gives good things to those who ask him.

What is the kingdom of God like, and what can I compare it to? It is like a mustard seed that a man took and threw into his garden ... (Luke 13:18b-19a ULT)

Jesus used the question above to introduce what he was going to talk about. He was about to compare the kingdom of God to something. In this case, he compared the kingdom of God to a mustard seed.

Translation Strategies

In order to translate a rhetorical question accurately, first be sure that the question you are translating truly is a rhetorical question and is not an information question. Ask yourself, "Does the person asking the question already know the answer to the question?" If so, it is a rhetorical question. Or, if no one answers the question, did the person who asked it expect to receive an answer? If not, it is a rhetorical question.

When you are sure that the question is rhetorical, then be sure that you understand the purpose for the rhetorical question. Is it to encourage or rebuke or shame the hearer? Is it to bring up a new topic? Is it to do something else?

When you know the purpose of the rhetorical question, then think of the most natural way to express that purpose in the target language. It might be as a question, or a statement, or an exclamation.

If using the rhetorical question would be natural and give the right meaning in your language, consider doing so. If not, here are other options:

- (1) Add the answer after the question.
- (2) Change the rhetorical question to a statement or exclamation.
- (3) Change the rhetorical question to a statement, and then follow it with a short question.
- (4) Change the form of the question so that it communicates in your language what the original speaker communicated in his.

Examples of Translation Strategies Applied

- (1) Add the answer after the question.

Will a virgin forget her jewelry, a bride her veils? Yet my people have forgotten me for days without number! (Jeremiah 2:32 ULT)

Will a virgin forget her jewelry, a bride her veils? **Of course not!** Yet my people have forgotten me for days without number!

Or what man is there among you, of whom his son will ask for a loaf of bread, but he will give him a stone? (Matthew 7:9 ULT)

Or what man is there among you, of whom his son will ask for a loaf of bread, but he will give him a stone? **None of you would do that!**

(2) Change the rhetorical question to a statement or exclamation.

What is the kingdom of God like, and what can I compare it to? It is like a mustard seed. (Luke 13:18-19a ULT)

This is what the kingdom of God is like. It is like a mustard seed ...

Are you insulting the high priest of God? (Acts 23:4b ULT) (Acts 23:4 ULT)

You should not insult God's high priest!

Why did I not die when I came out from the womb? (Job 3:11a ULT)

I wish I had died when I came out from the womb!

And how has this happened to me that the mother of my Lord should come to me? (Luke 1:43 ULT)

How wonderful it is that the mother of my Lord has come to me!

(3) Change the rhetorical question to a statement, and then follow it with a short question.

Do you not still rule the kingdom of Israel? (1 Kings 21:7b ULT)

You still rule the kingdom of Israel, **do you not?**

(4) Change the form of the question so that it communicates in your language what the original speaker communicated in his.

Or what man is there among you, of whom his son will ask for a loaf of bread, but he will give him a stone? (Matthew 7:9 ULT)

If your son asks you for a loaf of bread, **would you give him a stone?**

Will a virgin forget her jewelry, a bride her veils? Yet my people have forgotten me for days without number! (Jeremiah 2:32 ULT)

What virgin would forget her jewelry, and what bride would forget her veils? Yet my people have forgotten me for days without number

Simile

Description

A simile is a comparison of two things that are not normally thought to be similar. The simile focuses on a particular trait the two items have in common, and it includes the words “like,” “as,” or “than.”

This page answers the question: *What is a simile?*

In order to understand this topic, it would be good to read:

Figures of Speech ([UTA PDF](#))

When he saw the crowds, he had compassion for them, because they were troubled and discouraged, **like sheep not having a shepherd**. (Matthew 9:36)

Jesus compared the crowds of people to sheep without a shepherd. Sheep grow frightened when they do not have a good shepherd to lead them in safe places. The crowds were like that because they did not have good religious leaders.

See, I send you out **as sheep in the midst of wolves**, so be as wise **as the serpents** and harmless **as the doves**. (Matthew 10:16 ULT)

Jesus compared his disciples to sheep and their enemies to wolves. Wolves attack sheep; Jesus’ enemies would attack his disciples.

For the word of God is living and active and sharper **than any two-edged sword**. (Hebrews 4:12a ULT)

God’s word is compared to a two-edged sword. A two-edged sword is a weapon that can easily cut through a person’s flesh. God’s word is very effective in showing what is in a person’s heart and thoughts.

Purposes of Simile

- A simile can teach about something that is unknown by showing how it is similar to something that is known.
- A simile can emphasize a particular trait, sometimes in a way that gets people’s attention.
- Similes help form a picture in the mind or help the reader experience what he is reading about more fully.

Reasons This Is a Translation Issue

- People may not know how the two items are similar.
- People may not be familiar with both of the items being compared.

Examples From the Bible

Suffer hardship with me, **as a good soldier** of Christ Jesus. (2 Timothy 2:3 ULT)

In this simile, Paul compares suffering with what soldiers endure, and he encourages Timothy to follow their example.

Just as the lightning flashing from a place under the sky shines to another place under the sky, so will the Son of Man be. (Luke 17:24b ULT)

This verse does not tell how the Son of Man will be like the lightning. But in context we can understand from the verses before it that just as lightning flashes suddenly and everyone can see it, the Son of Man will come suddenly and everyone will be able to see him. No one will have to be told about it.

Translation Strategies

If people would understand the correct meaning of a simile, consider using it. If they would not, here are some strategies you can use:

- (1) If people do not know how the two items are alike, tell how they are alike. However, do not do this if the meaning was not clear to the original audience.
- (2) If people are not familiar with the item that something is compared to, use an item from your own culture. Be sure that it is one that could have been used in the cultures of the Bible. If you use this strategy, you may want to put the original item in a footnote.
- (3) Simply describe the item without comparing it to another.

Examples of Translation Strategies Applied

- (1) If people do not know how the two items are alike, tell how they are alike. However, do not do this if the meaning was not clear to the original audience.

See, I send you out **as sheep in the midst of wolves**. (Matthew 10:16a ULT) — This compares the danger that Jesus' disciples would be in with the danger that sheep are in when they are surrounded by wolves.

See, I send **you out among wicked people** and you will be in danger from them **as sheep are in danger when they are among wolves**.

For the word of God is living and active and sharper **than any two-edged sword**. (Hebrews 4:12a ULT)

For the word of God is living and active and **more powerful than a very sharp two-edged sword**.

- (2) If people are not familiar with the item that something is compared to, use an item from your own culture. Be sure that it is one that could have been used in the cultures of the Bible. If you use this strategy, you may want to put the original item in a footnote.

See, I send you out **as sheep in the midst of wolves**. (Matthew 10:16a ULT) — If people do not know what sheep and wolves are, or that wolves kill and eat sheep, you could use some other animal that kills another.

See, I send you out **as chickens in the midst of wild dogs**.

How often did I long to gather your children together, just **as a hen gathers her chickens under her wings**, but you were not willing! (Matthew 23:37b ULT)

How often I wanted to gather your children together, **as a mother closely watches over her infants**, but you refused!

If you have faith **as a grain of mustard** ... (Matthew 17:20)

If you have faith even as small **as a tiny seed**,

- (3) Simply describe the item without comparing it to another.

See, I send you out **as sheep in the midst of wolves**. (Matthew 10:16a ULT)

See, I send you out among **people who will want to harm you**.

How often did I long to gather your children together, just **as a hen gathers her chickens under her wings**, but you were not willing! (Matthew 23:37b ULT)

How often I wanted to **protect you**, but you refused!

Symbolic Action

Description

A symbolic action is something that someone does in order to express a certain idea. For example, in some cultures people nod their heads up and down to mean “yes” or turn their heads from side to side to mean “no.” Symbolic actions do not mean the same things in all cultures. In the Bible, sometimes people perform symbolic actions and sometimes they only refer to the symbolic action.

This page answers the question: *What is a symbolic action and how do I translate it?*

In order to understand this topic, it would be good to read:

Translate Unknowns ([UTA PDF](#))

Examples of symbolic actions

- In some cultures people shake hands when they meet to show that they are willing to be friendly.
- In some cultures people bow when they meet to show respect to each other.

Reason This Is a Translation Issue

An action may have a meaning in one culture and a different meaning or no meaning at all in another culture. For example, in some cultures raising the eyebrows means “I am surprised” or “What did you say?” In other cultures it means “yes.”

In the Bible, people did things that had certain meanings in their culture. When we read the Bible, we might not understand what someone meant if we interpret the action based on what it means in our own culture today.

You (the translator) need to understand what people in the Bible meant when they used symbolic actions. If an action does not mean the same thing in your own culture, then you need to figure out how to translate what the action meant.

Examples From the Bible

And behold, a man came whose name was Jairus, and he was a ruler of the synagogue. And **falling at the feet of Jesus**, he begged him to come to his house. (Luke 8:41 ULT)

Meaning of symbolic action: He did this to show great respect to Jesus.

Look, I am standing at the door and am knocking. If anyone hears my voice and opens the door, I will come into him and will eat with him, and he with me. (Revelation 3:20 ULT)

Meaning of symbolic action: When people wanted someone to welcome them into their home, they stood at the door and knocked on it.

Translation Strategies

If people would correctly understand what a symbolic action meant to the people in the Bible, consider using it. If not, here are some strategies for translating it.

- (1) Tell what the person did and why he did it.
- (2) Do not tell what the person did, but tell what he meant.

(3) Use an action from your own culture that has the same meaning. Do this only in poetry, parables, and sermons. Do not do this when there actually was a person who did a specific action.

Examples of Translation Strategies Applied

(1) Tell what the person did and why he did it.

And **falling at the feet of Jesus** (Luke 8:41 ULT)

Jairus fell down at Jesus' feet in order to show that he greatly respected him.

Look, I am **standing at the door and am knocking**. (Revelation 3:20 ULT)

Look, I stand at the door and knock on it, asking you to let me in.

(2) Do not tell what the person did, but tell what he meant.

And **falling at the feet of Jesus** (Luke 8:41 ULT)

Jairus showed Jesus great respect.

Look, I am **standing at the door and am knocking**. (Revelation 3:20 ULT)

Look, I stand at the door and ask you to let me in.

(3) Use an action from your own culture that has the same meaning.

And **falling at the feet of Jesus** (Luke 8:41 ULT) — Since Jairus actually did this, you should not substitute an action from your own culture.

Look, I am **standing at the door and am knocking**. (Revelation 3:20 ULT) — Jesus was not standing at a real door. Rather he was speaking about wanting to have a relationship with people. So in cultures where it is polite to clear one's throat when wanting to be let into a house, you could use that.

Look, I stand at the door and clear my throat.

Synecdoche

Description

Synecdoche is a figure of speech in which a speaker uses a part of something to refer to the whole thing, or uses the whole to refer to a part.

■ **My soul** magnifies the Lord. (Luke 1:46b ULT)

Mary was very happy about what the Lord was doing, so she said “my soul,” which means the inner, emotional part of herself, to refer to her whole self.

■ So **the Pharisees** said to him, “Look, why are they doing that which is not lawful?” (Mark 2:24a ULT)

The Pharisees who were standing there did not all say the same words at the same time. Instead, it is more likely that one man representing the group said those words.

Reasons This Is a Translation Issue

- Some readers may not recognize the synecdoche and thus misunderstand the words as a literal statement.
- Some readers may realize that they are not to understand the words literally, but they may not know what the meaning is.

Example From the Bible

■ Then I looked on all the deeds that **my hands** had accomplished. (Ecclesiastes 2:11a ULT)

“My hands” is a synecdoche for the whole person because clearly the arms and the rest of the body and the mind were also involved in the person’s accomplishments. The hands are chosen to represent the person because they are the parts of the body most directly involved in the work.

Translation Strategies

If the synecdoche would be natural and give the right meaning in your language, consider using it. If not, here is another option:

(1) State specifically what the synecdoche refers to.

Examples of Translation Strategies Applied

(1) State specifically what the synecdoche refers to.

■ “**My soul** magnifies the Lord.” (Luke 1:46b ULT)

■ “**I** magnify the Lord.”

So **the Pharisees** said to him ... (Mark 2:24a ULT)

■ **A representative of the Pharisees** said to him ...

Then I looked on all the deeds that **my hands** had accomplished. (Ecclesiastes 2:11a ULT)

■ I looked on all the deeds that **I** had accomplished

Textual Variants

Description

Thousands of years ago, people wrote the books of the Bible. Other people then copied them by hand and translated them. They did this work very carefully, and over the years many people made thousands of copies. However, people who looked at them later saw that there were small differences between them. Some copiers accidentally left out some words, or some mistook one word for another that looked like it. Occasionally, they added words or even whole sentences, either by accident or because they wanted to explain something. Modern Bibles are translations of the old copies. Some modern Bibles include some of these sentences that were added. In the ULT, these added sentences are usually written in footnotes.

This page answers the question: *Why does the ULT have missing or added verses, and should I translate them?*

In order to understand this topic, it would be good to read:

Choosing a Source Text ([UTA PDF](#))

Original Manuscripts ([UTA PDF](#))

Bible scholars have read many old copies and compared them with each other. For each place in the Bible where there was a difference, they have figured out which wordings are most likely correct. The translators of the ULT based the ULT on wordings that scholars say are most likely correct. Because people who use the ULT may have access to Bibles that are based on other copies, the ULT translators have sometimes included information about some of the differences between them, either in the ULT footnotes or in the unfoldingWord® Translation Notes.

Translators are encouraged to translate the text in the ULT and to write about added sentences in footnotes, as is done in the ULT. However, if the local church really wants those sentences to be included in the main text, translators may put them in the text and include a footnote about them.

Examples From the Bible

Matthew 18:10-11 ULT has a footnote about verse 11.

¹⁰ See that you do not despise one of these little ones. For I say to you that in heaven their angels always look on the face of my Father who is in heaven. ¹¹ ^[1]

^[1] Many authorities, some ancient, insert v. 11: **For the Son of Man came to save that which was lost.**

John 7:53-8:11 is not in the best earliest manuscripts. It has been included in the ULT, but it is marked off with square brackets ([]) at the beginning and end, and there is a footnote after verse 11.

53 [Then everyone went to his own house ... 11 She said, "No one, Lord." Jesus said, "Neither do I condemn you. Go and sin no more."] ^[2]

^[2] Some ancient manuscripts include John 7:53-8:11

Translation Strategies

When there is a textual variant, you may choose to follow the ULT or another version that you have access to.

- (1) Translate the verses as they are in the ULT and include the footnote that the ULT provides.
- (2) Translate the verses as another version has them, and change the footnote so that it fits this situation.

Examples of Translation Strategies Applied

The translation strategies are applied to Mark 7:14-16 ULT, which has a footnote about verse 16.

¹⁴ He called the crowd again and said to them, "Listen to me, all of you, and understand. ¹⁵ There is nothing from outside the man that can defile him when it enters into him. But the things that come out of the man are the things that defile the man." ¹⁶ [1]

[1] Some ancient manuscripts include verse 16: **If any man has ears to hear, let him hear.**

(1) Translate the verses as they are in the ULT and include the footnote that the ULT provides.

¹⁴ He called the crowd again and said to them, "Listen to me, all of you, and understand. ¹⁵ There is nothing from outside the man that can defile him when it enters into him. But the things that come out of the man are the things that defile the man." ¹⁶ [1]

Translate Unknowns

While working to translate the Bible, you (the translator) might find yourself asking: “How do I translate words like lion, fig tree, mountain, priest, or temple when people in my culture have never seen these things and we do not have a word for them?”

This page answers the question: *How can I translate ideas that my readers are not familiar with?*

In order to understand this topic, it would be good to read:

Sentence Structure ([UTA PDF](#))

Description

Unknowns are things that occur in the source text that are not known to the people of your culture. The unfoldingWord® Translation Words pages and the unfoldingWord® Translation Notes will help you understand what they are. After you understand them, you will need to find ways to refer to those things so that people who read your translation will understand what they are.

They said to him, “We have nothing here except five loaves of **bread** and two fish.” (Matthew 14:17 ULT)

Bread is a particular food made by mixing finely crushed grains with oil, and then cooking the mixture so that it is dry. (Grains are the seeds of a kind of grass.) In some cultures people do not have bread and do not know what it is.

Reason This Is a Translation Issue

- Readers may not know some of the things that are in the Bible because those things are not part of their own culture.
- Readers may have difficulty understanding a text if they do not know some of the things that are mentioned in it.

Translation Principles

- Use words that are already part of your language if possible.
- Keep expressions short if possible.
- Represent God’s commands and historical facts accurately.

Examples From the Bible

So I will turn Jerusalem into piles of ruins, a hideout for **jackals**. (Jeremiah 9:11a ULT)

Jackals are wild animals like dogs that live in only a few parts of the world. So they are not known in many places.

Beware of false prophets, who come to you in sheep’s clothing, but inwardly they are ravenous **wolves**. (Matthew 7:15 ULT)

If wolves do not live where the translation will be read, the readers may not understand that they are fierce, wild animals like dogs that attack and eat sheep.

They offered him wine mixed with **myrrh**, but he did not drink it. (Mark 15:23 ULT)

People may not know what myrrh is and that it was used as a medicine.

... to him who made **great lights** ... (Psalm 136:7a ULT)

Some languages have terms for things that give light, like the sun and fire, but they have no general term for lights.

Your sins ... will be white like **snow**. (Isaiah 1:18b ULT)

People in many parts of the world have not seen snow, but they may have seen it in pictures.

Translation Strategies

Here are ways you might translate a term that is not known in your language:

- (1) Use a phrase that describes what the unknown item is, or what is important about the unknown item for the verse being translated.
- (2) Substitute something similar from your language if doing so does not falsely represent a historical fact.
- (3) Copy the word from another language, and add a general word or descriptive phrase to help people understand it.
- (4) Use a word that is more general in meaning.
- (5) Use a word or phrase that is more specific in meaning.

Examples of Translation Strategies Applied

- (1) Use a phrase that describes what the unknown item is, or what is important about the unknown item for the verse being translated.

Beware of false prophets, who come to you in sheep's clothing, but are inwardly they are **ravenous wolves**. (Matthew 7:15 ULT)

Beware of false prophets, who come to you in sheep's clothing, but **inwardly they are very hungry and dangerous animals**.

"Ravenous wolves" is part of a metaphor here, so the reader needs to know that they are very dangerous to sheep in order to understand this metaphor. (If sheep are also unknown, then you will need to also use one of the translation strategies to translate sheep, or change the metaphor to something else, using a translation strategy for metaphors. See [Translating Metaphors](#).)

"We have nothing here except five **loaves of bread** and two fish." (Matthew 14:17 ULT)

We have nothing here except five **loaves of baked grain seeds** and two fish.

- (2) Substitute something similar from your language if doing so does not falsely represent a historical fact.

Your sins ... will be white like **snow**. (Isaiah 1:18b ULT) This verse is not about snow. It uses snow in a figure of speech to help people understand how white something will be.

Your sins ... will be white like **milk**.

Your sins ... will be white like **the moon**.

- (3) Copy the word from another language, and add a general word or descriptive phrase to help people understand it.

Then they tried to give Jesus wine that was mixed with **myrrh**. But he refused to drink it. (Mark 15:23 ULT) — People may understand better what myrrh is if it is used with the general word "medicine."

Then they tried to give Jesus wine that was mixed with **a medicine called myrrh**. But he refused to drink it.

"We have nothing here except five **loaves of bread** and two fish." (Matthew 14:17 ULT) —
People may understand better what bread is if it is used with a phrase that tells what it is made of (seeds) and how it is prepared (crushed and baked).

We have nothing here except five loaves of **baked crushed seed bread** and two fish.

(4) Use a word that is more general in meaning.

I will turn Jerusalem into piles of ruins, a hideout for **jackals** (Jeremiah 9:11a ULT)

I will turn Jerusalem into piles of ruins, a hideout for **wild dogs**

"We have nothing here except five **loaves of bread** and two fish." (Matthew 14:17 ULT)

We have nothing here except five **loaves of baked food** and two fish.

(5) Use a word or phrase that is more specific in meaning.

... to him who made **great lights** ... (Psalm 136:7a ULT)

to him who made **the sun and the moon**

avenge, avenger, revenge, vengeance

Definition:

To “avenge” or “take revenge” or “execute vengeance” is to punish someone in order to pay him back for the harm he did. The act of avenging or taking revenge is “vengeance.”

- Usually “avenge” implies an intent to see justice done or to right a wrong,
- When referring to people, the expression “take revenge” or “get revenge” usually involves wanting to get back at the person who did the harm.
- When God “takes vengeance” or “executes vengeance,” he is acting in righteousness because he is punishing sin and rebellion.

Translation Suggestions:

- The expression to “avenge” could also be translated as to “right a wrong” or to “get justice for.”
- When referring to human beings, to “take revenge” could be translated as “pay back” or “hurt in order to punish” or “get back at.”
- Depending on the context, “vengeance” could be translated as “punishment” or “punishment of sin” or “payment for wrongs done.” If a word meaning “retaliation” is used, this would apply to human beings only.
- When God says, “take my vengeance,” this could be translated by “punish them for wrongs done against me” or “cause bad things to happen because they have sinned against me.”
- When referring to God’s vengeance, make sure it is clear that God is right in his punishment of sin.

covenant

Definition:

In the Bible, the term “covenant” refers to a formal, binding agreement between two parties that one or both parties must fulfill.

- This agreement can be between individuals, between groups of people, or between God and people.
- When people make a covenant with each other, they promise that they will do something, and they must do it.
- Examples of human covenants include marriage covenants, business agreements, and treaties between countries.
- Throughout the Bible, God made several different covenants with his people.
- In some of the covenants, God promised to fulfill his part without conditions. For example, when God established his covenant with mankind promising to never destroy the earth again with a worldwide flood, this promise had no conditions for people to fulfill.
- In other covenants, God promised to fulfill his part only if the people obeyed him and fulfilled their part of the covenant.

The term “new covenant” refers to the commitment or agreement God made with his people through the sacrifice of his Son, Jesus.

- God’s “new covenant” was explained in the part of the Bible called the “New Testament.”
- This new covenant is in contrast to the “old” or “former” covenant that God had made with the Israelites in Old Testament times.
- The new covenant is better than the old one because it is based on the sacrifice of Jesus, which completely atoned for people’s sins forever. The sacrifices made under the old covenant did not do this.
- God writes the new covenant on the hearts of those who become believers in Jesus. This causes them to want to obey God and to begin to live holy lives.
- The new covenant will be completely fulfilled in the end times when God establishes his reign on earth. Everything will once again be very good, as it was when God first created the world.

Translation Suggestions:

- Depending on the context, ways to translate this term could include, “binding agreement” or “formal commitment” or “pledge” or “contract.”
- Some languages may have different words for covenant depending on whether one party or both parties have made a promise they must keep. If the covenant is one-sided, it could be translated as “promise” or “pledge.”
- Make sure the translation of this term does not sound like people proposed the covenant. In all cases of covenants between God and people, it was God who initiated the covenant.
- The term “new covenant” could be translated as “new formal agreement” or “new pact” or “new contract.”
- The word “new” in these expressions has the meaning of “fresh” or “new kind of” or “another.”

reward, prize, deserve

Definition:

The term "reward" refers to what a person receives because of something he has done, either good or bad. To "reward" someone is to give someone something he deserves. However, this is different than the concept of "wages," which refers to payment (often money) given in exchange for work performed.

- A reward can be a good or positive thing that a person receives because he has done something well or because he has obeyed God.
- Sometimes a reward can refer to negative things that may result from bad behavior, such as the statement "the reward of the wicked." In this context "reward" refers to the punishment or negative consequences they receive because of their sinful actions.

Translation Suggestions:

- Depending on the context, the term "reward" could be translated as "payment" or "something that is deserved" or "punishment."
- To "reward" someone could be translated by to "repay" or to "punish" or to "give what is deserved."
- Make sure the translation of this term does not refer to wages. A reward is not specifically about earning money as part of a job.

sin, sinful, sinner, sinning

Definition:

The term “sin” refers to actions, thoughts, and words that are against God’s will and laws. Sin can also refer to not doing something that God wants us to do.

- Sin includes anything we do that does not obey or please God, even things that other people don’t know about.
- Thoughts and actions that disobey God’s will are called “sinful.”
- Because Adam sinned, all human beings are born with a “sinful nature,” a nature that controls them and causes them to sin.
- A “sinner” is someone who sins, so every human being is a sinner.
- Sometimes the word “sinners” was used by religious people like the Pharisees to refer to people who didn’t keep the law as well as the Pharisees thought they should.
- The term “sinner” was also used for people who were considered to be worse sinners than other people. For example, this label was given to tax collectors and prostitutes.

Translation Suggestions:

- The term “sin” could be translated with a word or phrase that means “disobedience to God” or “going against God’s will” or “evil behavior and thoughts” or “wrongdoing.”
- To “sin” could also be translated as to “disobey God” or to “do wrong.”
- Depending on the context “sinful” could be translated as “full of wrongdoing” or “wicked” or “immoral” or “evil” or “rebellious against God.”
- Depending on the context the term “sinner” could be translated with a word or phrase that means “person who sins” or “person who does wrong things” or “person who disobeys God” or “person who disobeys the law.”
- The term “sinners” could be translated by a word or phrase that means “very sinful people” or “people considered to be very sinful” or “immoral people.”
- Ways to translate “tax collectors and sinners” could include “people who collect money for the government, and other very sinful people” or “very sinful people, including (even) tax collectors.”
- Make sure the translation of this term can include sinful behavior and thoughts, even those that other people don’t see or know about.
- The term “sin” should be general, and different from the terms for “wickedness” and “evil.”

temple, house, house of God

Facts:

The temple was a building surrounded by walled courtyards where the Israelites came to pray and to offer sacrifices to God. It was located on Mount Moriah in the city of Jerusalem.

- Often the term “temple” referred to the whole temple complex, including the courtyards that surrounded the main building. Sometimes it referred only to the building.
- The temple building had two rooms, the Holy Place and the Most Holy Place.
- God referred to the temple as his dwelling place.
- King Solomon built the Temple during his reign. It was supposed to be the permanent place of worship in Jerusalem.
- In the New Testament, the term “temple of the Holy Spirit” is used to refer to believers in Jesus as a group, because the Holy Spirit lives in them.

Translation Suggestions:

- Usually when the text says that people were “in the temple,” it is referring to the courtyards outside the building. This could be translated as “in the temple courtyards” or “in the temple complex.”
- Where it refers specifically to the building itself, some translations translate “temple” as “temple building,” to make it the reference clear.
- Ways to translate “temple” could include, “God’s holy house” or “sacred worship place.”
- Often in the Bible, the temple is referred to as “the house of Yahweh” or “the house of God.”
